The German store always has the best table butter, the freshest eggs. In fact the German store, Furchner, Duerig & Co.

Somebody ought to be able to celebrate today, in proper style. All through the long watches of last night Tailor Tweed labored to complete a suit for some lovesick suitor.

On account of the rain last Sabbath the Children's Day exercises at the Presbyterian church will be held Sabbath morning at 10:45 a. m. The ordinance of baptism will be administered to all children whose parents present them.

Miss Celia Wilkinson, niece of Miss H. Wilkinson, was married Tuesday, at Madison, to Mr. J. F. Greenside of Osmond, Kans. Mr. and Mrs. Greenside were in Wayne Wednesday receiving the congratulations of their friends, and are now at the Wilkinson farm near Carroll. The bride was formerly a student of the High school and later of the college, and has many friends and acquaintances in the city who will wish her and her husband happiness and prosperity.

Judge Boyd held an adjourned term of court here Wednesday and Wednesday evening and had all the bankers in the county "on the carpet." Some interesting testimony was taken. Atty. Welch, for the county, went after the case for all there is in it, and to an outlooker was too many for Lawyer Smythe of Omaha. The defendants admitted practically all the facts in the case; that they had arranged jointly to pay the county treasurer's bond, and later on agreed not to pay interest on county deposits. Judge Boyd will give his opinion probably in course of twenty days, and no matter how he decides it, the DEMOCRAT understands it will go to the supreme court.

Wayne people, generally speaking are probably not aware that we have a real professor in the art of fancy drink mixing in the city. William Borkenbales of the Milder sample rooms is the champion fancy drink mixer of the state. Mr. Borkenbales came from Fremont where he was recognized as "the prince of bartenders." Quiet and unpretentious, Mr. Borkenbales would be taken for a Presbyterian parson (he's too "white" for a chicken-enter) most anywhere, but ask him to fix you up a Manhattan cocktail and you'll get the finest drink made this side of Chicago. Take two of Bill's famous cocktails and you can feel the wings growing out beneath your shoulder blades.

Ale and Porter on top at Milder's Hecker, dentist over P. L. Miller's, 5 room house for rent.

The College ball team played against an aggregation from Carroll, Randolph Hartington, Laurel and Magnet on Wednesday, and were defeated by a score of 11 to 12.

They say the old Northrop house near Squire Feather's residence is haunted. Ever since Mr. Houseman died in the place strange noises and ghostly apparitions have been seen, the neighbors have the weeds well tramped down from continued walking about to peer in the windows.

The railroad "ad" in this issue has the appearance of having been well watered like the corporations for whose benefit it is intended. This matter is sent out all the papers in plate form, on wood base, and the placing of one of the cheap jobs in a news form raises sneer with the whole print.

Miss Fern McKinley started Saturday morning for her home in St. Louis via Audubon and Des Moines, Io., where she will visit friends and relatives. Miss McKinley has made many warm friends during her stay here as trimmer in the millinery department at Wilson Bros., and should she return we bespeak a warm welcome for her.

Miss Ada Logan is the new assistant postmistress, Fred Woolstin having gone to Omaha where he has some other more lucrative in the same line of work. Miss Logan has been in the Ponca-office a number of years and will, when she becomes accustomed to the new surroundings, no doubt be very satisfactory to the patrons of the city office.

An item overlooked by the DEMOCRAT last week was the big school exhibition and picnic dinner given by Miss Benschoff at the close of her term south of town. There were one-hundred and twenty-five people present, a number of them being Miss Benschoff's admirers from the city. An excellent program was given by the students and then a dinner—such as printers dream about—was served, which is best described by a Wayne young lady who says she gained five pounds while taking it in. Another town visitor has been sick ever since, and the Bayer facts indicate that the affair was as immense as reported.

