Changed His Mind.

A friend once made this statement to me: "I would not put a dollar into anything that was not paying a dividend."

He has since changed his mind, and realizes now that if every one took the same view there would be no investments.

Some one must take the initiative. Some one must put up the money necessary to start the big enterprise that pay dividends.

Do you think that Mr. Hill, Mr. Rockefeller, Senator Clark, and the hundreds of other big capitalists of our country waited with their investments until their money could be put in dividend payers only. If they had they would not have the wealth they now possess.

They invented—they started with the beginners and realized a thousand per cent on their investments where the investor that waited for dividends realized a paltry three or four per cent.

Now they give legitimate gold mining your hearty support. It is far easier to determine in this day and age the legitimate from the illegitimate and we will be glad to assist you. Any time you have any inquiries to make, don't hesitate to ask for information, which will be given to the best of our ability.

Ours for King Solomon.
O. A. KING, District Manager.

Notice T. B. H.

The meeting and box social for Saturday night will be postponed until next week Saturday. Come, and bring your friends.

LOCAL NEWS.

R. Hodgson, the Winside man who "would not vote for a woman," was in Wayne Friday.

Mr. and Mrs. M. S. Davies were Sioux City visitors Saturday.

Mr. and Mrs. Norris and daughter from Schuyler were guests of Mr. and Mrs. J. H. Massie the past week.

Al Howser and Jas. House left this morning for Gettysburg, S. D.

A daughter was born to Mr. and Mrs. Oscar Lewis Tuesday, and Oscar quit draying right away and will go out on the Ed Owen farm in the spring and make "a farmer's daughter" of the little miss.

Will Rickkaugh's mother, who has been visiting her son's family, left this morning for Omaha.

There are more houses for rent or sale now than at any time for the past eighteen or twenty years. A number of fine residences are on the market at very reasonable prices.

From the way they are hopping to the DEMOCRAT to get paid up in advance a few years there would appear to be no stringency in the money market. Just ten days more, however, to save that half dollar on a year's subscription, or save \$5 on ten years, as some are doing.

Mr. and Mrs. Chas. Turnbull of Norfolk visited in Wayne the past week.

S. H. Alexander, who has been in the city the past week on business connected with the King Solomon Mining Co., has some fine specimens of gold, silver and copper quartz from the company's mines that assay \$150 per ton. After two years hard work the King Solomon shows the best possible prospects of being a heavy dividend payer. The company has now all the funds necessary to fully develop the territory, and even the DEMOCRAT man is beginning to believe there is something big in the proposition.

Chas. Chace was a visitor from Stanton over Sunday. Mr. Chace says his mother continues to improve in health right along and his father is also well. Speaking about money, markets, etc., he incidentally mentioned buying some two hundred acres of corn in the field that will cost him about 33 cents per bushel, but he also surmises that cattle may sell cheaper.

Fencing. You had better get our price before you buy and the kind to buy see, Marsteller & Peterson.

FOR SALE—7 room house, barn, three lots on Main street. Also good residence lots. A. N. MATHEW.

Bring your job printing orders to the DEMOCRAT. We can quote you lowest figures and the best of workmanship.

Dr. G. J. Green, dentist, office over State bank.

Dr. T. B. Heckert, Dentist, Over Felber's Drug store.

Geo. Lacroix, of Carroll, was in Sioux City yesterday.

Mrs. Wilbur Spahr was a Sioux City visitor yesterday.

Mrs. A. N. Jacobs went to Omaha yesterday.

Doc Cadwell leaves next Monday for his home in the Indian Territory.

The three weeks old son of Mr. and Mrs. Ed. Dolph died Tuesday noon at Wiener, where the baby had been taken for medical attendance.

J. Adam Bede failed to speak in Wayne Tuesday owing to the deep-water convention held in Omaha on that date, which he was induced to attend. Mr. Bede will be here Saturday evening, Wayne opera house, and is sure to draw a crowd.

J. Adam Bede, Saturday night at opera house.

Mr. Peterson, foreman for Lister Bros., of the Herald, was an arrival Tuesday in the city.

The county commissioners were in session Tuesday.

It appears the thieves who stole Chan Norton's horses have made good their escape. Mr. Norton has given up ever recovering the property.

