City Business Matters.

At a regular meeting of the council Monday night the difficulties arising from the rebuilding of the electric light plant by not putting it to a vote of the people, were cleared up, the signatures of a majority of all the voters of the city having been secured for the permanent improvements as heretofore planned for. A new ordinance covering the defects was passed by suspension of the rules, etc., and the whole affair settled up according to Hobbie.

The city attorney was ordered to draft an ordinance specifying the quality of sidewalks hereafter to be laid on Main street, the council intending to put a barr on any more wooden structures.

A. G. Powers was granted a permit to erect a dwelling house on the west part of his lots, near his implement warehouse, the same being within the fire limits.

The electric light committee was given authority to dispose of the old pump and point, which was put out of business a year ago, to the best advantage. The tools cost the city \$435 and will be sold to any one wanting them for \$150.

Bill Saw It.

And "it" was a remarkable exhibition of the national sport. Several hundred Wayne people, mostly of the tender sex, were in attendance, and about a dozen dollars were dropped into the band boys money bag. The North Main street business men won out, the South side fellows getting dry along in the 7th and 8th inning and their feet refusing to track. Albert Berry is credited with making the champion slides, in fact Albert was "on the ground" most of the time the last part of the game. Laudford Turner made the spectacular catches, going up in the air 144 feet to cover the leather, where it had been knocked by Ray Donnelly, who is used to working away up on a telephone pole. The hard bitters were Al Furchner, Donnelly and Scace, Ed. Pratt not doing as well as usual and disappointing his admirers. The score by innings: North side—1 0 0 1 1 2 6 4—15 South side—1 2 0 3 0 0 0 0—6. It is now proposed to get up a game between the fats and leans, Oom Paul Kruger to captain the fats, who will be dressed in bloomers, and your humble servant of the DEMOCRAT to stand pat for the anti-fats, who will be costumed in tights. The admission to this game will be ladies \$2 each and gents free, and it is hoped to raise several hundred simoleans by the scheme.

Sheriff Mears went out to the Henry Stumpf place Wednesday night and arrested the tenant, Joe Hoelsdler, wanted for whipping his better-half. The gentleman was landed in jail and Thursday afternoon was tried in Judge Hunter's court, found guilty and fined \$20 and costs, which he paid and was released. Hoelsdler moved here from near Randolph, and the DEMOCRAT is told he cut up the same capers there, upon one occasion hitching his wife up for a horse when one of his pigs played out. Mrs. Hoelsdler walked to town to make a complaint against him, and then went home without filing one, but the sheriff went out and got him anyway. Like everything else of a domestic disorder there is two stories to tell about the Hoelsdler's troubles, but if there isn't the name is enough to make the owners want to fight.

One Cherokee business man who has a private gasoline lighting plant in his store, took six gallons of water out of the oil tank recently. That much water was in a few barrels of gasoline used, causing the Democrat man of that place to remark: "No wonder Kuekerfeller can sing 'Praise God from Whom All Blessings Flow' with vigor."

A big husky fellow came into this den Tuesday, and looking the boss square in the eye without batting a lash said: "Would you please do a little something for a gentleman in distress?" And the "gentleman in distress" got it—another charge of grief in his bonnet or under his vest. He tried to explain that he was on a strike and a union man, but he struck out of this shop with much more acerbity than he came in. After all an overbearing, robbing capitalist is not quite so disgusting as the union man who uses his labor credentials to beg for a living; they will always get a warm reception at this bake shop.

With a Methodist conference on the 14th and a circus on the 15th business is looking good for Wayne this month.

"By dad, you have been pretty slow of late, but if you had just been up on the hill the other night and heard the talk that I listened to, you would have food for forty sensational items." "What was the rip, anyway?" I asked the donor of the above sentence, and then he went on and gave names of people who wouldn't like to see 'em in print in any such connection; just a hubby got a little too gay with some other woman, and he is quite a prominent sort of a business man too, and would be awfully ashamed of himself if he were "writ up" as he ought to be and as he probably will be if he doesn't "cut it out." For the benefit of the fair sex we might add that it was not a Wayne woman who erred in this instance, only a Wayne man, on the wane, socially, morally and domestically. "Perhaps he'll get a hunch" when he reads this item?

Bixby of the Journal asks "How would you like to be dead?" Well, by dad, we'd like to be laid, in the box, with our clothes on as usual; just laid down as though taking a short snooze instead of eternal sleep; we'd want no undertaker to fill us up on chemicals, and turn our face straight up in that horrid shape so often seen at the funerals. We can't sleep on our back now without having the nightmare, and we'd probably have trouble enough in—the place we go to—without bad dreams. But then perhaps it doesn't matter so much how we'd "like to be dead" unless it was dead drunk. Ask us something easier, Bixby.

