M. E. Conference Ends.
The Methodist preachers got through with their conference business on Monday afternoon, making short work of the appointments. Rev. Wright remains with the local church although there was much fear by his congregation for a time that he would be sent to Omaha. For the neighboring towns S. A. Davis goes to Winside; C. H. Moore, Wakefield; C. M. Griffith, Stanton; F. A. High, Randolph; C. S. Hughes, Carroll. The general verdict was that this was the best conference ever held, and the visitors appeared to enjoy themselves in a first-class manner. Rev. Ed. King was sent to North Bend, while his brother-in-law, Rev. A. L. Mickel, goes to Pender.

The short-horn cattle to be sold at this place next Tuesday are in the very best of breeding condition and will bear the closest scrutiny of the most competent judges. The breeders fully realize that to put animals into a sale in the best beef form is very likely to be at the expense of their usefulness as breeding stock, hence they have avoided anything that is likely to prove detrimental to their future. It is without doubt the best lot of animals ever put into a sale ring in the state.

Frank Gaertner wanted to see the DEMOCRAT up because of an article in last week's issue, but acted like a gentleman when it was explained to him that the item in question was based entirely upon the evidence given in court and not upon any circumstances in the fracas that may have existed, and which Mont Gaertner's friends claim did exist, making both parties to the row equally blamable.

WAYNE NEBRASKA
London Globe. The statement, made by Edgar, is to the effect that 1,000 Paris cabs are to be provided at the beginning of next month with automatic time and meter devices. It is a somewhat surprising fact that the London cabs are being equipped in London at a time when public conveyances in Paris run scarcely more smoothly than in London.

Ladies Dictator. An extremely interesting addition is about to be made to the collection of mementos of the late Queen Victoria on view at Kensington Palace. It is a somewhat surprising fact that the London cabs are being equipped in London at a time when public conveyances in Paris run scarcely more smoothly than in London.

London Globe. When one notices the enormous amount of money which has been spent on the acquisition of snuff boxes one is less surprised that the habit of snuff-taking has been abandoned than one would be. Two-thirds of the Hawkins case, composed mainly of snuff boxes, was sold for \$100,000, and of this the £1,650 paid for a Louis XIV oval gold box, inlaid with pearls and diamonds, is an example of the attractions which these objects de vertu have always exercised over purchasers of snuff.

One of the most elaborate celebrations ever witnessed in Colorado Springs to commemorate the discovery of gold in that state, was the anniversary of Zebulon Pike's first view of this famous mountain falls on November 9, 1806. At the celebration in Colorado Springs have begun to prepare for a fitting celebration.

The largest dam in the state of Colorado is being constructed for the Cascade reservoir in the San Juan country. The dam will be 1,400 feet long and the water stored will reach a depth of 100 feet. The dam will store 3,071,000 cubic feet of water, which is 100 feet less than the famous Chesapeake dam, which stores Denver's water supply.

Albert, the reigning prince of Thurn and Taxis, is to be seen in his new outfit on a critical day of his coat every day. To his critical eye a coat once worn is never again to be worn. In a year his serene highness wears 3,000 cravats.

The firm of Jenquel & Hays, of Hamburg, Germany, has devised a process for manufacturing an artificial building stone from infusorial earth, which they call "Infusolite." It is very light, is fireproof, withstands the influence of most chemicals, and can be easily sawed, nailed and bored.

The average annual production of wool in the United States has been between 85 and 135 million pounds, but for the last three years the average production has been 100 million pounds, increased from 117,000,000 in 1900 to 284,000,000 during 1903.

The Swedish government is thinking seriously of using electric traction on the railway lines. The idea was obtained from the numerous waterfalls which are found in that country. To this end parliament has been asked to vote a large grant for the transformation of the system.

Two hundred thousand head of lambs will be fed on peas in the San Luis valley, Colorado, the coming winter. An expert at \$4,000 a year, an assistant at \$2,000 and a tractor driver in charge of 200 chickens. Similar management had resulted in a loss, to date, of \$150,000.

