There is considerable stir in town today over the selection of a candidate for mayor, to be made tonight at the court house. Mayor Ley is a candidate for the seventh time as the DEMOCRAT understands the situation, and the friends of James Britton are making quite a hustle to get him the nomination. J. M. Pile and D. S. McVicker are mentioned as men to succeed Councilman Heckert in the 2d ward, while Wm. Piepenstock and C. M. Craven will likely succeed themselves in the 1st and 3d. The principal issue at stake is the proposition to have two or three saloons, and the only interesting feature is to note how some of the followers—of the church—are tearing themselves wide open on either side of the issue.

tional convention, or that the convictions of ex-Senator Chandler on finance, or that Senator Quay's idea of statehood would again dominate the next republican national convention, would be immediately set down as a rainbow chaser and not as a statesman. And yet, it must be remembered that each of these men are much prominent in the republican party and in its councils, and men who have always been loyal to their party, whether they absolutely agreed with it in its platform amendments or not. If such men as these, men who have been loyal to the party, should not for a moment be given credit for being able to control it in convention assembled, what little hope could there be expected to arise in the democratic breast from an attempt of those to control the next democratic national convention who have been honored by their party, and yet have sought its defeat; and, in order to accomplish their desire, joined with the republicans, and so joining fastened upon this country the ruin and devastation which they at their dinners crystalize into glowing sentences of condemnation and bitter disapproval.

The democratic party has no enemies to punish or friends to reward; it simply demands that the government be honestly, economically and impartially administered. It demands that its candidates' past life shall be a sufficient guarantee for his future actions. If those who have heretofore worked with the republicans in bringing about democratic defeat really desire democratic victory, they will not even suggest the nomination of one of their number, but will join the ranks and assist in the selection of the strongest and most capable of the loyal democrats. Such action means union, and union means victory. To do otherwise means disorganization, international strife and defeat.

You cannot by degree or resolution change the human heart. As to Nebraska, its democracy needs no reorganization. It is united and determined. Bryan is as strong with the democrats of the state as he ever was, and there is no disposition to side-track or desert him.

W. H. THOMPSON.

E. Rosewater no doubt smote a sickly smile this week when Dave Mercer failed to land the director of the census graft. A popular subscription for Mercer's relief would no doubt receive hearty support from the Bee.

Poor Sioux City is feeling blue these days to think that President Roosevelt is going to visit all the little burgs round the country and cut the gamblers' town out. Even Yankton, a rival town Sioux City put to sleep 30 years ago, is to receive the president. Here in Nebraska Grand Island, Hastings, Lincoln, Fremont and Omaha will entertain the chief executive.

Under the new pass agreement adopted by the western railroads, in view of the Elkins law, no passes or reduced rates are to be given to others outside of preachers and objects of charity. Pray, what is a preacher but an object of charity when he asks to ride on a railroad train at a less rate than other people have to pay? He is either an object of charity or else he has a mighty good graft.

The Alton Democrat gives greedy Rockefeller this swipe: "Gasoline is selling in this bawdwick for twenty cents a gallon. Less than six months ago it sold for fourteen. Rockefeller must be getting ready to endow another religious university. The blasphemous old hypocrite steals the god-given products of the earth from humanity, sells them back again, and then calls himself a philanthropist and benefactor because he gives a pittance for the privilege of having his name on a college building in boxcar letters."

Niegenfind promised to phone his friends from where he got to last Friday, but as no message has been received it is presumed the extra fire put on for his benefit burned the funny box out.

Carter H. Harrison has again put all the Chicago papers to rout and for the fourth time received the democratic nomination for mayor. It's the pull on the city payroll that lands the lobster.

Out at Miller, S. D., it is said the young men thereabouts are marrying the school teachers at such a rapid rate as to interfere with the work of the schools. And just think how many more scholars the mergers will produce.

Norfolk Times-Tribune: Jim Britton, by many thought to be the most popular business man in Wayne, seems to be slated for Mayor of that city this spring; would one of our foremost business men accept the same position in Norfolk? he should be willing to do so.

