Letter From C. H. Bright.

Gapan, N. E., P. I., Feb. 19, 1906.
I shall now attempt to fulfill my promise to write about the people and the country.

Gapan with its barrios (suburbs) contains eleven and twelve thousand people. It is a typical Filipino town. The great majority of houses are built of bamboo and covered with nipa. The nipa roofs are made from the leaves of the cippa palm. They are made up into sections about a foot wide and perhaps two feet long resembling a bunch of shingles. They are laid in the same manner as the shingles and are tied on with strips of rattan. In fact these houses have a mill in them. Frame houses are built by setting large posts in the ground and planing the frame work to them with wooden pliers. There are a few large houses made of brick. The houses are arranged in streets and cross streets something like our towns, but much more irregularly. Horses, chickens, goats, etc., are invariably kept under the houses. I have not seen a barn in the Philippines. The floors of the houses are about six feet from the ground and the houses are all one story.

There is no bank, no paper, no factory of any kind, no telephone, no street lamps. There is a post office, but it is not of sufficient importance to have a money order department. Fewer than twenty-five newspapers, no magazines, and almost no letters are received by the people. They read nothing and know next to nothing about the world. A few of the most advanced pupils are taking an interest in learning and occasionally buy a book. There are a few who know something of Spanish. However, not ten percent of the inhabitants know any Spanish.

The governing body of the town consists of a president (mayor) and twelve councilors. A treasurer, secretary, justice of the peace and a few policemen are appointed. Elections were held in December and there are but few municipalities in the Islands where there were not charges of fraud. The rank and file of the Filipinos know nothing about government. Many do not know how they are governed now, except for a vague idea that the U. S. is doing it.

There is a home-land law in force here now and it is hard to get them to understand that they can get this land for nothing. Much of this, I am told, is very desirable land. Many of them are still doubtful of the sincerity of the American Government. This is perhaps because of their own character. They are long on promises, but short on fulfillment. One prominent Filipino of this Province made the statement that there is not a Filipino in this province who would trust implicitly in a business transaction, not even his own brother. This may be an exaggerated statement, but it is the common experience that they are very scarce. I have been dumb-founded at catching some of the best young men and women in school handed in a lie with little or no provocation. They have been aptly characterized as "The people who never say no and never do yes." I hope the statement made by a prominent writer "that the essential character of a people is not changed by education" is not true. They are up with American children in branches requiring memory or imitation, but away behind in branches requiring reasoning and originality. The progress they have made in education since American occupation is certainly encouraging. But the complacency with which they sit in their nipa shacks, and smoke cigarettes, chew betel nut, gamble, groom roosters for the cock-pit and neglect to develop the country is very discouraging. Still, with proper handling, I believe they are capable of great development.

They do not take up with American ways of living, dressing, etc., except the men in dressing. But the majority of the men wear their shirts outside their trousers. It is really more comfortable than the American way, and when one becomes accustomed to it, they look very well in their clean white shirts and trousers. Most of the women smoke and chew. It is no uncommon sight to see boys and girls eight and ten years old smoking. Sometimes they begin even younger than this. Mothers sometimes keep their children home from school to care for the younger ones while she goes to the neighbors to gamble at cards. It is a lamentable fact that many Americans even among the teachers do not set good examples in these respects. The moral standard of the Americans here is lower than the standard of the same classes at home. Many admit that they do things here that they would not do at home. It is proof that when the restraining influence of our strongest and best men is removed the average man tends to retrograde toward the savage state.

Many of the children go about the streets dressed in little shirts that need to be "retailed" and some are stark naked. When we go to San Isidro, the little "brownies" scatter in every direction. That is, some of them do while others stand and grin at us. I have actually met a boy on the street also stark naked who spoke to me in pretty good English. Of course they are not allowed to go to school without having on two garments at least in the central school. Occasionally a boy is seen in a barrio school in his "shirt-tail." Mrs. Bright was quite shocked at first, but I told her I could not see but what they looked about like other "kids" except they seemed to be more "tanned." Many of the women wear loose-garments fastened around them just under the arms. So we have high society in the Philippines at least in dress.

