COLE'S HOT BLAST

WILL SAVE YOU \$25 IN FUEL THIS WINTER

Cole's Hot Blast burns all kinds of fuel without changing the stove in any way. The smokeless feed door and perfect construction gets ideal results from soft coal. In fact, every advantage that hard coal has, such as cleanliness, keeping fire, etc., are yours with soft coal and COLE'S HOT BLAST. Perfect control of the draft makes it the best stove for wood or coals. In the lignite coal districts COLE'S HOT BLAST is also without an equal.

Get The Original Cole's Hot Blast

because every fine point, such as the smokeless feed door, absolutely air-tight construction, draft arrangement, base-heating plan and the like, is protected by patent and is found on no other stove.

GUARANTEE.

We guarantee every stove to remain absolutely air-tight as long as used.

We guarantee a uniform heat day and night, with soft coal, slack, siftings or hard coal.

We guarantee that the rooms can be heated from one to two hours each morning with the soft coal put in the stove the evening before.

We guarantee the feed door to be smoke-proof, and that the stove will hold fire with soft coal thirty-six hours without attention.

We guarantee a saving of one-third in fuel over any lower draft stove of the same size.

The above guarantee is made with the understanding that the stove be operated according to directions and set up with a good fire.

Don't overlook the DEMOCRAT for the biggest and best sale bills for the least money.

Mr. and Mrs. Herman Mildner took their boy Fritzie to Sioux City Tuesday to have an operation performed on the latter's wrist which was broken a few weeks ago and was not mending properly.

F. F. Wheeler was up from Sioux City over Sunday and Monday visiting the Chace and Democracy families.

Mr. Wheeler and family expect to leave for South Africa about Dec. 1st. Mrs. Wheeler is still in the hospital at Sioux City recovering from an operation.

Subscribers to the DEMOCRAT should bear in mind that the subscription price is \$1.00 per year only when paid in advance. We have a few accounts on our books now that will be given a collector Dec. 1st, and \$1.50 per year will be claimed on them IN EVERY INSTANCE.

Republicans should not neglect the opportunity offered to elect a competent man to the office of county attorney. Politics should cut no more figure in the legal matters the county be concerned in than in school affairs. The candidacy of Mr. Berry is receiving hearty support irrespective of party lines, and it certainly tends to promote a feeling of unity among the people which will insure getting the best men in office hereafter no matter to which political organization they may belong. Don't forget to make it x for Frank A. Berry.

Hirsch in Hock Again

Harry Hirsch, the irrepressible, constant, considerate and continual donor to the police records and funds is again looking out between the bars. While Harry is a pretty good sort of a fellow in many ways, always ready to give a meal or money to a poor devil, he can't keep from mixing things with a better half, especially when there is a little red liquor in him. Last Friday afternoon as the DEMOCRAT understands the difficulty is and Mrs. Hirsch started to drive to Wislida. Just west of town they got to scrapping and after the fight was over Harry hustled to Wakefield on a freight while a couple of traveling men helped Mrs. Hirsch to town. Friday night Sheriff Meers telephoned to Wakefield, hoping that Hirsch had gotten out of the country by that time, but the marshal found him there and locked him up. Sheriff Meers going after him Saturday morning. The Beach & Bowers minstrels on the train say the restaurant man put up a scrap, but the sheriff pulled his billy and threatened to batter his head off. Hirsch then contended him self by accusing the sheriff of divers things, making considerable fun for the passengers. Saturday afternoon he was arraigned before Judge Hunter, charged with assault to commit murder or kill and waiving examination was bound over to district court. It is said he struck his wife and also had a knife that he used but which was not open, so we are told, injuring the lady considerably.

Heckert, dentist, over P. L. Miller

Wayne appears to have been more successful than other places in getting up political rallies even if they did not have a fraction of the fervor of previous years. At Norfolk last week when Dr. Williams and Burket spoke there was a dearth of voters, women or children. Mr. Burket roasted the community for not providing an appreciative audience.

Special Combination Offer—Worlds Work and Country Life in America for \$4.50 for one year. Leave orders at Jones Bookstore.

After all the Wayne boys didn't fare so badly. At Pender nine were arrested and fined one cent each and costs. At Norfolk ten boys were pulled and paid \$7.10 each. A "mad" resident of Norfolk writes the local paper saying: "I would like to say a few words through your paper to the grown up boys and girls that tore up the sidewalk for three widow women on South Twelfth street Monday night. Girls allowed to go tomboying around the streets with that class of boys, ought to be in the reform school. They are as bad as the boys, singing and yelling to drown the noise of the boys. Do parents expect their children to develop into ladies and gentlemen out of a set of lawless hoodlums? It is high time our city should pass an ordinance prohibiting any sport on Halloween, supported by severe punishment." The proper way to get at this matter is to notify the young folks that such irreputable deportment will be punished by a jail sentence. That would take the "funny" features all out of their idiotic pranks.

Harry Hirsch May Die.

Sheriff Meers informs the DEMOCRAT that he has had a most unenviable lot of trouble with Harry Hirsch, who went to board with him a week ago today for attacking his wife. Hirsch has had not only "snakes" but a complete collapse of his whole system. The county physician was unable to help him, and Tuesday night the sheriff called in Dr. Blair who injected some dope into the poor devil's body. Sheriff Meers has had the prisoner strapped to a bunk it being feared he would kill himself in a mad frenzy to avoid the imaginary devils after him. Sometimes he prays for help, then yells murder, gnashes his teeth and is a terror. Sheriff Meers doubts if the fellow will ever recover his proper or rather ordinary sensus again.

Mrs. Mary E. Meserve, of Salisbury, Mass., was cured of Anemia, a disease in which there is an actual deficiency of the blood, by the use of Dr. Williams' Pink Pills for Pale People

She says: "The first symptom was an unusual paleness. Later the blood seemed to have all left my body. I had shortness of breath and chattering of the teeth. I was depressed, morose and nervous. I suffered for two years. Physicians did me little good but I am now a well woman because I took twelve boxes of Dr. Williams' Pink Pills."

These pills really make new blood and have cured obstinate cases of rheumatism, scrofula and erysipelas. They are especially useful to growing girls.

The Czars' Concessions to the Jews.

Chicago Record-Herald. A few weeks ago an imperial yoke was begun in Russia professing to give material concessions to the Jews by modifying the restrictions as to residence under which the race is compelled to live. The provisions of the ukase were many and complicated, and it was difficult at first sight to tell what their exact effect would be. It now appears, however, that the more they are studied the less important they prove to be.

Cured Her Rheumatism.

