WAYNE REPUBLICAN.

Published for the Proprietor, W. E. WILKINS, at the office of the Republican, in the city of Wayne, Nebraska, every Wednesday except the first of the month, and the first of the year.

REPUBLICAN STATE TICKET.

For Judge of Supreme Court, A. M. FOSTER, of Columbus. For Regents of State University, C. W. DALEY, Red Cloud. JOHN N. BREYDEN, Kearney.

The Republican, the Miller Flouring Mills with a capacity of 500 bushels per day burned on the 30. The loss is \$20,000.

The ravaging effects of Indian war with British regiments very recently defeated the red coats, and a fleet of 100 in Canada, and wounded. Great Britain in a few years' treatment and finally effect will be the serious and crushing.

When it is known that a return of immigrants will be a great benefit to our country, it is not surprising that the government should be so anxious to encourage them. It is not surprising that the government should be so anxious to encourage them. It is not surprising that the government should be so anxious to encourage them.

The report issued Newark a day or two ago, that the nation is following the conditions in our state, the 1-1. The success of the Republican ticket in the State and in the country will be a great benefit to our country, it is not surprising that the government should be so anxious to encourage them.

There has been considerable talk because the paper has been appropriated \$10,000 to support an investigating committee to check up on the state officials. It has been checked up without cost to the state and by the clerk in the auditor's office. The papers seem to think that the paper has no right to check up on the state officials. It has been checked up without cost to the state and by the clerk in the auditor's office.

Secretary Alger of the War Department is expected to be provisionally in the Kansas region during the winter. It is an eagle of eagles drawn by an eagle's eye in a cat that effectively protects the man in charge and the man in charge. It is an eagle of eagles drawn by an eagle's eye in a cat that effectively protects the man in charge and the man in charge.

What a there is in Wayne, being a drink of water to get out of the suffering of the children at the recent railroad wreck, in which the children were killed. It is an eagle of eagles drawn by an eagle's eye in a cat that effectively protects the man in charge and the man in charge.

Keep going on Nebraska, for it is our first and best and best in our gathering hands. Together we make one of the best nations in commercial and industrial advancement for which state is noted. Every indication points in the direction of the best and best in our gathering hands. Together we make one of the best nations in commercial and industrial advancement for which state is noted.

Even the most talked of, Mexico has found out that while the free exchange of silver has kept the price of all commodities skyward the wages of the workmen do not follow.

There can be no doubt of the fact that the nation is enjoying a greater degree of prosperity than ever before and all this acknowledgment except the populists and while they know it they are like a fellow with the truth they don't like to own it.

The new law in this state gives out the permit of party organization to be recognized as the backbone of the political belief. There was no such party on last year's official ballot and consequently you can only receive their organization by petition. This year permits took them in making that law.

The Citizens, Age one of the ablest democratic papers of this state and one that has heretofore been a champion for the American has the following to say of the present and future of the Republican party. We are not a party which is to be broken up. We believe the time has come when, observing the past, every individual should look to the future and find with expressions of varied sentiment the wisdom of any retrogression. We believe the time has come when, observing the past, every individual should look to the future and find with expressions of varied sentiment the wisdom of any retrogression.

The last legislature undertook to fix the ballot in the way that would secure to the interest of the uneducated a fair and just ballot and their attempt to get matters in shape for the production of democratic interests put their feet in the mud. They did not know how to do it. They did not know how to do it. They did not know how to do it.

The chief aim of the people for the past months, since July, first, has been to get the people and their property and their money. It is an eagle of eagles drawn by an eagle's eye in a cat that effectively protects the man in charge and the man in charge.
