Bressler defeated.

On motion the following bills were allowed:

Ed. Cullen, A. Woodward and Tom Lound were elected village trustees Tuesday. There was no particular issue in this spring's election and it passed off very quietly.  
Harry Hill and wife went to Louis, Iowa, in response to a telegram announcing the serious illness of Mrs. Hill's mother. Their arrival however, was late, for the mother died a few hours before they reached Louis.  
The Tribune is pleased to report that Fred Baird, son of Mr. and Mrs. J. Baird who reside seven miles southeast of Winside, is now on the way to recovery. Fred has been a pretty sick boy, with a complication of disease.  
John Agler started out on another trip to Kansas Tuesday to be absent ten days. John is having good success in selling land there and is very enthusiastic over the country. As soon as he can dispose of his residence property he will move his family down there.  
August Miller, the would be murderer, was arraigned before Judge Cowan of Stanton and refused to plead. His bail was fixed at \$5,000 which he has not furnished. The preliminary examination was set for April 25 at 1 o'clock. The reason for the length of time for the hearing is to give the wounded parties time to recover enough to testify in the case. Miller has retained John A. Ehrhardt of Stanton as his attorney.

Fred Thies, who lives south of Winside in the Hohneke neighborhood, was in town on Thursday and subscribed for the Tribune. He said that he had been at Mr. Hohneke's house that morning and found Mrs. Miller up and around, apparently none the worse for the assault made on her by her husband, but Mr. Hohneke was suffering intensely with his arm which the doctors have cut to pieces from shoulder to wrist in order to let the poison escape.

The friends of Chas. Phillips will watch with much concern his condition from time to time as he experiences his third operation. Mr. Phillips was accompanied to Sioux City Monday by O. E. McCabe.  
Ethel Jenkins returned home last Friday. She has spent the winter at Nebraska City with her aunt, Mrs. John Merrill. She has been attending the high school and is taking advantage of the vacation to visit with her folks.  
Those who were fortunate enough to learn that Father Haley of Wayne, was to deliver a lecture Wednesday evening at the Catholic church were indeed afforded a treat. His subject was Christ's Life. The speaker reviews the Savior's life from the cradle to the celebration of the feast of the Passover in the second year of Christ's ministry. He is willing to finish the subject at some future date, if desired, probably next Tuesday night. Certainly those who heard him Wednesday night are desirous of having Father Haley finish the lecture.

**H. B. Miller Gets Rich.**  
Chelan, Wash., Mar. 29, 1906.  
Editor Democrat.—Again I come to torment you. Just about fifty-six years ago this morn'g J. M. Strahan and I were stuck in a mud hole—no, that is not what I meant to say. Our four horse team was stuck a short distance from Bloomfield, Iowa. We were on our way to the gold fields of California with our scoop shovels. On the 27th day of April we crossed the big, muddy at Florence, and on the 13th day of August four of us landed in Placerville, (then Hangtown) and the four of us had \$2.50. Hay was 25 cents per pound and other things in proportion. There was a lot of men that we called philanthropists, now they had learned that many of us were a little short on grub, and these chaps thought it never would do to let us starve so they loaded up pack trains and started out to meet us, not us any more than some other chaps, they found us and after learning that we were getting pretty grub they told us that we could have flour at \$2 per pound and whiskey at 50 cents a drinker's bread at \$6 a loaf. We still had a few dried apples and a little corn meal. We soon struck another one of those philanthropists and he gave us 20 pounds of as musty flour as you ever ate, for a horse we paid \$90. Six of us went into winter quarters that fall and four of us can yet be seen with the naked eye or could a short time ago; we are pretty long winded, but there will come a time some day. I thought that perhaps some of my old neighbors would like to know how I am doing, financially. I can't say that I am laying up much money so far. The first year I sold \$160 worth of farm products and paid out \$220 for help, the second year I sold \$60 and paid out \$80, and last year I sold \$60 worth and paid out \$31 and still have a little corn to sell yet. The Aid society helps me, some and the kids have kinder got an eye on me. I received a diploma from Portland the other day for a fruit display from trees set two long years, two varieties of plums. I spent two months in Seattle. Nels G. is right in the swim and E. J. Sherman, family and brother are O. K. and happy.  
Enclosed please find some chickamam, Yours truly  
H. B. MILLER.