JUSTICE HANDED OUT IN QUICK TIME

Murders of Watchman Frank Wisner at Sidney Sentenced to Penitentiary.

THEY ALL PLEAD GUILTY

Less Than a Week Has Elapsed Between the Commission of the Crime and the Sentence.

Sidney, Neb., Sept. 19.—District Judge Grimes arrived here last evening and held a special September term of the district court in the afternoon, trying a plea of murder in the second degree for the trio, Thomas McIntyre, James Sullivan, alias Miles, and Walter W. Flinn, alias Harvey, the murderers of Theodore Frank Wisner, the faithful night watchman of the city, who was shot and killed Saturday night about 7 o'clock.

County Attorney Mark Spangole read the information, after which the prisoners were asked to plead. All responded, "Guilty," with the understanding that the court would accept that plea in the second degree. Judge Grimes then asked the attorneys in the case if the plea would be agreed to, and they replied in the affirmative, and that it was for the best interests of the people the case be closed and the prisoners sentenced to the penitentiary.

Judge Grimes again admonished the prisoners about their plea, and all replied as before, and he then accepted the judgment of the court. Judge Grimes then sentenced them separately to imprisonment for the term of one year, with universal approval, and the jury is spared a heavy expense and the law has been vindicated.

Chefoo, Sept. 20.—Local students of the military situation at Port Arthur, basing their deduction upon recent developments there, are of the opinion that another great assault is either occurring at the present time or is imminent. NEW YORK IN CONTROL

Domination of Pennsylvania Railroad Shifts from Parent State to Wall Street.

New York, Sept. 20.—The statement was made positive for the first time in the history of the Pennsylvania railroad, which has a record of fifty years in Pennsylvania. HOSKINS

Mr and Mrs Geo. Kupper visited at the Oldenberg home Sunday.

Well if you don't like school out at five o'clock, agitate the question of another room and teacher. Both rooms as the deal stands now, have by half more grades and pupils than they ought to have.

R G Rohrer visited at home over Sunday. Come to the millinery store opposite the drug store for everything in ladies and children's hats and caps; baby hoods and caps, underclothes for ladies and children cheaper than you can buy in Norfolk. Silk waists, hosiery of all kinds, collars, belts; fascinators, Newport scarfs, waists and in fact everything worn by ladies and children.

One of the most pleasant social gatherings ever in Hoskins was at the home of Mr and Mrs George Colbert last Friday evening, the occasion being Mr Colbert's birthday. About forty friends were present who seemed to thoroughly enjoy themselves. Miss Elliot and Mr Crosby favored the company with some very fine piano selections, games were played and at the close of the evening all kinds of good things were served as refreshments. I am sure we all wish George's birthday would come twice a year and that we might all help him celebrate.

Mrs B E Fenner went to Blair Wednesday to visit friends.

The Rural Telephone for Hoskins and vicinity, is an assured thing we have heard none of the particulars as yet.

Mrs Candor visited in Wakefield last week.

Mr and Mrs Strickland were visitors at the city of Norfolk last week.

Mrs Oldenberg returned home Saturday and that accounts for the grin Oldenberg wears.

Mrs Charles Jones and Mrs R M Waddell returned to their home at Rembrandt last Monday.

The Horace Haron entertainment has come and gone and as a woodman ad was good. Some of the stories, at least that he told were old enough to be good.

And this is what Prof. Gibson went up against in Hoskins. Gibson to pupil: "Give a sentence with an object in it." Pupil—"John went to see Mary." Gibson—"There isn't any object in that." Pupil—"Well if there wasn't any object in it what did he go for."

Rev. Lodge visited Wayne friends this week.

Do not be imposed upon.

Ross Cunningham who has been dangerously ill at the college with stomach trouble, is getting better. His brother Loyd has been in the hospital at Devils Lake for over three weeks, very ill with typhoid fever, and first of this week Mrs. Daye Cunningham, their mother, received word of the death of her brother in Ohio.

