Picnic and Concert of the Old Settlers

One of the most meritorious affairs offered the people of Wayne county will be the old settlers basket picnic and band concert August 20th. One of the grand features will be Reed's Sioux City band, the best musical organization in the middle west. The DEMOCRAT man has a most kindly remembrance for Mose Reed and his buglers. It is about thirty years ago we first watched Mose blow the cornet and beat his batton. At that time 4th street in Sioux City contained as many or more ponds of water as bricks. Reed's band is a product of Sioux City and the best thing in the whole town. Another drawing card will be Jules Lombard, the sweet-voiced, magnetic vocalist of Omaha, whose singing will be worth coming all the way from—Norfolk to hear. The concert will be given in the opera house and the DEMOCRAT can guarantee its rural readers that they will be more than repaid for the trouble of attending. It will beat the circens all hollow. Following is the program of the band concert, interspersed with selections by Col. Lombard:

March	"Mecced Temple"	Libertal

Miller Manure Spreader.

Doubles the value of manure by covering two acres where you could only cover one by hand.

Note the following points of SUPERIORITY OVER OTHER MAKES:

It is just the right width to straddle corn rows and leave all the land evenly covered with manure. Other machines CANNOT DO GOOD WORK without driving team and spreader wheels on cut corn stubble, a thing any farmer knows is impossible. The MILLER is the only spreader that will do good work in winter. Why? Because we have a solid bottom that is scooped clean every load.

The MILLER is LOW DOWN, making it easy to load. Is lighter draft than any other machine. We can start or stop cylinder independent of feed; either is operated at will of driver. We can put on six, ten or fifteen loads per acre and unload in six minutes. Is simple, strong and durable, having been on the market 14 years.

George Fox Dies Suddenly

News was received here Tuesday morning of the death of George Fox near Bloomfield Monday afternoon. George had been working on the Monitor at that place but Tuesday went out with a bridge gang on county work. In the afternoon he was taken very ill and died in thirty minutes, presumably from the heat as he was accustomed to inside work. No one in the bridge gang knew the dead man's name or folks, but he had been seen talking to Andrew Folk, an old friend, that morning, and when Folk was told of the death he went at once to Randolph and broke the news to the family. The funeral was held here in Wayne this afternoon immediately after the train arrived, the services taking place at the Lutheran church. Deceased only recently returned from Pipestone, Minn., where he was in the newspaper business. He visited this office in June and was looking well. Three years ago George was sticking type on the DEMOCRAT, being an expert typo. He was a good, whole-souled fellow, his own worst enemy, perhaps in a way, but for all that a nobleman to his friends.

In a notice of a ceased the Bloomfield Monitor says: Besides a number of brothers and his aged mother who still survive him, George leaves a wife, a son 7 years old and a baby daughter 7 months old at Pilger, Nebr., all of whom mourn his untimely death. The Monitor extends to them all its condolence in this their hour of grief.

Married

GAERTNER-DINNEEN—At the home of the bride's parents in South Sioux City, Monday, August 3d Mr. Monte Gaertner was united in marriage to Miss Minnie Dinneen. The happy young couple arrived in Wayne Monday evening and were royally received. Mrs. Gaertner moved to South Sioux City over a year ago with her parents. Monte has been doing railroad work for Owen Bros in Missouri all summer, but has gone to work here for R. J. Armstrong. The DEMOCRAT extends its very best wishes to the young couple.

SALMON-McDANIELS—At the residence of Mail Agent Stukey in Wayne last evening occurred the marriage of Conductor F. A. Salmon, the handsome ticket puncher on the Bloomfield line, to Miss Fannie McDaniels, a dashing belle of Tekamah. The bride came up from Tekamah to Emerson unaccompanied, took passage on her future tebe-hubby's train at Emerson, and while they laid over at Wayne for the Norfolk train the ceremony was performed by Rev. C. N. Dawson of the M. E. church. The DEMOCRAT understands that the new Mrs. Salmon was a most popular and accomplished favorite in Tekamah society, and we

hasten to congratulate her upon her catch of the best Salmon in the brook. May her ticket and his leave of absence be good for many happy vacations and a whole net full of the funny features of wedded bliss.

