The Union Hotel is still doing business at the old stand. Special Sunday dinners and a square meal three times a day.

### A New Industry.

Monday Wm. Dammev, sold his pool and billiard hall to John Nichols of Winside, and he will at once convert the proceeds into a large wholesale cigar business in connection with his factory, being now looking for a suitable location in the city. Mr. Nichols will put in a lunch counter, in connection with the pool tables, and is said to be an experienced man at the business.

Good range for sale. FRED BENSHOOF. The Union hotel is the place for a square meal.

Those artistic wielders of the razor, Root & Mabbett, are now located first door north of Neely & Craven's.

Wayne and College teams played two innings at a ball game last Saturday, when the literary lights quit because they couldn't bear to see the town boys so fatigue themselves running bases. The score was 9 to 1. Frank Turner was a visitor from Randolph Monday, but not to get a drink.

Ralph Clarke carries his left hand in a sling owing to nearly losing the member while operating a planer head. It was necessary for the doctor to take a piece of bone from the thumb, and his wrist was very badly gashed up.

Carl Baker left Tuesday morning for Huron, S. D., to look at lands.

E. H. Wright shipped cattle to Omaha Tuesday.

Mr. and Mrs. Emil Weber leave next Thursday on a visit to Boston, where their daughter Hattie is attending the conservatory of music. The trip is planned as a surprise on the young lady.

Street Commissioner Harmer, and Dan Legan behind the new road grader, are putting the streets in first-class condition.

C. W. Culler has purchased the Dr. Hecker residence near the Ward school.

C. J. Rundell was in Omaha several days the past week.

Rev. Duley left last Friday for Grand Island and points in the southern part of the state.

Street Commissioner Harmer has put in a ditch on upper Main street to carry off the water that has heretofore become stagnant at that place. The city's new street scraper and plows, are a great improvement to keep the streets in condition.

Just so long as Wayne elects men on the city council who love the railroad company better than their town, that "stink" a writer in the Wayne Herald objects to, will remain with us. The DEMOCRAT man came near being mobbed one day last summer for even suggesting improvements that would put the railroad company to a little inconvenience.

Mrs. and Mrs. G. C. Davis of near Winside were in town Saturday.

Mr. and Mrs. E. R. Chace accompanied their daughter Mrs. McLeod to Stanted last Saturday, and spent a few days visiting there.

Mesdames Geo. and Guy Mattison of Ponca were in Wayne last Saturday, guests of Mrs. G. S. Sears. The former brought her son George here to attend college.

Mr. and Mrs. J. M. Cherry spent Sunday at Norfolk.

Mrs. A. A. Wollert and Miss Haas went to Council Bluffs Saturday.

### BY DAD.

Caught the biggest catch of fish taken out of Lake Okoboji last Tuesday. A prize was hung up for the largest catch, by weight, and we, I mean he, our guide, fisherman, took the red ribbon. By dad, I don't blame Uncle Chace for wanting to go fishing up there. It certainly is great sport, and Arnold's Park is about the only respectable place in western Iowa where you can get bait—outside of a town called Remsen.

From the sensational stories flying around, some people have failed to profit by a little advice given them in this column a few months ago. Too bad! too bad! so sad! by dad!

Sometimes a fellow feels as if some women ought to wear pants, so they could tuck in the tails, ends of their shirt waists instead of letting them fly loose.

Bixby, in "Daily Drift," is always telling his readers what to eat for breakfast to avoid indigestion, constipation or appendicitis. The main thing by dad, is to avoid the "hired girl," at least that is what gives me, or makes me, bellyache. For thirty years I have been getting my own breakfast, Bix, and there is nothing like your "three poached eggs, two thin slices of bread, well toasted and generously buttered with cow butter, a saucerful of cold strawberries and cream from the refrigerator, and the whole works washed down with boiling hot coffee." If your inside diges are out of order, try the above recipe; by dad, it's what makes this pen-cil-pusher so fat.

The life of the average woman is divided into two long dreams. In girlhood she dreams of the happy little cottage she will have when she becomes a wife, and after she is married she dreams of the happy home she had as a girl.

Judge: "What do you do," he asked the gardener, "when the egg plant has been properly set?"

Realizing that there was a hen on the grizzled old gardener advised the young man to come off the perch, laughing sarcastically.

"Don't cackle at me," advised the young man.

"If I wasn't afraid you'd crow over me I'd ask you, what you would do with the egg plant."

"I'd pullet."

Which angered the old gardener so much that he pursued the youth with a hatchet.

