NEW SCHOOL HOUSE

School Board and Commercial Club Confer and will Call a Special Election.

The school board and directors of the commercial club held an interesting meeting at the First National bank rooms Tuesday night to jointly discuss the proposition of calling a special town election for the purpose of voting \$40,000 worth of school bonds to erect a new high school building. As it takes two or three months to advertise the election, bonds and contract it was deemed advisable to at once go to work on the undertaking and put it up to the voters as soon as possible. The purpose of the school board would be to erect the building on the present site of the old one and probably do away with the ward school, although that is a matter for later consideration. School officials say the need of a new, commodious and modern building are now imperative and that the matter must of a necessity soon be taken up. It is hardly probable that if pushed as fast as possible that the new building could be completed time for the September opening next fall, but by proper procedure it would not be much later than that date. It was suggested that the election could be held in a conjunction with the city election in May, but the consensus of opinion was that not enough interest would be taken in the matter unless it be called at a special time. The DEMOCRAT understands it is the purpose of the board to call for a special election without further ado. This school district is now out of debt and in good financial condition.

No Drug, This Market.

Washington, D. C., Feb. 10, 1908.
Friend Goldie:—I hand you a dollar, which may pay up to your advance price of \$1.50 per year, if it does or does not; let it go at that and I will try and think of the extra sum when I remit again, and if its too long doing, call me down, and let me know, as I have no idea as to how far back I am, but however, so far that I can never catch up, I hope.
The weather, a fruitful source of conversation and correspondence, has been unusually cold here for the past week, the mercury often touching the zero mark, but generally 10 to 12 above, but they think that cold here, and with this dampness it feels cold.
Politically there is not much here that you do not get in the papers, but the pot is boiling and will continue to do so until the nominations are made, and then over it will go until the election. You can guess as well as the rest as to the nominees of both parties, and there is nothing here that gives us any advantage in this guessing contest. I think tho' that the Democratic nominee is reasonably certain, but the other side is up in the air to a large extent.
If I don't stop I'll make a letter of this, which of course you do not want, as such material is usually a drug in the market, and I started to send the \$1, and nothing else, which you may conclude I have done.
Yours very truly,
FRANK FULMER.

Stout Quits the Ring

Wayne, Neb., 2-10-1908.
Editor Democrat:—I see in last week's Democrat that Chas. Stout, Ex-Champion Boozefighter had been in Wayne the past week on a visit. Now, I would like to announce through the

columns of the Democrat that Charles Stout has gone out of the booze-fighting business. He has fully made up his mind that there is a more profitable business laid up in store for him. He has been in the booze-fighting business for 25 years, during that time he has fought many hard battles and never won one while he was in the ring. In one of those battles with Old John Barley Corn for three weeks and was finally compelled to throw up the sponge and leave old John in the ring. He has also seen the ups and downs (mostly downs) of course. Now Charlie does not intend to go out on the road as temperance lecturer, nor does he intend to dictate to others, that are addicted to the habit of using strong drink, what they shall do, but does intend to quit the internal use of it himself. If anyone, no matter who, wants any information from him in regard to the profit and loss in the business, it is free gratis. I hope that all of my old associates and all others that wish to keep your eyes on me and note the difference between Stout, the boozefighter, and Stout, the sober man. I do not want anyone to think that I have had a pipe dream or a revelation, for it is nothing of the kind, all I ask of anyone that knows me, is just to not throw any temptation in my way. I expect to be in Wayne in a short time and test the water there, for I have never tasted water in Wayne to my knowledge. Perhaps, I have said enough for the present, I will say some more later on. Respectfully,
CHAS. W. STOUT.

Several in the neighborhood have had a touch of the grip, among them being Mrs. J. Hofeldt and children and Lizzie and William Nissen.
The box social which was held at the Bush Union school was a success, a very large crowd being present. The proceeds amounting to \$21.15, which will be used for either an organ or book-case.
A very pleasing surprise was had at the home of Mr. V. Silkett Thursday evening, in honor of their son Herbert, it being his sixteenth birthday. Refreshments were served and all departed for home at a late hour declaring they had all had a very pleasant time.

