SUBMITTED FOR JUDGMENT

Dr. _____ said could only be straightened by cutting.

Dr. Clark took case upon contract to straighten without any operation.

Dr. J. C. Clark, Sioux City, Iowa, March 15, 1904.
Dear Sir:—It is with great satisfaction I write regarding your treatment of our daughter Mabel's case. Last November when we took her to you, she was so nervous that she could not keep quiet for a second at a time. She was troubled with pains in her head, back and limbs and had severe kidney trouble, and her eyes were badly crossed.
At this time her eyes are perfectly alright, her nervousness is gone and all the pains in her body have left her, and she is perfectly well from the kidney trouble and in every way, and has not taken a drop of medicine and only followed your instructions and worn the glasses you furnished.
We had treated her with medicine before going to see you without any benefit, and we think she got worse from taking it.
She got better the first week after putting on the glasses you furnished. Anything I can do to help you in your good work, rest assured I am pleased.
MRS. JOSEPH EVANS, Oakland, Neb.
The above speaks for itself and is a sample of many such as I have on file. The cuts above are a fac-simile of photographs taken of Mabel Evans. The one showing eyes crossed was taken the 16th of November, the day I first took the case, and the one with the eyes straight was taken March 15.
This is my twenty-first year in practice. Eleven years of this time in Sioux City. Spectacle lenses are my only therapeutic. No drugs or operations in my methods.

Drafts all Over the World

The State Bank issues drafts payable in any of the leading centers of the principal foreign countries as well as the United States and Canada.
These drafts can be obtained for any sum over \$1.00.
The party named as payee can deposit them to his credit in regular bank or upon proper identification, convert them into cash at the bank upon which they are drawn.
Bank drafts cost less than Postoffice or Express Money Orders and are safer.

Landlord Ellis Girten.

The Boyd hotel changed proprietorship again last Friday, just about the time the DEMOCRAT went to press. It appears the sale to D. C. Main and A. L. Tucker was conditional, in that no one else was to agree to pay more than \$5,000 for the property. Ellis Girten then appeared on the scene with \$5,500 which captured the prize. Mr. Girten at once ordered in a cement walk around the premises and will otherwise fix it up in decent shape. Turner Bros. will continue as landlords, having a three year lease on the place.

The Carroll Banks

The following from the Index is a slight correction of the statement made in the DEMOCRAT last week regarding the banks of Carroll:
Within the next six weeks the two banking institutions of Carroll are to be consolidated under new management. The stock and business of the Farmer's State Bank and the First National have passed into the hands of a party of gentlemen of which A. L. Tucker and D. C. Main, of the Citizens Bank of Wayne are at the head.
We understand that the new organization, locally, will be in charge of Arthur Tucker, at present cashier of a bank at Cedar Rapids, Neb., and son of A. L. Tucker of Wayne. Daniel Davis will remain with the new management and for a time at least, E. L. Lundquist will also be an assistant.
Geo. C. Merrill the retiring cashier of the First National, will remove with his family from Carroll as soon as the transfer is completed, to Routt county, Colo., where he has made investments in the lumber business with Mr. R. E. Manning. We have not learned the plans of Cashier E. W. Closson of the Farmers State Bank, but understand that while he may not remain in Carroll he intends to still remain in Wayne county and engage in business.

If you want the best bread buy Mystic flour at P. L. Miller & Son's.
H. E. Foote didn't have "gall stones" as stated in last week's paper, but he has a badly poisoned hand, all due from a slight injury from a piece of tin. Dr. Williams cut the diseased portions open and Mr. Foote "will be on his feet" in a few days.

Got the Whole Flock

While fooling with a shot gun, down at the railroad bridge east of town, last Sunday, Ed. Merrill accidentally shot Lou, Harv and Chris Miller and Geo. Ginter. Two of the boys, Obris and Harv Miller were sitting on the bridge, Geo. Ginter standing near them and Lou Miller standing near the opposite end of the bridge. Chris got it the worst, having 30 or 40 shot in his leg, then came Harve and Ginter with a bunch each, while Lou received two or three of the leaden missiles. The latter wanted to know of Merrill "what in hell he was trying to do," while Ginter, feeling the seat of his trousers, exclaimed: "why, I'm shot too. The boys all got for home and Dr. Leisinger dressed the perforated parts, none of them being dangerously wounded. Young Ginter is a young Russian and of course now wears a Japanese cover, while the other lads are ready for another engagement. All the boys are hard-working, energetic young fellows and the DEMOCRAT is glad to see them escape serious disability as the town could ill afford to lose them.

Chris Wishoof phoned in to the DEMOCRAT Monday that he had just threshed out a ten acre field of winter wheat and the yield was 250 bushels machine measure, a 24-inch wagon bed load weighing 56 bushels. This is a big wheat story but Chris says it's the truth, and as the wires didn't get even warm when the "hot air" came over it is probably pretty nearly correct.

Atty. Ed. Lundburg says he will not file on a claim on his 1700th number, as information from good sources up there do not indicate there is enough in it, the chance of getting a paying claim being about as much of a lottery as registering for one.
"Just the nicest beer I've ever sampled," is what they all say of that high grade Bran brand of Schiltz beer on tap or in case at C. W. Nies & Co's.