Say, after a fellow has spent a few days knocking around in Iowa, it scares him to come back to Wayne and forget he has to be a gentleman and not expectorate on the sidewalks. LeMars, Cherokee, Fonda, Spencer and Sheldon, towns I visited a week ago, all have an ordinance forbidding "spitting" on sidewalks, and it's a good thing to introduce here in Wayne. Iowans tell me it is not rigidly enforced, but you don't see any tobacco puddles anywhere, not even in front of the holes-in-the-walls—so they told me.

A long skirt is going to be the rage—the society rage. But if you want to see the real thing just step on the skirt.

Everyone who loses a dog says he wouldn't have taken \$100 for it, but no one ever offered him more than 100 cents.

Some women in Wayne have dresses that are "perfect dreams." There are other Wayne women who get the dresses in their dreams.

Geo. Pilleo was a Carroll man in Wayne Monday.

THE WELD THAT HELD

Science has developed something infinitely better than the old-style wrap or clamp.

## "PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

### Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

MR. FARMER: LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

That the wires are not injured at the joints.

That the fence is perfectly adjustable to uneven ground.

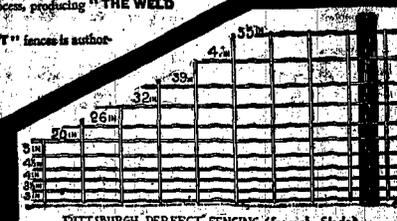

That the stays will not separate from the strands.

That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

OMAHA RECTOR TAKES ISSUE WITH BISHOP

Episcopal Churchman Does Not Believe in the Desecration of the Sabbath.

RECTOR IS TOO LIBERAL

Omaha Minister Says It is All Right To Play Golf or Go Automobile Riding on Sunday.

Omaha, Neb., May 22.—On the question of Sunday amusements, Rev. T. J. Mackay, rector of All Saints church in Omaha, takes direct issue with Bishop Worthington, head of the Episcopal diocese of Nebraska.

In a letter from New York, where he is compelled to reside on account of his illness, reaching the meeting of the Episcopal council, Bishop Worthington said in reference to this topic:

"It would appear that the commandment of God, 'Honor My Sabbath,' is understood even by so-called Christians to mean, 'Swing the golf sticks and play the links on Sunday.'"

"This is the bishop's private professional opinion, to which he is just as much entitled as is the rector of All Saints church to his. 'Worship' is a teaching children to observe the Lord's day by tying them to a bed post and making them sing 'Wanna Be an Angel,' is obsolete and the old Sunday observance will hardly be revived in this country. A certain portion of the clergy are devoted to the service of God in His house of worship, but I hold that the rest of the day can be profitably spent at golf or other rational recreation. What we want is to make the Lord's day a day of delightful, day of wholesome recreation, free from the total abstinence from all kinds of work. Personally, I should be in favor of closing all places of business on the Lord's day, including the postoffice. But that does not conflict with the idea of a rational amusement. The command is to abstain from all unnecessary labor—not from recreation if conducted in the proper spirit."

Banker Seeks Dog Catcher's Job

Omaha, Neb., May 21.—This city is to have the "sweetest" dog catcher of any town in the world. He is a nephew of United States senator, a bank cashier, a leader in high society and worth a million. Alfred Millard, cashier of the United States National bank of Omaha and nephew of United States Senator Millard of Nebraska, is an applicant for the place of dog catcher in this city. He has the place is officially known. As soon as the newly elected city officials are sworn in, they will have to make a formal application for the job.

Millard does not expect to do the actual work of catching dogs. He expects to employ a few assistants. But he does expect to oversee these assistants and to see that the work is done right, and that it is properly done.

Mr. Alfred Millard

that if a dog must be killed the job will be done in as much kindness toward the dog as is possible.

"It means that the office will be run for the good of the dogs, and not for the interest of the city. The dog catcher, says Mayor Zimmerman, urging Mr. Millard for the position.

Mr. Millard is president of the Nebraska Humane society and treasurer of a national organization, and it is further the aims of the humane societies that he is asked to have the honor of the position of a movement which gave the city the finest dog pound in the country, the structure being built on the lines of a Greek temple and having a most artistic design where the animals could be quickly killed by gas.

SKELETON FOUND IN FIELD

Grosses Find by Nebraska Farmer

Franklin, Neb., May 22.—John Dunton, a farmer living about three miles southeast of this place, while plowing, discovered the bones of a man who had been buried about five years. By the teeth it appeared that he was about 60 years of age. He is generally thought the remains are those of Hans Holverson, who disappeared about a month before the brutal murder of A. B. Kirschbaum, for which Holverson is now serving a life sentence at Lincoln. The Dunton farm is but a short distance from the home of a man who was a farmer, and is in the same neighborhood where Kirschbaum lived. The body was about 18 inches long and 12 inches deep, and it seems strange that it had not been discovered before, as it was found in a good farm and near a house.

