Besides having all the good qualities of other drinks it has certain virtues of its own.

It's more than a mere thirst quencher. Hot soda stimulates without reaction, imparts a delightful sense of warmth and comfort.

It fortifies against fatigue, chills and colds, and is a food as well.

The best drink for winter days—it completely satisfies in every way.

Carroll News.

From the Index.

Lewis Richards has selected Dec. 19th on the date which he will hold his farm sale.

The L. B. Cobb home has experienced some tonsillitis the past week. Mr. Cobb is now the sufferer, his son Elston having just recovered.

Gordon Allensworth is one sufferer from the present money flurry in the money market. He with eight other helpers at station on this line were laid off Tuesday for a short time.

Samuel Jones, of Delbart, Texas, is here visiting with his brothers and sisters, Mathias Jones, W. E. Jones, Mrs. Joe Jones and Mrs. Howell Rees.

Mr and Mrs. Chas. Jones and family returned home after a two months visit, Monday night. The points visited were in Ohio and Iowa. They made a short visit at Platte Center on their way back.

Will Thomas has been suffering this week from an attack of appendicitis. This is not the first time we understand that Will has had an attack of this painful trouble. His condition is much improved.

Those Carroll ladies who are particularly fond of White Wyandotte fry are gaining considerable notoriety of late. It seems that the outside papers are just getting on to it. We have noticed in several the mention of the affair.

Mr. and Mrs. Howard Porter returned home Saturday evening from Sioux City. They were to be present at the operation on their daughter Kittie. They report that Miss Kittie's condition was very favorable after the operation.

Chas. Nairn met with a painful accident Tuesday evening as he was hauling home a load of shelled corn. He was walking beside the wagon when he slipped, thinking he would fall he threw out his hands to break the fall. In doing this his hands struck a broken weed which by his weight was forced into his hand, causing a painful and ugly wound.

At the quarterly conference of the M. E. church held Monday, among the other business transacted was a resolution of commendation and thanks extended to Mr. and Mrs. Chas. Beebe by the church for their faithful and inspiring work while they have been residents of Carroll. No place will these worthy people be missed more than in church circles.

A source of some apprehension is the illness of Mrs. Rev. Carter. She has been sick all this week and the preliminary symptoms are those of smallpox. Mr. Carter went to Bloomfield a couple of weeks ago with a certain party and it was probably in that town that she was exposed to the disease. It is to be hoped that Carroll does not have to undergo the pesky disease. The Carters asked that they be quarantined yesterday so as to prevent the possible spread of the germs.

Hoskins News.

From the Headlight.

Phillip Tuesz is here from Texas visiting his mother. He will visit here about a month.

John Anderson packed his household goods and shipped them to Sioux City Monday where he will make his home this winter.

Our livery barn changed hands Monday. John Weatherholt trading the livery stock to C. A. Bench, he taking possession at once.

Mrs. R. G. Rohke, of Meadow Grove, was called to Hoskins Thursday, on account of the serious illness of her mother, Mrs. Wm. Zutz.

A farewell party was given at the home of Mr. and Mrs. Louis Ziemer in honor of Mrs. Fred J. Ziemer of St. Anthony, Idaho. She leaves for her home Friday.

The Tribune says that in the future it will be useless for a Hoskins republican to ever come up for election in the future. It has been useless ever since the town of Winside has been on the map.

This commissioner district wanted E. H. Carroll but our county capitol willed it otherwise, all because they couldn't use him for to do the bosses biddings. The manner of manipulation by this rig is very familiar to us, and we are much surprised to learn that brother Ecker has fallen into the snare set for him.

At the beautiful home of the bride's parents, Mr. and Mrs. Fred Muehlmeier on Friday, November 8th occurred the marriage of Emil Bronzinski and Agusta Muehlmeier, Rev. Iffert officiating. After the ceremony a sumptuous wedding supper was served. The young couple will move onto Emil's farm of 320 acres 9 miles northeast of Hoskins.

Wes Hughes and mother were mixed up in a runaway accident Tuesday evening as they were on their way to Wayne. Mrs. Hughes was rendered unconscious and it is not known yet how badly she is injured. Wes has his collarbone broken.

Frank Kauf shipped one of his famous Poland China hogs to a man in Shadwick, Mo., Monday. It was an 18th of May pig and weighed 220 pounds. Mr. Kauf has a fine herd of hogs and people are beginning to find it out because he advertises.

We can't see why Winside is not a good location for a dentist. It seems as though there is scarcely a day but someone is going to Sioux City, Wayne, or some other place to get some dental work done. Some dentist is missing a good thing by not locating here.

Workmen are busy putting up a big reservoir for the water works. The ditch gang have finished their job and gone. The engine has been placed in its position and the whole work is progressing nicely. The next thing is a regular organized hose company.