The good crops of Wayne county will not do anyone any good unless they have health to enjoy it. Why not wear Staley underwear and enjoy good health. See The 2 Johns and find out how to keep well.

Quite a party of Carrollites went to St. Louis yesterday to take in the fair, among them being Mr. and Mrs. H. C. Bartels, Mr. and Mrs. Jas. Stanton and Aug. Loburg.

Geo. Rohrer and John Rossacker were visitors from Carroll Wednesday. John still wears his store teeth and drives a spanking team of mules, while George drinks millinery water—in Wayne. They are two pretty good old boys the DEMOCRAT is always glad to meet.

S. E. Auker's "biggest sale of cattle on record" will take place Oct. 1st. 250 head will go under the hammer and will probably be big bargains to feeders. Wayne stockmen claim cattle sell at Auker's sales at less than Omaha prices, and also less freight from there.

Business men or others wanting change of ads in the DEMOCRAT next week will have to get copy in early as the plant will be torn up to move last in the week.

F. E. Bell and wife have been in the city this week, and of course receiving the congratulations of their friends.

The Bryan meeting for Oct. 5th, will be at 3:00 o'clock in the afternoon. There will be music by a male quartet and a good time as well as an instructive one promised all who attend.

Why is Staley underwear better than other underwear? Ask someone wearing it.

If you want a snap in South Dakota lands see A. L. Howser.

Geo. Savidge came home last night from Minnesota.

There is no mystery about Mystic flour. It makes the wife happy to bake with it and fills the inner man with contentment. Phone P. L. Miller & Son for a sack.

Mary—Sponge the pimples with warm water. You need a blood tonic, would advise you to take Hollister's Rocky Mountain Tea. It drives away all eruptions. 35 cents. Tea or Tablets. Raymonds Drug Store.

Choice farming and grazing land in Cherry and Keyapaha counties, Neb., at same prices as Rosebud homesteads cost you and do not tape titles to perfect. See W. F. Assenheimer, Altona, Neb.

Dr. J. N. Warren of Sioux City came up yesterday and made a second operation for appendicitis upon Mrs. T. J. Snyder, the work of some two months ago having proven unsuccessful.

The DEMOCRAT has to turn down a lot of advertising this week owing to copy coming in too late. Business men who place the same ads in the Herald and DEMOCRAT should understand that it is impossible for this paper to wait until the Herald is printed, and get up all matter Friday mornings. Kindly make duplicates and give us an equal chance to do the work in the best style possible that unlimited time takes.

The DEMOCRAT is pleased to announce the arrival of a son and heir to Mr. and Mrs. Ed. Tucker of Pender on last Sunday the 18th. Mrs. Tucker will be better remembered by her Wayne friends as Miss Anna Broad.

There must be something in it when the 2 Johns sell more each year of Staley underwear, after selling it for 25 years.

HEALTHY MOTHERS.

Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous also to mother and child, when Dr. Rosscher's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can speedily be cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the tough racked consumptive. New trial bottles, 25c; large size, 75c. At all druggists.

Of course such items as the following were to be expected, after having 150 Methodist preachers in town a whole week, but it's too bad for Pat Dixon that he should lose a dozen of his best-blooded, big yellow-legged fowls, just the same. The theft was made last Friday night, the miscreant pulling the heads off the pullets and leaving them at the door of the coop.

Rollie James reports a funny circumstance "preachers week." A couple of most worthy looking divines who had evidently been down to the depot, stopped in front of Stodden's saloon and took a seat on the "bummers' bench," where they were holding an earnest conversation when Rollie, walking past, commenced to smile, and looking at the preachers and then at the whiskey sign the good man on the bench caught on, both chasing themselves up the street as though scared to death.

Chet Wittler is one grocer who believes it pays to advertise. Chet says: "You know that display local I put in the DEMOCRAT last Friday about grapes; well, I had just one hundred baskets Saturday morning and Saturday night they were all gone. They must have seen that local." People "see things" in the DEMOCRAT because by dad, they have got to "looking for something in it."

