Jones' Book Store

"Our Pride," the HARDMAN Piano, and the Three Other Kinds Now in Stock

If the most important requisite of any piano were ascertained it would be DURABILITY. The durability of the Hardman is greater than any other make as proven by an experience of over sixty years. The Hardman represents the perfection of artistic achievement, beautiful case work, rich and perfect tone. Highest awards have been given to it wherever exhibited. The Hardman piano is sold at a moderate price.

We carry the EDISON PHONOGRAHPS, records and everything in music.

Jones' Book Store

WALL PAPERS

Now is the time to paper and this is the place to buy your wall paper. We can save you money. Paper from 5 cents a roll up. A large line to select from. The best beef cattle on earth. They have taken five championships out of seven for carload lots at the fat stock show.

Fifteen young bulls for sale at Brenna stock farms.

F. E. MOSES...

...H. S. MOSES

WAYNE, NEBRASKA

Soaps You Can Trust

Many faces that would otherwise be fair are disfigured by pimples, red and roughened skin caused by using injurious toilet soaps. Our soaps never give you this trouble.

Every soap in our stock is SELECTED for its PURITY. You cannot tell by looking at a soap whether it is good or bad—you have to know the reliability of the makers. We buy our soaps from houses who have built up reputations for producing the finest soaps, and you can trust them.

LOCAL NEWS.

Dr. E. C. Horn was in Carroll Tuesday.

Call up 289 for your Sunday meat order.

Fred Fisher returned to Wayne Saturday.

D. S. McKittrick, of Carroll, was in the city Saturday.

Miss Opal Olmsted, of Norfolk spent Saturday in the city.

Walt Gaehler was a business visitor from Winside Tuesday.

The L. F. Rayburn family visited in Wakefield over Sunday.

Ed. Ellis and Joe Baker were in Wakefield on Tuesday.

Judge Welch went to Hartington on Monday to hold court.

Geo. Thies of Altona made a business trip to Sioux City Tuesday.

Mesdames Neely and Strahan were visitors to Sioux City Saturday.

E. B. Cook and family left Saturday for their new home at Hastings.

Editor Lessom and John Shannon were Monday visitors from Carroll.

Nicest, neatest, cleanest, best in town—call up 289 to get the rest of it.

Some fine Plymouth Rock cockrels for sale. Enquire at Incubator factory.

Good milk cow for sale. Fresh soon. Also Majestic range stove. Call at this office.

Always remember to call up 289 if you want to make a date—meat her, of course.

J. A. Williams of Randolph took a large delegation of landseekers to Kansas Tuesday.

Dick Karo can serve you the nicest fat chicken, roast veal, pork or whatever. Call up 289.

Miss Helen Pile left Tuesday on a visit to Jacksonville, Ill., and to her grandfather's home in Ohio.

Geo. Bohrer brought a delegation down from Carroll Tuesday to make legitimate Jap fighters of them.

Mrs S. R. Theobald left Tuesday morning on a visit of a few weeks in the sunny south.

Jas Miller has received letters from his parents at Hot Springs, Ark., saying it is hot down there and they are having a grand time.

Clyde Ecke of Winside was a passenger to Mississippi Tuesday where he may take the position of baseball editor on a southern paper.

S. W. Elder moved down from Carroll last Friday, taking possession of the Sneath residence on College street which he purchased last fall.

Carl Furchner of Plankinton, S. D., was an arrival Monday evening on his way home from a trip through Texas and other southern states.

J. W. Welker, ex-farmer and stock-food man of Wayne county, now living at Omaha, was in Wayne the past week. Mr. Welker does not look a day older.

A handsome young daughter arrived at the home of Mr. and Mrs. Albert Berry last Friday morning. May she "take after her mother" and be a joy forever.

Chas Madden and John Williams left Tuesday morning for South Dakota, the former to Herald and the latter to Pierre. They will probably invest in land.

Sunday morning subject at the M.E. church "the True Light." Evening at 7:30. "The Fortunate Young Man." Epworth league at 6:30, subject, "The Life that is Life Indeed."

Elmer Noakes of Sholes, who was badly hurt last week by hitting his knee with a hammer instead of a hog.

he was building, is getting better and will suffer no permanent injury from the mishap—or mishit.

The anti saloon league held a big, enthusiastic meeting at the W. H. church Monday night. State's Attorney Parnell, of the league, will be here from Lincoln next week to start the campaign against the saloons and a vigorous bombardment for a dry town will be inaugurated.

M. S. Moats returned last Friday from a foggy sale east of Bancroft. Tyrone's herd—Forty-two hogs sold at an average of \$116 each, the top price being \$185, another at \$500 and third at \$325. Mr. Moats bought one of the prize brood sows, and says it was the best Durac Jersey boar he ever attended.

Thus Darnall, the noted lawyer and lecturer of Lincoln will give a series of addresses on Temperance in Wayne. Mr. Parnell is attorney for the State Anti-saloon League and has had years of experience in the work of temperance reform. The dates for his addresses are March 12 to 17. The place will be announced later.

In presenting "A Royal Slave" the reputation of Gordon and Bennett as producers of high class attractions was firmly established, and all succeeding announcements of this firm have been accepted without question. Their production of "The Holy City," surpasses all previous efforts and is universally conceded to be the most sumptuous theatrical spectacle on the stage. "The Holy City" provides entertainment on the highest dramatic form and the announcement of the coming of this play excites interest worthy of its cause. Wayne opera house March 19.

Pay to Advertise

That "change" in the management of the city's power plant came awfully quick last week, after the DEMOCRAT was out, perhaps before the ink on the sheet was dry. The new electrician is a Mr. Mohler, formerly in charge of the electric plant at Norfolk, and more recent years owner of an electric light plant at Texarkana, Texas which he recently sold. Mr. Mohler took charge of the local institution last Thursday night, and as John Hamer is said to have put it: "Started the whole plant to going without asking me a question about how to do it." I. B. Morgan has moved back to Omaha. Mr. Mohler's father moved to Wayne last fall, and being here on a visit is how Mayor Piepenstock happened to pick the new man up. The DEMOCRAT predicts there will be now little annoyance from "the lights going out."

Farmers.

Bring us your lard. We will pay the highest cash price for good country lard.

ROB & FORESTER

Won't Do It Again.

Cashmere, Wash., Feb. 19, 1907.
Nebraska Democrat.

Enclosed find \$1.00 for one year's subscription to your "By Dads." I have done without it for nearly a year by not sending paper, but suppose my time was run out. Are having fine weather, and like the country as well as ever. Will try and let subscription run out again.

Yours truly,

W. T. AVERILL.

Notice!

I will be prepared to do plumbing or all kinds and general repair work about March 5. All work guaranteed. Located in Mabbot & Root's building, Phone 187, two rings.

A. G. GRUNEMEYER.

Wayne, Nebraska

CALL AND SEE US

Against Public Drinking Cups.
Dr. Samuel G. Dixen, Pennsylvania's noted health commissioner, is waging a fight against public drinking cups. He has issued an order in Harrisburg: "I have seen people clean their teeth with toothpowder and dental floss, rinse their mouths with 'listerine' and other antiseptic waters, but I have never seen anyone open the public cup in a railway station or a theater."

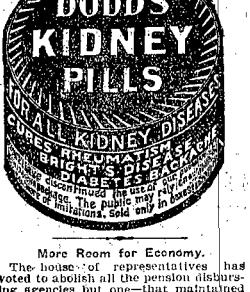

"Such people remind me of a schoolboy of Ardmore," he said. "A boy, walking alone in a park, would open a cup in January, and sternly say, 'Tommy, why are you not at school?'"

"Tommy, why are you not at school?"

"I've got the whooping cough," he answered, adding vigorously,

A Printer's Funny Error.
William F. Waller, of 407 Harrison street, now a real estate man, but formerly a printer, newspaperman and publisher, was reading recently of amusing typographical errors.

"From 1818 to 1884, when Ross Field was managing editor of the old Kansas City Times, I was foreman of the composing room," he said. "One day I saw an additional paragraph poking fun at the Latin's morning contemporary had printed. Field wound up his effort with a quotation from one of Cicero's orations. The words were: 'O intertemperantia! intertemperantia! O the manners!' The paragraph went up late and the proof reader didn't even get a long distance look at it. The paragraph was in the paper the next morning, but the quotation read, 'O tempest! O Mates!'