Because the DEMOCRAT has mentioned G. H. Reynolds as a candidate for county clerk a few jab sided individuals, who never do know to which party they belong, are endeavoring to create the impression that the DEMOCRAT is the only democrat who wants Charley nominated. There is plenty of room for any of these cheap, antediluvian artists to jump in and capture the plim—if they are built right. We only mentioned Reynolds because he is a democrat inside and out, and then not even at his nor any one else's suggestion.

We proposed Charley Reynolds for county clerk before any one else spoke of such a probability just because we knew he can skin his brother-in-law two to one.

NEBRASKA CROP FIGURES.

Estimates Sustain the Best Figures Herebefore Given on Yields. Lincoln, Neb., Aug. 3.—The labor bureau today issued a detailed statement giving the acreage by counties of the various crops now under cultivation in the state.

The general condition of the corn crop over the state is far below normal. Not ranking over 78, with a frost at the normal period, about the 15th of August, the yield is only 34 per cent of a corn crop. This will be increased or diminished according to the extent of the frost and the frost following.

Conditions early in the season were such as to warrant the expectation of the greatest wheat crop in the history of Nebraska. A heavy wind wave visited the state in the latter part of the season, however, and has done much damage.

The standing of the southern part of the state is better than that of the northern part. The average estimated yield of wheat by counties appears in the following table:

After a further inspection and observation by officials of the department, supplemented by conservative opinions of the farmers and the condition of the soil, the department feels justified in estimating the average yield of wheat in the state at eighteen bushels per acre and total yield of 4,540,000 bushels.

The oat crop is an enigma so far as estimating is concerned because of the irregular and protracted ripening. There is no uniformity of appearance. Nevertheless there will be a normal yield of 35 bushels per acre.

Hogs Number a Million and a Half and Horses and Mules a Half Million—Labor Commissioner Bush Issues Report.

Lincoln, Neb., Aug. 4.—Labor Commissioner Bush has issued a report showing the number of cattle, hogs and horses in the state, together with some other interesting statistics that go to prove what Nebraska is accomplishing in the line of material richness.

According to the report which has been compiled from the census of the state, the number of cattle in the state is 2,161,773. Cherry county takes the lead in this species of property by having 48,724 head.

Allison, Van Sant and Blythe Meet in Chicago. Windy City. Chicago, Aug. 3.—Governor Van Sant of Minnesota spent a day in Chicago and it is said that his visit had something to do with the merger in which the Great Northern-Northern Pacific and the Burlington railroads are interested.

CAISSON BREAKS LOOSE

It Was Like a City Block Floating on the River. New York, Aug. 3.—As if it were a city block, the caisson had broken loose and was sailing off to sea, the huge caisson that is to be sunk at the Manhattan end of the new bridge across the East river at Pike street came down from the yards of its makers, J. C. Rogers & Co., at One Hundred and Fifty-second street, yesterday.

The caisson is in shape like a great packing box, being 115 feet long, 40 feet wide and 18 feet high. Its weight is about 5,000 tons.

Just when everything seemed secure the hawsers parted and in an instant the great object was wandering across the river in the direction of the pier.

Success of the College.
The College year which closes the 14th
has been one of the best since the beginning
of the school. 274 students were enrolled
the first term; 404, the second term; 421,
the third term; 317, the fourth term; 419,
the present term. The classes have been
large and great interest has been taken in
the work. Interest in class work has kept
up till the last. The graduating classes
have been such as to be proud of. As classes,
they equal are not found every year in this
or any similar school. Their class room
work, their literary societies and their term
orations have shown them to be thoughtful,
earnest students.