Pat McKillip still wears his hair and it's long enough to pull him into congress if everybody gets hold of it.

When the democratic party stood for 16 to 1 republicans said the democrats were a lot of dampheads. Now that the national party is in favor of the gold standard the members there are simply crazy. "Spouse if this much abused political association was to travel to suit the republicans it would be on the sure road to Hades.

I notice in one of the Sunday papers an article headed, "Things a Man Should Not Tell His Wife." As the article takes up less than half a page the person who wrote it evidently doesn't know much about the subject.

Isn't it funny what a great abundance of confidence the republican papers now place in what "Bryan says." A few short months ago Bryan couldn't tell the public anything that had a grain of truth in it, and he was a "dead one" in political circles.

Omaha Markets

WYR & BUCHANAN CO.

As predicted, receipts came heavy at the beginning of this week and a good share of last week's gain has been sliced off. Best dressed beef about steady, others 10 to 25 lower. Feeders 10 to 15 lower, cows 10 to 15 lower. Light feeders are more in demand at present than heavy one. Our receipts have been moderate since Monday but Chicago's continue heavy and keep our market weak.

We quote: Cord-feds Choice steers \$5.25 to \$5.75, fair to good \$4.50 to \$5.25 cows and heifers, \$3.00 to \$4.00. Grassers Hay-fed \$4.00 to \$4.40, choice killers \$3.50 to \$3.75, choice feeders \$3.30 to \$3.65, fair feeders \$3.00 to \$3.25, stockers \$2.50 to \$3.00, butcher cows \$2.50 to \$3.00, cutters \$2.00 to \$2.40, canners \$1.50 to \$1.75, bulls \$2.00 to \$3.50, veal \$3.00 to \$5.00.

A CONTINUAL STRAIN

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule get rid of this "continual strain," but may remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, restores healthy bodily functions, gives vigor and spirit to one's whole being, and eventually dispels the physical or mental distress caused by this "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists.

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy

Mr. G. W. Fowler of Hightower, Ala. relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says "While there I ate some fresh meat, and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy instead, saying he had what I sent for but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the 'three of us.' Far as I am by all druggists.

We need not tell those who have patronized this store that this store has at all times the best and latest style clothing and that prices are lower than elsewhere, but there are yet some people who have not found it convenient to investigate our improved way of buying and selling clothing. We thank everyone who has patronized us in the past and we believe it will be of interest to those who have not investigated this store to do so this year. You are cordially invited to look at our goods.

She Used Her Gun.

Mrs. E. C. Powell of Plum Creek precinct languishes in the county jail, a bullet in her hand and harder thoughts in her heart. Powell is in an Omaha hospital recovering from a pistol wound in the scalp and one in the mouth and neck. Both are prominent people of the southern part of Wayne county and are the parents of two young children aged two and four years. The difficulty as told the DEMOCRAT is that Powell refused to sleep with his wife, and sought repose down stairs on the couch. This was too much for the lady and during the night she wandered down stairs and with an old pistol took a shot at her hubby while he lay asleep. The rush to arms aroused him from his lethargy but before he could get the gun she shot him again, the bullet going in his mouth and finding lodgings in his neck. Powell then tied her hip and during the fuss she got shot in the hand. H. E. Kelsy of Wisner arrested her and brought her to Wayne yesterday, while Powell was taken to Omaha.

Dr. Williams attended the woman, extracting the bullet which had lodged in the palm of her left hand. To the doctor Mrs. Powell told a most revolting story; that her husband attempted an unseemable crime upon their 3-year-old daughter and she shot him for it; that he had been cruel to her in her troubles, five births coming to her in six years, three of them only being normal. Doctor Williams puts little credence in the poor woman's story, but believes she is temporarily insane and will be sent to the asylum, although otherwise she seems perfectly rational and talks about her trial and engaging an attorney. The prisoner has no doubt been mistreated and her mental state due to physical ailments. The board of insanity will probably act on her case.

The demon of distress continues to haunt the DEMOCRAT. Another break down this week. We know we ought to tell our troubles to the police, but we have to make some excuse for delays in publication.

Miss Mays Cunningham is now teaching school at Grafton, N. Dak.

"Around the World."

