Wind-Up of the Races.

Friday, while not quite as hot as Thursday, was a record breaker, the heat keeping lots of people in the shade—instead of at the race track. The attendance was not large, but good considering the drawbacks.

In the 2:27 trot Lady Outline, entered by Hamilton, of Garden Grove, Ia., was 1st, King Roscoe, by M. J. Sullivan, LaCross, was 2nd, Helen, by R. McClasky, West Point, Io., 3rd, Lester Jr., J. L. Coleman, Memphis, 4th.

2:22 pace, Eddie Woods, owned by R. D. Cory of York, 1st, Moutauck, W. J. Conley, Sioux City 2nd, Verne Post, Smith of York, 3rd, Emolander, J. R. Coe, of Osborne, Kans., 4th.

The three-year-old trot gave Miss Hamilton, owned by Hamilton of Garden Grove, Io., first money, King Rec. by W. J. Conley, 2nd, Red Cross, by J. M. Henry of Sheldon, Io., 3rd.

The races for the three days were the best and fastest events ever seen in Northeast Nebraska.

Writing to the DEMOCRAT from Frisco, Col. O. A. King says: The property is certainly making a fine showing. We have had about thirty-five people here since I came this last time and every one of them are very well pleased with the property. We take them to our property and then take them to other properties in this and other mining camps, so that they can get a good idea of mining in general. Experts have tested the property thoroughly and I have talked with them personally and they speak very highly of it. Tons and car loads of ore have been packed from the surface of our veins by jacks and shipped to the smelters and the returns were exceedingly good, but the slow process in getting it to the railroads by jacks and long trails ate up the profits so the reason for driving the tunnel and cross cutting the veins. We let people who visit the property pick up samples of ore any where on the property either on the surface or in the tunnel and send it to any assayer they may wish and find out for themselves what the values of the ore are. About fifteen people leave today and twelve more will be here on the afternoon train to look over the K. S. property.

Judge Graves For Congress.

The big Third democratic congressional convention, held at Norfolk last Monday night was unanimously in favor of Judge Graves as a successor to Congressman McCarthy from this district. Judge Graves is one of the very few politicians in any party who is free from all "railroad taint" and a clean, able man in every sense of the word. If the people of Northeast Nebraska are sincere in their demands that the railroads, corporations and trusts be put out of the dictation of politics in this state no better rebuke can be given than to completely annihilate the republican candidate for congress, who as a district judge has "wallowed in the railroad mire," and as a candidate for congress will be helped by all the influences the railroads can muster in his behalf. No better test of the power of the "railroad machine" will be demonstrated anywhere in the states than in the contest between Judges Graves and Boyd, for the issues are clearly outlined, it being simply a proposition of whether the voters will continue to elect a pass-grabber or a man who has the integrity to spurn the hand of the pass giver.

The DEMOCRAT is told there was tremendous enthusiasm in the congressional convention at Norfolk last Monday. When Guy T. Graves, the nominee, reached that part of his speech of acceptance in which he explained his attitude on the free pass, Judge Graves' record on the pass question has been well known throughout his own Judicial District since he was first elected to the bench in 1899. As soon as the election was determined in his favor, he received annual Passes promptly from the B. & M. the Fremont and the Omaha roads. All of these he returned with the advice that he would continue to pay his fare as he had done while in private life. By return mail the B. & M. again forwarded the little pasteboards, entitling him to free rides, to him with a letter saying that it was merely meant as a "courtesy," that it was a custom of the road and had been for twenty five years, etc., etc., so that his audience knowing these things, were in a mood to hear the Judge when he spoke substantially as follows: "If the railroad companies really wanted to extend a Judge a courtesy, why is not the pass delivered to him by the local station agent? But no, that wouldn't accomplish the purpose. The Pass is delivered to him personally by the Railroad Attorney or mailed to him over the Attorney's signature. Then in a short time a case against the Company comes up before that Judge, and that

same Attorney is there to try the case. The Judge rests comfortably in his big chair, and reposing safely in his breast pocket is that little Pass which is worth to him probably \$300 in the year's time. The plaintiff's attorney argues this case—upon its merits. And then the Railroad Attorney, knowing his position, pompous, secure, rises in his place and looks into that Judge's eyes with a look too significant to mean other than "You hold my Pass?" "Gentlemen, no Judge is strong enough to resist such subtle influence. He may not realize it, but he has been bribed!"

