The Public School Kindergarten.

"The kindergarten is no longer a toy of philanthropy, a pleasing and interesting experiment. It is to-day recognized as one of the most potent factors in modern civilization. The time is near at hand when the universal establishment of these schools and their generous endowment will come to be acknowledged as one of the chief duties of every progressive commonwealth." The above clipping, taken from a progressive American newspaper is true beyond the question of a doubt. In the Omaha, Lincoln and other public schools of the state, the child enters the kindergarten at the immature age of five years. This is the age at which our state laws permit him to enter upon regular school work, but after one year training in a preparatory kindergarten department he is of more mature age, and better equipped in both mind and body for regular grade work.

Those interested in the movement in Wayne will soon organize a kindergarten Board of Directors that shall have charge of the work until the necessary funds are raised. They are being greatly assisted by Mrs. James Dart of Salt Lake, originator of the work in that city, and by Mrs. Byron Cummings, President of the Utah Federation of Clubs.

Believing that there is no interested mother nor housewife who would not willingly contribute once, or even twice between now and next August to an exchange, they plan to make a thorough canvass and use this as one of the means by which the fund will grow. There is nothing else to which people will give so gladly as to help for the children. It was John Hare who said that "sabin' a little child and bringin' him to his own, is a durned sight better business than loafin' round a throne."

Sholes News

E. W. Closson was on the Sioux City market last week with 2 car load of hogs.

Sheriff Mears was in our burg last week on official business.

Sholes schools opened up Monday after a week's vacation.

Willie and Calvin Hurlbert attended a dance at Randolph New Year's night, and report a good time.

Asher Hurlbert started on Tuesday morning to shell that mountain of 8,000 bushel of corn, he expects that it will take at least 5 days to do the job.

At present it looks as if Sholes might be without a nasby. Our postmaster, Mr. Beaton, expects to move soon to Wausa to go into the restaurant business. There is no one here at present that seems to want the post office.

Mr. and Mrs. John Kinney gave a New Year's dance to their old neighbors and friends. We were informed by one who was there, that the way those old people shook themselves would lay all the young ones in the shade.

Hot For Texas!

There was a great bunch got out of town Tuesday morning, bound for Texas, an account of colder weather. In the party was L. F. Rayburn and family, Art Leuck, Chas. (Siefken, Robt. Skiles, S. D. Relyea, C. A. Berry and Mort McManigall. Mr. Rayburn goes to Happy, and the land-seekers to Canyon City.

Claus Kay went to Council Bluffs, Tuesday for an operation, and said he would have to have several more before permanently cured of his ailment.

Nearly Fatal Explosion.

Last Sunday evening, while attempting to light a gasoline lamp in her home, Mrs. B. F. Feather was badly burned upon her face and hands; part of her clothing being burned off and she was generally badly injured. In attempting to assist her in putting the fire out, Mr. Feather was quite badly burned about the hands. First reports were that Mrs. Feather was fatally injured, but it was not nearly so bad as that, although in places the skin peeled off her face and hands. The lamp had been put out, as supposed, and Mrs. Feather was putting in some wood alcohol when the thing exploded, the supposition being that there must have been a flame in the thing which formed gas.

A Nasty Runaway.

Monday forenoon Dan Ryan's farm team made a nasty run down Main street. Mr. Ryan having the ribbons, but unable to control the horses. Going south, across the railroad tracks, Ryan's team ran kerplunk into August Schmill's wagon going south, tipping over Schmill's load of oats and burying Schmill and his daughter beneath wagon box, grain and a tumbled up pile of horses. How they escaped being killed is a miracle, or nearly one. Schmill's team then ran away, being finally corralled in Fisher's lumber yard. After the mixup Ryan got his team stopped up against a fence. It was a nasty a looking sight as the DEMOCRAT man ever saw, with such minor results.

Winside Odd Fellows Celebrate.

Odd Fellows and Rebekahs held full sway in Winside Saturday night, it being the occasion of their joint installation and banquet. Mrs. G. W. Yaryan of Carroll, deputy district president, installed the following Rebekah officers: Mrs. Sarah Archer, noble grand; Mrs. Josie Waddell, vice grand; Mrs. Lena Keiffer, secretary; Mrs. Abbie Re., treasurer; Mrs. J. A. Clayton, warden, and Mrs. Anna Holtgren, conductor. Then Deputy Grand Master W. G. Flynn of Wakefield, and his corps of assistants performed a like service for the Odd Fellows, the following being installed: Carl J. Wolff, noble grand; Jerry Jergenson, vice grand; Clyde T. Ecker, secretary; Gilbert E. French, treasurer; J. A. Clayton, conductor, and Clinton Fry warden.

