

**WAYNE REPUBLICAN.**

Published at Wayne, Nebraska, at the residence of Wm. S. Brown, at second of 11th street, Monday 11th 1897.

The railroads of Pennsylvania have had a bad year and it is expected to be the worst of the year.

An effort is to be made this winter to get the Iowa legislature to pass a 2 cent-a-mile rate for passenger cars in that state.

David Bennett Hill has become disgusted with himself as a lecture platform attendance and has given up the business.

Gov. A. P. the republican congress in its course and it is time to have a little louder than usual because there is yet no relief from deplorable stringency.

Joseph Jefferson says "Great will tour in Europe after the expiration of the present term as president" he will be as perfect as a peach to whom to impress, most people of the United States are done with him.

A Philadelphia paper asks the question "Do the editors of the various papers that publish papers, not in the 'wooly wool' can say truthfully that at least some kinds of 'opinions' have left no corner" within the past two years.

The following are the principal officers of the fifty-fourth congress: Speaker, Thomas B. Reed of Maine; Clerk Alexander S. Merrell, Penn.; Reading Sergeant at Arms, Edmund Russell, Missouri; Doorkeeper, William Glen, Ohio; Postmaster Joseph D. McKinley, Ohio; all of course it is unnecessary to say they are all republicans.

The Sioux City Journal comes about as near being as liberal daily as is published anywhere in the western country. It gives space to the views of the cultural fringe apart with good amount of latitude in each issue. It is encouraging, thoroughly writer and always up to date, in every department, it is a source of mutual pleasure to its readers. We like the Journal.

When copper sells at 22 cents per bushel and the world sells at \$1 per bushel it is not a bad thing to have a crop for one lot of wool. If the farmer lived four miles from town it would take him what day to get the wool to market and the cost here. Five eight cents a lb. can earn weight over two cents and it is a question in the minds of many if it is not about as cheap as there ever was to sell it in the present market and buy coal.

The gubernatorial race is heating in the bunch of a couple of hundred republicans. It is said that Messrs. R. M. Moore, C. J. Johnson, W. C. Johnson and several others have been talking their machines and have concluded that their party be supported by S. W. Gardner with just about all the money they can get. Enough men and business men and connection have been made as mentioned are likely to back up and support the Gardner who are putting up faces.

It has been suggested that the republican national convention change the plan of representation in its representative from the ratio of congressional representation of one member for the republican vote of the state. It is so simple that it would seem to be the best thing. As it now stands, that give the less important states a less representation in proportion to the number of votes they furnish the same as frequently by the vote of those not participating states the instance in the party to obtain, without any regard to the majority elect of the state that must do the voting. It is so simple if the people that furnish the vote for a party ought to have the same as all others.

The board of commissioners of the right thing in providing a safe and making a contract for the sale of there an unfortunate case. It is possible to provide themselves with life's necessities. It will make a great deal of sense for the board to get a good many legislators. There will be no more orders given to justice of the peace acting as executors of the poor. Some of the justices have been able to their orders, one of them in the city of Wayne giving an order in one of the unfortunate for the holder of the property, either the executor thought that it would be cheaper to get the holding sold with no pay to the poor good food, or else his wife's very particular as long as Wayne county had the bill and his wife's money for the bill and his wife, W. P. Clark, clerk of the court, has been ordered the contract of taking care of all nursing cases, once and in to receive \$2.50 per week.

person over. The contract is only temporary, being for thirty days and at the expiration of that time the board will be better able to take care of the matter as they will then have a better idea of the number of persons to be cared for.

**WILL APPLY TO NEBRASKA.** Nebraska Public Opinion. It is hard to beat the state of Iowa in anything. Politics, religion or anything else, possibly everything, nothing is the exact copy in the world, year in and year out. It has some of the finest crops in the world to say nothing about the two-legged ones. It has some of the best cattle in the world, and some of the best cows. What has made Iowa such a success? Grain growing? Not by a long way. The success of Iowa has come mostly through stock raising and dairying. The farmer who does not produce from five to fifteen dollars a month from his stock is a very poor sort of a farmer. This money he receives regularly every month. Hundreds of Iowa farmers have an income of \$500 a month. It is hardly difficult a month from their cows alone. It was not many years ago that the farmers of Iowa were decrying themselves poorer with each passing year. That was when they were raising corn and wheat and raising and raising in the one till through grain growing. When they were told that they could do long, their heads a top end by starting from grain growing and stock raising and that they could get about hundreds of South Dakota farmers are doing today. The farmer that has a cow that he cannot keep has lost the mortgage and give him in and then a comfortable home. The reputation of Iowa may be the experience of Iowa 25th-26th.

**UBER DER MESSIAH.** The message of the president of the United States was read to congress on the 11th. It was a grand deal and our old history. It is a message that will help the poor and the American people that the world would like to see. It will show the manufacturer of goods that the manufacturer of goods that are produced by the factory and the farmer of the soil. It will show the farmer of the soil that there have been placed before them that fails to point out to America as it will respect the soil, grain and stock raising. It will show the farmer of the soil that there have been placed before them that fails to point out to America as it will respect the soil, grain and stock raising. It will show the farmer of the soil that there have been placed before them that fails to point out to America as it will respect the soil, grain and stock raising.

These are only a few of the cash bargains at Sullivan Brothers, Main Street, Wayne, Nebraska.

# ELECTION IS OVER.

That problem is solved. And the most important question before the people of this county today is WHERE to make the least money buy the greatest quantity of Winter goods.

# JENNY

## CHARLOTTE'S

### BRAINE

It was fortunate that at this juncture Mrs. Bruce, who had with her a grand taker for the case, was able to take Jenny to stay with them for the next three months.

Her first week was the time when she had to stay with the Quaker family.

The Quaker family had been selected by the Quaker community to be the best of the kind to be found in the county.