"The Cow-Puncher" a four-act drama of the West, by Hal Reid, will appear at the opera house Friday evening, February 14th. It is under the direction of W. E. Mann, and contains many new features. The conductor looked at the boy and remarked: "He's got on long pants and will have to pay 5 cents."
"Very well," the lady replied, "5 cents for the boy, and 3 cents for me."
There was great excitement.
A traveling man in Wayne yesterday who talked as though he knew what he was discussing said there was no question as to what Gov. Sheldon would do with the Wayne councilmen when he was informed of the circumstances upon which the governor is asked to oust them. So absurd does the proposition appear to outside parties that there is considerable conjecture as to why such high-handed proceedings should be instituted. In speaking of this phase of the case the aforesaid traveling man told the DEMOCRAT that Elmer E. Thomas had told a certain party (rather a hazy matter, this) that nobody need think he would quit coming to Wayne so long as that twenty-two hundred dollars lasted. By dad, if that is the case here's hoping that Elmer gets all of it. Somehow that name sounds good for the job.

Are Your Feet Dry?

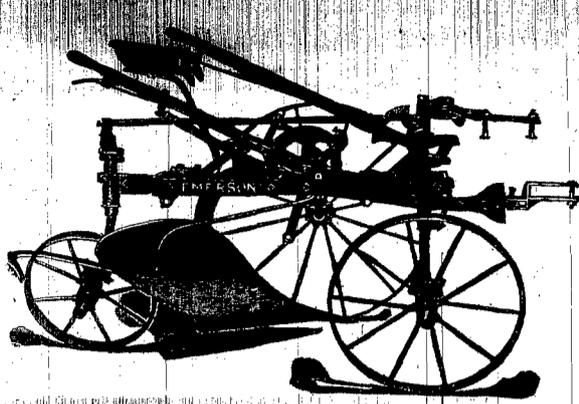

Wet feet means a bad cold, which may turn into rheumatism or pneumonia, and therefore might mean a funeral. Any rubber boot will keep your feet dry for a while—but how long? The genuine SNAG PROOF rubber boot will keep your feet dry twice as long as any other rubber boot made.
Men who have never worn the SNAG PROOF rubber boot can't understand why they are better than any other kind.
If you will call on us we will be glad to explain to you why the SNAG PROOF is better than any other rubber boot made, and why they will outlast two pair of any other make.
Other merchants will tell you they have rubber boots just as good, but please bear in mind that the just as good kind is the kind that is not as good, it is with the SNAG PROOF rubber boot, as it is with STETSON HATS or STALEY UNDERWEAR, there is no other just as good, they are the best.
There is only one genuine SNAG PROOF pure gum rubber boot made, and this store is the only store in Wayne where you can buy them.

The World's Best

FROM OVER THE SEA.

By HARVEY MONROE.

Tommaso Alberti was one of the good boys of the Italian colony. Three years had passed since he left his native town of Anagni, which climbs boldly skyward on the rock like a giant's foot.

Copyrighted by W. H. HEARST, 1902.

"Then you do not think it very desirable of me, talking to you without an introduction?" "Not I. Why should I? It would be impossible to look upon any one as a friend in whose delightful company I feel such pleasure."

that before. He would have been up, believing that she was going to be happy, but how could he remain silent and see the girl he loved better than his own quarry...

"I do hope, Mr. Somers, my niece has not shocked you, for I'm sure I do not know what to do sometimes, she seems to have no other idea of life than that of Gilbert's."

THE MARATHON MYSTERY. A STORY OF MANHATTAN.

BY BURTON E. STEVENSON.

He took down a little dark lantern, lighted it, tested it, and put it in his pocket. "Now I'm ready. Have we far to go?" "Oh, no; just across the street."

He Had a Pointer. A party of colliers were one day at work in the mine when some coal happened to fall, killing one poor fellow.

No Fighting Expected. From the San Antonio Express. "There is a young private in the west I heard of in the other day—who is logical enough," said Professor J. L. Leary, of the Pittsburg Peace society.

The Irishman's Retort. An Irishman once went into a barber shop to get shaved. After he was seated and the barber about half shaved, the Irishman said to the barber:

That is What Proves True Merit. Doan's Kidney Pills bring the quickest relief from backache and kidney troubles. Is that relief lasting?