A young lady who's picking daisies in the fields of New Jersey was attacked by a bull and barely escaped with her life, by making a hurried exit over a wire fence. The bull that caused the trouble is of a gentle disposition, but couldn't stand for the red hose worn by the young lady. So far as I have observed, the red hose craze must be confined to the east, but how the young lady happened to be showing her's without a man in sight is a mystery.

I saw a little bird flying south yesterday and when I asked it why such hurry, it whistled: "Dad Bailey has something started in Carroll."

The dressmakers have decided that the "straight front" corset must go. The new styles will admit of more padding, and will insure a more graceful figure. The figures, in other words, will be squeezed nicer, but will not be so nice to squeeze.

Jake Dornberger is thinking of getting out an injunction restraining A. G. Powers from keeping that dutehman galloped to the roof of the

All this talk about "Teddy the Trust Buster" makes the average democrat about as tired as the statement that "the railroads are forainst Mickey." The DEMOCRAT has it from the very best "inside" authority that the democratic national campaign committee has no funds whatever, and, by dad, it looks as though not a single trust or corporation was going to "loosen up;" while on the other hand the more prominent magnates who build our presidents for us are lining up on Teddy's door mat. Indications are that President Roosevelt has calloused his knees the past month telling the trusts how he would fool the people, and don't you forget it, the trusts count 16 every time the voice of the people is heard once when it comes to making presidents.

The dressmakers' conventions have decided that a woman's gown, if she wants to be "it" this winter, must contain at least thirty yards of stuff. This makes papa's last winter's overcoat look pretty good.

The other day a young man appeared at police headquarters in Sioux City and complained of losing his pocket book in a negro bawdy house. He said he didn't care for the money he had in it, but was anxious to recover it because it contained a lock of his mother's hair. People who read of the incident would think a great deal better of that young man if he hadn't mentioned the lock of hair. The young man who frequents such places ought to leave both the memory of his mother and her hair behind him.

Implement man's warehouse. Jake says nobody has a right to put the screws to a dutchman in that manner.

It's the Style

That "Makes" the Lovely Woman

Friday and Saturday, Sept. 23-24

There will be presented to the ladies of Wayne and vicinity a most gorgeous and lovely display of woman's chief adornment, a HAT. This will be the "real thing" in the latest Parisian styles, and the best opportunity ever given the Wayne ladies to get New York styles here as soon as they have them in Chicago. Miss Boehm of St. Paul, just arrived from the far east, is designer and trimmer. Don't neglect to come and see the "new things", Friday and Saturday

Miss Temple

As nobody has called to give up their babies, in answer to the DEMOCRAT's ad, for a couple, it is possible people with kids to spare imagined the DEMOCRAT wanted them for its own use. But that's not the case, by dad, we get all the infants we can use and in the good old way. A well-off German farmer and his wife want a baby and want one badly. Bring 'em to the DEMOCRAT office for inspection.

A prominent Wayne man, whose ancestors came from the land of no mosquitoes, was on the train last Saturday with Congressman McCarthy, and incidentally remarked to the statesman that Bryan was coming to Wayne to speak. "Is that so?" said Mack, in evident alarm, "My God! what do you suppose he is coming up here for?" "Why to help get you, of course," replied the Wayneite; "Mr. McKillip also billed to appear with him, and the only thing you can do now, Mack is to get one of your speakers of national renown to follow him."

"Follow Bryan!" said Mack with a deep sigh; "why, we haven't got 'em. There's no man living can follow Bryan." William Jennings will positively speak, and speak positively, in Wayne the afternoon of Oct. 5th. Every man in this part of the country who wants to hear a man whom no national republican statesman can talk against should be here and hear him.

J. C. Rundell hits it right once in a while, anyway, if he does go wrong in politics occasionally. J. C. was having a heavy argument with a couple of preachers, the latter claiming they ought to be paid a sufficient salary so they could pay their board bills instead of "eating around on

charity," when J. C. told them there was a more important proposition than that, and it was that they should be paid wages enough so they would not need to accept bribes from the railroads—travel on half fare—and then the Lord wouldn't have to give a mortgage on their souls and prayers to the rich, arrogant and devilish corporations.