He believed he was not much hurt at first, but later in the evening had a severe fainting spell that required Dr. Leisenring's attendance.

Jake Roush will return to Elmreeck next week to get his horses and other property and make Wayne his home. Mr. Roush says he liked better farming south and raised bigger crops, corn until this season making 75 to 80 bushels per acre. This season he got only 55 bushels per acre owing to the hot winds.

Frank Garrett, the popular and well-informed political prognosticator of the traveling fraternity, made his last trip on the road this week, as he takes the position of secretary with his company, the Harley-Haas drug house of Council Bluffs. Mr. Garrett has been making this territory for sixteen years and will be much missed by the many friends he has made on his rounds.

Henry Yeager and Mrs. Giese, daughter of Mr. and Mrs. Claus Kay, were married last Friday and have gone to the western part of the state, where the groom's parents live, to spend their honeymoon. The bride is a most estimable young woman and the groom, who has been in the employ of Fred Eickhoff, a fine looking young man. Here's to their future happiness and prosperity.

A large number of the DEMOCRAT's readers have shown their appreciation of the efforts we (the whole force) put forth to give them a good local paper, by not only paying up to date but liquidating for from two to five years in advance. Perhaps the DEMOCRAT has made some people a little tired finning this thing into their eyesight for the past month, but there are a good many subscribers whom we couldn't make tired enough—to heed the warning. This is the day we return thanks and our best wishes to those whom we thusly jarred loose.

THE MINERAL PRODUCTION

For Past Year Exceeds the Enormous Sum of One Billion, Nine Hundred Million.

Advice From Some of the Great Financiers.

The exact figures for 1906 are \$1,902,505,206.00 as compared with \$1,623,328,720.00 in 1905—a gain of \$278,576,486.00 or 17.15 per cent.

This enormous gain in the production of mineral for one year demonstrates the enormous profits that are made in the mining industry and corroborates the statement made a few years ago by

CECIL RHODES ON MINING. Cecil Rhodes the mining king of South Africa said: "I speak advisedly and say what every man who has investigated knows to be the truth, that less money is lost proportionately in the mining and in investments in mining stocks than in any business or investment on earth."

A good mining stock will pay the investor 20, 30, 40, 50 and 100 per cent.

The security of a good mining stock is the raw material of money itself. It is what we call in Africa "the stuff." It is the "stuff" at whose feet governments, cities, banks, railroads, mortgages, land corporations and all forms of business kneel.

I speak of only gold and silver mines, from the metal of which blooms and blossoms the everlasting dollar. The crude metal in our gold and silver mines is the first and best security in all the world. This is what makes banks and banking a possibility.

This is what gives legs to a municipality, spine to a government and creates the business into a living, breathing, active creature of life."

A few years ago when the late Jay Gould was making his millions he used the following plan as a basis for his investments, which have since been known as the

JAY GOULD PROVERBS. "When you invest in the stocks of a company, don't look for the best for you will never find it. Look for a good one, then invest and do it quickly.

Don't wait to see if it pans out alright, for there is where you lose your opportunity. When you have waited to see if it pans out, you will have to pay a premium on the stock, and you will have lost the biggest advance in its value.

You must make on your judgment and foresight, and not on nebrastated facts.

Notice To Subscribers.

The subscription rate on the DEMOCRAT in past years has been \$1 per year in advance or \$1.50 per year if paid as delinquent. On and after December 1, 1907, it will be \$1.50 per year in advance. Until December 1st all back subscriptions may be paid at the \$1 rate, and from one to ninety-nine years may be paid in advance at same figure. Now is the time to straighten these little accounts up to your advantage. Positively nothing but the \$1.50 rate goes after December 1, 1907. Stand up for—prosperity.

Christmas Presents.

Every year photos are becoming more popular for Christmas presents, but nearly everybody puts off having them taken until about the last week and then we have more than we can do. In order to induce people to come in early, we will give fifteen pictures for the price of a dozen to everyone who orders before December 15. Remember the days are getting short, so come in early in the day if possible.

No one will question the propriety of the Commoner, W. J. Bryan's paper, taking a fall out of John R. Walsh, the giant-of-finance criminal of Chicago, even if it is done for "educational purposes." In prefacing "The Story of John R. Walsh" the Commoner says: The Commoner has no disposition to gloat over the downfall of any man and it is for educational purposes that it directs attention to "the story of John R. Walsh" as told by the assistant district attorney in Chicago in presenting the case to the jury. It will be remembered that John R. Walsh was president of a national bank in Chicago, he was also at the head of other enterprises and was the owner of the Chicago Chronicle. Mr. Walsh had all along claimed to be a democrat and the Chronicle had posed as a democratic newspaper, but Mr. Walsh and his newspaper were both horrified at the course of the democratic party in 1896 and since then no denunciation was too severe, no gibe too coarse, no story too false for it to be used by the Chicago Chronicle or indulged in by its owner in the effort to defeat the democratic party or to make Mr. Bryan odious in the eyes of good citizens. The Chronicle and John R. Walsh posed in 1896 as "the defenders of the national honor" and now it develops with respect to Walsh—as it developed with respect to others of the 1896 pretenders—that he had no more concern for the national honor than he had for his own.