F. E. Bell came back to Wayne Tuesday but he didn't tell us the reason why it didn't happen.
President Pile's new house is nearing completion and it is going to be one of the nicest and most fashionable residences in the city.
Editor Lundburg was a visitor from Carroll Tuesday.
E. W. Cullen will undoubtedly succeed himself as commissioner of the Third district, this fall, at least be the democratic nominee. Ed. says he is perfectly willing to step down and out of it if the party wants to put up a new candidate, but the party can hardly afford to take chances on that, as Mr. Cullen is not only a competent official but can be elected where almost any new man in the race would fall down.
A little peculiar that of the four Rosebud farms to fall to Wayne people three of them went to inmates of the First National bank building, and the fourth to Dr. Ellis just across the street. Oliver E. Bird at Harrington's drew 993, Ed Lundburg 1700 and Willson Rickabaugh 2771. Dr. Ellis will get a good farm worth about \$2500. Mr. Bird not quite so much, while Messrs Lundburg and Rickabaugh will hardly find it profitable to file on the Indian lands at four dollars per acre and give up their business here for that purpose.
With such illustrious statesmen as Elmer J. Burkett, P. E. McKillip, J. J. McCarthy, and the democratic candidate for governor (of course he'll be illustrious) present at the old settlers picnic, there ought to be plenty of politics in it.
Pat O'Connell and Billy Perdue returned last Sunday from Boonville, the picking up there being too thin for a living. Pat says it was loud, lively and had looking while it lasted, but every day is Sunday now in the notorious burg.
A peculiar fire started at the rear of the billiard hall last Sunday afternoon, a pile of boxes and rubbish making an excellent showing to begin a big fire. A few buckets of water settled the disturbance which was supposedly of a small boy or cigarette origin.
Mr. and Mrs. Chas. Hoophaugle went to Crystal Lake Tuesday for a few days camping out.
Chris Wishoof was in town Tuesday and "showed" the DEMOCRAT some fine samples of his winter wheat that made a yield of 27 1/2 bushels per acre by weight.

Am I Right?

For fifteen years I have catered to the public, a dispenser of the best wines, whiskies, brandies and beers that can be bought in the markets. Have tried to please every patron, and respected every man who has been too good for the saloon but has gotten his liquors elsewhere. Now we have put up every tribute exacted—and they have been excessive—by town and state, and feel like asking the people who use intoxicants to patronize the place that deserve your trade so long as we give you only the best goods at the lowest prices. Ten or fifteen per cent of every dollar you spend at my place goes to educate your children and to pay for public improvements. From a moral standpoint this may seem like a peculiar condition of affairs, but it is what the people voted for—don't blame the saloon-keeper for it. Well, this is a long speech for me to make, so come in and take something—on a tin roof.

There is no fear of a soap famine on account of the packers' strike. Now, if we could only utilize the soft soap the railroad spellbinders will give the farmers and laboring men!

The Rosebud game of chance, which gathered round it myriads of other games of chance and holdup, harmonizes well with the exploitations and speculation fostered by the present administration. We are fast being educated up to the point where we can call ourselves a nation of grafters.

The other day I heard a girl say that her alarm clock stopped every time she left her room. If she would leave her photograph in her room her clock would run out.

Women are queer. If one has one little hole in her stocking she will keep her skirts down to hide it. If she has several hundred holes in her pretty hosiery she will raise her skirts way up high to show them.

Clare Tribune: A young lad in one of Clare's prominent families is certainly an adept in distinguishing what he should and should not pray for when retiring at night. Recently while kneeling at his bedside he was heard to say: "God bless mamma; God bless papa; and God, d—n the man that stole the Herman girl's chicken!" That infantile prayer was certainly brief and to the point.

From Rosebud to Devil's Lake is a long way to travel, but if there is anything to name it will be no trouble in raising h—l at the latter place also.

An Iowa woman has died of lockjaw and some people think it is a peculiar case. Certainly an Iowa woman wouldn't want to live with lockjaw unless she could wag her tongue on the outside.

Phil Sullivan was gazing intently at Dr. Leisenring's auto last evening just as the doctor and Prof. Pile were going on a spin. "Yes," says the doctor to Phil, "I'm going to take these fellows out and get a lot of them to buy automobiles so I won't be the only one who is scaring you farmers to death." "Oh, is that it?" replied Phil; "but I think, bejaysus, you are trying to get 'em to buy machines so they will break their bloody bones, and ye will git \$500 each for tying 'em oop."

By dad, that tailor-made suit sale at Roseburg's ought to get 'em, but say it would give M. P. A. an awful fit to see the goods go out at the prices quoted.

Judge Parker will make a clean president—he is right "in the swim."

A Grand Picnic

With Reed's great band in attendance and fifty local singers to make vocal music, the old settlers picnic for Aug. 18th ought to be a stem winder. Prof. Leo G. Kratz of Omaha will arrive in Wayne the 11th and remain here until after the big doings to drill the vocalists. Prof. Kratz is the best chorus man in the west and great things are expected of him. A concert will be given by band and chorus at the opera house in the evening.

Arthur Tucker and bride are expected to arrive in Wayne this evening.

If, after years of trial, osteopathy wasn't all that it is rubbed up to be, it is decidedly peculiar that Drs. Thomas & Lewis could succeed a national bank in the matter of a location, isn't it? In a little visit to this "bank" of the learned osteopaths, Dr. Thomas informed the DEMOCRAT that business was growing every month of the year, and every year he has staid here. Their new quarters are very comfortable for seekers of better health the parlors not only being on the "ground floor" but commodious, well furnished and well ventilated. Osteopathy is growing in favor and practice and succeeds in many ailments of the flesh where pills fail to work.