More Room for Economy.
The house of representatives has passed a bill to abolish all the pension allowances to members of Congress, maintained by Washington. It was a sensible move. Why not go ahead now and abolish useless custom houses, at which the cost of collecting a dollar ranges from \$1 to \$1,000?

State of Ohio, City of Toledo, Lucas County, ss:
Frank J. Cheney makes his appearance before the court of Al. D. 1890. A. W. Deppenheuer,
(Seal).
Hall's Calcaria Cure is taken internally, acts directly on the blood and mucous surfaces of the system, used for rheumatism, free. F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists. The Hall's Family Pills for constipation.

The Man for the Place.
From the New York Weekly.
Mr. Oldchops—"You I have conducted to represent my son to a barber."

"Well, no bar, I think he'll be popular. He doesn't like onions."

PILES CURED IN 5 TO 14 DAYS.
PAZO QINTINUM is guaranteed to cure any piles, being applied alone. Bleeding and/or rupturing Piles in 5 to 14 days or money refunded.

The year of Russia has a strong distinction being photographed alone. He is however quite at ease when posing as one of a group.

Great Crops: Fine Climate.
The Texas Gulf Coast Country is now offering the greatest inducement to farmers and other settlers who are pouring into that section from all parts of the north and west. A general estimate, two crops a year on land costing only \$25 an acre. The Rock Island Frisco lines are sending an 8-page book descriptive of this great country and making very low round trip excursion rates to all who write to John Sebastian, Passenger Traffic Manager, Room 50, La Salle station, Chicago.

While the family of Henry Martin, was absent at a theater, burglars broke into the house and stole a heating stove weighing 600 pounds.

Garfield Tea, the herb laxative, is mild and potent; take it to regulate a sluggish liver and to overcome constipation.

THE NEW TRUNK.

There is a splendid new trunk which has lately been placed on the market that will exactly suit the fastidious woman who wants her trunks correctly packed when she journeys on a visit. There is one which is a combination shirt waist, shoe and hat trunk with sufficient room for the other accessories, but this one is constructed of leather and is made extremely nicely. Any woman could make specimens like this for her trunk, by selecting certain boxes which will fit perfectly into the trunk. The boxes could be made of leather and edges bound with passe-partout, and all of them labeled so that it would be possible to find a veil, gloves, waist or other articles, without a general upheaval in the trunk every time an article was

CHILDREN TORTURED.

Girl Has Burning Sores from Ecze-
ma—Boy Tortured by Poison Oak.
—Both Cured by Cuticura.

"Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with burning sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble."

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointing them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up. So we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are valuable household standby, living as we do twelve miles from a doctor. Mrs. Lizzie Vincent Thomas, Fairmont, W. Va., Ridge, Tenn., Oct. 13, 1905."

The Holladay Case

BY BURTON E. STEVENSON.

Copyright, 1906, by Henry Holt & Co.

"That will do," said our junior and hand back in his usual white shirt. "I don't know what this afternoon has been under your hands in the morning, and we had missed it! Well, we had found it now, I guess, and faced the jury. "I'm ready for your verdict," I said, only to point out that with this one point, the whole case against my client falls to the ground. It was preposterous from the first."

He sat down again, and glanced at the coroner.

"Gentlemen of the jury," began Goldberg, "you have merely to reflect that my client has done nothing but what he did for you this afternoon. I am ready for your verdict."

"I found a cab at the curb, and in a moment were rolling back over the route we had traversed that morning—enough, however, to show me that our driver may not escape. I conceive that he must have been driving under the influence of alcohol."

I reflected that I should yet have time to complete the papers in the Hurd case before leaving for the night.

"We found a cab at the curb, and in a moment were rolling back over the route we had traversed that morning—enough, however, to show me that our driver may not escape. I conceive that he must have been driving under the influence of alcohol."

"I am ready for your verdict," I said, only to point out that with this one point, the whole case against my client falls to the ground. It was preposterous from the first."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

A man who had apparently been loitering in the hall followed me into the elevator.

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

"This is Mr. Lester, isn't it?" he asked, and I nodded to him.

"Yes," I said, looking at him in surprise. "He was well dressed, with alert eyes and strong, peaceful face. I had never seen him before."

TIRED AND SICK YET MUST WORK

"Man may work from sun to sun but woman's work is never done." In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the constant aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless treated, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound keeps the feminine organism in strong and healthy condition. It cures Inflammation, Ulceration, discharges, and organic troubles. It prepares for child-birth and to carry women safely through the Change in a more efficient manner.

Mrs. August Lyon, of East Earl, Pa., writes—Dear Mrs. Pinkham—"For a long time I suffered from various troubles, had all kinds of aches and pains in the lower part of back and sides; I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

Address Dr. Earl S. Sloan, Boston, Mass.

Your shoe money will go twice as far if you buy the strong, well-made and hard-to-wear-out **Mayer's School Shoes** for boys and girls. They are made of the best seasoned upper leather and tough solid soles and have fewer seams than other shoes. Mayer School shoes are shaped to prevent injury to growing children's feet. They WEAR LIKE IRON

Your dealer has them or will get them for you—take no other. The Mayer trade-mark is stamped on every sole.

We also make the "Honorable" shoes for men and "Western Lady" shoes for women.

F. Mayer Boot & Shoe Co.
Milwaukee, Wis.

Two Crops per Year Corn Eight Feet Tall Coast Country

Two corn crops are raised each year in this wonderful land, and the richest, biggest, finest ears of corn you ever saw. The farmers of that section market from 40 to 70 bushels per acre with very little irrigation.

Why not take a trip down there and see this land which you can buy now for \$25 an acre?

Talk to owners who clear from \$300 to \$500 per acre per year in vegetables—who net \$90 per acre in alfalfa—who raise 24,000 pounds of onions from one acre and sell at 2½ cents per pound.

That is what is actually being done to-day, now, in this "Winter Vegetable Garden of America." Doubtless, because the soil is rich and new and the climate right every month in the year.

Perpetual Summer

The Winter Vegetable Garden of America

From healthiest ideal place to live—you can be out of doors the whole year around. Right now you can buy an acre here, drop me a line and I'll send you a sample book on the Texas Gulf Coast Country. Read up on it. Write to the people who have done it, and see if for yourself on a winter round-trip excursion ticket.

I've written one to-day and I will give full particulars.

JOHN SEBASTIAN, Pass's Traffic Mgr.

Rooms 50, La Salle St., or Room 55, Frisco Bldg.

CHICAGO 1 ST. LOUIS

ROCK ISLAND-FRISCO LINES

About the first thing the doctor says—How are your bowels?"

Then, "Let's see your tongue." Because bad tongue and bad bowels go together. Regulate the bowels, clean up the tongue. We all know that this is the way to keep well.

You can't keep the bowels healthy and regular with purges or bird-shot pills. They move you with awful gripes, then you're worse than ever.

Now what you want is Cascarets.

Go and get them today—Cascarets—in metal box—cost rock. Eat

them like candy, and they will work gently—while you sleep. They cure, that means they strengthen the muscular walls of the bowels, give them new life. Then they act regularly and naturally. That's what you want. Cure guaranteed. Be sure you get Cascarets. Sample and booklet free. Address

Sterling Remedy Company, Chicago or New York.

VINAIGRETTES BACK

The old fashioned vinaigrette has come into favor again. Society women have discovered that its effects are more potent than Turkish cigarette or a glass of liqueur.

The vinaigrette is made in a variety of designs, fitted with a tiny square sponge, soaked in some aromatic perfume.

There has been an enormous demand for vinaigrettes," a jeweler in Baltimore said. "Some women carry half a dozen of them, but it is not only for their appearance. Each box contains a tiny perfume bottle.

The vinaigrette is an antidote to a variety of ills.

A silver box studded with turquoise will contain aromatic ammonia, which is certain cure for rheumatism.

In the shape of an elephant, in ivory, with jeweled eyes, is filled with an eastern styled perfume and is guaranteed to bring color into the pale cheeks of a lassie.

A rose vinaigrette is composed of a single rose leaf in pink enamel, bearing a drop of perfume which opens the box.

The vinaigrette is pressed, releases a spring which opens the box, and at the same time spray a mass of perfume.