Patrick McKillip, whose handsome face is presented to DEMOCRAT readers with this paper, will be in Wayne Oct. 5th to bear Bryan and meet the people. Pat is coming right up to the front, being not only a brainy, talented gentleman, but one of the best campaigners ever put in a race for office. That he will give McCarthy a tight pull for congress is already admitted by republicans who are able to "see things."

Don't forget that W. J. Bryan will speak at Wayne Oct. 5th. Tell your friends about it and take advantage

to hear, perhaps for the last time, the greatest man in the country.

The annual advertisement of Staley underwear appears in this issue and anyone who has never worn that celebrated underwear should call on the 2 Johns and see it.

The Owen Shoe Co. has about as nice a display in their handsome store, windows as is seen in Omaha, Chicago or any other city. The DEMOCRAT likes to notice such artistic window work and the goods are par excellence.

Philco & Son are putting in a new wagon scales at their coal office. The old ones were too big and weighed too much.

There has been quite a number of deaths in Wayne county during the past five years but no one died who wore Staley underwear. Over five hundred men are wearing it, too. The 2 Johns say they are selling more than ever before.

John Kate wants to see Wayne get up a fair, another fall, having the whole shooting match on the Main street and all exhibits such as crops and stock in tents. Mr. Kate says Holdridge has had a most successful affair of the kind.

Street Commissioner Boekenhauer has Wayne's thoroughfares in pretty decent condition now, most of the crossings being of stone. It has cost a lot of money and with other improvements is going to nearly bankrupt the town, but like some other things it "had to be did."

Bill Bryan is able to score a victory over Parker, anyway. Bryan very easily made himself rich running for president, while the daily papers say Parker is already almost bankrupt and he will remove to New York and practice law after Roosevelt has been elected. Yes, it looks now as though Teddy had a sinche on it.

The DEMOCRAT is in receipt of a "boom" to the Randolph Fair Oct. 4 and 5. One thousand dollars in purses and a big showing of fancy stock are among the attractions. If an evening train could be provided for a host of Wayne people would no doubt attend. As it is visitors will have to drive or stay in Randolph over night. Perhaps Lou Holtz could take care of a couple hundred for "one night in Randolph."

Bert Smith, a young man working with Frank Cook's threshing outfit near Hartington, met death by the engine of the separator breaking through a forty foot bridge over East Bow creek, ten miles east of that place. The engine broke the entire middle span of the bridge, and Engineer Smith was caught under the engine as it fell in two feet of water, and was drowned before he could be extricated by the crew. It was over two hours before the body could be removed. Smith was a young man 28 years old and unmarried. His parents reside in the north part of Cedar county.

"Wonder whatever became of that petition to open up the street crossing over the railroad tracks a block east of Mainstreet?" asks an ex-councilman. "We got the petition signed up and all ready to make the railroad come to time, and it was passed up to the mayor where it appears to have been smothered." The DEMOCRAT knows little of the petition but suggests that the matter be attended to at once. There certainly ought to be more than one street crossing over the tracks and the road should be compelled to put it in at once. Frequently the Main street crossing is obstructed by trains, and now that a new tank is being built closer to the street it is likely to make even more delay for teamsters. The public certainly owes the railroad nothing. We get absolutely the poorest mail and passenger service in the United States considering the great volume of business done. The company is even too niggardly to put in an electric light at crossing or depot and the trains run through town at any old speed regardless of city ordinances. Let us have this street opened up this fall, go after it and get it.

COLLEGE NOTES.

The college was favored with calls from a large number of ministers during the conference.

Miss Marion Harrison came over from Mapleton, Iowa, to take a course in shorthand, typewriting and bookkeeping.

Prof Bronson of the Northwestern University gave the students a splendid talk on Thursday morning of last week.

Miss Lemmon of Thurston county, Mr Sinclair of Cedar county, Miss Yaryan of Wayne county were Monday arrivals.