The farmer who drove to Dixon to take his money out of the bank, for fear it would bust, and found he had over-drawn \$1.75, was in hard luck. He could issue no certificates for the balance. Why in—Texas, doesn't President Roosevelt come to the relief of the honest farmers as well as the gambling bankers? Ever cogitate over that view of the question, you republican editors who have been having so much fun over this fictitious "Dixon farmer?" Upon the success of the farmer rests the solidity of the country. Through the criminal manipulations of the stock gambler the farmer or stockman is put to ruination. The tiller and breeder is allowed to go to rot, while the government, at the expense of the taxpayers of the nation, comes to the relief of the wine-guzzling, automobile-crazed women-chasers of Wall Street. That's the whole situation as seen through our optics.

Bryan's accumulation of age and experience since he first made the race for the presidency will be in his favor next year. While there will be no reason to elect him in 1908, there will not be the reason to fear him that there was in 1896. His views are more settled and conservative and less Quixotic and unsafe.—Beatrice Express.

Editor Gene Huse is just like all the other republican editors—chock full of political misrepresentation and absolute dishonesty. If he would or could show anything in past or present history to base such statement as the above upon, he would be able to enlighten the whole country. The only political proposition to date that he can unravel out of his woolly brain is "16 to 1," and this is a very unfortunate time and place to even breath it.

Overcoat Bargains!

The milk producers of the country would appear to be skimming some cream.

The great paper trust is still being strengthened. So much greater will be the fall.

Beginning Monday next the DEMOCRAT will be \$1.50 per year either before or after.

The Norfolk Press says "the sheriffs of Nebraska are organizing to break up a gang of horse thieves operating in the state." Better hang them up. That is the only real remedy for the offense.

A citizen rises to remark that a mean man comes in pretty handy once in a while. It's a mean person who will set out poison to kill the dogs, but Wayne was greatly benefited thereby this week.

Anyone who lost a pocketbook containing a small amount of money may secure the same by inquiry of James Baker.—Carroll Index.

All right, send me one down, James. I lost one several years ago over in Iowa.

You bet, and as I have previously remarked, it is just what the country needs.

I. W. Fogg, said to be one of the best coal experts in the world, says the coal supply will be exhausted in two generations. Well, it's up to our grandchildren. We may be where the fire will be kept going without any worry on our part about the supply of fuel.

Stranger: "What a beautiful church building this is. You held a social session here last night and served eighty people with lemonade?"

Citizen: "Correct—but how did you know we served eighty people with lemonade?"

Stranger: "I saw four lemon rinds in the alley behind the church."

The order to omit the words "In God We Trust" from the gold coin strikes the Nevada Representative a good deal like the order for reforming the spelling of the English language, as illustrating a certain disposition of the president to regulate everything that is legitimately within his jurisdiction, and a good many things that are not.

Here's a good one from a hitherto staunch republican: "If Roosevelt is not nominated I shall vote for Bryan, for I believe he will, if elected president, ADOPT Roosevelt's policies." It is a peculiar probability, but nevertheless if Bryan is elected president every good thing of his administration would be a scribble to his far-sighted and trust-busting (?) predecessor, Roosevelt, by every tariff-tight republican in the country.

Norfolk Press: The Wayne Democrat speaks of a subscriber who said he was about to move to St. Peter, California and wanted his paper sent there. The paper kept coming back marked "Can't find him." In looking up the matter, the Democrat people found that the man meant "San Pedro."

That's nothing, Brother Goldie—we have been sending a copy of the Press to Bill Dugan right along. Bill was killed in the Dugan-Baily saloon duel a few years ago. He didn't say where we should send it, and it isn't going to Saint Peter, either.

I overheard a business man talking to a young high school boy the other day in a way that ought to do some

good. He was saying: "What are you smoking that pipe for? Don't you know it looks pretty bad to any business man to see a young boy smoking an old pipe and appearing sporty like that? It not only hurts your physical condition, but it puts you to the bad in getting a start in life. Do you suppose a business man looking for some bright boy who is growing up, and who has an eye on that boy to get him into his store or business some day later, will care to take the boy if he is a cigarette or pipe smoker, or if he has some other bad habits? Not on your life. That isn't the kind he is looking for, and you ought to stop it right now before the habit grows on you so you can't stop." Well, sir, the young fellow knocked the fellow who knocked the fire out of his pipe, put it in his pocket and I haven't seen him smoking a pipe since. That lecture may be worth a million dollars to him some day.—Herkree Democrat.