To drink, or not to drink, that is the question. Whether it is noble in the mind to suffer the intolerable cold of winter or to imbibe a mug of hot chocolate made by Mrs. Whalen who is unexcelled in the art of preparing and serving it with whipped cream, and a kind of fancy cakes made fresh every day.

L. F. Neely and his tinner, Mr. Ebert, went to Sholes today to put in a furnace for the new school house there.

Some of the "Weakly" papers look the past week, as though the "candidates" hadn't dug up.
Thanksgiving Day will soon be here and with it that bounteous dinner. You can make the meal doubly enjoyable by having a case of Storz Blue Ribbon Beer. This delicious beverage will add relish to the feast as nothing else will. Order a case now, but be sure it is STORZ.

"What are the most enjoyable things in life?" asks the Louisville Courier Journal. Opinions will differ, but the Omaha Bee ventures the suggestion that the absence of corns must stand well up in the list.
The truant officer at Sioux City has found 200 cases of school dodging, and just think of the material for expert foot ball and basket ball artists there might be in that bunch.
Somehow I never can understand why butter that "isn't fit to eat" is always good enough to cook with.
German royalty is being ripped up over sensational disclosures of immorality in court circles. Blamed rulers

A Pittsburg man paid \$40 for holding his own baby in his arms a minute. Other men have paid a higher price for holding their "baby."

Col. Bixby's trip to Europe has not, judging from his "Daily Drift," made the colonel any sharper nor his pen more trenchant.
The fire in the Journal office at Sioux City burned away all the ill feelings, jealousy and malice between that publication and the Tribune, a bond of friendship as strong as steel arising from the fire scourge. It reminds us of one of our first novels, read about thirty years ago, "Barriers Burned Away." If you like a good story hunt this up and devour it.

By dad, I'm sorry - for my part - but there will be a whole lot of "dear readers" to this family helper shorn off the mailing list first of December if they don't get up to the mourners' bench. A subscriber who won't pay or can't pay a dollar per, isn't a good-looking proposition to hang onto at a \$1.50, is he, or she?
In talking with a traveling man who "makes the whole state" and has headquarters in Omaha, the DEMOCRAT is informed that the recent money panic is simply a "crack in the ice," and when it breaks there will be lots to go overhead. It perhaps isn't best to be pessimistic, but being too un-guarded and careless of the future is a worse fault. There is always one consolation in a little hard times; you fellows who have been wanting and getting \$40 for 30 cents worth of labor, and who haven't "saved a dollar" during an "unprecedented era of republican prosperity," will be willing to work a little for what you are worth.
Denison Bulletin: A Sioux City woman is after a divorce because when

she refused her husband a farewell kiss when she started out to do the washing for her neighbors in the morning, he grabbed her and bit a chunk out of her cheek. She also avers that he is a cigarette fiend and that he cursed her because she held out ten cents from the money she earned during the week instead of giving him all of it. Some women are so confounded unreasonable that a man can't live with them, and he ought to let her have the divorce and live on the county.

A Milwaukee business man stepped up to the teller's window in one of the city banks recently, presented a check and asked for the money it represented. "I cannot give you the cash," said the teller, "but I can pay you in clearing house certificates."
"I would much prefer the currency," answered the man.
"The certificates are just as good," said the teller.
"Well," retorted the merchant, "if that is the case, I suppose I can go home to my baby and give it some milk tickets and say, 'Here, little one, these are just as good as milk!'"

Nebraska Journal: A person of considerable experience says that when a lot of women get together, the first thing they do is to abuse the men, and that when a lot of men get together the first thing they do is to give the women reason for such opinions.

Wife Was Cruel To Him.
Numerous charges under the caption of cruel and inhuman treatment are made by George J. Biegler in his petition for a divorce from Anna K. Biegler, which was filed yesterday in the district court.
Biegler is a carpenter and painter, and he says that after working hard all day he would have to come home and cook his own meals. He charged his wife with having beaten their 5-months-old child and declares that she has left it without care while she went down town or to parties, returning at late hours. He asserts that his wife has absented herself from home for days at a time, and that frequently she was in bad company. He claims that she visited Riverside park with other men, and she has also taken trips alone with men on the river.
Mrs. Biegler is alleged to be of a violent and ungovernable temper. Her husband says that since the first year of their marriage she has frequently assaulted him with her hands, and on one occasion she drew a sharp knife and cut him, at the same time applying bad names - Sioux City Journal.

