THE DEMOCRAT has heard no word of Sandy Taylor and family who went to San Francisco last fall, a daughter and son going a few months ago. Their address there was 1235 Sanchez street, and if they get this paper the Democrat would like to have Prof. Orrin Taylor write us their experiences.

The young son of Rev. Thos. J. Wright had an accident with a horse and buggy Sunday afternoon. The rig belonged to a party of Plainview, and the young man tied the animal to a wire fence while he watched the ball game. A train came along and scared the horse, the brute kicking the buggy to pieces and then getting tangled in the wire fence.

The busy season is at hand on the farms of Wayne county, and the question of paramount importance is how our fertile soil can be made, by the most approved methods of cultivation most production of the crops suited to this latitude. The farmer nowadays fertilizes his fields with the same ingredient that the painter said he mixed his colors: "with brains, sir."

He reads the best agricultural literature and follows the scientific and practical experiments as to the soils, seeds, manures, tillage, etc., which are revolutionizing the business (for it is a business) of farming. One of the best means of getting this knowledge is by being a subscriber to The Iowa Homestead, of Des Moines, Iowa, which publishes at each time of the year just the matters the farmer and breeder needs to know at that season. We have made arrangements for a very reasonable clubbing rate for the Iowa Homestead, and many of our subscribers have availed themselves of it. Come in and let us order it for you the next time you are in town. You will never regret it.

Dedicate The Park.

Bressler park was formally dedicated Arbor day, last Monday. The school children from both wards marched to the grounds and the pupils from each room planted a tree. Each student threw in a little cash, and then danced around the tree so planted. Atty. Elmer Lundburg had prepared quite a speech to deliver on the occasion, but there were so many little folks present, and so few grown people in attendance that he gave an informal talk principally directed to the youngsters. Bressler park is going to be quite an inviting place even this summer but the city should at once run water mains to and through the grounds, and a reliable party engaged to look after the trees and gradually get the walks and settees in where they belong.

Wisner Shut Out.

In the ball game last Saturday afternoon between the High school teams of Wisner and Wayne, the former ball players were given nine nesteggs, the score being 7 to 0.

A Propitious Beginning.

The formal opening of the Charles Robbins' new dry goods house last Saturday was made in metropolitan fashion, Sassano, the Sioux City harpist, furnished excellent music for the afternoon and evening. The interior presented a lovely appearance, the finest showing probably ever made in this part of the state. The Misses Alma Craven and Goldie Chace, dressed in pure white, being flower girls, and giving away over five hundred carnations, the handsomest flowers that could be secured from Sioux City. Mr. Robbins says the only cause for complaint was in not having at least two thousand flowers to give away, as he estimates his visitors at least that number. However both Mr. and Mrs. Robbins were more than pleased with the success of the first day, and certainly their many friends were more than delighted with it.

WINSIDE NEWS.

From the Tribune:

The Tribune is pleased to state that Mrs. Frank Mattis, who has been very ill, is much improved and will soon be convalescent.

The Tribune extends congratulations to Mr. and Mrs. Ed. Lucas over the safe arrival of a boy at their home Sunday April 15.

The Tribune understands that Mrs. Minnie Clark has been very ill and an operation for gall stones has been advised by the attending physicians.

Raymond McCabe and Chet Miller loaded up and started for Wayne early Monday morning where they took a car for Pierce, S. D. From there it is about 70 miles to their claims.

If anyone should hear a great commotion and squealing some of these fine mornings, don't imagine that Anton Jensen has moved his slaughter house down town, for it is only Mrs. Brown and "Ted" giving their prize pig his morning bath.

Lew Jones returned from Omaha Monday evening. He reports that Mrs. Jones had a severe operation and is still very weak and suffers intensely, but the physicians think that she will survive and be able to return home in about three weeks. Her many friends have been very much concerned about her and all are pleased to think that she is getting along so nicely.

J. H. Prescott went with W. H. McCusky's car to North Dakota Tuesday. Harry has a hankering after getting possession of some of that good land up there, and his trip is for the purpose of seeing if the country is such a garden of Eden as the Winosiers, who went up there two years ago, tried to make us believe it is. Well, they all tell the same story, so there must be something in it.

It pays to advertise in the DEMOCRAT. That little ad I had in about that 20 acre tract brought me 25 buyers in two weeks. Gustav Kufse was the lucky one. I still have other bar gains in real estate and town property.

Tom Savidge last week received a letter from a son of Sandy Taylor, stating the family was all safe. The Taylor residence was three blocks from the fire-burnt district. Young Taylor wrote that lots of people had been shot by the soldiers for doing things for-bidden them.

J. E. Owen was in town over Sunday, leaving Monday morning for Presho, S. D., where he shipped his grading outfit from Ogalala. Mr. Owen said there was three years grading on the Milwaukee extensions up there, and he has taken contracts for all he can do this summer.