Society Notes.

The Home Mission department of the M. E. church has taken up the laudable work of providing entertainment for the younger members of the church and Sunday school. On Friday evening the College class which is taught by Elmer Lundburg were nicely entertained at the parsonage by a committee of ladies, while the boys and girls in Miss Buffington's and Miss Mason's classes were given a good time at the home of Mrs. Marsteller, the latter being assisted by Mesdames and Bert Brown. Charades and other games were played, the hostesses not forgetting to provide something good to eat.

The Monday club met with Mrs. Main this week when she had on display a large and varied collection of beautiful coral specimens sent to her from Singapore and from which she gave a valuable lesson. Next week the club will meet with Mrs. Epler, who is on the program for "Mollusks and their Bra."

The Sodality of St. Mary's church realized over seventeen dollars at their social at the home of Mr. and Mrs. Moran last Friday, a very large crowd being present. Friday night of this week another will be held at the Baker home in the Goll residence.

"Duster," Miss Freda Ellis' pet dog, that she received off the Christmas tree a year ago, is dead, probably appendicitis as Duster was a very aristocratic doggie. His many friends mourn his untimely death as he was a dog-gone favorite with the young people.

In the spring a young man's fancy lightly turns to thoughts of love and according to "Madam Rumor" several young men will be turning their thoughts rather seriously that way next spring. About the time the winter's Gale is over, the air balmy and light as a feather and the Daisy in bloom ready for a wreath for the Queen of May. Eh Bert.

WESTERN SOLONS SAY CURB WALL STREET

Demand That New Money Legislation Shall Also Hit Stock Gamblers.

STRANGER APPLIES FOR NEW CERTIFICATES

Philadelphia, Nov. 25.—A man who gave his name as F. M. Ball and his address as 910 Chestnut street, this city, made application to the state treasurer today for \$5,000,000 of the new government 2 per cent. certificates. He made application for the writing and left sub-tending without further disclosing his identity.

The New York Life Insurance company has an office at the address given and it was learned that it had been given permission to have his mail sent to that office. It was admitted he was known to the office force, but it was not known whether he is connected with the insurance company or is acting as the agent for the company for the certificates is refused.

Washington, Nov. 25.—Members of the house and senate from the western states who have arrived in Washington today are making it their business to demand that new currency legislation unless some action be taken at the same time to curtail the use of government funds for stock gambling operations.

These men say there never could have been any money stringency in the face of extraordinary prosperity in every legitimate line of trade in the west if the government had not been spending money for stock gambling operations.

Many of them are unable to understand how two such contradictory conditions can exist at the same time. What they do know is that the west has had vast sums deposited in New York while the western banks today are in a state of virtual paralysis which they have accumulated millions upon millions.

It is a significant coincidence that four or five senators and a dozen or two representatives who have come to Washington within the last few days have been privately looking to ward some kind of government regulation of trading in margins.

One senator who introduced a measure which he expects to introduce providing for a tax of 10 per cent. on all trades in which one party is buying and the other is selling on a margin put up by another person, who does not expect nor want the property actually delivered to him.

Wage Reduction; Bloody Fight.

Joliet, Ill., Nov. 25.—A riot occurred today as the result of a strike following an attempt at wage reduction among the stone quarriers. The strikers and the men wishing to take their places clashed in a riot which resulted in several deaths.

Revolvers were used, but most of the shots were fired in the air to intimidate. A number of men were injured, but no serious injuries resulted. Police and deputy sheriffs are patrolling the district.

National Bank Closes.

Globe, Ariz., Nov. 25.—The First National bank, with deposits of \$550,000 was dropped from the clearing house association last night and will not be clearing in the city. A national bank examiner is in charge.

Pay of 10,000 Is Cut.

New York, Nov. 25.—A thousand men employed on the Pacific coast extension of the Chicago, Milwaukee and St. Paul, it was learned here today, have already had their wages reduced 25 cents a day and have been notified of a further reduction of 25 cents a day on December 1. The reduction is the direct result of the laying off of men by the western roads, mining companies and other industrial concerns.

Certificate Allotment Begin.

An allotment is made by Secretary Cortelyou that allotments have begun of the new one-year treasury certificates for which subscriptions were made in the closing of congress. Mr. Salzer's measure will provide for the issuance of emergency currency by the treasury in case of a shortage. The bill also provides. He has shown it to Roosevelt.

Defeat Bankers Men Indicted.

New York, Nov. 25.—The county grand jury, investigating the recent management of the suspended Borough of Brooklyn, returned indictments charging bribery and other offenses against ex-President Howard Maxwell, Arthur D. Campbell, deceased cashier, and other persons.