Prepare This Yourself!

For those who have any form of blood disorders; who want new, rich blood and plenty of it, try this:

Fluid Extract Dandelion, one-half ounce; Compound Karrow, one ounce;

Compound Syrup Saraparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime. Any good pharmacy can supply the ingredients at small cost.

This is the prescription which, when made up, is called "The Vegetable Treatment;" by others, the "Cyclone Blood Purifier." It acts gently and certainly does wonders for some people who are sickly, weak and out of sorts, and is known to relieve serious, long-standing cases of rheumatism and other bodily ills quickly.

Make some quickly and try it.

TO SCENT THE HAIR.

A splendid way to perfume the hair is to rub oil of roses or any preferred odors on the hair brush and rub this through the hair. It is a simple and effective way if the cold and not the alcohol perfumes are used. Remember the oil is very strong and it takes a very little to scent the hair.

FITS St. Vital house and all Persons present
Presented by Dr. King's
Dr. H. H. KLINE, Ltd., 31st Street, Philadelphia, Pa.

Francis Emory Warren, who is to represent Wyoming for the fourth time in the senate, is a native of New England. He was a private at 17 years of age in the Forty-ninth Massachusetts Volunteers. He is one of the most extensive stock raisers in his adopted state.

PROOF OF MERIT.

The proof of the merit of a plaster is the curve it affords, and the voluntary testimonial of those who have used Allcock's Plasters during the past thirty years is unimpeachable evidence of their superiority and should convince the most skeptical. Self-praise is no recommendation, but certificates from those who have used them are.

Allcock's are the original and genuine porous plaster and have never been equaled by those who have sought to trade upon their reputation by making plasters with holes in them. Avoid substitutes as you would counterfeit money.

UNDERSTAND BABY'S CRIES.

The wise mother will know in very short time that there is a language in the cry of a baby that becomes as familiar with a mother as study as the English language itself.

There is the sleepy cry, when baby is cross and tired, when he rubs his eyes and yawns, and alarm clocks have ceased to amuse him. This cry is only a fretful sort of wail which ends by a little real yelling that stops suddenly and goes off again. The mother can train to the faintest intonation of sounds that it is high time baby was tucked up in his little bed.

Then there is the hungry cry that announces that baby is ready for his next meal. This is a steady, fretful cry that keeps up indefinitely and the cry that comes after, the colic cry, which is sharp, short, and full of pain. The cry that tells more emphatically than words that pins are sticking him or that bands are cramping tight is a series of sharp screams, while the one that follows is the feverish cry. "I beg pardon, but the child has got a cold," he gasped. "Why are you interrupting the girl, companion?"

"Please I am. They have been having the diphtheria where I live and I must be getting it," he said, adding that the disease had taken hold of him. "We are going to see you come in here. Here take your dirty money." "All right, man," said the tramp submissively, shrugging on with a hand clutching his throat. At the nearest hotel he found a room and went to bed.

"I am a kind provision of nature that finds a means for even the tiniest baby to tell just what is wrong though nature can't do much for him in teaching mothers how to learn it, or to realize the something their cries tell.

It is the sleepy cry, when baby is cross and tired, when he rubs his eyes and yawns, and alarm clocks have ceased to amuse him. MILLER AND JONES WAYNE, NEB.

Spring Millinery

We invite the ladies of Wayne and vicinity to visit our millinery department. Miss Mary Young, of Chicago, has charge of this department and will be pleased to show our spring street hats, for both young and old.

Those Yale and Harvard college hats are just the thing for Misses' wear. Sailors, turbans and lampshade hats in Copenhagen blue, copper and all the staple shades are shown in this department.

Shirt Waists and Shirt Waist Suits

We have received our first shipment of LAUREL BRAND Shirt Waists and Shirt Waist Suits. These come direct from New York and are most stylish and up-to-date ever shown in Wayne.

Shirt Waist Suits.....	3.50 up
Chambray Waists in blue and gray.....	1.25
Law Waists, trimmed.....	1.25
White lace-trimmed waist.....	1.50
Persian Lawn and India Linen Waist.....	1.75 up to 12.00

Spring Coats

We will carry this spring the most complete line of spring coats ever shown in Wayne. We will have our first shipment in this week. Come look them over. Prices from \$4.00 up. Our \$4.00 coat has trimmed collar and is equal to other \$5.00 coats.

Mystic and Puritan Flour

Spic and Span 1907

NEW FURNITURE

If you are going to furnish a house this spring or even wish to add a few pieces to your present assortment, call and see our complete line. Everything to please you, even to the low prices. See our carpet samples.

Leave Your Order Now

and have the goods delivered when you "clean house."

FLEETWOOD & JOHNSON

County School Notes. (By County Sup't Littell.)

Parents who have children finishing eighth grade work should urge them to take the eighth grade examination. In case they meet the requirements will be given a diploma which will be a valuable aid in gaining admittance into the high schools under the proposed free high school law. Aside from this reason very few realize the full significance of an eighth grade diploma.

Loren Hunter who graduated from the eighth grade last year has been doing some excellent ninth grade work in district No. 2. Loren will surprise some of his class mates when he takes up work in the high school.

Miss Northrop reports a \$14 library fund resulting from a box-social given in her district Feb. 15.

Thirty six perfect attendance certificates were issued in district No. 9 for the month ending March 1. This is a splendid showing for a school with an enrollment of 78.

Those desiring library lists and prices may secure same by writing to this office.

Teachers should remember that parents have a legitimate right to complain if time is taken during school hours for rehearsals.

Frequently teachers meet with this difficulty; they undertake to require each pupil to participate in a program, the pupil object, and often parents send word to the teacher that John or Mary need not "speak." Our advice to teachers has been to require them to take part in this as they would in any other work. Parents, this is and should be a part of school work, and it is wrong for several reasons to uphold a child in such open rebellion to school management.

Miss Celia Williams of district No. 80 writes: "The box social given Feb. 22nd was very well attended. Proceeds, \$35.35, to be used for pictures and library books."

Miss Birdie Cross who teaches in district No. 46 sends us the following items: "A large crowd attended the box social. \$8.16 were realized." Willie Dorman, who has been ill for some time died last Thursday night. He will be missed by all his schoolmates, friends and teacher.

The bill introduced into the state legislature to levy a tax of ten cents per pupil of the rural districts for the support of school libraries has become a law.

With 4,800 miles of railroad and sixteen sections of land the proposed consolidation of school districts number 30, 67 and 76, if carried, ought to guarantee one of the best village schools in Nebraska with a very small levy. The plan is to annex districts 30 and 67 to 76 and locate the new school building at Sholes.

Adolph Matzner, Gust Hand and W. F. Schreiber failed to get through because of some technical disorder.

Mr. Dunkle will soon begin the erection of a large addition to his house.

Lucy Smith is reported as being very ill with appendicitis.

Gus Hanson sold a carload of fine hogs last week that averaged something over 300 pounds.

Word from the Hanson boys, now located in Alberta, Canada, states that they are well and have had a finer winter than they ever experienced in Nebraska.

School has opened again in Dist 61 after a vacation of about two weeks.

Tom Brockman was a visitor at the Hans Hanson home last Thursday what's the attraction Tom.

School has opened again in Dist 61 after a vacation of about two weeks.

Tom Brockman was a visitor at the Hans Hanson home last Thursday what's the attraction Tom.

Mr. Dunkle will soon begin the erection of a large addition to his house.

Lucy Smith is reported as being very ill with appendicitis.

Gus Hanson sold a carload of fine hogs last week that averaged something over 300 pounds.

Word from the Hanson boys, now located in Alberta, Canada, states that they are well and have had a finer winter than they ever experienced in Nebraska.

Report of the Condition OF THE CITIZENS' BANK

of Wayne, Nebraska, Charter No. 447, the state of Nebraska, at the close of February 23, 1907:

RESOURCES

Loans and Discounts	\$340,475.81
Overdrafts, Secured and Unsecured	5,565.54
Banking House Furniture and Fixtures	8,000.00
Other Real Estate	1,632.34
Current Expenses and Taxes Paid	3,127.78
Due from Nat'l. State and Private Banks and Bankers	66,908.18
Checks and Items of Exchange	1,593.37
Cash (Currency Specie)	12,271.00
Total Cash on Hand	6,435.50
TOTAL	\$446,012.52

LIABILITIES

Capital Stock Paid In	\$ 75,000.00
Surplus Fund	15,000.00
Undivided Profits	23,596.03
Individual Dep's Subject to Check	155,694.72
Time Certificates of Deposit	174,200.35
Due to National Banks	3,304.71
Due to State and Private Banks and Bankers	2,216.71
TOTAL	\$446,012.52

STATE OF NEBRASKA
County of Wayne ss

I, D. C. Main, Cashier of the above named bank, do hereby swear that the above statement is a correct and true copy of the report made to the State Banking board.

