SCENES IN THE WHEAT COUNTRY.

...the wheat crop is expected to be a record-breaking one. The weather has been very favorable, and the wheat is growing well. The farmers are very happy and confident about the future of the wheat industry. The government is also very interested in the wheat crop and is providing many services to help the farmers. The wheat is a very important crop and is used for many things. It is a staple food for many people and is also used for many other things. The wheat industry is a very important part of the economy and is expected to continue to grow in the future.

**JOHN DOVER**

The wheat industry is a very important part of the economy and is expected to continue to grow in the future.

**Lydia E. Pinkham's Vegetable Compound**  
 keeps the life pulsing in women. It tones up their general health, cures down overwrought nerves, cures those awful backaches and regulates menstruation.  
 It does this because it acts directly on the female organism and makes it healthy, restoring and curing all inflammation and displacements.  
 Nothing else is just as good and many things that may be suggested are dangerous. This great medicine has a constant record of cures. Thousands of women testify to it. Read their letters carefully appearing in this paper.

**SANDWICHES**