The "Trip around the World" as arranged by the ladies of the M. E. church was a great success, the only drawback being the weather which judging from the crowds the drizzling rain could hardly be considered even a drawback. After buying a ticket (no one being allowed to start without a ticket) we boarded a train, drawn by horses, starting on our journey, the first stop being the sunny south where the beautiful Sherbahn lawn had been transformed into a field of sugar cane with a few sunflowers along the walk and farther down a large kettle of possum was stewing. Negro servants waited at the doors and conducted the guests to the parlor where all were entertained by songs, cakewalk and dancing. The gig by "Little Eva" being perhaps the most enjoyable. In the dining room Mrs. Owens made an excellent panmy, the guests being served to corn-pone and water-melon. The next stop was Dutchland where a number of German's relics belonging to Frau Schuster were displayed. Mrs. Durig wore an imported gown which had been worn in Germany six months ago. Mr. Weber, accompanied by Mrs. Surber rendered some very nice violin music. The porch with its arrangements of tables covered with red table linen, bouquets of red flowers and steins took the writer's thoughts back to St. Louis and some of its cafes. The guests were served to coffee, coffee cake and pretzel. Next came Ireland where the principal features were the pig in the parlor the blarney stone and the delicious Irish stew. A great number of Ireland's relics were also on display. Next comes Gypsy Land with its quaint and persistent fortune tellers. The guests were served to coffee, cheese-straws and pickles on board trays. Then came Japan. Mrs. Ley receiving at the door and being conducted by other Japanese ladies through the rooms we finally found ourselves seated on the floor with a bowl of rice, chopsticks, a cup of tea and a wafer before us. Mrs. Matheny's gown in a black robe, a black wig, attended to the tea urn. The last stop was at the white house where Mrs. Maine introduced the visitors to Mr. and Mrs. Roosevelt, Miss Alice Roosevelt, Mrs. Hay, Miss Wilson, Mrs. Hill and the Goddess of Liberty. If the above mentioned persons could have seen their representatives last evening they certainly would have felt complimented. While we were here Mr. Fisher, policeman, arrested Messrs Ley and Fortner for flirting with the ladies of the white house. The dining room was presided over by Misses Buffington and Dickey, serving trapeze and nabobs. At the six homes each hostess was assisted by from 10 to 15 assistants, all gowned to represent the country, required, and each place profusely decorated to carry out this idea. The affair netted the church \$87.

The Misses Florence Welch and Mary Mellor entertain at the home of the former this evening, about thirty five young people being invited.

To The Teachers.

Owing to the fact that so many teachers were excused from the institute in June, it seems advisable to call a meeting of the teachers before the work of the year begins. This meeting will be held in the High School Room, Wayne, Nebraska, Sept. 3, 1904 at 2:30 p. m. The Reading Circle work, Course of Study, Eighth Grade work, Teacher's Reports, and other subjects will be discussed. The number, time, and place of holding the Teachers' Meetings for the year will be decided upon. Every teacher of the county is expected to be present. C. H. Bright, County Supt.

Ocean Park, California, Aug. 23, 1904. Dear Sir:

Enclosed you will find one dollar for the WAYNE DEMOCRAT, which we had missed for awhile, not getting any of the Wayne news. We are getting along nicely, and like California very much. We see so many people from Wayne and around that it seems as if we weren't so far out here. Aug. 20th we were at Long Beach Cal., to attend the Nebraska picnic which was held there. We were surprised at the number of Nebraska people who are out here. It was a very pleasant meeting for all. Please send paper soon to Mrs. PAULINE PERENSTOCK.

Do not be imposed upon. Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For sale by The Wayne Drug Co.

Most of the disappointments that come to engaged people are due to the fact that they think they will go on being that kind of idiots all their lives. A girl can get more fun out of imitating how proud she will be when she is the mother of seven children than a man out of thinking how surprised his wife would be if he were nominated for some office.

Cured of Bright's Disease. Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken all well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me of four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." For sale at The Wayne Drug Co.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the disease and weakness peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now fully warranted in offering to pay \$50 in legal money for any case of Leucorrhoea, Female Weakness, Profluvium, or Falling of the Uterus, N. Y. for free consultation and advice, and the same will be held as sacredly confidential. It is foolish to consult women friends or persons without medical training.

Dr. Pierce's Favorite Prescription contains no alcohol, is entirely vegetable and was the first exclusively woman's tonic on the market—it has sold more largely in the past third of a century than any other medicine for women.

All other compounds intended for women only are made with alcohol or alcohol is a large component. It not only injures the nerves, but the little red corpuscles of the blood are stricken by alcohol. All such compounds, therefore, do harm.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. Use them with the "Favorite Prescription" when a bill is required. One is a laxative, two, a mild cathartic.