Mrs. Rosa Clark of Chicago, wants a divorce on the grounds of extreme and repeated cruelty. She said Peter placed a plank on edge down the center of the bed and thus made two stalls, and that he compelled her to keep on her own side of the plank. Poor girl! If her Peter was one of the kind who fill up every day on poor whisky, limberger cheese and onions she would enjoy that sort of isolation.

A man going by the name of Smith is traveling through the country in northwestern Iowa representing the "Home Medical Institute" of Toledo, Iowa. He finds a gullible patient and makes a contract, signing his name as president of the concern, agreeing to give nine months treatment at home for the sum of \$100. All the patient has to do is to tell the president what his symptoms are and sign a note for the \$100, and the necessary medicine is sent out from the institution. It is a sort of pulseless, heartless, lungless cure.

There is one case near Holstein where a widow woman had given her note for \$100. She has a son who is foolish—not bad enough off to be sent to an asylum, but he needs fixing. Dr. Smith is going to fix him \$100 worth. Two other cases were mentioned where parties have been worked for notes.

Those Dear Iowa Girls

And it is from the Manson Democrat: Two Cherokee girls got on an Illinois Central train one day last week, to go to Meriden, they said. They paid their fare to Meriden, but did not get off there. When the train stopped at Cleghorn the young ladies emerged from the toilet room and left the train. Conductor John Sullivan was watching them and tried to figure out some way to get even with them and teach them a lesson. The opportunity came sooner than he expected for the girls left a purse containing something over five dollars in change in their seat on the train. Mr. Sullivan took the purse and when he came back next day the dear girls got on at Cleghorn and the first thing they did was to tackle the conductor for the purse. He told them he had found it and returned it to them after deducting all that was coming to him and giving them a cash fare slip. The girls will probably not try to beat their way on John Sullivan's train again.

Readers of the Lincoln State Journal have undoubtedly formed the opinion that Gottlieb Niegenfind was really a much abused hero. The reporter doing the hanging assignment has certainly endeavored to place a sort of halo about his head and make it appear that his divorced wife and his father-in-law were the people who deserved punish-

### THE MAN IN ARMOR

Was no match for the microbe. Giants he might slay but this microscopic organism defied him, and in many a campaign more men were destroyed by camp diseases than by the enemy's sword.

The one way to arm against microbial disease is to keep the blood pure. Impure blood both breeds and feeds disease.

The signs of impure blood are easy to read. Pimples, boils, eruptions generally proclaim the blood to be impure. Scrofulous sores and swellings, salt-rheum, eczema, etc., are other signs of a corrupt condition of the blood.

Doctor Pierce's Golden Medical Discovery identifies the blood and cures diseases caused by the blood's impurity. It cures scrofulous sores, boils, pimples, eczema and other disfiguring diseases.

It gives me great pleasure to express my faith in the virtue of Dr. Pierce's Golden Medical Discovery. I am a Graytown, Ottawa Co., Ohio. I suffered everything for two years with humor on my face, which baffled the skill of some of the medical men. Came home disabled and unable to care for myself. I also failed to help me. Then I began Dr. Pierce's Golden Medical Discovery, with no knowledge in it. It only pleased my wife to tell me to take it, after taking five bottles I am entirely cured."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamp to pay expense of mailing only. Send 25 cent stamps for the book in paper covers, or 35 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

ment and received it. The idea that prompted the sentiment may be considered meritorious by some; but even at this late date those near the scene of the crime can but believe that the punishment was richly deserved. The reporter has listened to Niegenfind, constituted himself judge and jury and practically reversed the opinion of those who heard both sides of the case. In view of the fact that the murderer was to die it might have been justifiable to shade his crime slightly, but he should never have received the encomium bestowed upon him by the Journal artist, who, had he been at the scene of the crime, would undoubtedly, with thousands of others, have been for giving the man his punishment then and there had he been obtainable. If anyone deserved ever capital punishment Niegenfind was certainly in the front ranks of the class. In cold blood he shot down his wife, his father-in-law, attempted an outrage on his wife's sister and would probably have killed his innocent child had it been in his way. His crime was deliberately premeditated and cruelly executed. He took two innocent lives and his guilty life was the legitimate forfeit. The court and the jury were better qualified to judge the case than the sentimentalists of Lincoln and there have been none in this section of the state to criticize the court's decree—Norfolk News.