After getting on each side of the fence at least seventeen times, Billy Dammeyer finally concluded Monday that he did not want any saloon in his and quit the proposition. Mr. Dammeyer says he was forced to lay down because the councilmen, or a majority of them, were not in favor of a fourth saloon and in the event that a license was asked for, it was the understanding that a remonstrance would be filed against his petition, the fact of the Dammeyer application coming up a week later than the other three, making it easier to keep him out of the profession. THE DEMOCRAT must congratulate "Billy" on giving it up; the saloon business never made any man better—it has ruined millions.

Interesting Letter From H. L. Kimball.

Spokane, Wash., April 27, 1906.
TO THE EDITOR:

I am a former resident of your community and as I belong to one of the most unique clubs ever formed in the west I believe you and the readers of your paper will be interested in knowing something about this remarkable organization and the city in which it has its origin.

The club is known as the "150,000 Club of Spokane" and its avowed intention is to double the population of this city in five years. To accomplish this we have 2,250 men and women organized as "Boosters." The club works along modern lines and the novel organization has gained wide popularity in a very short time. The plan of the club may appeal to your readers and induce them to form such a society in their own community for the welfare of the country.

To double a city's population in five years after that city has already attained a population of 80,000 would seem a stupendous task. But we believe it can be done here and we have set to work systematically with that end in view. Our society is the most cosmopolitan on the face of the earth, its membership including people from all walks of life from bank presidents and street laborers to preachers and cigarmakers. Every member has equal rights and privileges in the club. The dues are one dollar a year, every person joining signing a pledge to pay this sum annually until Spokane has a population of 150,000.

The club does not encourage the immigration of laborers or mechanics but seeks to increase the city's growth by inducing eastern factory owners and commercial houses to locate here. A publicity campaign through the medium of advertising and personal correspondence, is in full swing, each member of the club making it a point to inform himself on the openings available here and either write to persons who may be interested or turning over his suggestions to the secretary or one of the subcommittees. The club also entertains persons who are induced to stop here for a day or two and the advantages of the city and surrounding country are impressed upon the visitors in every way possible.

I am an enthusiast over Spokane because I am positive it has the greatest future of any inland western city. Located on the slopes rising gently from either bank of the Spokane river, the city has an absolute perfect system of drainage. The beauty of such a location could not be surpassed and the view from the hills in the northern residence portion is one never to tire of. Forty per cent of the residents have their own homes. Civic pride is shown on every street and citizens take pride in having Spokane referred to as the "cleanest big city in the United States." From the mansions of the wealthy to the humblest homes shade trees, beautiful lawns and shrubbery of all kinds are the rule. Well paved streets and continuous sidewalks with parking between the walks and the street add to the attractiveness of the place.

No other western city has such a variety of resources as Spokane, with an exclusive distributing territory as big as the states of New York and Pennsylvania combined. There is 32,000 horse power available by the succession of falls in the river through the heart of the city. Of this 15,000 horse power has been developed. This great power with abundance of raw material is a strong inducement to manufacturing establishments. Our resources include agriculture, lumbering, horticulture, dairying, market gardening mining and stock raising.

Opportunities are open here to the man of small means to acquire wealth in the dairy, poultry and market gardening business. For these products the highest prices are paid all the year round, the demand increasing constantly. Land is available at reasonable prices in a dozen prosperous localities where suburban trolley lines keep the small farmer in close touch with city life. Farming on larger tracts has brought riches to thousands of men in wheat and hay. Land can still be had cheap with returns sufficient to pay half the purchase price inside of two years. The climate is equal with no extreme of heat or cold. Spokane is a remarkably healthy city.

I came to Spokane seven years ago and have never had occasion to regret my coming here. Of all places in the west I could not have chosen better than by coming to Spokane. This is the best place I have ever lived in both for business and a home town.

Yours truly,
H. L. KIMBALL.

Geo. Savidge went to Sioux City Wednesday to make contracts for a couple of deep wells.

Best for women and Children.
On account of its mild action and pleasant taste Orino Laxative Fruit Syrup is especially recommended for women and children. It does not nauseate or gripe like pills and ordinary cathartics. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating them. Remember the name ORINO and refuse substitutes.—Wayne Pharmacy.

Science has developed something infinitely better than the old-style wrap or clamp.

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

Every Rod is Guaranteed Perfect.

Don't allow your prejudices in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, it fits were welded by electricity.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

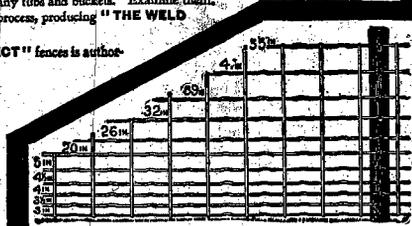

You will find electrically welded hoops on ice cream freezers and washing machines, on many toys and trucks. Examine them.

MR. FARMER - LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

That the wires are not injured at the joints.
That the fence is perfectly adjustable to uneven ground.
That the stays will not separate from the strands.
That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

College Notes.

The talk by Mr Geo. Wilbur to the two Christian Associations last Sunday was indeed splendid.