Attest,

A. L. TUCKER, Director.
G. E. FRENCH, Director.

Subscribed and sworn to before me, this 6th day of March, 1907. H. S. RINGLAND, Notary Public.

LOCAL NEWS.

The County commissioners meet on March 12th.

Jack Lewis departed Tuesday for Pierre, S. D.

Herb Taylor of Chapin precinct was in Wayne Monday.

"Bill" Jastram has returned from West Point to Wayne.

A. B Clark and L. M. Owen went to Sioux City this morning.

P. R. Pryor of Winside spent Sunday with his parents in Wayne.

Gus Kirwan had a car of cattle on the Sioux City market Monday.

J. M. Cherry went to Omaha this morning to attend a Masonic banquet.

Father Reiner of Randolph was in Wayne Tuesday, being enroute to West Point.

Elmer Noakes and wife drove down from Sholes yesterday but owing to the bad roads and 2-cent fare went home on the train this morning.

Major Plepenstock has been after the petty gamblers this week, and says he will make a horrible example of some of the parties if they don't cut out playing for money.

The DEMOCRAT was mistaken last week in stating that Supt. Littell had moved into the Davies house. Mr. Littell stored his furniture, expecting to occupy the brick when Jas. Ahern is the best place on the map.

Mrs. Fox, wife of a farmer living three miles southeast of Wayne, was taken to Sioux City on a cot Tuesday to be operated on for appendicitis. The family moved here last spring from Kansas. Dr. Roush of Sioux City took the patient to Sioux City, she having been under the care of Dr. Naffziger here, who recommended her removal to the hospital. J. W. Fox, husband of the poor woman, is a tenant farmer who has had much misfortune and is not able to bear the added load of expense, and here is an opportunity to help a worthy man along by those charitably inclined.

Mr. and Mrs. John Bonar, hotel people of West Point, came to Wayne yesterday to try and make a deal to take the boy. They could lease it from Ellis Girtton but there was a difference of several hundred dollars on the furniture with Landlord Sherwood. The latter's lease expires April 1st and the DEMOCRAT understands that Girtton will have no little amusement making Shrewsbys呆 at that time.

Charley Nies was in Randolph Tuesday on business and pleasure, but he says he didn't have much of the latter. He expected to see a lot of friends whom he used to know in Shelby county, Iowa, but states he didn't see a single farmer in the town. All the business men were very "sober," however, which will bring joy to the glad hearts of our Wayne prohibition friends and patriots.

Mrs. J. L. Simonton died at her home in Winside Monday morning, at the age of 67 years. Deceased was a sister of E. B. Chesher and formerly lived in Wayne. The funeral was held here yesterday from the M. E. church, Rev. Lawson officiating. The pall-bearers were Harry Prescott, Herb Moss, I. O. Brown, Sam Rew, Swebart and funeral director Gaehler. Many Wayne friends will deeply sympathize with Mr. Simonton in the loss of his life-partner.

If a change makes it sly, Mr. Rickabaugh should be well seasoned. After selling the barber shop last fall "Doc" wrote insurance a few months, then spent the rest of the winter making harness for John Lewis. Tuesday he bought back and took possession of the barber shop, pay Mr. Thomas about \$100 less than he sold it for.

A Letter From Bonham.

Janesburg, N. D. Feb. 22, 1907
well, "By Dad."

As you saw fit to print news of a card perhaps a few items of interest from the blizzard belt of North Dakota would not be refused. We got our "N. D. brick house" done in December, built it of sod, of course. Moved in December 16th. I got after coal as soon as I could and hauled up 3 loads of wood from the river, which is only one and one fourth miles from us. Expected to see snow from 2 inches to 4 feet deep from what the settlers told us. We have only had 4 good storms this winter, and none lasted over one day and night. North and northeast of us they have had severe cold and blizzards. It has been 30 to 40 below zero here several times, but we have not felt the cold like we did in Nebraska when it was 2 to 10 below with the moist cold. The only trouble has been to get enough to eat, as it gives a fellow a horrible appetite. We laid in a supply for the winter and have enough left to keep body and soul together for some time yet. All the old settlers from five to fifteen years standing seem to take delight in laying up the new comers, and are very friendly and if they happen to have a dog or beef you're sure to get a piece. (Good place for some Wayneites, eh?) Work has been good and anybody that can drive a nail is in demand, some times. Have helped build two good frame houses, and two "N. D. brick." Have a very nice rolling claim of 180 acres, and not an acre but what can be plowed. Dug down 2 feet and put a 5 foot wall of sod 12 x 18 feet, 2 feet thick, 2 double windows 2x4 feet, one on north and one on south, door to east, built in northeast corner of claim. Expect to put out quite number of trees this spring. We get coal on sec 36, two miles from here, can get it only one mile away, and it is better coal to hold heat than some I've bought in Wayne for \$8 per ton, from "your friend" —. We get the mail on Tuesdays and Saturdays. Post office only one and one half miles from here. As I worked in Mandan until October and then worked on the houses before mentioned I have not been able to get over much of the country to see it, can see enough from the top of the hill just south of us to know we wouldn't take a section as a gift, but in between the hills you will find as nice level and rolling tracts as any man would want. Soil is from 18 inches to 3 feet in depth and good black soil, too, some sandy some not with a "linker" —. It's underlaid with yellow subsoil and most of it through here, gravelly. You'll find along the rivers, high cliffs with stone gravel and slate cropping out. Just below the slate you will find coal from two to three or more feet deep. Have had a settler's sheep rancher — for two months coming to school about four and a half hours each day, and that has helped break the lonesome monotony of what would have been to us, a long winter. Our claim was burned over by a big prairie fire on Friday before we got out here. It snowed again today and has turned a little colder. We have had lovely weather for the last two weeks. Chopped wood in my shirt tail — I was going to say — sleeves, and have been wearing out some of my old clothes, (could afford some new ones if I had the money for a lien I had recorded in Wayne once.) But that's getting down to facts, so will cut it out. Land is coming up in value, as some that changed hands two years ago for \$1.25 to \$5.00 an acre can not be bought for less than \$8 to \$12.50 now. Some come here and file, build a house, live fourteen months, prove up and sell, or for so much go and relinquish. The N. Pac. R. R. has a gang of surveyors out on the Cannon Ball river, coming our way. It is the second time for the same route and to head off the Milwaukee that goes some fifteen miles south of us. If it goes through, here's for \$1000 more on my claim. Hoping this don't find itself in the waste basket will close. Will answer any letter in regard to this neck-o'-the-woods. Be glad to hear from any Wayneites. (Postage stamps free up here.)

W. C. BONHAM.

BY DAD

By dad, the 2-cent fare law went into effect this morning. Won't that make you go some?

Wonder, by dad, how funny it would feel to be as big around the outside as Carl Furchner? It ought to make a fellow think he's about all there is outdoors.

It's easy to conjecture what sort of a looking man a very homely baby will grow into — if it's a boy baby. To figure out how in the nature of nature a big-nosed, red-faced, vicious looking brute of a man ever was a baby is what puts your thinklets to thinking.

"Wonder what the judge will ask a fellow up there when we get our parents?" asked Otto Kruger Tuesday morning, spokesman for a bunch of anxious looking candidates. I didn't know but told him the examination was dead easy. "One is how many states are there in the Union," Otto continued, "how many is there, Walt?" Just to see how many people there are "who have no right to vote" I have been asking most every intelligent appearing person met the past week — even the princess who knows how many stars there are in a coronet — but I haven't been able to find out as yet.

When a preacher or high-salaried attorney tells you the saloon is a creation of the devil, just remember the speaker has had intercourse with the wrong authority. The laws — tax, revenue and license — make the grog shop. The DEMOCRAT does not stand sponsor for the saloon — but we, know they are

Orr & Morris Co

Wayne, Nebraska

Sheer goods in plains and figures are beginning to sell lively. The stock is complete, making shopping a pleasure.