The methods of farming here are very primitive. They are now engaged in thrashing rice. They cut it with a knife (bol) which looks like a large butcher knife, and tie it up in bundles. They stack and stack

Married.

At the home of the bride, Mr. and Mrs. W. F. Nieland, last Wednesday evening, Miss Laura Nieland to Dr. C. E. Brown of Emerson. Several dozen friends and relatives witnessed the happy event, Rev. C. J. Ringer performing the ceremony. Mrs. Brown as Miss Nieland, taught school at Emerson. Mr. Brown, a young dentist, practiced his profession there, and what further explanation needs the public. The handsome and cultured bride is the eldest daughter of the family, and "the man of her choice" a rising young man who will make a distinction for himself in his profession. THE DEMOCRAT extends best wishes.

The marriage of Miss Alice Winifred Mears to Birch J. Doty, solemnized last Sabbath, will be a great surprise to the bride's Wayne friends, a sort of April fool joke on them, for the event had been looked forward to by some of the knowing young people, and Miss Mears had been promised a grand chaperon when it occurred. The marriage was simply a family party, not even relatives being present. Rev. Duley performing the ceremony. Mrs. Doty went to the Sunday afternoon train unattended, her husband and Mr. Mears following so as to avoid suspicion. They went to Manila, Ia, where Mr. Doty is in the jewelry business. THE DEMOCRAT extends congratulations.

ried to a bamboo pole which is carried on their shoulders, we know it is a Cholera victim. I think four is the greatest number that have died in one day. It is not regarded as being very serious until they go at the rate of twenty or thirty a day. There have been no cases for two or three days and the authorities think they have it about stamped out. Americans do not seem to fear it as the germs are taken into the body in food or drink. Eat kills the germs, so we boil all our water, cook all food thoroughly, and heat the dishes used at meal time. About three weeks ago I was attacked with a pain in my bowels and was a little uneasy for a while, but it soon proved to be nothing very serious.

The people here had torch light processions every evening for about three weeks. Men, women and children take part in them. They carry candles that have been blessed and usually two or three images of the saints. They call it the San Roque. San Roque is one of the saints who was sick in bed.

Cholera and this procession is for the purpose of invoking his aid in the present epidemic. They have passed by here several times late and awakened me from pleasant dreams of home which I was enjoying much better than my case.

We came over here for the experience and I think there is no doubt but we will get plenty of it. CHAS. H. BRIGGS.

JEROME DECLARES IT WAS CRIMINAL

Argues in Direct Contradiction to Former View on Campaign Contributions.

New York, April 3.—Arguments on the habeas corpus proceedings in the case of George J. Perkins, former president of the New York Life Insurance company, who is charged in a warrant issued by Magistrate Moss with the larceny of \$48,000 belonging to the policyholders of the New York Life, which he advanced to Cornelius X. Miles, treasurer of the republicans, national committees, were made before Justice Greenbaum in the state supreme court.

Decision was reserved. Briefs will be filed Monday by contending counsel and then Justice Greenbaum will take the matter to the court. Mr. Perkins' arrest under advisement.

District Attorney Jerome, who a few days ago gave the opinion that the campaign contributions did not constitute larceny of any other crime argued for the prosecution. Formerly Justice Williams, Chief Justice Lewis Deland, appeared for the defendant.

Justice Showed Interest. Justice Greenbaum took the liveliest interest in the argument and constantly interrupted the lawyers with questions.

Mr. Jerome said that criminal intent, according to legal authorities, was to appear from all the circumstances of the case.

The question here, he continued, "is as to the right of Mr. Perkins to take the money out of the policyholders' pockets and use it for political purposes." He argued that the money was taken from the policyholders, and that it was not for their benefit.

Justice Greenbaum asked if you maintain that this was a legal act, what classification do you put on it? Mr. Jerome replied that it was a criminal act, and that it was both, and that it was a crime.