School life has more than one side and one
in which most students take more or less
interest is the athletic side. The chief sport
during the year has been basketball and base
ball but at present a number are enjoying
tennis. The ball teams have done some
excellent work and have won about 75 per
cent of the games played during the year.
The literary society work has been very
good. Essays, debates, recitations, orations,
current news as are given in the meetings
not only furnish hours of pleasure and profit
for an audience but afford opportunities to
students for cultivating their ability to dis-
cuss subjects in a logical and interesting man-
ner. It teaches them to be good listeners
and quick to see main points of a subject.
Some excellent programs have been given at
the weekly Friday evening meetings.

The bi-monthly socials have been enjoyed
and as a rule were profitable as well as pleas-
ant. These have been managed by the
different classes and societies but always
under the general supervision of the faculty.
These gatherings are considered a part of
the college work and are a means of helping
young people in a way that cannot come
from any other source.

Perhaps there is nothing which gives more
real pleasure than music. The work in this
department this year has been extra good in
piano, vocal and violin. Two pianos have
been added during the year. Splendid
music has been furnished in connection with
the programs of the literary societies and
term orations.

The Young Men's and the Young Women's
Christian Associations have done good
work the entire year. Their membership is
large and the majority of the members never
miss a meeting. The meetings have been
helpful as well as interesting. Their
influence is very marked in many ways.
Every encouragement is given by the teachers
to aid the students along these lines.

Every department of the work is well or-
ganized and no department is crowded at the
expense of another. Students take the
studies they wish and the only requirement
is that they occupy their time to the best ad-
vantage and do the work assigned to the
best of their ability.

The combination of these different lines of
work make the school life valuable as no
side is left undeveloped.

The moral and physical as well as the
mental training is carefully looked after and
this year has shown how strong the College is
on the students.

The outlook is for a better year for the en-
suing one which opens August 31. State
Superintendent Fowler issued his official
notice July 15 to the effect that the Nebr-
aska Normal may issue state certificates to
the graduates after this year. Profs. Wolfe,
Gregg, Dilworth, Vaughn, and Mrs. Bright
remain in their respective departments. A
lady who has been instructor in Iowa State
University two years in Latin and German
takes the work in the place of Miss King
hury who goes to the State University.
Teachers are provided for diction, physical
culture, shorthand, etc. With this faculty,
we look ahead to the coming year with the
firm belief that no school can do better work
for students and the standard already estab-
lished will be bettered.

The College has never had better attend-
ance from Wayne and vicinity, also from ad-
joining counties than this year. An effort
has been made to deserve it and an effort will
be made to secure larger attendance.

The members of the Scientific graduating
class has next year's plans as follows: Barta
will attend the state university, Beauchemin
will engage in business, Miss Bingham will
teach in Platte, S. D., Miss Coleman will re-
main at home, Mr. Jung will return to his
farm near Osmond, Mr. Mack will engage in
business, Miss Leahy will take a year's
vacation, Miss Nieland will teach in Bel-
wood, Fred Pile will attend an eastern col-
lege, Miss Ringer will teach in Winside, Mr.
Vaughn will teach in the college.

The graduates of the teachers' class have
planned as follows: Mr. Asplin returns to the
farm in Stanton county, Miss Bengston will
teach in Holt county, Misses Bailey, Beach
eheim, Helen Pile will continue in the Normal,
Mr. Marshall returns to Verdigris as princi-
pal, Mr. Nies will teach, Misses Paul, Ross
Jenkins and Messrs Ramsey, and Ruggles
will teach in this county. Mr. Richardson is
the new principal at Carroll, Mr. Steel will
teach in Burlington, Miss Vennerberg will
teach in Ewing, Miss Weaver will teach in
Dixon county, Miss Francis will teach in
Decatur, Mr. Hofer will attend a medical
college in Chicago. All the graduates who
attend higher educational institutions have
had their standings accepted and are ad-
mitted to advanced standing without exami-
nations.