INSANE MAN TRIES SUICIDE

Dakota City Assaulted a Minister, Breaking His Jaw.

AN EX-PRISON CONVICT

Young Fellow Has Just Been Released from the South Dakota Penitentiary for Selling Liquor to the Indians.

Dakota City, Neb., May 21.—Logan Lambert, was yesterday brought here from Sioux Falls, S. D., by Sheriff H. C. Hansen and lodged in jail. Lambert had just completed a sentence in the Sioux Falls penitentiary, imposed upon him by the United States federal court at Omaha on a charge of selling intoxicating liquors upon the Winnebago reservation.

Evicted to his imprisonment upon this charge the bonds of \$1,000 he was under for his appearance at the district court of this county on the charge of assault upon the person of Rev. Father Joseph Schell became forfeited and he was accordingly placed in the city jail, where he remained until he was brought here from the penitentiary. Sheriff Hansen being in touch with the United States marshal at Omaha, he was taken to that institution placed him under arrest.

The assault charged against Lambert was committed in this place about a year ago and was a most cowardly one, Lambert inveigling Father Schell to accompany him to a large industrial building on the pretext of wishing to converse privately with him, and there assaulting him with a brick. Lambert, breaking his jaw in two places, which confined him in a hospital over a month.

Conductor A. W. Baker, in charge of the train, was handed a note written by the deceased woman, just before leaving Kansas City. It read in part: "Heart failure. Put me in Lincoln train and send me just as I am. They had to have me here. I know one will meet me. Do not destroy." NEW ELECTRIC ROAD

Western Nebraska to Be Given Better Transportation Facilities.

Chadron, Neb., May 18.—The plans for an electric railroad connecting Chadron and Hay Springs in Sheridan county, Nebraska, are practically consummated, and the fertile tract of country comprising about six miles of country, is being prepared for the construction of a line of electric road.

Omaha, Neb., May 16.—At a late hour last night a steam automobile containing six persons blew up at Twenty-ninth and Main streets, Omaha, Neb. The explosion was so violent that it was thought to be fatally hurt.

The force of the explosion hurled some of the victims fifty feet and broke windows a block away, while pieces of the machine were found two blocks from the scene of the explosion.

A plat was clutched in the hand of the man and it was evident that he had shot his wife and then himself. Mackey was 60 years of age and wealthy. He was an ex-county official. The couple had been married less than two years. His wife's married life had not been happy.

Fremont, Neb., May 14.—Manager of the Ames factory, near here, says the Ames factory will be run the coming season and that the first season's beets will be paid in full and there will be money to pay for this season's sugar. The company, he says, has made money every year since 1905, and the present situation is due to the poor quality of last year's crop.

FREE MAN AGAIN

Alexander Berkman Leaves Prison, After Serving 14 Years for Attempting to Kill H. C. Frick.

Pittsburg, Pa., May 21.—Alexander Berkman, who made an attempt on the life of Henry Clay Frick during the great steel strike at Homestead in 1892, was released today from prison.

It is stated that Frick has employed private detectives to shadow Berkman, but he has kept the millionaire daily informed as to his movements.

During his imprisonment Berkman has read a large literature and has collected, and has fitted himself intellectually for a literary career. He has said he will begin a new career as a daily newspaper in St. Louis.

In an interview Berkman said he had never regretted his attempt on Frick's life, and he had nothing against Frick. He said he was prompted the deed. Conditions, he said, had changed, and he had nothing against Frick. He said he was prompted the deed.

PORTS WANTS FUNDS

Will Demand That Guarantees of Insurance and Stock Companies Be Deposited With Government.

Constantinople, May 21.—The embassies and legations are preparing a joint note for presentation to the Turkish government, tomorrow, protesting against the violation of rights connected with the liquidation of the company's property for taxation at \$40,000.

The law affords many opportunities for constant official meddling, together with the delay and bribes that are inseparable from official procedure here. It also insists on heavy registration fees. The law has been published. The embassies have not been notified, but a concerted protest from the powers is certain to follow.

SQUEALS OF DUROC

FATAL TO P. C.'S

Remarkable Tragedy in Swineherd Resulting from Noise Made by Hog Being "Rung."