Special Cloak and Suit Sale!

We have arranged for a two days special spring suit and coat sale for FRIDAY AND SATURDAY, MARCH 15 AND 16 and on these dates we will have, ready for delivery to you, a large line of sample coats and suits. This will afford you an opportunity to get an exclusive wrap or suit at a price which will please you.

GERTON ORGANIE

Is a sheer summer dress material, printed and fast color, will wear well and makes up nicely with no need for trimming. This is a rare bargain at 10c.

FANCHON DIMITY

Dimities, as you well know, are the most serviceable of wash fabrics, having more heft than the organies or batistes. Are much used in gowns that must tub frequently and are particularly suitable for children's dresses. They come in the very neat printed effects, 12c.

VASSAR BATISTE

Is a fabric known to be one of the most satisfactory of all fabrics. The very beautiful designs to be seen in Vassar Batiste this season make it at once the most desirable and sensible of fabrics for summer use. The ruffled effects that fashion approves are very suitable to batistes, 10c.

KELPIE ZEPHYRS

This is a fine material resembling the zephyr ginghams, but is much better, having mercerized stripes which give it a silvery appearance. For shirt waist suits this material is unexcelled, owing to its durability and the fact that it is decidedly washable. 17c.

Egyptian Tissues

We have a very complete stock of this well known fabric. A tough, thin fabric of absolutely fast color insures the durability of this tissue beyond question. Comes in the dainty checks and plaids, very suitable for the children's nice dresses, 25c.

PICARDIE

This is a mercerized summer wash suiting in cream and light tan, one of the most fashionable fabrics of this spring's output. The lustre of picardie will not wash away and this with the strength of the material makes this one of the most desirable fabrics to be had. 25c.

PARIS TISSUE

For a fetching, showy, costume nothing is more satisfactory than Paris batiste. It comes in large but subdued plaids and when made up in the prevailing fluffy, ruffled effects, using more or less lace, a dress results that is particularly satisfactory. 25c.

IMPORTED MERCERIZED PLAIDS

This is an exceptionally fine mercerized tissue in a cream background with tan to cream mercerized plaids. One of the season's latest products, this material is sure to please the most discriminating buyers. 40c.

Call for the Free Fashion Sheets of the Butterick Patterns. This is the most practical pattern to be had — 10c and 15c, none higher.

We have an entirely new line of spring carpet samples. If you are going to buy a carpet this spring we are quite sure we can save you money.

Bring in your KORN KINKS package. A SNAP IN "CORN" — With each bill of groceries bought of us next SATURDAY you may include SIX cans of Standard Corn for 25c.

Oranges, fancy California, per dozen..... 30c

California Prunes, per pound..... 10c

Currants, fancy recleaned, 2 packages..... 25c

Raisins, fancy seeded, 2 packages..... 25c

Wiggle Stick Blueing, 3 sticks..... 25c

Table Pears, large cans, 2 for..... 25c

Coffees and Teas

You cannot buy better coffees than our lines at 15c, 20c, 25c, 30c, 35c.

3 Star package Coffee, 6 pounds..... \$1.00

Our Japan Tea at, per pound..... 50c

If you have not been using them give them a trial.

Your PRODUCE will buy as much at this store as it will any place in Northeast Nebraska.

AUCTION

SALE OF

Shorthorn Bulls

Saturday, March 9th

At 3 o'clock

At the Carroll Stock Yards

7 BULLS 7

Included in this sale is my herd bull Captain Oxford 4th 237163, (calved April 20, 1903, bred by George K. Werrig, Cedar Rapids, Iowa,) and six of his get, 4 reds and 2 roans, 11 months old. This is an extra good lot of calves.

Remember the date as there will be no bills. There will also be sold some good seed potatoes.

TERMS — 10 months' time on bankable paper.

E. CUNNINGHAM, Auctioneer.

ALEX LAURIE

2-CENT FARE BILL IS TO GO UNSIGNED

Governor Sheldon Will Let It Become a Law Next Tuesday.

HE IS BUT CONSISTENT

Did Not Favor Flat 2-Cent Rate, but Would Have Left to Railway Commission — No Protest Yet.

Lincoln, Neb., March 5.—The 2-cent passenger law will not be signed, by Governor Sheldon. This will not be because the governor would not like to see the flat fare in vogue in Nebraska, but because the governor intends to be consistent.

When he was a candidate last year he said that he did not favor the flat fare, but that it was his wish to be appointed driver of one of the trains running from Madrid to Iran he naturally much astonished the members of the committee of the North Spanish railroad, who were personally acquainted with him. The application was at first thought to be a hoax, but on the duke of Zaragoza insisting he was put through an examination he was found to be a very skillful driver. He dresses as a common driver and lives the same kind of life as his working comrades, with no regard to his title, or his wealth.

When natural gas was first brought into use in America there seemed to be a general idea that the supply was inexhaustible, says the *Standard*. And it was, and is, and used to be without reservation. This method encouraged waste in the consumption of gas, and was shortly abandoned by the larger companies. Today nearly all consumers do not mind waste, but it is felt that the time has now come when it is possible to procure statistics of the quantity of gas consumed, and next year it will be undertaken. The results will give some direct knowledge which will be obtained of the capacity of gas areas to maintain commercial supply of gas for a certain number of years.

A spinster with money to burn reportedly paid \$5,000 for a building, says the *New York Press*. A man in Massachusetts has just bought a cow for \$10,000. A boy in New Haven, Conn., for whom he refused to offer such a sum, James Keene refused \$200,000 for Symsony, a race horse. There are several roosters of fashionable blood priced as high as \$10,000 each, and a fine lion, a tiger, a bear, and a fine salmon, by which we shall have a craze for breeding fishes, and a fine male salmon educated to pond life, might be worth \$10,000. The \$5,000 cow has an extra pair of horns, and a fine salmon may become the mother of 300,000 little fellows in the same womb in the aggregate, possibly, as much as the calf.

Skeptics still study the cause and meaning of earthquakes, but, according to an exchange, uncivilized people long ago settled the questions involved to their own complete satisfaction. In Mongolia it is the breathings and stampings of a huge frog that causes the quakes; in India, the breathing of elephants; in Celebes, a hog, and in other countries the idea is varied by the introduction of a bull, a dog, a toad, etc. Earthquakes of Siberia are believed to derive from the frolics of mammoths which live in the center of the earth. While in Vancouver Island it is the spirit of evil, with its marshalled hosts of all the wicked, possible, as much as the calf.

When a submarine boat becomes disabled beneath the surface of the water and cannot rise, its crew is in a difficult predicament. To remedy the difficulty, the men have been ordered in auxiliary boat to be carried in the submarine and to be a part of it, practically, until freed. In time of accident the crew of the incapacitated submarine would enter the auxiliary boat, the containing chamber had been flooded the bolts would be withdrawn and the vessel with its human freight would clear itself and rise to the surface.

German observers recorded as long ago as 1747 that a luminous emanation of variable shape will appear in the dark air points on the surface of the earth, and these are the explosive ore deposits. Immediately, before during a thunderstorm these phenomena are said to be especially striking. Similar observations have more recently been made in North America, in the neighborhood of the ore deposits. The electric emanation given off from the surface of the earth has been repeatedly been ascertained photographically.

Dives are, happily, rare in society circles. Separation by mutual consent, however, grows more frequent every year. Every one has upon his her list husbands and wives who have left him but between those who have never been married open divorce. Incompatibility of temper is the usual cause, and the reason for that is one imagines the still common practice of the younger generation to marry before they have begun to approach years of discretion.

George Julian II., who died in 1513, was the first pope to allow his people to grow in order. It was said to receive greater respect among the faithful. He was called the military pope. When Martin V. Angelo was making his statue he said to him, "If you like, shall I place a horn in your head?" He answered his holiness, "a sword rather than a twist," and David Copperfield."

BASSETT LIKELY TO GET THE CHILDREN

Omaha, Neb., March 5.—Charles C. Bassett, the Washington man who is defendant in a divorce suit recently brought against him, has been unable to get and whereof E. Lawrence Hunt, Presbyter minister figura as respondent, today met Judge Redick and Bassett's attorney in an interview arranged for passage of a companion bill, senate file No. 212, providing that such accounting and apportionment to the children.