Chicago Banks Subsidize.

Chicago, Nov. 25.—Eight Chicago banks have arranged conditionally for subscription for two and a half million dollars of the new 3 per cent. treasury certificates.

TO PHOTOGRAPH ALL DRUNKARDS.

Denver, Nov. 25.—Confirmed drunkards will be photographed at regular intervals as they appear in the morning streets and presented to the police in plans being formulated to bring them to the attention of the courts. The idea is to bring this vividly portraying to the public the extent of the how far they have sunk into the gutter, with a view to bringing about a reformation.

Jefferson City Mo., Nov. 25.—The result of the application of the 2-cent rate on the Missouri, in the United States supreme court for a writ of habeas corpus, wherein he hopes to escape the \$100 fine for contempt imposed by Judge Lochan, of the federal court, will be directly upon the railroad situation in Missouri and other states that have recently enacted the 2-cent rate.

The United States supreme court has granted an injunction against an attorney general or other state official to prevent the enforcement of the railroad law, but it is not clear that the situation will be opened in Missouri, where Attorney General Hadley has served a writ of habeas corpus in the state supreme court. He established himself in business in New York City, and was so prosperous that he could afford to send his wife and three children to the United States in the four years. The husband never suspected her, and when he was informed by a cablegram from friends that she had sold the farm for \$20,000, he was shocked to find his wife with the farm hand.

Jerome Helms, immediately he began a search for his wife. District Attorney Foreman took a personal interest in the foreign case, and a number of detectives were employed in looking for the wife. She was found in Philadelphia. She is informed Deputies Harry Booth and Thomas McCarty.

But Alster had found her third "husband" in the meantime in the person of Wargwaten Koovya, who she says she married in Philadelphia. Three weeks ago, after she had been converted to the Roman Catholic faith, every one concerned in the alleged triple marriage was notified to appear before Magistrate Hughes except the mysterious farm hand and the two children who were left with friends in Austria.

It is proclaimed to be the intention of the prohibitionists to raise the question of prohibiting the sale of liquor in the District of Columbia, and that a law to this effect will be adopted.

It is predicted by persons who have watched the trend of affairs that should a long debate on the Hepburn-Dolliver bill be brought on, the prohibitionists will take advantage of the opportunity to raise the question of prohibiting the sale of liquor in the District of Columbia, and that a law to this effect will be adopted.

ALFONSO OBEYS HIS QUEEN LIKE A SLAVE

Minds as Naughty Boy Does
Mother, to Amusement of
British Court.

London, Special: King Alfonso is still his young wife's devoted slave. She leads him where she will by a silken thread, which, however, sometimes becomes visible to her royal relations.

He obeys her orders as a good husband should. So, being certain of him, she has many times ordered him to do what she thought her royal relations would not object to.

That meat consumption per capita has declined in this country since 1840 is plainly indicated by statistics showing that the weight of the dressed weight of edible parts of meat, exclusive of fat, is 158,300,000 pounds of net weight, as compared with 183,000,000 pounds of net weight in 1840.

The Spanish king is a fine sporting shot, but the prince of Wales, the second best shot in England, was bringing down more birds than Alfonso, never missing one. Alfonso declared that his Queen Victoria sent a peacock and throwing off the coat, flung it from him. Then King Edward laughed loudly and accurately that soon he had as many birds as the prince of Wales.

Alfonso was as happy as a boy with a new gun. But, unfortunately for him, his wife, with Queen Alexandra and Queen Mary, had a party, and Alfonso, watching the battle from a little distance, seeing her husband without a coat, Queen Victoria sent a peacock and throwing off the coat, flung it from him. Then King Edward laughed loudly and accurately that soon he had as many birds as the prince of Wales.

Henry Yeager and his bride, for-
 merly Miss Kay, left Monday evening
 for Albion, Neb., where they will
 visit

Tom Prince and J. C. Ecker of
 Winside were in Omaha Tuesday siz-
 ing up the panic as regards cattle and
 insurance

D. E. Newton is now in the flour
 and feed business at Corona, Cal. as
 we notice by his letter paper, enclos-
 ing a couple years subscription.

Everyone donating articles for the
 bazaar is requested to bring them in
 at once. Mrs. Emma Durria, Secretary.

C. E. Sprague says the "panic" has
 knocked him out of a lot of Stand-
 ard Oil business, the idleness of the
 elevators making oil an unnecessary
 expenditure.

Winside is just completing a system
 of water-works and the streets are
 considerable torn up thereby. But
 that doesn't worry the Winsiders as
 much as the price of hogs.

Chris Nelson, "Nin" Owens, Fred
 Ellis and Columbus Danielson saw the
 Wasem-Carroll wrestling match at
 Norfolk Monday night. Wasem won
 the bout in two straight falls.