Mesdames Moran and McGinty were in, Sioux City yesterday and had quite an exciting experience in leaving Sioux City. The ladies thought they were late going to the train and after a basty run just managed to get on the car steps of the rear coach as the train pulled out. Elmer Lundburg happened to be on board and procuring a key let the ladies into the compartment. "What in the world is the matter with these trains?" asked the wife of the Wayne station agent, when the conductor was found, "why, you are always changing time." "Guess you must be changing time," replied the con., pleasantly; "this happens to be the Omaha train; your train doesn't leave for twenty minutes." The Wayne ladies subsided gracefully.

Uncle Billy Taylor was a passenger past Monday morning. Uncle Billy was dressed up like a con shark and had his neat little bag with him. The DEMOCRAT could not learn whether he was hitting the road to sell hog cholera remedy, Mrs. Dosomething pills or just plain stock food.

"Sell me a gun! I want a gun!" shouted a young fellow in Craven Bros' last evening. Upon being refused a gun he called "how give me a razor; I'll cut out a job for Losenberg before morning!" the doctor being in the store. The DEMOCRAT did not learn who the bad man was, but his friends took care of him before he could kill anyone.

Clark of Bloomfield was chosen as president. It was decided that the next annual meeting of the society be held at Carroll.

### How About it, Mickey?

For the first time in several weeks the Bee has mentioned the name of John N. Baldwin, one of the attorneys for the Union Pacific Railroad company. The Bee refers editorially to the fact that Mr. Baldwin appeared before the supreme court in behalf of the policy adopted by the republican state board of equalization.

This reminds the World-Herald that the Bee has failed to say anything about a very interesting incident in which the name of John N. Baldwin figures. In the Bee of June 9 there appeared an article from one of the Bee's staff's correspondents, in which appeared the following:

It may be interesting to give for what it is worth, some information volunteered by John N. Baldwin of Iowa, who has been here this week trying to fix up the railroad tax case, for the Union Pacific in whose department he is retained. In a laudacious mood Judge Baldwin declared: "We are not bothering about the governorship any more. That's been settled. We had a conference a day or two ago, and we all agreed on Mickey as our man."

The World-Herald submits that this statement having been made ten days prior to the meeting of the republican state convention requires an explanation at the hands of the newspapers like the Omaha Bee that are engaged in the support of Mickey for governor.

How did it happen that on June 9 the attorney for the Union Pacific, addressing a correspondent for the Omaha Bee, said: "We are not bothering about the governorship any more. That's been settled. We had a conference a day or two ago, and we all agreed on Mickey as our man?"

How did it happen that ten days later, on June 19, the republicans of the state convention in convention assembled in the city of Lincoln, all agreed on Mickey as their man?

How did it happen that the corporation lawyers of this state on June 9, speaking through the Omaha Bee, the recognized republican organ of this state, said "Mickey," and that on June 19, ten days later, the republican state convention also said "Mickey?"

Is it not fair to ask the Bee to make an explanation of this interesting incident?—W. H.

"What's the matter with R. A. Tawney of Pierce county for state senator?" asks a Pierce county citizen. The suggestion is undoubtedly a good one as no better man in the district could be chosen.

Judging from the Fullerton Post Wayne county's old democratic wah horse, Ed. Reynolds, is strictly in the push in Nance county, as he has been delegated to attend every convention from state to representative.

Miss Grace Wilbur edits the South Sioux City Argus. Here's an udder story from the young bachelor editor of the Concord Call that will pull hard enough to make Grace indignant:

"The man who goes to a swell dance these days or nights rather, sees a great deal of women. At one of these swell parties not over a thousand miles from here, a couple of young men were admiring the ladies and their gowns. "When" said one, "did you ever see so fascinating a sight?" "Not since I was weaned," said the other."—Exchange.

Clipped from South Sioux City Argus, Wey, Grace, you naughty girl.

Ed. Kearney, Jackson's democratic banker who wanted to break into congress by virtue of the republican bankers of the district, must be an erratic rooster. After writing the bankers of this congressional district of his desires he published a card in his local paper stating that business interests would prevent his accepting the nomination. This week following this piece of backsliding his home paper stated that he had gone to Minnesota to spend the summer fishing in the lakes. After such a strenuous political career a democratic banker undoubtedly would find it necessary to take to water.

