

The 2 Johns

There is one feature in our business we often note, and that is an increase in the number of new customers...

We call to mind many of our best customers who began by coming in once in a while, then often, until gradually they ceased to trade at our old trading place...

It seems to us that the more thoroughly a customer comes to know our store and business methods...

They learn that in all selling, a spirit of fairness is practiced, and that the goods are not the better for the seller...

They learn that setting up in this store is a dignified thing in the best customers' eyes...

July the Fourth!

From now on till the Fourth comes I expect to see every man, woman and child who has a child...

Why let all your neighbors and friends think you must be old? It is only a matter of days older than you are? Yet it is impossible to look young with the color of 70 years in the hair. It is sad to see young persons look prematurely advanced in this way. Sad because it is an annoyance to all eyes; sorry for gray hair must always be restored to its natural color by using

## THE DEAD LIVER

He thinks he lives, but he's a dead one. No person is really alive whose liver is dead.

During the winter most people spend nearly all their time in warm, stuffy houses or offices or workshops. Many don't get as much exercise as they ought, and everybody knows that people gain weight in winter. As a rule it is not sound weight, but means a lot of flabby fat and useless, rotting matter staying in the body when it ought to have been driven out. But the liver was overburdened, deadened—stopped work. There you are, with a dead liver, and living is the time for restoration. Wake up the dead! Get all the fluff out of your system, and force the old's circulation.

ready for the summer's trials with clean, clear blood, body, brain free from fat. Force is dangerous and destructive unless used in a gentle, persuasive way, and the right plan is to give new strength to the muscular walls of the bowels, and get the liver to new life and work with CASCARETS, the great spring cleaner, disinfectant and bowel tonic. Get a box to-day and see how quickly you will live.

# FORD ABOUT PRESCRIPTIONS

Did you ever examine one? Could not tell much about one, could you? After all it is a matter of CONFIDENCE in your druggist. You get the best doctor you can, don't you? Isn't it equally important that you take your prescription where KNOWLEDGE AND EXPERIENCE INSURE AGURACY AND PURITY? Where all the new preparations are added just as soon as a trial proves them worthy, where substitution is never practiced, where you get every time "just what the doctor orders."
