Now if you are hard up and need some more money for postage let me know and I will send it to you. There is something wrong somewhere. I will take a fall out of your old log dress if you don't do better. You and Sam Davies and Frank Kruger all need about six rounds with me and you will get it if I don't get that paper.

Yours truly,

### P. H. GILBERT.

Mr. Gilbert is perhaps entitled to some sympathy as this was his third "kick." The paper had been going to Wyoming instead of Washington.

### Dr. F. N. Sisson Operated Upon

### Cullen for Commissioner

At the District convention held in Winside last Saturday there was no opposition to E. W. Cullen for a second term. The people of there regard Mr. Cullen with considerable favor, and although he is a democrat running for office in a "republican year" there is little doubt but that he will be elected by a good majority. Mr. Cullen has been prominently mentioned as the people's candidate for state representative.

### Dr. Leisenring Married.

The friends of Dr. H. G. Leisenring were greatly surprised Wednesday to learn of his marriage at St. Louis on Aug. 20th to Miss Willa Wood. In a letter to Dan Harrington the doctor admits putting his head into the matrimonial halter but suggests that he doesn't at this time believe he will ever regret it. The bride is a California girl, her home being at Oakland, and is of course handsome and talented. She was visiting a brother at St. Louis, and it being a long ways to California they decided to decide the matter then and there, a few friends and relatives being present at the ceremony. The doctor and his bride arrived at Chicago last evening at the Beach hotel, and will make a trip to Detroit and Niagara Falls before returning to Wayne, which will probably be a couple of weeks. Good weather permitting they return from Chicago in the doctor's new automobile—which he told the DEMOCRAT was the cause of his departure from Wayne ten days ago.

### Pay Last Tribute

An immense throng of old friends and neighbors of the late Fred Thompson attended the funeral services held Sunday afternoon. The remains of the unfortunate traveler arrived Saturday evening and were taken to Fleetwood & Johnson's undertaking establishment, the funeral at two p. m. Sunday being held from the English Lutheran church, conducted by Rev. Ringer. The A. O. U. W. had charge of the services at the cemetery, of which order he was a member. Mr. Thompson was born in Denmark March 2, 1841, was married to Christina Jensen Dec. 24, 1867. Came to Perewater, Mich., July 15, 1869, moved to Wayne county August 17, 1874, died August 1, 1904. He leaves to mourn his departure four sons and three daughters. His wife, two sons and two daughters preceded him in death. He has two brothers Chris and Sophus Thompson of Wayne co., two sisters in Michigan one sister and two brothers in Denmark.

Our old friend had planned to spend the summer in Denmark where he had friends of his boyhood and some relatives. He sailed from New York April 28th, and a few weeks later contracted pneumonia, from which he died in eleven days.

Mr. Thompson was not only a prosperous farmer but a much beloved and respected neighbor and citizen. He was always a very good friend of the DEMOCRAT and we regret more than we can express our sorrow that he was not permitted to return to his family and friends in this life.

Have you seen the bill for Prof. Harlan's entertainment Tuesday night, Aug. 30. Don't miss this treat at the Presbyterian church.

An expert machinist for the Pitts threshing machine company furnished considerable excitement Monday evening by racing a gasoline automobile up and down Main street. Luckily for the gentleman Marshal Miner was at supper or this item might be a trifle more in the news line.

There is no mystery about Mystic flour. It makes the wife happy to bake with it and fills the inner man with contentment. Phone P. L. Miller & Son for a sack.

Miss Maud Sanford, a former Wayne girl now living in Sioux City, returned home Monday morning from the Rosebud country where she filed on the 1122 claim. Miss Sanford gives the Sioux City Tribune quite a lively account of her trip, in which she says she had a big time on her farm, and expects to go back there to make a home on it.

If you want the best bread buy Mystic flour at P. L. Miller & Son's.

## Am I Right?

For fifteen years I have catered to the public, a dispenser of the best wines, whiskies, brandies and beers that can be bought in the markets. Have tried to please every patron, and respected every man who has been too good for the saloon but has gotten his liquors elsewhere. Now we have put up every tribute exacted—and they have been excessive—by town and state, and feel like asking the people who use intoxicants to patronize the place that deserve your trade so long as we give you only the best goods at the lowest prices. Ten or fifteen per cent of every dollar you spend at my place goes to educate your children and to pay for public improvements. From a moral standpoint this may seem like a peculiar condition of affairs, but it is what the people voted for—don't blame the saloon-keeper for it. Well, this is a long speech for me to make, so come in and take something—on a tin roof.

