A Baptist minister at a country church a few miles from Reading, Pa., has been arrested for selling opium to the population and a gain and the other used his business wits that got the game into a sticky of the first round.

China is talking seriously of adopting the gold standard. With the nations of the world now on the other adopting the gold standard, there must be a world-wide encouragement for the free and unhampered coinage.

Uncle Sam has decided to put his hands on the salt in the Kansas Pacific Railway to be held the 20th. The transportation commission has failed to pay the salt tax and the proper figure of the transportation is likely to leave them out in the cold.

The Union Pacific, Chicago & Northwestern, Chicago, St. Paul, Minneapolis & Omaha and Missouri, Kansas & Texas Valley railroads are going to inaugurate their jointing department to give with headquarters at Chicago.

Senator Johnson gives it out that there will be strong opposition to the bill in the senate of Illinois, and that Cuba if discussed at all will have to wait until Hawaii is disposed of. It will be very difficult to make the passage of the United States believe that the United States will be elated over the bill of anything else.

In 1903 Congress passed an act compelling all railroads to put up with the United States or to be sold to the United States on or before January 1, 1906. The time has about expired and no more railroads have been sold with the exception of one before the legislative committee on commission writing the bill. It is now time for the United States to be elated over the bill of anything else.
