## Staley Underwear

**T**HIS is our Tenth Season selling STALEY fine wool underwear in Wayne, and our Thirtieth year of selling this famous make of underwear. You may think that we have advertised this line of underwear enough in Wayne, but as there are some newcomers in the county each year, and there are yet a few men in Wayne county who do not wear the STALEY underwear, we are going to keep right on advertising this underwear until every man in Wayne county wears it. We have yet to find a single man (or a married man, either,) who has worn STALEY underwear, who is willing to wear any other kind. That alone should convince anyone that STALEY underwear is superior to any other make. There are many things about men that we do not understand, and one of them is that a majority of men in Wayne county who do not wear STALEY underwear know that they need it and should wear it, but because they are trading at some store where they do not sell STALEY, they think they have to do without it. We cannot understand why they fail to come here to get what they know they ought to have. If STALEY underwear was high priced and they could not afford to wear it, they would have a good excuse for not buying it, but STALEY underwear is made for the poor as well as the rich, and every person can afford to wear it and enjoy good health and be comfortable. Ask anyone wearing STALEY wool underwear how they like it and they will recommend it. Ask any doctor if you should wear STALEY underwear and he will recommend it. Come in and ask us to show you STALEY wool underwear, look at it, feel of it and you will understand why so many wear it, and you will be ready to buy it.

### Why It Is Better

The wool used to make the STALEY underwear is pulled (not sheared) which leaves the ends of the fibers smooth, and not blunt and sharp as all other wool underwear is. Then the wool is put through a process of cleaning that takes out all the foreign matter, such as grease impurities, sand-burs and chaff. It is thoroughly cleansed, then it is carded and spun into yarn and knit into garments. These garments are put into great vats of hot soap suds and are thoroughly shrunk. That is why the STALEY wool underwear does not scratch and irritate the skin, and is worn by men and even women in Wayne who never found any other wool underwear that they could wear.

### Why You Should Wear It

The best medical authority in the world concedes that wool underwear is the only underwear fit to wear. We can give you the names of more than fifty persons having rheumatism who have been cured by wearing STALEY all wool underwear. This is the only factory in America that makes an exclusive line of high-grade wool underwear which is sold direct to the retailer and cannot be bought from a jobber. Wool woven and made into undergarments by the STALEY methods absorbs the perspiration, thereby preventing the wearer from suffering through sudden changes in the weather. Now don't wait until you get a good case of pneumonia before you are converted into the STALEY family. \$6 worth of STALEY is cheaper and worth more than \$25 worth of medicine.

### A Fine Assortment

It is made to fit, not stretched to cover; the seams are all sewed with a double over-stitch, which makes a smooth seam that will never rip. This seam is found only in the STALEY underwear, and you will always feel comfortable with STALEY underwear on. Keep yourself warm in STALEY underwear this winter and you will always wear it.

### Why It Is Comfortable

STALEY underwear is made in fifty different kinds. We can please the rich and poor alike. We can fit any person, no matter what his shape or size may be; big or little, short or tall, lean or fat; at the same price as the regular sizes. We have it in all colors and can please the most particular man, and we guarantee satisfaction to the wearer.

## A Timely Warning

**W**E have sold thousands of suits of STALEY underwear in the nine years we have been in Wayne, and no man who was a wearer of STALEY underwear has asked for a divorce, and only two men have died in the nine years who had on STALEY underwear; there has been no man in jail with STALEY underwear on except the sheriff. Now, you and your family need the protection that STALEY underwear gives.

It is a remarkable fact that every man to whom we sell STALEY underwear becomes possessed of a desire to tell his friends, and it is a fact that no man who comes to us on a friend's recommendation leaves the store without making a selection from our large stock of STALEY.

Ask your doctor what kind of underwear he wears and he will tell you "STALEY." Now, if it is good enough for him it is good enough for you, and this is just the time of year to buy new underwear, as your old, left-over garments do not have the proper warmth in them.

### To The Ladies

The last two seasons there have a great many ladies come and asked for underwear as good as their husbands wear, and a great many have bought the STALEY union suits, which are perfect fitters, and in STALEY fine wool union suits you get more weight than you do in fine wool of the ladies' underwear.

\$2.00 to \$7.00 Per Suit.

### Staley Jersey Overcoat

Teamsters, railroad men and every man who has out-of-door work, and who wants to keep warm, should invest in the celebrated STALEY all wool Jersey knit overshirts. There is nothing in the market that will outwear them and nothing that can be made warmer. You can laugh at zero weather with one of them on.

\$1.00 to \$2.50 Each.

"It bends with the foot"

A SPLENDID shoe for every purpose. Red Cross Glazed and Blucher with Patent Tip. M.

## Do Your Feet Ever Hurt?

If you could look inside of your shoe with your foot in it, you would see why. The sole of your foot bends, the sole of your shoe bends nearly at all.

Ninety-five out of every 100 cases of foot suffering can be traced directly to stiff soles. Their constant friction is what brings hard, callous places, what irritates the delicate nerves and tendons and makes your feet draw, burn, ache!

### The Tenderest Feet Are Comfortable in the Red Cross Shoe

Its sole is flexible. Though of regular thickness, it bends with the foot. Not a movement is hampered, not a muscle restricted. The moment you slip it on, you notice its wonderful ease and suppleness. Come in. Bend it. Walk in it.

It doesn't cramp, bind or "draw" the foot—it fits like a glove. Try it once and nothing could induce you to go back to stiff sole shoes!

