TELEPHONES ON THE FARM

It is one thing to have a telephone in the city, but quite another thing to have it on the farm. In the city the telephone is a matter of course, and is used for a wide variety of purposes. On the farm, however, it is a luxury, and one that is not generally appreciated.

The farmer who has a telephone can communicate with his neighbors and with the market. He can get the latest news of the day and of the world. He can call for help and get it in a moment. He can sell his produce at the best price and get his money in a few minutes.

It is true that a telephone is a costly investment. But it is also a most useful one. The farmer who has it can save money and increase his profits. He can avoid many of the troubles and inconveniences of the old-fashioned way of doing business.

The telephone is a most useful and convenient device. It is one of the great inventions of our age. It has revolutionized the way we live and work. It has made the world a smaller place and has brought us closer together than ever before.

On the farm, the telephone is particularly useful. It allows the farmer to stay in touch with the outside world. He can get the latest prices for his crops and livestock. He can call for supplies and get them delivered to his door.

The telephone is also useful for the farmer's family. They can call their friends and relatives in the city. They can get help in an emergency. They can even make a few extra dollars by taking calls for neighbors.

In conclusion, the telephone is a most valuable asset for the farmer. It is a device that has made a great difference in the way the farmer lives and works. It is a device that every farmer should have.

WOMAN WALKING DELEGATE.

IS LAKE ERIE DRYING UP? The water level of Lake Erie has been dropping steadily since the beginning of the year. This has caused a great deal of concern among the people who live along the shores of the lake.

The reason for the falling water level is believed to be the long and severe winter. The snow and ice that fell on the lake prevented it from freezing over completely. This allowed the water to evaporate more rapidly than usual.

The falling water level has caused a great deal of trouble for the people who live along the shores of the lake. The water has receded so far from the shore that many of the buildings and structures have become isolated.

It is believed that the water level of Lake Erie will continue to fall unless there is a great deal of rain. This is a very serious situation, and it is hoped that the authorities will take prompt action to prevent any further damage.

But we sell the goods and the reason for it is that we always keep
WHAT THE PEOPLE WANT
Then again, we never sell a fancy price for the fanciest of goods. Our principle of doing business is many sales and a small profit from each. We don't expect to make expenses and a big profit from any single sale, but a little on each one and the aggregate will keep us out of the hole.
THE GROCERY BUSINESS IS OUR BUSINESS
And if you are a customer of ours you know it, and if you are not, it will pay you to become one. Remember the phrase.

DISHES!

We have added to our already complete line of other goods a complete line of decorated and white china ware. These dishes are manufactured by Alfred Meakin, one of the best manufacturers of china ware in England and we bought them so low that we can sell you a set of decorated ware as low as you get any good white ware. We also have a nice line of glassware. Come in and buy your dishes and then do not forget that we keep the best line of groceries to make a meal complete, and tastefully decorate a dinner table. Our dry goods and general furnishing goods, boots and shoes are first class. Bring in your produce and we will pay highest at market price.

LETTERS

FROM MARIAN D. P.
MARIAN D. P., June 28, 1901.

I noticed in one of your issues a circular referring to the abolition of the Philippine Islands toward the Filipinos. The question of what to do with the Philippine Islands is a very serious one and one which has been considered in the United States as well as in the Philippines. There seems to be a general opinion among the people of both countries that the islands should be treated as a separate nation, and that they should be given the right to elect their own government. This is a question which has been discussed for many years, and the opinion of the people of both countries is in favor of this course.

General Howe, who has recently left for the United States, is in the opinion of the people here, a man who is not only a man of great ability, but also a man who is a man of great courage. He is a man who has done much for the Philippines, and it is to be hoped that he will do much more in the future.

W. F. NORRIS.