Married

Tuesday morning, at the home of the bride's parents in West Point, occurred the happy mating of Miss Blanche Regina Loesch to Mr. Arthur L. Tucker. Cards received by the DEMOCRAT announce that the young couple "will be at home" after Oct. 31 at Cedar Rapids. Arthur's many Wayne friends will be much interested and pleased to learn of his wedding and, as he is to be president of the consolidated banks at Carroll Mrs. Tucker will no doubt be an addition to Wayne society in a way.

"Why not Roosevelt?" inquires the Chicago Chronicle. It would be unkind to refer the Chronicle to its files.—Stout City Journal: Or to its files!

Everybody get together for Nebraska's sake. Let us redeem the best state in the union from Mickeyism.

Kuropat is alright, but he can't Kin, can he?

Enough cement has been used in Wayne this summer to hold us all together without the aid or consent of a commercial club.

Unity The Watchword, No matter what may be your conclusions regarding presidential candidate, do not lose sight of the fact that there is a splendid showing for riding the state of Mickeyism and railroadism, if the reform forces will unite and be considerate. And be mindful of another fact, it is important and essential that this be done. We should all pass up our grievances, pets and peculiarities and let unity be the watchword.—Minden Courier.

Edwin Johnson of Hartington has it a little worse than the average calf. He joined the army to make his sweetheart feel bad for his sake, and this failing to touch the maiden in a tender spot he deserted the army and took a shot at himself in the shoulder. Ed, we feel sorry for you cause we have had the disease in a milder form ourselves, but you ought to have pointed the gun at the spot your brain failed to grow in.

Poet Bixby righteously says: It is many times worse for a preacher to go wrong than for one who makes no pretensions of goodness and virtue. Look at this case in Custer county where two homes are made desolate by the infernal conduct of one who claimed to be walking with God, day by day, as Enoch did. The preacher has every incentive to be decent. He has the word by which he continually strives to inspire his congregation. That alone ought to keep his own mind free from the least desire to do evil. Then he has with all the rest, or should have that innate desire to be decent, which inspires the reputable citizen wherever you find him. An immoral preacher is more pestilential than the leprosy, because people look to him as a guide in matters moral and spiritual, and when he tumbles he takes many with him. The Falls City method is the only punishment that fits the crime in these aggravated cases.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Orce Witter, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

The New Voice reiterates in its issue of July 28 what it charged two weeks before, viz: that Hon. Champ Clark who presided as permanent chairman of the late democratic national convention, was so infernally drunk a few days before that event at Tama, Iowa, that he couldn't hold up his end of the debate with Charles Grosvenor, but had to be put under cover by the Chautauqua management to keep from making a holy show of his maudlin mental condition. The Voice closes the caustic criticism of the conduct of this great leader of "reform," by exclaiming, "Thank God there are some people in America besides democrats!" Amen.—State Journal.

But a drunken man is preferable to a thief, isn't he?

Puts an End to It All.

A grievous wall of time comes as a result of unbearable pain from over taxed organs. Dizziness, Backache, Liver complaint and Constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by Raymond's Drug Store.

Mr Root says the tariff, if revised at all, must be "revised by its friends." And that is all that the tariff fed trusts ever asked for—that their friends be allowed to revise the tariff.—Commoner.

For Rent September 1st Nine room boarding house. Dr. LEISENRING.

For Sale. One good 1400 pound work horse. PEVEY ELEV. CO.

Flowers for Sale. Sweet Peas, Fancies and numerous other varieties of flowers for sale. Call at residence east part of town. Mrs. SCOTT.

Entray Notice: Taken up at my place, June 27, 1904, 3 cattle, 2 heifers and one steer, all about a year old, all red in color. Owner can recover same by paying all costs, etc. Dated at Wayne, Neb., July 11, 1904. FRITZ KAY.

A Warning to Mothers. Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a few drops of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

50 Years of Success. This is our record. From a small beginning we have grown until our factories now cover many acres. Many of our machines sold forty to fifty years ago are still giving their users faithful service. Can anything be more convincing of their merits and durability? Did you ever hear of any other machine with such a record? Note a few of the many superior points of the Wheeler & Wilson No. 9 Sewing Machine No. 9. The Rotary Hook displaces the old, out-of-date, unmechanical and troublesome shuttle. The Frictionless ball bearings and perfect mechanical construction enable it to be operated with one-third less effort than is required by ordinary machines. It sews three yards of goods while a shuttle machine sews two. It makes the most elastic and most perfect stitch whether sewing light or heavy goods. With our superior attachments the greatest variety of work is possible. Do not make the mistake of buying a sewing machine until you have given the Wheeler & Wilson No. 9 a trial. Wheeler & Wilson Mfg. Co., Chicago, Ill. For Sale by Peterson & Berry.

