Removes Hair from Nails.
In a recent issue of the "Lancet" it was stated that a certain woman had been troubled for some time with a peculiar ailment. It was a kind of nail disease, and the nails were falling out. The doctor advised her to use a certain ointment, and she was cured.

The Hair of the Head.
The hair of the head is one of the most important parts of the human body. It is not only a matter of beauty, but it is also a matter of health. The hair is made of a substance called keratin, and it is constantly growing. The hair on the head is the longest and the most important.

The Hair of the Face.
The hair of the face is also an important part of the human body. It is not only a matter of beauty, but it is also a matter of health. The hair on the face is the longest and the most important.

WAYNE REPUBLICAN

W. BURKHMAN, Editor and Publisher.
Published at Wayne, Nebraska.
Subscription price, \$1.00 per annum in advance.

Pittsburg, Pa., holds for \$500,000 worth of property.

The "red" season has not yet begun in the island of Cuba and Spanish soldiers are doing bravely.

Since the passage of the anti-fur-bearing bill by the Iowa legislature, Governor Hanks has refused to sign it.

Chicago claims to have had 1,000 bicycles in the use of bicycles so largely that the place of horses and carriages.

Civilized had a good season on May 2. It is claimed that the temperature has been so low that this considerable damage has been done to the fruit crops.

General Miles has been given permission by the president to visit Turkey and Greece to observe the methods of warfare. He expects to be gone two or three months.

It is claimed that a change of one mill per ton per ton freight carried by the railroads of the United States makes a difference in their annual receipts of \$200,000,000.

All the cattle producing sections are reporting shortages in which this will be the case on the market in the near future. There is a "boom" evidently on in the cattle business.

On May 1 of this year cattle, both cows and heifers, averaged 50 cents per hundred, higher than any year ago. Hogs about 25 cents higher than a year ago and 10 cents lower two years ago.

The price of wheat follows the war news much more closely than it does the amount of harvest of wheat. It is generally not over the price of wheat to be the result of the crop.

Last year for the first time in the history of the state the death rate from pulmonary troubles has been less among the farmers than among the manufacturers. This is due to the use of the bicycle and bloomers.

The free silver advocates have taken a sharp turn in their campaign. Governor Cleveland of the New York National Club denies and says that Governor has designs on the democratic nomination for the presidency in 1908.

South Sioux City offers the Pacific Shanty 100 acres of ground and guarantees that the town of South Sioux City will have a good location for the settlement of the location of the city at that point.

Another reflection of the national financial state of the United States is almost 100,000,000 dollars in April. It is strange that with the beginning of a public school system the public debt begins to grow at a rate which has never been seen since 1860.

People who thought that the fact that the United States has not spent money will be increased to know that the treasury in circulation today in the United States is nearly \$1,000,000,000 more than a year ago. The treasury figures show the circulation April 1, 1907, to be \$1,000,000,000 and that of April 1, 1908, is \$2,000,000,000. (Northak News.)

The Kentucky legislature voted the long drawn out fight for the election of a United States senator to succeed "Uncle" Blackburn when the general election is held.

The National Wool Growers Association has a membership of 22,134. It is the largest of its kind in the world and is constantly increasing its membership. It teaches and furnishes to the masses an education that is beyond doubt the best ever devised by man. Long may the Modern Wool Growers Association continue in its grand mission.

The Hawaiian government, fearing that Japan is attempting to gain control of the island by negotiating with Japanese and they the strength of the island to turn it over to Japan. They have placed a restriction on the sale of land to the government of the Japanese and have asked the Japanese to consider a war talk. The Japanese are afraid of annexation with the

United States and are anxious to prevent it if possible.

There are about four years for property under Cleveland and this fact alone should not be considered in the case of McKinley and protection four months to accomplish what the other people failed to do in a few years.

SURVIVAL OF THE FITTEST
(Adapted from Naat's cartoon in "Robinson Crusoe's Money.")

EVOLUTION OF MONEY

Competition has been the rule since the beginning of time. It is the law of nature. It is the law of the market. It is the law of the world.

The evolution of money is a process of natural selection. It is the result of the struggle for existence. It is the result of the competition of the fittest.

Money is a commodity. It is a thing of value. It is a thing that is desired by all men. It is a thing that is scarce. It is a thing that is difficult to come by. It is a thing that is the result of the labor of man.

The evolution of money is a process of natural selection. It is the result of the struggle for existence. It is the result of the competition of the fittest.

Among civilized people the idea of money is a very old one. It is a thing that has been used for thousands of years. It is a thing that has been used in all parts of the world.

The evolution of money is a process of natural selection. It is the result of the struggle for existence. It is the result of the competition of the fittest.

A New Financial System. The demand for a new financial system is a thing that is very old. It is a thing that has been used for thousands of years. It is a thing that has been used in all parts of the world.

The evolution of money is a process of natural selection. It is the result of the struggle for existence. It is the result of the competition of the fittest.

Japan is a New Light. The demand for a new financial system is a thing that is very old. It is a thing that has been used for thousands of years. It is a thing that has been used in all parts of the world.

The evolution of money is a process of natural selection. It is the result of the struggle for existence. It is the result of the competition of the fittest.

A Standard of Value. The demand for a new financial system is a thing that is very old. It is a thing that has been used for thousands of years. It is a thing that has been used in all parts of the world.

The evolution of money is a process of natural selection. It is the result of the struggle for existence. It is the result of the competition of the fittest.

Our monetary standard is a thing that is very old. It is a thing that has been used for thousands of years. It is a thing that has been used in all parts of the world.

The evolution of money is a process of natural selection. It is the result of the struggle for existence. It is the result of the competition of the fittest.
