

DOES IT PAY TO WORK?

It don't pay to work all the time. Some people get up at 4 o'clock in the morning, six days in the week, and work as long as they can see eye. When they finish their clothing they rush to town some Saturday afternoon to the store places they have always traded and take what they find there without investigating what others may have to sell. They do this because they are in a hurry to get back to work. To wait all the time earning money is not worth it. It's better to take time and invest it where it will do the most good. Money well invested is money gained. If you will take a day or two and investigate as before you buy your fall clothing you'll make money and be better satisfied than you would be if you had worked that day. It is not wanting time to look at our clothing. Here you will find a different store than any other in Wayne. You will find better goods, made on a different plan and sold for much less. If we considered a store the same as others do, you would not feel inclined to spend your time investigating our goods and prices. We don't sell everything. We don't undertake to carry all classes of merchandise as it would be impossible for us to do so. We buy clothing and sell it at a price that will allow you to save money. Now, unless you give us a chance to prove what we say, you will never realize the benefits of having your clothing here and saving money. Take a day or two and investigate as before you buy your fall clothing. If you don't get satisfaction you can bring it back. See our goods, sewed by hand, that don't rip. See our shoes that are made to last and will wear. See our hats that are stylish and the best made. See the Black Cat underwear that has all the other kinds. See the Black Cat hosiery that is warranted perfect. See our prices and understand our plan of buying and selling clothing and you will feel that time spent here is not wasted. We are busy every day packing fall goods that are in demand, and you will be surprised at the size and quality of the stock we will show you this season. If you have never looked at our goods you are entitled to come in. If you have bought of us before you will be pleased to see our stock now, as it is double the stock it was not year. Time and money are well spent having clothing at

STORY OF THE PEKIN TRAGEDY.

History of the Campaign of the Powers Against the Chinese Capital—Oriental Duplicity Conceals the Fate of the Legations for Weeks.

The story of the Pekin tragedy is a long and complicated one, involving the interests of many nations and the fate of a great city. It begins with the Boxer movement, a religious and political uprising in China that threatened the foreign legations in Peking. The powers of the world, including the United States, Great Britain, France, Germany, and Russia, formed an alliance to suppress the movement and protect their interests in China.

The campaign was marked by a series of military operations and diplomatic maneuvers. The allied forces, led by British and German troops, marched on Peking and eventually entered the city. The legations were besieged and the Boxers were suppressed. The powers then negotiated the Boxer Protocol, which ended the movement and imposed heavy reparations on China.

The story is a testament to the power of international cooperation and the determination of the powers to maintain their influence in the Far East. It also highlights the complexities of the Boxer movement and the challenges of managing a large, diverse population.

The map shows the location of Peking and the surrounding regions. It includes a scale of 100 miles and a north-south axis. The map is titled 'THE PEKIN TRAGEDY' and includes a scale and a north-south axis.

POLITICAL MISFITS.

COLORADO DEMOCRATS PRESENT A CURIOUS ANOMALY.

The Democratic Party in Colorado presents a curious anomaly. The party is divided into two main factions: the 'Old Guard' and the 'New Guard'. The Old Guard is composed of long-time party members who are generally conservative and support a strong state government. The New Guard is composed of more recent party members who are generally more liberal and support a weaker state government.

The division between the two factions has led to a series of internal party conflicts and has made it difficult for the party to present a unified front in state politics. The Old Guard has often been accused of being too conservative and out of touch with the needs of the state. The New Guard has often been accused of being too liberal and not taking enough account of the needs of the state.

The result has been a party that is internally divided and unable to effectively represent the interests of the state. This is a curious anomaly for a party that is supposed to be the voice of the people.