Given Up To Die.

B. Spiegel, 1204 N. Virginia St. Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh, and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured. For sale at The Wayne Co."

The republican lie that Berge was a prohibitionist, and which the Wayne Republican is trying to push along, was knocked silly the first round, the Lincoln Journal, the rankest republican paper in the state, sailing the lie to the cross in good shape.

Fearful Odds Against Him. Bedridden, alone and destitute. Such in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. Am I Right?

For fifteen years I have catered to the public, a dispenser of the best wines, whiskies, brandies and beers that can be bought in the markets. Have tried to please every patron, and respected every man who has been too good for the saloon but has gotten his liquors elsewhere. Now we have put up every tribute exacted—and they have been excessive—by town and state, and feel like asking the people who use intoxicants to patronize the place that deserve your trade so long as we give you only the best goods at the lowest prices. Ten or fifteen per cent of every dollar you spend at my place goes to educate your children and to pay for public improvements. From a moral standpoint this may seem like a peculiar condition of affairs, but it is what the people voted for—don't blame the saloon-keeper for it. Well, this is a long speech for me to make, so come in and take something—on a tin roof.

The Issue And The Man

"I am a republican, if I voted in Missouri I would vote for Joseph W. Folk for governor." This is the statement made in an address at Clinton, Mo., by Governor Robert M. LaFollette of Wisconsin last Saturday. It is the expression of a republican leader who thinks that when the issue is corruption and corporation domination versus clean government and honest and just administration of the affairs of a state, the party man should be above partisanship.

The people of Nebraska have grown weary of railroad domination of Nebraska and hypocrisy enthroned in the executive mansion. They have a chance to elect a clean, fearless, capable honest man for governor. He happens to be the nominee of the democratic and populist parties of this state, but people of every party and faction who desire relief from the burdens and the humiliations of misgovernment may find the governor they want in George W. Berge. Incidentally, this is the belief of Joseph W. Folk of Missouri, who is coming to Nebraska to speak in behalf of the fusion candidate for governor.

Cutting politics all out of the subject the DEMOCRAT hopes to see Wayne county go 500 for Roosevelt if you want it, but give Berge as big a majority. Gentlemen, there never has been in the history of any state so big a jackass and small a mentality as this thing called Mickey. Beat him! at the polls for an election. You can't beat his brains out for he hasn't any.

Berge Anyway

If the Free Lance editor were a republican he would vote for Roosevelt for president, Berge for governor and the republican state ticket otherwise; if he were a Bryan democrat he would vote for Watson for president, Berge for governor and the fusion state ticket; if he were a Grover Cleveland democrat he would vote for Parker for president, Berge for governor and the fusion state ticket; if he were a populist he would vote for Watson for president, Berge for governor and the fusion state ticket; but being a mugwump will vote for Watson for president, Berge for governor and on the fusion state ticket, yet is very friendly to Mortenson for treasurer, at least, with McBrien for superintendent recognized good timber.

DEATH PRESENT IN ST. LOUIS COLLISION

Loaded Street Car Struck by a Fast Train Near the Fair Grounds.

SEVEN WERE KILLED

Over Twenty-Five Passengers Were Injured—It Claimed Motorman Was Responsible for Accident.

St. Louis, Mo., Sept. 6.—Seven persons were killed and nineteen were injured, two probably fatally and one seriously, by a collision between a passenger world's fair shuttle train with a suburban electric car at the Sarah street crossing. FATAL NEW YORK FIRE

Five Story Tenement House is Destroyed and Fourteen People Are Burned to Death.

New York, Sept. 6.—Fourteen persons were killed and nearly a score injured in a five-story double tenement in Astor street, following the terrible fire which occurred on the east side in several blocks, although the property loss was slight.

The dead include four women, one man and nine children, ranging in age from two to ten years. Many of the injured were taken to hospitals, and it is thought that several will recover. Those on the balcony injured were five women who were on a fourth floor balcony which fell with them.

The small number of men among the killed and injured was due to the fact that most of the men who lived in the building, following the terrible fire, were unable to escape by descending through the burning building, and their way was safely cut by neighboring roofs. Meanwhile the members of their families, who had remained in their rooms, found escape out of and panic stricken from windows.

The fire started about 3 o'clock in the morning, and there was considerable damage in the neighborhood. Although the district is one of the most thickly populated in the crowded east side of New York. When the firemen reached the building, they were jumping from the windows and from the ends of the fire escapes that reached to the second floor. They were crouching in the smoke in the small rooms in narrow halls.

