THURSDAY, JAN. 9, 1896.

The lowest railroads have reduced the rates on grain shipped from points in the west to Chicago from one to three cents per hundred.

A couple of women in the Sixteenth ward in Chicago have formed a general belief in the intelligence of the cat of the house and in the freedom to use it.

Two developments are soon to be started in the kingdom of Knox, both promising. The boys are evidently getting ready to make up the lost time from the last 60 days.

The greatest number of our readers from northern Nebraska have expected replies of the progress made by their towns and counties during 1895. The showing in almost every county is a splendid one, and the whole shows a very good idea of the rapid development of the country and the enterprising character of the people, and the "push" of our people.

It is with pleasure that we now can send a sample copy of our paper to any one who shall request it. We have added a department of "Interesting Reading" to our paper, which we think will be found very entertaining and instructive. We have also

Mr. and Mrs. R. L. Orford celebrated the seventeenth birthday of their daughter Della, Tuesday evening, with an evening party to which many of that popular young lady's friends were invited. The guests enjoyed themselves as only young people do, and spent a delightful evening, and all wished that Miss Della may live to see many birthdays, and that all may be as pleasant and bright as this one. At a reminder of the occasion the young hostess was presented with a handsome rocker by the guests.

Two young men of Youngstown, Ohio, of a speculative turn of mind, concluded that in the course of the horse-trotting privileges on the New Orleans exposition grounds, would be prize of much wealth, accepted to gether two thousand dollars, went to the Crescent City and laid their offerings at the feet of the managers, saying they would pay a team for the longest trotting if they, and they alone, were permitted to deal out the foaming liquor to the thirsty crowds. Their calculation was that two hundred thousand dollars had been offered for a license, and that a million and more demanded, would the two Buckeyes stake.

San Francisco Stockrise, Nov. 1st, 1884. The wife said she is dead, but it is a mistake, but it is not very elegant language to employ. Such is editorial. It is a mistake to say Kansas with which we are connected, whereupon we are the state connecting as a "break out" Republican party in Kansas, and in all northern Nebraska. Yours, "Goldsmith's Star" is a sport.

Monday evening Mr. and Mrs. A. B. Slater entertained a large number of friends, the occasion being the celebration of the 25th anniversary of their wedding. It was one of the most pleasant social gatherings Wayne has ever seen, and it was a late hour before the guests sought their homes. Some appropriate presents were left with the host and hostess, but their number was limited by the request, "no presents," which had accompanied the invitations.

Here's the way they go at it in Arizona: "The chap who injects venom into the columns of our very quarrelsome contemporary, is evidently afraid of us, although he needn't be for we only attack men. He is small by from the streets and saloons when we are present, and seems to be handing home through Dodge City's alley. And yet he calls himself a leading democrat, and keeps on to get the poor devil's bones of his rattling carcass, the unnecessarily and needed obligation, the patronage of the stylish of the town."—Tombstone Courier.

An Unnecessary Road

It appears that a road petition has been circulated for a road on Frank Blatchford's south line on the south half of section 12, township 26, Wayne county, Nebraska. The persons interested claim they did not know that a road could be laid on said line, except as which I understand to be fabricated, and the distance of road, which they petitioned for is only a mere of a mile. Now we think our county roads are overburdened with such unnecessary petitions and improvements of roads. And therefore we have our road already established, only eighty rods north of the one petitioned for that supports the purpose and will not require half as much money as this petitioned for. We think the action is entirely unnecessary and careless and hope that the settlers who have authority to act in the matter will ignore the same.

W. S. Addison.

An Essay on Bar

Mar that is born, of course is small potatoes and bear in a hole.

He cleth up today and Bernoulli this afternoon, and tomorrow or the day after the undertaker will aim to an so not.

The goeth out in the evening and sing like a lark, and is arrested and in one hour and in a corrale.

In the night of his life he is dead and the law enforcement hunts him wherever he goeth.