Deep Valley, Pa., Oct. 31. (Special.)—There is deep interest in Green county over the cure of the little daughter of J. N. Whippley of Rheumatism. She was a great sufferer for five or six years and nothing seemed to do her any good till she tried Dodd's Kidney Pills. She began to improve almost at once and now she is cured and can run and play as other children do.

The Mothers of the Tenements.

Myra Kelly in "A Passport to Paradise" in November McClure's. "Well, then," began Miss Bullock, the teacher, struggling to maintain her just resentment, "you may tell your mother now that I want to see her. Ask her to come to the school tomorrow morning."

"Teacher, she couldn't. She ain't got time. Uhd she don't know where is the school, neither."

"That's nonsense. You live only two blocks away. She sees it every time she passes the corner."

"She don't ever pass no corner. She don't never come on the street. My mamma ain't got time. She sews."

"But she can't sew always. She goes out doesn't she, to do shopping and to see her friends?"

"She ain't got friends. She ain't got time. She should have 'em. She sews all times. Sooner I lays me und the babies on the bed py night my mamma sews. Und sooner I stands up in mornings my mamma sews. All, all, all times, she sews."

"And where is your father? Doesn't he help?"

"Teacher, he's on the country. He is peddler round. He walk and walk and he walk into all things what is stylish in a box. On'y nobody wants they should buy things from of my papa. No mamma, Miss Bullock, that ain't how it makes my poor papa. They goes und makes dogs should bite him on the legs. That's how he gets in a letter what he writes on my mamma. (Comes so money in the letter) und me und my mamma we got it pretty hard. We eat three babies."

Thirty Dead Bills.

Rural Free Delivery News. During the session of congress last winter some thirty bills were introduced in the senate. Representatives interested to improve the prevailing condition of rural carriers. These bills were introduced in the senate and provided for an increase in pay, and many of them for fifteen days' vacation annually, with pay.

Following the usual course in such cases, these bills, as fast as introduced, were referred to the committee on postoffices and postroads.

Joe Overstreet was chairman of this committee.

Not one of the thirty or more rural carrier bills ever came out of the committee. They are still there—and very still.

The Letter of Miss Merkle, whose picture is printed above, proves beyond question that thousands of cases of inflammation of the ovaries and womb are annually cured by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gradual loss of strength and nerve force told me something was radically wrong with me. I had severe shooting pains through the pelvic organs, cramps and extreme irritation compelled me to seek medical advice. The doctor prescribed a course of medicine and operation, and advised an operation. I strongly objected to this and decided to try Lydia E. Pinkham's Vegetable Compound. I soon began to feel better. My judgment was correct, and that all the good things said about this medicine were true, and day by day I felt less pain and increased appetite. The various aches and pains and the other complications disappeared, and in eleven weeks I was once more strong and vigorous and perfectly well. My heartiest thanks are due to you for the great good you have done me. Sincerely yours, MISS MARGARET MERKLE, 278 Third St., Milwaukee, Wis.—\$2000 forfeit if original of above letter proves genuine nature cannot be produced."

Mr. Moody's Answer to a Question. "Was Mr. Moody's answer to a question in 1876 he was conducting a 'question meeting' one day, about 5,000 being present. One question was 'Are there any gods but the one?' Mr. Moody pondered for a moment, then said: 'No, but I can give you one in favor of it.' The audience was breathless, and he continued: 'He that is filthy, let him be filthy still.' (Rev. 22:11)."

WANT TO LIVE TO BE 100? If So You Would Do Well to Go to Arizona or New Mexico.

New York Sun: The pitiless logic of percentages, as reported to vital statistics, is a most interesting and instructive fact in the census reports—the longevity of residents of the few remaining territories of the country.

There are 100,000 persons in the population taking the whole country through, there is just one which reaches or exceeds the age of one hundred years in the census computers prospectively express it, "99-99 before that time." One in 100,000 is the average age of the population in the United States, and in Arizona, it is 10—ten times as high as in the rest of the country and in New Mexico it is 20—twenty times as high as in other portions of the United States. Some states—Arkansas, Minnesota, Iowa, and Nebraska—have no centenarians. Some states—Florida, California, New Hampshire, South Carolina, and Vermont—have a high rate of centenarians—three times as large as the average in the other states, but not more than the figures of Arizona and New Mexico.

There are few centenarians in New England, but the number of persons over one hundred years of age in any other section of the United States, and in any other part of the world, are most noted on account of their great number of old inhabitants are in the state of Maine. Massachusetts has a considerable number, but the people of Massachusetts are generally of a more progressive character than those of any other state in the Union. Vermont and Maine, and urban life is not generally conducive to longevity.

The large number of centenarians in the territories is to be ascribed probably to favorable climatic conditions, for both Arizona and New Mexico enjoy a celebrity as beneficial in pulmonary ailments. The question of territorial organization has probably nothing to do with it.

The capital invested in the mineral water industry in Great Britain is nearly £15,000,000.

BY PROXY. What the Baby Needed. I suffered from nervousness and headache until one day about a year ago it suddenly occurred to me what a great coffee drinker I was and I thought that this might have something to do with my trouble, so I shifted to tea for a while, but was not better, if any thing worse.

"At that time I had a baby four months old that had to feed on the bottle, until an old lady friend told me to try Postum Food Coffee. Three months ago I commenced using Postum and my baby's headaches and nervous troubles entirely disappeared, but since then I have been giving plenty of nurse for my baby and have a large, healthy child now."

"I have no desire to drink anything but Postum and know it has benefited my children, and I hope all who have children will try Postum and find out for themselves what a really wonderful food drink it is." Name given by Postum Co., Battle Creek, Mich.

Both tea and coffee contain quantities of a poisonous drug called Caffeine that directly affects the heart, kidneys, stomach and nerves. Postum is made from cereals only, scientifically blended to get the coffee flavor. Ten days' trial of Postum in place of tea will show you how much more worth your money than a gold mine. There's a reason.

God in the Inauguration.

God has been invoked in every presidential inaugural address since one. In some instances the invocation has been made in the beginning of the address, and in nearly all divine guidance has been invoked in the last words.

President Harrison's invocation invoked "the guidance of Almighty God." In fact, the first paragraph of his inaugural is sufficiently reverential to satisfy the most exacting. The inaugural closes with a petition to "Lord Most High," an appellation which no former president used on a similar occasion.

John Adams acknowledged an "overruling providence" in the beginning of his inaugural, and at the close of the address references were made to the "Being Supreme Over All," "Patron of Order," "Fountain of Justice" and "Protector of the Liberties of the People."

Thomas Jefferson called upon "That Infinite Power" in the last section of his inaugural, and supplicated "That Being" in his second address. The second address he addressed the words "Creator," referring to God, and there was part of a paragraph touching on Christian religion.

