THE WAYNE REPUBLICAN.

The only Straight Republican Paper in the City of Wayne

VOL. 5. WAYNE, WAYNE COUNTY, NEBRASKA, WEDNESDAY, FEBRUARY 8, 1899. NO. 52

There are two kinds of STEEL RANGES

THE MAJESTIC And Others

The Majestic Steel and Malleable Range is the best and cheapest

Best because it will not warp or break, uses less fuel and bakes quicker. Has a larger reservoir and works more satisfactory than others. Cheapest, because the best is always the cheapest. Cheaper than a castiron stove because it lasts three times as long.

Watch this space for date of exhibit, at which time we will demonstrate the above to be facts. Come in and see them at our store

Good Blood!

Your heart beats over one hundred thousand times each day. One hundred thousand pepperoni good or bad blood to your brain which is of

If bad, impure blood, then your brain aches. You are troubled with eruptions you can not sleep. You are all tired in the morning as if night. You have no nerve power. Your food does not do you little good.

Stimulants, tonics, headache powders, cannot cure you, but

Ayer's Sarsaparilla

will. It makes the liver, kidneys, skin and bowels perform their proper work. It removes all impurities from the blood. And it makes the blood rich in its life giving properties.

To Restore Recovery.

You will see more rap for cures. If you will take a teaspoonful of Ayer's pills each night. They cleanse the stomach, liver and bowels and cure constipation.

Write to our Doctors.

We have a large staff of medical advisers, who are ready to answer all letters sent to them. Write freely, as the publication of your name will not be allowed. Address, DR. J. C. AYER, Lowell, Mass.

THE NEWS SERVICE OF THE CHICAGO NEWSPAPER UNION

After-Effects of the GRIP

Grip is a treacherous disease. You think it is cured and the slightest cold brings on a relapse.

Its victims are always left in a weakened condition—blood impure and impoverished, nerves shattered. Pneumonia, heart disease and nervous prostration are often the result.

Dr. Williams' Pink Pills for Pale People will drive every trace of the poisonous germs from the system, build up and enrich the blood and strengthen the nerves. A trial will prove this. Read the evidence:

Use Arbutus.

The Arbutus is a much-footed bird, usually albino in color of petals. It is a very large creature, with a rather long beak, hooked at the point, and of a delicate pink color including to yellow. It is the largest of well-footed birds. Its measurement is about four feet in length and from tip to tip seven feet in spread of wings. The wings, however, are very narrow in proportion to their length. The feathers are of the delicate pink, with white, but with black feathers underneath have an farm upon the wings and back. This bird is often used as a good scavenger from small, shearing in southern seas, chiefly near the Tuple of Good Hope. It also supplies the crews of passing ships with plenty of food. Its chief enemy is the albatross, which is a much smaller bird, but more powerful and bolder. The albatross is in pursuit of young birds left by form its favorite food. By dint of progress, the young is enabled to overcome the albatross for over days on the other. Birds feed on the albatross, a young bird, the albatross, the albatross feed on young birds, and the albatross feed on young birds. [illegible]

Entered at the Postoffice at Wayne, Nebraska, as second class matter.

The Union Pacific has its north line in condition to ballast for new equipment for the fall.

It is now stated that the gold output of the Cripple Creek district will reach $20,000,000 for the year 1896.

Orange, Colorado and Kansas warmers will be put in crops on fine lands that are to be had well within the limits of Nebraska.

[illegible]

Commissioner Newman says that portions of the legislature are under a strong pressure to pass a law in Nebraska for the protection of the farmers. Exactly what form the legislation will take is not clear at present, but it is understood that Nebraska farmers are to be given a chance to get a little of the protection which many years of high tariff have given to the manufacturers.

[illegible]

Nebraska farmers are now in a position to be well and comfortable on the proceeds of a year's crop. The cloud of hard times and the storm of low prices appear to have passed over, leaving the sky clear and the sunshine of prosperity upon us. Law and order prevail in all the new settlements, and the farmer is in a position to reap the full benefit of his labor

FIGHTING AT MANILA

EVERYTHING FAVORABLE TO AMERICAN ARMS.

Insurgents Driven Beyond the Lines Formerly Occupied by Them—Filipinos' Loss Great, While Ours is Comparatively Small

Philippine and American Cloak.

The long expected rupture between the Americans and the Filipinos has occurred. The Americans are now engaged in driving the Filipinos out of the city of Manila. The trouble was precipitated by the insurgents opening fire on the American lines. The fresh troops at Manila Saturday evening, when three detachments of regiments held the Filipinos at bay, while the remaining detachments of regiments pushed on to Santa Mesa, but retired when challenged. They repeated the experiment without drawing the insurgent fire. But the third time, Corporal Grayson challenged the sentinel and then fired, killing one of them and wounding another. Almost immediately afterward the Filipinos became fearfully alarmed. The Americans were fortified which was not the case. The Nebraska, Montana and North Dakota volunteers opened vigorously and fired their ground until re-enforcements arrived. The Kansas and the mountain artillery also did some good. Colorado, Pennsylvania and Ohio fired.

At about 4 o'clock the Filipinos opened a battle from all three places simultaneously. This was supplemented by the three Gatlings, one at Santa Mesa, and by the heavy fire from the Monitor and Pinkney. The Americans responded with a terrific fire. Gen. Lawton, who was in command, was hotly engaged in the effort.
