Terrific Race With Death

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and bad heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at Raymonds drug store; price 50c.

Cleanse your system of all impurities this month. Now is the time to take Hollister's Rocky Mountain Tea. It will keep you well all summer. 35 cents, Tea or Tablets. Raymonds Drug Store.

I have good pasture for those that want to pasture their town cows, this spring. Call east of town. D. W. NOAKES.

Embryonic Wayne

By Whose Who

THE POET'S CORNER

The real poet, as we all know, is born not made. The "poetical instinct," I have been told, some times develops late in life but nine times in ten I'm quite sure it is a fungus growth and a very sure sign of mental disintegration; especially if mushroom-like, it springs up in the mind of a person of considerable age who can't write intelligible prose; so if you see me some fine morning headed west in company with Grant Means you'll know what's the matter.

The poetry prosperity is excusable in the very youthful, for the "poetical puppy period" must be outgrown, like awkwardness attendant on rapid growth. It comes somewhat later than cholera infantum, but come it does just as inevitable. I've had the "poet's cramps" myself when I thought I'd die, unless I "laboured and brought forth a muse" and it's a wonder I didn't kill some one in the attempt.

You see there comes a time in the lives of all of us when prose seems vulgar almost and we seek a method of expression in tune with the melody of the heart, but ninety-nine times out of a hundred you'll outgrow it, if you don't your case is hopeless.

I don't think Wayne has ever been afflicted with poetry, at least it has never been epidemic.

A. P. Childs could write "jingles" almost as fast as he could write prose. I was in his office once with Jim Britton, when Leon Lewis came in with a little bit of fragrant spice (the frank incense and myrrh offered at the birth of sensation) and A. P. cocked his head to one side, stuck his stub pencil between his stub fingers, sniffed his nose and scratched off a dozen lines of "decent doggerel" as he called it without interrupting the conversation.

He showed it to us, then threw it in the waste basket. A. P. knew that it wasn't poetry and that unless it were administered in homeopathic doses it would act either as an emetic or worse, so he prescribed it in moderation. Childs never pretended that he wrote poetry. I expect he would disclaim all the verse he ever wrote but he had a fanciful imagination and a quaintness of expression which might have out-bixbed Bixby, had he given his pegasus free rein.

Two small volumes of verse have been published by Waynites one by Mrs. Belle Willey Gue (whom I consider as belonging to Wayne) and one by John G. Nelhardt. John Nelhardt exhibited a precocity really Chattertonian. At twelve years of age he was writing very creditable verse, some of which was published by an discriminating paper as the "Youth's Companion," but unfortunately John became imbued with the idea that the great "Epic" had not yet been written—Dante, Virgil and Milton were well enough in their way but the really supreme "Epic" must have for its setting the birth place of the human race, so John proceeded to write it.

Saturating himself with the mysticism of the east, he belched forth enough vagueness to have satisfied the most exacting votary of the Browning cult. He showed it to us, then threw it in the waste basket. A. light her chosen circle of friends with bright little fantasies in rhyme, in which she succeeds in embodying wit, without its too usual concomitant—pain. When one succeeds in so doing, the very height of light versification has been attained.

Modesty preventing the writer hereof from laying claim to the palm of poetry emanating from Wayne, I think as most certainly next in line I should be permitted to pass, it along to the head of the class, Mr. Charley Simon, erstwhile, Mt. Hope correspondent of the "Herald" and later editor of the "Tribune."

Struck with the exquisite beauty and almost ethereal unworldliness of some of Mr. Simon's gems, I was constrained to cumber (I was about to say murder) them to memory.

At the present time I will reproduce not more than two. Later others will be forth coming—by special request only.

DESPAIR ON MT. HOPE.—
Oh! What is the matter with me?
Can any body tell?
I know there is something the matter
Because I am not well.

This little quatrain in addition to poetical is also, therapeutical. Note how logically he diagnoses his own condition.

Oh! my pen can hardly describe it
I'm feeling so awfully bad
But I cherish the hope it may be
Something I've already had.
I'm loosing my mind and dinner
I can hear my pulses throb,
And if I get much sicker
I'll have to throw up my job.
I am loosing a lot of sleep,
Oh! tell me what to take!
I'm loosing it every minute
Of time that I stay awake.

Some kind and sympathizing friend recommended "Peruna." After taking a bottle, all at one gulp evidently, Charlie indited the following rhythmic testimonial.

