How to Get Good Milk.

Find a cow that is an expert at her business, one that is supplied with the best food on earth to do business with, then you do business with her and you will get good milk. You cannot get good milk from a cow that don't know how to produce it, and you cannot expect good milk from an expert one unless she is provided with the best food. You can get good clothing the same way as you can get good milk. Go to an expert clothing man who understands his business and is supplied with the best clothing on earth and then do business with him and you will get good clothing. We fit that place exactly. We are expert clothing men and have the best clothing made. If you do business here you will get good clothing. You must not expect good clothing from a merchant who does not buy the best made. Merchants, like cows, are not all experts. Only a small per cent of cows are experts and give good rich milk, so with merchants, only those that make it a life work, get to be expert clothing men. It is just as easy to milk a good cow as a poor one and it is as easy to trade with us as with a poor merchant, and we are more pleasant. It pays to milk a good cow and it pays to trade here. Why not trade with us? It costs you less and you get the best there is made in clothing, if you trade here. Then, too, we don't kick. All the time you put in at this store is not wasted. If you do business here you will always feel safe. We are gentle and give good bargains. Try us the next time you need clothing, shoes or anything for men and boys.

 It is over another campaign, with all its attendant pomp and strenuous activity, has been relegated to the list of the things that were, in the great estimate, of great importance at one time, and the result of the use of general election and personal appointments. Candidates are no longer the subject of diatribes and accusations of dishonesty and malice, as in former times. It is regarded by many as the necessary feature of a campaign. Our partisans are supposed to be upright and intelligent, while the opposition are regarded as all the reverse. Candidates, therefore, are not mentioned, naturally enough, with much bitterness of feeling, and the effect is sometimes refreshing. The general impression that has prevailed since the late war has not been altogether so complimentary that this paper is addressed to a middle of neither. It is expected to be right in the front ranks that conducted by analysis of what is right, and then fighting for that right, and the last thing is being.

Dr. Williams for coroner and Robert Jones for surveyor were elected by an decisive majority, resulting well ahead of the state ticket.

In the City A. J. Griffin was elected assessor, Chas. Jeffrey, constable, and Alex. and Patrick, justices.

It is not possible to be too highly complimentary of the success of our ticket, and especially of our candidates.

"I told you so!"

"How would you like to be the fellow fellows?"

"Don't worry boys, they are dying."

The Idea

That advertisements are not read is quite preposterous to those who have given careful attention to such matters. Every reader surely reads every page of this paper. It doesn't matter where your ad is located, if made interesting, it will be read the same as any other portion of the paper. You are reading this now.

Some successful business men pay as high as THREE CENTS a year for a card to write their ads. And they pay a number of hundred thousand dollars annually for space. They do not do this for charity, but because it pays. You, our business man who will give up no means of advertising, do not see the advantage of a card to write your ad. You will not give up a hundred thousand dollars a year for a card to write your ad. You will not give up a hundred thousand dollars a year for a card to write your ad. You will not give up a hundred thousand dollars a year for a card to write your ad.