Toyland.
Manager Britton is to be congratulated on having booked the big musical success "Toyland" which is to be played here shortly. This is the original production in its entirety with a big Chicago cast, elaborate costumes, pretty girls, and catchy music, and is looked forward to as the big surprise of the year to play-goers of our city.
The play is a two act musical operetta from the pen of that peer of operetta, Sam Morris. The scenes are laid in the German town of Nuremberg where there lived a toy-maker, Fritz Heine, whose whole ambition was wrapped up in making a doll come to life in order that he might marry her to his off-spring, Fritz Heine, Jr.

About fifteen ladies attended Grandma Cutler's 88d birthday party last Saturday afternoon. "Baskets" were taken and a splendid supper and good-time enjoyed by all, "the best birthday Grandma ever had," as one visitor put it. Some substantial tokens of friendship were taken these grand old people.

F. E. Strahan went to Sioux City Tuesday. Mr. Strahan is one of the directors of the Interstate fair association, and there is quite a probability that the concern will go out of business owing to the persecution and "butting in" of the anti-saloon league of the city. A permanent injunction against the company selling beer on the grounds is wanted and if granted the corporation will dissolve and—well, maybe the ministers will let them have a chalet-qua if—there is a little graft in it for the anti-saloon fellows.

Secretary Ringland, asked what the Commercial club was doing these days to earn its salary, replied that the executive committee was doing "considerable work but not blowing much about it. In the past few weeks they have taken up the matter of getting Sunday mail in the afternoons, and perhaps the public has noticed that the mail connections are now made at Norfolk. There has also been considerable figuring and corresponding for a public building in Wayne in the near future, and prospects are bright for something doing soon in that direction. The members of the club are on the alert to keep Wayne at the head of Nebraska towns, and a statement will shortly be made by the secretary showing what funds have been subscribed and how disbursed.

Notice To Subscribers.

The subscription rate on the DEMOCRAT in past years has been \$1 per year in advance or \$1.50 per year if paid as delinquent: On and after December 1, 1907, it will be \$1.50 per year in advance. Until December 1st all back subscriptions may be paid at the \$1 rate, and from one to ninety-nine years may be paid in advance at same figure. Now is the time to straighten these little accounts up to your advantage. Positively nothing but the \$1.50 rate goes after December 1, 1907. Stand up for—prosperity.

SUPPLEMENT

To the Nebraska Democrat
Wayne, Neb., Nov. 14, 1907.

Carroll News.

The harvesting of the crop of corn around here is progressing nicely. Two weeks will see most of the corn in the crib. The yield is in many cases disappointing. It will probably on the average make 25 bushels to the acre.

Burross Bros. are making some extensive improvements at their place in the south part of town. A large addition is being built on the west of the big stallion barn and a smaller addition to the old barn.

Mr. and Mrs. Lester Bellows are no longer residents of Carroll. They left on the morning train Wednesday for Omaha, their household goods were shipped Tuesday. Pa Bellows went with them to assist in getting settled. He will be gone about a week.

W. E. Liddle has decided to hold his sale of household goods and butcher tools in Carroll, Saturday P. M. November 16, 1907.

Mr. W. L. Robinson and children arrived home last night from a two months visit with relatives in Stella. Mr. Robinson met them in Omaha.

There is one reason to regret Chas. Beebe's election as county treasurer, and that is that we will lose him and his family from our midst.

Monday of this week a land deal was made between George Porter and John Francis by which Porter becomes the owner of John's home quarter. The consideration paid is reported as sixty dollars per acre.

Winside News.

Mrs. A. T. Waddell of Meadow Grove, visited in Winside Sunday.

D. G. Cavanaugh, I. O. Brown and Sam Schwerin went to Wood Lake Saturday hunting, returning Tuesday morning with 41 ducks to their credit.

Wm Schrumpp and wife got started Tuesday morning for a visit in Missouri, Ohio and Illinois. They expect to be absent a month. Frank Hoyer is here taking Mr. Schrumpp's place in the depot.

Dr. Lovel of York, a brother of Mrs. John Prince's, came yesterday to visit his sister and family. The doctor is a deputy State Veterinarian. Sam Rew had him go out to see a horse belonging to Mr. Rew that has lockjaw, but there is not much hope of saving it. Having already lost two good horses during the past year, it will be hard luck for Mr. Rew if he loses another.