# BATTLESHIPS ARE FINALLY LOCATED

## Russia Learns Officially That Missing Ones Are in Port Arthur Harbor.

### HOPED FOR THEIR ESCAPE

#### Admiralty Declined Till the Last to Give Up Possibility of Their Success—Vladivostok Fleet Out of Business.

St. Petersburg, Aug. 22.—Later today the admiralty received official information that Vice Admiral Oukomsky's five battleships and the cruiser Pallada are at Port Arthur.

Washington, Aug. 22.—The state department has received a cablegram from Chefoo today, saying: "This morning five Japanese destroyers, the 'Thursdays' and an unknown steamer entering which they captured. Two Japanese cruisers are outside the harbor."

Tokyo, Aug. 22.—A Russian gubboat of the Ojvatini type struck a mine and sank off the coast of the Korean peninsula on which Port Arthur is situated. The gubboat was an armored gubboat of 1,500 tons displacement and carries a crew of 142 men.

Mulden, Aug. 22.—A battle is expected to be fought between the Japanese on the Russian east front are only twenty miles from Liao Yang. The advance posts are not more than four miles from the Japanese with the Japanese have retired to Hai Cheng.

SURRENDER? NOT FOR HIM. General Stoessel Was Mad When He Received Jap Proposal.

Chefoo, Aug. 22.—A battle of huge proportions raged around Arthur August 14 and 15, and it was resumed August 17.

The Japanese, it is reported, sacrificed 20,000 more men, but gained important advantages in the matter of position.

The foregoing news was brought here on junks, one of which, having three Russian sailors on board, was ordered to escape from the Japanese.

Port Arthur last night and was blown rapidly to Chefoo by a gale.

The position that the Japanese occupy in Liao Yang peninsula is not clear, but it is believed that they are in force in that section.

Apparently a Russian gubboat was blown into the bay swept through the Pigeon Bay position into the peninsula in the doing being a case of the lives of the expedition were sacrificed.

On the night of the 15th the battle raged on, and the Japanese sent the terms of surrender to General Stoessel. The terms proposed that the garrison should march out of the harbor, and the Japanese were to be allowed to search the harbor, numbering seven, namely, the battleships Rurik, Gromobol, and the armored cruiser Bayan and the protected cruiser Pallada and twenty or more torpedo boat destroyers and four submarines.

General Stoessel's treatment of the Japanese was courteous, but his reply was not so characteristic.

The Japanese major then turned for a three days' truce in which they buried the dead. The battle was renewed at almost the same time, and the Japanese and the Russian were fighting furiously on all sides.

The Russian admiral, General Stoessel, is alleged to have been wounded.

THEY CAN'T BE FIXED. Russian Vessels Recently Escaped Are of No Use for Service.

St. Petersburg, Aug. 22.—Long reports that the Russian fleet, under the command of Admiral Retzke, commander of the cruiser Askold, concerning the fight of the Vladivostok fleet, and the Russian fleet, which was added to the details of these engagements, do not carry the naval situation in the far East before the dispatches previously received by the Associated Press.

Captain Retzke is apparently in command of the Russian fleet, and the whereabouts of the vessels lighted on the Russian coast, but makes it plain that all the vessels thus far located are damaged beyond the hope of further active service, in view of the present lack of facilities of the Russian navy.

The general staff attributes the refusal of the offer made by the Japanese that the Russian fleet might be allowed to remain at Port Arthur to the simple fact that the Russian navy is in a state of complete disrepair.

TRAINING THE CHINESE. Jap Officers Systematically Drilling Thousands of Their Troops.

San Francisco, Aug. 22.—Wm. Martin, United States consul at Nankin, China, who has just arrived from that port, is quoted in an interview to the effect that immense bodies of Chinese troops are now drilling in the central region of the kingdom, and that the Japanese officers well versed in modern warfare. The soldiers have been equipped with modern rifles, and the most up-to-date machine guns obtainable are now being purchased by the Japanese.

In the vicinity of Nankin alone there are about 5,000 soldiers drilling constantly.

Milder Government for Finland. Berlin, Aug. 19.—The Russian liberals' press has been publishing a number of articles in which it is stated that the Russian government has decided to accept a milder policy towards Finland.

Rains Prevent Activity. Liao Yang, Aug. 19.—Rains have continued to pour down on the roads in many places are completely washed away. The Japanese are not making a move so far as known here.