Port Scott, Kan., May 18.—The death of four Poland China hogs from sudden fright is the remarkable incident which has attracted attention here. The hogs were owned by M. E. Williams, an elderly man living near Ames, Vernon county, Mo. Mr. Williams had five Poland China hogs, of which three were averaging 180 pounds apiece, and one a pen together. Having occasion to ring the hogs he got a neighbor to assist him. The neighbor, however, was using a horn which was not a true horn, and the noise caused the hogs to huddle in a corner, and the result was that they set and started. When the men tried to arouse the animals, they were all dead except one. The autopsy showed that there was no blood in the arteries or veins, except what was contained in the heart. The hogs had been actually frightened to death. The one which survived was all right again in a few minutes.

CHURCH QUILTS BUSINESS

Mormons Selling Big Properties—No Money in Religion.

Salt Lake City, May 18.—The Mormon church is going out of business, according to a local paper. Its principal holding in Salt Lake, the Utah Light and Railway company, is to be sold. The church is composed of English and American capitalists. The new company will sell the Utah Light and Railway and build an electric line from Juab county, Utah, to Oneda, county, Idaho.

Simultaneously the announcement is made that the Salt Lake and Los Angeles lines of the church property, has been sold at an auction sale for \$800,000. This road is thirteen miles in length and runs from the city of Salt Lake to the city of Los Angeles.

President Joseph F. Smith, of the Mormon church, is quoted as saying that the church is going out of business is made on account of the fact that the Mormons whom the church wished to get out of the country, need the protection of the church business affairs. The church entered the territory of Utah, and arranged for the protection of the church, but they are now on a firm footing, the church withdraws from business entirely.

If this policy is completely carried out, the Utah traction interests will be followed by a number of banks, sugar factories, the Great C. & N. L. department and many smaller enterprises. It will be nothing less than a commercial revolution, which will profoundly affect the political and social life of the state.

# Success and Failure.

To be successful is to make the best of your opportunities. To fail is to be satisfied with your present condition. You may plant many acres and reap an abundant harvest, and yet fail to use your best opportunity in making a good investment with your money, and the world will call your effort a failure. You may be satisfied to let present conditions alone and not investigate the new things that present themselves for your acceptance; if so your life will be a failure. There is no stopping place in life, and if you fail to move forward you are going back. This brings us to an important place, and if you will give us an opportunity we can help you to move forward. You can not move ahead unless you have the up-to-date appearance. Men are judged today by the impression they make, and you cannot make the right kind of an impression unless your outward appearance is favorable. Here is where we can help you. We have at all times the latest up-to-date clothing, and if you come to see us you will not only get the latest styles but the honest price. We are ever busy investigating every line made in this country, and we are not satisfied to buy of only one manufacturer, but pick out the best things in several lines. You will certainly make a great mistake to buy any clothing for men or boys and not investigate our store. Success will be certain and failure impossible for you, if you do your trading at this store. The most successful men in Wayne county trade here. Why not try us for your next suit? ## BY DAD

Wonder where Perkins is today? See the Journal if interested.

By dad, it's getting awful hot. This Staley I will have to do; And go Nick's or Herman's place To blow the froth all off the vase.

The wives of two musicians met on the street one day. One was pushing a baby carriage containing three girl babies (triplets). The other just over her honeymoon congratulated her upon such bliss. Upon which, the proud mother said, "at the attributed it to the fact that after returning from their honeymoon the town band serenaded them, playing 'Three Little Maids from School.'" The young bride held up her hands in holy horror and exclaimed, "Gracious! that same band serenaded us, and played 'The Sextette from Floradora.'"

What is rarer than a day in June will not be weddings from what I hear the little birds singing. Several young Wayne people will join hearts, hands and sorrows next month. There is nothing like getting married, unless, by dad, it's trying to stay that way.

A woman over at Webster City Ia., is suing the doctors for \$10,000 damages for sewing a napkin up in her abdomen, after an operation for appendicitis. "Spouse if they'd left two napkins in her it would have been \$20,000."

Last Saturday a Wayne woman's hat blew off in the street and two wheels of a dray ran over it. The shape was improved considerably.

A baby which lives in three nationalities every twenty-four hours is a curiosity in Des Moines. It is Bill Rami, 14-months-old son of Count Nathan, who married an American girl in Quincy, Ill., three years ago. It is the first baby of Hindoo parentage ever born in America. When the little fellow awakens at sunrise he is a pretty pink complexioned boy. At noon he commences to slowly change color and within an hour he is a dark ginger color of his princely ancestors. At night he sinks into slumber and becomes an alabaster white. "The mixture of bloods is said to be accountable for the strange phenomena.—Cherokee Democrat.

That's nothing at all. After one week spent in Iowa prohibition towns I can swear that a fellow will change color every time he looks a druggist in the face.

Jonas Ecker was in town Monday and procured permission by fee of one dollar to go fishing outside of Wayne county. Wonderful government this, that will permit an insurance agent to ply his vocation free of restraint, and then compel him to take out license to sit on the banks of one of those dirty little rural sewers and imagine he's still catching 'em.