The officers of the N. N. C. Alumni in
looking over the correspondence, with much
pleasure, have learned of the great success
of many of the members: Arthur Mullen is
county attorney of Holt county, C. C. Hur-
ley holds the same position at Glendive,
Montana, Richard Hagelin is a successful
lawyer in Lincoln and M. O. Cunningham
in Omaha, J. E. Paul is the leading dentist
in Columbus, Ed. B. King is M. E. pastor
at St. Edward, C. E. Sheldon is serving his
third year at Cottonwood, Montana, Loyd
Cunningham is the Presbyterian pastor at
Osambrook, North Dak., Smith Winchell is
county auditor at Fairfax, S. D., J. R.
Baker is serving his second term as superin-
tendent of Kearney county, Eugene Brook-
ings is completing his first term as superin-
tendent in Burlington county and is re-nomina-
ted and the same is true of C. H. Bright in this
county. H. E. Mason is serving his fifth
year as city superintendent at Stanton, C.
L. Culler resigned at Bancroft to enter the
mail service. The following have principal-
ship next year: Robert Elliott at Waver, A.

Wilson at Bassett, L. G. Lockwood at Fair-
fax, Chas. E. Hill at Meadow Grove, Fred
Lecone at Platte Center, C. J. Malone at
Iman, O. A. Preston at Hooper. The
ladies have equally as good positions; Miss
E. Littell at Winside, W. F. Richardson at
Carroll, C. E. Wilson at Hoskins, John
Bachelor is principal of a ward school in
Spokane, Misses Wallace, Moran and May
Cunningham teach in the Wayne schools,
Misses Alderson and Horton in Madison,
Lulu Neilhart, Grace Neilhart, Maggie Car-
roll and Fanny Skiles in Brainerd, Minn. At
least 100 others hold good positions in town
schools.

Was Gibson "Afraid."

Goldie thinks the writer is "afraid"
of Kimball and he does to avoid trouble.
The people of Wayne don't
have to be told anything about this
matter to guess pretty closely the mo-
tive back of the Republican's position
as well as the motive back of the Dem-
ocrat's position. The Republican had
nothing to do with the matter and he
to excite in its local columns the gossip
which later it corrected in justice to
Mr. Kimball as well as to others con-
cerned. Mr. Goldie was the one who
"saw things," called Mayor Belmont
attention to it, helped get the thing
started, took Emerson to Attorney
Berry and helped mascot the case into
court, was a witness in the case (hav-
ing "seen things") helped saddle Eben-
er with the costs any one else would
have advised him to avoid, and after
Ralph Russell (as self-respecting mem-
ber hope to) avoided the case, Mr.
Goldie, in his "old familiar style,"
would lay the blame on Mr. Russell
for it all. People don't care a
hash of any of this stuff, it is sufficient
to say some people "see things" be-
cause their minds are built just right
for "seeing things". The "By Dad"
editor could probably detect by trained
scent and cunning eye many little
things that escape the notice of ordi-
nary folks with business of their own
to attend to.—Republican.

No, people probably "don't care for
a rehash of any of this stuff" but, by
dad, the DEMOCRAT does at this point
in the chase. It is a safe guess right
here to explain that there is no danger
of the author of the above screed ever
being thumped for making a "mis-
statement" of himself, for the petted out
pusillanimous old cuss hasn't got
enough sand in his gizzard to grit the
bowels of a horsefly. "Afraid of Kim-
ball!" Why he was scared out of his
boots, and after a couple of practical
jokers had talked him to a faint, he
hastened down to the DEMOCRAT office
to see how he was going to get out
of it, and was told that "we had got
in a bad hole," were open to a libel
suit, etc. Gibson stated then he was
going after the fellows who got him
to write the matter up, and since C. J.
Russell informed the DEMOCRAT a
week previous that he "had put Gibson
onto all the facts" in the case, we pre-
sume a little advertising put the poor
political mongrel off the track. After
making a profession of hypocritical
apologies to Kimball, he found he was
worse in the mire than ever and look-
ed about to see what he could put onto
Goldie in the deal. Going into the cig-
ar factory last Friday morning the
poor song-head asked Ben Eben-er who
caused him, Eben-er, to thump Kim-
ball, and was told that Ralph Russell
did it, and he, Gibson, then remarked
that Kimball was evidently cracked in
the head, for which statement Kimball
ought to now kill him. We want to
tell this cheap old screw of the Republi-
can that Goldie never even talked to Eben-
er about his case until after Eben-er
pleaded not guilty; that we did not pilot
him to Berry's office until after C. J.
Russell took him out to look for a
lawyer, and only then at Eben-er's re-
quest; that we told Eben-er the only
show he had for an acquittal was
through the sympathy of a jury, and
we frankly admit we would have done
anything to help the poor fellow out
of the deal—after Ralph Russell had
got him into it.