It Was "23" For Him.

There was a quite sensational episode last week, the result being that our city is shy the presence of one professional man, and probably for keeps. The party in question was coming up from the fair grounds with a certain stock dealer, when they were stopped by a Wayne merchant, whose appearance alarmed the stockman, and scared the p. m. out of his boots. "What would you do to a ———— who would chase around after your wife?" shouted the pale-faced merchant, to the stockman. The latter, not feeling any too safe himself if the bullets got to whistling about, tried to pacify the enraged party; told him he had never been in that predicament, etc., but if he was there was no use of doing anything rash about it, or anything he would be sorry for afterwards. Turning to the p. m. the outraged husband said, "You ———— I'll give you till two o'clock to get out of town," and a lot more of the same kind of warning. The stockman tells the DEMOCRAT that his companion wanted a stay of execution till the next morning, but the grocerman was inexorable. That after getting away from what looked like a bad mess the professional man claimed he was being black-mailed, and asked the stockman for advice, the latter telling him that if he was innocent he'd fight to the last ditch, if guilty he'd better hike, as there was no telling what the other party might do. Twenty minutes later or thereabouts, the p. m. was being driven out of town, moving to quieter pastures and perhaps better paths of life. The DEMOCRAT leaves out the names of the principals in the little affair out of respect for the good people who suffer from the disgrace, although we have not been asked to do even this much. It is a very fortunate ending of an affair that usually ends in a killing or the divorce courts at least. Let's hope the incident is closed and we have seen the last act.

The Democrat for Job Printing

Pronounced by Men of Authority

AS ONE OF THE

Largest Propositions in the State

When I say that it is one of the largest in the state, I am simply giving you the words of the United States Mineral Surveyor, who has been over the property thoroughly within the past two weeks.

He said he had made a study of every mining camp in the state, and no where did he find a better mineralized showing than on the King Solomon, and this is the verdict of several experts who have examined the property.

The veins on this mountain have been thoroughly prospected to the very heart of the veins by diamond drills, so there is no guess work about it.

We Know what We Have and are driving to the big ore bodies as fast as steel drills and steam can take us. Four good veins of ore have already been opened in the tunnel and we are not far from another one.

Nearly thirty-five people have visited the property the past two weeks and more are coming each week. They all leave enthused and well pleased with the property.

A great many Wayne people have visited the property this summer, and if you would like to learn more about the proposition we would be pleased to have you see them.

A large number are going to join the next excursion on

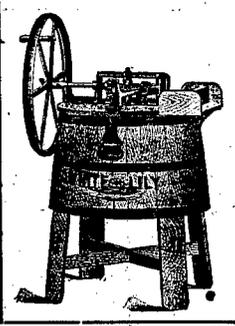

Saturday, September the 1st; remember the date; we want you to join with us in the grandest of trips through the Rockies. A trip that is worth many times the price in natural scenery and healthful recreation.

Very Truly yours,

O. A. KING.

Speaking of his son-in-law a gentleman once said, "John is certainly a well-meaning boy, but he has no sense." In a way this applies to the leaders of the democratic party. Some of them are honest and feel as keen an interest in securing good government as anybody does, but they are inefficient. It will not do to trust them.—Bixby.

Right, you are Bixby. If the leaders of the democratic party, in this state ever get hold of the records a horde of your republican railroad schemers will have to take to the tall weeds or the penitentiary.

Won't we be glad when they cut out editorial mileage and make the railroads pay cash for their advertising. It will tickle us so much we will want to walk.

