BELIEVE END IS NEAR

THIS WEEK WILL PROBABLY WIND UP EASTERN WAR.

An Armistice is Anticipated and Greece, it is believed, will finally agree to such a settlement and the Powers Will Probably Make It.

Believe the End is Near.

A London dispatch of Sunday, April 26, says that there is to be the last week of the Greek-Turkish war on April 27, as it is believed from the receipt of conflicting telegrams to indicate the end of the war.

Further, the Greek fleet at Larina has withdrawn to about 100 miles from the coast and the view of a definite armistice is now more or less certain.

It is believed that intervention in the Balkans has been the cause of the war, and that the only way to end it is by a settlement of the Balkan question. The Powers, Greece and the United States, have been unable to reach an agreement on this point, and it is believed that the only way to end the war is by a settlement of the Balkan question.

Whop it up for the crop, pig... It is claimed that 25 per cent of the Ohio wheat crop is being plowed under.

The Russian wheat crop is reported as being seriously injured and the prospects of crop very poor.

Donald Nelson, the projector of the extension of the Shear Line from O'Neil to the Pacific coast, is reported as being flying on the work lands of a month.

One hundred thousand dollars to the amount of bond is claimed that it took to maintain the acts of the Kansas legislature during the past year. How much did it take for Nebraska?

Stand up for Nebraska and down with the fellow that lives in the state and cries at home. Get out if you don't suit you. There's millions that will carry you out and if you don't want to ride the walking horse, get out.

Eastern wool buyers are now on hand at St. Louis, Mo., and are offering it at 12 cents per pound for the wool on the sheep's back. An equivalent for the wool is necessary for the wool grower to get the wool grower's price.

The Iowa legislature has passed a bill to amend the act of the Kansas legislature during the past year. How much did it take for Nebraska?

A Japanese syndicate has secured a large concession of lands from the Mexican government at \$100 per acre per front. From 1890 to 1900 a period of 10 years. They claim that they will bring 40,000 of their countrymen into our sister republic within two years.

Now the World-Herald is pawing the dirt and bawling because of an accumulation of a surplus of gold in the treasury. Only a few short months ago it was shouting the skies high because there was no gold in the treasury. Now the World-Herald is an animal that is hard to suit.

The Greek people are sadly disappointed in Prince Constantine the commander of their armada, because of his apparent desire to always fight on the defensive and increase his net following up on the advantage of his armor plated battles. It is claimed that at different times he has been in a victory to be turned into defeat by his followers.

Had the thimble succeeded at the election last week in carrying Omaha, the victory would have been heralded from Maine to California as a great victory for 1912. The election went the other way and the papers of Nebraska from the World-Herald down to the Wayne Democrat only gloried in life to lead the republicans, don't have a word of consolation to offer.

The friends of Judge Sullivan, who are urging him for the nomination as judge of the supreme court on the fusion ticket next fall, are reminded that Governor Hoar, having failed to get a seat on the bench for his brother-in-law Kirkpatrick, has picked that gentleman for the judicial candidate next fall. The governor's decision will be obeyed and the disappointed Kirkpatrick will be a disappointed politician.

Now look upon Nebraska's fair face and be glad, ye dwellers in the paradise of corn. There is no reason to be sad and today only the near future can complain. A land of beauty and a joy to all that dwell therein. Her fields are the pride of all eyes, her soil is wet and the sunshine of heaven is raining down upon the growth of all vegetation that grows on the heart of man to be glad, ye dwellers are full of joy for people and you, ye who are a beauty, and we all love it.

There has been a time in the history of Nebraska when good investments in land could be made. Prices are generally low and today only the near future can complain. C. A. King & Co. of Toledo, Ohio, have been sending out live fish into the region producing wheat wheat in the United States and have received reports that 1,400 different varieties of wheat are in the market and that the wheat from these reports that Illinois reports about one fourth crop, Illinois a little over one third crop, Minnesota less than two thirds, Ohio about 90 per cent of an average crop, Michigan an average of Kansas three fourths crop.

Latest advices rather indicate that the Greeks, getting the better of the Turks in their attack and it is very likely that the latter will be obliged to yield. The Turks it is probably more apt to stop fighting and see what the terms of peace shall be. If a few of the nations of Europe can say to others engaged in war, you shall stop, and then induce the warring nations to cease hostilities, the United States will be obliged to do the same thing in the case between Spain and Cuba. It would certainly mean the approval of the people of the country at large.

The silver people delight to point to the present low price of gold and silver and are "wondering" why it is so low. They are "wondering" why it is so low. They are "wondering" why it is so low. They are "wondering" why it is so low. They are "wondering" why it is so low.

As the doctrine of free trade with an abuse on the grounds of ex-President Cleveland continued, gathered contributions of words calculated to catch the public ear, and a sort of hypnotic spell cast upon the "scholarship" of the day, and everyone but the writer and a few of ability, was an unprofitable in place of facts and sound arguments. The laws on which the policy of protection rests is a fact and not a theory. It is a fact and not a theory. It is a fact and not a theory.

The New York Reform Club held its annual dinner on April 2 and Governor Cleveland was one of the principal speakers. He was one of the principal speakers. He was one of the principal speakers. He was one of the principal speakers. He was one of the principal speakers.

It is useless for the president to keep up the cry of an improvement in the material conditions of our country. For about the election of November last there has been a gradual returning of prosperity, not as marked perhaps as some of us would wish, but it is very perceptible to the observing. There is a marked employment for labor in the great centers and the farmer that left the fields of his employment in the winter of the production of the farms. The price of wheat has advanced steadily the same to that of pork and beef, and were not for the unmarketable condition of coal it is probable that it would have felt the general advance. It is not to be expected that returns for good prices and prosperity in every branch will be effected in a day or month or even a year. But it is commended that the turning of the process, if it be so slow, is a necessary result of the war. The man who worked and waited for the return of Cleveland and the turning of the wheel of the country, in 1892 into the hands of the man that could not stand before us with all their resources, ought to remember that he is personally responsible for the conditions that have resulted from that time until the present and that all men should consider the end of a process and accept a very low standard of living. It is the duty of every citizen to do his part in the turning of the wheel of the country. It is the duty of every citizen to do his part in the turning of the wheel of the country.

BAD DRIVES OUT GOOD.
