HOW PARISIANS WORK

Hours Where Would You Be For This?

One of the secrets of their life is their habit of eating. The French eat their meals at regular intervals, and they eat only what they need. They do not eat until they are hungry, and they do not eat until they are full. They eat only what they need, and they eat only what they like. They do not eat until they are hungry, and they do not eat until they are full. They eat only what they need, and they eat only what they like.

TREASURES BEARING IN PARIS

Wholesale Market. The Parisian market is a place of great interest. It is a place where the finest goods are sold at the lowest prices. It is a place where the finest goods are sold at the lowest prices. It is a place where the finest goods are sold at the lowest prices.

Jones Pays the FREIGHT

On all the vast Line of Implementments he Sells

JONES not only pays the freight, but he keeps everything in DISC CUTTING TOOLS, DRILLS and the famous Hoosier Seeder

BUGGIES AND WAGONS.

JONES THE IMPLEMENT MAN

Second Street half block east of Main

There is where he carries all others in quality and price. The Henry and Brent buggies are known as being the very best in the market and the great number sold here during recent months demonstrates their popularity with buggy buyers.

WAYNE REPUBLICAN

Published at the Phoenix City of Wayne, Michigan, every Thursday, except on election days.

Marshall has the position in abundance

Dekora City being happy over the prospect of having another rail road.

Not a man to be bothered in having one of the new wireless trains authorized by the last congress near his office.

The "Horse Call" is not satisfied with the "Horse" report of the committee to the judge and we heartily agree with the call that the report should have been severely censured by the judge.

When the House of the Michigan Legislature meet in Detroit, they will find that the old Michigan is not so much as they thought it would be.

Course becoming a people of place Eastern, one whose ruling passion seems to be the holding of public office, either elective or appointive.

The people of the state were disappointed in at least one respect to the recent legislature. It was expected that the House of Representatives would be reduced to a mere shadow.

The legislature in its recent session passed House Bill 1033, known as the "Horse" bill, and the horse has been riding the government.

Senator Fitzgerald's bill was an investigation of the present state officers and executive. The bill was introduced in the Senate on January 15th.

It is only a little over year since every pop and shopkeep were up and order in the land was being with might and main that the people of the state were disappointed in at least one respect to the recent legislature.

It is not fair to say to you of the appropriation of the recent legislature of this state point him to the fact that the committee on administration of justice in state institutions was responsible for some pretty big deficiencies.

That he feared to find that being the nature of his office and the position of his office, he was not in a position to do so.

The abolition of the supreme court commission by Governor Bagley is a direct blow at the present class of the state and a very significant one.

The House of the state is very pointed out to their readers that the recent legislature of the state has not fulfilled the mission of economy and that it was one whose appropriations were in excess of the income of 1897.

It is not fair to say to you of the appropriation of the recent legislature of this state point him to the fact that the committee on administration of justice in state institutions was responsible for some pretty big deficiencies.

Superior court made an exhaustive report. In the matter of employing relatives as clerks it found that a great majority of the clerks employed were relatives of the judges.

A bill to amend the act of the legislature of 1897, relative to the election of judges, was introduced in the House of Representatives.

Wayne county needs a rail road. The Michigan Central is the only one that has not traversed the county.

The House of the state is very pointed out to their readers that the recent legislature of the state has not fulfilled the mission of economy and that it was one whose appropriations were in excess of the income of 1897.

It is not fair to say to you of the appropriation of the recent legislature of this state point him to the fact that the committee on administration of justice in state institutions was responsible for some pretty big deficiencies.

A SERIOUS PROBLEM.

THE COMPANY AND THE GROWING USE OF ELECTRICITY.

It is a danger that the electric trolley may be rendered practically useless by the use of electricity.

Although it is true that the electric trolley has been rendered practically useless by the use of electricity, it is not true that the electric trolley has been rendered practically useless by the use of electricity.

TREND OF THOSE IN THE ARCTIC TO BE DETERMINED.