Oh! thank you my dear "Peruna,"
I thank you a thousand times,
For now I know what Poe meant,
When he mentioned the "runic" rhymes.
I think however Charley excelled at Madrigals. While not perhaps quite as fervid and intense as some of Ella Wheeler Wilcox's poems of passion, I think she following belongs in the "Hot Stuff" column all right.

THE MAN IN THE MOON WAS LOOKING.
The other evening after dark
My love and I took a walk in the park
And as neither was in a hurry
We also walked on the prairie.
The moon was shining down on the land
And so I gently pressed her hand,
And as the moon continued to shine
She also, likewise pressed mine.

Now isn't that ideal? I doubt if any one could press or express it better.

Gabrielle Rossetti says "the true poet leaves a field in which the imagination of the reader may roam at will." That proves Charley the true poet. What more could you ask? At the time the above was written, "the field of the cloth of gold" was an unbroken prairie from Taylor's Ranch to town, and the grass two feet high. It is unfortunate that not every one took the "Herald" at the time Mr. Simon was its Mt. Hope correspondent; many other little exquisite I have no doubt could be dug up if Eph would take the trouble to excavate them.

Charley abandoned journalism and went back to Illinois, to work on the drainage canal I believe. It is too bad. Poetry is so much lighter work.

I think any of you who may have the old files of the "Herald" of 18 years ago, will find that the extracts from Mr. Simon's works which I have given above are essentially accurate, should there be any slight deviation or discrepancy it is entirely due to the faulty memory of your humble historian; if there are any differences they must of necessity detract from the excellence of Mr. Simon's verse; so I trust you will credit him with this possible doubt and charge same to who's who.

I wish to revert to Judge Moses again in order that I may tell you that once when I was in the city, I read more than two of her eighty-four short poems at one sitting. There isn't a gleam of joy in the whole book—it is simply saturated sombreness. To read the book straight through would bring on an attack of hypochondria. There is no possible doubt about the poetical quality of "Interludes." It is apparent in nearly every line but when it was written Mrs. Gue probably was too young to be learned that nearly all of us prefer the lie on the top to the weeping willow—the lark to the mourning dove. The song is there but it betokens sadness, some thing we want to get away from. Try again Mrs. Gue, give us the sun rise, not the sun set; the dawn not the everlasting twilight. If Willey don't treat you right get a divorce and brighten up. Furnish us with some lines of joy—we'll read them.

The extreme diffidence of one of Wayne's most estimable matrons has alone prevented me from mentioning her name in the same category with Arthur P. Childs, as a maker of light verse, which flows from her pen with the readiness of her sprightly, kindly talk. The printing press know her not, but I have heard that she time and again has and does amuse and de-

(which he afterwards published) from a thousand and one sources (many of them obscure), as a convenience in his own personal law practice but its publication naturally followed. Its excellence demanded it.

Judge Moses stands to this subject precisely as Sam Johnson does to the dictionary—the original deliver. It would be a comparatively easy matter to write a dictionary now, but it wasn't when Dr. Johnson devoted his life and one of the greatest minds the world has ever known to make Webster and Wooster famous.

Judge Moses realizes and recognizes the fact that his work is not comprehensive enough to meet present day demands and requirements and some years ago he entertained the idea of amplifying and completing it. This simply meant the devotion of the rest of his life to this arduous task with no other compensation than the gratification of work well done. He has the satisfaction however of knowing that his work is the foundation stone on which present and future builders do and will work. His work was well done.

Liveringhouse Bound Over.

County Attorney Siman came down from Winslow Monday and made short work of the case of Bill Liveringhouse, charged with bastardy by Maude McRoberts. Judge Hunter bound Liveringhouse over to district court in the sum of \$1,000 bonds which he will not likely succeed in getting. The victim of this criminality is only 14 years of age, and will in course of three or four months, so the Democrat is told, have suffered the limit for her digression from the paths of purity. The defendant is a man 45 years of age, and who has been married. The Democrat or no one else wants to see Mr. Liveringhouse suffer unjustly, but there can be no circumstances in this case that will excuse him in the slightest if guilty.

A folder from Nels Grimley denotes that he now in the real estate, insurance and loan business in Seattle. Mr. Grimley is said to have made a potful of coin on the property he bought when he first went there, but that story of him digging up a lot of it to the Democrat is all a mistake.

"IT SAVED MY LIFE"

PRASE FOR A FAMOUS MEDICINE

Mrs. Willard tells how she tried Lydia E. Pinkham's Vegetable Compound...

Mrs. T. C. Willard, of Manning, Iowa, writes to Mrs. Pinkham...

"I can truly say that you have saved my life and I cannot express my gratitude to you in words."