A sect of theosophists in Ohio are promulgating the doctrine that we miserable-enough-now creatures are turned into horses when we die. The society ought to get next to a Wayne bunch of men, who seem to think they are horses right now, while the public says they are only part horse.

May be a little early in the game, but I haven't heard anyone kicking on the new city administration. Dan Harrington no longer refers to Wm. Piepenstock as "Peep," and my true friend John T., is no doubt glad by this time that a good man was elected mayor.

There are two men in this 'ere place, whom gossips say, now hit a pace. If they don't stop and mend their way There soon will be the devil to pay Peter, Peter Overcoat

The DEMOCRAT is in receipt of a communication from J. R. Chace of Pilger, enclosing constitution and rules of their Anti-Horse Thief Association, and requesting an organization here in Wayne County to work in conjunction with the Stanton County organization. Parties interested should call a meeting and arrange to help catch the slippery thieves. If all adjoining counties follow suit it will be a hard matter for a horse thief to make his get-away.

### BY DAD

It is stated that when the colored people ran out of their homes during the excitement caused by the recent earthquake, one old fellow said: "Oh Lord, we is mighty troubles send down thy Son to help us!" When a negro near by exclaimed: "No, no Lord, don't send your Son; come yourself, Lord. Dis am no time for chilluns!"

Wouldn't you hate to be a photographer? Here is one of the things they have to call for in buying supplies: Hydro-chloric acid salt of metaamidorthoxybenzylalcohol, and yet some people think a picture man doesn't have to know much. There are men in Wayne who stagger under the last part of that name.

Who's going to Cummins or Perkins? Tackle a merchant, or a banker for business, step into a drug store to buy a cigar, ask the bartender for a drink, go to prayer meeting, hand the conductor your transportation, josh the dining room girl, or tempt any of the ordinary transactions of every day life and the eternal question is fired at you. It is getting tiresome, don't you know.

A traveling salesman in the employ of a large bicycle manufacturer of Baltimore, was obliged to go out on his territory, about the time an interesting domestic event was expected. The salesman desired his sister to wire him results, according to formula something like this: If it was a boy, "Man's safety arrived." If a girl, "Woman's safety arrived." To the astonishment of the father elect when he had been gone but a few days he received a telegram with just one word,—"tandem."

Irving Bode has been found short in his accounts with Falls City as treasurer. Bode don't probably feel as bad about it though as that other fellow who was short in Falls City a few years ago.

"Everybody works but father," doesn't go in this shop. By dad, if all you fellows worked like this paternal-familias—works 'em—you'd be able to pay up that back subscription.

And they, to save their lives,  
Had to go where Mary went  
Cause Mary had the hives.

A Ft. Wayne undertaker has recently bought an automobile hears and he now comes forth with the statement that people are just dying to ride in it.

**Roosevelt and Chandler**  
(Springfield Republican)

Mr. Roosevelt's amazing readiness to denounce others, his deliberate lies when in his opinion, they happen to misrepresent him, is again to be seen in his telephone message to the senate through Senator Lodge, to say that Senator W. E. Chandler of New Hampshire had misrepresented him to Senator Tillman regarding his feeling toward Senators Spooner, Foraker and Knox; the president took pains to announce on the spot, without considering that Mr. Chandler's antecedents and character entitle him to some respect, that "the statement attributed to me by Mr. Chandler is a deliberate and unqualified falsehood." That word "deliberate"—consider it seriously for a moment, it constitutes the very gravest form of personal insult that one gentleman can offer to another, and in the older days it almost invariably led to quarrels that could be settled only on the dueling grounds. For when you say that some one told an untruth with deliberation, you deny that there could possibly have been an honest misunderstanding, and thus you publicly brand that person as having no respect for veracity. This habit of calling decent and distinguished citizens "deliberate" liars appears to be growing upon the president; he treated Henry M. Whitney of Boston in exactly the same way. Mr. Roosevelt cannot appreciate how extremely exasperating such conduct on his part must be; nor can he fully realize that his exalted official position protects him from certain forms of rejoinder to which he would be subject were he in private life. When he says that W. E. Chandler is guilty of "deliberate" falsehood, he not only brands a man whom he considers good enough to be his personal ambassador, but he does that man a grave personal and moral wrong.

After all that Standard Oil has done for the republican party, even to raising the last five millions of corruption funds in 1896, that saved the day for Hanna and McKinley, it seems rather ungrateful for the G. O. P. politicians to sneak away instead of standing by it in its distress. Even Senator Aldrich appears to have caved in on the alcohol bill.

