Were Not Guilty.

Altona was well represented in Wayne last Monday. Christ Holst of near that burg having a bunch of young men arrested, and requesting that they be put under bonds to keep the peace. There wasn't much evidence—in court—however, and Judge Hunter decided there were not just grounds for putting Walter Stubbs under bonds to keep the peace. Similar complaints were not two or three other parties were against two. County Attorney Siman prosecuted and Atty. Berry defended. From what the DEMOCRAT can learn the boys, or rather single men, about Altona are making life miserable for a few citizens, and the stories about their doings indicate that somebody is going to get hurt before they quit it.

W. J. Evans, a former resident of Wayne county, is now carrying mail from St. Helena to Hartington, by way of Bow Valley.

Neal Thompson left Monday on a two weeks trip to Wessington Springs, S. D. Neal expects to make that country his home another year.

It now transpires that United States Marshal Warner was here last week to get witnesses against a bogus doctor of Baltimore. Miss Maggie Davis daughter of D. M. Davis, of Carroll, was one subpoenaed, and she started Monday afternoon for the east. It appears certain letters found among the effects of the doctor led to the picking up of these witnesses in Nebraska.

The DEMOCRAT understands that H. E. Siman will be a candidate for state representative this coming election. It is also whispered about Wayne that E. Cunningham would make a good man to send to Lincoln. As the legislature is going to be democratic next winter, why not unite upon a man who would not be in the minority party. E. W. Cullen or Walt Gaebler of Winslow would be about the proper size.

A Spring Cyclone.

J. E. Mitchell, of south of Wakefield, got a hurry-up call to go home, while in Wayne Friday afternoon, about four o'clock, the telephone message stating that his place had been torn up by a cyclone. Aug Slahn was in town Monday, and told the DEMOCRAT that he got a good look in on the twister, it being a quarter of a mile from his place. While over the Mrs. Brudigan farm the thing's tall came down and whipped the roof off her barn, broke windows in the house and drove one board clear through the building. The next point of attack was at Pete Long's where it completely demolished a brand new wagon, tore the porch off his house and blew down small buildings. Mr. Mueller who lives on the John Baker farm was hurrying a team away from a buggy to get the horses in the barn, when the wind picked up the vehicle and upset it upon him, badly bruising an arm. At Ham Mitchell's place the worst damage was done. Mrs. Mitchell and children remained in the house, two hired men being caught in the barns. The house was so badly twisted out of shape that the inmates could not get the doors nor windows open after the storm had passed. One barn was demolished and out houses blown over. Trees were uprooted and Mr. Mitchell's fine orchard ruined. A lot of chickens and hogs were killed at the latter place. Here the cyclone hoisted sail and passed away.

"Border Line" at Hoskins.

From Headlight:
Upon awakening from the quiet slumbers of the previous night, Saturday morning, the Swanson brothers were attracted by an unusual sound coming from the sleeping room of E. Swanson, their father. Hastily they made their way to the apartment and found their father rolling from side to side in a condition sufficiently alarming to suggest the summoning of medical aid. Hence forth Edger, the younger brother sped away and summoned Dr. Langrall who quickly responded and upon arrival found the patient on the border line of Uraemic Toxemia. After a careful resume of the case in hand the proper eliminatives were administered and then restoratives and at this writing Mr. Swanson is able to be about, though feeling the effects in no little degree of the severe tax to which his system had been subjected.

Tuesday afternoon, at about 1:30 the barn belonging to Hugo Wantoch was discovered to be on fire. The alarm was given and the fire boys and citizens turned out in a hurry, but upon reaching the fire it was seen there were no hopes of saving the barn as the entire building was wrapped in flames. Mr. Wantoch's horse which was in the barn was burned with considerable other property and it was a total loss as there was no insurance on the barn or contents. The origin of the fire is unknown.

Notice is given to all parties who are in the habit of throwing slurs at me and my family must desist or they will have a chance to prove the truth of their assertions.
C. W. MANCK.

...Round Trip Ticket Only \$23.95 From Norfolk...