"Before I wrote to you, telling you how I felt, I had doctor for over two years steady and spent lots of money on medicines...

"When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, headache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, which removes such troubles."

"No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass."

"Whinver annybody offers to give ye somethin' fr' pawthin' or somethin' fr' less thin it's worth, or more fr' somethin' thin it's worth, don't take any chances, yell for a polisman."

There is one satisfaction doing business here that you will not find in any other store in Wayne, and that is you will never get something for nothing. We never pat you on the back and tell you that you can have any article less than it is marked. There is another satisfaction in trading at this store, that please remember, and that is that you can't buy anything here for more than it is worth. Now the same thing can be said in regard to buying something for less than it is worth. We never sell any goods less than they are worth. Of course our competitors say we do, but we don't think so. We have some goods each year that get out of style and then we don't consider them worth half the price and sell them that way. If you trade here you will not have a chance to "yell for a polisman" for you are always safe here. Can you give us any reason why you should not do business at this store? You may not like us, but can you afford for that reason, to trade with someone you like and pay more than we sell clothing for. This store has everything to induce you to try it. Our stock is much larger than other stores in Wayne. It is clean and up-to-date. The salesmen are experienced and own homes in Wayne, are settled for good and have an interest in the business, therefore they are anxious to make you a permanent customer. Think this matter over if you are not a customer and you will surely be convinced that it is Justice to yourself to trade here. We are now ready for summer business and can show you anything you want. Come in anytime and look the stock over, and try on a few coats of our hand made warranted suits. If you have never had on one of our best made suits, you will be surprised how much more comfortable and better fitting they are, than other merchants sell. They don't cost any more than other merchants ask for the hand-me-down kind.

Look into this matter and it will pay you. Come in and let us satisfy you that everything in this "ad" is true.

W. B. HUGHES, AGENT

BY DAD.

By dad, I'm glad to see the Sioux City ball team up at the top of the column again. Funny how we always feel like cheering the victors and making sport of the defeated.

They do say a Wayne music teacher has a new way of "counting time," "19, 13," etc.

Some of the "young bloods" tell me the DEMOCRAT's prediction as to "some little girls of Wayne" has already come true; too true. The "young bloods" are therefore somewhat nervous.

Jew wizz! but doesn't Eph Cunningham get up and pound for the opening of Logan street, this week. Sorry to have made that allusion to you on another page, dear Herald, it makes me feel even worse to believe that it is about a horse and horse, and you are wrong this week. It looks as though the railroad company did have just as mortal a sinche of the street as they had on the republican legislature last winter.

Father Haley is a preacher to be admired, in all things no doubt, but his sensible, logical and practical views on the drink habit are particularly refreshing after years of experience with the average preacher of making people temperate by force and the misuse of our courts and jails. Education, teaching, pleading and praying are the great forces Father Haley employs to make people temperate and decent. For his illustrated lecture which he will give at the opera house next Thursday night, he has just procured at great expense a large number (57) of views of the effects of the intemperate use of intoxicating beverages. The views may be good medicine but I believe that Father Haley's words and a look into his fearless, benign and open countenance will be even better.

Speaking about drinking, I've about come to the conclusion, by dad, that the old saying that a man can't get hurt when his hide is full of booze, is all a mistake. You all know what has happened here in Wayne, but here is a more "horrible example" from the town of Vermillion. (When I was up there a few years ago one of the very jolliest acquaintances was Tom Quinn who ran a dray line. Tom had one of the nicest homes in that beautiful little city; a handsome wife and two precocious children whom I know he worshipped. Last week I noticed in a Sioux City paper that Mrs Quinn had received the insurance money on her husband's life, and of course wondered what had happened to jovial Tom. This week I met another Vermillion acquaintance, D. W. C. Nichols, who is endeavoring to organize a local lodge of the Brotherhood of American Yeomen. "I don't think the papers gave an account of Quinn's demise," said Mr. Nichols. "Tom had been drinking hard the past few years. Four weeks ago last Sunday he and I got drunk together. The next morning Mrs. Quinn went out to the barn to see if she could find Tom. At first he seemed no where about, but finally she espied his feet sticking out of a stall. Pulling off a pile of blankets she found her husband—dead. The only explanation of the sad affair is that Tom's companion, full to idioicy himself, piled the heavy blankets over poor Tom's face instead of his feet, and the helpless victim was smothered to death."