Protest Not Presented. Paris, Aug. 19.—The French minister at Tokyo has not communicated to the foreign office the text of the Russian protest against the Russian government's decision to accept a milder policy towards Finland.

Boston, Aug. 19.—The national sons of veterans convention today unanimously elected Wm. D. Dwight, Jr., as commander in chief.

### ONE KILLED AND FIFTY INJURED IN THE SMALL BUT FURIOUS STORM.

#### CAME VERY SUDDENLY

##### Without a Moment's Warning, the Twisting Rolling Clouds Descended Upon North St. Louis and Crossed the River.

St. Louis, Aug. 22.—A tornado of small proportions, but of extreme fury swept down upon the residence portion of North St. Louis, resulting in the death of one man and probably a great deal of damage to property estimated at \$100,000.

**JOHN ELLINGTON**, Partially killed and injured. Jacob Koenig, severely dislocated. William H. Linham, cut. Edward Pathison, badly cut. Clewford Fowinski, burned by live wire; serious.

**James Crook**, broken hip. William Ditzhaber, leg and arm broken. William Fouché, leg broken. Louis McCully, leg broken. Wm. Morgan, cut and bruised. T. A. Sprick, scalp wound. William Xorick, leg broken. S. J. Williams, leg broken. Ed. Hoffmann, rolling mill, names unknown; not seriously.

**Came Very Suddenly.** A shower passed over St. Louis earlier in the day, but there had been no rain in North St. Louis. The sky had cleared, and the sun shone brightly. Suddenly, and without the slightest premonition, an arm seemed to shoot down from the sky, and a twisting and turning. The end touched the ground at Nineteenth and Anselmen, and the result was a small but very furious storm.

The storm struck along Angel road street for ten blocks and then turned east and swept three blocks along Broadway, crossing the street at the foot of Bremen street and the river, where considerable property along the river front was destroyed.

The tornado then jumped to about the middle of the street, and struck a ferry boat which was turned and tossed about, but was not sunk. The storm then struck the Illinois shore near Madison, where it struck a house, and a number of persons were injured.

So quickly did the tornado sweep through North St. Louis that the citizens had no time to get out of their homes. The wind cries were heard on the streets. Not a telephone, telephone or trolley pole was left standing along the streets swept by the twister.

The width of the tornado was about a block and a half, and houses were blown down. The streets were littered with debris. Several large manufactories were partially demolished, and the streets were filled with wreckage.

Broadwayrolley car containing eleven passengers was suddenly buried under six telegraph poles which had been blown down and broken. The passengers had a remarkable escape from injury, and only the motor car was killed.

The roof and one-half of the top story of Sommers Bros. tailoring establishment were blown away. Frobenius' building, a large building on the corner of the intersection of the street, was destroyed. The roof of the building was demolished, and the streets were filled with wreckage.

Part of the roof and two cupolas were blown from the Catholic church of our Lady of Good Counsel, on the corner of the intersection of the street. The roof of the building was demolished, and the streets were filled with wreckage.

So suddenly did the tornado sweep through North St. Louis that the citizens had no time to get out of their homes. The wind cries were heard on the streets. Not a telephone, telephone or trolley pole was left standing along the streets swept by the twister.

It is all right to put your best foot forward if the corns are all on the other foot and in no danger of being stepped on.

When people tell you to "mind your own business" they simply mean, for you to let other people's alone.

If there is anything doing in Wayne this week we'd like to hear where it happened.

This isn't going to be a very good year for the real politicians—the fellows who do the dirty work. It doesn't look as if a great amount of money would be put up.

What if that son of the czar's had been two, boys? Which would be the czar's child?

Some of the Russian boats which a while ago were afflicted with sinking spells seem to have had a relapse.

A woman may daub her face up with paint so thick that the devil himself wouldn't kiss her, but she doesn't fill up on bologna, hamburger cheese, onions, beer and booze on Saturday night and have to take a chew of tobacco first thing Sunday morning to get the bad taste out of her mouth.

It looks as if Lipton may have found as easy a way to get rid of his money as Carnegie discovered. He is going to try once more to lift the cup.

Port Arthur may have made its farewell fall this week.