The base ball boys of the college will play with the Wakefield boys Saturday on the college grounds, if the weather is suitable.

The social held in the Chapel last Saturday evening, under the direction of the graduating classes was well attended and enjoyed by all who were present.

New students are coming in every week. Among those who came in this week is Mr. Edward McGee, who graduated last year from the teacher's professional course. He is now taking up the studies of the scientific class. Mr. McGee's sister Stella came with him and will remain until the close of the year.

Others who returned to school this are: Miss Nellie Sullivan of Madison county, Miss Ayer of Cuming county, Miss Fox of Madison county, Miss Trenhall of Knox county, Miss Heaton of Ponca, Miss Fenton of Platte county, Mr. King of Antelope county, Mr. Amanitile Boshart of Holt county.

At the meeting of the graduating classes which was held last Saturday the following officers were elected:

Miss Wintergreen, although reluctant to accept the position, was almost unanimously elected president; Miss Adeline Simmons, of Hawarden, Ia., secretary of the classes taken together as a whole. For the Scientific class alone, C. G. Hutchins of Nance county, who is to be principal of schools at Carroll next year, was chosen president and Miss Bessie Eaton of Rosebud, S. D., secretary. For the Professional class, Glen Peters, of Rock county, president and Miss Hazel Scott of Custer county, secretary. For the State Certificate class, Miss Mabel Eckert of Cuming county, president; Miss Bea Murphy of Holt county, secretary.

On Saturday evening, May 5th, beginning promptly at 7:30 o'clock, the following play will be given and 25 cents admission charged, the proceeds to go for the purchase of base ball suits: "Aunt Dinah's Husking Bee." During the play a program consisting of sixteen numbers, including vocal, instrumental, elocutionary and gymnastics will be given.

John Beebe, the cement sidewalk man, has laid a piece of walk for City Clerk Witter that is certainly fine in looks at least; has the appearance of being more durable than anything ever before made in Wayne of the kind.

Decoration day is almost here. I would advise those wishing monumental work to call on me as soon as possible. I still have a large stock to select from, ready to letter, and can fill "hurry up" orders. R. DURBIN.

Mayor Piepenstock has made a new innovation for grading the streets. A new one-team road grader, built especially for the purpose, will be purchased. John Agler of Winside is showing the city dads what the machine will do, and one will be purchased exclusively for use on streets and park.

The hose company held their election of officers Wednesday night, J. G. Mines being elected president; Martin Ringer, secretary; Wilz Heister, treasurer; D. S. McVicker, foreman and H. Griggs assistant foreman. The hook and ladder team was to elect officers Wednesday night but took in the minstrel show. Last night the department held their annual meeting.

An item in the Sioux City Tribune from Wakefield claims that town has the champion High school ball team in this part of the state. Wayne has a better record, however, than the boys from the dry town can boast of. The local High schoolers have defeated Wakefield 5 to 2; Wisner 7 to 0, and the College team here, on Wednesday, 6 to 5. Tomorrow they play Randolph at the fair grounds.

Mahara's Minstrel's gave a fine show at the opera house Wednesday night. The company is large, all first class artists, in fact the best show of the kind seen in Wayne for years. The "phenomenal base" singer was alone worth the price of admission to hear, being better than any vocalist of a deep, cavernous base—the DEMOCRAT ever listened to in Omaha, Chicago St. Louis or any other old place.

John Alger of Rising City, visited Wayne friends this week. John has fattened up since leaving Wayne, but attributes the change to having joined the anti-coffee drinkers, rather than to the Colorado climate.

Dr. and Mrs. Lohseung gave an unique entertainment to about fifty guests at their home on Tuesday evening. The program was carried out with great hilarity and the whole evening was full of fun. Miss Yankish in her humorous selection pleased her hearers immensely, while Mr. and Mrs. Buchannan and Mr. and Mrs. Ted Phillco, as the Buttinski quartette satisfied the people that they were the only and original. Mrs. Charlie Robbins was one of the many star performers. Dr. Lohseung introduced his new Lillian which he manipulated with great dexterity.

Vein of Ore 12 Feet Thick

ASSAY \$111.00 PER TON

Third And Fourth Vein Cut

STOCK SALES ARE INCREASING

... Subject to Advance at Any Time ...

The stockholders of the King Solomon Tunnel and Development Co. were very much elated yesterday over a telegram stating that they are drifting on all four of the veins which have been opened, and that after drifting 20 feet on the second vein they opened ore which assayed \$111.00 per ton. The fourth vein has widened out to 12 feet of good ore. We expect to get assay today or tomorrow.

Ore Bins Are Being Erected

In which to store the ore preparatory to treating it in a mill. We have more than met our promises to the people and the people are demonstrating their faith in the enterprise by the way they are buying stock. MEN, who six months ago did not have faith in it, NOW see that we have a mine that promises to be a bonanza, and having been convinced, they are now coming forward and buying stock.

Two of the Best Expert Mining Engineers

we could get from Denver have recently passed their judgment upon our property and their verdict is that we have enough ore in sight to keep it producing for years to come.