The session was an interesting one, in which Bassett declared his willingness and ability to care for the children, and after several hours Hunt, Judge Redick, and Bassett got "the low-down" when it was expected Bassett would be charged with the care of the children. As the girls' bent above Miss Newton, the wounded girl gasped:

"I'm afraid I can't do it myself." The girl then closed her lips firmly. One of the girls happened to look across the street in time to see a man walking out the back yard of the Newton home. She brought from the clothing that she had seen the girl to the assistance of Miss Newton, who was assisted by the girls' mother.

"Frank! Come here!"

The man did not turn nor pay any attention to the call but walked down the alley. Later when Brink was picked up in the street, his blood-soaked clothing was found to be stained with the girl's description of the clothes of the girl who was to be the mother of the girl.

Among the new house bills is one by Hamer, to repeat a law adopted at this session and not at the time entirely understood by those interested in having bonds issued. The bill was introduced as originally intended to amend the present law relating to voting bonds, so as to allow cities and villages to vote bonds for the construction or purchase of telephone plants. It was introduced to cut out the provision allowing bonds to be voted as a bonus for railroad construction.

The railroad contingent did not find out what had been done until the bill had been signed by the governor, so that it once again had to have the new law repealed. The house judiciary committee, which has the bill in charge, will oppose its passage.

For Investigation.

A joint resolution was introduced in the house to investigate the way carmen to Nebraska and the Pacific northwest on commodities shipped both ways. If the commission finds anything upon which to base a case the matter will be referred to the interstate commission.

Quakenbush of Nemaha, introduced a bill appropriating \$200,000 for the establishment of a binding twine factory at the site of the former plant. Mr. Brown introduced a bill appropriating \$10,000 for experiments in tobacco culture in Nebraska soil. Harvey of Douglas, offered a bill providing for the appointment of the Omaha fire and police commissioners by the mayor of that city instead of by the governor as at present.

In the senate Ashton presented a bill providing that a defendant in a trial of a criminal case should not be liable for damages if he recovers, as now seems unlikely, his attorney apparently have an excellent opportunity to clear the client of the charge of murder. The killing may possibly remain always a mystery.

ANNA GOULD WOULD LOSE CITIZENSHIP

DIVORCED SIX TIMES, LAST DECREE HALTED

St. Louis, Mo., March 5.—On the statement of Edward Wright that his wife Matilda, 102, his ex-wife, had been divorced six times, Judge Shields set aside the decree of divorce granted the woman and took the case to the appellate division.

Wright appealed to the court on the day the case was tried and asked to be permitted to make a statement, but this was denied him as he had not been granted a hearing.

Judge Shields then reconsidered his action and sent for the man. Mrs. Wright claimed the defendant drank and abused her, although she sent him on two pleasure trips to Europe.

Should a bill now before the California legislature pass, it will be unlawful for any California hunter to kill more than thirty-five wild ducks in any one day.

About \$60,000,000 is at present invested in English motor cars, mostly of motor wagons. About \$30,000,000 are employed in them, or as chauffeurs etc., and their wages aggregate \$75,000,000 a year.

Should a bill now before the California legislature pass, it will be unlawful for any California hunter to kill more than thirty-five wild ducks in any one day.

NEBRASKA SOLONS

Proceedings of the Week in Brief in Both Houses of the Legislature.

THURSDAY'S PROCEEDINGS. Lincoln, Neb., Feb. 28.—The senate this morning passed the 2-cent fare bill by a vote of 21 to 8. As passed, the bill carries the emergency clause.

A plan was on foot to cut out this clause but the number of supporters was not sufficient to effect it. One of the men, who lives in Omaha, stated that the republican party would lose 500 negro votes if the bill passed.

The senate passed several bills No. 214, which imposed a fine of \$50 upon anyone selling liquor to anyone who has taken the cure for the liquor habit.

In the senate a committee consisting of Mr. Morris, Rock, Paulsen, Johnson and White, was directed to draw up resolutions commemorating the fact that the day is the fortieth anniversary of the admission of Nebraska into the Union.

The railway commission bill struck a little snag in committee of the whole in the house this morning and a committee will be appointed to investigate the rate of change of rates required by the federal law ought to be observed.

The other four stood pat, but made the same explanations as Burns, Gould and O'Connor.

Supporters of the bill, were, all sent.

Senator Sibley moved a vote of censure against Senator Derrick because he had voted for the bill.

He said that the bill would not be passed, but because the governor intends to be consistent.

When he was a candidate last year he said that he did not favor the flat fare, but that it was his wish to be appointed driver of one of the trains running from Madrid to Iran he naturally much astonished the members of the committee of the North Spanish railroad, who were personally acquainted with him.

The application was at first thought to be a hoax, but on the duke of Zaragoza insisting he was put through an examination he was found to be a very skillful driver.

He dresses as a common driver and lives the same kind of life as his working comrades, with no regard to his title, or his wealth.

When natural gas was first brought into use in America there seemed to be a general idea that the supply was inexhaustible, says the *Standard*.

And it was, and is, and used to be without reservation.

This method encouraged waste in the consumption of gas, and was shortly abandoned by the larger companies.

Today nearly all consumers do not mind waste, but it is felt that the time has now come when it is possible to procure statistics of the quantity of gas consumed, and next year it will be undertaken.

The results will give some direct knowledge which will be obtained of the capacity of gas areas to maintain commercial supply of gas for a certain number of years.

A spinster with money to burn reportedly paid \$5,000 for a building, says the *New York Press*.

A man in Massachusetts has just bought a cow for \$10,000.

A boy in New Haven, Conn., for whom he refused to offer such a sum, James Keene refused \$200,000 for Symsony, a race horse.

There are several roosters of fashionable blood priced as high as \$10,000 each, and a fine lion, a tiger, a bear, and a fine salmon, by which we shall have a craze for breeding fishes, and a fine male salmon educated to pond life, might be worth \$10,000.

The \$5,000 cow has an extra pair of horns, and a fine salmon may become the mother of 300,000 little fellows in the same womb in the aggregate, possibly, as much as the calf.

The...

Wealth of the Hills

1. Rich Properties.
2. The Best of Shipping Facilities.
3. Good Management.

Is hidden from the shiftless and is yielded up to the industrious and deserving. The rock bound vaults of Royal mountain are full of gold and silver, but only those who have the combination can enter the vaults and be enriched by them.

The King Solomon Tunnel and Development Company Has the Combination

and all members of the Company will share in the fruits of its labors.

1. RICH PROPERTIES. We have nearly a thousand acres in the heart of the Great Sulphide Gold Belt of Colorado; over 50 lode claims and several hundred acres of placer ground; the tunnel is 1,300 feet into the mountain, and six veins have been cut by it.

2. SHIPPING FACILITIES. The ore can be handled by gravity and loaded direct onto the cars of the Colorado & Southern railroad by means of a chute when we begin to ship. The Denver & Rio Grand railroad is also within a few hundred feet.

3. GOOD MANAGEMENT. Engineers Dumbleton and Sanderon were impressed with this point in our favor. The same is true of those who have visited our properties and met our officers. Another evidence is given in this issue of THE LITTLE MINER in the report of public accountant S. W. Gilman.

In addition to the excellent shipping facilities our properties have other favorable physical characteristics such as depth to be gained by the main King Solomon Tunnel. When the tunnel has penetrated the entire length of our properties it will have gained a depth of nearly three thousand feet.

The development work that has been done, the rich bodies of ore to be opened by the tunnel, the excellent financial condition of the Company and the safe and aggressive management of the Company combine to make the stock unusually desirable. It is cheap at its present price of fifty cents per share cash and sixty cents installment.

We are now under the apex of a good vein and the price will advance again as soon as this vein is cut.

O. A. KING, DISTRICT MANAGER WAYNE, NEBRASKA

Our Correspondents.

Hoskins News

From the Headlight:

A party was given at the J. Dresen home Monday night in honor of Grandma Dresen's birthday.

Gebhardt, the Stanton county horse thief, got six years in the penitentiary in the district court on last Tuesday.

A fine young boy is reported to have arrived at the E. M. Stamm home last Friday. Slim now shows signs of being a thoroughly developed man.