More Discretion Than Valor. From the Boston Herald. Fire Commissioner Lantry, of New York, in explaining to a reporter his plans for establishing a firemen's "roll of honor,"

Hog Cholera. The greatest drawback to the hog industry which impedes in this country has to contend with what is known as "hog cholera" and "swine plague."

A Scotch Knock. A Bostonian bought an estate in Scotland without having seen it. Last summer he went over to have a look at the place.

HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Her letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she has gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases. Mrs. Norman R. Barndt, of Allentown, Pa., writes:

"Ever since I was sixteen years of age I had suffered from an organic derangement and female weakness; in consequence I had dreadful headaches and was extremely nervous. My physician said I must go through an operation to get well. A friend told me about Lydia E. Pinkham's Vegetable Compound and I took it and wrote you for advice, following your directions carefully, and thank you for it. I am today a well woman and I am talking all my friends of my experience."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

Did It Matter?

Frederick Sandys, described by himself as the greatest English draughtsman, was once asked before he was to sketch a picture of a man, the mayor of a town, a most estimable citizen. The spokesman of the delegation said that the committee was anxious to get a good portrait, but of seeing the artist's face grow long, added that they only wanted a half length. "Oh, of course," said the artist, "I will sketch the man most urbanely. Which half would you prefer, gentlemen?"

Wouldn't You Like to Try Nature's Mild, Laxative, Gardol Tea?

Standing of Baptists.

A certain preacher was conducting a revival. "All who belong to the army of the Lord," he said, "stand up." One woman arose in the back of the room. "What church do you belong to?" he asked. "The Baptist," she replied. "You don't belong to the army of the Lord," the preacher said, "you belong to the navy."

Why He Didn't Paid.

A couple of men were drinking in a club smoking room about a friend and his motor. "He seems to be very well satisfied with it," remarked a copper in the room. "He paid a dime for it," said the other. "I heard the same story from the fellow whose dog ate the repairs."

GREGORY'S SEEDS

THE KIND YOU WANT TO GROW. J. J. H. Gregory & Son, MANHATTAN, N. Y.

Philanthropist and the Maid.

From the Dundee Advertiser.

The old gentleman held very strong views as to the use of indecorous charity. He met a little girl in the street, crying bitterly. "What is it, my child? Have you split the milk, or what?" The child looked up and said: "No, sir; my mother gave me sixpence to get some bread and tea, and I— I've been and lost it." "Dear me, how awfully awfully!" Don't cry, my child; that won't bring the sixpence back again. Besides I've got a mutton here to which you are welcome. And the philanthropist passed on in his way.

Wine Aged by Electricity.

From the Philadelphia Bulletin.

The wine merchant turned a switch and a strong electric current shot through the cork of a wine bottle. "What is this autumny wine," he said, "and it is sweet, harsh, rough, in a word, a nasty new wine. Well, in a few days it will be smooth and fragrant, and in a few days it will be eight years old."

Went Short on Clothes.

From the Telegraph.

"Your husband will be all right, now," said an English doctor to a woman whose husband was dangerously ill.

What do you mean?

"What do you mean?" demanded the doctor. "You told me he couldn't live a fortnight."

Millions in Oats and Barley.

Nothing will pay you better for 1908 than to sow a plenty of big yielding oats and barley with oats at 40c to 50c a bu. (Salzer's new Emperor William Oats averaged 60 bu. per acre more than any other variety in 1907) would pay immensely. Write Salzer's Silver King Barley, which proved itself the biggest yielder at the Wisconsin Agricultural Station during 1907 if you have plenty of acres would have given you in 1907 just \$8,000.00 on 50 acres. It is an enormous yielder.

The Doctor's Mistake.

From Tilt-Hits.

Thousands Haze Kidney Trouble and Never Suspect it.

Prevalence of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost entirely unrecognized by patient and physicians, who content themselves with doctoring the effects, while the origin and disease undermines the system.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidney liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both free.

Mr. Bryan's Opinions.