Get In Line and Get Some Stock

I want to congratulate all stockholders, and I rejoice with you in this piece of good news.

Last evening proved that the Juniors of the high school were a very progressive class, for they led the standard Seniors at a merry pace through several hours of gaily. The first hour was spent with "Lovely Mary" at the Mellor home where the titles of the books which they all represent were questioned, and blank places in a poem pulled out with the names of books. Programs were given the gentlemen who filled them out with the names of partners for the different hours of the evening, the next being spent with Leslie Welch where silhouettes of the Juniors were pinned around the rooms. Some of the young men did not have much trouble in guessing the certain ones were, the lineaments seemingly having been well studied. Here the first course of a delicious supper was served. The crowd then went to the home of Warren Shubites where the second course, a salad one, was served. Here were recitations and music, the class having progressed to singing "In the Shade of the Old Apple Tree" without the words. If they can only progress so as to give it with out either words or music they will receive the blessings of the present generation. The last station was at the home of Leroy Ley where the banquet, closed with the last course, tables being elaborately set, cut flowers distributed to the guests and many happy toasts heard, all finishing up with a closing cheer for the class of 1907.

Herman Woodman, who has farmed and worked in Wayne county for a good number of years, left Tuesday on a trip to Germany.
John Morgan and family have arrived from Harlan, Iowa, and occupy the residence recently purchased from Dr. E. Miller. Mr. Morgan has a couple of farms near Belden.

G. J. Savidge is taking a few days layoff, having gotten his left pedal under a 150 pound iron, while working at Bloomfield.

Lost—Pair of spectacles and case probably on road to my place south of town. Reward to finder. Leave at this office. CHRIS SYDOW.

C. O. Sellon was in town Tuesday evening on his way home to near Randolph from Omaha where he had a big shipment of sheep on the market.

Mrs. J. G. Mines as worthy matron, and A. A. Welch as worthy patron, of the order of the Eastern Star, go to Omaha next Tuesday as delegates to the state meeting.

Richard Williams was an arrival from Petersburg yesterday on a couple of days visit to his folks. Dick handed in his dough for the DEMOCRAT; said he needed it in his business out there.

San Francisco had another earthquake Wednesday, one woman being killed by falling walls. Four members of a family named Bliven of Dakota City were killed in the disaster of last week.

Jake Wingert will start the water wagon next week and lay the dust. He has had fairly good luck getting subscriptions for the labor, and will publish a list of the men behind the anti-dust petition.

D. A. Jones says that while in Omaha all he heard was J. C. Dahlman for mayor, the election to take place next Tuesday. Mr. Dahlman will make Omaha a "cracker-jack" of an executive, and that city an honor to the state.

It pays to advertise in the DEMOCRAT. That little ad. I had in about that 20 acre tract brought me 25 buyers in two weeks. Gustav Kruse was the lucky one. I still have other bargains. F. H. BENASOOR, Office over State Bank.

Jas. Thompson returned Tuesday from Westington, S. D., and reports the Wayne people all well and the colony growing, a daughter being born to Fred Thompson and wife April 1st, and a son to Mr. and Mrs. Ed Thompson last Saturday.

Stanton, Neb., April 26.—Special to The Norfolk News: Four head of horses were stolen, with one harness and one buggy, from Isaac Bordner, one mile north of Pilger, at about 1 o'clock this morning.

Atty. Wilbur yesterday commenced an action, to be tried before Judge Hunter next Tuesday forenoon, to recover \$125 from the Omaha road, for the killing of a horse belonging to Asher Hurlburt, the animal having been run over by the cars last December.

A Tidrick had more bad luck yesterday aside from having his team run away. As he left the Lewis harness shop he stuck his wallet in his pocket, as he thought, but later found it missing. The purse contained \$25 currency and some small change, and Mr. Tidrick will no doubt reward the honest man who found it.

A Tidrick's big farm team made a lucky get-away from the mill yesterday, coming only 1/2 mile to the alley between C. A. Berry's and Orr & Norris' stores. Going east from the German store, they ran into a platform buggy, and tumbled the cream cans out of it, overturning the rig. Fortunately they were caught at Frank Tillman's blacksmith shop without further damage.

A couple of farmers in from Wilbur precinct yesterday told the DEMOCRAT that on Monday a bunch of finely hogs was hauled from there eight miles to Carroll and sold to Shannon Bros. at \$8 per hundred, in preference to bringing them six miles to Wayne and getting \$5. This is what knocks on the town and makes some plain business for the Commercial club if that organization wants to be what its name implies.

The Norfolk News says that the two evangelists who have been traveling about this part of the state, and who stated that Norfolk was the wickedest city ever, gave up Kearney as being too bad for reformation. The size of the city, and the fact that these toilers invariably indicated to them the morality or immorality of the places they visit.