 Cattle: Chicago had 26000 and Kansas City 13000 Monday. This would be heavy receipts under normal conditions, and was far too many for the force packers had at work. We had 2500 Monday and 1000 at this point, but the heavy runs at other points with the big slump in prices, had its effect here, and our market is 30 to 50c lower than a week ago, and 25c lower than Friday, but are firm today. Stockers and feeders are not over 10 to 25c lower.
 We quote choice corn-fed beef \$5 25 to \$5 60; good \$5 00 to \$5 25; choice hay-fed \$4 00 to \$4 40. Cows and heifers, corn-fed \$3 50 to \$4 00; grass, \$3 00 to \$3 50; cutters, \$2 40 to \$2 90; canners \$1 50 to \$2 00. Stockers and feeders, steers, \$3 40 to \$3 65; heifers \$2 25 to \$2 75. Grass hogs \$2 00 to \$3 00. Veal \$4 00 to \$5 00.
 Hogs: Market lower, range \$4 80 to \$5 00.
 Sheep: Receipts moderate, 10 to 25c lower for the week.

 It is said that high hats for women will be in vogue the coming fall. Judging from the bills that come in they have been high all summer.

Fred Thompson Dies in Denmark.

Neal Thompson received a cable Wednesday stating his father was dead and body shipped for America that day, death having occurred Monday. The remains will reach Wayne about the 16th. Mr. Thompson died of pneumonia, and was sick but a few days. He was in his 63d year and was one of the early settlers here. The day he left Wayne last spring he called on the DEMOCRAT to have the paper sent him and wanted to leave a dollar for it, but we told him to wait until his return as he would then know how much he wanted of the sheet, and he replied jokingly but prophetically as it has proved "well, Mr. Goldie, but maybe I'll never come back." Strange, isn't it, that a man should go back to the old country, after many years absence, and die there in course of a few weeks. The death is a very sad one to family and friends.

Fancy Salt Mackerel.

D. M. Owen was in the city yesterday looking after business interests and visiting his brothers.

Mrs. C. A. Lemon is a guest of Mrs. W. C. Wightman. Rev. Lemon is now pastor of the Baptist church at Delhi, Ind., and their Wayne friends will be glad to learn that he is pleased with his new field and successful in his work.

P. H. Kohl returned yesterday from a business visit to Omaha. Phil says the talk for a candidate for governor is split up between Thompson, Sullivan and Holcomb. If the populists insist on naming a man from their ranks the democrats will demand Holcomb, but the outlook is that it will be Thompson with Judge Sullivan second choice. Mr. Kohl is for the "little giant," Thompson, all the way through, and thinks the Wayne county delegation to be named to-morrow should be instructed for him.

R. L. Cosner, dentist, successor to Dr. Ivory.

Buy your hand soap at Gandy's. J. T. Leahy went down to Crystal Lake yesterday to spend a day or two with C. A. Berry in camp.

John Shannon was in the city from Carroll.

Robert Baird was in town yesterday to get repairs for a mowing machine, his team getting into a hornet nest and running away broke up the machine.

Sheriff Meers was in Norfolk yesterday and reports the firemen's tournament as not amounting to much.

Monte Gaertner has bought a team and wagon and is going into the dray business—and is doing lots of it.

"Brau" is one of the finest brews of Schlitz beer manufactured. It is equal to any of the higher-priced beers of other makes. Try a case from C. W. Niles & Co.

The Owen Shoe Co. is now nicely located in the Gaertner building recently vacated by A. F. Lane, druggist. The store room has been very neatly fixed up and makes an excellent Shoe Emporium. Manager Jefferies tells the DEMOCRAT they have bought a big stock for fall and winter trade, in the aggregate a larger amount of shoes than was carried in the old location. These new goods will commence to arrive next week and will be the nicest things in all classes of footwear ever seen in Wayne. Few men who sell shoes know how "to fit the feet," but Mr. Jefferies has made it a special study and after years of experience ranks with the best shoe dealers in the west.

Elder Sisson Near Death

Yesterday's Norfolk News: Presiding Elder Fletcher M. Sisson of the Methodist Episcopal church, Norfolk district, lies at the point of death in his home on South Fourth street; this city.

It is feared that he can not recover. Suffering from abscess of the liver, the presiding elder will undergo a surgical operation at his home this afternoon as a final hope of saving his life.

Dr. Summers of Omaha will arrive in Norfolk at 10 o'clock to perform the surgical operation.

Dr. Sisson's appointment throughout the state and is well known over the entire country. He has been presiding elder in this district for three years and was prior to that, presiding elder in Omaha. He was delegate to the International Methodist conference at Los Angeles last spring.

News of his extremely critical condition will come as a distressing blow to hundreds of friends in both Norfolk and the entire district. It is hoped that the operation may against present indications, save the life of the well known divine.

The latest news at 3 o'clock is that Mr. Sisson is still alive but no hopes for his recovery.

The Commercial Club, Defined

The local improvement and business man's association, for improvement and business purposes, has a distinctive field of its own.

Its sphere is not the sole undertaker and doer of community things. Far from it. Its limited capital and working force, at best, would ill suffice for this.

Its function is as the community "Glad Hand," for the welcoming of, and first cooperation with, good and promising community things that come along or can be made to come.

It is the community "Ready Hand," for desirable community things of a commercial and improvement bearing, small and large, that develop on short notice, and for which the city council, the County Board of Supervisors, the School Board, would have no legal authority to make even a small expenditure, and for which the circulation of special subscription lists would be impracticable or a nuisance.

It is the community "Bureau of Publicity and Promotion," as they say in connection with the great exhibitions; as community "Experiment Station."