The member of Congress is full of promises, and he illustrates with his wonderful rapidity.

He sallies forth in the bright sunlight to clean the earth, and reaches the same before a right death for alms.

He cometh forth at eventide and he meeteth the ebonbarrow in his path, and the wheel arrow riseth up and smiteth him to the earth, and falleth upon him and reacheth one of its legs into his face.

In the gentle spring he partook on his summer clothes, and a blizzard striketh and for alms for his home and filleth him with woe and chewing tobacco.

He toyeth up much riches in the bank and the president speculateth in margins and then goeth to Canada for his health.

In the autumn he partook on the winter trousers, and a wasp that abideth therein filleth him full of interesting sentiments.

He cheriteth home cellar with an oleander, and goeth first hostily, and the oleander pineth after him and cheteth for him.

He sleeth all night to hear the news from Ohio, and then in the morning learneth that the other fellows have carried it.

He buyeth a watch dog, and when entitled home late from the lodge the watch dog seeth him and sitteth beneath him all day long.

He goeth to the horse trot and pelteth his money on the brown gelding, and the bay gelding wins Clay Aldrich.

He marrieth a red headed heiress with a wart on her nose, and the rest day her parental ancestor goeth under with five hundred and great liabilities and doteth on the wife he believed to be his heiress.

TO THE PUBLIC, GREETING.

Boards of Health are now everywhere correcting the faults of sewerage and advising the people how to prevent future epidemics.

But other precautions are necessary, without which no amount of Sanitation can avail. Dr. Koch says that cholera has but little chance among those who keep the digestive organs and the liver, skin and kidneys (the sewers of the body) in healthful operation.

Warner's SAFE Remedies are the most scientific Curatives and Preventives, and we cannot too much emphasize the importance of using them now, as a safeguard against any future scourge.

Much of the common ailments are caused, not primarily, by bad blood, but by IMPAIRED LIVER AND KIDNEYS. This results in blood corruption and injury to the entire system. Remove this impaired action, and most ordinary ailments will disappear. Other practitioners have held that extreme liver and kidney disorders are incurable. We, however, by the severest tests, have unanswerably proved the contrary. Please note:

FIRST.—WE DO NOT CURE EVERY KNOWN DISEASE FROM ONE BOTTLE. Warner's Safe Remedies are specifics, which have been carefully put upon the market ONLY IN OBEDIENCE TO STRONG PUBLIC DEMAND. These remedies are Warner's SAFE Cure, for Kidney, Liver, Bladder and Blood Disorders, General debility, Impotency, Gravel, female irregularities; Warner's Safe Diabetes Cure, for Diabetes—the only known specific; Warner's Safe Rheumatic Cure for Rheumatism; Neuralgia; Warner's Safe Pills for constipation, diarrhoea, biliousness; Warner's Safe Nervine for nervous disorders; Warner's Safe Throatine for Asthma, catarrh; Warner's Dyspepsine for all stomach derangements.

SECOND.—Warner's Safe Remedies, spite of all opposition, have won the victory and are everywhere recognized as leading STANDARDS.

THIRD.—After six years of unparalleled experience, we give these unqualified, guaranteed:

GUARANTEE I.—That Warner's Safe Remedies are pure, harmless, effective.

GUARANTEE II.—That the Testimonials used by us, as far as we know, are bona fide, with a forfeit of $5,000, for proof to the contrary.

GUARANTEE III.—That Warner's Safe Remedies are NOT MERELY TEMPORARY, BUT PERMANENT IN THEIR CURATIVE EFFECTS AND WILL SUSTAIN EVERY CLAIM, IF USED SUFFICIENTLY AND PRECISELY AS DIRECTED.

FOURTH.—Special inquiry among hundreds of our client patients results in unequivocal testimony that the cures wrought six, five, four and three years ago, were PERMANENT. And most of these Patients were pronounced INCURABLE when they began Warner's Safe Remedies. Read a few of Thousands of exemplars:
