City Matters of Interest

The city council held a regular meeting Monday evening at which reports of the city treasurer and city clerk were read and referred to the finance committee. Fred Benschopf, by his attorney, F. A. Berry, presented a claim for \$500 damages, alleged to have been sustained by running into a tank wagon, while riding a bicycle. The wagon stood front of the O'Connell billiard hall and it was after midnight, the lights being going some out. Mr. Benschopf was going home from somewhere on his wheel and went into the tank, badly bruising his body and being laid up for a couple of months with a crippled arm.

An ordinance pertaining to general nuisances such as refuse on streets and alleys, etc., to take the place of the one knocked out of commission by Fred Sebald's attorney, was read first time and filed.

A street lamp was ordered put in on the hill near B. F. Feather's residence, as per petition.

Jud West, assistant at the power house, had his salary raised from \$40 to \$50 per month.

Clerk Winton introduced an ordinance increasing the clerks salary from \$144 to \$300 per year, to take effect May 1st, but it was not acted upon. It is probable some increase will have to be made as the duties of clerk have considerably increased the past year.

Bills were allowed as follows:

Carpenter, coal	38 18
Fireman, 2 fires	21 00
J. L. Payne	12 00
A. R. Davis salary	31 25

There was one county in the state where Candidate Berge beat Roosevelt on a majority and that was Gov. Mickey's home county, Osceola. President Roosevelt carried it by 146 and Mr. Berge by 604, Mr. Mickey's total being 224. Wasn't it a dirty shame the people of the whole state didn't know Mickey as well as did his old neighbors. The homeliest yellow dog in Wayne county--on the republican ticket--could get more than 224 votes.

The big event of the week was the surprise party on Hayden Hutchison and wife Monday evening it being his 50th birthday. For once, we caught Hayden napping. About 30 were present and had a fine time, which those present will long remember. A pretty center table was presented by the visitors as a token of their regards for Mr. and Mrs. Hutchison.

The High school students had a big time last night, the 11th grade having a party at Mel Norton's and the 10th grade driving out to W. H. Gilder-sleeve's and taking the band with them. The 12th grade also mixed in the amusements which accounts for the disturbance made in the night atmosphere.

There is certainly nothing wrong with Wayne's electric light system, nowadays. A 16-candle power globe gives out as much lightness as a 32 did last year. The plant is in excellent working condition, and electrician Fritts has that smile that won't come off, a regular arc light affair.

COLLEGE NOTES.

The winter term opened Tuesday morning with a splendid enrollment.

Mr. Jean Ferguson of Cedar county visited at the college Saturday. He met several who were students when he attended N. N. C.

Congressman McCarthy spent an hour at the college Thursday. He went through the dormitories and recitation building but did not have time to meet many students.

Judge Norris will deliver his lecture on the Philippine question in the chapel week after next. The date will be announced next week. The public will be invited to attend the lecture.

Mr. P. C. Culley, a former student, writes an interesting letter from Austin, Nevada, where he is principal of the school. He enjoys his work in the mountain town. Snow can be seen the entire year from the school building.

The electric lights were turned on in the residence Monday evening. It is the aim to get all the buildings wired and lighted before the holidays. This will add much to the appearance of the hill as well as to the convenience of the students.

W. E. Sweeney, an N. N. C. boy whose former home was at Emerson, was elected to the South Dakota legislature from Lyman county. He is as popular there as he was as a student. He is remembered as an earnest student who enjoyed the confidence of everyone.

This will be a very busy term for all of the hill. The enrollment will be not far from 450 and a large number of classes are necessary to meet the demands of so many. All the larger classes recite between 3 and 4. Each teacher is fully engaged and the students are carrying heavy programs.

Several parents visited the college Monday and Tuesday to see to the enrollment of their young people. Among these were, County Commissioner Keyes of Holt county; Mrs. George of Concord; Mrs. Brown of Pender; Mr. Seagren of Wakefield; Mr. Nelson of All. Allen; Mr. Adresser of Allen. D.; Mr. Davidson of Orchard; Miss Schmidt of Stanton; Miss Brown of Pender; Mr. Taylor of Hoskins; Mr. Spurr of Pierce; Miss Kurts of Madison; Mr. Fullner of Stanton.

Berry in Bright's Class.

Winside Tribune: 'Twas ever thus: Just as we had worked up an unbounded enthusiasm for Frank Berry over the gallant race he ran and the big majority he so nearly overcame the cuss (as Simon would say) writes us a postal and cruelly stops his paper. We suppose Frank feels sore over his "so near and yet so far" result, but considering what rich material we had to work and didn't, we cannot see why he should feel sore over this end of the string. By rights our esteemed brother democrat should have sent us a box of cigars and a nice letter thanking us for what we did not say.

Wakefield Republican: W. H. Gibson of Wayne, was in town last Friday. We understand that Mr. Gibson will make an effort to be appointed postmaster at Wayne, and we also understand that Mr. McNeal claims to have a cinch on the appointment.

There are no files on that statement of the State bank in today's paper. The State is way above par in the commercial world, and growing like a 1904 republican majority. Business men find it the right place to do business, and as full of business courtesies as it is cold cash.