Most of the dead were found on the two upper floors. SUMMARY OF WAR NEWS

General Kuropatkin Thursday, unable to withstand the attacks of the Japanese on his position about Liao Yang, has retreated to the northward from Liao Yang city across the Taishan river. Last night's reports indicated that he had apparently abandoned his position, but dispatches received this afternoon show that the retreat is not complete. The Japanese are fiercely attacking the left wing of the Russian army, which is retreating to the northward. The Japanese are reported to have captured many Russian cannon, and it is expected that they will continue to force the issue.

From Tokio and St. Petersburg come different reports. St. Petersburg says the position of the north side of the river is really much stronger than that at Liao Yang, and mainly at the present time. The same source also admits that the success of Kuroki's flanking movement depends on the fortitude of his left flank, which is protecting the retreat of the massive army.

THE JAPS GOT THE GOLD.

Chiefs Attempt to Hold \$500,000 at Chefoo Didn't Make Good.

Chefoo, Sept. 6.—China and Japan have clashed and part of the state was captured. The Japanese steamship Independent last night and was destined for General Headquarters where it was to be used to pay his soldiers. But, just when the Independent was ready to start, the Chinese government stepped in and detained the ship, alleging that she had contraband on board. The Japanese government protested against the detention of the Independent, but the local Chinese officials gave him a detainer. He then appealed to Sir Robert Ross, the British consul, for a decision. Pending the delivery of the ruling the Independent was forced to remain at the dock.

Kuroki's soldiers, however, will not have to wait for their pay. Sir Robert Ross has ordered the Independent could not sail for Newchwang. A Japanese torpedoboot destroyer arrived at Chefoo and was ordered to proceed to the Independent. During the short time she remained she transferred the \$500,000 from her own capacious bunkers and then put out at furious speed for Port Dalry, whence she had sailed.

The Independent is under charter to the Oskan Steamship company to carry the Japanese mail to Port Dalry. She was put into this port yesterday to land passengers and local freight. The local commission of relations heard of her arrival and that she was carrying contraband of war and detained her from proceeding on her voyage. He insisted that the contractor should remove his cargo, and then the Japanese protest was made. Sir Robert Ross has ordered that it is given, will establish a precedent.

MAY BE FIGHT AT MUKDEN.

London, Sept. 6.—This morning's newspapers commented on the Russian Press dispatch from Mukden saying that the train service between Mukden and Liao Yang had been interrupted and that the Russians are impossible as the most important news from the zone of hostilities in the east. The dispatch stated that the Japanese have seized the railroad between Liao Yang and Mukden. Correspondents of the Daily Chronicle and the Daily Mail assert that the Japanese occupied Liao Yang Thursday.

IS THE MURDERER OF FOUR PERSONS

Evidence Against G. B. Marx in Connecticut Has Unearthed Horrible Crimes.

VICTIMS' BODIES FOUND

Four Cold Blooded Murders and the Attempt to Poison Another Man Can Be Traced to Him—Old Man.

Colchester, Conn., Sept. 1.—That Gresham S. Marx, now held in the Norwich county jail, is the perpetrator of a series of cold blooded murders probably without precedent in the history of Connecticut, has been established by officials who today began a systematic search for bodies on the Marx farm. The bodies of two of Marx's alleged victims, the body of a young girl, have been found. Marx is awaiting trial, charged with the murder of Paul Pavol, who was killed in 1904. The bodies of two other victims for which the search was begun yesterday are those of an 18-year-old boy and a Hebrew peddler. The bodies of two other victims were found in New York from Russia about three years ago, and came here soon after he had been in the state for six months, and then suddenly disappeared. Marx was taken to Hartford for employment.

The Hebrew peddler went to the Marx farm in 1904, and he has not been seen since, so far as known. A Polisher named Joe made a statement to Sheriff Jackson in which he accused Marx of attempting to end his life with poisoned whisky. Joe said that he had seen Marx drink it and put it away. When the body of Pavol was found Joe mentioned the name of Marx and asked him to identify the whisky, and the constable turned it over to the jailer of the county jail, who promised to have the whisky analyzed. The constable later discovered the body of Pavol, it is said. The bodies of two other victims have been found were six months behind in their wages, as was the young boy Harry Marx, who was killed in 1904. Marx always slept with his hired man, his wife and four children sleeping in an adjoining room.  publican convention never touched him.

If Candidate Fairbanks intends of come west during the campaign an exchange thinks he should wait until the corn is cured, as two kinds of a frost would be more than the farmers would stand for.