Messrs McEachen, Perry and W. H.
 Gildersleeve sent a train load of stock
 to Chicago the past week. Homer
 Seace accompanied the cattle and will
 spend Thanksgiving at Warren, Ill.

A traveling man for a Sioux City
 piano house accumulated an awful jag
 last Saturday and was run in by Mar-
 shal Miner. He had no coin to pay his
 fine and so was turned adrift in-
 stanter.

George Pfeifer of Plainview has been
 in Pierce a good deal this week. Mr.
 Pfeifer is the gentleman who is going
 to start a saloon in Foster, and it looks
 as though he was going to be success-
 ful.—Pierce Leader.

Miss Kittle Porter, accompanied by
 her father, returned home to Carroll
 from Sioux City Monday evening.
 Miss Porter has been in the hospital
 for an operation for appendicitis, but
 is recovering rapidly.

Mort Shinn, son of our old friend
 Andy Shinn, was in Winside over Sun-
 day. He informed the DEMOCRAT
 that his father was in rather poor
 health, being troubled with rheuma-
 tism. Mort is engineer on a train out
 of Sioux City.

E. A. Surber came up from Missouri
 last Thursday and will spend a week
 or two visiting his brothers. He tried
 to get permission from the authorities
 at Lincoln to take his son Roy home
 with him, but failed to secure such a
 conditional parole.

Hank Suhr got a mammoth gasoline
 engine last Saturday from Neely &
 Craven, and will turn out the corn and
 cobs faster than ever. Last week he
 shelled new corn for Chas. Welch and
 Henry Kragger, and although tough
 did a good democratic job at it.

J. H. Beach of Carroll was in Wayne
 last Saturday and renewed his al-
 legiance to the DEMOCRAT because "it
 gets all the news," although Mr.
 Beach does not like its attitude on
 some other questions. Mr. Beach said
 he expected to move to St. Paul, Neb.,
 in the spring.

G. A. Mittelstadt of Winside was
 an early Wayne caller Tuesday, and
 called to get this family comfort sent

him. By the way, the DEMOCRAT
 has put on a grand, big list of new
 names the past month and must come
 nearly reaching all the good folks
 in Wayne county nowadays.

Wesley C. Hughes, who lives west
 of town, was driving to Wayne accom-
 panied by his mother, last Thursday,
 when the team ran away. The old lady
 was severely bruised up, but Wes
 suffered the more serious injury, hav-
 ing his collar bone splintered up. Dr.
 Naffziger took him to the hospital at
 Sioux City Friday where he was pro-
 perly attended to.

College Notes.

Mr. August Nordgren of Newman
 Grove enrolled Monday and will be in
 school the remainder of the year. He
 has joined the Professional class.

Mr. Walter Hendrickson, who was
 a student here last year, entered this
 week. He will remain in school until
 he completes the Commercial Course.

The following new students enrolled
 the first of this week: Messrs. Nelson
 and Mr. Johnson of Dixon, Messrs
 Elder of Wayne, and Folke of Stan-
 ton.

The students of the music depart-
 ment will give a music recital in the
 Chapel next Monday evening under
 the direction of Miss Hewins. The
 program will begin promptly at 7:30.

Several former students have visit-
 ed the College during the past week.
 Among those of the Hill were. Miss-
 es Wolverson and Denney of Pilger,
 and Edie Brugger of Westington, S.
 D.

The entertainment given in the
 Chapel Monday evening by the mem-
 bers of the Girls' Athletic Club was
 a success in every way. All the parts
 were taken by young ladies, and all
 acquitted themselves creditably.

A very pleasant social was held in
 the gymnasium Saturday evening
 after the literary exercises. The of-
 ficers of the literary societies had
 charge of the arrangements and all
 present thoroughly enjoyed them-
 selves.

Several persons who wished to visit
 the Chapel exercises evidently were
 not aware that the hour for chapel
 has been changed and thus have be-
 late Chapel now begins at 8:40
 promptly instead of 8:50. Visitors are
 welcome at all times to the exer-
 cises.

 had come to an end.

Death of C. O. Fisher.

Death came to end the suffering of Charles Orlando Fisher last Sunday evening. There had been no hope for any betterment in his condition during the past several months, and since suffering a stroke of paralysis a couple of weeks ago it was only a question of days as to when the end would come for his life in this world. The funeral services were held Wednesday afternoon from the M. E. church under the auspices of the Masonic order, Rev. Sharpe delivering the funeral sermon, and all older citizens generally attending. Deceased was sixty-five years of age and leaves a widow and one son, Harry, to mourn his departure. "C. O." as he was generally called, commanded a large place in the business and social welfare of Wayne and was a man of the best habits, honest, charitable and most highly esteemed. Seventeen years ago he was county treasurer of Wayne county and had always been identified with every conservative measure for the public good. Bad health has taken him out of the active pursuits of life for the past two or three years.