After the installation, plates were laid for one hundred and with the inner man satisfied, Clyde T. Ecker acting as toastmaster, the following responded for the good of the order: G. E. French of Winside, Mrs. G. W. Yaryan of Carroll, Dr. A. Enzells of Wakefield, and John H. Kate of Wayne.

It was a great night for the Odd Fellowship in Winside.—Norfolk News

That Boyd Contest.

The editor of the Plainview Republican has received a letter from Congressman Boyd relative to the rumored contest against Congressman-elect Latta, in which Mr. Boyd says: "The only thing I have heard of such a course on my part are these publications in the newspapers which are being made without any authority on my part whatever, as I have never entertained or expressed the thought of pursuing such a course."

That sounds more like it. Outside of his republican politics the DEMOCRAT always figured Judge Boyd a tolerably sensible, good fellow. No body but a Governor Sheldon would think of contesting Latta's seat in congress.

Utters Go to-Texas.

Robert Utter, a Norfolk traveling man and a former city treasurer of Norfolk, is to become a resident of Texas, having purchased land near Beville in Bee county in southern Texas, upon which he will start an orange ranch. Orange raising is a comparatively new industry in Texas, but it is claimed that the Texas orange has the advantage of maturing earlier than the oranges in California. Mr. Utter is in Texas now and will remove from Norfolk definitely about the first of February. Recently Mr. Utter disposed of his holdings in the Rosebud country. Mrs. Utter yesterday handed in her resignation as city librarian. The library board will meet next Wednesday to act on her resignation.

Sad Condition of Sheldon.

Lincoln Journal: In accepting a present of a gold watch from friends Governor Sheldon referred to his defeat for reelection. He attributed it to the Elmer Thomas letter, which he said contained a lie which he did not have an opportunity to deny before election, and attributed it to the brewing interests, but mostly to the Thomas letter. He said he had served the nation as a soldier at a loss to himself, served his county as state senator at a loss and his service to the state as governor had made quite a hole in his little fortune, and his present inclinations were for private life.

Mr. and Mrs. Fisher have made many warm friends while living in LeMars who wish them well in their new home and who will always entertain the kindest feelings toward them.

Brady, the nursery agent, who tried to hornswoogle Pete Peterson of near Carroll out of a team, has been finding a winter retreat with Sheriff Grant Mears. In other words he's behind the bars instead of front of them. County Judge Hunter, from the evidence, was of the conclusion that Brady was trying to steal the team away from Peterson, and asked for \$500 bonds for his appearance next term of court, which Brady was unable to give, and "his lawyer" evidently didn't care to figure in the bond deal for his client, so Brady will get free board probably until next term of

BY DAD

Send word to Fred Pratt of the Humphrey Democrat that there is an excellent "opening" in Wayne for a first-class laundry.

By dad, if a good man could make a living in the laundry business in this man's town, there is, a certain lady, you all know her well, who ought to have a million dollars laid away by this time.

One of the fair ones taken in a raid of a woman's gambling house in Chicago said she was compelled to gamble to support her children. Some of the men who can't support themselves by gambling would like to get onto her system.

You may not know it, but you have all contributed something to the relief of the earthquake sufferers. The Standard Oil company has given \$25,000.

Walt Mason: "Seat me by the ingle-nook, and start to read some cherished book; I con the sprightly pages of 'et, and hate the villain, more and more, and happiness is in my cup when Guy, the hero, runs him up, and swears he'll send him up the spout—and then the durned old gas goes out! Some friends drop in to weep and laugh over music from my phonograph; I ask them if they ever heard the good old fringing 'Mocking Bird,' and while to find that tune I scout, the gosh-blamed messily gas goes out! Before the looking glass I stand, a Sears and Roebuck razor in my hand, intent on moving from my chin the shrubbery I can't drive in; I shave till I'm done, about and then the dog-goned gas goes out! O, ye who for your lighting, lean on John D. Archibald's kerosene, or read your papers on the porch, illuminated by a hampock torch, well, may ye all, with rapture shout, the gas for you does not go out!