Now that we have the hog nuisance dispensed with and the Sunday closing ordinance, now what we want is an ordinance prohibiting the habit of spitting around on the streets. It seems a shame that nice, clean walks should be the receptacle for great mouth fuls of tobacco, and other things equally as bad, when there is all the street to receive it. Let's have a thorough cleaning up.

Dr. McIntyre reports the birth of a son at the home of Mr. and Mrs. Chris Jensen Saturday, November 2.

Willard Fletcher and wife are the proud parents of another girl, the little Miss having arrived last night.

It is reported here that Wm. House who for a number of years lived northwest of Winside but now of Wayne, was married again last Saturday to Miss Gaup, of Wayne.

We always thought that Mr. and Mrs. Dave Koch were great admirers of President Roosevelt, but did not know that they were such admirers of his anti-race suicide principles. When the stork called at their home last Sunday, instead of leaving one baby, as is usually the case, he left two, much to the surprise of the happy parents, but without any protest. They are boys and just as cute as can be.

We notice by the real estate transfers that Henry Thielhold has bought has bought the W. T. Epperly farm consideration \$5000, and Chris Weible has bought a quarter of E. R. Gurney, which lies southeast of Winside for \$50 per acre.

It is gratifying that the voters of Wayne county have shown their desire for a "square deal" in politics by the election of Geo. S. Farran for county commissioner. It is a just retribution to those who conduct such a foul and dirty campaign against Mr. Farran—Winside Tribune.

The Tribune should take something, itself, to clear away such ridiculous notions. There was nothing in the whole campaign against Mr. Farran that gentleman could take exception to. In fact, it was as clean a campaign of any "mud-slinging" as will ever go into history. The Tribune, itself, made as many misstatements over the commission-ship as any other paper in the county, and now that it is a "closed circuit" it should close up its yawp on election scores. If any one got the worst of it, it was the Hoskins people, who early in the campaign put up a good man for this office. The Winside crowd—democrats and all—wanted to beat Hoskins out of the honor, and they did it. Now, let's be decent about it.

City Council Doings.

The city council completed work on an electric light ordinance Monday evening, and authorized publication of a water ordinance passed at a previous session. A minimum rate of 50c per month, flat or metre, is one of the requirements of the new ordinance, and 8-candle lamps are made 50 cents, 16-candle 75 cents and each additional 16-candle power 75 cents per month. The metre rate remains unchanged. A spirited argument was held over the minimum rate, some of the council being in favor of making it 75c per month, Aldermen Craven and Neely wanted it 50 cents and it was so drawn up. The more radical change is in the price of water, the rate being moved up from 15c to 25c per thousand gallons. It would appear to the DEMOCRAT that if the city would have some business system of collecting present water rentals it would be raising the price on people who are honest enough to pay for it. Mayor Ley says the city is at present selling the railroad company water at 10c and making money at it, but when perhaps only the patrons pay for what they use at 15c per M., it is a losing game. At a flat rate of \$5 per annum a hydrant may furnish water for a whole neighborhood, but where a resident keeps a meter in order and consumes all the water measured out, he must pay for what is "wiped" and also for negligence of the city in some instances to ever make collections.

Reports of city treasurer and city clerk were read and referred to finance committee.

Nebraska Echoes.
It was no surprise when I heard the news, Andy Maskell; That no one else would wear your shoes Andy Maskell; For you always get your dues, A vote for you one never runs, Whatever happens, you do not lose, Andy Maskell; Dixon county has many an honored son, Andy Maskell; But you beat 'em all, you're the one, Andy Maskell; In their affections you weigh a ton, They'd vote for you if they lost the sun, It beats the devil how you run, Andy Maskell.

Now let the candidates pay the bills. The Madison county candidate, who got fighting mad because a newspaper criticised his official record, was badly defeated. The remainder of his party candidates, with one exception, were elected by large majorities.

Wayne county republicans broke the "hoodoo" Tuesday and elected a county treasurer for the first time in sixteen years. Charles Beebe defeated Miss Zetta Rayburn by a majority of 167.

They turned the lady down, And may be perhaps, 'twas rash, Admitting her ability all the while To care for people's cash.

If women had voted with the rest, Miss Rayburn might have led, But that's a privilege for many men, With this notion in their head.

A woman's place is to stay at home And do as some man bids, Her duty is to cook and wash, And, if any, tend the kids.

The promoters of a dance at Winside last night took a novel method of securing the attendance of the ladies. They advertised that "the prettiest girl in the county would be present," so every girl attended.

While it is against the law to treat before election, many candidates risked the penalty and quietly "set 'em up." In this way they received many votes among a certain class who admired their "bravery."

The name "democrat" was printed in sm ill letters, about half as large as the name "republican," on the Knox county ballots, and the Bryanites said "things" about the county clerk when they beheld the difference. However it didn't seem to bother the voters any, who elected five democrats in that strong republican county, among them being Phil Clarke, the "jolly" candidate for clerk.

It was well for "Doc" Bixby, of the Lincoln Journal, that he has made a satisfactory explanation. No man can go away from home and write back the following without a crowd meeting him at the depot on his return to smell of his breath or be ready to call a hack if the occasion demands. Describing some of the sights he saw in London, Bix mentioned a famous painting which he called, "A Portrait of Miss Moore with Her Infant." When his many friends read this there was sorrow in their hearts and they wept. And how glad they were when he returned where loved ones could look after him. But when Mr. Bixby got his new clothes off and his old clothes on and again commenced his daily grind, he made them all rejoice and renew their faith in him by the following statement: "The truth is that the intelligent compositor, or the somnolent copy holder, or the puerile proof reader blundered by substituting, or allowing to be substituted, Miss, when it was written Mrs. Let the waiting world rejoice that the infant in the case does not emerge into manhood handicapped for the want of thoroughly creditable antecedents."

The newspaper men of north Nebraska will meet in Emerson next Saturday and organize a press association.

St Tomkins, of Tarbox Hollow, writes: "I voted it strait till I came to somebody who was crooked."

To settle an election bet, Herman Schlus-sel, of Stanton, will give Louis Smithberger, of the same place, a wheel-barrow ride.

THE HABIT OF SAVING

Because a north Nebraska young man, in speaking of his sweetheart, said that he "had a mortgage on her," another fellow holds down his place on the sofa and looks at the pictures in the album. A rival heard him make the remark and he repeated it several times when he was sure that the girl would hear. Now he's the "candy." Always bear in mind that you never get a girl till you get her married.

Attorney Dodge beat Rev. Drulinger for county judge in Cedar county by a majority of forty.

Rev. Drulinger, it's hard on you, That you can't preach and judge them too, That you're not popular with the men, Who never get in till four a. m.

They were afraid if you held the chair, And with a "jag" on, they faced you there, That the old oxen to mend their ways, Would influence you not on many days.

Today I've wrote a lot of rhyme, I'm sure it is enough, But it's such an easy task, To meter up the staff.

The space is too small to write of all, Who chanced to win or lose, "ut perhaps at some future date, I'll give them all their dues.

However, if any of you feel the slight, I think I say favorites nurse, Just write me that you kick, I'll put your name in verse.

—Lyde T. Ecker, in Sioux City Tribune.

Smooth As Oil.
The smoothest political machine ever built in any factory is the republican state committee in Nebraska. It can run on a prohibition road, and every enemy of booze living on that road will strew flowers in the path of the machine. It can run through the slums of Omaha, and as it runs it will be attended by the acclamations of every enemy of the cause of civic or personal purity.

And so ran the machine last Tuesday. In the cultured atmosphere of Lincoln the educated populace worked all day to roll up a big vote for Judge Reese, the candidate of the anti-saloon league. In the bum districts of Omaha the pug-nuglies, the porch-climbers, and owners of buildings which bring big rent for immoral purposes, joined hands to help Judge Reese, the "liberal" candidate, and to defeat Judge Loomis, the alleged "temperance" candidate.

When we consider the power of the machine, its ability to deceive, and its ability to buy, we are inclined to the belief that Judge Loomis is to be congratulated upon the vote he received. Some day the people of Nebraska may get their eyes open to the blameworthy of that splendid machine. But not now. The majority appears to love the humbugery practiced by the machine, the grease for whose wheels is furnished jointly by the subscriptions of Lincoln prohibitionists and Omaha breweries.—Columbus Telegram.

Same in Iowa.
Cherokee Democrat: Print paper has taken another jump upward. A ton received at this office yesterday cost 15 cents per hundred more than last month. It would be a good idea to get your subscription paid a year in advance. The price will certainly have to go to \$1.50 a year on Jan. 1.