Carr Nation has come down another peg or two and is now advertising herself as a street fair attraction in Missouri. Several managers have received her literature, which bears a half-tone picture of the old lady beneath which is this line: "America's Most Famous Woman." The fair season not being fully open yet, she is going about the state selling hatchets and soliciting money to build a home in Kansas City, Kan., for "the destitute widows of drunkards."

The Chicago Chronicle is very much wroth over W. J. Bryan's attack on Grover Cleveland, which it terms a vicious, personal assault. As a matter of fact Bryan's statements on Cleveland simply refer to that old blunderbus as a political hypocrite, giving the specific crimes of the ex-president. It is the truth of these charges that stick in the thorax of the re-organizers, and the further fact that they cannot charge anything up to Bryan except his honesty and thoroughness of purpose is what makes them mad. When the Chronicle says that "Mr. Bryan was a bolter from democracy when he

was accepted by the Chicago convention as its candidate for the presidency," that paper simply makes a monkey of itself. Hill and Cleveland were not only bolters; they slunk clear into the republican camp.

(From the Omaha Bee June 9th, 7th col., 1st page. From the staff correspondent in Lincoln.)

It may be interesting to give for what it is worth some information volunteered by John N. Baldwin of Iowa, who has been here this week trying to fix up the railroad tax case, for the Union Pacific, in whose department he is retained. In a loquacious mood Judge Baldwin declared:

"We are not bothering about the governorship any more. That's been settled. We had a conference, a day or two ago and we all agreed on Mickey as our man."

No use of talking, to a great extent Mr. Porter has lost his influence among the reformers who attend conventions and put up candidates. Few of them hold that his act in pocketing the marks and brands fees was criminal, but they all believe it was a doubtful proceeding and very dangerous from a partisan

standpoint. They rightly are of the opinion that a privilege apparently sanctioned by statute should not be enjoyed where it comes in conflict with the clear and positive provisions of the constitution. We have the word of leading members of his party that Mr. Porter has lost prestige with the allied forces of reform, and cannot possibly reach and occupy the proud eminence he once graced unless, without further solicitation, he surprises and delights the men who swore by him in other days, by promptly putting it back—Bixby.

The statement that Mickey is a prohibitionist is indicative that the republicans of Nebraska now figure they can elect any kind of a man governor. Dietrich was reported to be a horrible example of the saloons when he ran for office. Now, that we are to have a prohibitionist we'll have to see how these church people vote.

## ACTION OF BOARD OF EQUALIZATION EXPANDED.

### Reduction in Valuations by County Assessors Obligated the Board to Make Similar Reductions in Railroad Valuations.

Careful Investigation Shows that Nebraska Railroads Are Still Assessed Too High Compared with All Other Property in the State, Now that and in Reform Boards in the Latter 1905.

(Issued Under the Authority of the Board of Equalization.)  
For years past it has been generally conceded that the railroads should be required to bear their share of the general taxation. Nebraska has had a succession of reform administrations, who under the name of reformers have elected, they were elected, there has been a succession of changes in the political complexion of what is known as the Board of Equalization. During these successive changes the railroads have not presented any case to the people, but each year have voted until the parties whom the people should select, were elected to office, and then presented the question of railroad taxation to them when they acted as officers of

Party	Year	Land	Lot's	Prop.	Railroad and Telegraph	All Property
Republican	1902	1,250,000	1,250,000	1,250,000	1,250,000	1,250,000
Republican	1903	1,250,000	1,250,000	1,250,000	1,250,000	1,250,000
Republican	1904	1,250,000	1,250,000	1,250,000	1,250,000	1,250,000
Republican	1905	1,250,000	1,250,000	1,250,000	1,250,000	1,250,000

From this statement it will be seen that the railroad and telegraph property had a valuation in 1893 of \$20,000,000, or 10 per cent more than the value of all other property in the state. In 1905 the value of railroad and telegraph property had decreased to \$18,000,000, or 9 per cent more than the value of all other property in the state. This shows an increase of 10 per cent in the value of all other property in the state, while the value of railroad and telegraph property has decreased 10 per cent. This is a clear and undeniable fact, and it is the duty of the Board of Equalization to make similar reductions in railroad valuations.