Amy Norling and Nita Johnson who came home from Wayne last week on account of sickness, returned Tuesday to take up their studies at the N. N. C. again.

A bright and happy young lady came to the home of Mr. and Mrs. Louis Krause Feb. 25, where she will make her future home. You ought to see Louis smile.

A. Lund went up to Clear Water on last Saturday and bought a heavy team of horses. He got the horses for about \$100 less than they would have cost him here.

Christ Maas arrived with his goods and stock from Wakefield Tuesday and is moving onto the Miller farm east of town. He purchased this farm a short time ago.

Pet France and his newly made bride from North Dakota visited over Sunday at the Wm. Krause home. The bride and Mrs. Krause were school mates in Germany.

William and Bertha Moratz, Paul Deck and Glen Green came home from Norfolk Saturday and visited their parents over Sunday, and participated in the higgin' bee.

Anyone driving around this vicinity Sunday afternoon may have noticed a couple of young ladies riding horseback. This looks like the boys had all joined the bachelor society. How about it boys?

H. F. W. Miller loaded his stock, machinery and household goods into a car and shipped it to White Lake, S. D., where he has a farm he purchased last summer. Here's hoping he will meet with success in his new home.

D. Schemel on Thursday received a cablegram from Germany that his sister, Mrs. Sue Artz, who lives at the Hague, was aboard the steamship Berlin which wrecked on a rock along the coast of Holland, and was among the missing. The doctor certainly has our sympathy in his loss.

On Wednesday Emil Anderson and Maggie Blair, from out ten miles north of town, got ready and drove to Wayne and were married by Judge Hunter. They returned home in the afternoon and last night a good time was shown to the many who gathered to participate in the celebration of the event.

Henry Green and son Fred went to Wayne Saturday noon, returning in the evening. The boy had entered the corn contest and he and a Bostow boy

He has the continuation.

BY IDAD

In Boston there is a law which allows the arrest of a woman appearing in a low dressed dress. Not even the dry goods stores are allowed to advertise shirt waists one-half off.

Secretary Shaw has publicly announced that while he takes charge of one of New York's gigantic trusts, he will still make his residence at Deinson, Iowa, and be buried there. By dad we supposed that the interment took place last year so far as Iowa is concerned.

The Cherokee Democrat gleefully states that "Iowa has a 2-cent legislature, too."

March is doing first rate, but April may be better.

City Fireman Harmer has the unique explanation of it. He says the new city electrician, Mr. Moler, "went right to work running the plant with out asking him (John) a d—d thing about how to do it."

E. J. Miller was showing the boys a new trick the past week—burning snowballs. It looks impossible and, by dad, I wouldn't believe it if I hadn't seen D. E. burn 'em.

With the price of paper going skyward there is some comfort in the thought—all though so far—that eggs will soon be cheaper, and a plenty of eggs sometimes makes a good impression on a printer's purse.

Conductor Charley Adair says that at Wakefield recently a preacher got on his train for Omaha, and pulling out his "pastor's permit" said: "I tank dese de last time I shall use dot little book." "How's that?" queried the affable con. "Oh, dot farmer legislature pass dot ducent fare law, and I shall have to pay du cents a mile."

Phil Sullivan must be one of these Christian Scientists. Phil makes his early "constitutional" rounds without the warmth of an overcoat, but when the sun comes out and warms the earth and all there is thereof, Phil always puts on his great coat. Perhaps if Phil would just imagine he had the legs of an editor he could run like a deer.

And now the Wakefield Republican gets up steam enough to announce that it will not mix up in family rows—in its news columns—until the rows get into the courts. After several lawyers, peace officers and others have been called into a "family row," one of the principals has filed complaint of assault and battery and also petition for divorce, it would appear, by dad, as though the row had "gotten into court." Say, you're too awfully good, Mr. Republican, but if an alienist were called to diagnose your case he'd more than likely allege it was probably a lack of get-up-and-hustleiveness.

Some editors print too much in their papers,

And some a lot too less;

Some print stuff that will curl your hair "yellow,"

It gets 'em into a mess.

Others only publish what's clean and dainty,

Not much that's in line;

DEMOCRAT prints it all, "sin" and "saints,"

People read it all the time.

A Wayne "boarer" hands me the following rules in vogue at his house: When you're a guest see that the napkin is tucked well under your chin, it saves laundry bills. Not more than two inches of knife in the mouth is permissible. Don't be a sword swallower. To eat beyond the load line is bad manners. Remember freight cars have their limit. If a dish is passed to you for which you do not care place it on the floor for the cat. The cat may not be so particular. Grasp the knife and fork firmly. What nonsense for a strong person to try to appear delicate at table. Don't mince. Don't daily with the food, it's there; go to it.

Under no circumstances should the napkin be used as a tooth brush. Don't cheat at table. Holding out a hard boiled egg or a sandwich to take home with you is the height of impropper "etiquette."

That reminds me of a little incident recently at a swell speech making function, when a "literary giant,"

present with his best girl—both fine-looking young people—pulled out his pocket comb and spent five minutes making an elaborate "toilet."

This noshing equals the education given the present generation these days—and nights

Going to Bump the Headlight.

A citizen of Hoskins, who has been one of our readers, has discovered that he didn't want the Headlight any longer. That is alright. He lives right in town within two blocks of this office and instead of calling and paying what he owes, like a sneaking coward goes to the post office and refuses to pay the paper. He very evidently has found out artfully and never stopped to think that it may have pleased the other hundreds of readers.

Now you fellow who played this cowardly act, come and see us as any decent man should. We won't beg of you to take our paper. Every subscriber is appreciated, but we will still live even though this narrow, mentally contracted wad did stow our paper in this cowardly manner.—Hoskins Headlight.

To the above article, which is taken up by S. C. Wetzel, he believing himself the party referred to, the DEMOCRAT is requested to state that the Headlight is not, only unfair, but states an absolute falsehood, in as much as Mr. Wetzel has a receipt for a paid-up subscription to the Headlight until the time it was ordered discontinued. Mr. Wetzel further informs the DEMOCRAT that he will bring an action against Editor Nellor for defamation of character etc., and there is no telling where the "shoe pinches" before the affair is settled.

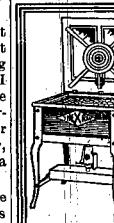

Covers all the Ground

To obtain the full value of manure it must be evenly distributed; it must cover all the ground. The I. H. C. spreaders are so successful in this and all other respects that these machines are regarded as farm necessities.

WEDNESDAY,
MARCH 20

Levi Dilts

For Rent.

A good farm near Orliderige
A. B. CLARK

Fine Farm for Sale

A 20-acre farm, 5½ miles northeast of Wayne, well improved. 150 acres under plow, 80 acres pasture, 15 acres hay land. A. J. LUNDIN.

Dakota Farms

For sale on the Crop Payment plan and also on the Installment plan. For further particulars call on or write.

A. N. MATTHEY, Wayne, Neb.

For Sale.

Good 8-room house, three blocks east of M. E. church, also good single driving horse. Enquire of Jno. G. Gustafson

College Notes.

Mrs. Craig of Baxter Springs, Kans., visited her son, Harold, first of this week.

Jas. Slaughter left this week for Garlock, S. D., where he has secured a position in a bank. His brother, John, is cashier of the same bank.

A class of kindergartners entered the model school this week. Under the efficient management of Miss Dugger, the children make splendid progress.

The Science Department is being put into the best possible condition. All the laboratories have been remodeled and enlarged. Rooms 1, 2 and 3 of the College building are used for this department.

A large crowd of students attended the union meeting of the Y. W. C. A. and Y. M. C. A. in the auditorium on Sunday afternoon. Rev. Osborne delivered an address which was thoroughly enjoyed by all.

Mrs. Peck, of Whitewood, S. D., was accompanied home Saturday by her son, Perry, who has secured a position with a surveying force for the spring and summer. He will return to school next fall and complete the course.

Messrs L. G. Lockwood and Carl Combs of Allen were visiting friends at the College Saturday. Mr. Lockwood will return as soon as his school year is completed and enter the Scientific class of this year.

As usual the music department will furnish music for the Norfolk Association which meets next month. Misses Stewart, File, DeGroot and Mr. Campbell will take part in the program.