James Madison acknowledged the "Almighty Being" in the last paragraph of his first inaugural, and the "Smiths of Heaven" in the first paragraph of his second.

James Monroe, in the beginning of his inaugural, acknowledged that the "Almighty" had been graciously pleased, etc., and in the close of his second inaugural he spoke of the "Supreme Author" and "Infinite Power."

John Quincy Adams referred to being in the "presence of heaven" in the opening of his inaugural, and in the close he quoted the text, "If the Lord keepeth the city the watchman waketh in vain."

Andrew Jackson in his first address invoked "That Power," and in closing asked "His divine grace, and benediction upon the people of the United States, a most fervent prayer to that Almighty Being."

Martin Van Buren, in the first of his inaugural, "hoped for the sustaining aid of the Almighty God, the Father of the power," and in closing he "looked to that divine Being."

William Henry Harrison's inaugural was the most voluminous yet delivered. He invoked the "Almighty God" in 800 words. The "Beneficent Creator" was mentioned once, and "That Good Being" twice.

John Tyler, who succeeded Harrison a few weeks later, printed his inaugural in the newspapers. He "looked to an all-wise and powerful being who made me," and "trusted in the ever-watchful and ever-loving presence of the Almighty Ruler of the Universe," and supplicated "the Divine Being."

Zachary Taylor, in the last words of his inaugural, invoked "Divine Providence."

Milard Fillmore, who succeeded him, in his inaugural, spoke in a brief address: "Him who holds us in his hands."

James K. Polk invoked the "Almighty Ruler of the Universe," and supplicated "the Divine Being."

Abraham Lincoln invoked the "Almighty God" in his inaugural, and in his first inaugural, invoked "Divine Providence."

James Buchanan asked for the aid of "the God of our forefathers" twice in the course of his inaugural.

Abraham Lincoln acknowledged a "firm reliance on him" in his first inaugural. This is the only reference to a supreme being in that address.

Andrew Johnson mentioned God once in his short inaugural, but not by way of invocation.

Grant mentioned "Providence" and "Almighty God" once in his first, and the "Great Maker" in his second inaugural, but not in supplication.

Mr. Hayes asked the "guidance of the Almighty" once in his inaugural. They are the last words.

Garfield mentioned "Almighty God" once in his inaugural. They are the last words.

Arthur, in succeeding President Garfield, asked in his brief address for "aid and divine guidance."

Cleveland, in his first inaugural, acknowledged the "power and goodness of Almighty God" in his inaugural.

Franklin D. Roosevelt "reverently" invoked "Almighty God for strength." There was no invocation in the closing, but the word God is used once in the address.

Cleveland, in his second inaugural, invoked a "Divine Ruler."

No Danger in Grape Seeds. New York Journal. There is popular and false notion that appendicitis is caused by grape seed, an orange seed or some other foreign substance getting into the vermiform appendix. The cause of the disease is inflammation and consequent gangrene in the tissue of the appendix, usually due to insufficient evacuation of the part.

There is no danger in grape seeds. They have taken place—many in time to save the life of the patient, and many too late.

There is not an authenticated case for several years past of the vermiform appendix. This will be more fully realized when one has in mind that the interior of the appendix is only six eighths of an inch in length, and is a mere pouch of the large intestine.

It is a fact that the vermiform appendix is a vestige of the original function. This homology of the vermiform appendix with the vermiform appendix of the monkey is a fact which is a strong argument in its favor, and possessing but a vestige of its original function.

Gentlemen:—"I can cheerfully state that Mrs. Schley has taken Peruna and I believe with good effect."
—W. S. SCHLEY.

Battle of Santiago, Where Admiral Schley Made History.
ONE of the greatest naval battles in the world was the Battle of Santiago. Never since the dispersion of the Spanish Armada has there been a more decisive and more important event of the kind. It was a great naval battle. Without a moment's hesitation, he said: "I can cheerfully state that Mrs. Schley has taken Peruna and I believe with good effect." Like the Battle of Santiago, the thought was sprung upon him without any warning, and he disposed of it with the same firmness and decision as he did with the Spanish fleet led by the ill-fated Vice-roy. His words concerning Peruna have gone out into the world to be repeated by a thousand tongues, because he has said them. Like the news of his victory over Cervantes, his words will be repeated by a thousand tongues, because he has said them. Except for an labor many independence, in a country of free speech these words never would have been uttered by an officer in such a notable position as that of Admiral Schley. Except for a world-wide notoriety and popularity, such as Peruna enjoys, no remedy could ever have received such outspoken public endorsement by such a man.

WHY HAVE Union Meetings

For two weeks Rev. Lyon has held union meetings in Wayne. It may seem strange to some that the churches of Wayne find it necessary to unite and employ an expert to hold revival meetings. Wayne ministers are good christian gentlemen and we think they are above the average in education and ability to preach the gospel. In this enlightened age it is found necessary to train men for special work in order to get the best results. We also find it necessary to unite, to combine, or, if you please, form a trust to succeed in business. Why not combine to lick the devil? Don't forget that you must have an expert at the head of any combination you undertake. Right here is where we come in. We are experts and have been trained especially for the clothing business. We have had nearly thirty years' experience as the head of a combined clothing store. Everyone here is united to make this store a great success. We have the largest crowd and the most goods, and like salvation, it is free—to look at. Come and look and we will do you good. Our prices are always pleasing and we offer the best clothing made for men and boys. When we are through with you you will look so well that you will be glad to attend the union meetings. We will do you no harm and Staley underwear will keep you warm. Rev. Lyon can't convert a man that is cold. We will have no trouble to convert you to buy clothing of us if you will give us a chance. You are invited to this store and you are invited to the union meetings. Attend both and you will be happy, and so will we.

An Iowa man was in Omaha with a carload of hogs, remarked that he would like to bet the whole bunch on Mickey. The bet was covered before the Iowa could draw a second breath, something over \$500 worth. The man from Iowa has got something to learn—Nov. 8th.

If I was so unfortunate as to have a son seventeen years old, who, charged with a misdemeanor and pleading guilty, should come into court with an idiotic grin on his face, his hat on his head and his feet cocked up on a chair; I'd either buy a bunch of shingles and put them where they would melt the tar, or engage quarters for the lad in the reform school. But it's always the way with these godly men of little brains and an idea that they are on earth to reform other people. And a boy is not to be blamed for the quality of the block he was heaved from.

One of the best jokes of the season is on a Wayne man who let his young wife go to revival meeting with a neighbor and then went to bed himself to wake up at 11:30 o'clock to find his wife not yet at home. Madder than a wet hen he chased down town and found that his better-half had gone to lodge with her mother instead of coming home from church. The gentleman is said to have made all the lodges look like 30 cents until the "old lady" waked in the fray and the so-in-law was subdued and reconciled to his fate.

