ENNY CHARLOTTE BRAND

"I think you will find that my story is not so simple as it seems."

"And what, please?" she asked.

"You know how I have been looking for a man who would love me for my own sake, and not for my money."

"I have been looking for a man who would love me for my own sake, and not for my money."

"I have been looking for a man who would love me for my own sake, and not for my money."

CHARLOTTE'S STORY

It was a long time ago, in a small town in the West, that I met a man who was different from all the others. He was tall, with a strong, steady gaze, and a smile that reached his eyes. He was not rich, but he had a certain air of distinction that I had never seen before.

He was called 'Old Man' by the people of the town, and he was known for his wisdom and his kindness. He had been married once, but his wife had died many years ago, and he had never remarried.

One day, as I was walking through the town square, I saw him standing by the fountain. He was looking at a young girl who was playing with a dog. She was laughing and running about, and he was watching her with a look of deep interest.

I went over to him, and he turned to me. "That girl," he said, "is the daughter of a man who has been very kind to me. I have been looking for a girl like her for a long time."

I looked at the girl, and then at the old man. "What is her name?" I asked.

"Charlotte," he said. "Charlotte is her name."

I had never heard of the name before, but it sounded familiar. "What is her father's name?" I asked.

"John," he said. "John is her father's name."

I had never heard of the name before, but it sounded familiar. "What is her mother's name?" I asked.

"Mary," he said. "Mary is her mother's name."

I had never heard of the name before, but it sounded familiar. "What is her father's name?" I asked.

"John," he said. "John is her father's name."

FOUND AGAIN THE RUBBISH

IRON IN FOOD

It is a fact that iron is an essential element in the human body. It is necessary for the formation of hemoglobin, the red blood cells that carry oxygen to the tissues. Without iron, the body would be unable to function properly.

Iron is found in many foods, including meat, fish, and eggs. It is also found in some fruits and vegetables, such as spinach and prunes. However, it is often difficult to get enough iron from food alone, especially for people who are vegetarians or who have a poor diet.

For this reason, it is important to take iron supplements. These supplements can help to increase the amount of iron in the body, and they can be very effective in treating iron deficiency.

There are many different types of iron supplements available, and it is important to choose one that is safe and effective. It is also important to take the supplement as directed, and to avoid taking too much, as this can be harmful to the body.

CRISP FORMS OF THOUGHT

The wisdom of the past is a treasure that has been passed down to us. It is a treasure that we should cherish and study, for it can help us to understand the world and ourselves better.

One of the greatest sources of wisdom is the Bible. It is a book that has been read and studied for centuries, and it has provided guidance and inspiration to millions of people. It is a book that is full of wisdom and truth, and it is a book that we should all read and study.

Another source of wisdom is the lives of the great men of the past. These men were men of great courage and conviction, and they lived their lives in a way that was full of wisdom and truth. Their lives are a source of inspiration and guidance for us today, and we should study their lives and learn from their example.

Finally, we should also study the lives of the great women of the past. These women were women of great strength and courage, and they lived their lives in a way that was full of wisdom and truth. Their lives are a source of inspiration and guidance for us today, and we should study their lives and learn from their example.

Feed

It is impossible to conceive a more important factor in the success of a stock raiser than the quality of his feed. The feed that he uses will determine the quality of his stock, and the quantity of his feed will determine the quantity of his stock.

Better use them this way

if you don't use Pearline. Give your tired arms and aching back a rest, sometimes when you're scrubbing and rinsing.

"An assured idea!" Of course. But when a person has cleaned house with Pearline, year in and year out, and knows how much work it saves, and time and rubbing, nothing seems more absurd than to try to clean house without it. Pearline—no soap with it—just Pearline—makes house-cleaning easy.

Millions now use Pearline

A Sufferer Cured

Every season, from the time it was two years old, I suffered dreadfully from erysipelas, which kept growing worse until my hands were almost useless. The bones felt so that they would break, and several of the fingers are now crooked from this cause. On my hand I carry large scars, which, but for

AYER'S Sarsaparilla

Sarsaparilla, would have cured me, had I had it before I was cured. Light bottles of Ayer's Sarsaparilla cured me so that I have had no return of the disease for more than twenty years. The first bottle seemed to reach the spot and a persistent use of it has purified the cure.—D. C. DAVIS, Westboro, Wis.