And all this happened in a town of prohibition, where they make people good by force—or kill them with drug store or hole-in-the-wall whisky; where they a ways have some boot-leggers in jail at a cost of thousands of dollars per year; where they have at least ten drunks to Wayne's one; where the college boys (one occasion at least) stole and drank an entire stock of liquors—from the city jail—while here they don't even take peruna. So much for prohibition. Stand up for Nebraska! We'd rather break our neck every day in the week than be smothered to death.

A resident of the humbled Third ward tells me three old bachelors have about corralled three little girls over there, that is, judging conditions from what happened when he was young and his senses were a little more acute. My friend further says it is "tit, tat, toe; three in a row;" the sparking it is something fierce; I wonder when they'll go.

"Mr. Walters," "The Golden Democrat," was the striking and very in appropriate address on an important looking envelope received in this den this week. How people do get things mixed up.

By dad, what's the matter with Rosewater? If you want something richer and racter than any old story ever printed in this column, look up yesterday's World-Herald, and it might be said the Bix isn't much better. Just how an old and experienced sport like E. Rosewater could fall, into such a mess is a conundrum. Talk about your hayseeds and Reubens from the corned barynards!

While trying to drive a double team across the railroad track, last Saturday Sam Owens lost one of his horses. It was raining and the approaching train was not noticed. The driver tried to pull the team back but one of the lead horses was struck by the engine and the animal tom loose from the team and hurled off the right-of-way and through a wire fence, killing it. The other lead horse was knocked down but only jarred and scared.

Dennis Kelleher was in town yesterday, and while still looking rather sickly we are glad to state steadily getting better.

The weather man predicted more rain for today, but we hope his name is—Bicks.

When you buy clothes, pay enough.

Buying a suit simply because it's low priced seldom accomplishes what you think it does. You think it's economy; more likely it's waste.

You say you can't afford all-wool clothes; the truth is, you can't afford anything else. Mercerized cotton fabrics may look good; they may be lower price; they certainly ought to be.

But all-wool means a lot of things besides the texture of the cloth; it means satisfaction in service; more than that, it means the self-respect which wearing the real thing brings. Wear all-wool because it pays you; the true economy. That's what our label means; all-wool economy; a small thing to look for; a big thing to find.

W. L. ROBINSON, Carroll, Nebr.
Roy Manning left Tuesday with a car load of goods belonging to Geo. C. Merrill, for Steam Boat Springs, Col. J. R. Manning who has just returned from that place says there is prospect for a big boom—if they get a railroad.

Harrison Won The Race.

Frank Hagan and "Gill" Harrison ran a foot race, 200 yards, for \$50 a side, Harrison winning pulled up. The scratch was at Sixth and Pearl streets, and the finish at Pearl and Fourth streets, two long city blocks.

The two got away to a pretty start and raced side by side to the first crossing, where Hagan began to show signs of tiring, as the pace was merry. The first block was stepped in 13 seconds, good time for amateurs. In the middle of the last block Hagan hit one of his quarters, jumped into his hobbles, and before he could steady himself, Harrison, who is tall, long legged and has been in training with the horses at Woodland, romped under the trolley wire, traveling "high" wide and handsome.

Hagan declared he has been out of training for months. He stepped the first quarter with a wonderful burst of speed, but when he got into the sloppy going he showed he is not properly "legged up." All he asked after the dash was a chance to repeat, and next month, after he has trained, the contest is to be run over for the same amount of money.—Sioux City Journal.

Robert Ahern died at the hospital in Sioux City last Saturday, where he was taken by his brother, John Ahern last week. The latter went down late Sunday night on a flood repair train and attended the funeral Monday, the interment being at Sioux City. Mr. Ahern of near Carroll tried to induce his brother to go to the old home at Dubuque, Ia., away last fall, but Robert insisted on caring for himself here in Wayne.

The Presbyterian church pipe organ got here Wednesday, some twelve dry loads of it. It is now being placed in the church and by Sunday week will be ready to pipe out its soulful tunes.

S. E. Alexander was an arrival in the city Wednesday and will visit here for a few days. Mr. Alexander is doing a great business with his mining company in Colorado; has the plant now in producing condition but is looking for bigger capital to increase business. He has recently gotten out some very original advertising for the "King Solomon" company, the best we have seen on paper.

Fred Schreiber and E. J. West, business men of Wisner, were here yesterday morning looking at Wayne's light plant. The gentlemen had been in numerous cities hereabouts and stated that this city was the best equipped and fixed up on the light proposition of any they had seen.

Mr. and Mrs. R. Philoe will leave next Wednesday on a three months trip to southern California and Oregon and Washington and visiting their daughter and son-in-law at Portland, City Attorney A. R. Davis went to Onawa, Ia., yesterday to visit his mother and brother until Monday.