It is the community supplement and "Backer" along business and improvement lines of the efforts and acts of its private citizens, its city council, its board of supervisors, its state legislature, its members of congress, its local fraternal lodges, churches and associations. The private and public citizens and bodies may have dollars in their treasuries where the local improvement association has cents or mills, but this does not alter the fact that they are practically incapable of doing the distinctive work of the public association. The existence of the world of community capital and business outside of it is one of the facts that makes it possible for a really effective commercial club to accomplish much with little. It serves in one of its capacities as a sort of rudder to steer things into right commercial channels. While a certain considerable amount of money is indispensable to its existence, it is not dependent for its usefulness upon money alone.

That great force "Influence" and "Business men's Influence" at that is, through its effective organization, at its command, in position to be focused at short notice on the accomplishment of business and improvement ends.

Whereas, there exist in all cities and towns lines of interest, advantageous both to individual members of the community at large, the furtherance of which cannot be attended for by individuals alone, and is not provided for by any municipal or county funds, but must be secured by special, organized efforts and funds;

Whereas, it is believed that the present is a wise time for the organization of such a Wayne Commercial and Community organization of good strength, there is adopted the following:

CONSTITUTION.

Article I: Provides the name of "Wayne Commercial Club."

Article II: States the purpose of the association as follows:

"The Man in the Well"

The Bee says: "The man in the bottom of the well will have a dismal future before him if he depends exclusively on the popular rope-splitters to pull him out."

He won't depend exclusively upon "the popular rope-splitters." He will depend upon a very large number of republicans, who, like the editor of the Bee, are prepared to vote as they talk and to register, in an effective way, their protest against corporation rule.

Whether "the man in the bottom of the well" has a distant future "before" him, depends largely upon the character of the "hemp" used by the rope-splitters.

If the ticket placed in the field by the democrats and populists is composed of men who may be depended upon to protect public interests, democrats, populists, republicans and independent voters generally will, unquestionably, lend a hand.—World-Herald.

Why Not Fuse?

The World-Herald commends to the thoughtful consideration of those democrats and populists who object to fusion the following editorial, written by Cliff Frank, editor of the York (Neb.) Teller. Mr. Frank says:

"The western people are practical. If they want to rid themselves of boss rule in a township or city, they forget party and church and go after what they want."

"What is does 'republican' mean when the farmers want to build and own elevators, and the republican party throwing rocks in the road and feeding the team on ground glass?"

"What is party to you when your party wants to take from you the right to elect your own township officers,

"If nine men in a road district want to give a fat contract to some bridge trust and eleven men want to save money by giving the job to a home company, the eleven men are not such fools that they will separate and five vote for one bridge contract, six for another, which means the same men put their job through."

"People do not do that in business matters. Why think of doing that way in state politics?"

"Nine men out of twenty in this state want the republican party to run things, and yet they know that their party knifes the farmer at every turn."

"Eleven men out of twenty want the railroads to keep out of politics, but five of the eleven want to pull one way and six another way."

"There is nothing in national politics for the populists and democrats of this state, but they have interests in common in the state which they can manage their own way if they work together. If they separate the business will be transacted by the republicans, and the grain trust and the railroad. Happy hooligans will get the pie, and farmers and laboring men the crumbs from the full dinner pail."

HEALTHY MOTHERS.

Mother should always keep in good bodily health. They ought to their children. For Unity of Action.

There is no reason why there should not be unity of action of all those opposed to republican domination. The populists and democrats can each have presidential tickets in the field and give them loyal support, and at the same time unite on a legislative and gubernatorial ticket that will defeat Mickey and the republican legislative nominees. It is time to down the republicans in the state and this fall it can be done if the opponents of republicanism will unite.—Nebraska City News.

Get Ready.

It is in order to get ready for the state campaign in Nebraska. A good loyal man like W. H. Thompson as a candidate for governor can sweep the state next November, and now is the time to be getting ready. There are whole troops of republicans who will support Roosevelt's ticket at the same time will support the democratic ticket through out. The details of this movement will develop as the campaign grows older. Mr. Mickey knows what it means, and he is singing very low these days.—Fremont Herald.

PORT ARTHURS REPORTED CAPTURED

British Agents at Wei Hai Wei Send Out Report to This Effect.

KUROPATKIN IN THE TRAP

Army of Interior Manchuria Apparently Is Surrounded and Breaking to Pieces Before the Japanese Assaults.

Shanghai, July 29.—A telegram received here from Wei Hai Wei confirms other telegrams received here today, from Chefoo to effect that Port Arthur has been captured.

At Wei Hai Wei there is a British wireless telegraph station. The British warships are equipped with this means of July communication. It is possible that Wei Hai Wei has been in wireless communication with the fleet, and that the information of the fall of Port Arthur was received in this manner.

Chefoo, July 29.—A junk containing thirty refugees from Port Arthur, all foreigners of the better class, arrived here from Chefoo on Thursday.

Washington, July 29.—The Japanese minister today received a cablegram from Tokyo saying General Oku reports that the Russian army of interior Manchuria was present on the battlefield at Tatchekiao, and that the Russian casualties were about 2,000 and the Japanese 1,000.

St. Petersburg, July 29.—It is announced that the Baltic sea squadron's departure for the front will be delayed two weeks. The general staff denies the report of the wounding of Kuropatkin at the battle of Tatchekiao. The general is perfectly well.