Roosevelt is not the only phenomenon that can talk in opposite directions at the same time. The wireless telegraph operator on the French steamer La Provence accomplished that feat on the 27th of April by talking to people on both sides of the Atlantic at once. Great talkers may expect imitations.

**Welcome Them Back.**  
 Edgar Howard in the Columbus Telegram: Twelve years ago, when the devil began breeding trouble in the democratic family in Nebraska, thousands of democratic hearts were pained because of the withdrawal of many revered leaders from the household of faith. Men like Morton, Miller, North, Boyd and Pritchett, Yates and Sawyer—men from whose lips the younger democrats of the state had received their first schooling in the faith, wandered away into strange paths. Some of them died in political exile, but thanks be to the powers, the great majority of the wanderers have now returned to the old fold, and they have returned not with a desire to dictate, but rather to take humble place under the banner of that political organization which has been since the government was founded the custodian of the faith once and for all delivered to the American people by the fathers of the republic. It is with feelings of real pride that I am today to announce to the democracy of Nebraska that another of the old guard, another of the preceptors of the democratic boys of twenty-five years ago, has publicly expressed a desire to once more take a place in the democratic ranks in Nebraska, and to give to the cause of constitutional government, through the medium of that party, all of the strength of voice and vote which the years may have in store for him. I refer to Hon. James E. North of Columbus, and I know that this announcement will be received with joy by thousands of the brethren who in the old days held him in breath and prophetic of democracy, but in later days an alien and an enemy. For the present Mr. North gives as his only reason for return to the democratic ranks the fact that duty points him there, but promises soon to express at length his view regarding the merits of the two great parties now contending for the suffrages of the American people.

**POSTMASTER ROBBED**  
 G. W. Fouts, Postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort according to his letter which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for biliousness, neuralgia, weakness and all stomach, liver, kidney and bladder derangements. A wonderful tonic. At Raymond's drug store 50 cents.

Sir Thomas Lighton dropped a lot of money in this country, and had both his conceit and appendix cut out, but will try me more face. He is advertising his tea, and realizes that "it pays to advertise."

**Fender Republic:** Some of our exchanges are showing themselves black in the face for Edward Rosewater for United States senator, but it occurs to us that one who stands as the bosom friend and boon companion of Tom Denton may not be all that he seems to be.

The DEMOCRAT was under the impression that Rosey was the bosom friend of a Mrs. Somebody!

**War Against Consumption**  
 All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your life by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. Ask for Foley's Honey and Tar and insist on having it. Wayne Pharmacies.

**WRITIN' RHYME.**  
 It may look pow'ful easy to write a little rhyme. An' rattle off some verses ev'ry day, But the words don't always jingle and dovetail every time, o' writin' rhyme ain't always easy play A feller's got t' feel it an' know its comin' out An' let it bubble up until it's done; Then ev'rything is easy, fer he knows what he's about An' writin' rhymes is just th' best of fun! But you simply just can't do it when your liver's out o' whack, Or your stomach feels just like a lump t' lead, Or you feel th' "morning after" as if your tongue would crack An' a swarm of bees were busy in your head An' when everything's agin you the muse is mighty shy, Don't want to come where trouble's in the way, But when clouds have parted an' th' rain-bow's in th' sky Then writin' rhyme is th' best o' play. —Dalton in Mason Democrat.

**Was Wasting Away.**  
 "I had been troubled with kidney disease for the last five years," writes R. R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney cure and less than two bottles cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Wayne Pharmacy.

The Lincoln Star, a leading state paper of the republican party, says that if its party expects to remain in power, the party "must clean house." With such carpet-batters as Norris Brown and Tom Dennison's friend, Rosewater, the housecleaning should be accomplished without even scaring the bedbugs and cockroaches.

**Soldiers and "Crosses"**  
 The Pender Republic is lighting the whole army. Recently Pender was visited by a company from Fort Crook, and here is the Republic's manner of bidding them adieu:  
 A lot of our girls made fools of themselves and were 'as crazy after the soldiers as the soldiers were after them and the result was nauseating in the extreme. The whole town was talking about how the soldiers were acting and the Times says the girls "chased after them in a manner that indicated they had LITTLE OR NO RESPECT FOR THEMSELVES."

And that was about the view the public took the matter. The girls felt bad when the soldiers went away and cried for them as children cry for castoria, but it is a good thing for the girls that they are gone.  
 A love affair with a private soldier could never lead to marriage for the simple reason that a private soldier could not support a wife. Just imagine yourself, dear girl, trying to live happily with your soldier lover on \$13 per month. With that you will have to buy furniture, clothes, fuel, food, rent, medicine and pay doctor bills and incidental expenses. Such an income would not even pay for rent and fuel alone, to say nothing of the other necessities that must be provided for.