And we will show you the best time of your life in that grand trip through Platte Canon, across South Park and over the Continental Divide, which is unsurpassed for grandeur. Around Frisco, "the beauty spot," the scenery is sublime. It is "a beautiful summer resort in a realm of glad and glen, of canon and craig and cloud piercing, snow-robed summets, bathed in eternal blue. River and Lake, and Cataract, gushing springs, clear as crystal and as cold as ice all the year. Sylvan aisles and Laughing pines and quivering aspen. Flower-bespangled slopes and warbling song birds, and breezes fresh and fragrant and soft as those from fairy land. A region of wealth untold, of picturesque grandeur, of bewildering beauty and undreamed of delights," is the description one man gave. And it is only a few hours ride from Denver.

Remember we start Monday morning from Wayne, at 10 o'clock, by way of Norfolk and Columbus, and we want you to join us.

CHANGeful MUD CAUSES TROUBLE

Missouri Changes Its Course and Nebraska Farmer Loses Land. Lincoln, Neb., May 28.—In whom does the title of the bed of a navigable stream in Nebraska rest? If the title to the bed of a navigable stream in Nebraska is left to the state when the stream abandons its bed and makes for itself another channel and the former bed becomes dry land, the possessor of the adjacent land of water does the state still retain the title or does it belong to the owner of the adjacent land formerly bounded by the river?

These two unusual questions are at issue in the case of William Kinkead v. the State of Nebraska. The case has been appealed to the supreme court from Dakota county and which involves the title to two one-half sections of land in that county. Kinkead was and is still the owner of a large tract of land which was situated in such a way that the Kiowa river flowed nearly around it. A few years ago the river cut across the narrow neck of land and made the new channel. The old river bed of all which adjoined the Kinkead tract, dried up and the defendants in this case settled upon the new channel.

Kinkead instituted ejectment proceedings, claiming ownership under the common law as to riparian rights. The court ruled that the bed of a navigable stream was the property of the state and that the shifting of the bed of a navigable stream by a new channel, the title to the land in controversy, therefore, belongs to the state and this decision was affirmed by the supreme court.

Man Needs Protection.

From the cradle to the grave all men need to be protected. As a civilized being we stand helpless in this world if we are not protected. Take away our protection and in a short time there would only remain a few men on earth and they would all be thieves as long as there remained anything to steal and then become a savage uncivilized tribe. We not only need to have the state and government protection, but need the assistance of our friends to reach a high state of civilization. We need our mother's care when small, our father's advice when a youth and our friends' assistance, together with our government protection to make life safe. We need our minister's advice and the protection of the church to christianize us, and every other protection that we have to help us attain the position that man should occupy. We need protection when we invest our earnings in the necessities of life. Every one is fully protected who does business with The 2 Johns. When you enter this store you can feel that you're all safe, and that every dollar you invest here will be well invested. We offer you protection that can not be given by any other merchant in Wayne County. We employ no cheap help and you are waited on by an experienced clothing man who fully understands the goods he offers you and who is interested in you as a customer. Should we make a mistake you are fully protected, for we will give you another suit for any one that fails to give you satisfaction. You are protected as regard to the price, for our prices are always right and universally lower than other merchants ask. No matter how rich you are or how poor you may feel, you need the protection we offer. Let us make you safe in your purchase for clothing. Give us a trial and you will enjoy the satisfaction of your security and you will always get up to date clothing giving you much pleasure in knowing that your clothing is right. Let us protect you for we will do it for less money and do it better than anyone else. Try us and see.

BY DAD

The Sioux City undertakers are again making an effort to dispense with Sunday funerals. They think of this every year when the base ball season arrives.

A royal bull fight was a feature of King Alfonso's wedding festivities. After that the fights will be just like ordinary folks have.

A certain Wayne man has been thoroughly broken of his love to play pitch. Some time ago his wife had company for an evening, and no kerosene to fill the lamps, so she sent her hubby down town on a rush errand for oil. After waiting a long time the lady got warm enough to light an ice house, and sped down street to gather in her spouse at—Dammeyer's place. What happened afterwards the Democrat is not permitted to state, but he plays all his cards at home nowadays. It was a "set-back" he couldn't stand for.