A new wedding fad has come to light, originating in Indiana. At a recent wedding the bride hobbled awfully, so that the audience, as she went down the aisle, was either scared, hip shot or afflicted with soft corns, but she accidently fainted, and then it was discovered that her legs were a mass of garters—about forty on each leg—and as she was about to be taken for shop lifting things in the secret had to tell that each one of her young lady friends had furnished her a garter to wear to her wedding; to be taken off by the groom after the ceremony and given by the bride back to the owner, to be placed under the pillow of said owner, in place of the old time wedding cake which was likely to grow stale and draw rats and mice and throw the patient into fits, which a garter would not do, and could be perfumed with rose water or violet essence. You will dream of your next husband if you have a garter under your pillow that has been clawed off the under limbs of a bride. But no bride should tackle over eighty garters unless she has legs like a giraffe.

George Rice of Marietta, Ohio, who has been fighting the Standard Oil company for thirty years, has just brought suit against the trust for \$3,000,000, which is the amount he would have cleared up if Mr. Rockefeller and his associates had not competed with him. If he is real lively he may succeed in getting the \$3,000,000 some time within the next thirty years.

A Baptist preacher out at Broken Bow made himself very busy for several months going after the saloons, etc., and trying to reform his wicked neighbors, and then quietly slipped away with a doctor's wife, leaving his better half and children to get along in their disgrace as best they could. Wherever you hear a preacher get clear out of his sphere in an effort to force other people to be good, watch him! Especially when he calls on "spiritual" missions. Notwithstanding there are lots of wicked editors in the land, nine cases out of ten it's the preacher that stirs up the real juicy scandals. Lots of them are of course better than editors, but they run to extremes either way, and the ones that "holler" loudest about decent people nearly always furnish a newspaper a scandal sooner or later.

Many months ago a young man of Eagle Grove, Iowa, was beguiled into the tent of a clairvoyant who by some means had learned that he possessed a few hundred dollars which he desired to invest. He was astonished at her ability to approximate the amount of his ready cash, and delighted that she could invest it in an enterprise that would make him very wealthy in less time than it takes to raise a crop. That afternoon he separated himself from \$750, and that very evening the oracle of occultism folded her tent like an Arab and silently soared away. No word came to the young man of his friend or investment, and it finally percolated through his head that he had been the victim of misplaced confidence; and he poured ashes on his head and had the dumps for ninety days. Two weeks ago he landed at a village in Minnesota where he hoped to find employment. A circus was in town, and on the road to the scene of gaiety he discovered the tent of a "clairvoyant; past and present revealed while you wait; love and business a specialty." He peeped behind the curtain and saw with wonder and some degree of hope the financial agent whose alluring promises had caused him to let go of his roll in those happier days at Eagle Grove. He went right up town and hired a lawyer, secured the arrest of the clairvoyant and frightened her into giving up the goods which she did with many words of protestation and tears of deep regret.—State Journal.

Dr. Eells has a pair of pigs, but one of them is like a set of false teeth, not to be depended upon for a meal ahead. The dentist keeps a nice little porker to eat up the crumbs from the table, and one day this week Mrs. Eells noticed the little chap had gotten out of the barn. A neighbor's boy was called in to help run the pig down, but when it was finally chased into the barn it was so overheated that Mrs. Eells phoned her hubby that he'd better come home and look after it, it might die from the chasing, etc. Dentist Eells hurried home and upon going into the barn found he had two pigs, the hunted one being an entire stranger of a different gender. Well, it isn't everybody who knows a pig from a hog, anyway, by G. D.

### A Handsome Gift

The DEMOCRAT this week had its attention called to a circumstance that does not usually happen in this selfish world of ours. It appears that for some thirty-five years Mr. and Mrs. William Montgomery, who last December moved here from Butler county, Iowa, were neighbors and enduring friends of the Wilson Pingree family. Mr. and Mrs. Montgomery are now quite elderly people, arriving on the shady side of this "vale of tears," but during their long residence in Iowa they performed many deeds of kindness and numerous unselfish, gratuitous services for the Pingree family. It is said that whenever a little Pingree opened his eyes on this cruel world, Mrs. Montgomery was always present to help ease the discomforts of childbirth and rejoice with the parents in the happiness of a son or daughter, eight of whom now "bless the fireside of Wilson Pingree and his better half. It is also related by Mr. Pingree himself that William Montgomery never failed to meet him with the lantern of light and a cheering word of welcome upon any of his arrivals at home from trips to the various towns about their home. All this is usually for granted by the ordinary well-to-do people of means, but not so with Mr. Pingree, for he this week bought a lot in the Wayne cemetery, close to his own family plot, and gave Prof. Durrin an order for a \$500 monument to be erected thereon, commemorated to the friends of his childhood and his children's benefactors. Mr. and Mrs. Montgomery were in Wayne Thursday of this week and being made acquainted with the intention of Mr. Pingree were taken up to the cemetery, where we all go sooner or later, and also shown the proportions and designs of Prof. Durrin to mark the place of their last resting place. The inscription on the monument will be "Erected to the memory of Father and Mother Montgomery, by the Pingree Family, in recognition of the many kindnesses received by them from these good people." Prof. Durrin will make this memorial one of the very best of his many fine works of art.