A debating society was organized Wednesday evening. Questions of value and interest will be discussed weekly by the members.

The exercises of the literary societies and other evening entertainments of the college will begin at 7.30. Doors will be closed at that time.

Fred File leaves tomorrow for another year at Colby college. He has spent his vacation at outdoor work and is in a splendid condition for a year's hard study.

Mrs Prudence Surber favored the college by taking charge of the instrumental music during Mr Cunningham's sickness. The students thus lose no time with their study.

Mr Walter Barr, Misses Mead, Eaton, Tripp, Ellis Sundayed at the college. The young ladies are enjoying teaching very much. All of them were in the graduating class of last August.

Mr Jesse Griffith who attended college a number of terms and taught one year in this county was one of the preachers who conducted chapel exercises last week. He is a fine young man and will preach at Chambers next year.

We were pleased to hear Ed King address the students Friday morning. He spent three years here as a student and completed the Scientific course in 1895. His address was thoughtful and full of inspiration. Every student enjoyed it very much.

The majority of the students attended the union meeting of the Christian Association Sunday at 3 o'clock. Rev Main of Omaha delivered a splendid address which received the closest attention. The regular meetings of the Y W C A will be at 3 p m, and the Y M C A at 4.

County Superintendent Richardson of Ne-high, Prof Oden of Wausa, Mr and Mrs Tren-hede of Bloomfield, Mr Turner of Lincoln, were among last week's visitors. They found both teachers and students busy. All commended the class work as well as the good conduct of the student body.

The office is kept busy since the organization of the classes in sending out advertising matter. Many former students are sending in requests for catalogues for friends and many strangers are calling for information about the school. A new catalogue is in preparation and will be sent out after the holidays.

The new catalogue will contain several changes from the general plan of the past, both as to various courses of study, length of terms, vacations and other matters that will better adapt the work to the accommodations of the building and general administration of the college to meet future outlook.

THREE JURORS CURED.

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy

Mr. G. W. Fowler of Hightower, Ala. relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says "While there I ate some fresh meat, and some cold meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy in stead, saying he had what I sent for but that this medicine was so much better he would rather send it to me in the box I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us."

That Offensive Breath!

Does not always come from a weak stomach or "cold feet." Quite often it is rotten, decayed and bad teeth. Poor teeth covered with an iniquitous substance often leads to consumption and death, as well as making your friends "turn away in sorrow." Call and let me examine your molars, fill them up, put in new ones, or even give them a perfect cleaning. All my work is guaranteed and satisfactory service rendered or your money refunded.

Courage is a Matter of the Blood.

Without good red blood a man has a weak heart and poor nerves. Anemia means thinness of blood. It is common in men and young women and all those who work indoors, who do not get enough outdoor air and good oxygen in their lungs. There are too many white blood corpuscles in such cases, and there is often a peculiar sound in the heart, called a murmur, in cases of anemia. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its natural consistency and richness. To enrich the blood and sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for which its victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many bad coughs are dependent upon these reflex disturbances of what is called the pneumogastric nerve. To enrich the blood and increase the red blood corpuscles thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery, which promotes digestion and assimilation of food so that the blood gets its proper supply of nourishment from the stomach. Get as near to nature's way as you can. A medicine made entirely of botanical extracts which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains no alcohol or narcotics. Dr. Pierce's Pleasant Pellets are the best liver pills.

Editor Hubbard of the Pender Republic, who maintains that "Governor Mickey is against the railroads," says he will not vote for Mickey if this DEMOCRAT will prove to the Republic's satisfaction that our chief executive is a creation and tool of the railroads. The DEMOCRAT may attempt some difficult stunts but it isn't going to bump into a stone wall in broad daylight. The only way to make the Republic "acknowledge" that the railroads and their anti dancing old hypocrite nestle in the same bunch of straw is to offer the Republic's editor a postoffice—or thirty cents—if he will tell the truth.