Henry Peterson, president of the Commercial class, is directing the weekly meetings along practical and helpful lines. This class contains a lot of fine young people who are a credit to the school.

Miss Carroll has organized a Dramatic club which is doing advanced work in Elocution and will give some substantial plays later. This department has made very strong progress this year.

Chickens for Sale.

About 200 hens, 4 miles northwest of Wayne. JOHN SURBEN.

There was quite a little wedding party at the M. E. church yesterday afternoon, Rev. Horn uniting Miss Sadie Bowles of Sholes and Frank Lorenz of Carroll. The bride was attended by her sister, Annie, and the groom by H. C. Hansop of Carroll. The young couple commence house keeping on a farm near Carroll.

The lecture course for 1906-1907 was a signal success financially and from the educational and literary view. A balance of \$3.85 remains in the treasury after paying all expenses.

The Oriole Concert Co. gave an excellent entertainment last evening, the best thing on the whole lecture course.

A. G. Parker was in town yesterday. Mr. Parker recently filed an answer to his wife's petition for a divorce and the latter has been unable to secure a decree. Mrs. Parker has been in a hospital in Omaha and seriously ill with influenza (blood turning to water). Mr. Parker said he had been requested to go to Omaha to see her this week but had been unable to get away.

St. Mary's Guild in full force surprised Mrs. Moran yesterday afternoon coming with loaded baskets and time was enjoyed. The ladies are all glad to have their old mentor home.

The 500 club met on Tuesday evening with Mrs. Ellis Mrs. Kohl and Harry Fisher winning the prizes.

The regular meeting of the Wayne chapter of O. E. S. will be held next Monday evening.

Mrs. E. P. Wilson returned Wednesday from a visit at Ponca.

A son was born to Hal Gamble and wife, at Mo. Valley, Tuesday.

A new daughter arrived at the home of Al Dragon yesterday.

A jolly surprise party was given Elsie Parker on her 12th birthday, March 24. Those present were Clara Liedtke, Goldie Chase, Fern Griggs, Hazel Norton, Dorothy Von Seggern, Pearl Madden, Margy Kohl, Ethel Miller, Ruth Sherburn, Nelly Piepenstock, Iris Grigs, Florence Moeller, Lila Hitchcock. Ruth Sherburn got the prize for finding the most in the hunt; Goldie Chase the prize for pinning the tail on the donkey. Ice cream and cake was served and the girls reported a splendid time.

Two bulls, one white-faced yearling registered, and one thoroughbred 8 months old. WAYNE R. F. D. 2. EMIL SPITZERBERGER.

District Court.

District Court, equity term, convened Monday morning with Judge Graves on the bench, Judge Welch taking Judge Graves' place at Hartington.

In case of Mrs. Snyder vs. William, motion was sustained to require plaintiff to furnish bonds for costs; plaintiff given thirty days to furnish same, otherwise case stands dismissed.

In case of Robert Anderson vs. Asher Hurlbert, motion to require plaintiff to make his petition more specific, sustained and plaintiff given thirty days in which to file an amended petition.

No words were granted to Clara P. Haskins and George Smith.

The case of Miner vs. Emma C. Beal and John M. Beal was an action by Miner as plaintiff against Emma C. Beal and John M. Beal defendants, to quiet title to land purchased by Miner or John M. Beal under contract. Miner bought this land under contract last fall and it developed soon afterwards that there was some question about the title. The evil defendant, Mrs. Beal, had been confined in an asylum in Iowa for two years ago and was discharged unproved; that since that time she sold 160 acres of the land to her husband John M. Beal, and also since said time John M. Beal secured a divorce from her and the question was raised as to whether or not on account of her mental condition she was competent to convey a title, and whether or not the decree of divorce was valid. The court granted a decree quieting the title, thus holding that Mrs. Beal was competent to convey.

J. C. Murphy of Chicago was here to look after Miner's interests.

Judge Graves will re-convene court Monday, the first case to be tried by jury being Merrill vs. Erickson.

Jos. Miller and family moved this week from Fremont to Randolph. Mrs. Miller is a sister of Jake Wingert and the family formerly lived in Wayne.

Mrs. Moler, wife of City Electrician Moler, sang a solo at the Presbyterian church Sunday morning. Mrs. Moler is a graduate of the Chicago School of Opera, and quite an acquisition to Wayne's musical circles.

Sam Davies is now a full-fledged citizen of the United States, which will be news to his many friends who did not know that for the past thirty odd years Sam has been a foreigner. Clerk of courts B. F. Feather issued Sam a finely decorated certificate of citizenship last Saturday. Sam married several people in a quiet place in the country where he was justice of the peace, and it will no doubt be news to them and their descendants to know that they are not married at all, after so many years of simply thinking they were. Then all the votes Sam has cast, and the bets he made, the mush wagon he pushed and divers other evils. Sam certainly has a lot of grief to answer for.

Nick Cullen is home from Illinois.

Timothy Seed.

I have 40 bushels good Timothy seed for sale. C. S. ASH.

Conspicuous for sagacious management and for the success of their companies presenting "The Royal Slave," "The Warning Bell" and "Under the North Star." Gordon and Bennett have with this season's production excelled in the theatrical endeavor. In this great Biblical drama, "The Holy City," there is combined much wealth of acting, allegory, music and spectacle, as has rarely, if ever been seen before. The possibilities for dramatic effect with which the thrilling narrative of John the Baptist abounds have been used with skill and with apparently unlimited cost. The acting company is noted for its integral brilliancy, and the scenes present history in radiant splendor. The stage paraphernalia all of which is carried by the company, is of wonderful beauty. The reputation of the management first attracted attention to the play and its matchless performances are carrying those endorsements which honestly of purpose and skilful design command. Wayne opera house March 19.

Sow G. Seed

In order to come quickly in touch with the many country districts and small towns where Sunday schools have not yet been started. I am sending out this notice and asking people to write me of any place untouched by this great and important work for the children and young people. It is a good time now to plan for the country Sunday-school, and while you are planning, let me help you. Our society has been doing this kind of work for 83 years and is in harmony and helps the churches. Bibles at cost and free to the poor. Write today to E. B. LYMAN SHOLES, D. P. A., Omaha.

The Real Sufferer.

Did your thoughts ever turn to the real sufferer by reason of the murder of Stanford White by Harry Thaw? That one who suffers most is not Harry Thaw, the murderer. That one is not his poor little wife, who has wrapped her wifely life in a cloak of shame in order to save her husband from death. That one is not the mother or the sister of Harry Thaw, for they have lived the life which sears the conscience soon. Look into that deserted home over there on Long Island, and behold her who wears the crown of thorns. It is the wife of the man who was murdered. The wife who until the fatal shot was fired believed that her husband was good and true and pure.

Now she knows that in every home of America fathers and mothers are clasping a little closer their own loved daughters, shrinking with horror at pictures of total depravity unfolded on the witness stand at the Thaw trial, and in every picture she knows that the fathers and mothers of the land are beholding their husband—Stanford White, as the meanest imp of hell ever sent to earth to harm humanity by his politing presence. God pity the innocent victim—the widow of Stanford White.—Columbus Journal.

If you withhold your criticism until there is just cause for same, and I have made mistakes either through ignorance or poor judgment, I am willing to submit to your criticism, but in fairness not only to myself but the people please discontinue publishing falsehoods when the truth can be obtained upon investigation.

Very truly yours,

G. A. RANDALL.

The United States senate is recognized as a very slow and deliberate body. While we will all agree to this in certain measures, it nevertheless shows that the senate can do things up brown in case of an emergency. To show what it can do when it tries, the other day 991 private pension bills were passed in one hour and six minutes. The best record ever made by the House of Representatives was 625 bills in one hour and thirty-five minutes. That is what we call doing business on the spur of the moment.

Randall Says He's Right.

Editor Stanton Picket:

I notice in a recent issue of your paper an article called "Randall a Reformer." There is just one truth in this article, and that is "Randall was under a direct pledge to support a primary law." The balance of the article is maliciously false, and I defy you or any person on earth to show to the contrary. You have either been misinformed or you have deliberately printed a false statement, and if you are disposed to be fair you will correct the same in as public a

The jingo press in London complain that James Bryce, newly appointed ambassador, is too friendly to the United States. Would it improve the conditions any by appointing Sir Swettenham?