**Two Telegrams.**  
Hot from the wires of the Grapevine Telegraph company the Lincoln Journal has a message from Collinsville. The message says Bob Clancy, a Union Pacific lobbyist, declares that the republicans of every county on the Union Pacific will be against Norris Brown for senator.  
Cheer up! The Telegram has later message from Jim Glibbertson, who boldly announces on the authority of no less a person than Frank Harrison, general railroad lobbyist, that Norris Brown will win the republican delegations from every county on the line of the Northwestern road.  
We prefer to pin our faith to Harrison, who is a better railroad lobbyist than Clancy ever knew how to be. Clancy is a little one. He has no authority when he gets outside of the Union Pacific territory. Harrison is a danger. He has authority to turn political tricks in all kinds of railroad territory, and he also has authority to appoint meetings in Fremont between senatorial candidates and Farmer Schneider. We insist that the Lincoln Journal is foolish in being afraid of a little fellow like Clancy. We have nothing to fear. We have Harrison on our side, and our trust is in Farmer Schneider. Nothing can stop Norris Brown. He is as sure to win every republican delegation on the Elkhorn system as he is to let the statute of limitations run against every grain official in Nebraska.  
The Lincoln Journal should be ashamed of its own lack of faith. When did Frank Harrison ever fail to deliver the goods? When did Farmer Schneider ever fail to stand up and fight for his brother farmers when they were assailed by the wicked grain trust.  
Down with the coward fear! Up with the white banner of Norris Brown, bearing on one side the magic words, "Elkhorn Route," and on the other side a photograph of the benign countenance of Farmer Schneider.—Columbus Telegram.

**In Absolute Control.**  
During the past ten years the federal courts of the United States have never sent to prison for one hour any man who has been numbered among the wealthy men of America. During that time many men of moderate means have been committed to prison, and some to the gallows by those same courts.  
It might be argued from this statement that the men of great wealth have committed no crimes which would call before the courts. But such is not the fact. During the time stated scores of men connected with the great corporations have been hauled into court, but never a one of them has been allowed to sleep in the jail for a single night. In some cases, as in the case of the beef trust magnates, the men have practically confessed their guilt, but even then a handy judge of the federal court was at hand to stand between the confessed criminals and the prison doors.  
This is a serious state of affairs. It was never intended by the fathers of the republic that the courts should become a refuge for the criminal rich. In the eye of the fathers all citizens of the republic were declared to be equal before the law, and that declaration is engraven upon the great seal of the states. But the declaration is a lie. All men are not stand equal before the law in America, nor can all men stand equal before the law as long as the law is interpreted by judges with whose appointment the great masses of the people have nothing to do. As at present constituted the federal courts of the nation (excepting the supreme court) are dark blot upon the pure and clean constitution which was transmitted to the republic by the founders. Within those courts the record reads that no man of great wealth has ever received a criminal's doom in recent years. Many of the strong men of the nation boldly advocate the utter abolition of all the federal courts, with the exception of one supreme tribunal. And the day of abolition will not long remain in the distance unless those courts shall reform themselves. The people will stand for about so much crookedness on part of public officials, and then something will be doing. The Telegram is among those regarding the federal courts the greatest foe to the perpetuity of the republic, and we believe with Senator Tillman that it will be idle for the American people to look for relief from corporate ills until after the federal courts shall have been abolished or reformed. And it is difficult to point the way toward reforming those courts whose judges receive life positions upon the recommendation of the great corporations, and who may not be impeached except by the United States senate, which is absolutely controlled by the agents of the corporations.—Columbus Telegram.

# You Can't Explain It!

You may never have bought anything of us, for the reason that you have never given us a chance to show you what we have. You can't explain why you have bought clothing and not seen ours. You certainly realize that we have the largest stock and sell more clothing than any other store in Wayne county, and you must acknowledge that you ought to see our clothing before you buy. The only answer you can make is, that you are trading in some other store and like the place. That is no good reason that you should not investigate and see if your merchant is giving you all your money should buy. If you will call on us and see our stock and prices we are making, you will be surprised, and we will at least receive a share of your trade. It is impossible to describe our suits and should we state the prices, you cannot realize how cheap we sell. It is absolutely necessary to have you see our suits to appreciate the quality and price we make. We have been located here long enough to convince anyone that we are responsible and will do as we say, but we must be given an opportunity to show you our goods. Will you give us that chance? Our stock of suits was never so complete as it now is, and the price never was more satisfactory. Our shoe stock is up to date and unless you wear some of our shoes you cannot imagine how different our shoes are than those usually found in other stores. Our "Bad Boys" shoes are made so a boy can't wear them out, and our plow shoes are made so that walking is easy. We sell the only genuine "Snagg Proof" rubber boot sold in Wayne county—all others are imitations. No one has as many hats as we have, and no one will sell them as cheap, but you must see them to believe that. Our children's and boys' suits are the kind that please the boy and give satisfaction to the parents. The price is right; look at them and be convinced. Give us an opportunity to prove all we say in this advertisement, and you will find that you have not wasted your time looking here for clothing, and we will be satisfied. Bring us your eggs; we take them same as cash.

