The 2 Johns! Take a Ride!

Yes, we took a ride to the center and on our trip took to the beautiful and charming city of Winnebago. We saw much that pleased us and we hope the trip will be good.

We found that in some parts the crops looked much better than in others. Some crops were clean and ready for the market. Some had good wheat while others had poor prospects for a crop. Some crops were light while the rest had more. What is the reason for this? Is it the same in business? One merchant has a good store and a good profit while others have a store and no profit. The reason is not in the store but in the management. Some are successful and others are not. We don't know why we are successful or why we are not. We don't know why we are successful or why we are not. We don't know why we are successful or why we are not.

We are now in a position to sell our goods at a profit. We are now in a position to sell our goods at a profit. We are now in a position to sell our goods at a profit. We are now in a position to sell our goods at a profit.
