NO. 16.

## Growing Every Day.

Yes, our business is growing every day, and making a healthy, steady growth. We have now been eight months in Wayne and our trade has grown more than we had reason to expect. It is now about twice the size it was the first month, and those that bought fall clothing of us are buying their spring suits here, proving that our system of doing business is satisfactory to them. We are getting our customers every day and we believe our first year in Wayne will compare favorably with any other year. We are getting better customers every day and we believe our first year in Wayne will compare favorably with any other year. We are getting better customers every day and we believe our first year in Wayne will compare favorably with any other year. ### SHIP SUBSIDY BILL.

MEASURE HAS BADLY DISCONTENTED THE DEMOCRATS.

In attempting to make Party Capital out of the Shipping Bill they show themselves to be a most unwelcome and unwise party.

The Democratic leaders in Congress have been making elaborate promises to the shipping interests. They have promised to reduce the duties on foreign-built ships, to increase the duties on American-built ships, and to provide a subsidy for the construction of new ships. These promises have been made in order to attract the support of the shipping interests to the Democratic party.

But the Democratic party has not kept its promises. The duties on foreign-built ships have not been reduced, the duties on American-built ships have not been increased, and no subsidy has been provided for the construction of new ships. The shipping interests are therefore disappointed and discontented with the Democratic party.

The Democratic party has been accused of making promises which it has no intention of keeping. This is a charge which is well founded. The Democratic party has a long history of making promises which it has not kept. This has led to a loss of confidence in the party among the people.

Published Thursday of each week, Nebraska, except on election days, June 18, 1904.

Five cents a copy, ten cents for three copies, and fifteen cents for six copies. Single copies may be ordered from the publisher at any time.

The publication of this paper is guaranteed by the publisher, who will not be held responsible for the consequences of any action taken on account of its contents.

It is different in Nebraska than in any other State in the Union. The population is not so dense as in the East, but the growth is rapid, and the future is bright.

The Government has passed laws that will benefit the people of Nebraska. We should support these laws and work for their enforcement.

Now it is time to elect a Governor for Nebraska. We should elect a man who will represent the interests of the people.

It is a somewhat difficult task to understand the various branches of the Government. We should educate ourselves on these matters.