DOWIE DEPOSED

His Wife and Son, Together With Other Adherents of the Faith, Throw Over the Old Leader.

Chicago, April 3.—At a meeting yesterday of 400 adherents of the Christian Catholic church at Zion City, of which John Alexander Dowie is the pastor, the first apostle, Dowie's authority was repudiated and Wilbur Glenn Voliva, who for some time has been conducting the affairs of the church, elected in his stead.

Most of the officials of the church were present at the meeting and Dowie was denounced by many of these as having wasted the money in extravagance. The meeting was held to hold that he had knowingly misled, and John G. Speicher, the former overseer and once second in command to Dowie, who was recently deposed, declared Dowie to be insane.

Mrs. Dowie in her address also upbraided the church for its failure to follow the receipt of an 800,000-dollar fund from Dowie in Mexico, which he had temporarily ordered the discharge of Deacon Alexander Granger, financial manager of Zion City, to be the pastor of the church.

The meeting was held at the residence of the pastor, and was attended by a large number of the church members.

Justice Greenbaum asked if you maintain that this was a legal act, what classification do you put on it? Mr. Jerome replied that it was a criminal act, and that it was both, and that it was a crime.

RECIPROCITY WILL NOT BE TAKEN UP

Secretary Root Concludes This From An Examination of the Senate.

Washington, D. C., April 3.—Convinced that the reciprocity treaty with Great Britain for the establishment of closer trade relations between the United States and Canada are out of the question at this time, Secretary Root was confirmed to abandon the tariff question for the present, and is busying himself with other matters of vital interest to this country and Canada.

Although there was much clamor for tariff revision and modification early in the session, it failed to gain many supporters, and the recent announcement by Secretary Root that he would not take up the question means that no tariff legislation will be passed by the end of the session.

Secretary Root's decision was based on the fact that the Senate is not likely to pass any tariff legislation at this time.

ANTHRACITE MINERS ORDERED TO STRIKE

Mitchell Admits Men are to Quit Work Pending the Negotiations.

Indianapolis, Ind., April 2.—The national convention of the United Mine Workers of America adjourned sine die yesterday after authorizing the national and district officers to sign a wage agreement with any coal operators who would agree to pay the scale of 1903 or its equivalent for a period of one year.

The action of the convention will bring out of the mines of the country 80,000 men in the anthracite and bituminous fields. These will remain on strike until settlements have been signed by districts or with individual operators.

Don't Be Satisfied

To be satisfied is not a true instinct of an American citizen. The true American people are never content to live present conditions alone, but are ever investigating to find out how they can improve and make life more pleasant with less work. The merchant you are trading with may be an honest man and is selling you clothing at honest prices, but if he is not a true American citizen and has not the ambition to investigate every factory that makes clothing he can not give you the full value of your money. If he fails to have the ready cash to buy with he can not secure the goods at prices that will allow him to sell you clothing as cheap as we sell it. Don't be satisfied with any merchant but investigate and get the full value of your dollars. We ask no greater pleasure than to show you that no merchant, no matter where he does business, will give you better clothing and for less money than we do. We are never satisfied and are constantly investigating every line of merchandise made that we sell, to secure the best and at the lowest price. Honesty is necessary in business, but to sit down with honesty will never secure the best bargains for our customers. We have the largest stock of clothing in Wayne county and it is bought for cash, after looking over every good line made in America, we secured the best bargains that money can buy. Will you please call at our store and see it? No matter where you trade call and see what we have, we will treat you courteously and if you then decide to buy elsewhere we will feel disappointed. Come in and investigate, don't be satisfied until you have seen our clothing.

Spring Shoes Spring Oxfords Better Shoes for the Money

If you think our talk about selling better shoes for the money is all hot air, just come in the store and see. If we don't convince you that our shoes are better, we will not ask you to trade here, and when you see "how much better" our goods are you will be glad to be a customer of ours. Our goods are all marked in plain figures and sell at what they are marked—no more, no less.

CHILDREN receive the same attention, and buy at the same price as yourself.