A new juvenile story going the rounds of the press is that a squad of infants terrible were playing having a family when the mother got one little tot hiding in a dark corner. "Why don't you go and play?" asked the fond mamma. "Tus I see the baby and I see waiting to be burned," answered the little chap.

Fred Hanson, who works for Albert Kruger near LaPorte, was in town Wednesday, doing a little decorating, and incidentally called to have the Democrat sent his employer for a year, so the latter could keep posted on the hog market, and not sell too quickly when the price was off. Fred says it cost Mr. Utchert and Mr. Kruger over \$70 each, to sell that porker the latter hauled to town a few weeks ago, and both gentlemen were glad to let go at that price.

Looks more like Perkins, in Iowa this week. At least the Sioux City Tribune has apparently got tired giving Cummin's figures of nomination.

In a two or three column editorial the Norfolk News of last Saturday describes what Congressman McCarthy has not done, and the gigantic tasks accomplished by the late John S. Robinson and Hon. Wm. V. Allen. Reading the article does a democrat's heart good, especially when we remember what poor governmental timber the late John S. Robinson and Wm. V. Allen were—according to the News—when its cheap politician candidate McCarthy was running for the office he now holds. We hope McCarthy will be renominated and re-elected if for no other purpose than to give the News a good big dose of its own medicine.

If Geo. D. Perkins is nominated for governor of Iowa, he certainly will have paid a fancy price for it—\$50,000 worth of advertising in the Journal.

Roy Caswell in Denison Bulletin; A Washington gentleman writes me to ask my opinion about the government spending \$242,000 every year to buy garden seeds for the voters. Well, sir, I have elucidated of that subject before, but briefly I say it depends on what a man thinks about a common form of graft like that, whether he wants to keep up a growing graft industry, perpetuate a make-believe benefit to the farmers, hornswoggle the newly wed housewife into garden-making or influence a proud daddy to lie to his offspring. A man who owns a boy about six years old and tries to teach that boy the elements of gardening by planting some of those government seeds is also liable to become an habitual suicide some day. Imagine it. Papa takes the bag of government seeds and tells little Willie, "Now these are watermelon seeds, Willie, and we will plant them just so and by and by we will surprise mamma with a big watermelon to eat."

Willie gets into the game and watches the melon grow. The vine looks like poison ivy, scrambles around on the ground weakly and finally runs up to a weed, and in the shade of a July evening papa goes out and pulls up a handful of runty beans that Willie has been watching with a peculiar reasoning as to how they will ever become water-melons. Why, I wouldn't be surprised if our dandelion crops came from the lettuce seeds sent out here, and our cockle burrs from the peas and beans. We got Russian chilies in the northwest once and there is no doubt but what the government furnished the seed. I don't care a rap how much the government gives to the farmer. Fifty million a year bestowed upon him is worth more than ten thousand given away to ship subsidy grabbers. But really, the seed deal is too stale a joke now to keep up. It might better be out down one-half and then the seed sent to those who want to experiment with them regardless of whether the recipient can vote or not.

Mrs. Ona Allbee-Sewell writes the Democrat from Huron, S. D.: "Will you please tack the name Sewell onto my Democrat in the future. Hoping that the ghosts which haunt the old Allbee property (they never haunted anything but chicken yard when we lived there, By Dad) will not prevent my Democrat from coming safely to Dakota, etc." All right, Mrs. Allbee-Sewell; there isn't a ghost of a chance of our missing you, even in Dakota, where it's too dry to raise spooks. Hope it will Allbee well, as well as Sewell, with you, though, since Huron is the arid country. Chauce it anyway.

Walter Weber has been in Florence the past week owing to the dangerous illness of his mother. Owing to her serious illness Mr. and Mrs. Emil Weber gave up their trip to Boston.

Society Items. The Acme club had a delightful time at their annual picnic, held at the home of Mr. and Mrs. H. Wilson Tuesday afternoon. The husbands came in for their share of the frolic and good things to eat.