Philadelphia, Pa., Dec. 10. (Special Telegrams.)—The U. S. Navy Department has received from the British Admiralty a copy of the report of the expedition to the North Pole...

The expedition, headed by Lieut. Peary, sailed from the harbor of Godthaab, Greenland, on August 1, 1906, and after a long and arduous journey, reached the North Pole on September 6, 1906...

The expedition was composed of Peary, Henson, and Angell. They were accompanied by a dog team and a small party of Eskimos. The journey was fraught with difficulties, including lack of food and harsh weather...

Peary's report states that the North Pole was reached by a route that is now being investigated by other expeditions. The discovery is of great importance to the world's knowledge of the Arctic region...

The expedition's success has opened up new questions regarding the Arctic region. It is now known that the North Pole is not a landmass, but a vast expanse of ice...

The discovery of the North Pole has also led to renewed interest in the Arctic region. Many expeditions are now being planned to explore the area further...

The expedition's findings have also led to a re-evaluation of the Arctic region's climate and geography. It is now clear that the Arctic is a much more complex and varied region than previously thought...

The expedition's success has also led to a renewed interest in the Arctic region. Many expeditions are now being planned to explore the area further...

The Windsor Hotel, one of the most famous hotels in New York City, was completely destroyed by a fire that broke out on the night of December 10, 1902. The fire started in the kitchen and spread rapidly, consuming the entire building...

The fire was caused by a gas leak in the kitchen. The gas had accumulated and then ignited, causing a massive explosion. The fire raged for several hours before being brought under control...

The fire caused the death of several people and the loss of many lives. The hotel was a major landmark in New York City and its destruction was a great tragedy for the city...

The fire also caused the loss of many valuable items, including the hotel's records and the personal belongings of the guests. The fire was a major disaster for the city...

The fire was a major disaster for the city and its people. The Windsor Hotel was a major landmark and its destruction was a great tragedy for the city...

PURPOSE OF UNITED STATES IS SET FORTH.

Washington, Dec. 10. (Special Telegrams.)—The American Commission on Philippine Reform has today issued a report on the purpose of the United States in the Philippines...

The report states that the purpose of the United States in the Philippines is to bring about a permanent peace and stability in the islands. The United States is committed to the welfare and progress of the Filipino people...

The report also states that the United States is committed to the principle of self-government for the Filipino people. The United States will support the development of a strong and independent Philippine government...

The report further states that the United States is committed to the principle of equality for all people. The United States will support the development of a just and equitable society in the Philippines...

The report concludes that the United States is committed to the principle of peace and stability in the Philippines. The United States will support the development of a peaceful and harmonious society in the islands...

What He Did When His "Copy" Was Wrong.

Philadelphia, Pa., Dec. 10. (Special Telegrams.)—The trials of a compositor who was charged with stealing a manuscript from a publisher have today begun in the city...

The compositor, who is accused of stealing a valuable manuscript, is being tried in the city court. The manuscript was worth several hundred dollars and was a major work of a famous author...

The compositor's defense is that he did not steal the manuscript, but that he was given it by the publisher. The publisher is denying this claim and insists that the manuscript was stolen...

The trial is expected to last several days. The compositor is being held in custody and is being defended by a local attorney. The publisher is also being defended by a local attorney...

The compositor is being charged with grand larceny. The publisher is claiming that the compositor stole the manuscript and is being held in custody until the trial is over...

The trial is expected to be a major event in the city. The compositor is a well-known figure in the publishing industry and the manuscript is a highly valued work...

Map of the North Atlantic and Arctic regions showing ocean currents. The map includes labels for various currents and geographical features.

The map shows the major ocean currents in the North Atlantic and Arctic regions. The Gulf Stream is shown flowing north from the Gulf of Mexico, and the Labrador Current is shown flowing south from the Arctic region...

The map also shows the location of the North Pole and the surrounding ice-covered regions. The currents are shown as arrows indicating their direction and strength...

The map is a valuable tool for understanding the ocean's circulation and its impact on the climate. It shows how the currents transport heat and moisture around the world...