A big display heading on first page in this morning's World Herald states that a big draft was sent C. B. Roy Caswell in Denison Bulletin: They tell me that one of the Denison boys made a great speech out at a school house the other night. He said: "Gentlemen, you farmers, don't you know that good crops and prosperity never come under democratic times? Here we have corn going twenty bushels per acre and potatoes over a thousand bushels. Your wheat is worth more than a dollar a bushel today, and corn fifty cents and potatoes—well, I don't recollect just what potatoes are now, but they were nearly two dollars a bushel last winter, and that was republican times, too." Just then a young farmer shouted: "They are twenty cents now!" Well, I know, maybe they are, but—well, this is a democratic county and that is the reason." And the applause was great.

A "Slam" at Anson

Winside Tribune: There seems to be no doubt but that Harry Siman will be elected county attorney again, and this is as it should be. He has made as good an official as the county has ever had and there is no reason for turning him down.

Charge up your excessive taxes to the wrongful acts of your county and municipal boards, they are the parties responsible for the great increase in taxes wherever it has occurred. A higher assessed valuation should not and does not increase taxes. It is the making of excessive levies that increases taxes. Your county and municipal boards are the sole parties chargeable with the higher taxes and they are the parties to hold to the strict account for the manner in which they burden you unnecessarily.—Herald.

The Wayne county board, which by the way has a republican majority, reduced the levy from 16 to 9 mills. The finances of this county have been carefully looked after and no county in the state has the obnoxious features of the new revenue law been tided over as well as here in Wayne. If conditions are bad here, just remember they are proportionately much worse in other counties where the state board practically took charge of and dominated the local authorities in the matter of assessments.

People who have followed the course of the Omaha Bee on the matter of railroad taxation will not be deceived by the specious plea in this week's Wayne Herald. In 1903 the roads of the state were taxed at 27 millions, and Rosewater swore by all that was good and holy that it ought to have been 50 millions. This year with a tax of 46 millions, Rosewater and his Bee proved that it ought to have been 90 millions. But supposing the Bee did not know what it was talking about; here in Wayne county state taxes are increased \$8,000.00, while the railroads pay nearly the same as in 1903. The art of juggling the figures to show that the total in railroad taxes presents a greater increase than the total in state taxes comes from a decrease in the valuation of many worthless western counties. The plea that the Mickey administration has spent half a million in permanent improvements as cause for high taxes, is not borne out by the records, for there is a deficit now of about half a million, while two-thirds of the permanent improvements Mickey brags about, has not yet been paid for. To cover this immense debt the state administration is piling up on us, Wayne county will have to dig up at least \$5,000 more in 1905 than in 1904. Don't take the DEMOCRAT's word for this, nor put confidence in a newspaper that believes nobody but a republican should be elected to office just because the republicans are in the majority. Pay up your taxes and look up the records. That brings out the real facts.

The Wayne Herald assumes that it is very foolish to elect a democrat—F. A. Berry—to office by a republican county, virtually an admission that Mr. Berry otherwise is the man for the place. How many of you voters would go to Winside to hire Harry Siman to take charge of a law suit because, although a "mighty" poor lawyer, Mr. Siman was an "awful" good republican? If the celebrated case of Seneca vs Wayne county had been instituted during Mr. Siman's incumbency don't you suppose it would have been absolutely necessary for the county to engage other legal talent to present its end of the case, as was done? Speaking about campaign cards, what do the friends of Mr. Siman mean by reporting that he will, if re-elected, sell his house and lot at Winside and move to Wayne, when he does not own any?

It appears, by the republican press, that this revenue law is a good thing, they are dead-certain on that proposition, but for fear some of you farmers have discovered that it isn't a good thing, then it's the fault of your assessor.

This thing of rubbing it into Jake Ziegler for getting the assessment too high, as being the reason the new revenue law is so oppressive, is mighty thin air. Mr. Ziegler got his orders from republican authority at Lincoln, and in other counties where these instructions were not followed out, the state board raised the assessment. Every farmer who is interested in what taxes they pay should help get the voters out next Tuesday. It will pay big returns to every owner of 160 of land to shook corn for the hired man while the latter takes time to vote for Matheson and Klopffing.

Patrick E. McKillip is reported to have wiped J. J. McCarthy off the map down at Pender Wednesday night in a joint debate.

If Jake Ziegler wasn't right on his land valuations, what was the matter with the higher court—a republican board of county commissioners? If the higher court was not a good thing, what was the matter with your supreme court—a republican state board of equalization—that it did not call the district court to account? But, gentlemen! if this revenue law is just and equitable method of taxation why damn the assessor for it because he happens to be a democrat?

John C. Sprecher says a democrat who works for the interests of his party is simply full of gas. "In the past few years John has been everything politically, which makes a damphool of any man. He got the office both and his political principles so badly mixed up that he can't really tell whether he is a populist, democrat, republican, prohibitionist or just a mongrel jackass without any party."

All reports the DEMOCRAT has been able to get from Pilger is to the effect that J. G. Matheson is one of the best business men of that section, honest, honorable and a man of large capabilities. The Wayne county resident, who votes for Dr. Williams for state senator, as against Mr. Matheson, on the theory that a home candidate should get his vote, is making a big mistake. The doctor stands squared for a continuation of railroad domination, republican extravagance (he wouldn't know whether it was extravagance or republican prosperity) and higher taxes. Mr. Matheson is pledged and bound to help repeal the present revenue law; oust the railroad barnacles at the state house, demand an anti-pass law, and labor for legislation that is just and equitable between the people and corporations, cutting out all grafts and grafters. If you haven't looked up the tax question yet, do so. Wayne county is one of the most favored counties under the new law. If you are robbed fifteen or twenty dollars on a quarter of land here, just remember that conditions elsewhere are invariably worse. Dr. Williams says this revenue law needs a little "fixing," is all, and when another republican legislature gets it "fixed" sufficiently it will not be necessary to do any hollering about it—you fellows who are plugging for Mickey and his gang, who have doubled the taxes of the state and also doubled the state's indebtedness, will do all the howling.

The Herald this week prints several columns of figures, etc., to show that the new revenue law is a wholesome and good piece of legislation, and then on another page lays all the blame for an "82 per cent raise in our state taxes" as all due to a democratic assessor. How about this conundrum, Mr. Voter? Isn't the Herald handing you a "gold brick"?

Do you believe that Dr. Williams is dishonest or that he can be induced to lend his influence or vote for anything but your best interest if he should be elected to the state senate?—Herald. Do you believe F. M. Gregg was dishonest when he voted for a law that makes landlords pay rent for their farms? Not much. It simply was because he was in bad company and simply had to "fall in line" with Mickey—or become a political outcast. Vote for Matheson.