We have it in all styles. Let us fit you. High Shoes, \$4.00 and \$5.00. Oxfords, \$3.50 and \$4.00.

### College Notes

Mr. Jackson of the Norfolk News visited College Hill Saturday afternoon for a short time.

Richard Beauchemin of Jefferson, S. D., visited with us Monday. He was one of our famous ball team in '04 and '05.

Principal Leo Pryor of the Magnet school visited friends on College Hill Saturday.

Fred Pile went to Norfolk Friday evening to attend a meeting of the Directors of the Nebraska School Review company.

Several of the young men of the school went up the road the past few days to register for the land drawing. Most of them went to Dallas.

Mrs. Pile was summoned to Miss Kingsbury's room Friday evening. There she found the lady teachers who presented her a nice hand bag.

Miss Lea Wolverton of Stanton county was here on Thursday to make arrangements to enter school next term. She expects to teach in the spring.

Prof. Sauntry gave the one o'clock lecture last Saturday. These Saturday lectures by the faculty are enjoyed by all. They are made most instructive.

Do not forget the free lecture Saturday evening by Supt. Abbott of Tekamah. He is a strong schoolman and a pleasant, thoughtful speaker. Chapel Hall at 7:30.

The social Saturday evening under the direction of the Students' Catholic Association was one of the most pleasant of the term but all of them have been the very best the school has had.

On Friday morning, Mr. John Kate brought to the office two large volumes of Prof. Dick's works and presented same to the library. The librarian has just completed re-cataloging the books which number more than 3000.

Several valuable additions have been made to the museum lately. New cases are being made and the collection re-arranged so as to be available for class use in geography, history and the sciences. Donations are appreciated.

One of the largest classes of the term is the letter writing under Prof. Sauntry. The class meets daily and the work is required for all who take any of the graduating classes. This makes the work a full study instead of a drill as formerly.

The classes in Latin and German are well filled this term. Miss Kingsbury has three classes in each of these subjects. The Caesar and the conversational German are the largest of her classes. She knows how to get the best of results and is an enthusiastic teacher who is decidedly popular with students.

Two weeks more of good weather will get the fall work on the Hill in splendid shape. Pickles, tomatoes, sweet corn, kraut are housed. Potato digging will require another week, with beets, turnips and cabbage to follow. This has been one of the best seasons for gardens we have ever had and besides having plenty during the season, plenty is housed to carry 300 or more boarders through the winter.

There has been supplied to the chemical laboratory more than \$100 worth of chemicals this fall. This subject requires three terms' work and no school has better facilities for science teaching. The physics, the biology, the zoology and agriculture laboratories have the best of apparatus and material for thorough experimental work.

Visitors are welcome to every school exercise and will find something of interest every minute of the day from 7 a. m. till 6 p. m. The regular sessions, the model school, the manual training department, the gymnasium,

### A Young Prohibitionist.

Winside, Neb., Oct. 5.—While Ed. Miller and wife were in town Saturday their little 8-year-old son found the family jug containing alcohol and proceeded to refresh the inner man. Neighbor boys found him later in a drunken stupor, apparently dead, and not knowing what was the matter, hauled him to town, running their team most of the way and turned the lad over to his parents. They also not knowing what the ailment was frantically rushed him into a doctor's office. One look and one whiff was all that was necessary for the diagnosis by the physician, and he imparted to the weeping parents the true condition of their son, and admonished them to buy a safe to keep the jug locked up in the future. It took the boy 24 hours to sober up.

Note for either "Bill" but do not try to get along this winter without Staley Underwear.

The Wayne Herald last week stated that when Bryan's picture went up at the picture show there was little or no enthusiasm, but the spectators went wild over Taft's. The DEMOCRAT has no wish to contradict the Herald but a republican who was present tells the DEMOCRAT most positively that when Bryan appeared the attendants cheered to the echo, while when Taft was rung on the canvas there was a deathlike stillness. The republican gave it as his opinion that the difference was simply a matter of "dignity" for "Little Willie."

### The Dignity of the Indignant.

From Taft's speeches: At Table Rock, addressing a crowd of workmen, Mr. Taft discarded the word "false" and employed the "shorter and uglier" term. He said: "Some ordinary, cheap, common liar has devoted himself to the business of running around the country saying I was in favor of paying a laboring man a dollar a day and that I have said that is enough. Anybody that says I ever made that remark is a liar, and the man who believes it is a fool, for why should I say that?"

And again: "This thing of Mr. Gompers having the labor vote in his power and laboring men believing that lies he tells, is something that I complain of."

To which the State Journal says: "Whenever a candidate loses his temper he loses votes."

"Much of the alleged political argument on either side is rank hogwash and ought to be hissed instead of applauded."

### The Whiteness of the Pot and the Blackness of the Kettle.

(From Theodore Roosevelt's letter of October 4, 1904, to Edward H. Harriman.)

Now, my dear sir, you and I are practical men, and you are on the ground and know the conditions better than I do. If you think there is any danger of your visit to me causing trouble, or if you think there is nothing special I should be informed about, or no matter in which I could give aid, why of course give up the visit for the time being, and then a few weeks hence, before I write my message, I shall get you to come down to discuss certain government matters not connected with the campaign.

(From Edward H. Harriman's confidential statement to Sidney Webster.)