Wakefield Republican: The Wayne Woodmen are planning for a big time next Tuesday night. The head consul has offered a fine camp chair to the camp bringing in the most members, the contest being between Wakefield, Carroll and Winside and the initiations to take place at Wayne on the above date. State deputies have been at work here and at other towns mentioned and it is estimated that 100 candidates will be shown the mysteries of Woodcraft next Tuesday night. Head Consul Northcott will be present and also the working teams from Omaha and Lincoln. A number of Wakefield Woodmen are going to Wayne to see the fun. They expect to go on the evening train and return the next morning.

Mrs. Robt. Mellor expects her sister, Mrs. Smith of Colorado Springs, to arrive first of the week on a visit.

T. W. Moran was in Sioux City last Sunday attending a big meeting of the Knights of Columbia, at which Congressman McCarthy was one of those initiated. Tom says he had "the time" of his life.

Senator-elect Williams says he is for an economical administration of state affairs. As Mr. Williams does not have to sell his loyalty to his constituents to get through some pet measure for a normal school and if he has the necessary back bone to refuse a bribe from the railroads, he may be strong enough at Lincoln this winter to earn the thanks and respect of we democrats who voted to keep him at home.

Congressman McCarthy's plurality over P. E. McKillop is 3,008 votes. This is a surprise to the DEMOCRAT—of about 1500 votes. Mr. McCarthy defeated a man two years ago by some 600 votes who knew more in one minute than McCarthy or McKillop are capable of learning in a lifetime.

A Physician Healed

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Kr., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such trouble; I have prescribed it in hundreds of cases with perfect success." Wayne Drug Co.

Governor Mickey of Nebraska has something to think about in his narrow escape from decapitation. He knows that at least 70,000 people in Nebraska do not approve of his administration of affairs and this should cause him to reflect seriously when he lays his hand on the constitution and says "so-welcome, God," at the beginning of his next term. —Sioux City Tribune.

During the present campaign, Bill Bowen, a town story teller, has been going around to some of the country school houses, telling stories. At every place where he has been funny is said, there are at least three men who can tell the stories better than Bowen.

Counterfeiting the Genuine

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Wayne Drug Co.

Here is a lovely character for you. An Atchison grass widow will erect a monument over the grave of her divorced husband.

In towns where Miss Helen Gould has endowed no Y. M. C. A. or given no library, a newspaper may be found so lacking in gallantry as to say Miss Gould has a "mus-tache."

Fred S. Berry, a former Sioux City resident who was a candidate for county attorney in Dakota county, Nebraska, this fall, was operated upon yesterday at the Samaritan hospital for appendicitis. He was defeated at the polls by fifty-seven votes, the office going to J. J. McAulister. Berry was compelled to abandon his campaign only three days before election, and was in that time to have canvassed a district which it is claimed would have landed him the office he sought. He is an alumnus of the Sioux City high school.—Sioux City Tribune.

Manson Democrat: A horse and buggy travels slowly down the smooth country road. There is a young man and sweetheart in the buggy, and he is letting the horse do its own driving while he tells the rosy checked lass at his side how he loves her and how he is planning to make her the happiest woman on earth some day. They are sitting close together now, and he has placed his arm around her. She looks up at him and he looks down at her, and their faces are very close together. He feels her sweet, warm breath on his cheek and it nerves him for the supreme moment. Closes and closer; draw their lips, her hearts stops beating and he cannot breathe. Then—joy, happiness, glory hallo!—he kisses her and it is all over but to choose the day. Fine night these for sparking, church going, neighborhood visits or to shoot cats.

People often wonder why girls like to work in a printing office. Well the little bird knows a few reasons. In the first place, what girl is there who is not interested in "press work"? And it is such fun to learn about dashes (—) and em-braces ({ }) and to make pi. And there's an inspiration in the power of the press that passes all understanding when an impression is made on the devil. All is lovely except type vermin—of them beware! There are other reasons why a girl likes to be a type but they are too numerous to mention this time.

The "vertical" system of penmanship has been found to be unsatisfactory in the West Des Moines schools and the "medical slant" has been adopted by the text book committee. There is a great deal of foolishness about these writing systems in the public schools, which in a great measure accounts for the fact that so large a number of pupils fail to learn to write a legible hand. Every once in a while some freak studies out a new "system" of writing, and a text book house takes it up and gets in its grapt on directors and text book committees, with the result that the pupil has to go a new twist on his wrist and he never does learn to write. What difference does it make whether a person writes a medical slant, a vertical slant or a gable end slant? What difference does it make whether they hold the pen at an angle of 45 degrees or 42 1/2 degrees? The thing is to learn to write a legible hand, and there is no particular advantage in having it just like somebody else's.

Favored by Both Parties
Republicans and Democrats alike praise Foley's Honey and Tar for coughs, colds and all throat and lung diseases, as no other remedy can compare with it. It is safe and sure. F. T. Slater, merchant, 171 Main St., Gloucester, Mass., writes: "Foley's Honey and Tar cured me of a very bad cough which I had for three months though other remedies failed to benefit me. I can highly recommend it for coughs and colds." Wayne Drug Co.