London, July 29.—Up to this hour the Japanese legation has received no news indicating the fall of Port Arthur.

London, July 29.—No further news of the report of the fall of Port Arthur or war news of any kind has reached the London morning newspapers.

London, July 29.—A correspondent of the Times at Tokio, cabling under date of July 29, says that the British "cruisers of the Vladivostok squadron were seen south of the Island of Idsu (at the entrance of the bay of Kuropatkin) at the battle of Tatchekiao. The Russian cruisers will be driven off or brought to bay in the course of a day."

St. Petersburg, July 30.—The general staff announce there was no news from Port Arthur, and no more reason to expect the report of its capture. The news is similar to that previously in circulation. It was now pointed out that no official news has been received from Port Arthur this week, and since the occupation of Yin Kow by the Japanese army from the front at least is expected to reach Mukden first. There is no official confirmation of the reported sinking of a cruiser and a gunboat on July 29. The Russian general staff, however, reports that the Japanese general Kuropatkin was at Aping during the fight at Tatchekiao, and is believed to have been killed. It is expected that he expects General Kuroki will advance to Liao Yang.

Liao Yang, July 29.—Further details of fighting below Tatchekiao, on the 23d and 24th indicate the Japanese are making a serious attack on the Russian losses, official, are 700.

The Russian front is much extended. The Japanese concentrated their attack on the Russian front. The Russian army repeatedly repulsed. The Russians made several brilliant bayonet charges and drove the Japanese back. The Russian army used in high angle fire from behind a hill, the fire being directed by telephone from an eminence and attacking the Japanese from the rear. The Russian army did not retire until it was established that the Japanese had seven divisions. The Russian army is believed to be at Hai Cheng and probably will not retire further. It is expected the Japanese will now advance against the left flank of the Russian southern army.

KUROPATKIN IN A TRAP.

Kuroki Holds the Net While Oku and Nodzu Drive the Game Into It.

London, July 29.—The news from Manchuria, according to expert observers there, accentuates the seriousness of the position of the Russian army. It was undoubtedly the movement of General Kuroki in the north which enabled the Japanese to win so sweeping a victory at so small a cost at Tatchekiao. For the first time the Japanese have been able to meet strong opposition at Hai Cheng. Every day the position of the Russian army is becoming more and more serious. The appearance of a Japanese force at Suiho King on the 29th, just above its junction with the Hun, indicates an intention of threatening Mukden itself. The Chinese are leading directly to Mukden. It is as the dispatches indicate, this column comprises two divisions of infantry, with a full complement of cavalry and artillery. It comprises a serious menace to the Russian base at Mukden. General Kuroki's plan was to bring the Russian army to a decisive battle at Mukden. The Russian army is believed to be in a trap. The Russian army is believed to be in a trap. The Russian army is believed to be in a trap.

CAPTAIN IS INDICTED.

Federal Grand Jury Also Find True Bills Against the Inspectors of the Slocum.

New York, July 29.—Captain Van Schatek, Federal Steamboat Inspector, Fleming, and former Inspector Lundberg, were indicted today by the federal grand jury in connection with the General Slocum disaster of June 15, when nearly 1,000 lives were lost. District Attorney Burdett, said indictments had also been reported against President Barnaby, Secretary Knickerbocker, Treasurer Baxter, and Captain commodore of the Knickerbocker Steamboat company. All will have a hearing Monday.

RUSSIAN SIDE OF IT.

Claim They Are Within the Limit of Authority in Pacific Seizures.

VIADIVOSTOK, AUG. 1.

Naval men here cannot understand why the British and American papers should be questioning the legality of the actions of the Vladivostok fleet in the Pacific. The Vladivostok fleet is in the Pacific. The rules formulated and imperial power are preserved. A paragraph of these rules reads: "In extreme cases, where the retention of their base is impossible owing to small value, or are in danger of being retaken, they are authorized to sink the captured vessel, after having taken the prize, the commander upon personal responsibility may burn or sink the captured vessel, after having previously taken off the crew and as far as possible her cargo. Her documents must be preserved."

The destruction of the Knight Commander is held to have been justifiable under the above rule. St. Petersburg, July 29.—The statement of the Associated Press Vladivostok correspondent is extremely important as it shows the first time the Vladivostok fleet is acting. The Vladivostok fleet is in the Pacific. The rules formulated and imperial power are preserved. A paragraph of these rules reads: "In extreme cases, where the retention of their base is impossible owing to small value, or are in danger of being retaken, they are authorized to sink the captured vessel, after having taken the prize, the commander upon personal responsibility may burn or sink the captured vessel, after having previously taken off the crew and as far as possible her cargo. Her documents must be preserved."

VON PLEHWE'S ASSASSINATION.

Europe Is Deeply Interested and Russian Police Are Investigating.

St. Petersburg, Aug. 1.—The newspaper this morning are filled with very long news articles on the assassination of Von Plehwe. All agree that a great personality has been taken off in the Russian empire. Nothing has yet been discovered to throw any light on the antecedents of the assassin. Twenty bystanders were injured by the explosion of the bomb, only eleven seriously. Von Plehwe's funeral will probably be held tomorrow. The assassin is believed to have been given by the Byure Gazette as a student but this is not confirmed by the police.