The changes made in the valuation placed on different kinds of property through the state of Nebraska have been erratic and hardly explainable. From the variance of the reports made, it is evident that the county assessors have valued the property of their respective counties more with a view of adding a valuation that would raise sufficient money for the county purposes, irrespective of any determined value. The result is that the various counties do not compare at all in regard to price of any article which should have a general relative value.

Year	Value	Year	Value
1899	1,250,000	1903	1,250,000
1900	1,250,000	1904	1,250,000
1901	1,250,000	1905	1,250,000
1902	1,250,000		

It will be noticed that while the tendency has been to report lower values on all these items, they have not been reported on a gradual footing in all cases. The highest assessment made in the state in regard to property was in 1893. In that year the property in Douglas county were assessed at \$16.43, while in 1905 they were assessed at but \$11.82. In Clay county the improved lands in 1893 were assessed at \$17.00, while in 1905 they were assessed at but \$13.15. In Webster county in 1893 lands were assessed at \$5.25 per acre, while in 1905, while in Saline county they were assessed at \$10.00 in 1893 at a valuation of \$10.55 per acre, which were reported in 1905 at but \$5.43. \$8.75 would appear to be a fair valuation that Saline county needed money in 1893, and that their immediate wants were not so pressing in 1905, but this change in valuation of their property obliges the railroads in that county to pay one-fifth of the amount collected. Some newspaper critics who advocate a liberal advance in the assessment of railroad property on account of their betterment and comforts, and the improvements that have been made in the past ten years, should carefully consider the figures given in Bulletin No. 5. It will be noticed that there has been an increase in acreage of improved lands returned for taxation amounting to 62.7 per cent of the lands reported in 1893. This is accounted for by the fact that in 1893 large num-

Last Sunday's Journal had an item to the effect that Mrs. F. F. Wheeler had plans drawn for a \$3800 residence in Smith's Villa. That doesn't look much like going to "Darkest Africa." The personal property of the late R. H. Johanson was sold at public auction last Saturday. The household furniture was a sad looking assortment, filthy enough to have caused an epidemic of disease. John Connor of Fort Scott, Kansas, was in town over Sunday. Mr. Connor has grown grey and fat and says he feels just like a boy again. He reports seeing Mr. Lindly a week or two ago and that the old gentleman was in good health. D. King Hern received a telegram Saturday forenoon, announcing the sudden death of a sister in St. Paul, and he and Mrs. Hern left on the two o'clock train for that place. As Mr. Hern was not even aware that deceased had been sick the news of her death was a sudden shock to him. Jas. Shannon went to Carroll Wednesday to get down to solid work on the ranch. Jim is quite a worker and thinks he is a great political debater—when he talks to republican editors. Recently an Irishman saw James mowing weeds with a scythe near the railroad track, and the son of Erin remarked: "Begorra! and win did ye go to work on the siction?" Griffy Garwood and Oharry Naish of near Carroll arrived home Saturday from the west. They report having a fine trip. They met Mrs. Neely on a train near Spokane, she being on her way to the city to do some shopping, and she informed the Wayne county tourists that they were very well pleased with their new home and that Mr. Neely was doing nicely in business. At La Grande they saw John Coyle, and they say John is a big fat bucker, now, weighing twenty-five pounds more than when he left Wayne. The ranch in that country was to get timber lands in Idaho and Mr. Coyle had just taken 160 acres of it.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of your druggist. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, Journal, For sale by Raymond.

It is for this reason that Nebraska fusionists did honor to themselves in uniting upon Mr. Thompson as the standard bearer of their party. And the Independent feels that none of his fellow citizens, neighbors and friends are inclined to, or ought to say less. This is a deserved compliment graciously paid. The people of Grand Island have had the opportunity of studying the characteristics of the fusion nominee for governor, and the good opinion, they have formed should serve as a hint to the Nebraska voter who is anxious to cast his vote for the better candidate.—World-Herald.