The assessor of Wayne county for 1904 was a democrat and it makes the county 31 per cent heavier in state tax than she ought to pay.—Herald.

And Wayne county suffered the least of any of them because of the railroad revenue law.

Vote for Matheson and Klopffing if you want your taxes lowered. Messrs Williams and McLeod claim they are not too high now.

C. H. Matheson, son of J. G. Matheson our candidate for state senator, was in Wayne Wednesday distributing his father's cards. Mr. Matheson jr. couldn't be a better hunter if he was running for office himself.

There doesn't appear to be any necessity to plead E. W. Cullen's candidacy for county commissioner. Many republicans are working for Ed's success knowing that he is one of the very best men Wayne county has ever had on the board. Commissioners Ed. Owen and Richard Russell speak very highly of Mr. Cullen's ability to govern county affairs and both these gentlemen would like to see Mr. Cullen re-elected.

Whatever else you may fail in don't neglect to vote. Let us have a full count of noses, and if you want to see Mickey nose out ahead kindly show us if you believe Berge should be elected just remember that it is likely to be most awfully close and your vote may to the whole business.

BY DAID.

The bankers got a taste of Mickey last week in Omaha. You know Mickey used to be interested in banks—look the principal too, they say—and he was a late guest to arrive at the bankers' convention. In making excuse for his tardiness the governor explained that all present who wanted to shake hands with the "governor" would be given an opportunity when the meeting adjourned. Just two bankers took advantage of the rare chance, and they were so close to the divine egotist that they couldn't get away unless they run. If you don't believe this item absolutely true, just ask Mr. Ley or Mr. Wilson about it by dad.

Isn't it funny how some men look at things. If four or five young fellows get a pack of cards and hide in a room to play penny-ant, they, in the opinion of some peculiarly constituted people, ought to go to jail for it, while if the same young men get out and not only greatly annoy the whole town, but maliciously destroy property, they are excusable because it is done for fun—and other boys have committed the same offenses.

John Kate tells an interesting story about C. A. Berge, candidate for governor. It was last August when Mr. Kate was going to the Dakota City picnic that he asked permission to sit down beside a couple of gentlemen occupying a double seat in one of the coaches, explaining that he didn't know whether they were lawyers or preachers, but he, John, didn't have the small pox and wouldn't contaminate them. The strangers at once introduced themselves, one of them being Berge and the other McKillip, both lawyers. "I used to know a young fellow named Berge," continued our John. "He came over to our town in Iowa and married one of the sweetest little girls that ever lived; pretty as could be and she could sing like a canary. Her father worked for me in the store and I knew the little girl well." "Well, I'm the fellow that married that little girl," said Mr. Berge, and she is just as sweet and can sing just as beautifully as in the years of long ago." Of course this led to an exchange of confidences, etc., but this week Mr. Kate received a letter from Mr. Berge and in it he wrote that Mrs. Berge, the pretty little girl of Audubon, Iowa, sent her very best regards, and wouldn't Mr. Kate kindly remember Mr. Berge on election day, don't you know. John says Berge is all right and a fine man, and while not committing himself on the voting question it is more than likely that the remembrance of the sweet little songster will kind of pull on his heart-strings enough next Tuesday to give the good man a republican vote.

City Council Proceedings
At a regular meeting of the council Monday night Agent Harrison for the Triumph Electric Co. was settled up with for the new machinery with the exception of about \$500, there being that much of a deficit in the appropriation for the new improvements. The tests made of the new plant showed the machinery was even better than the specifications called for. It was decided by the council to take out \$12000 insurance on the two boilers, the assurance covering the possibility of accidents by blowing up.

The suit instituted in district court by Mrs. Dixon was left to the city attorney and claims committee, instructions of the council being to contest the claim in the district court.

Expensive Halloween Pranks.

For several years the city of Wayne has hired special policemen to patrol the streets Halloween night to prevent malicious mischief being done, but not until this season have these special officers ever earned their salary. Monday night Patrolman Frank Hood captured four young men almost in the act of upsetting out houses and injuring property. The four lads were arraigned before Justice Feather Wednesday noon, and strange as it may appear a couple of their ancestors were present and practically upheld the boys in their misdemeanors—because other boys had committed the same offenses. The boys, however, paid guilty as charged and were each fined \$10 and costs, \$8 of the fine to be remitted when the property damaged by them was repaired, leaving a cash payment of \$5.20 each which they paid. While the punishment may seem a little severe it is not more than adequate to the crime charged. The city cannot afford any such nonsense as the wilful destruction of property even for a joke, and the lesson ought to be plain enough so that in the future young people who are not bad, but full of foolishness, can profit thereby.

HOSKINS
Last Sunday was a fine day and about 150 people gathered at the new Lutheran church to attend the dedication of that beautiful new house of worship. Rev. Branca of Hader at the morning service, Rev. Monson of southern Nebraska preached a fine dedication sermon in the afternoon. A preacher from Stanton addressed the people in English in the evening. Rev. Gruber of Sutton, Neb., father of the local pastor also took part in the services. The church people are justly proud of their new church, and we are sure that all the people of the town feel an equal pride in the building which is certainly a beautiful addition to the appearance of the town. The Germans from north of town were present in the forenoon and added to the enjoyment of the day. We must not forget to mention the choir who certainly did their part to add to the beauty of the services.

The German Lutheran people of the new church prepared refreshments for about two million people to judge from the abundance they had, and it takes the Germans every time to prepare a feast for the public. Nearly everyone enjoyed their hospitality Sunday and if I ever attend another I want someone to tell me, when I have eaten enough.

Here are two letters sent

those joint debates between P. E. McKillip and J. J. McCarthy, that were not debated. The first was written by F. D. Fales, McCarthy's political manager, to A. L. Braude, editor of the Pierce Call, rep., as follows:
"We had arranged for a number of debates and Mr. McCarthy left supposing that the meetings would come off. The first points selected being Columbus, Stanton, and Madison, and other points to be determined later. Day before yesterday I got a 'phone call from Mr. Stevens, chairman of the Democratic Congressional Committee of Fremont, stating that the debates would have to be called off. I then gave him a further direct challenge, and handed the statement to the Norfolk News. Mr. McCarthy will be more than pleased to meet McKillip in debate."