If there are any cases of typhoid or malaria fever break out in the city the next week or two it can no doubt be traced to a big oil tank full of villainous, decayed matter, that has been left at the rear of the Lewis building, north of the Democrat office, for weeks past. The first part of last week the writer called the attention of Mayor Piepenstock and Street Commissioner Harmer to the epidemic breeding stench, but the tank of filthy devilment remained undisturbed until Wednesday night of this week, John Lewis, instead of hiring a scavenger wagon to remove it, dumped it over on the ground, creating the "biggest stink" Wayne ever experienced. Two blocks away it smelled like a fire fit a lumber factory, while in the Democrat office it was necessary to sprinkle the floor with chlorin of lime. So stifling was the odor that it hurried Lewis into buying some lime to put on the mess. If, as stated in the beginning, there are any deaths—and it made the Democrat man feel like

puking up his back-bone—the city ought to be liable for five or twenty thousand dollars, for it was nothing short of criminal negligence to allow such a dangerous microbe-breeding pot of defilement to remain one hour after the city officials were notified of its presence.

N. B.—Mr. Lewis cleaned up the "remains" yesterday. There may be others.

Here's a good cod on dad, by dad! Three little girls were boasting of the various abbreviations which were attached to their father's names.

"Well," said one of them, "my papa's things come marked 'Mr. Smith, M. D.'"

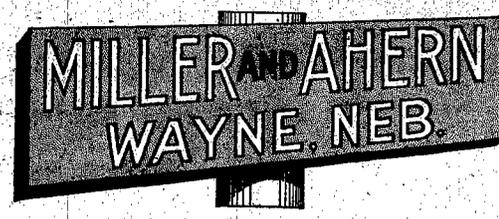

"That's nothing," said another, "my papa's things say 'Rev. Jones, D. D.'"

"Huh!" said the third girl, "All papa's goods come with the mark 'Mr. Grant, C. O. D.'"

"Nebraska republicans lining up to make trouble for the railroads," was the "red" line in the Sioux City Tribune last Tuesday night. By dad, I wonder how much the "independent" old Trib gets for printing these "specials" from the republican railroad quarters in Lincoln? One of the best posted politicians in this part of the state gives it as his opinion that all the stuff the Tribune is printing from this state is "paid matter" and emanates from the railroad machine. The absurd and ridiculous statements in regard to Norris Brown, being a "reformer" and anti-railroad candidate, when he is the right-hand brother of "Rube" Schneider, and Ross Hammond, is certainly a "killing position," to Nebraskans. If the campaign made by the Tribune in

We will accept all kinds of poultry in exchange for merchandise; glad to get it. Will pay a top price for your poultry.

The Crop Prospects for this Fall are Splendid

Harvest figures show a bumper yield in small grains. The outlook for corn was never better. Farm products have grown and thrived as never before. There is a feeling of prosperity and general satisfaction in our community that has stimulated us

To Make Great Preparations for a Big Fall Trade.

Our enlarged store building—one of the largest in the county—will be filled with the most complete and reliable lines of Merchandise that Careful buying and Cash can command. We feel that Wayne deserves a bigger and better store than she has had. We are confident that in addition to a top market for their produce, our farmers want stocks of goods to make their selections from, that are as complete, up-to-date, and low-priced, as are shown anywhere.

We are meeting this demand. The size of our fall stocks will surprise you

We will show twice the number of Ladies' and Children's Coats, Suits and Skirts that you have usually seen. Our Millinery stock will be large and complete in every detail. The Dry Goods department will show the most extensive lines of Dress Goods, Winter Flannels, Blankets, Hosiery and Underwear.

The Grocery stock will be kept complete and fresh.

A fine assortment of Carpets, large Rugs and House Furnishings will enable you to beautify the home.

There is a two-fold purpose in making this a big store. Besides being able to show better assortments of goods we are able to sell at smaller profit and thereby defeat competition. The smaller store must show a larger profit to achieve the same results that the big store does.

We prefer to be the large store, sell the goods at a smaller profit, and be safely above competition and the danger of losing a customer.

We have added several new lines for fall. A complete stock of Shoes, for Men, Women and Children. A full line of Men's Furnishings—including Hats, Caps, Gloves, Mittens.

We now sell everything to wear excepting men's fine suits.

Our aim is to make this store a shopping place and a home for all the people. You are welcome at all times. Our rest room is open to the ladies and children. Make our store your home when in Wayne.

Ladies Tailored Suits for Fall

This is the same line of Ladies' Suits which have been sold in Wayne for the past twelve years. They have given universal satisfaction in fit, style and wearing qualities. It is not possible to buy better garments at any price. If you have ever had one of these suits we KNOW you will attend this opening. If you have not bought one in seasons past, you OUGHT to come in; let us show you what stylish, excellent garments they are, and refer you to many of our best dressed ladies.