About a week before the election in the autumn of 1904, when it looked certain that the state ticket would go democratic and was doubtful as to Roosevelt himself, he, the president, sent me a request to go to Washington to confer upon the political conditions in New York state. I complied, and he told me he understood the campaign could not be successfully carried on without sufficient money and asked if I could help them in raising the necessary funds as the national committee, under control of Chairman Cortelyou, had utterly failed of obtaining them, and there was a large amount due from them to the New York state committee. We talked over what could be done for Depew, and finally agreed that if found necessary he would appoint him as ambassador to Paris.

With full belief that he, the president, would keep his agreement, I came back to New York, sent for Treasurer Bliss, who told me that I was their last hope, and that they had exhausted every other re-source. In his presence I called up an intimate friend of Senator Depew, told him that it was necessary in order to carry New York state that \$200,000 should be raised at once, and if he would help I would subscribe \$50,000. After a few words over the telephone the gentleman said he would let me know, which he did probably in three or four hours, with the result that the whole amount, including my subscription, had been raised.

The checks were given to Treasurer Bliss, who took them to Chairman Cortelyou if there were any among them of life insurance companies, or any other like organizations, of course Cortelyou must have informed the president. I do not know who the subscribers were other than the friend of Depew, who was an individual. The amount enabled the New York state committee to continue its work, with result that at least 50,000 votes were turned in the city of New York alone, making a difference of 100,000 votes in the general result.

Ladies are buying Staley Underwear since they realize how well their husbands enjoy it. They desire to live as long as their husbands.

Kodol is a combination of the natural digestive juices and it digests all classes of food and every kind of food, so you see it will do the work that the stomach itself does. The only difference between it and the stomach is the stomach can get out of order and Kodol cannot, but Kodol can put the stomach into good order.

### Up to the Voters.

The Sioux City Tribune, independent republican, gives the following as the "bankers' reasons":

The majority of the bankers who met last week in national conclave at Denver adopted the report of its committee on the deposit guaranty policy. The committee condense into 12 statements their reasons for opposing the policy. We reproduce them, accompanying each a brief comment.

1. It is a function outside of state or national government.
2. Then every other provision of law, state and national, to make secure depositors, is outside government function. For instance, the limitation on loans, the provision for examinations and the punitive provisions punishing dereliction.
3. It is unsound in principle.
4. It is impracticable and misleading. That is mere assertion.
5. It is revolutionary in character.
6. Yes, if acting on the principle that "what is sauce for the goose is also sauce for the gander" is revolutionary. Otherwise not.
7. It is subversive of sound economics.
8. The diagram is missing that should accompany that "glittering generality." We apprehend that a very large section of economics would remain undisturbed by it.
9. It will lower the standard of our present banking system.
10. Mr. Knox says that when it was in operation in Vermont it raised the standard of banking. One concrete fact is worth a ton of assertion.
11. It is productive of and encourages bad banking.
12. Bad banking is the sole cause for proposing it.
13. It unjustly weakens the strong and unfairly strengthens the weak banks.
14. It is always the weak banks that endanger the strong banks by shaking confidence in the security of all banks.
15. To strengthen confidence in the weak banks insures strong banks against loss of confidence in themselves.
16. It discredits honesty, ability and conservatism.
17. No more than does every provision of banking law. Law assumes that all bankers are dishonest and provides guards against it for the security of depositors.
18. A loss by one bank jeopardizes all banks.
19. Very true. The more reason, then, for a provision that will prevent losses by even one bank.
20. The public must eventually pay tax.
21. Then why should you object?
22. It will cause and not avert panics.
23. Guess again.

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Do not risk your health by taking any but the genuine. It is in a yellow package. Raymond's drug store.

## Bryan Our Next President

The only William Jennings Bryan, will speak in Wayne next Tuesday afternoon, Oct. 13th, at one o'clock sharp. Let every democrat bring his republican neighbor. This a campaign of education—by the democrats.

Women are as good as men and deserve better treatment than men do. Why not have them buy Staley Underwear. Any man knows it is the best underwear made. Why not insist that your wife shall wear the same kind you do. You don't have to be a widow, for if you insist that your husband must wear Staley Underwear, he will live as long as you will.

**BY DAD**

J. Adam Bede was a follower of Uncle Joe, but now he is ahead of Joe. He has preceded him to the political burying ground.

Have you heard lately of any person taking out any insurance in that English concern that was said to be insuring against Bryan two months ago?

Jim Finn came to Wayne on a visit this week and called on John Kate to get Staley Underwear. Jim used to have rheumatism but has had none for nine years because he wears Staley. Kate says Jim is the best Irishman on earth.

If Teddy's "shots" do not have any more effect in Africa than they are having here the big game will be perfectly safe.

The frost is on the pumpkin. The frog's gone in his hole; Now, if we pay the ice man up Can't we get a "stand-off" for coal? Whatever is, is right, but it's mighty hard for a woman to feel that way when she is making over her last year's hat.

Reading the speeches of Judge Taft and Wm. J. Bryan at the waterways convention, Chicago, makes a country yokel feel like pretty small fish. The DEMOCRAT will be glad when the campaign is over, just as much so as you good people who have to "face" all the partisan baldcrash that appears in the papers.