You will be mad at the editor of this paper for writing this article, but he is not mad at you. In years to come, when you are older and wiser, you will think differently about these things. Choose for your sweetheart some young man who is getting an education or learning a good trade or profession. In ten years from now he will be banker or a merchant or a mechanic, or professional man, or perhaps an editor. But in either event, his salary will be from five to fifteen times the salary of "Corporal" Thompson. He can feed and clothe his wife and children respectably and them with all of the comforts and many of the luxuries of life, while the young man of blue uniform and brass buttons will still be Corporal Thompson, without wife, or babies or home and will still be loafing for the government at a salary of \$13 per month.

**A MOUNTAIN OF GOLD**  
 could not bring as much happiness to Mrs. Lucia Wilke, of Caroline, Wis., as did one 25c box of Bucklen's Arnica Salve, when it completely cured a sunburn sore on her leg which has tormented her 23 long years. Greatest antiseptic healer of Piles, wounds and sores. 25c at Raymond's drug store.

Norris Brown of Nebraska, and Jerome of New York, and Roosevelt, too, if you please. They make good house-cleavers for the g. o. p., but the smell and taint remain with the party.

Rockefeller's income is \$1,000 an hour, but some day in the near future he will die and go to hell, and the money won't do him a bit of good. There are lots of things in this world besides coin.

There appears to be a suspicion in the minds of some republicans that Judge Graves can beat McCarthy for congress or can give Judge Boyd a race for life. Pretty hard to tell what the anti-railroad sentiment in Nebraska will develop, but it's a sinch 99 per cent. of the republicans are "Cummins" people in this northeast section of the state, and they all love La Follette.

Washington special in Omaha Bee: The people of Wayne, Neb., have planned a rousing Fourth of July celebration and have written Congressman McCarthy to secure either Senator LaFollette or Senator Tillman. Mr. McCarthy saw both gentlemen today, but previous engagements compelled them to decline.

**Fortunate Missourian**  
 "When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Grayville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery for a short time found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest cough and cold cure and throat and lung healer. Guaranteed by Raymond, the druggist. 50c and \$1. Trial bottle free.

**A Ball Game**  
 "And the band played on," so said the Carroll boys, and they probably still be playing had not the impire them out for running too fast for hitting the ball too hard.

The afternoon was favorable for the game although the fans held their breath all morning for fear of rain. The Carroll team was out in their new suits and looked like winners from the start. The "renowned" Sierbahn and the "mighty" Sierbahn were the battery for Wayne and right plunk did they do. In bold contrast was the fine work of Ed Evans and Tiff the Carroll battery. The feature of the game was the all around playing of the Carroll boys. How different it was from last year. The first four innings were close but a close observer could see something was going to happen and it did happen. The score:  
 Carroll 1 1 1 1 4 9 0 6 3 26  
 Wayne 1 0 1 1 0 0 0 4 0 7

**Rosewater A Pop.**  
 Editor Roywater of the Albion Argus, visited Columbus yesterday and did a little preaching, both spiritually and politically. The best thing about Poywater is the fact that he carries his religion and his politics with him every day, and he is never astamed to let the world know where he stands. While in Columbus he visited the tabernacle where the revival services are in progress, and aided the cause with his voice and his presence. On the streets he was preaching the same political creed which has been his for years. He left a card under The Telegram door, and on the card was this question: "Do you know of any better pop than Rosewater?" We are frank to say that we do not. Rosewater has been more consistent than the average Nebraska pop. Indeed he so much resembles the majority of pops that he would be admitted to any pop convention without the aid of whiskers. He also has the ear-marks of an Omaha pop. He is always advocating pop principles, and always voting the republican ticket. And therefore, in answer to the question on Brother Poywater's card, we frankly confess that "we do not have the acquaintance of any better pop than Rosewater.—Columbus Telegram.

What's the matter with all you republicans who love good government putting your shoulder to the wheel and sending Bryan to the United States senate? With Bryan, LaFollette, Tillman and Bailey, at one end of the guy line, don't you think there would be something doing pretty lively for the dear people as well as the railroads. Why keep a lot of graters in your employ when you can hire honest men to fill their places. Does politics go further with you than honesty and honor? Shove the Millards, Rosewaters, McCarty's, Norris Browns, Mickey's and other mites along to their proper station in life.

Because a man gets elected to some office is no good reason for him to become swelled up so that he takes off his hat every time he thinks of himself.