### A Most Liberal Offer

All our farmer readers should take advantage of the unprecedented clubbing offer we this year make, which includes this paper. The Iowa Homestead, its Special Farmers' Institute Editions and the Poultry Farmer. These three publications are the best of their class and should be in every farm home. To them we add, for local, county and general news, our own paper, and make the four one year, only \$1.25. Never before was so much superior reading matter offered for so small an amount of money. The three papers named, which we club with our own, are well known throughout the West, and command themselves to the reader's favorable attention upon mere mention. The Iowa Homestead is the great agricultural and live stock paper of the west; The Poultry Farmer is the most practical poultry paper for the farmer, while the Special Farmers' Institute Editions are the most practical publications for the promotion of good farming ever published. Take advantage of this great offer, as it will hold good for a short time only. Samples of these papers may be examined by calling at this office.

## ...Delicious Old Wines...

I have just received a shipment of what I believe to be the best wine ever sold in Wayne, or at least, the choicest grade. I have handled in twenty years at the liquor business. It is the "pure quill" and just what you want at home for a good spring tonic. The price is easy for the poor and rich.

### Read it Through Twould Spoil this Story to tell it in the Headlines

To use an eighteenth century phrase this is an "o'er true tale." Having happened in a small Virginia town in the winter of 1902, it is a story very much of the present. Up to a short time ago Mrs. John E. Harmon, of Meifa Station, Va., had no personal knowledge of the rare curative properties of Chamberlain's Cough Remedy. "Last January," she says, "my baby took a dreadful cold and at one time I feared she would have pneumonia, but one of my neighbors told me how this remedy had cured her little boy and I began giving it to my baby at once and it soon cured her. I heartily thank the manufacturers of Chamberlain's Cough Remedy for placing so great a cure within my reach. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." For sale by Raymond.

### A Very Successful Recital

There was a big lot of very proud Methodist people in town last Monday evening, and their pleasure was largely shared by many members of the other denominations as well as a good many people who belong to no particular church. In fact the Methodist church was pretty snugly packed to witness the installation of the pipe organ, hear the grand music and facilitate each other upon the good fortune that befell the city through the generosity of Grandma Pingrey. After the singing of the Coronation Mr. Ed. Renick, in behalf of his mother-in-law, presented the instrument to the church, a very nice speech of acceptance being made by Mr. J. D. King on behalf of the church. Prof. Jardine of Chicago then delighted the audience with several selections on the "new pipe organ" and if there are any members of the church disatisfied with the instrument the DEMOCRAT has failed to hear from them. Other numbers on the program were two vocal solos by Miss Sisson, the last selection being especially good. Miss Colony appealed very strongly to the interest and hearts of her hearers in "Jim Fenton's Wedding." Prof. Newton, who has delivered a course of lectures at the opera house this week, sang a selection that was highly applauded, and the "Grand Chorus" by Prof. Jardine brought the recital to a close.

Something like \$110 was the "gate receipts" for the evening and it was the cheapest entertainment Wayne people have enjoyed for a long time.

Will Baird was in Omaha with cattle Monday and struck a pretty fair market.

C. A. Chase bought some stock cattle in Omaha last week and shipped them out to Holt county where he has been this week.

Prof. Jardine in giving an organ-recital in Rockland county, New York, included in his program an original "Thunder-Storm," after which a farmer said to him: "Say, Mister, you don't want to play that there 'Thunder-Storm' here again. Why it turned all the milk in my dairy sour!"—Ex.

Mrs. Grant Mears received news of the death of an aunt, in Kansas, the other day, who died under peculiar circumstances. The lady was traveling with two children and missed connections so that she was two days late arriving at the home of relatives who were looking anxiously for her. While the folks were waiting at the depot to receive them and the train was slowing up, the lady in question leaned over to put a wrap on one of the children and dropped over dead from heart disease.

