TUESDAY, FEB. 5, 1889.

[illegible]

The Chicago Tribune appropriately made a report of a lecture by George Augustus Sala, R. A. M.

Cleveland is beating out some disguise and is going to run for a second term to construct canals. It is the plan that fits the pill of an old, used to the dodge.

The Dakota News succeeded after a struggle of a few months that Dakota had not room for a second paper, and has retired from business.

Five thousand people in Louisville, Ky., expected to have a lively time with the track. They could doubtless get the same results at a few rehearsals or "practicings."

O'Donnell Rowe, the dynamiter, was shot Monday by a woman who refused to give her reason for the act. Rowe was badly hurt, but will probably recover.

The President's place is being treated to enough advice to drive him to suicide. Every Democratic politician and his brother he meets is the recipient of a great deal of advice.

Democratic newspapers are springing up like mushrooms all over the state, and many of the good Republicans and Independents are being gathered into the Democratic fold.

Salem Lockwood no longer enjoys the distinction of being the only woman admitted to practice before the United States supreme court, as that privilege was conferred on Mrs. Laura Gordon this week.

The Oklahoma "boomers" have been driven from the Indian Territory again, but have already called a mass meeting to be ready to enter again on the 5th of March. They apparently intend to test Cleveland's nerve.

The Knox County News comes to us this week from Creighton instead of Niobrara, and is a full fledged Democratic sheet. The publication on Monday and March, and their first number shows that the readers of the News have lost nothing by the alliance.

The Philadelphia Press says the new center for California is the Hub, Mr. Sam S. S., and the remarks will turn jaspy with equal force to all the other states. The only qualification is that for a United States [illegible] to the south, but that is [illegible] possible.

There is general opinion abroad that Dr. Miller of the Omaha Herald, will have the position of Postmaster General in the next cabinet. We will thank you to a large surprise if reliable Republicans get in the same way of patronage in a cabinet of Democratic construction.

The Republicans, who are complaining in advance of the hardships that are to come from taking public positions from Republicans and giving them to Democrats, might vary the music a little by giving the number of Democrats who could have been given offices if Blaine had been elected.

It is said that Grant refused Sherman the sulkiest of his first article on the war for the reason that he regards that battle as the action of his most brilliant military work. He will have a good deal of difficulty in making the public believe that it was anything but a slow piece of stubbornness on the part of the federal army, but some note resulting the total destruction of the rebel army.

THE INTER OCEAN.

In 1888 The Inter Ocean enters upon the fourteenth year of its existence. Given minimum earnings by the end of the thirty days it has steadily grown in large measure this city, where the publishers take pride in the fact that the paper has grown more largely than any other newspaper of the Northwestern states.

From the beginning The Inter Ocean has been the organ of the Republican party, and has consistently advocated its success, not only in the interest of the Republican party, but because it believed that the interests of the country would be best subserved by the success of the Republican party. It will in the future again give its high and unbiased views of the Republican party, and will not be exclusively confined to the interests of the American people. The action of the Democratic party in accomplishing the result will be the signal for a united effort of the Republican party to regain the ground lost by the Democrats when the Republican party was in power, and to place it now in the Presidency, behind the National Government.

The Inter Ocean will be the organ through which the best Republican thought will be given to the people. It will point the principles of new issues for the good of the country, and will be a [illegible] to the Republican party in [illegible] of its strength. It will be greatly [illegible] Republican [illegible] in every section, and will be an [illegible] to the Republican [illegible] of the country. It will be a [illegible] to the Republican [illegible] of the country. It will be a [illegible] to the Republican [illegible] of the country. It will be a

CHAPTER I.

Captain John Hobbett, in which that hulking green old barn implied nothing honest, was the most jolly sort of a fellow everybody knew.

One night, several years ago, I was a passenger on a Missouri railway train that was unpleasantly robbed by a party of hunting young ruffians who not only stripped him of our valuables, but, while doing the outrage, subjected us to their low-bred raillery. I was not gentleman enough to resent it, but, being the outcome of the rascals cold me to take of my seat, I filled my pockets for an hour, all the watch, while from being the light-hearted fellow I was I became a sullen, morose, and, I fear, a little misanthropic.

While, in a sense, I am willing to grant a hearing to any one chosen to be well, the subject is which I come from my office, I believe.

"Are you quite sure that you may, sir?"

"Oh, yes."

"Where?"

"Yesterday night—Langette, I expect you think I was."

"Think what?" who asked, staggering.

"Think that I—well, left you to the chances. No, I'm going to tell you. I think you think well. Oh, yes, I feel."

"Well, I drank, sir, I drank!"

"No," I replied—"I never saw any one make half so well."