Hi Griggs will build his dipping plant on ground a half mile east of the depot on the S. B. Seace tract.

J. H. KATE. Mrs. John Sherman went to Sioux City yesterday. Mrs. Frank Tracy was here from Winslow yesterday.

The DEMOCRAT is informed that Mrs. Jas. Sneath was married on Wednesday to James Sneath, over in Iowa. The lady's new husband is a nephew of her old one. Twelve or fourteen years ago Sneath, having considerable property, operated the restaurant next door to this office. Being a cripple and confined to a wheel chair, he married a young girl in his employ. Years later the girl appears on the scene; the young wife gets a divorce; a piece of the old man's money and now a sound man physically for a husband. Here's hoping such stultusity has turned to everlasting matrimonial bliss.

Win. Spike returned home from Lincoln Wednesday, looking healthy and happy.

Jas. Porterfield was in Norfolk Wednesday night.

Mrs. Sigworth and son Dwight will return from Stanton Monday, where Mrs. Sigworth has taken care of her brother Nathan's children for nearly a year. Mr. Chace, who went to Battle Creek, Mich., last week, expects to arrive home at Stanton, with his wife, the latter end of this week.

Charley and Joe Chace drove up from Stanton Monday to visit relatives.

Who Named the Logan.

Lyons, Nebraska, May 16, 1905. EDITOR DEMOCRAT: I notice in the "Whose Who" article in the Wayne Democrat that the inference is made that the Logan Creek was named in honor of John A. Logan or some other not ed Logan. But such is not the case. It was named for Logan Fontanelle, who was killed by the Sioux Indians some where near the present Norfolk in 1855. Logan Fontanelle was an Omaha Indian Chief and was on a hunt when overtaken by the Sioux. He could not get away from them, but his horse got mixed down in a ravine and then the Sioux Indians surrounded him. Fontanelle fought to the last and killed several of them before he was killed. M. M. WANSER.

Society Notes.

The "Princess Pink Party" given by Miss Maude Benschoff and her pupils last Friday night was a most interesting and the prettiest school entertainment the writer has ever attended. The schoolroom was artistically decorated with pink and white bunting and roses and held ones attention until the curtain was drawn back making one think they were in fairy land as they beheld the teacher and her large school of girls all prettily gowned in pink with white ribbon trimmings. After a very interesting program, cake and cream was served to about ninety guests. Miss Benschoff who has been with us four years is an excellent teacher and showed her ability to train children, both in the rendering of the program and the orderly manner in which the "Princess Pinks" served the refreshments.

ONE WHO WAS THERE,

Dr. and Mrs. Wrightman gave a most enjoyable 6 o'clock dinner to a few friends last Tuesday.

The young ladies entertain their gentlemen friends this evening to dinner at the home of Miss Edna Neely.

Messrs. and Mesdames Walter Weber and M. S. Davies entertained the Acme club ladies and husbands last evening at an elegant, three-course luncheon. The spacious parlors had been artistically decorated in the club colors, blue and yellow, while a pink carnation attached to the place card designated places at the table.

Mrs. D. S. McVicker went to Wakefield yesterday to visit her father, John Beckenbauer, who is very ill and not expected to live.

Miss Leona Hunter will arrive from the west this afternoon on the 2:15 train. Judge Hunter received a letter yesterday to this effect. Wayne people should wake up and give Miss Hunter a royal reception after her four years long absence in the Philippines.

Charley Brown has washed away all the stains from Schlitz Place—painted the institution white.

W. F. Richardson and Miss Bessie Lucky have been re-engaged to teach at Carroll another year.

Henry Hellogg went to Boyd county yesterday.

Veterinary Cadwell has been having his share of trouble this week. He had a lot of meat smoked by one of the butchers, but thinking it was not done to proper color dug a hole in the ground and gave it an extra smoking. During this period some cuss who wanted pork very badly stole the whole mess. Doc was pretty warm about it and swore out a search warrant and had Sheriff Mears search the Tom Bell premises, but no pork was found.

The following from the Sioux City Journal of Tuesday refers to our old friend and much beloved (?) neighbor, Harry Hirsch Esq.: "Harry Hirsch is a gentleman of leisure, and in consequence thereof he was soaked \$30 or eight days by Police Judge Sam Page on the charge of disturbing the peace. 'The man is simply no good' said D. M. Evans, the prosecuting witness. 'He won't work, and we have taken his wife and children into our home. His wife washes for a living and he has been causing all sorts of trouble, notwithstanding that he has been warned repeatedly to keep away from the place. When I came home the other day I found him speaking his boy with the hat of a sinner. When he came to the house and began to abuse his wife. The woman is trying to make a living for herself and the children.' 'A man who won't work and does nothing to abuse his wife who is doing the best she can need expect no mercy from his court,' said Judge Page. Hirsch attempted to prove that he wasn't working, but made an awful failure of it.