Do You Love Music?
If you do you will do well to pay a visit to Frank Mahara's Big Minstrel Carnival when they appear here May 2. Mr. Mahara was one of the first minstrel managers to add a quartette of ladies' voices to his big chorus. Every song sang with this company is assisted by a chorus of twenty voices, and the colored race is the recognized leader in making rich, sweet melody.
Besides sweet singers and clever dancers, Mahara's Minstrels carry several big novelty acts alone worth the price of admission. Don't miss the concert at 7:30 p. m. in front of the theatre.

A telegram from Frank Coyle, who has been at San Francisco for some time, states that he escaped unhurt.
Wm. Hammeyer told the DEMOCRAT last evening that he had not given up the saloon proposition, and the Herald must have taken the wrong wife for his information that he had.
The following item from last Sunday's Sioux City Journal refers to a sister of T. W. Moran of this city:
Three lusty boy babies were born last Wednesday to Mr. and Mrs. Henry O'Neill, who live on thioold O'Neill homestead, near Jackson Neb. Although they are hardly 45 years of age Mr. and Mrs. O'Neill now have fifteen living children, all in good health. Mr. O'Neill is the son of one of the first settlers in Dakota county. One of his sisters lives in South Sioux City, and the family is widely known in this vicinity. A little over a year ago twins were born to the couple. One of them has since died, this death being the only one in the records of the family.

We Burned Them Up

We could not sell you straw hats last season, so we had to burn them up. We now have a new stock of straw hats right up to date, and we want you to come and look at them, for there are an entirely different shape from those you have ever seen before.

We Had to Do It

We had to buy a complete new stock of Hawes hats this season, and any Hawes hat that don't give you satisfaction we will give another hat free of charge. We are the only merchants that buy hats direct from a New York hat factory, in Wayne county, so if you want the late styles come and see us.

And Now Glad Of It

We did not like to make a contract for our spring stock of clothing last October, but we are now glad of it, for prices have advanced and we can beat all competition this season. Don't buy a suit until you have seen ours. We have the largest stock in Wayne and the lowest prices.

You will Be Happy Too

If you will give us a chance to show you our line of men's and boy's shoes we will be happy and so will you. We have the most complete stock of shoes in the county and have many years' experience in the shoe business. We can fit your feet. No matter how much trouble you have had, we can please you. Our "Bad Boys" shoes never wear out. Try a pair and see. Give us a chance at your feet and you will be happy.

BY DAD.

What Wayne needs is a few "muck-rakers"—in the alleys. The California climate may be all right, but we'd rather keep on shak-ing—or shivering—in Nebraska, by dad.

A fellow named Nightwine is running a restaurant an Concord. That evidently beats the time Wayne used to have with her Hirsch place.

Some damphule editor, Kansas, of course, wants to tell the DEMOCRAT how to buy and conduct a piano contest. The Kansas cyclones still have some unfinished business that demands their attention.

An exchange says we're going to have some new postage stamps that will stay stuck when they have been stuck. When we get that 4th saloon in Wayne booze ought to be cheap enough so we can lick 'em till they are wet.

Rockefeller gave the California victims a hundred thousand plunks, then raised the price of oil a cent, so it will make him probably a million more. Old Rockefeller is a head-good-fellow but he'll quake a few when he gets where he is going to.

Andy Carnegie doesn't like the notoriety attending the kissing episode. Some of the rest of us old ducks would prefer to have a little more privacy connected with our osculatory experiences. Somehow it doesn't taste just like it used to a few years ago—not even when we kiss—well, do what Carnegie did.

"They say" the Wakefield girls acted just horrid" at the ball game last Monday, while the Wayne girls "were just as nice as they could be." I guess, by dad, the Wakefield girls had a laugh coming—at the Wayne girls—because their holiday beaux couldn't play ball. Am I right, Miss Wakefield?

Style would make lots of people fools if the people were willing. The other day I noticed a young fellow—probably from the N. N. C.—with the lower ends of his trousers turned up, just as far as they were lined with canvas, and somebody remarked that it was the "latest" in pants. Recently A. Tidrick, a staid old farmer, motioned to me from across the street, came over and began a critical inspection of my wardrobe, the kind that makes you feel as though a bedbug was crawling over your clothes, but he only remarked: "Say, are long-tailed coats in style now?" "You bet they are," I remarked; "that's the style in Wayne if I have to make it myself." Then he sighed a groan of deep relief, and said he had been over to 2 Johns and bought one of those \$18 suits that they sell for \$5 and he believed he would be right "in the push" if by dad wore those kind of clothes, and if he needs a long coat—to cover what he lacks—as badly as by dad, it will always be the style with him, won't it?

Bonds Are All Sold, By Dad

The president and trustees of the Nebraska Normal College and the members—particularly the working members—of the Wayne Commercial club, are feeling pretty good this week because every dollar of the forty thousand dollars of bonds have been sold, and there is nothing left to do now but—build the buildings. Next Monday night the club members and "bloated bond holders" will have a little time over the successful termination of the task; probably open a cold bottle and carve a hot bird.