St. Petersburg, July 29.—It is announced that the Baltic sea squadron's departure for the front will be delayed two weeks. The general staff denies the report of the wounding of Kuropatkin at the battle of Tatchekiao. The general is perfectly well. London, July 29.—Up to this hour the Japanese legation has received no news indicating the fall of Port Arthur.

POSITION IS UNTENABLE.

St. Petersburg Fears Kuropatkin May Be in a Hopeless Trap.

St. Petersburg, Aug. 1.—Since the Russian retreat from Tatchekiao and the taking of the island of Idsu, the Russian position has grown steadily more pessimistic, and it is feared that the Russian army is in a hopeless trap. The Russian army is believed to be in a trap. The Russian army is believed to be in a trap.

ARABIA AT VIADIVOSTOK.

Viadivostok, July 29.—A German steamer, under charter of an American company, which was captured by a Russian cruiser north of the island of Idsu, was taken to the charge of a prize crew. After a charge of war, consisting of four and a half days, the ship was discharged, the ship probably released. It is definitely established that Viceroy Alexieff is coming here.

RUSSIA WILL PAY GERMAN.

Berlin, July 29.—The foreign office today announced that Russia has agreed to fully indemnify German shippers, and their consular agents, for the seizure of German ships and detention of Prinz Heinrich's mail.

RUSSIA HAS BEEN ON GUARD.

London, July 29.—Russia has filed a protest at the foreign office against the shipment of contraband to Japan.

The Associated Press learns the Russian government has been watching the manufacture of goods intended for the Japanese government, and has so far as established that such goods were about to be shipped to a hostile destination the facts were reported to the Japanese government with a request that measures be taken to put a stop to it. It is understood that the Japanese government is to present bills for damages to the British government which will offset the indemnity claimed for the seizure of German ships.

It is also learned that Russia does not intend to hasten to settle the question of the Dardanelles. The Russian fleet is to pass the Dardanelles, since if the negotiations on the subject were conducted at this time, as desired by Great Britain, Russia might be forced by the existing situation to grant concessions she would afterwards regret.

FEDERAL GRAND JURY ALSO FIND TRUE BILLS AGAINST THE INSPECTORS OF THE SLOCUM.

CHICAGO STRIKE BECOMING SERIOUS

President Golden of Teamsters' Union Arrested and Deported to Jail.

COLORED MEN ATTACKED

Trainload of Strike Breakers Assaulted by Strike Sympathizers—A Mob of 200 Set Upon Non-Union Men—Beaten Off by Policemen.

Chicago, Aug. 1.—Unable to arrange a conference with representatives of the New York packers, Michael J. Donnelly, president of the Amalgamated Meat Cutters and Butcher Workmen of America, has declared a strike of all the members of his organization employed in New York City. Schwarzschild & Sulzberger and the United Dressed Beef Company. The order was telegraphed to New York Friday night.

The probabilities of a settlement by the opposing interests in Chicago are considered very dark. A black note was demonstrated today when Henry C. Wallace, of Des Moines, Ia., and A. L. Ames, of Buckingham, Va., called on the packers with a proposal from the strike leaders to open a commissary department, where food of all kinds will be given to the men now out of work. The packers will be required to stock with all kinds of supplies, all meat being purchased from the independent butchers.

So much non-union help has been taken into the yards up to date that the packers are finding it difficult to find difficulty in putting the men to work.

According to officials of the packing plant, there were 13,470 men at work today taking the place of 25,420 strikers.

Swift & Co. this morning posted notices that all persons who struck on Monday and Tuesday would be paid off today. The strikers, however, are no longer regarded in the right of employees. The appearance of the notice was greeted with angry exclamations.

The Chicago Junction railroad freight handlers, who were reported to have struck yesterday, resumed work as usual today.

The packers will be required to stock with all kinds of supplies, all meat being purchased from the independent butchers.

Randell Cuts the Cheese

Ralph Randell, the up-to-date grocer, has just installed a mechanical device for the purpose of cutting cheese. It is a carefully cut any amount desired with the use of scales. All cut portions protected from the air so it is possible to get other than a nice fresh piece of cheese. This machine is a wonder and should be seen to be a success.

The dusty old cheese case and tarragon knife must move aside to the new company with the cycle and the machine. Ralph invites everybody to call and see the new cheese cutter. He or his courteous clerk will gladly show it to you and the merits of this novel machine.

One of the boys named Lewis Antman, was shot and killed by Chas. Pigeon, police officer, on Tuesday. The fellow was in the act of stealing a grape and tried to make his escape.

5000 REWARD FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of successful and modern cures, such as no other remedy for the disease and weakness peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Prostration, or Falling of the Uterus, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I was a great sufferer for six years and doctor after doctor with a number of physicians but all failed to cure me. I was in the hospital of St. Elizabeth's Hospital, Washington, D.C. When I received your letter hoping you would cure me, I bought your Favorite Prescription and follow your advice. I have taken ten bottles in all, also five vials of the 'Pain Expeller'. Am now regular after having missed two years and suffered with pain in the back and legs. I was nervous, could not eat or sleep. Now I can thank you for my recovery."

Don't hesitate to write to Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N.Y., if you want good medical advice from a physician of long experience and of personal good health. Such letters are always answered free of charge and confidentially.