### Grand Trip In Prospect

The Meteorist ladies are preparing something unique for the entertainment of the public next Thursday. They propose to furnish a trip around the world for 25 cents and have arranged an elaborate transportation ticket which gives explanations and requirements in interesting style. A stop of twenty minutes will be allowed at each station or in each country, and the trains will be kept running from 4 to 11 p. m. The start is made from Neely & Craven's hardware store journeying first to the "Sunny South" in charge of Mrs. John Sherbahn; from thence to Germany, Mrs. T. A. Heckert's, to Ireland, Mrs. M. S. Snodgrass' to Gypsy Land, Mrs. G. Nieman; to Japan, Mrs. Henry Ley's; and finally returning to Washington, D. C., Mrs. D. C. Main's, and then home. With lively entertainment at each stopping place, those who take the trip may expect a merry time. And no one can afford to miss the opportunity of going around the world for the nominal sum of 25 cents.

Mrs. Boomom of Winside has leased Dr. Le-scaring's boarding house and will take possession Sept. 1st. Being a first class cook Mrs. Boomom will have an up-to-date boarding house and solicits the public patronage.

City Atty. Davis went to Osawa yesterday to visit for a week with his mother and brother.

Mrs. C. A. Lemon, who has been the guest of Mrs. Wrightman and other Wayne friends for several weeks, left yesterday for Sibley where she will visit a few days before returning to her home in Indiana.

Roos Cunningham is home from Chicago, where he has been studying and teaching music, for an indefinite vacation.

A big crowd of Wayne people attended the picnic at Winfield Wednesday and all who reported state it was a very thin entertainment, a merry-go-round being the chief attraction. What the hordes of Wayne folk go to Winfield for on every occasion is a conundrum. It's always the same old chestnut down there, and the hayseeds of that town never loosen up any when Wayne has a game going.

### A CONTINUAL STRAIN

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule get rid of this "continual strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all drugists.

### There Are Others

(Speaking Enterprise.)

"Is there a man in the audience," fiercely exclaimed a female lecturer, "that has done anything to lighten the burden on his wife's shoulders? What do you know of a woman's work? Is there a man here she confided, folding her arms and looking over the audience with superb scorn, "that has ever got up in the morning, leaving his wife, worn out wife to enjoy her slumber, gone quickly down stairs, made a fire, cooked the breakfast, swept the missing buttons on the children's clothes, darned the family stockings, scoured pots, filled lamps, swept the kitchen, and done the rest, if necessary day after day, uncomplainingly? If there is such a man in the audience let him rise." And in the rear of the hall a mild looking man in spectacles, in obedience to the summons timidly arose.

He was the husband of the eloquent speaker. It was the first chance he had to assert himself.

### Miss Monte Theobald's Party

You've heard of three card Monte, and Oil Monte and Monte Carlo, but this item refers to Miss Monte, and it was a whole lot of Misses. The party happened Monday night all night—and lasted until Tuesday noon. Some people in the neighborhood thought at times it was a fire, but it was only a big party of warm hearted Wayne girls having a jubilee. There was dancing, eating, and eating and dancing, the last meal being a six-course breakfast that wasn't course a bit, being fried chicken and a whole lot of other good things. The young ladies who enjoyed this so-called as well as all-night affair, were the Misses Ethel Norris, Maudie Feather, George Terwilliger, Fay Britton, Jessie Tucker, Louise Mitchell, Edith Scott, Queen Melior, Libbie Ellis, Hattie Weber, Lantall Lundberg, and Marie Sawyer.

### Society and Such Like.

The Degree of Honor ladies gave Mrs. Fred Volpp a most jolly surprise party last Tuesday evening, and presented her with a gold bowl berry spoon. Delicious refreshments and a good time socially was enjoyed by the surmises and surprised.