Normal College Notes.

Several former students have returned and will continue the remainder of the school year.

The streets around the College grounds were nicely graded this week and will be kept in splendid condition.

Nearly 1000 catalogues and 500 personal letters were sent out the first part of the week. More or less advertising goes out daily.

A report from Colby College shows Fred Pice to rank first in three of his studies, and second in the other two. His work is very satisfactory to the College.

W. E. Sweeney, formerly of Emerson, after spending a number of terms here in 1901 and 1902, went to Lyman County S. D. and engaged in business. He made us a visit last week. He enjoyed his term of service in the State Legislature.

Last Sunday's meetings of the Christian associations were extra good. The young people are doing a good work in these associations and plans will be made to strengthen this work for next year. The great value of such organizations is not appreciated by a few.

Prof. File went to Battle Creek this morning where he marked the address to the High School grading class tonight. He will go to Tekamah tomorrow to address the county school convention which has two delegates from each school district in the county.

That the summer term which opens June 12 will be well attended is evident. Many students will have to be accommodated in the homes of our people and the president would like for those who can take rooms without board as well as those who can take board to advise him concerning same by June 3.

The college correspondence shows that the enrollment for the new school year which begins the 4th of September will be large. Many will enter to complete the teachers and scientific courses. Graduates of several high schools are planning to spend a year here before going to the University or other advanced colleges.

Miss Shinbur of the '98 class taught two years after graduation and took the full university course. She is the general secretary of the city Y. W. C. A. of Buffalo, N. Y. In a recent letter, she says that the six terms spent at the Normal won the most profitable in her experience. It was her starting point in Y. W. C. A. work. She is a great worker and will develop into a great woman.

Different committees of the graduating classes are at work selecting programs, class colors, mottoes, caps and gowns and attending to other matters looking to the affairs of commencement week which will begin August 1st and close the 18th with Alumni Day. Each one feels that this year must outdo all former years and the classes have the numbers as well as the ability to do it.

The epidemics of Nebraska, South Dakota and western Iowa have made dates of 1% to all who attend the summer term. Students will pay full fare on coming and bring a certificate from their agent. The fare on returning will be one-third full fare. This will save students from a distance quite an expense and is appreciated by the College as well as by the students.

HOSKINS

The frame of Gals. Shroeder's new house is up and we hear it to be one of the best buildings in town.

A nice linen waistings and ready made shirt waists at the milliner store.

The Drug store changed hands this week Louie Zeimer is the new proprietor.

Nora Zeimer had a birthday party Monday.

The musical entertainment and supper given by the Band boys last Friday evening was probably one of the best ever given at Hoskins and had the largest attendance.

The people of Hoskins were very much surprised to see the sun shine again.

Now when the town builds a band stand as of course it will.

Hoskins may have its faults but they don't seem to warrant a man in being so very anxious to get out of the town as Dick Rohrke was Sunday night and Monday morning.

FINE TAILORING

We have received an excellent shipment of spring and summer, fine woollens. The line is of the best in every respect, and we guarantee every garment as to style and workmanship. The prices are the lowest consistent with good work. Give us a call, we are always pleased to show goods whether you buy or not.

Why Suffer From Rheumatism? Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords, and makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping for a short relief from suffering have been happily surprised to find that after a while the relief became permanent. Mrs. V. H. Leggett of Yamou, Tennessee, U. S. A., writes: "I was a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain. For sale by Raymond's Drug Store."

The Richest Man in the World.

The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first signs of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney and disease, which certainly would have cost me my life." Wayne Drug Co.

Quite a Big Flood.

The continued big rains of last Monday, Tuesday, Wednesday, Thursday, Friday and Saturday of last week made lots of water and a regular sea of the valley south of town by Sunday morning. At six o'clock on Sabbath it was one vast flood from the Fair-lamb or Faircan Creamery over to the Nangle farm. Dead animals and all kinds of bric-a-brac went floating down to the Gulf of Mexico. About ten thousand brick at the Sherburne yards were rendered useless. Further down the valley, near Wakefield, several miles of railroad track were pith out of business, the water washing the earth from beneath the ties. The 2:15 train from Norfolk was compelled to return to that city late Sunday night. It was made up with a couple of extra coaches carrying a big lot of club women to some doings in Minnesota, and there was lots of kicking on their part. The road was made possible by ten o'clock Monday morning. In the vicinity hundreds of pounds of fine, big fish were captured as the flood receded and left them floundering in the mud. One man picked up 13 that weighed 135 pounds. The flood didn't stay long enough for any of the animals to get as far up as Wayne, or else they didn't come because Wayne does not furnish any Sunday "fish bait."