If there is anything that makes a fellow ache clear to the marrow it is to listen to a certain class of men, who have neither cents invested in the town, nor sense in their crown-sheet, spout away on the saloon question—two or three saloons, or three or four saloons in the town. Just where these people get interested in the proposition is difficult to determine. If they were opposed to saloons there might be some merit in their argument. This week I understand, one of the ministers made the statement that the churches stood for three saloons! Holy smoke! Wouldn't that throttle your throat? When did the churches, any of them, so change their creeds, beliefs or customs as to sanction any grog shops? The proposition of determining the number of saloons is by fixing the amount of license, and that only. The city council has no authority in the matter except to state the price, and then grant every applicant a license, provided there is "no objection, remonstrance or protest filed" against the applicant, and in that case the grounds for such determination must be proven by the protesters. The DEMOCRAT doesn't care whether there are three saloons or six, or one at all—but if any petitions are granted one man's money is just as good to buy a license—as the next man's.

Mrs. Dean has sold out her entire stock of millinery goods and fixtures to a party from South Dakota who will ship everything left after this week's sale.

Mr. and Mrs. A. J. Ferguson passed through San Francisco Tuesday night, a few hours before the earthquake, on their way to Los Angeles. They will be home in a few days.

As Mr. and Mrs. Patterson were coming to town yesterday their horse took fright at the huge iron for the new bridge, south of town, and turned around while on the bridge, throwing out the occupants and somewhat wrecking the carriage.

The city council of the past year will hold its last meeting, next Monday night, and Tuesday morning the new administration will meet in extraordinary session, to allow saloon petitions and give the booze fighters no opportunity to go dry. When he takes his office the DEMOCRAT opines that Mayor-elect Piepenstock will make no changes in the city's force of employees aside from the office of city attorney, that appointee no doubt being F. A. Berry, as Mr. Berry is the only attorney who did not strenuously oppose Mr. Piepenstock's election.

Attorney Davis said recently ago he would not again accept the honor, so there will be no reason for unhappiness in the ranks any way.

College Notes.

Prof. Saunty visited friends in Win side Monday.

The enrollment this term is larger than ever before this time of year. Several young ladies are rooming in town on account of lack of dormitory accommodations. Work on the new buildings is being rushed and we hope to have the new, large dormitory completed by the summer term.

A social was held in the Chapel hall Tuesday evening in order that the new students might meet each other. The members of the faculty each made a short speech, Miss Yakish played a violin solo and everyone went home feeling that they had enjoyed a pleasant evening.

Horse Stealing Near Hoskins

Horse thieves got in their work at the Gus Tetzold place, two miles west of Hoskins, last Tuesday night, running off four valuable animals. Wednesday Sheriff Mears notified the surrounding towns but no trace of them has yet been reported. One was a brown gelding weighing 1250, one a brown gelding, weight 900; one black mare, 1100, star in forehead; and one bay mare, 1200 wt., narrow stripe on forehead and stiff in left knee. \$100 reward is offered for arrest of the thieves, Sheriff Mears putting up \$25, Tetzold \$25, and Wayne county \$50. Address all communications to Sheriff Mears. The horses were stolen before midnight and no doubt were up in the bad lands before there was a chance of intercepting them.

An Awful Drubbing.

The Wayne High school team played ball at Wakefield Monday, or rather tried to play. Rev. Duley, Sam Davies and Judge Hunter were the three mascots who made the score loom up 26 to 3 in favor of the dry town. About sixty Wayne people saw the game—through their tears and the Wakefield dust.

Who Stole The Pig?

Tuesday Sheriff Mears went out to Albert Kruger's place, in Hunter precinct, and brought that gentleman to account on a charge of pig stealing preferred by Fred Utecht, a neighbor who lives across the road from Kruger's. The story, as the DEMOCRAT understands it, is that a large hog strayed over to Kruger's and that worthy, early one morning last week, put the hog and three of his own in a wagon and sold the bunch to L. E. Gildersleeve, later the loser of the hog in question being suspicious came to town, recognized his property in the yard, had the sheriff rein in the porter, and had his neighbor arrested when brought to trial Tuesday Mr. Kruger took a continuance until next Tuesday afternoon and was released on bond. He married the widow of a brother of Mr. Utecht's, and the DEMOCRAT is told the latter has been missing hogs until he got tired of it.

Phil Graves is in Wayne from Los Angeles, Cal., having left there on Tuesday, the day before the earthquake. Mr. Graves tells the DEMOCRAT that it is difficult to understand why the earthquake was so severe in one place and immaterial to others.

For instance the state university 15 miles from Stanford university unharmed, while Stanford was ruined, although in Mr. Graves' opinion the buildings at the latter place are not damaged as much as reported.

San Francisco, Mr. Graves says, was an awfully wicked city, but it does not appear to have been a visitation of the almighty, since the Cliff House, a most notorious place, was only damaged \$500, while all the churches in the city were wrecked. He says he met Gordon, the cement man who worked in Wayne last summer, at San Francisco and Gordon told him that even the mayor of the city owned a "rooming house" of 300 rooms, and it was almighty had. Mr. Graves will remain in Wayne for the summer. He says Miss Winnifred Hunter will be home next week, probably Saturday, from Palo Alto, Stanford University.