At Mason City the other day Floyd Owns, aged 14, and Ada Harris, aged 15, were married at the home of the bride's mother. About the same time, at Iowa Falls, Oliver McDowell, aged 75, and Sarah M. Stem, aged 72, were united in marriage. McDowell wouldn't have married so young only he was afraid the Stem would wither.

By dad, that Range convention at Neely & Craven's next week may save more souls than the Methodist conference if every man in the county takes advantage of the occasion to buy his better-half a handsome and serviceable Malleable Range.

In Cherokee we used to have a lot of pretty girls with hair done a la pompadour and cute, bewitching curls. Alack, alas! a change has come—our hearts' fond hopes they riddle, they've taken up with Fad's behest and part it in the middle. No more they'll have much use for "rats," with which they've had a tussle; you'll find the rodents closeted now with the old root-eaten bustle.—Cherokee Democrat.

A Dea Moines girl and boy companion walked around Lake Okoboji in seven hours. The distance is thirty-two miles.—Exchange. But, by dad, it wasn't the distance that lent enchantment.

No doubt the man with hay fever is oftentimes tempted to say, "to-ho— with the corn; give us a good frost," but his patience is worthy of note.
 One day this week I saw a farmer going home with eight sacks of flour and a 100 lbs. of ice in his wagon. A man is certainly reckless to carry so much wealth around unprotected.

As an evidence of how mistakes and fatal errors will happen—notice date on supplement of the Malleable Range Convention at Neely & Craven's. Mr. Neely supplied the figures on the copy and also saw proof of the ad. By dad read it—but was probably thinking of the races at Sioux City. The office devil also scrutinized the proof in an effort to locate errors—and all that word "August" never loomed up as it did just as the DEMOCRAT went to press.

THREE JURORS CURED
 Of Cholera Morbus or One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy
 Mr. G. W. Fowley of Hightower, Ala. relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says "While there I ate some fresh meat, and some soured meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and I went to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy. Instead, saying he had heard I sent for but that this medicine was so much better he would rather send it to me in the first I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." Far sale by all druggists.

HEALTHY MOTHERS.
 Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous also to mother and child, when Dr. Bosche's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy, in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can speedily be cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough racked consumptive. New trial bottles, 25c. large size, 75c. At all druggists.

A Shocking Tragedy.

This community was terribly shocked and deeply grieved last Sunday to hear that Mrs. G. W. Albee was dead, and died a horrible death from carbolic acid. It was about 11:30 a. m. that the unfortunate woman left her husband to go down stairs for some medicine, and returning in a moment said she had taken the wrong medicine, and imploring those to save her threw herself on the bed never to even speak again. Dr. Wightman was hastily summoned but too late to stop the work of the death dealing fluid, and the crazed husband and daughter and neighbors had only to wait a short time until all was over.

Relatives called to Wayne on the sad occasion were a sister, Mrs. A. J. Hyatt, and Mr. Hyatt from Randolph; a daughter, Mrs. Art Miller, and her husband from Hartington; Mrs. Mallicoat, another sister, from Walnut, Mo., and Mr. and Mrs. Geo. Hyatt of Randolph.

The funeral of Mrs. Albee was held on Tuesday morning at the Baptist church a large congregation gathering to pay their last respects to the departed. Floral designs and flowers were sent in great profusion. A choir composed of Prof. Davies, E. B. Phillo, Mesdames Surber and Johnson and Miss Gamble sang very sweetly several selections and Rev. Duley spoke comforting words to those who mourned taking as his text Luke 8-52. His discourse seemed helpful to all present being full of timely truths and comforting lessons. The Degree of Honor were there in a body as were also the High school class of '95 of which Miss Oaa is a member. A large concourse of friends followed to the cemetery, where the neighbors had beautifully draped the last resting place in flowers. She leaves besides her daughters Mrs. Miller and Miss Oaa, three sisters (one out of town.) Josephine Cooper, born Blue Grass Scott Co. Ia. Jan. 12 1861, Married Geo. W. Albee Nov. 30 1876. Died Sept. 4 1904. Age 43 years 7 months 22 days. Resident in Nebr. 12 years. Member of Baptist church since 1893.

As the evening branch train pulled off the main track last night the brakeman threw the switch before the rear car had passed throwing the car off the track and finally pulling the tracks off it. No one was in the apartment above, it was pulled quite a distance before being discovered. Walter Sherbata, who had got some one to turn the switch for him, was the luckless employe, and he got his walking papers instantly.

We Don't Fish For Suckers.

