GROVER STANDS PAT

DEMANDS ENFORCEMENT OF THE MONROE DOCTRINE.

In a Special Message to Congress he demands that the U.S. has no right to interfere in European disputes.

Clears Up Misapprehensions.

Washington, Dec. 17.—The president has today in a special message to Congress cleared up the misapprehensions that have arisen since the publication of the Monroe doctrine. He says that the United States has no right to interfere in European disputes, and that the doctrine is not a threat to the peace of the world.

The president's message is a clear and concise statement of the policy of the United States. He says that the United States is not interested in European wars, and that it will not interfere in the affairs of other nations.

He also says that the United States will stand by the Monroe doctrine, and that it will not allow any European power to establish a colony in the Western Hemisphere.

"Oh, those are mere matters of adoption," replied Dan, carelessly. "I don't care for them. I'm a soldier, not a politician."

Another bond issue of from \$30,000.00 to \$100,000.00 is contemplated. Duluth News Special. - Iowa edition. Over 700 copies are reported in the city.

Internal machines were sent to George M. Fullerton and W. J. Aronoff lately.

Ex-Congressman W. A. McKelighan died at the Red Cloud Invalid Hospital, Dec. 25.

The excess of expenditures for the government over its revenues for the past year are \$320,000,000.

The expense to the United States government for interest on its bonds for the year 1900 has been \$200,000,000.

The German National Bank of Lincoln closed its doors on the 15th Capital \$100,000, liabilities, \$120,000.

The Scribner Journal predicts that if Albin is nominated for president it will have a minority in favor of a hundred thousand. In that the States City Journal.

In 1892 under the McKinley law our exports were \$100,000,000. In 1891 under the Wilson bill they are \$203,000,000. How are we capturing the markets of the world?

Secretary Carlisle in his report to congress advocates the retirement of the treasury note and the greenback and the issuance for that purpose of a 4 per cent bond.

The average price for wheat in 1900 to 1905 was 90c. from 1905 to 1910 the average price has been the percentage. The first under Republican administration the second you know all about.

Attorney General Charles H. Gibson in an interview in the Washington Post declared that the public sentiment in Nebraska is divided between McKinley and Albin. States City Journal.

President Cleveland finds that the duties of his executive office, and that when the difference in it does cost the people \$100 per day or over for an hour or more.

Contract the currency by retiring the greenbacks and treasury notes and retire the national debt by bond issues drawing interest to retire these debts the policy advocated by the present administration.

Referring to details of the republican national convention the Star, a Record definitely declares: "This nation has prospered and will prosper because of the leadership of our President. Let her come in strength. States City Journal."

Without admitting her shortcomings she is kind enough to point out to its readers how she has been criticized by heretofore and after being published that she has also only once since - on the one that they contain are many pounds for a dollar as under the scheme McKinley wants.

Tom Mays is said to have an eye on the nomination for governor in this state next fall. Doubt you do not find a lot of the fellows stayed by you two years ago and we found a real hard work. They're straightened, organized, and from the sounds that emanated from the stump the last time we have you've got the beans at any rate you're no good to a cent of that kind.

Some of these days while the Christian nations of the earth are struggling with the Sultan he will slip out of Constantinople, and declare that "God is God and Mohammed is his prophet" and call upon the followers of Islam to raise the old cry of "Accept the Koran or the sword" the latter of the two will be fixed with the blood of those that do not.

All American whistles of North and South America, will inevitably sympathize with any people in the east world who are trying to get rid of Spanish rule. It has always been tyrannical. Great Britain has been the most liberal but even she has been a great burden to American colonies. Spanish rule has been interestingly outrageous. Americans will always favor home rule. - States City Journal.

High German authorities are of the opinion that England is entirely wrong in the matter of the fact that she has constantly been an aggressor on the territory of the southern republic. There is one thing certain and that is she is about at the end of her string so

for as extending her territorial lines are concerned in any of the American. The United States is not strong enough to get a clock on her good maid we believe she will do it.

Quite a number of papers throughout the state seem to think that Judge John S. Robinson will be the demagogue candidate for congress in this third district this year. We don't believe that our brethren see John so properly. He is a pretty shrewd individual, not one of the fellows that come to head a foreign issue anywhere, and he is not likely to be the demagogue. It is quite probable the leading light of the party will be particularly sweet on him. John is not at all certain of even a nomination. You know how he will stand. He is \$2000 judging in preference to following in the Jack of Lancers. John's no fool.

The kindly intention to judge the village and measure the hapless Americans without any apparent effort on the part of the Turkish authorities to prevent it seems as though civilization's history has to be written in blood and in no other way will that of the first Christian civilization prevail in the domain of the Sultan it must be broken down by the sword and the war-making the nations of the world come to recognize that only the sword will be the cost to the profanity which promises to be broken down and crushed. Broken down by the sword and the war-making the nations of the world come to recognize that only the sword will be the cost to the profanity which promises to be broken down and crushed.

Have you ever noticed that a big crop of corn and the big dollar appear to be two companions. Our observation has been that when there was a big crop of corn and the price low, that the same thing occurred to be much more general than when the conditions were reversed. The natural inference, therefore, would be that with a big crop of corn and low price the dollar is taken the big crop of corn is the largest plant in the soil of the big crop and it is the natural of the grain which possibly get it to eat and that the wrong, leaving feed superior such a debilitated against that period in quality. It is true that the price of other crops is not this so certainly one of the things that will bear some careful thought on the part of those who have had to the year.

This paper believes thoroughly in the principle involved in the state getting a liability on some product of its soil - a whole that is produced by its agriculture and it should be paid for, not only of how it should be paid for we are not sure but now when the benefits of low law is so evident, the state should be the best and the best of the rights of these and other citizens system of doing business with their patrons that means bankruptcy to the latter and unless the profit is themselves. There is no doubt but that we are heartily in favor of wiping from the statute of the state any law that gives them a single pound of bounty or grants that a special favor in any way. The fact is that every citizen in that class with the best sense and we hope that next year they will be compelled to make contracts that will hold them in the face of any law that gives them a single pound of bounty or grants that a special favor in any way.

THAT'S THE TALK GROVER. President Cleveland was a nice thing in progress on the 11th of the month in his speech of worthy from American citizens. It is so regarded to be the best ever the boundary line between Britain, Guinea and the Republic of Venezuela. Our government sometimes gets the best of it. The British have asked Great Britain to submit the question of a case between it and our Sardinia neighbor to arbitration in order that the rights of each might be determined. But the British Republic refused and still refuse to do just justice upon enforcing her demands upon the little republic and they immediately refuse to deal with British demands. England finally told the United States to keep her finger out of the pie and mind her own business, that she didn't care about the Monroe doctrine that we take care of. Now Great Britain is in a shape that makes her heart of every American glad. He tells us plainly that he can either arrange back down of light. Cleveland has been elected by the president the people will stay by him and it might we must then fight we will march for Grover!

CHRISTMAS GREETING OF THE UP TO DATE CLOTHIERS.

Out of Harmony.

Discord in music as in clothes is either annoying or ridiculous. Many a garment, sold for the best, is a harsh discord of conflicting details. But in the "H. S. & M." make, you see a blending of all the parts into a perfect harmony. An H. S. & M. garment fills the eye as good music satisfies the ear. It is a never ending source of pleasure.