We want to further tell Gibson that
"Goldie" stands pat on any propo-
sition he makes and that all such cheap
easy, cowardly as he is can apply for a
date and be promptly accommodated
any jump in the road.

Wilson Bros. Will Sell Out.

In the next sixty days the firm of
Wilson Bros. will sell out their big
stock of general merchandise and re-
tire from business in Wayne. In
speaking about the changes Mr. S. T.
Wilson informs the DEMOCRAT that
they expect to continue the stores at
Butte, Fairfax and Allen as at present,
but he and his brother, A. M., will en-
gage in the banking business on a
small scale in some new town. A. M.
Wilson was one of the pioneer mer-
chants of Ponca, starting in business
there twenty-four years ago. S. T.
Wilson has put in sixteen years at it
and thinks he now deserves a rest.
The cut prices, such as the firm are
making, will close the stock out on
short notice.

The DEMOCRAT man had a free ride
out in the cemetery one day this week,
but we got back again—like the cat.
Fred Thompson and Prof. Durrin were
out looking at a monument the profes-
sor has just placed at the grave of
Fred's wife, one of the neatest stones
in the cemetery. The Pingrey family
monument is now the finest thing in
the yard, although some people might
prefer the Mellor piece which cost con-
siderably less. Prof. Durrin has just
planted the Pingrey memorial. There
are some interesting things about the
cemetery, worth looking over before
you go up there to reside, but the
strangest of all is the Barnes piece of
granite with a picture of a stallion—
going south—on it, and below the
words: "We Must Trust to Daniel's God
and." "What comes after the 'and'?"
we asked Durrin, and the professor re-
plied in the words of Barnes: "What-
ever you g-d-d-n please." That
would be the proper thing to add to
the inscription when old Col. George
is laid away beside his wife. One of
the most beautiful stones in the yard
is at the grave of Richard Davies, placed
there by his wife.

Republicans Make a Ticket
If any such delay overtakes the re-
publicans election day as that which
befell them last Saturday, they will
surely be counted out. It was nearly
time for the evening meal when the
delegates were called to order, owing
to the Norfolk passenger being over
three hours late. J. D. King was made
chairman and W. M. Kreidler and F. G.
Phillips secretaries. The conven-
tion got right down to business and
made short work of the slate, the ticket
having been well planned before-
hand. Charles Beebe was nominated
for clerk—there being no opposition—
and Charley's man, Joe Jones of Car-
roll, was put up for treasurer, Burr
Cunningham being turned down hard.
Three ballots were taken for a candi-
date for county assessor but there was
no show for anyone save the man put
up by—well, ask Banker Tucker about
it. A. T. Witter and Perry Benashoff
were the other candidates but they
wouldn't do at all for this important
position. Otto Kuhl of Hoskins was
put up for clerk of the courts so as to
help pull in Hoskins votes. Messrs
Mears and Hunter were renominated
and an adjournment taken after eulog-
izing President Roosevelt and Gov.
Mickey.

After campaigning all summer for a
nomination nobody else seemed to
want Burr Cunningham, the old soldier,
probably feels like putting in the rest
of the year working for the election of
an united republicanism. It is about
the same thing with Perry Benashoff,
another good republican who ought to
have had his aspirations nipped in the
bud instead of the bloom. But then
this is politics and politics knows no
such thing as justice.

ience, it is to be hoped that a large
delegation of our people will be in at-
tendance upon this festival of our
neighboring city.