Since the article on another page relating to Logan street was printed the DEMOCRAT has made further investigation and finds that the tract of ground or street that should be owned by the railroad company by R. B. Crawford in 1880. Later to F. H. Peavy and by Peavy to the C. St. P. M. & O. Railroad, the right-of-way included in these transfers. It has been eleven years since the railroad company closed up the street, therefore perhaps making the company owners of the street by adverse possession if nothing else. But all this and more cuts no serious figure to the town on the proposition of opening up the street.

Gene Hansen arrived from St. Paul Tuesday on a visit.

Will Put in Steel Bridges.

County Commissioner Cullen was in Wayne Monday, Tuesday and Wednesday, in company with Commissioners Owen and Russell taking an inventory of the necessary bridge work in this end of the county. Messrs Russell and Owen are now in the west end of the county doing a like service with Mr. Cullen. Mr. Cullen tells the DEMOCRAT they plan to put in at least five or six steel bridges this year. One will go in south of John Owen's place, one south of A. B. Clark's, two in the First district and two in the Third; one of the latter to be just south of Winslow.

Gene Huse leaves the first of June for the Pacific coast where he will probably again locate in business.

Union Medium Jr. Fallerton

UNION MEDIUM JR., 213 3-4, is a rich Chestnut horse. Weighs 1150 pounds with good style and fine disposition. As to his racing ability may be seen by the summaries of his races in his last two seasons campaign through Iowa, Nebraska, Missouri, Illinois and Kentucky. He was defeated but once and that in a race with a great runner from the Middle West, the Medium Jr. weighing plenty of speed. His two oldest colts Sioux Chief and the Medium Jr. weighing close to 1200 pounds at three year old. Sioux Chief took a three year old record in winning race of 2:19 3/4 and the Medium working a full mile in 2:15.

FALLETTON is a seal brown horse with good style and action, with extra good feet and legs, stands 15 hands and weighs 1000 pounds. He is bred by the great Fallerton, 2:19 3/4, dam Elena 2:20 3/4. His breeding is equaled by few and second to none.

SIoux CHIEF three year old record of 2:19 3/4, is an extra large fine colt. Is a handsome Chestnut horse, stands 16 1/2 hands and weighs 1260 pounds. Was the fastest three year old pacer in Iowa, Dakotas and Nebraska. He is a son of Union Medium Jr., 2:13 3/4 dam, Scamra, dam of three, with records better than 2:15. This grand young horse crossed on common mares cannot fail to get large valuable road horses. Service fees, Union Medium Jr., \$25.00; Fallerton, \$25.00; Sioux Chief, \$20.00. Drafts all Over the World

The State Bank issues drafts payable in any of the leading centers of the principal foreign countries as well as in the United States and Canada.

These drafts can be obtained for any sum over \$1.00.

The party named as payee can deposit them to his credit in regular bank or, upon proper identification, cash over the counter at the bank which they are drawn.

Bank drafts cost less than Postoffice or Express Money Orders and are safer.

Iron Clad

It's all right.

Let the boys climb trees. If they wear Iron Clad stockings you won't have to sit up late mending them. Our No. 10 Iron Clads are made with triple leg, heel, and toe, by Cooper, Wells & Co., St. Joseph, Mich., and are just the kind a boy needs to withstand the constant hard wear to which his stockings are subjected.

Hereafter there should be no demand for either state or national supervision of any kind of a bank. Bank inspection is a farce. The publication of bank statements is no good to anyone except the publisher who gets paid for the publication. If your banker does not remain honest there is no power to save the bank—he is private, state or national—from destruction.

A Creeping Death

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at Raymond's drug store.

Juggling With Dynamite

Is no more dangerous than to neglect kidney disorders. Foley's Kidney Cure corrects irregularities and has cured many severe cases after other treatment has failed. It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for about two years," writes A. H. Davis of Mt. Sterling Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Wayne Drug Co.

Dog Owners.

The tax on dogs is now due, and I shall proceed to execute or dispatch all canines, upon which tax has not been paid, on and after May 12, 1905. If you want to keep a dog—a live one—pay the tax promptly.