Something out of the ordinary in the way of an evening's fun was participated in at the home of E. B. Philley on last Monday evening by a party of young folks belonging to a literary club, who met at the above named home at 8 o'clock for a big supper and general all around good time, this being the last meeting of the club till next fall. Strange but true no former meeting brought out such a prompt and full attendance. It being too cool for a lawn party as planned, the event was made as informal as possible and the young folks seated themselves in graceful positions on the dining room floor; in the center the food was placed, and it was reach and help yourself. There were none of the men passing eatables to the ladies first, oh no they were too hungry a lot, the prevailing sentiment was look after number one. Space forbids giving the full menu, but will mention a small portion, nut and ham sandwiches, veal loaf, rolls, fruit salad, potato salad, baked beans, sweet pickles, two kinds of olives, orange marmalade, jelly, devilled eggs, tati fruit, ice cream, two kinds of cake, nabisco wafers festinios and other things too numerous to mention. Oh yes! how about the strawberries? Talk about your large lucious berries, but think of the ladies leaving the stems on, this was a new one for some of the men but they soon located the pulverized sugar and the way they went after them wasn't at all slow. The crowd present was supposed to be a temperance one so it is best not to mention the soft drinks served. After these light refreshments various games were played, some good foot races run by the ladies. But to the surprise of all one of Wayne's most sedate young ladies proposed the game of post office, but for fear of publicity this was voted down. The latter part of the evening was spent in toasting marshmallows. The party departed all voicing the sentiment, it was one of the best times yet.

At the 8th grade examination of pupils held Wednesday by county superintendent Littell, Wm. Carl Kelper won first honors and the diploma. Miss Elsie Dobbin of Hoskins was 2nd and Miss Alice Mitchell of near Wakefield 3rd. Miss Loreto Cullen of Winside passed the best examination of the entire class, but being from a town school was not put in the grade for honors. The graduating exercises of the class will take place next Friday evening, at the court house, Hon. Ernest E. Sias of Lincoln delivering the class lecture.

The officers elected by the Acme club for next year are Mrs. A. M. Jacobs president, Mrs. Mines vice-president, Mrs. J. J. Williams secretary, Mrs. M. S. Davies treasurer.

A Foxy Old Farmer

Is always awake to live opportunities. It is the "farmer of yesterday" who will be found paying "trust" and "combine" prices for machinery in the next twelve month, in Wayne county. Perhaps you don't know that the regular dealer is compelled by the machine combine to sell at a certain price? We are only common traders, and are turning this big stock of Larson's into "quick money." If any of you farmers have not partaken of the grapes, come forward this week. No harm done in your following the crowd and looking over what we still have to sell. The immense sales of the past three weeks is the best evidence that we are giving every man a "square deal" and selling as we advertise, at wholesale prices less the freight. Tell your friends, if you have any who do not borrow the Democrat, about this great and only sacrifice sale of machinery in the state of Nebraska

HENRY LANDMAK.

J. A. Beebe, the cement sidewalk builder, says he has a mean proposition in trying to keep pedestrians off the new walks he is constructing, and that the college students are simply the worst lot, in this particular, he ever saw. It is peculiar that people having any horse sense at all do not appreciate good walks being put in, well enough to allow of their proper construction. The Democrat suggests that these brainless nuisances, whether from the College or elsewhere, be given something to make them good, if their earlier training in this particular was so sadly neglected.

Al Howser returned Tuesday from a trip to Dakota. The county commissioners meet next Monday.

Science has developed something infinitely better than the old-style wrap or clamp.

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint. STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity. If your wagon was made in a large factory, its tires were welded by electricity.

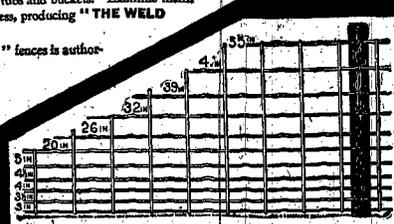

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them. "PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

MR. FARMER: LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

That the wires are not injured at the joints.
That the fence is perfectly adjustable to uneven ground.
That the stays will not separate from the strands.
That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

SUPPLEMENT To the Nebraska Democrat, Wayne, Neb., June 1, 1906.