The styles this fall are very becoming to any figure. The coats are semi-fitted, satin lined, very dressy looking and comfortable. Grey is the favorite color. They come also in browns, blue and black. Price **\$12.50 to \$25**

The New Street Hats for Fall

Just the Hat to fill a Want for something to wear between the Summer and Winter Seasons. Your summer hat is probably the worse for wear; it is too early for your winter trimmed hat. In addition to this, there are many times in the fall and winter when you do not care to wear your best trimmed hat.

These becoming, inexpensive hats of felt or velvet just meet your wants. They are gotten up in neat, stylish shapes, trimmed with a quill, rosette or band of ribbon, and cost but little.

We are now showing a large assortment - **at 75c to \$3.00.**

Dress Goods, Silks and Trimmings for Fall and Winter Wear:

Our Dress Goods stock reflects all the new and popular ideas for fall and winter. We have canvassed the dress goods situation very carefully. When on our buying trip we met several buyers from other stores with whom we are associated in buying. Ideas and views on fall styles were exchanged. The large retail stores in the cities were visited. Especial note was taken of the materials which the suit manufacturers were making up into tailored suits and coats, as their judgment is usually correct. As a result of these observations we pinned our faith to certain cloths and colors which we think will predominate this fall. We are now showing these goods and earnestly request you to visit our store and inspect them. Materials for suits, dresses, coats; a line of beautiful waistings in wool, silk and cotton; cloths that are particularly adapted for school dresses.

Pay this Department an Early Visit.

Iowa was fought out on the same plan of campaign, the republican party of that state is certainly entitled to the sympathy of honest folks: We always knew that John C. Kelly was "out for the coin," but his information bureau in this state is certainly the limit, and entitles him to a crown of thorns and the warmest place in all Hades. As my old friend J. W. Toombs, puts it, "when the devil gets religion, Norris Brown will be a genuine reformer," and when the Sioux City Tribune is honestly "independent," the devil will lose his job and be tagged "23."

"One thing about your darned paper," says a reader, "if you look over all the country weeklies without feeling the least perturbed, but when I read the DEMOCRAT it either makes me glad or mad!" Here's "opinion" this issue makes you all glad, especially the politicians.

The weather now grows cooler, the flies they seem oppressed to get their small loaves into a white man's breast. "The photograph grows fiercer, knowing its race has run; the leeman's face grows longer for business is on the bum." The leaves begin to darken, the daylight shorter grows; the only thing left growing is the blossom on your nose. The raincoats are ended, the horsemen hied away, the only thing unsettled is—how much did it not pay? So wheel your vision forward, the next will be '07, if you have not done your duty, you'll never see '11. Rate!

By dad, the Sioux City Tribune's "reform" ticket won out at Lincoln. Are you an "anti-pass," "anti-railroad" voter on the plan of "pass-grabber" delegates?

So Lulu and Leander got married at last, although they had to elope to do it. One of our young hopefuls was greatly delighted over Leander's victory after such a strenuous courtship, and looking his mother full in the face, his eyes dancing with joy, or devilment, shouted: "Say, mamma, why don't you and papa get married?"

Will Lose Your Vote.
Clerk of the District Court, B. F. Feather, hands the DEMOCRAT a copy of a new law in regard to the naturalization of aliens that goes into effect Sept. 28, 1906. The principal feature is that all aliens taking out naturalization papers must take out their second papers within seven years after the first are provided, or said party loses his citizenship. As there are hundreds of voters in Wayne county who have not taken out their second papers, and have been "voting her straight" for years, it will be necessary for them to complete their naturalization before the new law goes into effect or they will lose their right to vote at this fall's election. For further particulars see the clerk of courts. The DEMOCRAT can't afford to print all of Uncle Sam's fool laws for fun.

The Most Economical Way to Secure Good Flour

It will not pay you to sell your wheat and buy your flour

FLOUR!