If you want your disease treated. Our work is entirely with causes of diseases, as we
find the sub-luxations in the vertebrae, causing dormant nerves that lead to your diseased
organs. This is the reason for diagnosing your case from your spine. KIROPRACTIC
science is entirely with causes. Chronic cases have their diseases treated for years.
Why not let KIRO remove the cause, nature will do the rest—if it, be one day or

disease—but that they are simply there taking up the dead matter—therefore our organs
become diseased from lack of nerve force and account of pinched nerves.

AHERN'S.

BY DAVID

The Hartley Journal says that with the peckaboo shirt waists and low cut socks it is pretty near all there "be of it." At this rate it won't be long before women will scratch matches just like men.

When a newspaper man frankly admits that he prints "street gossip"—of so serious a nature as the Republican published about George Kimball—it is about time he got into some other line of work. Gibson will have to add a full line of musical instruments to his stock of subscription gifts in order to get the discord out of his fool paper.

According to the Times they are having "Mello dramas" at Pender. That must be something similar to what the boys say took place in the big tent at Wayne last week.

Here's a little sermon from brother Will's paper, the Cherokee DEMOCRAT, that will reach the boys: "Did you ever stop to think how silly it is to work hard all week for a few dollars and go to the card table Saturday night and blow in your earnings? You sit at the table all night and sneak out about daylight with so little courage left that you can't pucker your lips for a whistle. If your mother, or your wife or your sweetheart were to meet you just then you would feel smaller than the nickel left in your pocket which you wished so hard had been a quarter so that you could have got into one more jackpot. Your stomach, into which you may have poured a little poor whiskey to change your luck, is gnawing; your brain is so weak that you can't take up a respectable story to tell when you get home, and you are altogether a nice specimen of humanity. You don't dare think about it long enough to

realize what a damphool you are making of yourself."

Mary had a little eye,
So playful and so callow;
But when the heat reached 92,
It turned to mutton tallow.

A. G. Howard has been considerably puzzled to know how to get into the circus next week, owing to all his grandchildren having moved away from Wayne. But the difficulty is all cleared up now. Squire Feather heard of the old gentleman's dilemma and he put the fathers of some score of boys onto the snap. Uncle Howard had to call on the squire this week and tell him to please desist, that he had all arrangements made with a certain kid and he didn't care to reject any applicants.

I see by the Madison papers that my old friend Henry Brewer who Bledao here a couple of weeks ago, failed to get a single listener out to hear him at that place. Henry ought to go to work in a brewery.

A pitiful story comes from Fayette, Mo. Nancy Mitchell, aged 102, has been obliged to give up her pipe and tobacco on account of failing health. She had smoked the same pipe ever since she was a young girl. Poor Nancy.

Britt Tribune: A Garner lady took her false teeth out and laid them on the center table one night recently, when her husband, to play a joke on her, substituted a horseshoe in place of them. She wore the horseshoe all the forenoon complaining that her "teeth didn't fit," and only discovered the change by the wide gash the toe took made when she bit a biscuit.

W. M. Kreidler who lives near W. side phoned Sheriff Mears to go up there and get a crazy man Wednesday of this week, but when Grant got there the supposed non-compos mentis had disappeared. The stranger was at the home of Mrs. Reese Tuesday night and created all colors of excitement by dancing around the premises attired in a pair of drawers. His shouting could be heard several miles and Gus Mettlen a neighbor, was called to protect the Reese family. Later on the fellow's wardrobe and bicycle was found near the railroad track and he was dressed and turned loose before the sheriff could secure him.

Fleetwood & Johnson have an elegant stock of bedroom furniture, the best ever shown in Wayne.

