**growing time.**

That boy - A little lad, all fun. A little chap, all cheer. A rounder, brighter, knowing, whether the stroke will go up and make him six or down, and make him nice. It's growing time with him. He is burning up fat. This fat must be in as constant supply as the air he breathes. It has got to come from somewhere. If it does not come from his food, it must come from fat stored up in his body. He steals it, and you say "He's getting thin - his growing so fast."

Scott's Emulsion will take that boy, set his digestion at work, rebuild that body. His food may not make him fat - Scott's Emulsion will.
