War with Spain.

A vivid picture of the stirring scenes which would follow a declaration of war with European Powers is given under the head "A Brief History of Our Late War with Spain" in the November Cosmopolitan. The writer has undertaken to apply the knowledge gained from the late war to the conditions prevailing to-day, with modern ideas of bigness and modern methods of organization. He assigns posts in the war to prominent men now before the public, and touches as well upon the political, mechanical and financial problems involved. November Cosmopolitan, price 10 cents.

"Forbid a Fool a Thing and That He Will Do."

Don't Use

SAPOLIO

There is no long waiting for help if Ripon Tablets are taken for griping and headache. Relief comes quickly. One Tablet (about the size of a small button) will relieve distress in the stomach within fifteen minutes and the headache will shortly disappear. There was an industrious, hard-working woman of Coppsburgh, N. Y., some sixty years of age, who for a long time had suffered greatly from dyspepsia and dreadful headache. Her stomach tormented her that she could hardly work at all, and although she had tried all sorts of things, she got no relief. A friend sent her some Ripon Tablets and she felt better as soon as she took the first one. She left her work and working. "I have continued with the Tablets ever since," she says, "and they always help me."

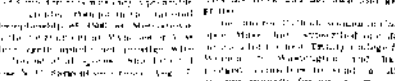

WHEN DO NOT TELL THE WHOLE TRUTH

Worstest Woman Brain Corsets Questions Were Asked by a Male Psychologist, but Write Reply to Mrs. Puckham.

An eminent psychologist has shown that women are not to tell the truth, but to tell the whole truth. This statement should be given to women of the world, but not the whole truth, but to tell the whole truth. This is a question of the world, but not the whole truth, but to tell the whole truth.

There can be no more to be gained by a delicate woman, reduced to a state of weakness, by the use of brain corsets. The question is not whether she should wear one, but whether she should wear one. The question is not whether she should wear one, but whether she should wear one.