Mesdames Williams, Wilbur and Mitchell were hostess to a large company of ladies Thursday evening. The elegantly gowned ladies and the large spacious rooms decked in mid-summer flowers made a very pleasing picture to those who came "a little late." After the serving of a delightful 6 o'clock luncheon the guests enjoyed a lively contest in whist. Mrs. Matheny taking first honors by winning all the games received a very pretty handkerchief and saucer and Mrs. Fritts getting second prize a china bon-bon dish.

Miss Atchison of Kansas is the guest of her cousin Mrs. J. W. Jones for the summer.

The Missionary of this city will entertain the Missionary society of Wakefield on Tucker's lawn next Thursday.

The young married couples had a picnic supper at E. B. Philleo's last evening. A jolly time is reported.

Miss Alice Kate has issued invitations to a number of young ladies and gentlemen for a party Saturday evening.

Last Tuesday evening Misses Gertrude and Hattie Weber and Messrs. Byron Holte and Paul Harrington delightfully entertained about forty-five of the young folks complimentary to Miss Gertrude White of Tekamah.

The many bouquets of flowers lent on added charm to the hospitable Weber home. Miss Edith Moses proved herself most apt at the whist table and received a Wayne souvenir plate. Dr. Cosner took the gentlemen honors for a hand handled pocket knife. While Edna Britton and Bruce Spears took the consolation prizes a doll-pin cushion and silver satchel bag. An elegant luncheon was then served to strains of the orchestra music. The music proved such a temptation that the guests tripped the light fantastic till "quite late." The punch bowl, attended by Mrs. John Harrington, was surrounded by red and white carnations and feathery green. The pleasant evening closed with some vocal music by Misses White, Weber and Gamble.

### Terwilliger Bros. Sell Out

Terwilliger Bros. this week sold their hardware stock to a party from the western part of the state, the DEMOCRAT understands. Terwilliger Bros. were good advertisers and hustlers in a way, but failed to catch the popular acclaim of the public for some reason or other. This party might try to explain, but we'll treat the gentlemen with more consideration than the senior member of the firm gave the DEMOCRAT—just because a fellow appears to get knocked down and out.

### The Right Man For Governor.

(Free Lance.)  
The nominee for governor is George W. Berge, of Lincoln, an attorney of the capital city, and he is an excellent man—clean and brainy. A better selection could not have been made and this editor is well pleased. We know George W. Berge and know him to be an excellent man and one who is fitted in every way to fill the office of governor. No man should hesitate to vote for Berge as between him and Mickey.

### Shame

No individuals in this world are entitled to better treatment than the conscientious school teachers. Do they receive it? Let the beggarly wages paid teachers make answer. Nebraska stands at the head of all the states in point of general intelligence among the people. Our percentage of illiteracy is lowest. And we must thank the young men and women who do the teaching. But do we give them proper thanks? A true answer to the question must bring the blush of shame to the Nebraska cheek.

In recent years Nebraska farm lands have doubled in value. Crops have been good, and prices profitable. Prosperity appears to have smiled upon all Nebraskans, save only the school teachers. It should not be so. The Telegram appeals to Nebraska school officers to pay better wages to the teachers. Don't wait for them to plead for an increase. Give it to them voluntarily because it will be right to do so. Nebraska cannot to long her high place in the world of education unless the patrons of the school shall insist upon paying teachers wages commensurate with their work. We should build up a sentiment which will lead us to think as much of our teachers as we do of our farm hands. Nebraska teachers are doing good work on present low wages. They could and would do better work on better pay. Give it to them.—Columbus Telegram.

ROCKWELL & DRAGON.  
The Wolf Implement Co. was plaintiff in an action in Judge Hunter's court last Tuesday against John Finn of Wilbur precinct, the trouble arising over the sale of a haystacker. The implement house sent the machine out to Finn's claiming that he had purchased it, while defendant Finn's defense was that the machine was bought subject to its working satisfactorily. Mr. Finn, claimed it didn't work properly and told Mr. Cook, the agent to take it back, which Mr. Cook refused to do, hence the suit for collection. Welch & Davis appeared for plaintiff and Wilbur & Berry for defendant, and after getting all the evidence at hand Judge Hunter rendered a verdict for Finn. The amount involved was less than fifty dollars, but the costs in the case will make it expensive litigation as is always the case in such difficulties.