Everybody is interested in getting good flour as cheaply as possible. There are several ways of procuring flour. You may send your money to some other town or city and have the flour shipped to you. You may buy outside flour at home if you wish. You can buy flour which is manufactured at home, or you can bring your wheat to the Wayne Roller Mills and get in exchange flour and feed. If you have not raised any wheat this year, buy some and store it with us while it is cheap. If that is too much trouble, you can leave the cash with us and we will buy it for you, which will save you \$\$. New wheat will be cheap, and it will pay you to come and see us in regard to laying in your yearly stock of flour. You can get your flour at any time—one sack, ten sacks or fifty sacks if you wish. We warrant every sack of flour to be A-1, or money refunded. It will be money in your pocket to do so. We are giving 27 pounds of Superlative Patent and 10 pounds of Bran to the bushel, or 32 pounds of Snow Flake and 10 pounds of Bran to the bushel. So do a little figuring for yourselves

Weber Bros

The Republican Ticket.

At the state convention it was an easy victory for Norman Brown, the railroad candidate for United States senator. G. L. Sheldon was nominated for governor on the second ballot, M. B. Hopewell for lieutenant governor. For railroad commissioners, H. J. Wannett of Lancaster county, Robt. Cowell, Douglas, J. A. Williams, Pierce. The only anti-railroad symptoms displayed was the side-tracking of Galusha for secretary of state, Geo. Junkin of Jasper county being nominated. Then the railroad magnates got in their work and renominated E. M. Searle for state auditor, H. M. Eaton, land commissioner, J. L. McBrien, superintendent public instruction, W. T. Thompson, attorney general.

This makes three notorious friends of the railroads on the ticket, which no doubt makes the g. o. p. master of the situation—with the help of the railroads.

Opera House at Auction.

President Pile says it looks like a "full house" at the College this fall term. The attendance will probably be just as much bigger as the facilities for taking care of the pupils. The accommodations, however, will be far superior to what they have been, and it will be a mighty fine place for the young people to spend the winter.

The BROWN SHOE CO. ST. LOUIS

HAVE placed on sale in Wayne their celebrated White House Shoes for Men and Women, and Buster Brown Shoes for Boys and Girls.

THIS is the only line of Shoes awarded a Double Grand Prize at the World's Fair in 1904.

THEY Stand at the top of the shoe world for genuine reliability, every pair is guaranteed perfect.

THESE Shoes are made under the most favorable and commendable condition.

THE BROWN SHOE CO. have several immense factories; one of these factories make Men's Shoes only, the workmen, machinery and leathers are all particularly adapted to the making of Men's Shoes, by concentrating the time, attention and materials to one particular class of Shoes they are enabled to turn out a Man's Shoe that is perfection.

ANOTHER factory makes only Women's Shoes; while a third factory turns out Buster Brown Shoes for the Boys and Girls.

THIS great combination of factories enable them to produce Shoes cheaper than a smaller concern. \$1.50 buys a very fair shoe for a Lady, and \$3.50 will buy a Shoe that combines wearing qualities and style in the highest degree. The Men's Shoes range in price from \$1.25 to \$3.50. A leader in the line is the \$3.50 Box Calf Welt Shoe with solid oak soles, fine Box Calf uppers. This Shoe is on a par with the usual \$4.00 Shoe.

BUSTER BROWN Shoes for the Children are a specialty with the Brown Shoe Co.

THEY have expended a great deal of time, thought and money on the production of a Shoe for the Children that would look well, wear well and sell at a fair price. Buster Brown Shoes represent the result of years of study and improvement. Give them a trial. Your Boy or Girl will be better shod.

WE consider ourselves fortunate in securing this celebrated line of Shoes. We will carry a complete up-to-date stock of styles and sizes, and sell them at prices that will save you from 50c to \$1.00 per pair on your Shoes.

Irrigated Government Lands in Idaho.

D. M. Laughlin has returned from a visit to the irrigated lands near Mountain Home, Idaho, that are being sold by G. E. Townsend and E. D. Pratt of this place, and he pronounces the land to be the finest irrigated land he has ever seen. He says for \$100 per acre, that is irrigated land growing two feet high right next to sage brush on non-irrigated land, that affords out of 10 to 10 tons to the acre and is selling at \$15 per ton. All kinds of fruit is growing there, one man having on his place 25 varieties of apples and all doing fine. He says that he saw a lawn covered with as fine a sod, grown in two months, as it would take two years to grow in this country. In some of the older irrigated districts in Idaho land is selling for \$100 per acre. Best, Mr. Laughlin says is not so good as that at Mountain Home, which a few years ago was selling at the same price that the Mountain Home land is selling for. He says that he saw the best of the best from the Butte County Herald, Tekamah, Neb., July 20, 1906.