A medicine which has cured all others for women in the past third of a century and being recommended by all those who have used it, is a good remedy to try. Dr. Pierce's Favorite Prescription is purely vegetable and does not contain a particle of alcohol to destroy the blood corpuscles and weaken the system. Do not permit the dealer to sell you anything by suggesting some other compound which he recommends as "just as good," because he makes it himself.

Where is all the money? is a question the eastern press is discussing. Most of it seems to have been left at Bonesteel.

Hicks says that August is going to be a bad month for weather. He predicts frosts, cold, hailstorms, cyclones, hurricanes and volcanic eruptions. But he doesn't say a word about the ball games, which is more important.

Just at present the business of the doctors is a little dull, but green apples have arrived and green corn will soon be here and business is bound to pick up.

The best evidence at hand to prove that the populists and democrats can do a good work in Nebraska this fall, is the frantic, aye, pitiful appeals of the republican press against such a propaganda.

The suckers who didn't lose their money at Bonesteel can now play the county fairs and the races.

An editor in a Wisconsin town has the advertising idea proper, and draws the line nowhere. Here is his write up of a wedding: "Miss Jennie Jones and Rob Henry were married at the Jones mansion last night. The bride is the daughter of our constable Jones who made a good officer, and will undoubtedly be re-elected in the spring. He offers a fine horse for sale in another column. The groom runs a grocery store on Main street and is a good patron of our ad columns, and has got a new line of bargains this week. All summer he has paid two cents more for butter than any other store in town. The happy couple left on the ten o'clock train for Milwaukee to visit the bride's uncle who is reported to have lots of money and Bright's disease. Bob certainly has an eye for business."

More than 100,000 people registered for a chance to secure a quarter section of land in the Rosebud reservation of South Dakota. While many of those who registered really want land upon which to live and make a livelihood, the majority registered because the element of chance appealed to them. The Rosebud land drawing is nothing more or less than a gigantic lottery conducted by the government, with chances of drawing a prize fewer than in the old Louisiana lottery of evil fame. Thousands were drawn to the four registration points by the appeal to the gambling spirit. If the government has any more land to dispose of it is to be hoped that some other method of disposition will be evolved. The nation can not afford to sanction virtual gambling games like the Rosebud drawing.—Commoner.

State Veterinary Thomas was up from Lincoln last Friday, called to investigate some diseased horses of Harry Tucker, west of Carroll, Dr. Hammond having previously condemned them as being glandered animals. Dr. Thomas concurred in Dr. Hammond's diagnosis and all three of the horses were shot, all of them extra good animals that made Mr. Tucker a big loss.

Ben Elliott was up from Stanton county over Saturday and Sunday. Mrs. Elliott arriving from Iowa Saturday. Mr. Elliott will put in about six weeks more time in Stanton, and says he is doing a fine business there, the people being better buyers than in this county.

George Laeders last week sold one of his patent haystackers to John Flen. The machine sells at \$35, gives good satisfaction and may become quite a home industry. Next winter Mr. Laeders contemplates building a stock of them for 1905 sales.

Mr. and Mrs. J. W. Tombling of Los Angeles, Cal., were guests of Mr. and Mrs. M. S. Merrill from Monday until Wednesday morning when they started homeward by way of Omaha. He is very enthusiastic over his new home and says there is no place in the whole world "like it to live in."

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It brings a great tonic and nerve will strengthen the nerves and build up the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by Raymond Druggist.

The tone of the republican press indicates that the republicans will be willing to concede the election of a democratic president in 1908. The party is evidently figuring on being very bad during the next four years. Perhaps it would be better to turn them out now.

The Death Penalty.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or pruny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It is the best Salve on earth and will prevent fatality when Burns, Scalds, Ulcers and Piles threaten. Only 25c. at Reynolds Drug Store.

L. W. WAKELY, Pass. Agent. Omaha, Neb.

Talking about fusion, democrats, populists, republicans, aye, every honest, tax-paying citizen in the state of Nebraska, ought to form a combination at the polls that will forever settle Gov. Mickey and his railroad cohorts. What do we care about political parties when up against such a proposition as the railroads are giving us?

The city council of Columbus has drafted a new ordinance making it punishable by a fine of five dollars for evading or trying to evade the payment of a poll tax. The Telegram says: "Moral suasion, threats or any other influence have heretofore been ineffectual in collection of the tax from a certain class of people, and the city fathers are becoming favorable to the adoption of more rigorous methods."

The Columbus Telegram tells the whole story when it says: Separate the democratic and populist tickets in Nebraska will mean the certain election of Governor Mickey and the other favorites of the railroad machine. An honorable union between democrats and populists will insure the certain success of a ticket opposed to railroad rule in Nebraska.

More than this. If democrats and populists can unite on a state ticket they can also unite on county and legislative tickets making certain the election of a man of their choice to the United States senate.

It is up to the party workers to say whether or not they desire republican success in Nebraska. The two state conventions will be held August 10. The Telegram believes the democrats and pops will get together. We confess the wish is father to the belief. We cannot believe that the two conventions will reject such a splendid opportunity to accomplish something for their state. We are aware that some of the strong men in both parties have been advocating the nomination of separate tickets, but we believe those men can be converted. We do not question the motive of every man who opposes a union ticket. We do know the republican and railroad politicians are doing all they can to keep the democrats and populists from getting together. If we shall fail to get together at Lincoln on the 10th of August there will be great joy in the republican railroad camp.

If we shall get together there will be populists and democrats in the state house next winter. The issue is plain.