**A Card**

The members were afterwards treated to a literary feast when Mrs. Wightman gave a fine lesson on the "Planets," she spoke of Mrs. Parkersbury from the observations taken by Prof. Lowell at Arizona this summer. A large drawing, the work of Charles Kate, plainly portrayed the colorings, oases and wonderful canals of this almost extinct planet. Mrs. Blakely of Salt Lake City gave the club an interesting talk on the work of the Utah clubs which is largely Philanthropic, the ladies being behind the movement which gave the state the best juvenile court laws in the union. Master Glen Garwood of Wayne spent Saturday and Sunday with the Headlight family.  
Francis Leale spent Saturday and Sunday with folks at home.  
Claude Wright and family of Dixon spent Saturday and Sunday with Mrs. Wright's sister, Mrs. W. S. Bell.  
Fred Ziemer spent Sunday afternoon down the line, some where. His case seems to be getting worse as he goes east about every Sunday.  
James Hamilton of Fordyce was in town Thursday calling on old friends and neighbors. He is looking fine and reports business good at his town.  
Geo. Farran of Winside was in town Thursday looking over the roads in this vicinity. He has the bridge gate at work now and several bridges will be built in this district.  
And still Hoskins continues to grow. The latest addition will be built by Henry Wetzel.

Just east of the pool hall and be used by A. J. Wheathorn for a cream and produce station. This will make a fine good place of business as well as be a good addition to the town. We have not learned what size or style the new building will be.  
We have heard a great deal of talk lately about a new brick building on Main street to be used as a hotel. This is a good idea, and if carried out will be a great boost for the town. A fine large building would aid in the appearance of the town more than any other improvement. Let the good work be started and kept up until we have the best town of its size in the state. Boost for the new brick and a better town.  
Mr. and Mrs. Henry Klipping are in Sioux City today.  
**Choice Poland China.**

Frank Todd returned from South Dakota last Friday where he has been building and fixing up his place, preparatory to moving in a few months.  
E. B. Henderson started Monday for a business trip to Booe county. If he does not extend his visit to Sheridan county he will probably be home tomorrow.  
Mrs. Frank Weible received the sad news of the death of a sister who lived at Talmage, Neb. Friday night and left for that place Saturday morning.  
Herbert Lound is going to move on a farm next year. We understand that he has rented the Chub Long farm.  
Miss Alice Brown was compelled to give up teaching in the district known as Bega, in Stanton county, for a few days at least on account of the results of flea-bites. It seems that the fleas are very numerous in that section and as she is very susceptible to their poisonous bites, the results were very painful and nearly caused blood poisoning.

Work was suspended on the railroad well yesterday owing to the "hole caving in." The well is now 680 feet deep, slathers of water, and it is not likely the hole will be made any deeper.  
The DEMOCRAT's new man just got to work Monday morning when he received a telegram calling him to St. Paul to appear as a witness in the federal court. The paper is therefore unavoidably late again this week, but this shall be the last time for a thousand.

that ever threw "dignity" to the winds, and spread the gospel of hard-times broad-cast over the country.

President Roosevelt says it would be a "calamity to the country" were Taft defeated. Then later he wrote that he had "a peculiar interest" in the success of Candidate Taft. The "calamity" would fall on the bunch of interests protected by the vicious Aldrich money measure, which LaFollette and all progressive republicans denounced; upon Sunny Jim Sherman, the corporate tool of Cannon, etc., etc. The "peculiar interest" is no doubt connected with a statement since made by Roosevelt's son-in-law Nicholas Longworth, that we are to have eight years of Taft and then eight more years of Roosevelt. Say, while fixing things up for all us poor, calamity fearing yawns, why not now arrange to have Nick, bully good old Nick, take eight years at the pull after Teddy lets go?

A traveling man who heard Mike Harrington at Bloomfield said Mike told the best "prosperity" story yet recorded. A German farmer who lives near O'Neill, Harrington's home, and who had always been bitterly opposed to Bryan and the democratic party, had a change of heart. (Mike couldn't be-

able to suppose that if a man wants to borrow money at a bank and pay interest thereon he must get his substantial friends to go security for it or put up the collateral, while if a depositor keeps his money in a bank, with out interest, there is no guarantee that he will ever recover it again. Gov. Sheldon threatened to withdraw from his candidacy for governor if the bank guarantee law was not inserted in the republican state platform, for he knew that it is something the people demand. Of course it is ridiculous to presume that such arch financiers as Aldrich, "Sunny Jim," Cannon and the cashier of the national campaign committee, Sheldon, have any use for a measure that would make it unprofitable for a bank to go busted—at the expense of the bankers.

The "devil" of the DEMOCRAT 'pied' a line of a notice that A. A. Wollert had in the paper last week, a "house for sale." The remnant of the Wollert local happened to fall beneath Col. Soules' "furniture at auction" ad. The result was that as soon as the paper was out the Wollert phone began to ring, so many people wanted to know about the stoves, etc., etc. This was kept up until the hour for the Soules sale, Saturday afternoon, when Mrs.

## BY DAD

The cause of strenuous Teddy's anxiety about Taft's chances is all "given away" by son-in-law Longworth, who in a speech last week disclosed the remarkable family secret that it is to be eight years of Taft, and then eight more years of Roosevelt. Don't forget, therefore, that for the next sixteen years there will be "calamity" in the country if this nice little arrangement is interfered with.

After hearing the nice language Taft uses in his campaign speeches, it is easy to understand why he could throw mud at the tomb of General U. S. Grant.

An exchange wants to know why the christian people of this country send missionaries to heathen lands to tell the poor devils the story of our Lord and Saviour, and then elect a man to the presidency who does not believe in the divinity of Jesus Christ. Well, it does not matter, so long as Taft believes in the republican party.

The American people are a race of gamblers. Millions of them want a farm without working for it.

Mrs. Sigworth came up from Stanton Saturday to visit at the C. A. Chance home.

Two months ago it was four to one on Taft. Today their chances are given as about equal, even by some of the big-republican dailies. In four weeks more it is likely that the earth will be ready for that great political slide, that will entomb Taft, Sherman, Cannon, and all the latter's little pop guns like Boyd.