The post office department has produced the receipt showing Wm. J. Bryan did receive an invitation to that "harmony dinner" in New York, and which Mr. Bryan denied. As Jim Britton says it is up to William J. to relieve himself of the stigma of war, or else get out of our church.

Here's the way the Lincoln Journal plugs up a double-action bluff on the saloon element: "The people of the state are pretty well satisfied with the liquor laws which have been proved capable in many trying circumstances. Any attempt to change them, in recent years, has met with a chilly reception. But an element that desires a consideration that might be granted will not get it by fighting the party that is sure to be victorious in the state election. Mr. Mickey will be elected by a majority of 20,000, not under 15,000 at the least. In the face of the present temperance feeling in the state, I do not believe that the liquor element will take any pronounced stand."

Senator Teller of Colorado made a speech in the senate on Friday which proceeded from first to last upon the assumption that it would "strike down" and "ruin" the beet sugar industry in the United States to reduce the duty on sugar imported from Cuba to per cent, leaving the duty on all the imported sugar the same as at present. Does the Colorado senator really believe there is any ground for this assumption? The great mogul of the beet sugar business, Mr. Oxnard, and his second in command publicly declared not so very long ago that it would not materially affect the price of sugar in this country, and of course would not materially affect the beet sugar industry, to admit Cuban sugar free of all duty. They were right. Mr. Teller, if he has any capacity for sound economic reasoning, must know they were right. So long as we must import large quantities of sugar, paying the full Dingley rates in order to meet the home demand, the admission of Cuban sugar at a reduced rate or even entirely free can-

### Among His Neighbors

The Grand Island Daily Independent is a republican newspaper, and it is also one of the oldest publications in Nebraska. Those who do not have the pleasure of a personal acquaintance with the fusion candidate for governor may be interested in learning the opinion entertained for Mr. Thompson by his republican neighbors. The Grand Island Daily Independent throws a bit of light on the subject in the following editorial.

The Nebraska democratic and populist state convention did an honor to Grand Island yesterday in placing in nomination for governor Hon. W. H. Thompson of this city. It has been many years since this city has had a candidate for a leading state office. But the democrats and populists of Nebraska did something more in placing in nomination for governor this fellow citizen of ours. They did credit and honor to themselves. Wm. H. Thompson came to Grand Island from Polk county, Iowa, in June, 1881. In the twenty-one years that have passed since that time he has not only made a success of his life professionally and financially, but he has endeared himself to the hearts of his townsmen and, it may safely be said, holds as high a position in the esteem of the general public, in the esteem of his fellow citizens and neighbors, as any other one man. While some of his neighbors differ from him along political lines—Mr. Thompson is one of the first men to give credit for honesty in conviction to those who differ from him—none of his fellow citizens, it is the convictions of the Independent, would knowingly permit any statement calling into question, in the least degree, his fine ability, his strength of character and his integrity, to go unchallenged. A cleaner, abler, more conscientious man could not have been found. It is for this reason that Nebraska fusionists did honor to themselves in uniting upon Mr. Thompson as the standard bearer of their party. And the Independent feels that none of his fellow citizens, neighbors and friends are inclined to, or ought to say less.

### Cheap Lands, Good Homes

On Tuesday, July 15, I will conduct an excursion from Wayne to Norwich, McHenry county, North Dakota. The fare from Wayne to Norwich will be \$12.40 and the tickets are good to return for 21 days from date of purchase. The unimproved lands in McHenry county are selling at about \$5 per acre and improved lands from \$12 to \$20 per acre. The soil is as fine as can be found anywhere, with an abundant rainfall and the winters are not severe. Last year wheat yielded from 12 to 30 bushels per acre and oats and barley from 35 to 50 bushels per acre. The land is level and well watered. I will be at the Boyd hotel in Wayne on Saturday, July 12, and will be glad to give all the information I can regarding the country. Anyone going on this excursion and not finding the country exactly as I represent it will have full refunded. Call and see me. H. F. SLAUGHTER.