The report Mr. Nies made to the 2 Johns was about as far as the noise the machine made when it blew up: "I was watching all the time for the little red streak to come up," explained the dispenser of cock-tails, "and first thing I knewed the whole thing busted and the eggs poppin open like the devil!"

John Lewis says it was a case of the Presbyterians not "sticking one by each." By dad, you couldn't expect the Presbyterians to all pull one way, when you look at a look at the misfit assortment of their band-wagon.

Billy Nies has been having a strenuous time of it the past week, looking up city "audiences." Some other people were also looking for an audience that would put William out of business.

The traveling men seem to have troubles of their own, as well as the rest of humanity. Yesterday I heard one of them singing: "Everybody works but the factory, And they sit around all day— Always writing letters: "Your shipment is on the way." Customers keep on calling, New stories we must tell; Everybody works at the factory— Yes they do— like— I—

Some people work for Perkins, some work for Cummins, some people work for Rossett, and some work for Williams; some people work for Jesus, and some work for the devil; but, by dad, we all work like the d— to pay for that Easter hat that will be seen in the synagogue next Sabbath.

Harry Hirsch, the notorious restaurateur who left Wayne a year or two ago, is the subject for a sensational item in Sioux City's Tuesday Tribune. It appears Harry and his wife are now operating a "restaurant" at Sioux City. Recently Harry's landlord sued him to recover the premises and Hirsch had pat and beat the landlord in court, providing that the owner had failed to proving a roof on the building, and that an Indian refused to sleep in the shack. I'll bet that Indian's name wasn't Charley Johnson, although I don't think Johnson ever did much sleeping in the Wayne lodging house.

A freak Indiana preacher says: "It's a crabbed old man who never had a wife. It's a crabbed old maid who never had a husband. My advice to young men contemplating marriage is this: "Before you wed examine the girl's tongue. If it is tied in the middle and runs at both ends, don't marry her. Also measure her tongue. If it's longer than ten inches, don't marry her, because she will spend her time climbing trees to gossip with the neighbors. Then, again, look into the family garage can before you take the leap. If it is filled with half loaves, biscuits, cake and bread, don't marry her because she can't cook. A woman can put more out of the back door than a man can bring in the front door with a silver shovel. Choose a wife to keep up with your profession. In short, don't get hitched unless you hitch. If any of you girls have your eyes upon prospective husband, I would say: beware of the spider-legged ladies, who possibly have money but certainly no occupation. If your admirer is posted on all races make him trot. Don't think you can reform a drinker by marrying him. It at least make him try the drink cure first." Now for the married folks: "When you marry you marry a wife or a husband, not a mother-in-law."

The Original, Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitutes. ## This "Sucker" Got Away.

Under the heading "Biggest Fish Ever Caught From the Pier," the following item was printed in the Long Beach Press, California: It fell to the lot of A. J. Ferguson, a tourist from Wayne, Nebraska, to catch the biggest fish ever hooked from the Long Beach pier. Spectators who saw the fish caught, declare that it was a Jew fish, fully six feet long and an investigation of the scales on his back showed his weight to be 230 pounds. The big fish nabbed Ferguson's bait at 10 o'clock, but fought so gamely that at 10:30 he succeeded in making his escape. The fact that the fish got away worries Mr. Ferguson, a fisher, not so much because he is going to have some more fun with him and keep trying until he lands him. In Long Beach, Mr. Ferguson's home is 203 East Second street, and here he will be pleased to receive information concerning the whereabouts of the fish so that he may get after him.