What an awful graft by the railroad corporations is this gamble or game of chance on Tripp county land. Hundreds of thousands of dollars made by the corporations by grace of the greatest of all trust busters and reformers, President Roosevelt.

About a hundred people went out on the Sunday evening train for O'Neill to register for land in Tripp county. The train consisted of nine coaches packed to the limit before Wayne was reached. Other lines ran trains in sections. At Wisner P. H. Kohl says there were three Sunday afternoon trains, passengers even being crowded to the top of the coaches. The scheme—from a railroad point of view, ought to get a couple hundred thousand dollars for Taft's candidacy, which is perhaps a part of the deal between the coporations and Taft's wet nurse.

How long is it since the Omaha Bee had a cartoon of Foraker and Taft clasping hands over a deal to work in harmony for the whole infernal ticket? Surely since Roosevelt said that Taft knew, that Foraker was a grafter?

You republicans who are lauding Taft and Sherman and supporting them to the limit, and at the same time "knocking" on old Joe Cannon, are surely not onto your job. Roosevelt, Taft, Sherman, and all the big guns of the campaign are loud in their demands that Cannon is also absolutely necessary to keep calamity out of the country, although President Roosevelt has not said that he has any "peculiar interest" in the reelection of Cannon for speaker.

Thaw will likely escape before we get much of a freeze.

William Howard Taft! the man who has held a fat, appointive job all his life! the greatest calamity howler

lieve it, so meeting the farmer and verifying the report he asked and got the following explanation: "Well you see I got three hundred dollar by the bank last fall and I get scare and go get him, but bank not gif me my money. Now I keep my money at home where I can see him some times. Bryan get in I can see him by the bank."

Candidate for vice-president Sherman, is coming in for his share of criticism because of the "bulls" he is making. Mr. Sherman in a speech last week said: "I speak for little Willie as well as myself." Eastern republican dailies are wondering what this country would do with such a buffoon should events of the future make him president.

Five thousand dinnerless children attending the Chicago schools; heads of families working for 80 cents per day, and prices of necessities too high for even the ordinarily well-to-do. Be thankful you live in Nebraska, but why not give a thought to these thousands of hungry children, described by the rankest republican paper in Chicago, the Tribune. Why this awful suffering in a rich land of plenty.

Bank deposits in the state of Oklahoma have increased \$3,654,540.50 since Feb. 14, 1908, or since the depositors guaranty law became operative. Bank reports show that the splendid effects of the law were felt immediately after the passage of the law. Republican spell-binders will tell you that this bank guarantee law is an old-worn out, illogical theory, but on the contrary it is a new law, beneficial to depositors and bankers, and of incalculable value to Oklahoma. As a matter of fact the only real objection the republicans have to it is that the scheme is democratic. Is it reason-

Wollert used it long enough to call up this office and say: "The people are all coming up here to the sale, can't you get out some bills telling them where it is to be held?" All of which proves that it pays to advertise.

The vicious attack the Omaha Bee last week made upon the republican national platform is a fair example of what the republican voters of Nebraska would do to Cannonized Jim Sherman and his "Little Willie," could they just imagine that these two gentlemen belonged to the democratic party.

The ballots for this fall's election will be five long. "Little Willie" will not look much longer, after the ballots have been used.

The DEMOCRAT will put in a type-setting machine next month—if Bryan is elected.

With every indication that Bryan is to be elected Nov. 3d, farm lands continue to go up in price. These republican calamity croakers don't appear to be taken very seriously.

Nels Orent carries a clock around with him now so he can have a good time in his old age.

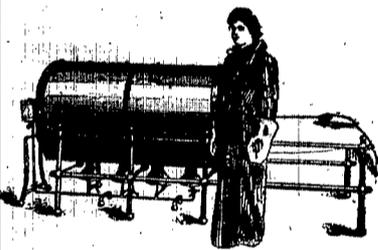

Is Teddy going to take the stump because his hair apparent made such a mess of it?

At Bridgeport, Conn., a baby girl has been born with two heads. Hully Gee! Wonder if she will be able to talk with two mouths?

It is hard for thousands of the plain people to understand how Taft, who is to curb and control and chastise predatory wealth, can draw his campaign funds from the great trusts and corporations. Does look queer, doesn't it?

One of Uncle Joe's home papers says he has got so used to bossing people around that he will not permit his own

Nick Longworth denies that he ever let out any Roosevelt family secrets, but here is the exact words as printed in the rankest republican sheet in the United States, the Chicago Inter-Ocean:

I consider that Taft is good for the next eight years as president. After which I consider that we really ought to have eight more years of Roosevelt. Following this, I believe the country needs eight years of "Sunny Jim," after which—but modesty forbids my mentioning the matter further.

Chicago, September (Special).—In connection with the controversy which the president has raised as to whether the trusts and financial concerns are most interested in the election of Mr. Taft or Mr. Bryan, the Democratic national committee calls attention to a few of the controlling spirits in the Republican committee who are actively interested in trusts and monopolies.

At the head of the list stands George R. Sheldon, treasurer of the Republican national committee. Mr. Sheldon's selection for this important post of official "fat fryer" was made upon recommendation of William Nelson Cromwell, the great corporation lawyer of Wall street, attorney for the Panama Canal Company, E. H. Harriman, the Standard Oil Company, the sugar trust, Kuhn, Loeb & Co., bankers and brokers, and other favored interests. Almost immediately after his appointment Mr. Sheldon is reported to have received a contribution from Mr. Cromwell, amounting to \$50,000.