Wednesday was a busy day for the soldiers. In the morning accompanied by the soldiers marched to the cemetery decorating the graves and in the afternoon attending the services at the opera house. Here they were preceded in the marching line by a dozen beautifully dressed little flower girls and followed by the college cadet corps and the Women's Relief corps. The stage was simply but artistically decorated with a number of exquisite silk flags, cut flowers and pictures of our heroes, a white dove with the olive branch of peace hovering overhead. A very able address which has been highly spoken of, was given by Mr. Lincoln, on "Tenting on the Old Camp Ground" by Mrs. main and chorus brought tears to many eyes as did the recitation by John W. Evans of Omaha, on "The Blue and the Gray" a poem composed by herself as was also the second one she recited. The old "Bugle Calls" by Mr. Evans with his photograph must have brought back the old days to those who have been through the war. The music by the orchestra led by Mr. Voget with Miss Voget at the piano was very much enjoyed as was the solo by Edna Bush.

This week has been a strenuous one for the syncretists who are tried to attend the different gatherings. On Sunday morning at the Methodist church a full congregation was present to pay their respects to the living soldiers of war and in memory of those who have passed away. A fitting sermon was preached by Rev. Duley, and the choir rendered several appropriate anthems. The old soldiers were there in a body. On Sunday evening at the Presbyterian church a large number were unable to gain admittance as the house was crowded early to hear the Baccalaureate sermon by Rev. Osborne for the High School graduates. The latter made a fine appearance as they marched in together. The church was beautifully decorated with carnations and potted plants and the stars and stripes.

The sermon from the text "Is not the Whole Land before you," was listened to with close attention, being a change from the usual flowery, visionary oration usually given on such practical, original, easy to understand talk which will probably be longer remembered. The choir under the direction of Dr. Gamble gave some beautiful selections.

The Aeolian Musical club (Mrs. Brown's piano pupils) assisted by Mr. M. S. Davies, Miss Edna Bush and Miss Laura Lundberg of Wayne and the Misses S. Cramer and Georgia Bowers of Wakefield, gave an entertainment at the St. Paul's Lutheran church, Thursday evening at eight o'clock for the benefit of the Aeolian Musical library. There was no school at the college Wednesday afternoon and most of the students attended the exercises at the opera house.

Rev. Osburne and Mr. Ferguson with the chapel exercises Friday morning. Rev. Osburne gave a splendid short talk on "How to make a Speech".

The play Friday night, the proceeds of which are for defraying expenses of the basket ball teams, was a success in every way.

The affair is being organized and costumed by Mrs. John Evans, and it will be given for the benefit of the public library. Popular prices.

Help a Boy Earn a Watch

Special Offer Until June 15, 1906

To further introduce our Gold Medal Flour, I will give free to any boy between the ages of 10 and 18 years, a watch (a good time keeper) who will sell five sacks of Gold Medal Flour. With a little spare time devoted to this work, any live boy can easily earn a watch of which he may be proud. Boys, who are interested come in, ask to see the watch and receive instructions. Don't delay, but be the first boy in your neighborhood to be out for orders. People to whom you sell Gold Medal Flour will thank you many times as it's a flour they will like and continue to use. To the first ten boys who will sell the required five sacks each will be given a nice watch fob, in addition to the watch. This offer applies to the country as well as town, so boys get busy, you never know how much you can accomplish until you try.

Ralph Rundell.

The Blue and The Gray.

Respectfully dedicated to the Wayne G. A. R. Post and Relief Corps by Mrs. John W. Evans.

You ask me why upon my breast
I wear day after day
Over my heart, the whole year round
A bow of blue and gray
Oh friends, I had two brave sons once,
Now both are laid away.
One wore a suit of Northern blue,
One a suit of Southern gray.
They both were with me at our home
When they heard their country's call,
Each fought for what he thought was right
Both answered—and, both aid fail.
One lies beneath the northern skies,
Where the robin sings all day,
The other lies 'neath southern skies,
Where the mocking birds sing their lay.
And that is why upon my breast
I wear day after day
A bow of blue and gray
And one of the southern gray
That's why each Decoration Day
I place new ribbons o'er my heart.
I can't place flowers on both their graves
For they lie too far apart.

The High school Commencement exercises at the opera house last night were simply grand and the DEMOCRAT is sorry it can't do the occasion properly in this issue. The class play "Antigone" was immensely and concludes especially good. Tonight continues the exercises for the school year.