Takes Us Down to Platte.
It was the same old story—only a little more so. Every democrat on the state, judicial and county tickets won majorities ranging from two hundred to more than a thousand. Every office in the court house will be occupied by a democrat after the first of the year, the two republican supervisors having been supplanted by democrats. It was only natural results. The democrats presented a splendid ticket, worthy the votes of all men. A majority of them had seen public service, and had made records entitling them to continue on duty in their respective offices, and those asking office for the first time carried personal records of high order. It was a strenuous campaign, because of the fact that the republican enemy almost succeeded in breeding trouble between the friends of certain candidates, but happily as the days went by democrats began viewing such republican stories in the right light, with the result that the two democratic candidates between whom the enemy tried to make trouble received among the best majorities. The Telegram is hoping that the bourbon of Platte have learned a lesson from this campaign. We hope they may have learned a lesson to treat republican lies regarding democratic candidates with contempt. And we believe the lesson has been learned, and learned so well, that in future campaigns republican lie regarding a democratic candidate will serve to increase the majority of that candidate, rather than to diminish it.—Columbus Telegram.

Eugene Leahy of Wausa was in town Tuesday on his way to Omaha. "Five out of seven, is the way we landed the democrats in office in republican Knox county," says "Gene." "I think you democrats at Wayne must drink too much."

Well, of All Things!

Did you try that Pancake flour of Payne's? It makes the best cakes I ever tasted, and he has the Sinderla Filerr fit for a prince, and it is. If you try a sack you will use no other.

Now is the time to buy your Winter Flour. Come in and say you want 1000 pounds and see how cheap you can get it. Get your oil meal now; bran and shorts: rye flour, graham, half-wheat flour. Bring in your rye, we can grind it; barley, oats, corn, spelts, etc. We are grinding every day.

Tankage is cheaper than shorts and better.

SUPPLEMENT

To the Nebraska Democrat
Wayne, Neb., Nov. 14, 1907.

Noakes Bros., near Sholes, have a big farm auction Feb. 12th.

The following letter was addressed to the editor of The Worker's Magazine, but the office boy gave it to the editor of Household Hints by mistake:

To the Editor: Wanted—A society for the preservation of our pants. For men only.

Brethren, the blow has fell.

The worst has come.

In September they took our hips away from us.

Now they are going after our frock coat.

Is it not time for every true patriot to cinch his trousers firmly about him with a trunk strap and a yale lock, and make heroic resolve to resist them to the last stitch of his pistol pockets?

Hast noticed, fellow sufferer, the new style of cutaway coats they are wearing these fine October Jays?

Hast not? Then list: It looks for all the world like a man's—lapels, buttonholes, cuffs, cutaway pattern in front, little tails hanging down behind, pockets, silk facings—everything just as au fait and all fresco and cafe au lait as you please.

And then, of course, the hips are missing.

Why honest brethren, the only way, sometimes, that you can tell they aren't men is by the fact that they pass by the barber shop and go in the ice cream place.

Long ago they got our hat, our necktie, our vest, our shoes, our socks, our shirt front, our walking stick and our cuff links.

Summer before last they took our suspenders.

Now they take our coats and imitate our straight-up-and-down hips to make the deception complete, deceitful wretches what they are!

Hence the pressing need of getting to

gether and forming a league for the purpose of saving our trousers before it is too late. All good men should join in the movement.

COMMISSIONERS PROCEEDINGS (Continued)

On motion the following resolution were adopted:

Resolved:

1.—That a Board of Health for the county be appointed by the county board, the same to consist of three members, one of whom shall be a practicing physician.

2.—That said board of health be and they hereby are empowered to enforce such regulations as may be adopted by this board to prevent the introduction of contagious, infectious or malignant diseases into the un-incorporated territory of the county, and to enforce quarantine rules made for that purpose by it or the Board of County Commissioners.

Notice To Subscribers.

The subscription rate on the DEMOCRAT in past years has been \$1 per year in advance or \$1.50 per year if paid as delinquent. On and after December 1, 1907, it will be \$1.50 per year in advance. Until December 1st all back subscriptions may be paid at the \$1 rate, and from one to ninety-nine years may be paid in advance at same figure. Now is the time to straighten these little accounts up to your advantage. Positively nothing but the \$1.50 rate goes after December 1, 1907. Stand up for—prosperity.