Mr. Sheldon is a multi-millionaire, the active head of the banking firm of W. C. Sheldon & Co., 2 Wall street. According to the "Directory of Directors" for the present year, Mr. Sheldon's name appears as a director in the following corporations:

- American Locomotive Company,
- American Locomotive Automobile Company,
- Bethlehem Steel Corporation,
- Cincinnati Northern Railroad Company,
- Detroit Edison Company,
- Electrical Securities Corporation,
- Laclede Gaslight Company,
- Locomotive and Machine Company of Montreal (limited),
- Metropolitan Trust Company,
- Milwaukee Electric Railway and Light Company,
- Milwaukee Light, Heat and Traction Company,
- National Copper bank,
- New Jersey Terminal Dock and Improvement Company,
- North American Company,
- Republic Steel and Iron Company of New Jersey,
- Rogers Locomotive works,
- St. Louis Traction Company,
- Union Bag and Paper Company of New Jersey,
- Union Electric Light and Power Company,
- Union Electric Light and Power Company of St. Louis.

Mr. Sheldon's connection with the locomotive trust places him in connection with the railroads of the country where he is able to procure their campaign contributions. He is also a confidential agent of J. Pierpont Morgan in his Wall street deals, and assisted in the formation of the Shipbuilding trust. His North American Company controls the traction interests of St. Paul and Minneapolis. He is president of the Union League club, of which Rockefeller, Morgan, Carnegie and other powers in Wall street are also members. He is also said to be a member of 20 other clubs, whose membership includes practically all of the operators in Wall street.

In 1906 Mr. Sheldon was treasurer of the New York state Republican committee, and succeeded so well in trying the fat from the interests that Mr. Cromwell recommended him for a similar job with the national committee. According to the sworn statement of Mr. Sheldon, published after the campaign, he raised \$333,922.50, chiefly from these interests.

### Wages-Reduced by Tariff Protects Industry—Business Good, But Restoration of Pay Contingent on Taft's Election.

Chicago, September (Special).—The trusts, monopolies and beneficiaries of high tariff have inaugurated a new scheme of intimidating their employees to vote for Taft. This form of bribery is well illustrated in the notice which has been posted in the shops of the Standard Roller Ball Bearing Company of Philadelphia, a copy of which has come into the hands of the Democratic national committee. The notice reads:

"The reduction of ten per cent in wages last winter was to have been restored when business conditions would warrant it. While we are busy at present, we feel that its restoration will depend upon the result of the presidential election, and that if Mr. Taft is elected a general improvement in all lines of business will result.

"On November 28 we will, therefore, restore the old rating to all employees whose wages were reduced ten per cent last winter provided Mr. Taft is elected president."

(Signed) "S. S. EVELAND, President."

An investigation reveals the fact that before this notice was posted Mr. Eveland made a trip to Hot Springs, Va., to see Mr. Taft, and obtained his approval of the course. Mr. Eveland admitted that he had done this when questioned about the matter, and stated that others in the iron and steel business would do the same.

It will be noticed that the reduction in wages was made last winter under a Republican administration, and still continues while the concern is enjoying the benefits of the Dingley tariff, which it has had for 11 years. It should also be observed that the notices cite the fact, "we are busy at present," so that the advance might now be made as was promised. But the company is holding out the bribe that it will not be made unless Taft is elected.

Mr. Eveland said further when these facts were called to his attention, that his company had 1,000 men at work now, and that orders "were piling up so fast that we can hardly catch up with them." In spite of that he holds over the heads of his employees the threat that their wages will not be restored if Bryan is elected.

In explaining why he had reduced wages under Roosevelt and proposed to restore them under Taft, Mr. Eveland said:

"Taft is a very different man from Roosevelt. It is all right for the people out west to think that Taft is just like Roosevelt. Just keep them thinking that way, but we in the east know different. Why, there is no comparison between the two."

The Standard Oil Company is a trust and controls the roller ball bearing output of the country. It makes the small steel ball bearings used on children's roller skates, and also \$10,000 ball bearings, the largest made in the country for big machines. Among those who are interested in it are the Vanderbilts and Antors of New York, and a score of its directors are also directors of the United States steel trust. The company maintains an "open shop."

### PROTECTING DEPOSITS IN BANKS

An Ohio Example of Taft's Position and Oklahoma's Proof of Bryan's Position.

One of the planks of the Denver platform favors guaranteed bank deposits. Mr. Bryan addressed the Ohio legislature in February favoring guaranteed deposits. Former Gov. Herrick subsequently addressed the legislature in reply to Mr. Bryan, opposing any such protection for banks and bank depositors.

Mr. Taft, in his speech of acceptance, denounced the plank of the Denver platform, which declares for a national law for national banks similar to the Oklahoma law for state banks, thereby coinciding in the views of Mr. Herrick, and opposing the views of Mr. Bryan. Below are two dispatches showing what Mr. Bryan stands for and what Mr. Taft stands for:

**THE OHIO WAY.**

Cleveland, O., Aug. 21.—The creditors committee charged with an investigation of the affairs of the Standard Oil Company and Merchants' bank of Ohio, had taken charge of the bank of the Standard Oil Company, and had authority to pay the bank's cash and available funds in other banks full \$2,000,000 short of the total amount of deposits. The committee was able to do this under the operation of the new banking laws passed in the first time it has been called into use.

