HOW TO PLANT CORN.

About the first of April commence to pick up all the loose stones and pile them in piles. Then haul them to some place where the rain has washed out a ditch and throw them in. Now get a cast iron plow with a new point and plow the ground well, then harrow with an A shaped harrow about six feet wide. Harrow the ground twice. Now get a single shored plow and make furrows about four feet apart, not straight furrows, for they may more crop growth in crooked furrows than in straight ones. Furrows cut across the wind. Now you are ready to plant if the sign is right. Always plant corn in the right sign. Shell your corn by hand and have a good, good looking, barbed-steel girl hit her spout with corn and drop four grains in every row furrow. Have a little boy with a tin bucket full of handful of bone dust on every bit for fertilizing. Now have an honest, barbed-steel boy currow the corn with a hoe. That is the way we always planted corn.

You say times have changed and that way of planting corn is out of date. Well, you are right, but it is no more out of date than to buy clothing at a general store, or to buy clothing on long time or to buy clothing of anyone but an experienced clothing man. If you will buy your clothing of us you will be right up to date, not only in the late style, but in the small price you pay. Spring styles are now all in and remember you are at liberty to look at them and try them on and no one will ask you to buy. Come in and see what we can do for you. Our prices are lower than any other store.

Bygones now out of the way and the signs are that a **Billy Bryan**, with Guide and C. J. Russell ought to pull down their tent flaps and keep the aid of camp from trailing the eyes.

A cigarette is said to have intoxicated him. It is not much of a mathematician, but it is said to have a mind as accurate as a surveyor's instrument from the physical angle. I multiply his arched palm, I divide his mental power, I subtract the aid of camp from the aid of camp and discover his share for the week.

But we sell the goods and the reason for it is that we always keep

WHAT THE PEOPLE WANT

Then, again, we never ask a fancy price for the finest of goods. Our principle of doing business is many sales and a small profit from each. We don't expect to make expenses and a big profit from any single sale, but a little on each one and the aggregate will keep us out of the hole.

Little was a fourth of July celebration, nearly forgotten, but last year when it occurred with many others of his faith he was declaring the resolution of McKinley was the nation's intention of the great national holiday. McKinley was proclaimed. This is an example. There can be no fourth of July without making a lot of noise about it.

The publication, or more properly speaking, the failure, wanting to be listened to the relative standard of holding the county office for the next year is being decided to wait about to find out how the land lies. For the county clerkship the present incumbent, Frank Brown, is declared to hold down the job for another term at least and it is believed in some quarters that this may be the case. The Democratic candidate for Frank Brown would want to devote the county's cash for the next year and without a doubt he would be the best candidate for the office at a large commission used to do the business, because Brown is well known and the party has well a claim to every respect to the position as Mr. Vesp and the party of the opposition will have the county seat. The county clerkship is a position of honor and it is a position of honor and it is a position of honor.

Frank Brown has had the West Point Republican in the past several years. The Republican is one of the best newspapers in Nebraska and under Mr. Frank Brown's management it has become a money maker. It is a money maker because it is so well managed that it is a money maker. It is a money maker because it is so well managed that it is a money maker. It is a money maker because it is so well managed that it is a money maker.