DESTROYED BY CITY SEEMS SURE

But Meager Reports from Valparaiso Received Concerning Earthquake.

SHAKES LAST TWO DAYS

Reports Received Place the Death List at 2,000 and the Property Loss at \$250,000,000—Fire is Under Control.

San Francisco, Aug. 18.—(Special Telegram.)—A fearful earthquake visited this city and adjacent territory on August 16 and 17, and continued at irregular intervals throughout that and today.

Reports from Valparaiso to the Associated Press received last evening indicated a moderate estimate of the losses is 2,000 and that the property loss may be as high as \$250,000,000. The latter is as great as the loss sustained by San Francisco in consequence of the earthquake and fire which devastated that city last April. A few who have arrived at San Francisco place the known dead at 100 and the number of injured and casualties at 2,000. The number of fatalities is about 200. The conflicting statements cannot be adjusted. It is evident that the reports from Valparaiso, and until order is restored it will be impossible to ascertain the accuracy of the loss of life and property.

The dwellings in the city have been practically abandoned by the inhabitants who are existing in the plazas and streets of the city and the hills adjacent to it, without shelter from heat and sun and with famine confronting them.

Food is already scarce and high, and for drinking purposes, water is scarce and disease is feared. The government is doing all it can to bring in relief.

The crippling of the railroads leading into Valparaiso constitutes a serious factor in the situation, as a few of the principal ports and roads can only be obtained through other means of transportation, the seaboard almost west of the capital.

At Santiago many of the best public and private buildings were wrecked. The loss of life is estimated by the Associated Press to be about 2,000. The earthquake was experienced over a large extent of the country, many towns sustaining serious damage.

2,000 DEAD IN VALPARAISO. Property Loss in Chief City Roughly Estimated at \$250,000,000.

San Francisco, Aug. 18.—A shock last Thursday evening Valparaiso experienced an earthquake of great severity, and during that night eighty buildings were destroyed or damaged.

The loss was enormous, probably reaching \$250,000,000. Two thousand persons killed is considered to be a conservative estimate.

At San Francisco, three miles from Valparaiso and having a population of 10,000, Quintrun, with a population of 2,500, and Limache, fifteen miles to the southwest, with a population of 6,500, and other towns were destroyed.

The whole population is sleeping in the open air. The streets are empty. Food is very scarce. Milk costs \$2 a gallon and it is almost impossible to obtain meat even at high prices.

Paraiso, with a population of 4,000 are reported to be in ruins.

London, Aug. 18.—A private cablegram this afternoon from Valparaiso states that the business and that business is being resumed.

One On Brown.

Russell Sage was not alone in the belief that a vacation is unnecessary. Wm. P. Brown, a banker of Watertown Wis., held to the same belief as far as himself was concerned. Since beginning as bookkeeper in the bank five years ago he has never missed a day at his desk, except Sunday until last week when he entered into his usual rest, and that in a very unostentatious manner. While quietly engaged in his customary routine work at the desk, his head suddenly dropped forward and the clock stopped. The doctors called it apoplexy. At all events it was as easy and beautiful a taking off as the most fastidious could desire. No dreary days and nights of pain with a trained nurse and four doctors to contend with besides the disease; no dalling in of relatives and long, painful watching for the unsteady light to flicker out. This morning Mr. Brown up and feeling at his best; this afternoon kind friends are preparing for his funeral. Mr. Brown may have missed something by not taking vacation like other people, but he claimed he could find more enjoyment in the pleasant office where he transacted his business than sitting on a rock in the hot sun waiting for the fish to bite.

And worked while he was able; He scorned to rest like other men, But died right at the table. Toil was a friend he loved to strike, His rest, his recreation; Oh where he's gone I would not like, To stake my reputation. —Bixby.

Given Up To Die

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was completely cured." Wayne Pharmacy.

Boyd and the Railroads.