Mrs. Wilbur Spahr, who has been dangerously ill, was taken to Sioux City Thursday afternoon for an operation. Dr. Y. B. Knott came up from Sioux City to perform the work here but after seeing the patient insisted that she be taken to the hospital. ### Bully for Bennett

Birmingham, Ala., Aug. 23, 1904.  
Editor DEMOCRAT:

You're on the right track this time. Say all the nice things you can to win votes for Parker and Davis. American patriotism, American conservatism and the government of the people by the people, is only to be looked for in the election of Judge Parker. I am just as good a republican as ever, but I never did believe in yellow dog politics, and this year it is the man, not the politics. I am going to vote for Parker and Davis this year and I want to see, and expect to see, one million republicans in the United States vote for Parker and Davis, and I think his election is as certain as if the votes were counted.

Yours very truly,  
J. E. BENNETT.

The DEMOCRAT had its usual run of luck this week—broke paper press all to smash. We expected to wait for the repairs telegraphed for, but Editor Gibson requested that we partake of his hospitality and grind 'em off on his machine, so we get out almost on usual time.

Well, we have met the Hon. Patrick E. McKillop and do not hesitate to say that we like him and that he is a far greater man than he looks to be. If Mr. McKillop could meet all the voters in this district with his charming personality and had half a chance to win out, there might be something interesting turn up about election time.—Windside Tribune.

There is a tone of gentle irony in this advertisement from a German newspaper: "To those kind friends who during 1903 have shown such interest in the contents of my humble garden. Take notice that in future the key can always be had or application, even during the night, and that to enter by the gate is much less dangerous than climbing the wall. I shall be further deeply grateful if in future you would be so generous as to leave a little of the produce for my needs. The trees in the orchard from present appearances seem to promise a fine crop. but when gathering the fruit I should be obliged if in the future you would do so without treading it necessary to pull the trees down. It would also insure for a larger selection in time to come. For the same reason I beg you to carry a lantern so that you do not trip over the greater part of the vegetables in walking over the beds. Thanking you warmly in advance.—Springler."

HEALTHY MOTHERS.  
Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, sea-sickness and vomiting and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Roschke's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—its timely use will promptly relieve herself or her children. The worst cough or cold can speedily be cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough racked consumptive. New trial bottles, 25c. Large size, 75c. At all druggists.

### Omaha Markets

NYE & BUCHANAN CO.

Chicago started the week with 30,000 cattle on sale and a 10 to 15 cent lower market and have been weak and lower since. Our receipts have been very moderate and prices have advanced 30 to 40 cents over a week ago.

The inquiry for feeders is greater this week than any time this season and prospects look better in that line, but a heavy run next week would bring a slump of course.

We quote: Corn-fed Choice steers \$5.00 to \$5.75, fair to good \$5 to \$5.00, cows and heifers \$2.50 to \$3.75.

Grassers: Hay-fed \$3.75 to \$4.25, choice killers \$3.50 to \$3.75, choice feeders \$3.50 to \$3.65, fair feeders \$3.00 to \$3.40, stockers \$2.50 to \$3.00, butcher cows \$2.25 to \$2.75, cutters \$1.75 to \$2.20, canners very slow, Bulls \$1.50 to \$3.50, veal \$2.50 to \$5.00.

Hog receipts have been moderate and the market about steady. Range \$4.90 to \$5.20.

Sheep receipts continue moderate, about enough to supply the demand for killers, but far short for the feeder demand. Consequently prices keep strong.

### "Bonesteel Charley's" Game

An incident reign of terror at Norfolk, Neb., ended and a sign of relief escaped a number of anxious residents of the town when Charles Kloster, former city clerk of Sioux City, sent his grips to the Northwestern depot enroute to Sioux City Saturday morning. It was all because an intimate friend of Mr. Kloster prepared for his visit by playing a practical joke on the men about town.

"You see, fellows I have a friend coming down here to see me," explained George Moeller, the Morsok man, with a sober face and a joking mind. "He's just been to Bonesteel, and while he is a good fellow I must own up that he is one of the smoothest pickpockets in the business. He is known the world over as 'Bonesteel Charley' and while he is a 'spender' and all that is careful of him when you shake hands. He has a way of putting his left hand on your shoulder and finally dropping it quietly in your pocket. I tell you he's a smooth 'un."

Kloster arrived on the train, brown and with a week's growth of whiskers on his chin, and a big wide smile on his head. He was put next to the joke.

As they entered the hotel lobbies of the town, glances a glance were thrown in his direction.

"Oh, Smith, you and Jones come here," Moeller would yell as some white faced person could be seen hugging his pocketbook with both hands and sidestepping nicely through the most convenient opening.