HEALTHY MOTHERS;
Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Boesche's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can speedily be cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough racked consumptive. New trial bottles, 25c, large size, 75c. At all druggists.

No Poison in Chamberlain's Cough Remedy.
From Napier New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines in the market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was the Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by Raymond's Drug store.

Not a Sick Day Since
"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Fremont, N. C., writes. Only 50c, at Raymond's, Druggist. Price 50c, and \$1.00. Trial bottles free.

Disastrous Wrecks
Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung Trouble. The Poor Man's Place
HERMAN MILDNER, Prop.

It is an argument of women who would like to vote that there are a great many men permitted to vote who should be disfranchised because of their ignorance. We believe that is right. It is frightful and humiliating to contemplate how many men there are who have not yet learned how to vote—the Australian ballot, or rather the Nebraska ballot. There may have been some excuse when the ballot first came into use, but it doesn't seem as if there was any excuse now. There are no doubt men voting every year who have never yet cast a ballot that was counted. The Sioux City Tribune tells of 36 ballots being thrown out in one precinct. The next "educational campaign" we have ought to be one in which a lot of ignoramuses could be taught how to vote.

For the newspaper man devoted entirely to politics—these be melancholy days indeed. The campaign is ended, the smoke of battle has not yet cleared away. Perhaps for a few days the election of this or that candidate hangs in the balance. There is nothing for the editor whose head is full of politics to do but make ridiculous claims for his friends whose election may be in doubt and discuss with the customary partisan unfairness the causes that contributed to the result as far as known. The paramount issue, and the ones that clustered about it, are no longer matters of absorbing public interest, nor do people want to read anything more about the personality of the victor than that who won or lost in the race. During the campaign the straw was thrashed over and over again. In this predicament the political writer may relieve his own feelings and interest the readers by taking up and discussing some new phase of the Indian question.

There is sorrow at Esopus, there is grief among the hills.
Rippling through the great Ohio through the West Virginia hills.

Gloom has settled o'er the Hudson, eighty miles above the bay,
And at Elkins it is raining on the house of Gassaway.

Mighty men are these, the fallen, mighty men who both died game;
August Belmont sang their praises' Pierpont Morgan did the same.

Bryan plead for election—they must win at any cost—
"I am for them both!" he shouted—but he had his fingers crossed,
Someone always has to suffer, one or 'tother must be beat,
Someone has to bear the deep humiliation of defeat.

In this case the common people feel a thrill that should be felt
In the glorious vindication of their true friend Roosevelt.

But the sorrow at Esopus, where Judge Parker now abides,
And at Elkins, West Virginia, where Great Gassaway resides,
And across the land of cotton where the southern breezes blow,
Is the sanctified quietness from fertile seeds of woe.

Shall we weep above the fallen? Shall we sorrow for the slain?
Shall we comfort them by saying that their tears are spilled in vain?
No, we'll name the country's blessings and recount them o'er and o'er,
And remark, "This great republic has been grandly saved once more."

A CONTINUAL STRAIN
Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule get rid of this "continual strain" but they can remedy its health-destroying effects by taking frequent doses of Great Chamberlain's Cough Remedy. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists.

OTHER WORDS.
Our sole knowledge of the people on other worlds and how far from some people there differ from our inhabitants can only be guessed by comparison with animal nature on this small sphere of ours. More important to us is a knowledge of ourselves. "Know Thyself" was an old Greek thought. How to take care of one's own body is not so simple as some think; the human mechanism is a wonderful thing and requires watching.

One man who has done more to teach the American people how to care for their bodies than almost any other, is Dr. R. V. Pierce, of Buffalo, N. Y., the Author of the "Common Sense Medical Advice." He says: "It is not the quantity of the food eaten which produces strength and health for some people can keep strong on a very meagre diet, but it is how much food is absorbed and assimilated by the blood and carried to nourish every organ of the body. It is therefore, vitally necessary for the body that the stomach be in a healthy state. If disease of the stomach, or what is called "stomach trouble," prevents proper nutrition then the heart, liver, lungs, and kidneys do not get proper food—they are not fed on rich red blood, and in consequence, begin to show signs of distress. Outwardly these signs may be pimples and eruptions on skin, pale face, sleepless nights, tired, languid feelings, or, in women, the nerves not being fed on pure blood, they become starved, and we receive a warning in the pain we call neuralgia. Rheumatism, too, is a blood disease. After years of practice and study Dr. Pierce found that the pain we call neuralgia, named "Dr. Pierce's Golden Medical Discovery," made from the extracts of several plants, invariably produced a tonic effect upon the system. It helped the process of absorption of the healthy elements in the food and increased the red corpuscles of the blood, as well as eliminated the poisons from the system.

Business is business. No time for head-aches. Constipation causes them. Doctor Pierce's Pleasant Pellets cure them by curing the cause. Laxative and mild.

Subscribers to the DEMOCRAT should bear in mind that the subscription price is \$1.00 per year only when paid in advance. We have a few accounts on our books now that will be given a collector Dec. 1st, and \$1.50 per year will be claimed on them IN EVERY INSTANCE.