Eighty-two of the 250 persons entitled by the terms of the recent drawing at Devils Lake to file on Fort Totten reservation lands during the five days week before last took advantage of the opportunity. It begins to look as though Uncle Sam will scarcely get his money back on his lottery schemes.

Perhaps Kurosatkin also would like to resign, but he can't dictate a letter of resignation while on the run.

John Alexander Dowie now claims to be an apostle—and not a prophet: The old grafter will be looking after the profits just the same.

A St. Louis negro has wagered his life on the election. If Roosevelt loses he will jump off the Eads bridge. Well, that may save him from being lynched.

The Taps evidently have some intention of getting their wood all saved before winter sets in in real earnest.

At least one New Hampshire man has come to his senses. He is ex-Senator Wm. E. Chandler, and he says the new license laws of Vermont and his own state operate more satisfactorily than prohibition did in later years, and that no serious effort to change back will be made by the old time advocates of the former law. Ex-Senator Chandler has been a bitter and out-spoken foe to the saloon, and his speech is regarded as very significant.

The republicans scarcely know whether to "laugh" or feel serious over the result in Maine.

Wayne County.

Republican extravagance and mismanagement raised appropriations so high that Wayne county was called upon to pay state taxes for 1903-1904 as follows:	
1904 state taxes charged Wayne county.	\$23,370.00
1903 state taxes-charged Wayne county.	\$15,946.71
Increase.	\$7,423.29

The iniquitous revenue law, conceived by the railroads and nurtured by the republicans places this increase of taxes on Wayne county as follows:

Railroad tax increase.	\$ 195.90
All other property tax increase.	\$127.45
Total.	\$323.35

This proportionately shows an increase of 9 1/2 per cent on railroad property, 3 1/2 per cent on all other property.

Now, let everybody work for republican victory and the restoration of Mickeyism and Dietrichism.—World-Herald.

The republican papers who care enough about Mickey to say anything about him at all, are charging that the opposition to him is based on his religion. This is not true. It is because of the display of it for votes that objection is made to Mickey, and because it is well known that this man Mickey is an internal hypocrite. He is "Uriah Heep" without the latter's modesty and it is the church vote that he should by all means lose, for no man in the state has ever injured religion as much as has Mickey by trying to bring it into politics to make votes for him. Every vote for Mickey is a premium given for hypocrisy and cant, for no man has true religion who will use it the way Mickey does.—Winside Tribune.

Burning Words From Berge.

Influence is the real power in all governments. Where the influence is there is the real seat of government.

We used to say the pass was a bribe. A pass is a bribe. If it does not accomplish its purpose it simply miscarries.

You will never regulate freight rates, you will never solve the taxation question, so long as the free transportation system remains.

If I am elected I will take the executive chair unpledged and free. I will not be under any obligation to any interest, neither will I allow myself to be put into an attitude of hostility to any interest. I believe the people want the public affairs of this state administered without dictation from any influence and without prejudice against any legitimate interest. I would rather be defeated than to be the mere tool or creature of any of the forces that contend against each other in Nebraska politics.

I believe that it is possible for an executive to be fair to the corporations and yet be faithful to the people.

To the people of the state I send the note of warning. If you do not soon drive these usurpers from the throne of our state government, the time will come when you will be helpless and cannot do it.

It is through the professional lobby that the voice of the people has been silenced in our legislature. I say that the professional lobbyist, whose business it is to thwart the wishes of the people and defeat wholesome legislation in that way, should be branded as a criminal and punished as such. He is an enemy to popular government.

Let me ask the rank and file of the republican voters of this state if it is not true that the control of your party has long ago passed out of your hands? Are you no longer able to say who shall represent you in the legislature? Are you no longer able to help name the men who shall sit in your executive offices in the state house? Do you help bring out these candidates? Do you have your hands on the machinery of your party? Is your voice heard and your influence felt in your conventions?

Partisanship is more often the design of those who lead than it is the principal of those who follow.

When the appropriations are practically doubled it is no wonder that our taxes are practically doubled.