Smith would look at Jones and then Jones would look at Smith, and then the two would get together with grim smiles on their faces. They would stamp for an introduction.

"Mr. Jones this is 'Bonesteel Charley,'" "Glad to see you," Smith would say as he looked as if he were just going to be sentenced for disturbing the peace.

"Bonesteel Charley" was properly coached. He would grasp the stranger's hand with his right and then start the left toward the man's shoulder. The stranger would jerk away, start hurriedly down the lobby excuse himself and think out loud of sudden business which called him away. Others would lean forward several feet, stick their arm out at full length and just touch the tip of the big Bonesteel desperado's hand.

The joke has not yet been solved in Norfolk, and the "Bonesteel Charley's" hand-shake is still popular with strangers with broad white hats.—Sioux City Journal.

### Atchison Globe Sights

Science has a good deal to say about what it can accomplish, but somehow you can't help having more confidence in quiet old nature which makes no pretensions.

Women's magazines continue to blame the men for not saying nice things about their wives' cooking, and the men go on thinking that if they eat it that is compliment enough.

"I have just one request to make," writes a woman to the Globe, "that if ever I have cholera morbus or inflammation of the bowels, the paper will not state the nature of my disease."

An Atchison man was discharged for drunkenness after repeated warnings. Since his discharge, he has been as sober as a judge. Which proves that he could have got drinking while occupying the job.

An Atchison bridegroom who did not attract much attention as his bride's tumbler before his marriage, is beginning

to get attention now, he is taking his meals at a restaurant, and people are saying: "What is the matter?"

They tell of an Atchison county widow who lives on a farm. She is trying a new bean. She has given him a trial in most farm work, including plowing with mules. If he gives satisfaction in other tests she will marry him.

One of the pleasing sights seen by the girls who clerk in the stores, is a farmer and his wife shopping. The farmer's wife picks out and then shows "him" to see if it suits. He usually says: "O, well; get it; you are the one who has to wear it."

The girls need instruction along this line: They don't send the boys home early enough. Any boy who has to work at seven has no business being out of bed after ten at night. The girl's father also has his rights. When the young man stays late, he spoils an old man's rest as well as his own prospects.

Have the people changed? A number of years ago the mother counted noses, and when she put over the roasting ears, got out the biggest kettle she could find and allowed at least three ears for every member of the family. You must admit, if you are a forty, that you have eaten as many as six ears at a meal. In these days one eats over two ears, and seldom that many.

The New York World which bolted Bryan and has been his great opponent always as a presidential candidate, views his aspiration for the senate rather favorably. It says:

"Worse things might happen than the sending of Mr. Bryan to the senate. There is not the slightest probability that he could ever get half a dozen senators to vote for his new fad—state ownership and operation of railroads, the popular election of federal judges and postmasters and farm-yard notions as to the currency. But Mr. Bryan would carry to the senate certain very earnest convictions as to the encroachments of plutocracy, the growing power of monopoly, the trust-sheltering tariff and the danger of imperial colonialism which joined to an ability to speak eloquently and forcefully, might render him a valuable accession to that body.

The senate has taken on too much the character of a millionaires' club, a gathering-place for corporation attorneys and monopoly agents and a museum for political fossils. In its membership there are, of course, men of large ability and considerable independence; but Mr. Bryan would keep them all "stirred up" in a manner that would at least attract more attention to the proceedings of the senate and perhaps result in some public good."

The DEMOCRAT believes, and from a non-political standpoint that not only Nebraska, but the nation, might well be proud of "Bryan in the senate." It is unlikely that Mr. Bryan can be elected, however, although the "biggest man" in the United States today.

"Well, and how does my son get on?" "He is one of the best students at school," replied the teacher. "I have no complaint to make on that score."

"That was the way with me when I went to school. I'm glad he is taking after his father."

"But he is very rarely at times, Mr. Hurdwick, and frequently has to be summoned for fighting."

"Well, I suppose it is natural that he should have some of his mother's striking characteristics."

Quite an interest was taken in the foot race Saturday, between Marks of Stanton and Notes of Randolph. The two arranged to run the race here as it was the half way point. The Tribune understands that \$50 was the bet and quite a deal of money changed hands among the sports in the crowd. Marks won

the race by several feet. Talk about jockeying at a horse race—this foot race would take the cake. People were lined up in the hot sun on each side of the street for 75 rods and waited an hour and 42 1/2 seconds for the race to come off, and when they did run it took just 7 seconds.
