WAYNE - REPUBLICAN.

W. W. WILKINS, President.

Capital of the Republic of Wayne, Nebraska, established under Act of March 10, 1892.

Organized in 1892. The Grand State Bank has gone to voluntary liquidation.

The big question is how to work trying to form a "public trust"?

West Point wants a sugar factory and believes also in going to get one.

Revenue sufficient to pay the running expenses of the government is an absolute necessity.

The Norfolk Sugar factory has turned over 8,000,000 pounds of sugar already this season.

Hayes in the history platform. That does him up as a presidential possibility for the future.

If the incoming administration can knock out the sugar trust it will have done a commendable thing.

The Omaha World Herald brought suit against the Daily Nebraskan that recently and obtained a verdict for \$1,000.

It is argued that as a reason for so many bank failures of late, that depositors are withdrawing their funds for investment. This is not so.

Dr. Goodenough, a Prudden dentist, is under arrest charged with administering morphine to his wife in Waynesboro, causing her death in the afternoon.

The State continues to leave our property with taxes for the property. Repugnant and come look to us for the millions of gold to pay us on.

Diary of the Atlantic Journal says "No holds in this city are made with people who believe the other should back the man. They are here to make the search easy."

The Cuban insurgents are making it very hard for the Spanish forces in the unhappy island. They are again making it very hard for the government's troops and are now pressing right up to the gates of Havana.

There is quite a probability of an election being called soon after the new administration goes into power under the present government.

Some of our newspapers are making it very hard for the Spanish forces in the unhappy island. They are again making it very hard for the government's troops and are now pressing right up to the gates of Havana.