Married.

The marriage of Miss Mabel Sears, daughter of Mrs W L Sears, and Mr. Amos B. Rightmire was solemnized at the bride's home in Wayne yesterday afternoon, Rev. Parker Smith officiating. Mr. and Mrs. Rightmire, will visit here until Monday, when they go to Graf, Neb., where he is agent for the Edwards & Bradford lumber company. The bride is a Wayne county girl of fine literary and social attainments and a splendid mate for a most deserving young man, Mr. Rightmire being well known here as he attended and graduated with highest honors from the N. N. C.

Miss Virginia Cunningham.

The sudden demise of Miss Virginia Cunningham, daughter of Mr and Mrs David Cunningham, Wednesday morning, was a terrible shock to her family and friends. Although seriously ill it was even thought Tuesday evening that she was at least not growing any worse, and the doctors had held out hope for her recovery. The funeral services will be held Friday afternoon at two o'clock in the Presbyterian church. The casket will be open at the home from one until one-thirty.

Deceased has lived in Wayne county since 1883, having been born in Juniata county, Pa., in 1879. She united with the Presbyterian church in 1896 and was an active worker in the Sunday school and in the Christian Endeavor society. Beloved by fond relatives and many friends she has lived a commendable life and surely gone to a good reward. The sympathy of all Wayne people is with the parents, sisters and brothers in their greatest of sorrows.

S. H. Alexander left yesterday for Denver where his family now resides. The head office of the King Solomon Co. will shortly be removed from Madison, Wis. to Denver.

He has Hanson is looking for his son, Gene to arrive home today from Canada. Crops were poor up there the past season and Gene will remain in Wayne for some time.

District court opens Dec. 9th with Judge Welch on the bench, the first week being devoted to equity cases. The 16th the jury will be called. There are several saloon cases, taken up from the council court held last spring, but whether they will be all tried or not the attorneys do not appear to know. The principal criminal case is state vs. Larson. There are a total of fifty three cases on the docket, but nothing that will likely absorb a great deal of time.

Clerk of the Courts B. F. Feather and wife are spending the day at Randolph.

I. O. Woolstin came down from Magnet this morning.

Banker Wallie Tucker of Winside brought down a fine turkey this morning to carve at the parental home.

Mr and Mrs. F. A. Berry are giving thanks with Mr and Mrs. Tom Berry at South Sioux City.

About fifty of the young people of Mrs. Smith's Sunday school class were royally entertained at the Baptist parsonage, last Friday evening, the 22. The rooms in which the guests were assembled were beautifully decorated in pink and blue, these being the class colors. Games were introduced immediately in which all took part, thus becoming acquainted and affording much merriment. The games were followed by an excellent program rendered by members of the class, each number of which was heartily applauded. Following the program came an elegant three-course supper served by waiters in pink and blue caps and aprons.

About half past eleven the guests departed for their respective homes, one and all feeling that they had spent an evening long to be remembered.

Harry Armstrong is up from Sioux City to enjoy a "square meal" at the parental board.

Mr. and Mrs. Byron Hoile are here from Laurel to enjoy their first family Thanksgiving.

Ed. Lundburg was a last evening's arrival from the east.

Mr. and Mrs. Frank Hitchcock came up from Omaha last night and today with his parents, are giving thanks at the home of Mr. and Mrs. Art Chapin in Winside. Frank has not been back since he left Wayne several years ago. He looks like an "automobile

builder," big as a million dollars. He says Bert Cook is still in Omaha, also the old man. Titworth, the old tenor obligato, is now a pullman conductor, making runs from Omaha to the coast, and Frank says he looks like ten million dollars in his brass-button uniform."

Frank Baker, who returned yesterday from Petersburg, saw Chan Norton out there and says he was hot on the trail of the horses stolen from him some time ago. There appears to be no doubt where these stolen animals are taken, but the DEMOCRAT is told that the parties who go after them will have been armed to the teeth as the thieves are well protected out in their hiding place.

Maynard the Winner.

The wrestling match between Columbus Danielson and Maynard, at the opera house last night, was short and fierce. Maynard got the first fall in six minutes and the second a fraction less. The local man didn't appear to be in a good condition as previously and the visitor made a vicious effort to put him out early in the game. The second time down Danielson hit the floor hard and it knocked the wind and consciousness clean out of him. The attendants began to move around uneasily and for a few seconds there was considerable alarm over him, but a little water brought him up ready for more. Referee Ellis then deciding he was down and out. No mat was used and it is reported Danielson struck his head on the floor, and therefore it might not have been a legitimate fall. Maynard is a busier looking man on the mat than Wasler according to the sporting editor of the DEMOCRAT.

Postponed the Meetings.