Staley Pointers

THIS is our ninth season selling STALEY fine wool underwear in Wayne, and our twenty-ninth year of selling this famous make of underwear. You may think that we have advertised this line of underwear enough in Wayne, but as there are some newcomers into the county each year, and there are yet a few men in Wayne county who do not wear the STALEY underwear, we are going to keep right on advertising this underwear until every man in Wayne county wears it. We have yet to find a single man (or a married man either) who has worn STALEY underwear, that is willing to wear any other kind. That alone should convince anyone that STALEY underwear is superior to any other make. There are many things about men that we do not understand, and one of them is, that a majority of the men of Wayne county who do not wear STALEY underwear know that they need it and should wear it, but because they are trading at some store where they do not sell STALEY, they think they have to do without it. We cannot understand why they fail to come here to get what they know they ought to have. If STALEY underwear was high priced and they could not afford to wear it, they would have a good excuse for not buying it, but STALEY underwear is made for the poor as well as the rich, and every person can afford to wear it and enjoy good health and be comfortable. Ask anyone wearing STALEY wool underwear how he likes it and he will recommend it. Ask any doctor if you should wear STALEY underwear and he will recommend it. Come in and ask us to show you STALEY wool underwear, look at it, feel it, and you will understand why so many wear it, and you will be ready to buy it.

Why It Is Better

The wool used to make the STALEY underwear is pulled (not sheared) which leaves the ends of the fibers smooth, and not blunt and sharp as all other wool underwear is. Then the wool is put through a process of cleaning that takes out all the foreign matter, such as grease impurities, sand-burs and chaff. It is thoroughly cleansed, then it is carded and spun into yarn and knit into garments. These garments are put into great vats of hot soap suds and are thoroughly shrunk. That is why the STALEY wool underwear does not scratch and irritate the skin, and is worn by men and even women in Wayne that never found any other wool underwear that they could wear.

Why You Should Wear It

The best medical authority in the world concedes that wool underwear is the only underwear fit to wear. We can give you the names of more than fifty cases of rheumatism that have been cured by wearing STALEY all wool underwear. This is the only factory in America that makes an exclusive line of high grade wool underwear which is sold direct to the retailer and cannot be bought from a jobber. Wool woven and made into undergarments by the STALEY methods absorbs the perspiration, thereby preventing the wearer from suffering through sudden changes in the weather. Now don't wait till you get a good case of pneumonia before you are converted into the STALEY family. \$6 worth of STALEY is cheaper and is worth more than \$25 worth of medicine.

Why It Is Comfortable

It is made to fit, not stretched to cover; the seams are all sewed with a double over-stitch, which makes a smooth seam that will never rip. This seam is found only in the STALEY underwear, and you will always feel comfortable with STALEY underwear on. Keep yourself warm in STALEY underwear this winter and you will always wear it.

A Fine Assortment

STALEY underwear is made in fifty different kinds. We can please the rich and poor alike. We can fit any person, it matters not what his shape or size may be, big or little, short or tall, lean or fat, at the same price as the regular sizes. We have it in all colors and can please the most particular man, and we guarantee satisfaction to the wearer.

A Timely Warning

WE have sold thousands of suits of STALEY underwear in the eight years that we have been in Wayne, and no man who was a wearer of STALEY underwear has asked for a divorce, and only two men have died in the eight years that had on STALEY underwear; there has been no man in jail with STALEY underwear on except the sheriff. Now, you and your family need the protection that STALEY underwear gives.

It is a remarkable fact that every man who we sell STALEY underwear to becomes possessed of a desire to tell his friends, and it is a fact that no man who comes to us on a friend's recommendation, leaves the store without making a selection from our large stock of STALEY.

Ask your doctor what kind of underwear he wears and he will tell you "STALEY." Now, if it is good enough for him it is good enough for you, and this is just the time of year to buy new underwear, as your old left-over garments do not have the proper warmth in them.

To the Ladies

The last two seasons there have a great many ladies come and asked for underwear as good as their husbands wear, and a great many have bought the STALEY union suits, which are perfect fitters, and in STALEY fine wool union suits you get more weight than you do in fine wool of the ladies' underwear.

\$2.00 to \$7.00 Per Suit

Staley Jersey Overshirt

Teamsters, railroad men and every man who has out-of-door work, and who wants to keep warm, should invest in the celebrated STALEY all wool Jersey knit overshirts. There is nothing in the market that will outwear them and nothing that can be made warmer. You can laugh at zero weather with one of them on.