Pender Republic: There are several things that contribute to his (McCarthy's) defeat. The railroads didn't like him because he had voted for the railroad rate bill passed by the last congress. Then there were politicians who wanted their jobs and still other politicians who were out with their knives.

Galveston's Sea wall

make life now as safe in that city as on the higher uplands. E. W. Goodloe who resides on Dutton St., in Waco, Texas, needs no sea wall for safety. He writes: "I have used Dr. King's New Discovery for Consumption the past five years and it keeps me well and safe. Before that time I had a cough which for years had been getting worse. Now it's gone." Cures chronic coughs, la grippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at Raymond's Drug Store. Price 50c and \$1.00. Trial bottle free.

The farmers can hardly approve the republican standpat program, when they find the price of wheat, oats, corn and cotton declining, and the price of all they buy rapidly advancing. Where does the boasted protection of agriculture come in under the present protective tariff and how are the farmers protected, although the tariff law was enacted in August, 1897. Those farmers who are republicans should demand of their "standpat" leaders a fair deal, and if the agricultural machinery trust, the barbed wire combine, the lumber association and the clothing trust are to still be protected by the tariff in charging exorbitant prices for their products, that some method of raising the price of cereals and keeping them stable should offset trust high prices. The fact is, however, that no tariff can protect the farmer on his products, of which the surplus must be sold abroad, as the price paid by the foreigners for that surplus fixes the price here. The only relief the farmer can get is to be able to buy in the cheapest market and this he can never do as long as the trusts, that control all the buyers, are protected by the tariff from competition. It is plain therefore that the farmer who votes for a republican congressman and for republican candidates for the legislature, who in turn will elect republican senators in voting to continue the protection to the trusts and for high prices, with no protection to help the price of his own products.

Cured Hay fever and summer Cold. A. J. Nusbaum, Batesville, Ind., writes: "Last year I suffered for 3 months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Wayne Pharmacy.

Another Good Man gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you soon are sound and well. A. R. Bais of Morgantown, Ind., had to get up ten or twelve times a night, and had a severe back ache and pains in the kidneys and was cured by Foley's Kidney Cure. Wayne Pharmacy.

The other day the DEMOCRAT received a neatly bound book, "The Pickers, the Private Car Lines and the People," by T. Ogden Armour. In the "Foreword" dear old pork-packing and people pushing Armour states that the work was undertaken with great reluctance. That he lacked the position to thrust his views upon the public, etc. But because he found himself at the head of a business founded by a father who had put into it the best energies of a long, active life and "a very considerable genius for affairs," T. Ogden found it difficult to keep silent. All this isn't so bad nor so much like a smooth scheme to throw dust in the eyes of a cheap country publisher, but a day or two later came a letter from the publishing house stating the book is sent "with the compliments of the Henry Altman Company," and that they would appreciate an extensive review of the volume in your editorial columns—not this kind of a review. That "certainly your readers wish to know what Mr. Armour has to say in defense of the most assailed private car lines and the packing industry. That isn't so worse, either, is it? But then the Altman publishers add "for your convenience the enclosed extracts have been prepared, and it is requested that you make a liberal use of them." There are three or four columns of these "prepared extracts" about as nutritious as embalmed beef, and as safe for people to take—without an antidote. Each article so prepared by J. Cyden and his associates is gotten up to represent the "views of the editor," and the editor who puts them in his columns is not only fit for the insane asylum but as dangerous a commodity in a community as the "packers' combination" to poison the public mind in regard to their methods and machinations, and then stuff us full of "preservatives," embalming fluids and the like. If you see any of these made-to-order comments on Armour's book, have the publisher sent to the penitentiary at once.