And now the ladies who have worked hard and conscientiously to build up a public library—for the good of growing generations—are threatened to be put out in the cold by some of the county officials who are "bothered" by the children in the court house, or who want to utilize the apartments taken up by the library in the court house. The DEMOCRAT is told that the county board has been petitioned to "put the library out," as being a nuisance, etc. The county commissioners might better dispense with some of the county's servants. Probably the library is doing as much to educate the young people as any two or three of the criers on its present location. The court house, if there is room in it, could be put to no better use than to furnish quarters for a free reading room and free library, and the good women who have worked so hard to make it a good and worthy proposition should be protected and given every consideration by the county board.

A Kansas newspaper writes the following, which may very appropriately be applied to the fellow who gets dissatisfied with Nebraska. "Occasionally a good man becomes dissatisfied with Kansas. The milk is too yellow or the honey too sweet, and he doesn't like them to flow over his land anyway. So he parts with his farm, sells his live stock and other things too numerous to mention and moves to Oklahoma. There he takes his good Kansas money and buys a farm, because today is and tomorrow is not, because the wind has blown it away. Or he tries Colorado a while and slushes around in the mud irrigating a strip of bottom so narrow that a cow can't jump into a field because she jumps over it. Then he hears of Texas and goes down to hunt the bag of gold at the rainbow's end. In the daytime he scratches snubbers out of his flesh and at night centipedes crawl over his face. When his money is all gone he begins to feel like the first night he ever stayed away from home. He yearns for good old Kansas and the yearn sticks in his throat and chokes him until the tears come to his eyes. He would give a month's work to see the cows standing behind the bars on his old Kansas farm and hear the bugle blow for supper. Memory is a marvelous painter and paints the things we love best. It pictures to the traveler the corn silking in the field he once owned, the wheat yellowing for the harvest, the clover stretching away in a carpet of red and green, richer than the rugs of Persians. It shows him the elms as they whispered to his children at play beneath them, points to the roses in the corner of the old rail fence, and in infinite details paints a thousand things that touch the heart and prove its whimsical power. Happy is the man who wakes from sleep to find that he has left Kansas only in his dreams.

**Human Blood Marks.**

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bao, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures hemorrhages, chronic coughs, settled colds and bronchitis, and is the only knowledge for weak lungs. Every bottle guaranteed by Raymond the druggist. 50c and \$1.00. Trial bottle free.

Harry Hammond has leased the Randolph Reporter and will move to a claim in Dakota. Harry and work never agreed very well, or rather agreed to let each other strictly alone.

**is The Moon inhabited**

Science has proven that the moon has an atmosphere, which makes life in some form possible on that satellite but not for human beings, who have a hard enough time on this earth of ours; especially those who don't know that Electric Bitters cure Headache, Biliousness, Malaria, Chills and Fever, Jaundice, Dyspepsia, Dizziness, Torpid Liver, Kidney complaints, General Debility and Female weaknesses. Unequaled as a general tonic and appetizer for weak persons and especially for the aged. It induces sound sleep. Fully guaranteed by Raymond the druggist. Price 50c. Ray-Drug store.

As between the Norfolk News and Congressman McCarthy the average politician is between the devil and the deep sea. McCarthy makes a good denial of the News' accusations, but the newspaper comes back at him, and proves its former assertions as to Mac's ingratitude by quoting Judge Robertson of Norfolk on the matters involved. It wouldn't hurt the country to throw the whole bunch over the fence, and send a good, clean man to Washington.

It is curious that Uncle Sam's men never catch any of these fellows who use the mails for fraudulent purposes until they have gathered in anywhere from fifty thousand to a half million dollars of the suckers' money.

**RICHEST MAN IN THE WORLD.**

The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." Wayne Pharmacy.

At this stage of the game it is difficult to determine whether Boyd or McCarthy will land the congressional nomination. The DEMOCRAT believes that A. A. Welch of Wayne is a better man than either of them, and it may be that a compromise on a "dark horse" will be effected. Indications are that the Norfolk News throw "McCarthy down" for Boyd's special advancement.

I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. Wayne Pharmacy.

Sioux City is threatening to dump her gambling houses—into Omaha and Council Bluffs. Conditions have reached the stage in Sioux City where the gamblers and their attendant bad men seriously interfere with business. The wholesale trade is declining, transients afraid to linger in the city, and some people not even considering it safe to travel in street cars after the chickens go to roost. This is all largely exaggeration, but it affects the city considerably just the same.