Some Fine Horses. The firm of Billeter, Burress & Billeter, importers of Percheron horses at Carroll, have put two of their best animals in the Perry barn at Wayne, for this season's service. They are big, black Percherons, of excellent style and action, and just the kind of horses that bring the high-priced farm animals. The terms are low, considering the value of the sires, \$15 to insure living colts or \$15 to insure with foal. Call and see these fine horses. If you want to breed from the best strain in the state.

This line of skirts and coats have given this same universal satisfaction in Wayne every season for the past twelve years. They are high class goods and the prices are very reasonable.

Calendars For 1907.

The DEMOCRAT wishes to impress it upon the minds of Wayne merchants and business men that this office is in the calendar business. From now until late in the fall traveling agents will call on you to sell your calendars for next fall, and we are reasonably certain that these agents will receive a few orders. It is a peculiar fact that some men would rather patronize strangers than the home printers, the same as other people prefer to patronize the catalogue houses. For next year we have got the finest line of samples ever exhibited and we will be able to sell them for a great deal less money than the agents can sell them and make expenses. The distribution of calendars the first of the year is becoming more popular each year, and it affords an inexpensive way to remember your friends. Do not fail to see our samples before placing an order.

Sheriff Has Lady-in-Waiting

Monday Sheriff Grant Mears was called to Hoskins to take charge of a female fortune teller doctor, a woman with almost as many handles to her name as the party who made the complaint, Dr. Lanserell, of that town. The charge was practicing medicine without a license. It appeared that her principal vocation was telling fortunes but the Hoskins doctor caught her prescribing for a native of that burg whom she said had been fooling with the bad wagon, and other occult terms used, known only to her profession. Tuesday afternoon Judge Hunter listened to her story and that of the prosecution, at the close of which he handed her \$50 and costs. By communication with "her man," an employee of the Dudley livery barn at Norfolk, the delinquent of fortunes was allowed to depart upon putting up a bond good for the payment of Madam Strack's "doctoring" at Hoskins. Later the comely Madam failed to get the bond and is probably unable to "see" when she will get out of jail. One of the county officials tells the DEMOCRAT that he thinks she has the fifty in her sock, but he didn't tell us why he thought so, and Judge Hunter is no doubt from Missouri on that proposition. Another phase of the case that gives the sheriff much apprehension is that the prisoner has heart trouble, has had "fainting fits," and says that if she loses the child she is expecting Wayne county will have to pay for it.

Married.

A happy wedding event the DEMOCRAT missed last week was the marriage of Miss Rebecca Rath, daughter of Mr. and Mrs. Henry Rath to Emil Nydus, the ceremony being performed at the German Lutheran church, south of Wayne, by Rev. Mazner, and a reception given the couple at the home of the bride, Mr. and Mrs. Sydow are a couple of Wayne county's very best young people, and the DEMOCRAT wishes them big bunches of happiness, and only little troubles.

Nearing The Prison.

George W. Perkins, and incidentally Chairman Catelyon and Secretary Bliss, have been moved a few steps closer to the prison doors. And District Attorney Jerome, who so strenuously contended that the pilfering of insurance trust funds for political purposes was not a crime, has been brought appreciably nearer the collapse of his political career.

Jerome will be remembered after his famous opinion had been rejected by the court, secured the arrest of Perkins on an information filed by himself, in order to head off a grand jury indictment. Then the case, as prearranged between himself and Perkins, was carried on a writ of habeas corpus before a judge of the supreme court.

Up to this point all went well. But now, unfortunately, Justice Grebaum of the supreme court has dismissed the writ and remanded Perkins to custody holding that the contributions of insurance funds made by him to the republican committee were in violation of the criminal code, and constitute the crime of larceny if wrongful intent can be proved, the latter being a question for the jury to decide.

The case now goes before the court of appeals. If the opinion of the lower court is sustained Perkins will have to stand trial as a common thief, and following him Cortelyon and Bliss, and possibly several other eminent statesmen, will be liable to prosecution as receivers of stolen property.

It is understood that it is President Roosevelt who is responsible for Cortelyon and Bliss retaining their places at the head of the national committee. Would he still insist, we wonder, if they should be tried and convicted? And so, may we look forward to the possibility of the headquarters of the next republican national committee being located at Sing Sing, with eminent "crusies" in charge?

Jordis is getting to be a hard road to travel, for even the biggest of the insurance thieves.—World Herald.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bac, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures hemorrhages, chronic coughs, settled colds and bronchitis, and is the only known cure for weak lungs. Every bottle guaranteed by Raymond the druggist. 60c and \$1.00. Trial bottle free.

Madison Star: Fred Pratt of the Humphrey Democrat is to deliver an address on "The Yellow Dog" at the Democratic Press meeting in Lincoln next month. Of course the subject has a wide meaning but Fred has the ability to frame up a good speech and it will certainly be worth listening to.