Sheriff Grant Mears has three new boarders at present who will stay until the next term of court—unless they get bored in the sum of \$500 each. Their names are Knute Erickson, John Schiller and Geo. Mack, and they are accused of breaking and entering Green's store at Hoskins last Friday night. Sheriff Meads guilty and gave information that led to the arrest of the other two who will have a hearing Monday. It appears the trio with others were sleeping in a shoe shop at Hoskins. Friday night the parties broke into the store and took things that were afterwards found hid in the shop. The matter at least makes business better for the sheriff, who has hardly been earning the salary he doesn't get of late.

Match it if you can, anywhere in the state of Neb., Mr. Geo. Buskirk has this week purchased another \$350 piano from Hern the piano man making the third piano which Mr. Hern has sold him. The piano purchased this week is a present from Mr. Buskirk to his daughter Mrs. Lida Hartshorn of Clinton Wis., who is at home for a few weeks visit with her parents and friends. Mr. Hern says that in fifteen years experience in the piano business he has never known a parallel case where one man purchased three of the best pianos that money could buy. One for his own use and two as presents for his married daughters all within two years. There is one thing certain, if we could have more such men as Mr. Buskirk there would be fewer boys and girls leaving home and going to our large cities in the search of pleasure.

This church hopes to close the conference year out of debt.

Arrangements are being made for a fine musical entertainment under the auspices of the Sunday school. Up To The Front

That is where you always find J. P. Gaertner, and it is no surprise to the DEMOCRAT to be told that J. P. has just purchased a Cunningham funeral car, the finest thing between here and Omaha. Mr. Gaertner always did go in for the best and Wayne people generally appreciated it. The Gaertner furniture and undertaking establishment is second to none in the country.

HOSKINS

Fern Dewey accompanied her mother, Mrs. Rob Templin, home from Albion the first of the week.

Hoskins always lets Winside beat in a ball game. It makes the kids feel so good that Hoskins hasn't the heart to beat them. In the game Sunday they won by a score of 14 to 7.

Chas. Burbank is visiting friends in town this week.

Last Friday night some parties broke into and robbed Chas. Green's store and Saturday morning Knut Erickson, Jack Schiller and Geo. Mack were arrested, Schiller pleading guilty at the preliminary hearing and implicating the other two. They are now in the county jail awaiting trial. We consider Knut more to blame as he keeps a place where, after the saloon is closed at night, he and his cronies can finish their drink, and they were all three so drunk when committing the robbery that they probably did not realize just what they were up against. Any how even the two boys look as if whisky had killed all the good about them, and if they get the limit of the law and are put where whisky won't trouble them for a few years it will be a benefit to them and the community they were taken from.

There will be a poverty social at Westlich hall Wednesday, Aug. 19, for the purpose of buying song books for the M. E. church. Ice cream and cake will be served by the ladies. We did not hear whether a program would be prepared or snap and catch 'em or catch and snack would be served up.

George Linn who went home some three weeks ago returned again last Saturday evening and is back at his old place in Mr. Linn's store.

Our telegraph operator and express agent and depot manager and mail carrier, John Acton, is under the weather and looks quite bad. He ought to have another office or two to fill.

West Brenna Gossip

On account of the rain there has been no threshing done this week and the farmers are all busy cutting out and spring wheat.

Patrons of the R. F. D. route are very much pleased with getting their mail every day. Now if some butcher would only send out a wagon with fresh meat a couple times a week this hot weather for harvesters and threshers we would feel pretty well fixed with plenty of garden sass.

Mr. Darnell and family from near Winside visited W. M. Krielder and family Sunday.

We hear that Mrs. John Barrett had news recently of the death of a brother-in-law in Illinois, making five deaths in her family since Christmas.

Mrs. A. G. Mettlen visited with her sister Mrs. Laughlin of Strahan the first of the week.

Several of our neighbors took in the show at Wayne last Saturday night and report it pretty good.

There was a crazy man stayed at Mrs. Reese's barn Tuesday night frightening the family out of their night's rest and being the means of getting some of the neighbors out before the roosters began crowing. The sheriff was sent for and that is the last we have heard. Suppose every woman in the county will keep the door locked until we hear that he is in safe keeping.

News is scarce this week. Guess everybody stays at home and helps with the harvesting.