Now, if President Roosevelt comes to Wayne do you suppose he'll want to meet—a man who was skinned by a harness maker?

Sam Davies says that the girl who shuts her eyes when she shoots off a gun will also shut her eyes when she is kissed. Sam knows

I had a notion to proffer Mr. Bressler a suit of my clothes Wednesday morning, but early advice stated that he was feeling too bad to want anything but a night dress.

The commissioner's proceedings state that B. F. Feather was allowed \$1.25 for "vitality statistics." Wonder if this has anything to do with the "vitality" these old-timers displayed in the 3rd ward, during the late unpleasantness?

Ten Winside merchants and two traveling men are said to have spent three days hunting near Ewing last week, and all the game secured was a mud hen, but the traveling man who gave us the information did not state how many cans they shot.

The Iowa legislature has decided that the legal weight of a dozen eggs shall be one and one half pounds. The Iowa hen will please take notice that there is to be no more grafting. Every hen should be provided with scales in order to get the egg exact weight.

The first ward has decided that the saloons will not have to be moved to Bressler's park, not this year. The inducements held out were very flattering, and Undertaker Gaertner more than anxious to officiate at their demise from our ballfield; but the park is too near Belden to be accessible for 1st warders.

A Columbia City man had some Limberger cheese to ship, but the express company would not accept it, claiming that it would penetrate the other merchandise. A friend of the shipper suggested that he pack the cheese in a coffin box, which he did and delivered it at the depot as a corpse. He accompanied it as a relative. The express messenger, a native of Erin, occasionally took a contemptuous whiff of the supposed "stiff." Upon unloading it at its destination, the messenger asked the shipper: "Who is the fellow in the box?" "A brother of mine," "Well, yez has one consolation. He is in no trance."

TOO CLOSE FOR COMFORT.

Piepenstock Defeats Bressler by a Narrow Margin.

For the first time in years, or the history of Wayne, there has been a real scrap for the office of mayor, and William Piepenstock is the victor and Hon. John T. Bressler the loser. Under ordinary conditions there would have been no question about Mr. Piepenstock having a good majority, but while he refused to get out and make a campaign, or even allow his friends to do much for him, the Bressler aggregation left no stone unturned to uncover a vote. In the 3rd ward, as the returns indicate, they put up a regular "tooth and toe-nail" fight, and were able to corral many votes on the proposition that as mayor, Mr. Bressler would make Bressler park and that section of the city a beauty and joy for ever. As an instance, in the afternoon the Bressler carriage was taken out in the mud to convey all old men and indifferent voters to the polls. Men who have always opposed Mr. Bressler in every other campaign, lined up with him in the third ward, in some degree he was their neighbor in pioneer days, others for pecuniary benefit from the expected rush-room growth of the park, and perhaps a few because they feared the big man of much money. First, cooked John T.'s goose to a light brown. In the 1st the vote stood 66 for Piepenstock and 23 for Bressler; in the 2nd Piepenstock got 14 majority; and in the 3rd Bressler got the magnificent vote of 98 to Piepenstock's 47; giving the latter just six majority in the city. The balance of the ticket was practically the same. A. T. Witter, clerk; Rolley Ley, Treasurer; Pat Coleman, police judge; Geo. Stringer, alderman 1st ward; Theo. Duerig, alderman 2nd ward; Dan Harrington, alderman 3rd ward. Messrs Neely and Main on school board.

Elections Elsewhere.

At Randolph the anti-saloon forces made a clean sweep and that town will be "dry" after May 1st, putting five saloons out of business.

At Pender the democratic ticket cleaned up the law and order league, anti-saloon ticket, by a majority of 88 votes.

Norfolk went democratic by a hundred votes. \$30,000 sewer bonds carried.

Lyons went anti-saloon. High liens at Tekamah, same at Carroll, but Wausa voted to go dry, which will go hard on Pete Healy.

WANTED GIRLS—For laundry work. Payne's laundry.

About all the Wayne county teachers are attending the association meeting at Norfolk this week.