It is not a question with us in this campaign whether the Filipino shall have independence. It is a question whether we ourselves, right here in Nebraska, shall have the right to govern ourselves. It is not

A Story from Denhoff.

Denhoff (N. Dak.) Voice: Early last Thursday morning as the sun-kissed dew was reflecting ten thousand shimmering gems as the meadow lark, gay herald of Dawn, sang his opening rhapsody to the breaking day, and Dick Chapin was scrubbing his sleep refreshed skin in a soap bowl, Carl Moser met his brother August on the Chapin ranch and welcomed him until August's sweet innocent face resembled a Chinese puzzle done in colors.

August, who has his horses and things, tied the horses up the evening before—they escaped, hid themselves to Carl's premises and soon filled up on flax at a dollar and ten per cent. Carl's righteous indignation arose when he beheld the trespassing animals and promptly caught them, meaning to collect tribute from his brother. But August, old horse, appeared at this time and the brothers strove one with the other for mastery. About this time Carl's wife bought a sack of white chips and sat in the game. She used a bridle very effectively—applying it with force and accuracy to the top of August's head. 'Twas now that A. Wayne Chapin and Wm. I. Lowry rushed fearlessly into the thicket of the mead and promptly quelled the controversy.

After August had soaked the blood from his topknot and quieted his madly beating heart, he swore out a warrant against Carl, charging him with assault and battery. The warrant was placed in the hands of Deputies Dan Jones and Haunts Mintz. These deputized Jim Rafferty, because of his extensive knowledge of German diplomacy, and Tom Gallickson, who was neck deep in blood and covered with glory at the battle of Wounded Knee. The brave party started from town amidst the walls and tears of their assembled fellow citizens, waving fond farewells with tear soaked handkerchiefs to their dear wives and lissom sweethearts left behind to watch and weep and bear bravely the agonizing suspense.

Arriving at Moser's mud castle, a council of war was held and after Thomas had reconnoitered the layout, it was decided that he should make a feint of attacking in front while Dan Haunts and German Jim would

make a decisive rush on the rear. The ruse was successful. Mrs. Moser appeared at the front and promptly gave battle to our Tom—she was repulsed with considerable damage; at her second rush she became his prisoner of war. In the meantime the conflict raged fiercely at the rear, and the cries of the wounded filled the ambient atmosphere. Haunts forced the outer battlements and with the united help of his handful of hardy allies, broke down the inner barricades. Here a fierce struggle ensued during which Carl came mightily near making an angle out of Dan Jones. After they were secured the besiegers congratulated each other and came triumphantly into town while the band played "Hail, the conquering heroes," in jubilation.

Carl was tried before Justice King and fined \$10 and costs or ten days in the county jail. He refused to pay the fine and was taken to Washburn, but about 30 minutes in Sheriff Grady's cage was enough for Carl, so he paid his fine and trimmings—\$31.20. Selah!

A Cold Settled in His Kidneys. A. J. Jenness, 9201 Butler St., Chicago, writes: "I am a switchman and am out in all kinds of weather. I took a cold which settled in my kidneys and I was in bad shape. I tried several advertised remedies with no benefit, until I was recommended to try Foley's Kidney Cure. Two-thirds of a bottle cured me." For sale by The Wayne Drug Co.

Am I Right?

For fifteen years I have catered to the public, a dispenser of the best wines, whiskies, brandies and beers that can be bought in the markets. Have tried to please every patron, and respected every man who has been too good for the saloon but has gotten his liquors elsewhere. Now we have put up every tribute exacted—and they have been excessive—by town and state, and feel like asking the people who use intoxicants to patronize the place that deserve your trade so long as we give you only the best goods at the lowest prices. Ten or fifteen per cent of every dollar you spend at my place goes to educate your children and to pay for public improvements. From a moral standpoint this may seem like a peculiar condition of affairs, but it is what the people voted for—don't blame the saloon-keeper for it. Well, this is a long speech for me to make, so come in and take something—on a tin roof.

Continual Strain. Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule get rid of this "continual strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists.