The missionary meetings advertised to be held tomorrow at the home of Dr. Leisenring have been indefinitely postponed owing to the funeral of Miss Cunningham.

Good farming, based on sound principles of science and practice, was never more important or profitable than now. The Homestead, an agricultural and live-stock paper published every Thursday at Des Moines, Iowa, is the best exponent of good farming. The Homestead is edited by farmers who live upon and operate their own farms right here in the middle West, so that their teachings are thoroughly practical. It has departments devoted to horticultural, poultry, sheep, dairy, veterinary, laws affecting farmers, current events, house and home, Sunday school lessons, editorial comment, live farm gossip, etc.; and its contributors include able and successful farmers and experiment station experts throughout the West. Many farmers in this vicinity are already subscribers for The Homestead and all should be; as whatever adds to the practical knowledge of the farmer increases the value of land and enhances the prosperity of the community. We take subscriptions for this splendid farm paper at this office; and, by special arrangement with the publisher, can give you a low subscription rate for it in connection with The Democrat.

"For a republican" the editor of the Norfolk Press can come as near sizing up things political as any of them. Here are a couple of paragraphs from his able penitentials:
The biggest danger to the currency

of the country is a hasty job of tinkering by congress by congress this winter. The trouble right now is, more than anything else, that the men who manage banks and trust companies are too much interested in stock speculation, which is only another term for gambling.

As a matter of fact, there is more doubt today as to who will be republican candidate for president than there was six months ago. The time intervening between now and the date for holding the national convention is liable to be fraught with many things, and no man can today name the issues on which the national campaign will be fought. The hour will develop the man.

Better look out a little; the Courier-Journal says if Theodore Roosevelt is nominated for the presidency next year by 1909 he will be: "as dead and universally forgotten as simplified spelling."—Bixby in State Journal.

Yes, and if the Courier-Journal had made it "Bryan" instead of "Roosevelt" such peevish mentalities as yours would glow over it as gospel truth.

Columbus Danielson, wife and child went to Norfolk this morning.

Mr. and Mrs. Harvey Mason return to Omaha this evening, having spent Thanksgiving with his parents.

Arthur Tucker spent the day with his folks here.

Nebraska Echoes

One Thurston county man was satisfied this year by voting only for the prohibition candidate for supreme judge and a saloon man who was a candidate for sheriff.

The enforcement of the national and state pure food laws may be bringing about "reform" in many things but the same old backwater four dope is with us yet.

Edison has a female pugilist, by name Mrs. C. E. Ronne, who has challenged any pug in the country for a fight to the finish. She is called the "Nebraska Pearl," has had her picture published in the Saturday Blade and—must see.

One wonders why the men down at Pilger kick because the women get up in the morning and go walking. They don't have to beat the fires.

Dakota county has beaten out all her neighbors in the average yield of corn. The little county in the corner with her thousands of acres of rich bottom land is a sure competitor of the Garden of Eden.

Next time believe the Mirror and not the dirty god bug liars—Col. Moses M. Warner in the Lyons Mirror. It's hardly fair is it, Mose, to call them "dirty" when so many of them have been "cleaned up" considerably in the last few weeks?

On the train Saturday night, Several "gathered together" and after the election returns had been analyzed and commented upon, the conversation naturally turned to the next important question—the schoolmaster's limerick epidemic. "Well," remarked a Cedar county man, "I guess Hartington is safe. I've racked my brain considerably and I'll be (act of restraining the flow of water by an obstruction) if I or anybody else can limerick Hartington." What? Easy! No trouble at all.

A pretty schoolma'am at 'artington To a pupil one night said: "In parting, son, Give me a kiss, and I'll be sure to kiss you." For 't's something I miss Such sweets are so scarce in Hartington."

To show that politics "cuts no ice" in county elections one need only look at the Third congressional district. Rees, republican for supreme judge, carried the district by a plurality of 2700, fourteen of the eighty-seven counties, yet the democrats elected 75 county officials out of the 162 in the district, six less than half. Platte county was the only one to elect a straight ticket, all democrats.

St Tompkins of Tarbox Hollow writes: "My gal Sophia sees I'm a grater civilized spell than Rosyvelt. I reckon I am. Hows this? Ozombol."

The bunch of Sioux Indians who have been on exhibition of the Jamestown exposition this summer, returned home a few days ago. Concerning the "outing" they have had, Chief Hollow Horn says: "Great show and heaps of fun. Paleface at Jim town not see Indian since John Smith loved squaw there three hundred winters ago. This makes it good for Indian. Paleface at Jim town a good. He give plenty money to see Indian dance. He like Indian much and Indian like Jimtown better than run around on reservation. Show business good for Indian. Be get plenty to eat, ride in painted cars and see much. We not glad to get home. Rather stay in Jimtown but show busts' up."