**THE OKLAHOMA WAY.**

Guthrie, Okla., May 21.—Within one hour from the time the Standard Oil Company, Oklahoma bankers commission-ers, had taken charge of the bank of the Standard Oil Company, and had authority to pay the bank's cash and available funds in other banks full \$2,000,000 short of the total amount of deposits. The committee was able to do this under the operation of the new banking laws passed in the first time it has been called into use.

Hear This Voice From New York?

To the Editor of The World:

My father (who has voted the republican ticket since the organization of the party,) my three brothers and myself (all of whom have voted the republican ticket since we turned twenty-one) have been discussing the campaign. Last night we made our decision, and it is that we shall vote for Bryan, for the following reasons:

1. The republican party has been in power twelve years and has forced upon the country an iniquitous tariff (the cause of all our trust trouble), and now only because of public clamor it promises a "revision."
2. Republican administrations have constantly been more and more wasteful of the public funds.
3. Because we are tired of Speaker Cannon overruling the will of the people who elect what they intend to be their representatives of congress.
4. Because the president, after issuing a loud warning to keep out of politics during the campaign, is the principal and worst violator of his own rule.
5. Because the president was not honest in his answers to Mr. Bryan.

Just In Time. (Springfield Republican.)

The president proudly withdrew from his controversy with Mr. Bryan just in time to escape a fierce retort from the enraged Nebraskan. It will be remembered that when Mr. Bryan challenged the president to name a single trust "official" who was supporting his candidacy, the president fastened upon one Judge Priest of St. Louis and triumphantly exhibited that judging victim as a supporter of Bryan. Judge Priest was merely a trust attorney, however, and he felt so outraged by the sudden and ignominious notoriety into which Mr. Roosevelt tossed him that he proceeded to expose most ruthlessly the man in the White House. From Judge Priest the country now learns that a Standard oil attorney to the federal bench when he nominated as a United States district judge Mr. Finkelnberg of St. Louis a few years ago. Thus does Judge Priest wreak terrible vengeance upon our chief magistrate.

2. Republican administrations have constantly been more and more wasteful of the public funds.

3. Because every trust in the country is arrayed on the side of the republican party. Why?

4. Because we are tired of Speaker Cannon overruling the will of the people who elect what they intend to be their representatives of congress.

5. Because the president, after issuing a loud warning to keep out of politics during the campaign, is the principal and worst violator of his own rule.

6. Because the president was not honest in his answers to Mr. Bryan.

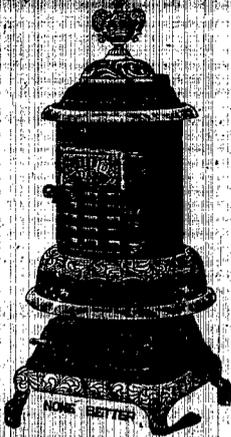

7. Because the president has created or attempted to create a crown prince.

8. Because we believe in guarantee of bank deposits.

9. Because of the hypocritical attitude of the republican platform on publicity of campaign-contributions.

We shall vote for a democratic government because in case a kind Providence should remove one or both of the stand-

# TRUST RIDDEN PARTY

REPUBLICAN LEADERS SHOULD BE IN COURTS FOR VIOLATING ANTI-TRUST LAWS.  
THE WEST COOL TO TAFT  
FORGERY OF EX-PRESIDENT CLEVELAND'S NAME BY REPUBLICANS.

Mr. Taft Carries Three Press Agents on a Luxurious Train, and Has to Send Out Postal Cards to Get People to Greet Him in the Cities.  
Chicago, Ill., September. (Special)—Congressman Ollie James of Kentucky, who made the speech of the convention in second the nomination of Mr. Bryan, has arranged speaking days in Illinois, Indiana, Ohio, Kansas and Nebraska. Mr. James is a popular speaker and there are as many demands for his appearance on the stump as any other campaign orator. While a visitor at Democratic national headquarters this week, he said:

"Bryan will be elected president in November by the greatest landslide the country has ever known. The record breaking crowds that greeted Mr. Bryan in Judge Taft's home city and state bespeak the sentiment of voters throughout the nation."  
Ex-President Cleveland's Name Forger.

The dishonest and corrupt method the Republican party is resorting to in its desperation to defeat Mr. Bryan should cause all honest men to rebuke it," continued Mr. James. "The circulation of the pretended article by Grover Cleveland against Mr. Bryan shows to what extent the Republican party is willing to go in order to elect a man in power for four years longer the agents of the monopoly and the servants of plutocracy. They were willing not only to desecrate the memory of Mr. Cleveland but to forge his name to an assault upon Mr. Bryan as well as an arraignment of the Democratic party. A party that is willing to desecrate the dead and prostitute the memory of a great ex-president will hesitate at nothing that is necessary. We may expect them again to invade the trust funds of widows and orphans held by insurance companies; we may expect them again to write other letters to 'My Dear Harriman,' who was a director in 30 railroad corporations, corporations that had created a trust upon transportation and monopolized the highways of commerce, telling Harriman we are practical men and asking him to gather up a quarter of a million dollars to be used to elect the Republican party."

Standard Oil Buys Newspapers.  
What difference can the people distinguish between the Standard Oil Company sending \$50,000 to Senator Foraker to buy up newspapers and further the cause of the Republican party, and Harriman, who at the behest of President Roosevelt got the trusts and monopolies to contribute \$250,000.00 to be used directly on the voters, except that in the first instance Senator Foraker returned the money to the Standard Oil when he found out he did not purchase the newspapers, but Roosevelt allowed the Republican party to use the money that Harriman contributed to aid in his election. If the president desires in some way to make amends he should at least see that his party returns the money which Harriman contributed to the widows and orphans of the insurance companies whose funds were depleted by a confidence band of pirates in the interest of the Republican party.