The kind of fish you catch depends on the kind of bait you use. Any old thing will catch bull heads, but wide-a-wake, game fish cannot be caught with rotten bait. No sucker or bullhead is ever caught by us. We don't use that kind of bait. They say there is a sucker born every minute and there is plenty of old, rotten, out of style goods to catch them with, and the sidewalks are loaded with that kind of bait. No use to come here for that class of goods. We burn everything that sold the second season. Some merchants pile up old goods expecting to catch a sucker and sell out or trade the whole lot for a farm. They are not successful merchants. Why not buy clothing up to date, new and just received from the factory? It costs but little more and gives better satisfaction. Our fall and winter stock is now here and ready for your inspection. Come in and see the new styles even if you are not ready to buy. We have more goods this season than we have ever had, and better goods. You can make no mistake here. No old goods to show you and everything marked in plain figures and sold at one price. Everything guaranteed to satisfy. Step in and take a look at the fall styles. Try on a coat and see how they look. We are always glad to show our clothing whether you are ready to buy or not.

What The Earth Produces

The earth has nourished us through unnumbered years. It has given us the food that the earth supplies us with. It is true that we really require for existence. Have you ever thought that it is possible that the earth supplies us with the means to keep our bodily vigor, our health, and only know it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. Y., has such faith in his "Medical Discovery." Years ago, when he was in general and native practice, he doctor that a combination of certain herbs and roots made into an alternative extract, without the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole system.

Dr. Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.
"It was all run, very nervous, and suffered terribly from stomach trouble, which the doctors pronounced indigestion," writes Mrs. W. H. of Northfield, Minn. "I was advised to send for Dr. Pierce's Golden Medical Discovery, and after the use of nine bottles I was cured. I can heartily recommend the Golden Medical Discovery to any sufferer from stomach trouble. My husband was also greatly benefited by its use."
To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 100 pages. Send 21 cents in stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 653 Main Street, Buffalo, N. Y.

A Lead-Pipe Cinch.

It is a dead moral certainty that the farmers of Nebraska must this year and for several years suffer from the effects of "republican redemption."

There is no escape. But the amount and degree they must suffer depends upon the state board's action in assessing the railroads.

Not entirely, however, as some of the now thoroughly frightened republican editors would have their readers believe.

In the first place, the state board's action in assessing the railroads will not now change the fact that the railroad-ridden "redeemers," in the legislature of 1903 appropriated at least a Million Dollars more of the people's money than was needed to carry on state government for two years. For example, look at these figures:

Appropriation by the Redeemers in 1903.....\$3,740,280 70
Appropriations by the Fusionists in 1897.....2,335,843 40
Republican increase.....\$1,404,437 30

An increase of Four Hundred Thousand Dollars was probably necessary to meet the growing needs of the state—but no sane man believes an increase of Fourteen Hundred Thousand was necessary. It was nothing short of the Wildest Extravagance.

Now, this appropriation was made, and Warrants must be drawn against most of it—substantially all, in fact, by March 31, 1905. The warrants must be paid some time, and until they are paid, they are part of the State's Floating Debt.

This "floating" debt bears 4 per cent interest on all registered warrants. Hence, the longer payment is delayed the heavier is the burden. The Republican party is responsible for every dollar of the state debt. They caused every dollar of it. On Nov. 30, 1899 the "floating" debt was.....\$ 106,265.66
Eight years later it was.....1,936,273.47
Nov. 30, 1900 the populists had reduced it to.....1,727,447.72
And three years later it had climbed up to.....2,263,177.21

That tells the story. Every dollar of it up to Nov. 30, 1896 was a republican debt. That must be conceded. And four years later the Fusionists left it 208 thousand dollars less than when they came in. Besides the Fusionists paid off every dollar of the State Bonds. Under no possible method of figuring—short of actual lying—can it be shown that a single dollar of the state debt today is even remotely the result of Fusion administration.

Up to Nov. 30, 1903, the redeemers had increased the debt \$535,000. It was then \$326,903.74 greater than it was 7 years before, in the palmy days of Joe Bartley—an increase of nearly 17 per cent.

Joe wasn't regarded as a howling success as a financier, at least not for the people; but he, after stealing and losing up-

wards of a million dollars of the taxpayers' hard earned money, did better than the present republican administration. At any rate the floating debt will bear the construction.

Now, if the state board had assessed the railroads as high, dollar for dollar of actual value as the county assessors and their deputies have assessed the property of farmers and other business men, then All Property-Interests Would Suffer Alike for the folly of the Republican Redemption of 1900. The railroad assessment was made lower, dollar for dollar of actual value than had been placed on other property, and the

Farmers Will Catch It Coming And Going.