The second epistle, to the Pierce Leader, speaking of which the Leader says: "The following letter from the chairman of the Democratic Congressional Committee will prove the Leader's statement and it also proves that the letter from Mr. Fales to the Call is a falsehood, and that the republicans are trying to deceive the voters. Thus it will be seen that McCarthy 'is the Indian that's afraid.'" The letter follows:
Fremont, Nebraska, Oct. 24th, 1904.
MR. A. H. BACKHAUS, Pierce, Neb.
MY DEAR MR. BACKHAUS—
The clipping including the letter from Mr. Fales to Mr. A. L. Brande has been received and I want to say to you that Mr. Fales' letter states what is an absolute falsehood, and he knows it. No arrangements were ever made between him and me to debate in Columbus, Madison and Stanton. To show you the absolute deception of the whole thing I only need to call your attention to the fact that Mr. Fales' request to debate in Columbus, Madison and Stanton was made to me in reply to my challenge for eighteen joint debates which I refused and I refer you to his letter in the communication attached herewith for evidence that no such agreement was ever made. I reiterate what I said above that Mr. Fales absolutely, knowingly, misstated the fact and I will place in the First National Bank here at Fremont \$1,000.00 to be forfeited to McCarthy if McKillip fails to meet him on the proposition included in our challenge should McCarthy accept it.
Yours very truly,
DAN V. STEVENS, Chairman.

That ought to settle any doubt as to which candidate "darn't" go into a debate. As a matter of business, every voter who has had the opportunity to study the character of these two men both as to ability, honesty, morality, won't need to think twice before arriving at the conclusion that Mr. McKillip is the mountain, and Mr. McCarthy the mole-hill.

COUNT OFFICIALS CALLED TO COURT

Attorney Charges That Funds Have Been Misappropriated in Lancaster.

Lincoln, Neb., Oct. 29.—Alleging that the county funds have been grossly misappropriated and the tax collector, Attorney C. G. Whedon has filed a suit against the officials of Lancaster county asking for an accounting.

Also Alleges That Deputies Have Been Employed and That Large Sums of Money Have Been Squandered.

Lincoln, Neb., Oct. 29.—Alleging that the county funds have been grossly misappropriated and the tax collector, Attorney C. G. Whedon has filed a suit against the officials of Lancaster county asking for an accounting.

Whedon includes the county commissioners, County Clerk Dawson and County Assessor Miller in the suit and charges riotous extravagance. He asks that the books be investigated and the loss made good out of the other taxpayers and himself.

Through the taxation of 1905 is year ago at \$26,000 that of a year ago is called worse. Mr. Whedon says \$70,000 could be enough for this year and that the county has expended \$23,000, which, with the accumulation of back taxes, would bring to the treasury a net profit of \$47,000 in excess of the legal demands.

Mr. Whedon says that in 1903, \$71,000 was paid for taxes. The county has received \$20,000 less and so forth, but that no such sum could be legitimately be spent. The amount paid to people not entitled to it has been \$100,000, he says by investigation he prays for will produce the figures.

PORT ARTHUR ON VERGE OF DOOM

Mikado's Troops Capture More of the Important Fortifications of City.

MAGAZINE IS BLOWN UP

General Simonoff Would Surrender, But Stossel Refuses—All Is Ready for Desperate Resistance to Last Grand Attack.

Tokio, Oct. 31.—It is reported the Japanese opened a desperate general attack on the eastern forts of the Keekwan group north of Port Arthur during the morning of October 28 and shelled the Russian batteries. A shell exploded in the magazine.

Simultaneously the Japanese attacked the forts on Rihung mountain and Sanghohung mountain, silenced the Russian batteries and stormed and occupied the forts in front of these mountains.

On the night of the 28th there was a conflagration in old Port Arthur, and on the 27th a shell hit the Russian battleship Sevastopol, and two Russian steamers were sunk.

Official confirmation of the above is lacking, but the reports are believed to be true.

THE CITY OF HORRORS

Arms Destroyed, the Dead Unburied, Water Cut Off and Troops Threatening Mutiny.

Shanghai, Oct. 31.—A private letter from Port Arthur, dated October 21, reveals the conditions in the city.

"General Stossel urged the Russian emperor and court recently: 'I now regret all my glory for Port Arthur. My glory is my grave.' Stossel has attested the garrison with the spirit that to court a glorious death is preferable to a dishonorable one.

"Japanese shells are inflicting great damage on the Russian fleet in the harbor and the fortifications. The arsenal with its contents, ammunition and small arms has been destroyed, and the magazines are being made for this deadly struggle at close quarters. The water supply having been cut off, wells are being sunk. Provisions are scarce. The soldiers have gala feasts on horses killed by shells.

General Simonoff would surrender but is overruled by Stossel. Certain troops included in the garrison have to be closely watched at present for fear of desertion and mutiny. The food and naval hospitals are crowded and hygienic conditions are becoming desperate. The bombardment at times is so incessant that it is impossible to bury the dead to any depth.

"Over half the original garrison are dead. The Japanese are reported to have practically destroyed the new town. The besiegers are pressing close daily, and it is hard to say how long the city will hold out. The soldiers there will be a desperate fight and a surprise. Thousands of the enemy will be killed and the city will be captured.

This letter was entrusted to a native boatman, who ran the blockade and mailed it at Chefoo.

KUROKI WINS ONCE MORE

Drives Russians from Lost Position, South of the Japanese Headquarters.

General Kuroki's Headquarters in the Field, Oct. 31.—Yesterday in a determined fight the Japanese drove the Russians from a high hill ten miles east of Port Arthur. The position, which is important strategically as a post of observation, and was the only one in the field from which the Russians held. About a regiment of Russians was entrenched there, with machine guns and a battery of artillery.

HUGE SIEGE GUNS ARRIVING

Japanese Are Constantly Adding to the Force of Their Bombardment.

Chefoo, Oct. 31.—Japanese at Dahly report the continued arrival of huge siege guns. The Japanese left Port Arthur the 19th and were today. They say several Russian warships have been hit by dropping shells from the siege guns.

CONCEAL EARNINGS

Wisconsin Commissioner Shows How the Railroads Beat the State Out of Taxes.

Milwaukee, Oct. 31.—Railroad Commissioner Thomas, in a report to the governor regarding his investigation of the books of the Wisconsin railroad, says that more than \$30,000,000 in gross earnings has been held out by the railroad companies from the state, which has lost in the state losing \$33,839 in license fees. Of the amount held out over one million dollars was in the shape of rebates and these rebates were in the shape of a per cent. of freight charges.

Phillip of this city, who represents the railroad side, declares that the refund payments to which Mr. Thomas refers, and which are made in the transportation of raw materials to factories under what is known as the "commodity rates," are the rebates under which these rates are given call for the shipment of the manufactured product over the same line of the railroad.

Therefore the full rate is charged on the raw material, and if the manufacturer uses the product over the same line a refund is made. If the manufacturer's product is shipped by another line the refund is not made. Mr. Phillip added that in many instances rates made on raw material, such as logs and pulp wood, are below the cost of transportation, especially when the source of supply is far from the mills. This is made up to the railroad by putting the manufactured product to haul.