If you have ever inspected a map of Northern Wisconsin, you have undoubtedly observed that hundreds of the most beautiful lakes are adjacent to the

### North-Western Line

At many of these lakes are summer cottages and hotels providing excellent accommodations at reasonable prices. Then again if a camping party wishes, they may drive a few miles inland and enjoy practically a virgin field.

### Trout, Pike, Bass and Muskellunge

will be found at almost any of the Northern Wisconsin resorts. For booklet showing maps of the fishing localities, lists of hotels and prices or any assistance you may desire in finding a desirable location call on or address, T. W. TEASDALE, GENERAL PASSENGER AGENT, St. Paul, Minn.

### A Little More By Dad.

Do you like by dad? Stuff, I mean.

That State bank statement today is certainly a hummer, and speaks, by dad, for itself.

Hans Hanson says that play Tuesday night was great. It's the John Hanson plays that Hans doesn't like.

Billy Larson says he thinks he would like to try the livery business next. He is of the opinion that beats going to the halls of congress.

By dad, I'm glad they are out of style. Five years ago they sold them at \$65 and yesterday Dan Harrington the popular clothing man, sold me one for 65 cents. I don't mean that thing Dan keeps in his south window, but a Panama hat.

John W. Evans, the well known piano tuner, of Omaha, is in Wayne on his regular annual trip. Those needing his services please leave orders at Jones Book Store, at once.

There will be an entertainment, consisting of a play, "The Fair Equestrienne" and musical, elocutionary and physical culture numbers held in the Chapel Hall, Friday evening, May 25, beginning at 8 o'clock.

### Letter From Homer Scace.

Basin Wyo., May 19, 1906.

Friend Goldie: We just got the Democrat tonight. The folks were a little late in sending it. We generally get it Wednesday nights, and it certainly looks good to little Willie and I. Billy Wills and I are the only ones left in Basin of the Wayne boys. Eddy Hardy and Oscar Edwards are at Worland, Charles Hofnagle is at Thermopolis. Bill is working up the river at a saw mill. G. D. Franks & Co. are doing excellent business. Billy Wills is working in the brick yard and I am working for the Basin Hardware Co. Laborers are getting 43 per day, carpenters 46c to 50c an hour, and masons \$9 per day. Basin has been on the boom ever since I have been here, but the past week has been a little dull. Work has slackened up for the want of building material. We have a rock quarry six miles from town and a lime kiln eight miles from town. Native lumber is plentiful, but it is all cotton wood and they need finished lumber. Eggs are 40c per dozen. Butter 25c per pound, coal oil and gasoline 40c per gallon, and can only be had in five gallon cans. Coal is \$4 per ton delivered and \$2 at the mine. The Alamo coal mine is four miles from town. Clothing is cheaper here than at Wayne. Everything is freighted across the country from Garland 50 miles. There is one freighter here with only one arm and he handles an eight horse team as well as the average man would handle a single driver. Freighters receive 40c per hundred pounds from Garland to Basin. The bottles here are all gumbo board or muslin, very little plaster is used on the walls. Two young ladies, the fellow that works with me and myself drove over to Sheep canyon a week ago to spend Sunday. In fording Grey Bull River our lunch went out the back end of the rig, so we took dinner at a railroad camp and it was a dinner good enough for anyone. Sheep canyon is about one half of a mile long and about 200 feet high. There are about 1500 men working on the canyon day and night. We walked through the canyon and crossed the Big Horn river. Billy and I are living in a tent. The Big Horn river runs past our door, and fishing of all kinds is fine. John Lewis caught a 10 pound catfish when he was here. But we beat him two pounds. We caught a 12 pounder the night before last. Well Goldie, Bill forgot to bring down some oil tonight and I have turned this light up until the wick is about burned out. So I will have to hit the bunk. If any of the Wayne boys want to come out here tell them to come ahead they can find plenty of work.

Yours sincerely,  
HOMER S. SCACE

### Calendars For 1907.

THE DEMOCRAT wishes to impress it upon the minds of Wayne merchants and business men that this office is in the calendar business. From now until late in the fall traveling agents will call on you to sell you calendars for next fall, and we are reasonably certain that these agents will receive a few orders. It is a peculiar fact that some men would rather patronize strangers than the home printers, the same as other people prefer to patronize the catalogue houses. For next year we have got the finest line of samples ever exhibited, and we will be able to sell them for a great deal less money than the agents can sell them and make expenses. The distribution of calendars the first of the year is becoming more popular each year, and it affords an inexpensive way to remember your friends. Do not fail to see our samples before placing an order.

Save The Little Chickens.

Don't let them die for the want of necessary feed. Buy some chick feed and they will live and soon have feathers. You can get any quantity of J. H. KATZ.