They will be compelled to pay their own share of extravagant appropriations of 1903—and they will be compelled to pay a large portion that ought in right and justice to fall upon the railroads.

That's the situation in a nutshell. As was said in the beginning, its "a lead-pipe cinch" that the farmers of Nebraska will pay a heavy penalty for so industriously shucking Corn on Election day.

"Vote'er straight." Otherwise shuck corn.

Norfolk Times: "Congressman McCarthy was in the city last week interviewing the faithful there seems to be but little enthusiasm in his favor this year even among political leaders and the feeling is evidently growing that he will not be re-elected." Say, Mr. Times, please send us the seed of that "feeling." If we can make it grow in Wayne

county Patsy McKillip's locks are safe.

The man who is writing the reports about the thousands of New York gold democrats who are lining up against Parker is evidently the same fellow who wrote the dispatches about the Port Arthur battles in which 10,000 and 20,000, and 30,000 Japs were killed.

The Pender Republic is for Gov. Mickey because, as the Republic puts it, the railroads are against Mickey. The reading public of Thurston county ought to be against a newspaper that would make such damphool statements as the above.

In an effort to warn Congressman McCarthy of the danger ahead the Fremont Tribune says: "McKillip is a live wire, and will make a snappy campaign." That's it exactly. Pat McKillip is not only a live wire, but he is also a lulu. He is likewise a jim-dandy, and an every-day picnic party. McCarthy has been courteously invited to the picnic, but for obvious reasons he refuses to attend. And so it begins to look like McKillip would have the running pretty much all to himself. It is well. It is also natural.—Columbus Telegram.

Am I Right?

For fifteen years I have catered to the public, a dispenser of the best wines, whiskies, brandies and beers that can be bought in the markets. Have tried to please every patron, and respected every man who has been too good for the saloon but has gotten his liquors elsewhere. Now we have put up every tribute exacted—and they have been excessive—by town and state, and feel like asking the people who use intoxicants to patronize the place that deserve your trade so long as we give you only the best goods at the lowest prices. Ten or fifteen per cent of every dollar you spend at my place goes to educate your children and to pay for public improvements. From a moral standpoint this may seem like a peculiar condition of affairs, but it is what the people voted for—don't blame the saloon-keeper for it. Well, this is a long speech for me to make, so come in and take something—on a tin roof.

A Railroad Rig.

Nothing better illustrates the complete authority of the railroad attorneys in the republican state committee than the action of that body in placing the notorious Charley Rigg at the head of the speakers' bureau during the present campaign. Victor Rosewater and several other members of the committee protested against the employment of the notorious lobbyist, but their protests were ignored by Chairman Burgess, who is recognized as an able railroad lieutenant. And it is indeed shameful to see the authorities of any political party making a place on the pay-roll for such a man as Rigg. All the state knows that for many years he has followed no other occupation than that of procurer for the railroads. It is his business to attend sessions of the legislature and hypnotize verdant members. And he does it, too. He is suave, handsome, talented and magnetic. He earns every dollar which the railroads pay him. Many a legislative bill calculated to benefit the people of the state has met a cruel death by reason of the machinations of Charley Rigg. The republican machine in Nebraska ought to meet certain death this fall, because it has insulted the intelligent republican voters by placing such a man as Charley Rigg practically at the head of the committee. Perhaps some day the better element of Nebraska republicans will wake up and wrest control of the party from the Biggs and kindred railroad agents.—Columbus Telegram.

Given Up To Die.
B. Spiegel, 1204 N. Virginia St. Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured. For sale at The Wayne Co."

Norris and Rowe's European agent secured a top line act when, upon visiting the Paris Hippodrome he secured for his employers, the Groh's a family of six graceful equilibrists. Upon pyramids, ladders and columns, this remarkable family perform feats of skill and intricate maneuver that seem to utterly defy the laws of gravitation and equilibrium. When the six Groh's are performing together, it makes a bewildering display that fairly dazzles the eye. In this season's performances of Norris and Rowe's Circus there will constantly be three different acts always going on at the same time. Interspersed with the various acrobatic features, will come the many new trained animal acts. Prof. Norris, the famous trainer of wild and native animals promises us something out of the ordinary in this line. Norris and Rowe's animal acts have always proven of absorbing interest, so they can surely be relied upon to furnish us with some new thrills of startled wonder and delight when they appear at Wayne, Thursday, Sept. 15.