FOR SALE—South-east quarter of section 22, township 25, range 4. For particulars inquire at this office.

Geo. Lundburg returned to Lyons today after several days visit here. Mr. Lundburg is now dealing in lands and pretty well "healed," as the saying goes.

A son of Dr. Brady, the latter a nephew of Mrs. E. R. Chase, was bitten by a mad dog, at Slou City, Wednesday, and the child taken to the Pasteur Institute, Chicago for treatment.

The following article on the Huse-McCarthy scrap, is from the pen of Jonas Ecker of the Winside Tribune, who appears to know what he is talking about:

We are not particularly interested in this political matter as it is purely a republican fight, but there are parts of Mr. Huse's statement that do not agree with what we heard about the fee business long before he took the public into his confidence. We were told that when Sheibley commenced his libel suit, McCarthy retained Senator Allen to defend Huse, supposing this was enough legal ability to handle a case of such apparently little importance. Mr. Huse was not satisfied with this so he hired several local legal lights and it was their big bill that McCarthy objected to but paid. If this is true and Mr. Huse deliberately and very unnecessarily ran up the expense, it would be no wonder Mac roared or used the bad language he denies uttering.

Again, Mr. Huse dilates at length on the greatness morally and otherwise of Tom Sheibley, what a great and loving friend he was of the elder Huse and all that sort. We were running a democratic paper in Dixon county at that time and supported Mr. Sheibley for three terms as county clerk. At each of these elections he was bitterly fought by the North Nebraska Journal, then edited by Huse & Son, and nothing was left undone by the brilliant old man to defeat this dear friend. To old settlers who remember the elder Huse's vein of venom when writing up political opponents this great affection for Tom Sheibley will be amusing. Then again it is only fair to say that the commencement of the feud between Mr. McCarthy and Mr. Sheibley was when the former was county attorney and the latter county clerk and was the result of a suit to recover fees said to have been illegally retained by Mr. Sheibley, and as an outcome the supreme court decided that Tom must pay it back.

No one in this district is more disinterested in this scrap than the writer as he expects to take no part in the coming campaign but it is only fair and right that a little more light should be thrown on the subject. Mr. Huse has a perfect right to fight the present congressman, but the people also have the right to hear more of the details of his personal grievances are to be used as campaign matter. We are in no sense McCarthy's mouthpiece nor are not on the "inside" at all, but we cannot help but think it will take much more than has yet been raked up to remove a faithful, hard working congressman just at a time when he is in a position to do his constituents the utmost good. J. C. E.

College Notes.

Miss Randall of Holt county enrolled Saturday to remain till the close of the school year.

Miss Neihardt has been unable to meet her classes this week on account of sickness. Mrs. Pile has taught most of her classes.

Mr. Dowe of Pender came over with his daughter Monday. He left the young lady who will spend several months here preparing to teach.

Teachers and others who expect to see next fall are coming in now. Miss Hynde of Wakefield entered this week to remain till November. She takes the teachers' work.

State Supt. McBrien wants the College to prepare to accommodate 700 teachers this summer and it will be done. During the summer more can be cared for in town than during the winter. The assistance of citizens will be called for.

Excavating for the new dormitory began Monday. An effort will be made to get the building done for the summer term. The architect is working on the plans. An addition to the dining-room will be pushed to completion for the summer.

Mrs. Hajdie of Pitzer came over Saturday to visit her son Curtis who has been attending College since September. He completes the business course this term and will spend spring and summer on the farm. He is a bright manly fellow who will succeed.

Several young men will complete the business course this term. Some will continue in school, some will return to their homes where work awaits them, and others take positions away from home. The work of this department of the school has been very strong all the year.

Next term will open the 27th of this month with a large attendance for the spring term. The present teaching force will do the work for the term. Additional teachers will assist during the summer, as a large number of classes will be necessary and all who attend will receive the very best of attention.

Sunday afternoon, Supt. Wilson talked to the young men of the Y. M. C. A. His talk was not only full of interest, but was very impressive. About 50 members were present and enjoyed the meeting greatly. Both Christian associations are doing good work and a visit from an outsider is appreciated by the membership.