Saved by Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her: so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At Raymond's drug store, price 50c and \$1.00; guaranteed. Trial bottle free.

The Logan Street Matter.

Probably no movement was ever made for any town's betterment that a few "knockers" did not get out with their clubs and go pounding "agin it," if for no other purpose than to show they are on earth. The plan to open up Logan street across the railroad tracks in the town of Wayne furnishes an example of this kind, and while there is no sound nor sincere argument advanced for not opening the thoroughfare to travel again, there are quite a number of fellows backing against it, where there should be not one, not even excepting Depot Agent T. W. Moran nor R. Philleo & Son. The first grand theory advanced by the opposition is that the street belongs to the railroad company and the town would find it too expensive to buy it. Without stopping to learn whether this was correct or not the Wayne Herald opposes the opening of the street on this circumstance. As a matter of fact the street crossing was open for a number of years, and so one of the original town plat owners tells the DEMOCRAT, it was intended to have a street there when the town was originally platted. Under these circumstances the railroad company has no more right to possession of the street than has R. Philleo & Son; no more in the fact than has the latter firm a right to fence up a public highway—alley—and then claim they own it. As the DEMOCRAT looks at it, the railroad company and all parties interested in possession of the right-of-way should get together with the city administration, and have the whole matter adjusted satisfactorily and to the good of Wayne. So far as the DEMOCRAT is able to learn the street is going to be opened up, no firm ass about it even if it is necessary to move the stockyards, railroad yards and last but not least R. Philleo & Son's coal sheds.

Safety From Tornadoes.

The World Herald's barometer suggestion elicited this inquiry: Omaha, May 12.—To the Editor of the World-Herald—Dear Sir: I am a subscriber to your paper and desire to know in what way a barometer will act as a safeguard. It may denote the seriousness of a storm, but how shall I protect myself against it. Yours truly, H. C. READ.

Of course, the barometer is only a warning of danger. Protection is possible in various ways. The cyclone cellar or cave is available only in rare cases, and on that account might as well be left out of the consideration. Anyone, however, can take such precautions as closing doors and windows, thus reducing the dangers from suction and collapse. To most people, also, the refuge in the cellar is possible. In the Herman tornado a number of years ago many persons occupying houses that were ruined escaped death by running to their cellars. More might have done so. There is generally time. There are generally a few moments of lull or calm just before a tornado strikes. Often it can be heard approaching. Sometimes it can be seen. It would be folly to run to the cellar in every heavy storm, and for that reason a barometer is valuable, by the storm by its action you can judge whether the cause has the character of a tornado.

THOMAS A. BRIDSON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which give us our diseases. Next to the actual bacteria of disease, the mosquitoes and flies are the most dangerous enemies of man. The mosquito with its bite inflicts our worst troubles. The fly, with its spongy feet, collects the invisible germs of disease, spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

Dr. Pierce, the eminent physician of Buffalo, N.Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in these germs of disease." Every healthy man has five million red blood corpuscles in every square centimeter of blood. The best tonic for increasing the red blood corpuscles and building up healthy tissue in the body is Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousands.

Many popular patent medicines of today are made up largely of alcohol and will startle the circulation of the blood and make them weaker for resistance. What is needed is an alternative extract, like Dr. Pierce's Golden Medical Discovery, which will assist the stomach in assimilating and taking from the food the elements so required for the blood, also an alternative that will assist the activity of the liver and cause it to throw off the poison in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the attacks of the germs of disease which everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate or where sunlight and good air do not penetrate.

Accept no substitute for "Golden Medical Discovery." There is nothing else as good for diseases of the stomach, blood and lungs.

Protracted constipation means headache, heart-burn, sour stomach, foul taste in the mouth, biliousness, pimples, and palpitation of the heart. Constipation is promptly cured by Dr. Pierce's Pleasant Pellets. One for mild cases otherwise two.

Two very unfortunate women in the United States this week, Missie Hite of Muncie, Ind., talked in her sleep about several other men, aside from her husband, that she dearly loved, and Mr. Hite got a divorce from her on those grounds. Mrs. Fred Kisman of Delaware, Ohio, awoke after a night of sound sleep and found she was suffering from a badly fractured jaw. Hereafter they will try and do all of their talking while awake if it is possible.

The boss of the Manson Democrat says: "The newspapers are asking 'Why are young folks dissatisfied with work on the farm?' Maybe it is because they are growing more like a whole lot of young folks in the towns—so infernal lazy that they have no heart to do anything but lay around and eat up what the old man earns and the old woman cooks."