Mr. McCorkle of the College will sing a bass solo at the M. E. church Sunday evening. Mr. McCorkle has a magnificent voice.

That new M. E. organ is a perfect "pipe dream" when properly played.

The DEMOCRAT has had the grip this week, by dad.

Norfolk News, 16th: William Pfell died at Hoskins Monday night of lung fever. Mr. Pfell was 78 years old.

The funeral is being held from the Lutheran church of Hoskins this afternoon. He was the father of Ed and Charles Pfell, both known in Norfolk.

The funeral of the late R. H. Gibson was held last Sunday afternoon from the Baptist church, Earl Gibson, his son delivering an eulogy over the remains of the dead. The service was peculiar because of the absence of prayer or song. The church was crowded.

### RHEUMATISM CURED AT LAST

Good News For All Who  
Suffer With Rheuma-  
tism, Free.

To all who suffer with Rheumatism: I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatment on Rheumatism ever published.

No matter what your form of Rheumatism is, whether acute, chronic, muscular, inflammatory, deformant, sciatic, neuralgia, gout, lumbago, etc.—no matter how many doctors have failed in your case—no matter how many so-called "sure cure" you have tried. I want you to write to me and let me tell you how my mother was cured.

I am neither doctor nor a professor—simply a plain man of business—but I have a CURE for Rheumatism, and I want to tell everyone who suffers with Rheumatism to write to me and let me tell you how my mother was cured.

I am neither doctor nor a professor—simply a plain man of business—but I have a CURE for Rheumatism, and I want to tell everyone who suffers with Rheumatism to write to me and let me tell you how my mother was cured.

## BY DAD.

The one beautiful thing about this extra touch of winter is that it has delayed the spring housecleaning of the pestiferous females.

Len Durham said, as he took the train for Seattle Tuesday, that he was going so far away he would never again bother the Wayne widows, and Charley Warner could now have things his own way. By dad, when I was a "boy" they used to say that the fellow who ran away from the girls, was the one who was bothered.

About the nicest roast the high falutin grand-opera-voiced church singers ever got was handed them by Rev. Dawson last Sunday morning at the M. E. church. But if some of the singing of Monday evening had been rendered Sunday morning the reverend gentleman would never have dared talk so. Why good vocalists permit themselves to get tangled up in these weird an' wooly flights of discord is a mystery—to people who only indulge in them when carrying a big jag of juicy rye. Get under three branches of green brier and, by dad, most anyone with a pair of jugs and "wheels" that need oiling, can sing it.

The man with a binful of anthracite isn't much better off these days than the fellow whose umbrella is keeping Lent.

You can buy rubber boots of nearly every merchant, but "Snag Proof" only at the 2 Johns. None genuine unless the name "Snag" is stamped on the leg. Price is always \$4.

Charley Martin is the warmest politician there is in town these days—the only peculiar thing about it is how Charley can hold his job in the church and be a side-partner of Frank Kruger's. Charles ought to be elected councilman from the 2d ward; the town board needs building up!

When your local paper is thin and, by dad we had no "rush of job work," and no "lot of local news crowded out to make room for business men," what he de'all are you going to do about it?

The DEMOCRAT extends its condolences to Bro. Gibson. Not long ago, he tried to coax one of our merchants to give him an ad., and when told this paper was a better advertising medium, retorted that he, Gibson, didn't have to resort to blackmail to make the merchants do business with him. The funny feature about this is that Gibson is, so I am told, going to put a big, new dry goods store into Wayne, and show the local calico sellers that they'll have to advertise in the Republican or he'll force them into bankruptcy. Better keep on with the beggar act, Bro. G.; you are better adapted for that than "blackmail."

The DEMOCRAT could tell you, today, who will be next mayor, but we won't—until next week.

Just a little sunshine, by dad. That's what we grip victims need in our business.

If they were editors it would then be plain, why they've always the deviltoppy over some old pain.