Many former students are writing to the college that they will return for the summer term to review and take advanced studies. The College will have about 100 in the graduating class who will be granted state certificates.

The Model school will continue during the summer in the college building so as to be more closely connected with the college supervision and methods. It is proving very convenient for the students. The new building will have rooms specially designed for Model school and will continue the entire year under special trained teachers.

The outside work of the College routine indicates the approach of spring. Mr. Niemand remains in charge. Mr. Murrill looks after the repair work mostly. Thomas Nieland will assist in this work, having commenced this week. A large garden will be cultivated in addition to several acres of potatoes, corn and other farm products. Spring and summer will be busy times on the hill for all kinds of work.

The chapel talks since the holidays by outside parties have been very helpful to the students. Ministers, lawyers and business men have favored us with splendid talks Friday morning. On Tuesday morning, Prof. Sutton of Outmer University, Lincoln, addressed the students with an interesting talk. About twenty chapel talks have been given since the first of January.

If all things work out according to Prof. Pile's plans, the new College building will be ready for use by the first of November, while the heating and lighting plant will be in operation in time for starting fire for the cool fall days. The Commercial department, the Science Department, library, shorthand, music and song preparatory work will continue in present buildings. The offices, much of the class work, the Model school and Cappel will be in the new building.

The following program will be given Saturday evening, the 7th, under direction of Miss Stewart. The public invited:

La gazza ladra, piano duet, Misses Stewart and Bruner

The New Brown Hay, piano solo, Miss Edith Whitney

O'er Hill, O'er Dale, vocal duet, Misses Sullivan and Widergren

Kossard Felter, piano solo, Miss Koontz

In justice to myself and friends, I feel
bound to reply to your article concerning the
Shibley case. When the case was started
I told you that I was the victim and not you,
and that you must not worry as I intended to
always protect you. I paid all attorney fees
and all other bills presented to me, and I
intended to do so. I never tried to dodge
or avoid conversation with you. And in-
stead of keeping away from you at the state
convention as stated in your article, I tried
to find you again and searched for you
after we had parted. You certainly knew
that I would never suffer you to be out one
cent on my account. I employed and paid
three good attorneys to defend you. I paid
all bills promptly and cheerfully as they
were presented - I went from Washington,
D. C., to Madison, Neb., at the time your
case was to be tried, in order to be present
to testify and to render you any assistance in
my power. I wired the attorneys in ad-
vance as to the time I would arrive. You
knew that the case was determined on de-
murrer and that I was on hand in ample
time to testify had the case been tried on its
merits. I went to Norfolk to see you that
night, but was told over the telephone that
you were sick. Mr. Robertson phoned you
that I was there to see you, and I told him
to tell you not to worry—that I would pro-
tect you in every way.

It completely cured me and I have re-

RICHEST MAN IN THE WORLD.
The richest man in the world can
not have his kidneys replaced nor live
without them, so it is important not to
neglect these organs. If Foley's Kid-
ney Cure is taken at the first sign of
danger, the symptoms will disappear
and your health will be restored, as it
strengthens and builds up these or-
gans as nothing else will. Oscar Bor-
man, Lettman, Ky., writes: "I have
used Foley's Kidney Cure and take
great pleasure in stating it cured me
permanently of kidney disease, which
formerly would have cost me my life."

Mrs. H. B. Craven returned last Fri-
day from a visit at Fullerton.
Ed. Carroll was a visitor from Car-
roll last Saturday.
Wm. Hill received a letter from his
brother Tom, in Missouri, the other
day in which the latter said he and his
wife and son had all been quarantined
for small pox, but came out without a
scar.
John Kate got a fine batch of chick-
ens last Sunday from a Cyphers chick-
en, 86 plump, lively big chicks out
of 100 eggs. Mr. Kate says that where
instructions are followed to the letter
and the eggs are fertile, the Cyphers
brings them all out a-kicking.