Republican Treasurer Trust Magnate.  
The treasurer of the Republican campaign fund is a well known trust magnate, a director in many monopolies; he is a force and power in Wall street. Mr. Wm Nelson Cromwell, who we are informed, contributed \$60,000 to the Republican campaign fund, is also a director in many trusts that have for the courts answering indictments for violating the anti-trust law rather than contributing to the Republican campaign fund.

Mr. Du Pont has resigned, the papers tell us, from the chairmanship of the speakers' bureau. I presume he resigned from the speakers' bureau so he could give more time to the preparation of his defense for the violation of the anti-trust law.

The fact that the alleged letter from ex-President Cleveland, published originally in the New York Times, is a forgery, created no surprise at Democratic headquarters. From the very first the publication of this letter in one of the most partisan papers supporting Judge Taft was regarded as a campaign trick. After expelling the forgery in Republican papers, campaign managers of the party had this misrepresentation of the dead president circulated as a campaign document. The New York Times has been forced to admit that it defamed Mr. Cleveland's memory when it published the fake interview. Very naturally, Mrs. Cleveland and the executor of the late ex-president's estate have come forward and exposed the most villainous misrepresentation of the memory of a dead president within the history of the nation.

Newspaper Man's Views.  
Speaking of the exposure of the Times' story, Mr. Josephus Daniels, chairman of the press bureau, said: "It was in New York when the Times printed the fraudulent Cleveland letter. To my mind, it bore upon its face the evidences that it was a crude forgery, doing violence to the known sentiments of Mr. Cleveland. I found that most of Mr. Cleveland's friends and nearly all the newspaper men believed it to be a fake. Mrs. Cleveland has protected the memory of her distinguished husband by her course in the matter, for the letter as published did violence to his utterances and to his public career. I was informed at the time that the forged letter was offered to the New York Herald and to the New York World."

but they refused to touch it. The New York Times has a good motto: "All the news that's fit to print." It would do well now to add—"no fake stories printed that other journals refuse." Those Republicans who have been spending money derived from trusts to circulate the fraudulent Cleveland letter must, if honest, spend as much money to circulate pamphlets saying that the letter they circulated was a clumsy fraud.

Post Card System.  
When Mr. Taft learned that the mountain would not come to Mahomet, he decided that Mahomet must go to the mountain. When he found that the people would not come to him and listen to speeches from the golf links at Hot Springs, and from the front porch of Brother Charlie's palatial residence in Cincinnati, he determined to go out among the people.

Apparently, however, there is grave fear among the Republican leaders that their candidate will not be gladly received by the people, in order to overcome this difficulty and in an effort to bring out a crowd to greet Mr. Taft, the Chicago managers have found it necessary to send out postal card notices to the faithful begging them to go to the railroad station and give the distinguished visitor a cordial welcome. During the past few days prominent Republicans have received the following notice from Fred W. Upham, assistant treasurer of the Republican national committee:

Chicago, Sept. 21, 1908.  
Hon. Wm. H. Taft, the Republican party's candidate for president and the people's choice, will arrive in Chicago Wednesday, (September 23) evening, at five o'clock, at the La Salle street station of the L. S. & M. S. R. Y. Please be at the station with your friends and give him a cordial welcome. It will be Mr. Taft's first visit since the famous convention which nominated him for president.

Very truly yours,  
Fred W. Upham.

Small Hall for Taft.  
To give Mr. Taft an opportunity to explain his attitude toward labor and his injunction record, in a city where hundreds of thousands of laboring men are interested in what he has to say, the Republicans selected a hall with a capacity of less than 2,000 and provided for admission by card only. In order that none but those who agreed with him might be allowed to enter, this hall was selected in the heart of the business section after an option on a hall with 15,000 capacity in the center of the workingmen's district had been refused. The inference is plain that the Republican managers feared that to have their candidate appear in a distinctly laboring district where the people who would might come and hear, lest the great welcome planned for might be turned into a demonstration for his political opponent, of that Mr. Taft might be asked embarrassing questions.

Stumping Falls Flat.  
The fact of the matter is that Mr. Taft's stumping experiment has fallen flat; he has produced absolutely no enthusiasm among the voters, and he has said or done nothing worthy of a laboring district where the Republicans are unable to conceal their feelings of disappointment over the poor showing which their candidate has made. Mr. Taft's progress thus far, and the manner in which he has been received, is complete vindication of those Republican leaders who from the first opposed the plan of having him stump the rear platform. They advocated a front porch campaign wherein the candidate should be kept in the background, and others allowed to make his canvass upon Roosevelt's record. The advocates of a stumping campaign prevailed, however, and now they are sorry that it was ever begun.

DO THE PEOPLE RULE?  
All the Recent Publications Convince the Voters That Trusts Control Legislation.

After all the excitement over the publication of the Standard Oil letters, showing that trusts control legislation has reached the stage where the voters lift the wheat from the chaff of sensational publications, what will be the logical conclusion in the minds of the voters? It will be:

1. That the people do not rule, because the national law-makers legislate to suit the trusts. More trusts exist to-day than ever, the people suffer more from them, and they practice more extortion.

2. That the party in power is the party through which the trusts rule. The Republican party is now in power. It writes all the national laws. In a speech the last congress, Mr. Sherman (candidate for Vice-President) declared that
