## Men's Clothing

## Liklier than not

You'll need a stack of clothes before the winter is over. Maybe you think we wouldn't be so good to you. That is all right. See how serious we are to do business with you. See what a smelly the clothing man has put up his socks for you. There isn't a day we don't have men come into our store to look and get prices. saying "We don't want to buy today just to get to see if you have up to your advertisements." What a common of these men. Ask us. Nine out of ten of them may be seen walking away with a package under their arm containing a 25 cents suit of clothes. What because we have had such a public.

We have the best \$1.25, \$2.00 and \$3.00 suits in the city. Because we sell the best \$1.25, \$2.00 and \$3.00 suits in the city you can be found in any store. Why not because when we say it's a fact.

We have a ways out for the people who live on a poor quality of food. They are getting their clothes and a good reputation.

For 20 days more we will give \$1.00 off on all suits and overcoats. That's \$1.00 off and \$2.00.

## Revised Assignment of Members Bill From Republican Party.

By a vote of 343 to 102 in the National House of Representatives, the House has passed a bill to increase the number of members of the House of Representatives from 435 to 535.

The bill, which was introduced by Representative Charles McNary of Oregon, provides for the addition of 100 new members to the House.

The increase in the number of members of the House is necessary, according to McNary, because of the increase in the population of the United States.

The bill also provides for the apportionment of the new members among the States and the District of Columbia.

The House has passed the bill by a vote of 343 to 102, with McNary's Republican Party receiving 343 votes and the Democrats receiving 102 votes.

The bill is now in conference with the Senate, where it is expected to pass with some amendments.

The increase in the number of members of the House is a significant step toward a more representative government.

The bill is expected to become law in the next few months, after it has been passed by the Senate.

The increase in the number of members of the House is a necessary step to keep pace with the growth of the United States.

The bill is a landmark piece of legislation, and it is expected to have a significant impact on the House of Representatives.