GRAND DUCAL GRAFT

Business Man in Russia Succeeded in Preventing It Driving Him From Country.

St. Petersburg, Oct. 29.—Grand Duke Serge, governor of Moscow, recently summoned Morozoff, the greatest employer of labor in Russia, to his palace and invited him to submit proposals for the army and other war requirements. Morozoff replied that if he did not consent to the war, he would submit proposals on the administrative fund to see that all contributions are applied to patriotic purposes.

"Before leaving," he demanded to know what he meant, whereupon Morozoff retorted that he had given a million rubles for the war, and that he had seen the same cloth sold in the Moscow market.

Grand Duke Serge angrily demanded an apology from the plain spoken Morozoff, who refused to apologize, and he withdrew his proposals.

"Before leaving," he demanded to know what he meant, whereupon Morozoff retorted that he had given a million rubles for the war, and that he had seen the same cloth sold in the Moscow market.

AN OFFICIAL INDICTED

County Treasurer Charged With Embezzlement and Fraud.

Pomeroy, O., Oct. 28.—After investigating for a month the grand jury indicted J. H. Henshaw, county treasurer, charging the embezzlement of \$14,600 from the county treasury on September 15, 1904.

"The grand jury charged Henshaw with embezzlement and fraud. He was unable to furnish bail, he was remanded to jail.

The arrest of Chase caused no surprise in Meigs county, but there is much indignation in that fact that there are indictments against other persons. Chase claims that two unknown masked men entered his office and stole the money from the vault and made their escape in a light wagon without being seen by anyone.

Chase was found locked up by his daughter, who rushed to the local bank and then to the fair ground where the money was hidden in the vault. It was shown to the jury that at least half a dozen men were sitting in front of the bank on the morning of September 9 and saw no strangers.

As soon as the indictment against Chase was read, the grand jury resumed its investigation on the theory that there was at least one, probably two, confederates in the vault door, one at the outside door and possibly another keeping watch outside of the building.

NEW YORK FAMILY LIVES LUXURIOSLY ON NOTHING A YEAR EXCEPT PLENTY OF ALIASES

New York, Oct. 28.—Mrs. "Mary Rice," her four daughters and a little grandson, all of whom are now in jail, appeared before Magistrate Magoy with a score of more of the same kind of aliases in Jefferson Market police court. The complaint against them was Frederick MacCarton, proprietor of the Knickerbocker hotel.

He testified that the prisoners presented themselves at the Knickerbocker hotel about ten days ago and engaged his best suite of rooms. Mrs. Rice told him that her husband was a wealthy Philadelphian, who had been abroad for his health, and who was home-bound on the White Star steamer Commodore, who had been with her children for his return. Her baggage, she said, had gone astray during her trip down to Baltimore, and would probably be along in a day or two.

At the end of their first week, the hotelmen presented a bill to their guests, whose baggage had not yet arrived, and was told that Mr. Rice would settle at once, and his baggage was to be sent to him at the moment they ran a big bill with a neighboring livestock man and had been surprised by the explosion. RUSSIAN ADMIRAL GIVES A DETAILED AND REMARKABLE STORY OF THE NORTH SEA AFFAIR.

London, Oct. 31.—The Daily Chronicle will publish an interview with Admiral Rojestvensky, which is quoted as saying that when the Russian fleet was sighted by the British themselves surrounded by the fishing fleet the warships had to stop their engines and drift with the wind. The warships frequently gave way to the trawlers.

Suddenly the cruiser Aurora saw ahead two torpedobats coming toward the squadron at full speed. She turned her search light on them and then noticed two floating mines close to her. An order to fire on the torpedobats was immediately given, with the result that the men were sunk, and the other escaped and was lost sight of among the trawlers. The admiral added that two men were injured on his flagship, one a priest, who had his hand shot off. Six shots fired during the incident hit the Russian ships. The Aurora was hit and has not yet been repaired.

St. Petersburg, Oct. 31.—The emperor has approved the proposal to submit the North sea incident to an international tribunal.

London, Oct. 31.—The Associated Press is authorized to state that a satisfactory settlement of the Anglo-Russian dispute having been reached, several formalities remain to be arranged but the proposal to refer the matter to a court of inquiry has been accepted.

The entire dispute was ended when Ambassador Benckendorff, at the suggestion of the British government, arranged for the meeting of the Hague, under the rules of the Hague Convention. The appointment of arbitrators will be discussed tomorrow between Benckendorff and Lohndorff. The only detail which remains to be arranged is the permission to Spain for a portion of the Russian squadron to proceed to its destination.

The Russian ambassador says: "As a result of constant communication with the British government, and satisfactory settlement. The whole aspect of the situation has decidedly improved."

The cabinet today considered the Russian proposition to submit the matter to an international tribunal. The commission is not yet determined, but Russia has expressed its readiness to accept the arbitration of the second Pacific squadron and such other individual officers as may be found to have been involved in the incident.

When the meeting broke up the ministers were in a happy frame of mind, apparently in happy frame of mind, confirming the belief that the crisis is in a fair way to be despatched. The cabinet today considered the Russian proposition to submit the matter to an international tribunal.

The Way They Do It in Missouri

The following item is taken from the Lamar (Mo.) Democrat, and is evidence that they almost "show them" in Missouri.

A procession came into town on Friday, which at first did not attract much attention, but shortly after it drew up to the east side of the public square, things began to happen. A thin and somewhat unhappy looking gray horse pulled the first buggy and in it was a young woman and a short, stout determined looking young man. First he tied his horse, then he put up the curtains on his buggy and hung the lap robe over the front. This attracted attention. People began to look to see what they could see. Pretty soon a bare arm reached out from an opening in this improvised boudoir, and took a parcel of clothing from the hands of the stout young man who was on the outside. It was evident that the young lady had disrobed, and that she was making her toilet. The young man appeared to be greatly interested in the proceeding. The bare arm kept reaching out from between the curtains and taking from him various articles of feminine apparel. Every little while he would take a squint through the little glass window in the back curtain of the buggy to see how fast things had progressed. Finally the young lady emerged from the cloistered seclusion of her curtained boudoir with her toilet almost completed. The only point lacking was the buttons. None of them were yet fastened, but the young lady's mother, who had driven the second vehicle, came to her rescue. The younger woman stood out, like a semi-robed Venus, by the chain rack, while the elder one, evidently her mother, fastened the recalcitrant buttons and made the stubborn buttons articulate with the holes. The young man stood off and surveyed the operation with both interest and satisfaction. When the last hook was hooked and the last button was buttoned, the stout young man and the monochalant young woman formed in close order with the old lady bringing up the rear, and marched to the recorder's office.