\$1.00 to \$2.50 Each

Dan Shannon has a new scheme that a money panic has no terrors for. Recently a couple society women of Carroll thought it a great joke to "swipe" a fowl or two from Dan's poultry yard. The mistake they made was in crowing

about the feat, for Dan got wise and also \$5 each from the ladies, or a total of \$25, to hush the matter up instead of making a petty larceny case out of it.

The farmer raises the corn, gets.....2 00

He said he had never written it and "he durst" if he "ever noticed how it was spelt." Asked what he did when he got a marriage license, he replied that he "never saw what the judge put down."

The county commissioners this week appointed Grant Mears, Dr. Williams and Dr. Phillips a "board of health." Great Western Endless Apron Manure Spreaper

SPREADS ALL KINDS OF MANURE AND FERTILIZERS

THE GREAT WESTERN Endless Apron Manure Spreaper will handle all kinds of manure, commercial fertilizers and mulching regardless of their condition. It will handle manure from the feed-yard. It will handle fresh stable manure, regardless of what the manure contains. It will handle manure with corn stalks, cobs, long, wet or dry straw. It will handle wet straw manure, straw stack bottoms, whether rotted or not. It will handle cow manure fresh from the gutter—as our bats are close together—sheep manure fresh from the sheep sheds, the refuse from the hog yards, fresh turnip or sugar beet tops, clover chaff, sawdust and mulch of all kinds. It also handles various kinds of commercial fertilizers such as dry bone, salt, lime, ashes, etc. In fact there is nothing

in the manure, mulch or fertilizer line that cannot be spread either broadcast, or in trenches or drills, from the thinnest sprinkle up to the heaviest layer, more economically, better and quicker with the GREAT WESTERN than can possibly be done by hand or by any other method.

THE WAGON GEAR

The wagon gear or truck is one of the important features of the GREAT WESTERN Spreaper. It must be built to not only carry the load, but to furnish traction power to operate the spreader. Special pains have been taken to make it exceptionally strong, substantial and durable. The front axle is made of 1½-inch cold rolled steel, over this a heavy wood axle cap which carries a big 16-inch Malleable Iron fifth wheel. Built so strong and durable that no brace is required which would interfere with the wheel in making a short turn. It turns in its own length. The rear axle is made of 2-inch cold rolled steel. BOTH REAR WHEELS DRIVE THE AXLE by pawls and ratchets similar to those used in a mowing machine.

HOW THE MAIN FRAME IS MADE

The main sills are made of OAK and measure 2x6 inches. The cross sills are OAK, mortised into the side sills, and each cross sill is held in place by two draw bolts. The two center sills are made of OAK and run from the front cross sill to the rear cross sill. This construction alone, being made of OAK, is very stiff and substantial and for any ordinary machine would be plenty strong enough, but in addition it has two diagonal iron truss rods, as you will see by examining it. This makes it absolutely impossible for the frame to twist out of line. Come in and let us show you the construction of this wonderful machine.

The Famous Lightning Triple Gear Feed Mill

Equipped With Chilled Steel Burrs

The Famous Lightning Triple Gear Feed Mill has gearing entirely enclosed and bearings run in oil, and can be oiled from outside while machine is in motion. It is equipped with three large roller bearings, thereby reducing friction which makes it much more durable and lighter draft. The gear is supported by extra heavy base. It is also equipped with three friction plates that are adjustable so that wear can be taken up after the mill has been used five years so that the master cog will run as true as when new, which also prevents gearing from breakage. The burrs (which are eighteen inches and have nine lugs to force the feed and make three revolutions to one of sweep) are made of the hardest chilled steel and are adjustable so they can be "turned up" in the mill, insuring perfect grinding and durability, and are independent of framework of the mill and are easily and quickly removed.

It also has a conveyor which delivers the ground feed at one place, enabling the user to take it direct from the mill in a measure. The mill is built on well established principles and the success we have had with it has more than justified our expectations and this mill stands at the top of all triple gear mills.

....CAPACITY....

It will easily grind 20 to 40 bushels of cob meal or shelled corn per hour; 10 to 16 bushels Kaffir corn, wheat, rye, barley, oats and corn on dry grain. We also have a power attachment for this mill that can be used with three horse power and up.

 Much new apparatus of the gym-
