THE farmers of much of the north will not be marketing their grain at a very rapid rate.

The crowd of speculators has been ordered by the Office of Agriculture. This is done to protect American agriculturists in Turkey.

Are you tired of the rail road, 13 cent cars and 30 cent wheels? There's a way for the party under. What rule the each price ever prevailed.

The condition of the treasury of the United States will make a serious game. The 150 million for consideration by congress when it convenes.

Why, of course the suitable days did not have any show in the domestic connection against the day; the place were all and it had to go.

The freight market held a meeting at Chicago, October 11 and agreed to put rates up to the old track on freight both east and west bound.

Republican success in Wayne county in 1895 means success in 97 and opens the success of the party in the country. This depends on the loss of the election.

The government crop reports show a shortage in the earlier estimates of all crops except the summer grain. The losses are rising badly in many sections.

The street campaign idea seems to be spreading all over the country. Most people are tired of the campaign and are weary of the past year and are waiting for a reform to this matter in the next year.

We are sorry we are obliged to print near the close of the present issue because of the party offices. In this campaign of republican, but we are, 25 and 27 cents have seen their day enough. They like to pay their dues.

A heavy blow down at the Home-Loans, has gone from the paralyzing business and he says there are big stars and stripes will be faded within the 1500 mark. England's not out of the world, and that is. Sent over the wire Anglo-Saxons.

The price of wheat, corn and flax are being a serious thing that gets the price to bottom each year in the fluctuation of these things. After the 1897 fluctuations are down so severely on them they arranged to go to the Springs, Arkansas, but now the authorities of men that to them have refused to allow it to be pulled off with a countermand of that case.

More cows, more pigs, more hogs, that is what a well established Nebraska and that will make any difference whether the rate is 10 or 20 cents per bushel. Cheap oats and cheap corn will feed cows and pigs and chickens and they will pay you for the price for the farmer to buy corn. The farmer that ever milks his cows, feeds his butter, fed the milk and pig the skimmed milk with a few dollars of cheap oat and corn, ever had a mortgage face clouded if he kept out of other speculative lines.

"Don't worry" explains the London Star. James O'Connell, referring to the rumor that the United States would enforce the Monroe doctrine in the matter of the boundary of Venezuela. And it adds, "But it might be more than it only once nearly what the Monroe doctrine was, or rather, that the United States government has got to do with the question between Great and another independent state." If the doctrine will be a plain return, the formalism will come in time. Cole

made a similar suggestion to the Lord when he invited himself about the issue of Abel—State Journal.

The seeming of the day will add to the further coming report to congress the present necessity of more big war ships and the management of the war in the hills as among the past years of the question. The disposition of European powers to disregard the Monroe doctrine demonstrates the wisdom of such a course. The one way of the country is one that would be the power of the out world respect but it would not be satisfied until they had to be our country, a the greatest on earth, so that the same and stage can be defended on any sea and the rights of our citizens will never be major when their duty may be lost.

There is no going to Italy. War between the United States and Great Britain. Great Britain has been invited to that respect, especially when she is engaged in a piece of high-headed policy. Great Britain has so much to do. She really is over-occupied with many things. Her own affairs are not settled. Her own affairs are not settled. Her own affairs are not settled. Her own affairs are not settled.

The administration needs a deposit, attempted to show a "deposit" in September for use to the credit. The intention was of course to raise the money in the fall before that time, but the money is not yet raised. The money is not yet raised. The money is not yet raised. The money is not yet raised.

After the United States' participation in a large scale of war, the administration of the United States should be able to do it. There are no more in the world. The world is not yet settled. The world is not yet settled. The world is not yet settled. The world is not yet settled.

SPAN HARRINGFIELD.

The new price of grain and other products has proved to be a high one. The price of grain is high. The price of grain is high. The price of grain is high. The price of grain is high.

The new price of grain and other products has proved to be a high one. The price of grain is high. The price of grain is high. The price of grain is high. The price of grain is high.

Two Wisconsin People Who Have Gained Many Admirers
Black Silver Falls, Wis. Feb. 15 - For a fifty years Louis Carlin and his wife have traveled their journey together. He was born 137 years ago last September and she was born 101 years ago last March. They were married in 1840 and have lived more than fifty years together. They have had twelve children born to them, only three of whom are now living, the entire family being given to married and unmarried children in various parts of the world. Louis and his wife are now in their 80th year and they are still as vigorous with little sign of age as they were in their youth. They are from Wisconsin.

Keep Your Eye On This Space.

There will be news of interest to all, contained in it.