They got a license, the old lady put the last finishing touches upon the bride's toggery. Squire Ward was summoned and the pair stood out. The young man wore a big white cowboy hat, and shoes that were as innocent of polish as a newborn babe of clothes. He had on a vest, but it was unbuttoned and in "open order." The twin were made one, and no doubt in after years the one will become several, for it was perfectly evident that both the young folks were for Teddy Roosevelt and meat business. They were Wesley Nails, of Sheldon, and Birdie Stephens of the same place. They left town happy and oblivious. Here's wishing them all kinds of luck. May the two Nails flourish and wax fat and finally become a whole keg of Nails.

Official testimony taken after the coal strike of two years ago, when the government repealed the 65 cents tariff on coal for the benefit of the people, showed that the taking off of the tariff of 65 cents a ton on coal reduced the price of coal by just that amount. Now really, does any country farmer or merchant or other citizen believe he is doing justice to himself and family by voting in favor of the same kind of tariff on lumber, on iron, steel, nails, glass, and on everything else he buys? Many farmers are kicking off voting now in favor of the \$20,000 appropriation to build a county jail, yet many of these same kickers are voting every year to pay 65 cents a ton tariff for coal, which increases a lone would more than pay one all their extra tax to build the jail. —Exchange

Well just vote for McKillip for governor. He is in favor of fixing this robber tariff, while McCarthy admits it's a bad thing but can't be reduced because the republican party favors it.

"If Sioux City women decide to organize a birth insurance company to pay a mother \$300 at the birth of a child, they will simply make the daddy more insignificant and unnecessary in the transaction," says the Sioux City Tribune. Insignificant, perhaps.

John Kate rublered hard at the Democrat last week because our "ang" made his "ad" read "spruce" rubber boots, instead of "pure" rubber boots. Of course "spruce" is much the better word, even if you don't look so spruce in rubber boots.

The Democrat family enjoyed the hospitality of Mr. and Mrs. Clyde Oman last Sunday for a big chicken dinner and several after progress of music. Mr. Oman has one of the best farms in the county and one of the nicest homes. Mrs. Oman not only knows how to "set up" a swell dinner that makes a printer long for more of them, but finds time to play the piano, which she can do as well as any of the city's "400"

The last issue of the Wayne Republican was printed this week and in his farewell message Editor Gibson states that he expects to make his permanent home in Wayne, where he likes everybody except C. J. Rundell who swindled him on a check, and Lou Holtz who sold him a suit of clothes, the lining of which was rotten, etc. etc. The Democrat understands Mr. Gibson expects to be Wayne's postmaster to succeed W. H. McNeil, that he has a "sische" on the appointment.

A Physician Hoped

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success." Wayne Drug Co.

When you Have a Bad Cold. You want a remedy that will not only give quick relief but a permanent cure. You want a remedy that will relieve the lungs and keep expectoration easy. You want a remedy that will counteract any tendency toward pneumonia. You want a remedy that is pleasant and safe to take. Chamberlain's Cough Remedy meets the requirements and for the speedy and permanent cure of bad colds stands without peer. For sale by Raymond's drug store.

Counterfeiting the Genuine Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Wayne Drug Co.

Favored by Both Parties

Republicans and Democrats alike praise Foley's Honey and Tar for coughs, colds and all throat and lung diseases, as no other remedy can compare with it. It is safe and sure. F. T. Slater, merchant, 171 Main St., Gloucester, Mass., writes: "Foley's Honey and Tar cured me of a very bad cough which I had for three months though other remedies failed to benefit me. I can highly recommend it for coughs and colds." Wayne Drug Co.

Am I Right?

For fifteen years I have catered to the public, a dispenser of the best wines, whiskies, brandies and beers that can be bought in the markets. Have tried to please every patron, and respected every man who has been too good for the saloon but has gotten his liquors elsewhere. Now we have put up every tribute exacted—and they have been excessive—by town and state, and feel like asking the people who use intoxicants to patronize the place that deserve your trade so long as we give you only the best goods at the lowest prices. Ten or fifteen per cent of every dollar you spend at my place goes to educate your children and to pay for public improvements. From a moral standpoint this may seem like a peculiar condition of affairs, but it is what the people voted for—don't blame the saloon-keeper for it. Well, this is a long speech for me to make, so come in and take something—on a tin roof.

It isn't the men you look at, when it comes to state senator and representative, but the interests of your own pocket book. Messrs McLeod and Williams are good men, but everybody knows they will do just as Prof. Gregg did at Lincoln, in fact Dr. Williams defends the work of the railroad legislature of two years ago and will stand pat on the theory that the republican party can do no wrong. If you haven't got enough graft and corporation rule elect the above gentlemen, we'll all get a fill of it in two more years of Micker, mismanagement and extravagance.

TYPHOID GERMS.

The microscope shows that in the blood of every person suffering from typhoid the little germs can be found as shown above. They are supposed to get into the water of milk we drink. The germs multiply so that one germ is capable of producing about one hundred trillion germs in twenty-four hours. That is why if they ever get into the water supply of a town they multiply so fast that nearly everybody drinking the water comes down with the disease. There are exceptions, however, and they are the persons whose health is perfect, whose blood is pure, and liver active. When the germs get into a healthy body they are thrown off with the other poisons. Recent Chicago statistics show that one-eighth of all the deaths in the past two years in that city have resulted from pneumonia.

The best advice we can give to you to put the body into a perfect, healthy condition, is to be sure that you have rich, red blood and an active liver.

Two years ago Dr. E. V. Pierce, who is consulting surgeon to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., found certain herbs and roots which, when used in an alterative, healthy food without the use of alcohol, seemed to be the very best means of putting the stomach, blood and vital organs into proper condition.

This seemed to him as close to nature's way of treating disease as it was possible to get. He has since a century Dr. Pierce's Golden Medical Discovery has had a wonderful sale and the cures resulting from its use are numbered by thousands. It is a tissue-builder, better than cod liver oil because it does not sicken the stomach, or offend the taste. It strengthens or renews the assimilative or digestive processes in the stomach and puts on healthy flesh when the weight of the invalid is reduced below the normal.

Accept no substitute for "Golden Medical Discovery." Nothing else is "just as good."

No Poison in Chamberlain's Cough Remedy.

From Napier New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines in the market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was the Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had, and it is with a feeling of security that any mother can give it to her little ones.

Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by Raymond's Drug Store.

The girls who boast that the out of town men that they are marrying are millionaires, are called to halt. Girls left to their mothers one have acquired the Bradstreet habit. When a man gets tired at his desk and wants to stretch, he walks to the ice water tank and gets a drink. When trying to collect his thoughts, he takes another drink. He keeps this ice water habit up all day, and his friends later on wonder why he was in an away so young in life.