When Fred runs a butcher shop (laundry) in Wayne, he knew all about "yellow dogs," and the DEMOCRAT will be a tail or two that he hasn't forgotten the experience.

This is the season of listlessness, headaches, and spring disorders. Hollister's Rocky Mountain Tea is a sure preventative. Makes you strong and vigorous. 35c. Tea or Tablets. Raymond's Drug Store.

The fight between railroad domination, as outlined by Blythe and Perkins, and Gov. Cummings and the people, over in Iowa, ought to have a wholesome effect upon the state of Nebraska. This state is firmly in the grasp of the railroad, grain and other corporations and this is an opportune time for the people to wake up and jar themselves loose from a carnicine that is worse than a California earthquake.

The DEMOCRAT cares not whether the republican or democratic party takes the job in hand—the republican party is doing the business in Iowa—just so the work is accomplished and well done.

The Norfolk Press thinks it may be necessary to ask Morris Brown to keep him out of the United States senate, to which we can't agree. There are as many things in the senate need killing as all elsewhere put together.

Stomach and Liver Trouble Cured. Origo Laxative Fruit Syrup cures stomach and liver trouble as it aids digestion, and stimulates the liver and bowels without irritating these organs like pills and ordinary cathartics. It cures indigestion, sick headache and chronic constipation. Origo Laxative Fruit Syrup does not nauseate or grip and is pleasant to take. Refuse substitutes. Wayne Pharmacy.

Geo. D. Meiklejohn is the latest addition to the bunch of republican United States Senators. He is a rather young man, but he is not the only one who can be dug up before a senator is elected?

Standard gasoline went up another cent a gallon, this month, as wholesaler by Agent Fred Wadsworth. A few cents more on the present price and the public may make a stench out of the matter.

RICHEST MAN IN THE WORLD.
The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." THINK ECKER BLUFFING.
Down in Mississippi they think that Clyde is bluffing but will "make good" if the girls don't get him. The following from a paper down there is interesting:

They say that Clyde T. Ecker the "Yank", is sulking in his Nebraska home and it is a question whether he will return to Greenville or not. The young man is demanding a raise of \$25 in his salary.

During his time in Greenville, Mr. Ecker made a hit and a usually good impression. He can grind out yards of the "sweetest sweetness" and it didn't take him long to find out that Southern womanhood, in her purity and love of the beautiful, admire and relish it. This coupled with his knowledge of politics and his brilliant and clever way of writing it, would soon make him a power in Mississippi affairs and politics if he doesn't get "swelled up" because of his own importance and become a "Reggie" by feminine flattery and admiration.—Concord World

With John L. Webster in the "rank" for United States Senator, following the heels of the notorious Norris Brown the republican party is certainly up to that stage where a "yellow dog" can be elected on that ticket.

All smart up-to-date women of today, know how to bake, wash, sing and to play; Without these talents a wife is N. G. Unless she takes Rocky Mountain Tea.—Raymond's Drug Store.

With such men to the fore as Senator Millard, John L. Webster, Norris Brown, et al, it is certainly amusing to note how the republican press of the state rant about electing a United States senator who "will represent the interests of the people."

Scissored Jokes.

Merchant (meditatively, as he discovers that his safe has been robbed)—and I had arranged such a pretty little bankruptcy.

"You say he comes from a very prominent family?" Very. The old man has been investigated three times."

The shade of George Washington had just been introduced to the shade of Adam. "Seems to me I have heard of you," said Adam. "Aren't you the chap that put a cherry tree out or business with a hatchet?" "I'm the guilty party," admitted George. "Say," continued the ex-gardener of Eden, "Why didn't you take a fall out of an apple tree while you were about it?"

The advertising manager was in a towering rage. "What's the trouble?" they asked. "Why, they went and placed our prima donna's testimonial for a cold cure on the same page with the announcement that she had a sore throat and couldn't sing."

"One question, my good man, before I give you this money. Do you ever drink beer?" "I should think not, mum," replied Frayed Franklyn, as he passed and took the dime. "I jest lets it run down."

A lady was knocked down by a horse, but happily escaped with a few scratches. A gentleman rescued her and said: "Can I get you anything?" She (most out of breath and gasping with excitement)—Oh—oh—can you kindly get me—He—Some brandy? She—No—no, drink—some safety pins. I feel I'm falling to pieces.

"Mr. Sparker," said the man from Missouri "you sit up there like a car on a platoon. You're a bureaucrat, an outcast, a thug. a—" "Hold on," interrupted the speaker, hefling his gavel and measuring the distance to the Missouriian's seat; "that's all the 'crats I know, except demagogues, and if you call me that I'll get riled." Fearing a scene, the Missouriian was quick equipped with binders and led forth.

She (indignantly)—Slop, Sir! You shall not kiss me again! How rude you are! Don't you know any better? He (cheerily)—I haven't kissed every girl in town, it is true, but as far as I have gone I certainly don't know any better.