The plan of guaranteed bank deposits has probably found favor, among all classes of people and irrespective of political affiliation, more rapidly than any other public question.
The new state of Oklahoma has already enacted a law taxing state banks, the fund thus accumulated to be used in paying the depositors of any state bank that from any cause becomes unable to meet its obligations. A special session of the Kansas legislature has been called for the purpose of enacting legislation similar to the Oklahoma plan. The governor of Nebraska is considering the advisability of calling a special session of the legislature on account of the growing belief among the people that protection to bank depositors in the form of state or federal guarantees of their deposits will stop the hoarding of money, bring into circulation sufficient currency to conduct the business of the country, and prevent a recurrence of such disastrous panics as the one through which we are now passing.
Mr. Bryan has been an advocate of a law guaranteeing deposits in state and national banks since 1903. The legislature of Ohio has adopted a joint resolution inviting Mr. Bryan to address its members, in a joint session February 18, 1908, on the subject of Guaranteed Bank Deposits.
Mr. Bryan, in discussing the tariff question, insists that residents of the United States should be permitted to buy home-made goods at home at as low a price as the foreigner can buy American-made goods abroad. He also insists that our government should be by and for the people as a whole, rather than by and for the trusts, and administered in the interests of a few beneficiaries of the trust system. He believes that national legislation for the purpose of better regulation and control of interstate commerce and common carriers should supplement state legislation, and not be a substitute for state legislation.
Mr. Bryan's paper, The Commoner, reflects his opinions each week on questions of public importance and in its columns may also be found his magazine articles, public speeches, addresses and lectures, which are referred to in the daily press from day to day.
If you are interested in political questions, if you desire to keep in touch with the progress of the campaign and to read Mr. Bryan's campaign speeches send sixty cents to The Commoner, and the paper will be sent to you each week until the close of the next presidential campaign.
Postoffice money order, currency, or stamps will be accepted. Only sixty cents Address, The Commoner, Lincoln, Neb.

Although the young hostess was greatly surprised it did not prevent them from having a grand time, looking over the presents, playing games, eating supper and finishing up with an impromptu dance.

Mr. and Mrs. Dan Harrington were at home to a number of their friends at delightful a whist party on Monday evening. The Misses Cunningham and Mellor and Paul Harrington gave piano selections during the evening. The ladies prize was won by Miss Cunningham and the gentlemen's by Dr. Williams. Very nice refreshments were served by the hostess assisted by Miss Snyder, the whole evening proving a very enjoyable one.

The card and dancing party given last evening by Charlie Craven and Miss Craven at the photograph parlors, was "perfectly lovely" in every particular. The front parlor was arrayed as reception with tables for cards and the other large room for dancing, the floors were fine and the music furnished by Otto Voget and Pauline, just heavenly. The old fashioned quadrilles were indulged in, Dan Harrington and Charlie Craven calling off. At twelve o'clock the guests were served by the host and hostess, Mr. and Mrs. Harry Craven, to delicious refreshments, partners being found by matching dissected valentines. About ten couples participated in this most enjoyable affair.

The "Old fashioned country party" given by the Misses Bressler last Thursday evening, was the most unique and jolliest affair of the year according to report. The girls were costumed in gowns of their mother or grandmothers' time, some wore high-backed combs, others circular combs with the hair combed straight back, Basques, overskirts, reticules, paniers, crinoline, were all in evidence, while most of them wore "bunnets" of some description, and big gold bands on the first finger which showed to advantage, as they worked at their knittin' or tatin'. Supper was served at the dining room table, which was loaded down with stewed chicken, cold meats, covered dishes of vegetables, and all kinds of jams, jellies, preserves and pickles, cake and pie. The dishes were those used by Mr. and Mrs. Bressler when they first went to housekeeping, and had the old fashioned little legs. The plates were around the table up-side down on colored napkins. The castor, spoon-holder, etc., graced the centre of the table, the cake was on high glass dishes and everything was "passed." The conversation was such expressions as "Mis' Harker, I'll thank you for some more of that apple sass." "Let me het up your tea." "We 'lowed to have salt rising bread, but we forgot to set the emptyings." After supper the tin-types and daguerreotypes and the family album being duly examined and admired "spin the platter" and such games were indulged in.

At the present time there is considerable question whether Winside will have a saloon or go dry during the coming year. Why not submit the question to the voters at the spring election and let the incoming Board act according to the wishes of the people so expressed.

The water works have been out of commission during the past ten days by reasons of the freezing of the pipe leading into the tank. Nies & Spencer, proprietors of the Electric theatre, have had the Britton building repaired and rebuilt so that it is absolutely save and there is no danger in crowding it full of people next Saturday night.