The following from the Cherokee Democrat will be interesting to those who have followed the fight between the Sioux City Journal and Tribune: The Democrat rather likes John C. Kelly, the new political boss of eleventh district republicanism. The writer has known him a great many years and has always been pleased when he has prospered. Kelly is like the writer in some ways. He has to get behind a telephone wire to make a shadow, and when he is sick he can never tell whether it is backache or bellyache. When he uses a mustard plaster it doesn't make any difference which side he puts it on—it works either way. It is the same with Mr. Kelly's politics—you can't tell much about it. But the Democrat dislikes to see Mr. Kelly posing in the light of a reformer. He, or the concern he is at the head of, is a part and parcel of the most damnable, unrelenting, exacting combination that has ever existed a common people—the ready print trust. Many of the Democrat's readers do not know what the ready print trust is. It is a combination of printing establishments that furnish "patent insides" or "patent outsides" for country publishers. As a rule they furnish the outside first and after a while they get the "guts." This newspaper is not unmindful of some favors extended by the trust. Most every country publisher has to accept these accommodations until he gets on his feet. And remember that this newspaper is not making any kick what I wanted to call your attention to was the spectacle of John C. Kelly, at the head, or nearly at the head, of this oratory trust, posing as a reformer and coming out as the manager of Prince Albert, one of the most stupendous demagogues that ever bloomed on Iowa's fertile prairies. H—e—l—l

The State Journal is the champion fake sheet of the state, full of deceit, conceals and hypocritical pretensions of honesty and reform. Those of you who will remember the campaign of 1896 will recollect what enormous steals the Journal made in printing stationery for the corrupt rascals who were then in state offices. Last Sunday's Journal had a long, lying scrawl about the defeat of Berge for nomination for governor because the railroads opposed him, and that the railroads also opposed Norris Brown, republican, for the same reason and that Brown—the biggest black sheep in the political gamut of the state—could not be chosen senator. That Sheldon, republican candidate for governor, was in the same boat with Berge and Brown, but that Shallenger, the democratic nominee was the tool of the railroads. The pity of it is the State Journal can go on putting up such lying yarns just for political effect, and there are scads of republicans who will always take the whole dirty dose as gospel truths.

A Mystery Solved

"How to keep off periodic attacks of biliousness and habitual constipation was a mystery that Dr. King's New Life Pills solved for me," writes J. J. Pleasant, of Magnolia, Ind. The only pills that are guaranteed to give perfect satisfaction to everybody or money refunded. Only 25c at Raymond's drug store.

It has always been claimed that "honest men get their dues when thieves fall out," but judging from the way the republican editors are now "lining up to the band wagon" in defense of Searles, Galusha and others, the people are not going to get any dues this fall if the r. o. p. machine can help it. One would think that after all Mickey and Mortensen have said about the rest of the gang in the state house, that one bunch, or both bunches were a pack of thieves and plunderers.

In the District Court of Wayne County, Nebraska.

In the matter of the application of Mary Kean, Guardian of Thomas Richard Kean, George Kenting Katie Louise Kean, minors, for license to sell real estate of said wards.

Now on this 7th day of August, 1906, this matter came on for hearing upon application of Mary Kean, Guardian of Thomas Richard Kean, George Kenting Katie Louise Kean, minors, for license to sell real estate of said wards, situated in Wayne County, Nebraska, to-wit:—

An undivided one-sixth interest of each of said wards in and to the S.W. 1/4 of Section Twenty-two (22), Township Twenty-five (25), North, Range Three (3), East of the 6th P. M., in Wayne County, Nebraska, said land being encumbered by mortgages of record amounting to \$4150.00, and the life estate of Mary Kean.

The proceeds of said sale to be used for the support, maintenance and education of said wards and that it would be for the benefit of her said wards that said real estate be sold, and was submitted to me. And it appearing to me from said petition, that it would be beneficial to the said wards that their said real estate be sold.

It is therefore ordered that the next of kin of said minors and all persons interested in their estate and in said real estate appear before me the Judge of said Court at Chambers, at the Court House, in the City of Neligh, County of Antelope, State of Nebraska, on the 10th day of September, 1906, at 3 o'clock P. M., to show cause if any there be, why license should not be granted to the said Mary Kean, to sell the said wards' interest in the real estate above described for the purposes above set forth.

And it is further ordered that a copy of this order be served on the next of kin of said minors and all persons interested in their estate and in said real estate, by publication of a copy of this order each week for three successive weeks prior to the time of said hearing, in the Nebraska Democrat, a weekly newspaper published and circulated in said County of Wayne, and that it shall not be necessary to personally serve a copy of this on the next of kin of said wards and all persons interested in said estate.

J. F. BOYD, Judge of District Court of Wayne County, Nebraska.