Sioux City papers announce the opening of a temperance hotel in Sioux City. That certainly will "fill a long felt want," but the undertaking is a doubtful one.

In many of the states there is a horde of hungry devils waiting for the legislatures to open so they can get a good job—doing nothing and drawing a good salary. There really isn't so very much need of further legislation, the principal thing being to get a chance to get a piece of the people's money.

Mrs. Orville E. Bright of Chicago, says that "club women are talking too much and doing too little". That is a Bright idea.

This office has a small piece of money that the owner can recover by explaining where and when it was lost.

Nineteen below at Raymond's, 192

below at Hufford's, and even 20 at Leahy's was the record Wednesday morning at seven o'clock. It was a drop of 80 degrees in less than 48 hours. Still it isn't "cold" when there is no wind.

What's in a name? Tom Allaway is drayman at Homer.

Shay! I'm going to get a piece of easy money from Hingland. Get ready boys for a birthday party!

One of those "fiddler" overcoats look good to me—for the wind to whistle through, these cold days.

It was very cold in the lobby of the bank and so the polite president invited her to "come inside and warm at the furnace." The furnace is tolerably close to the adding machine and the visitor evidently thought the adding machine was it, for she rubbed her hands over the machine with much satisfaction, while one bank clerk had to kick the other to keep both from exploding.

A circus manager of reputation is quoted as being opposed to a tariff on peanuts. It will be in order for some one to appear in behalf of the public and insist upon a tariff on chestnuts.

Republican leaders seem to have only one fear of tariff revision, and that is that it will hurt the republican party. To hell with the dear people!

The paper trust is evidently going to make another effort to raise prices again. The report is being sent out that Wisconsin is still short on water. They might squeeze enough out of stocks to keep the mills going.

A United States soldier is said to have saved \$13,000 of his pay. That must be a mistake. The three ciphers must have dropped off some other item.

An exchange is of the opinion that no intoxicated person should be permitted to board trains. And wouldn't it be just as well if no person was permitted to board intoxicated people.

It would be a rank chestnut if served in its original prose form, but it may be found quite palatable in this rhythmic way:

When the surgeons informed him that they must take his appendix away— That his one chance for life Lay in using the knife— For a time in reflection he lay. Then replied that if they didn't care He would fain have a minister there; Not because he'd a fear That his last end was near. But he'd like to be opened with prayer. —Author Unknown.

A Brooklyn man has invented an anti-snoring apparatus. Why not make his birthday a legal holiday.

Senator Gore of Oklahoma asserts that the only thing for a self-respecting congress to do is to call the president's hand. That's right. They will probably discover a bob-tail fish.

Why will the temperance forces Over methods chew the rag When by use of means hypnotic They can cure most any jag? —Des Moines Capital.

Some freaks in Iowa are circulating petitions with a view to adding one more to our list of legal holidays—that of Lincoln's birthday, February 12. By all means let's have it. The people of this state are just aching for more legal holidays.

Carnegie would better confine himself to giving away his money rather than "giving away" his companions in "doing" the people.

Wm. Thompson got home yesterday from his two weeks visit in South Dakota, where he owns several farms and his son-in-law Ed. Doland, lives near Wessington. "Bill" says it was ungodly cold in Dakota. 27 below zero there when it was warm in Nebraska. Then the snow was several feet deep and the wind blew all shades of yellow. But he reports a jolly trip. He and Doland and a couple other men went hunting wolves, going in a bob sled. They got dumped out in a cañon or gulch, and while Doland caught the "snake bite" package two wolves jumped out of the snow where they dropped in, both animals being brought down with some good shooting, although Mr. Thompson says Ed. Doland had both hands around the "fish bait" when he shot his gun off.

Furniture for Sale.
As I am breaking up housekeeping I offer all my household furniture for sale at bargain prices. Mrs. A. H. ELLIS.

The Steam laundry plant was sold yesterday to a Mr. McGuire of Lincoln, whom the DEMOCRAT understands had a \$500 claim against it. It took about \$200 to satisfy I. W. Alter's first mortgage, so it will be seen that the plant is still a valuable piece of property.

Fred G. Koester, formerly a pharmacist at the Christoph drug store but now proprietor of a drug store at Carroll, and Miss Jessie Drebert of this city, were married at 10 o'clock this morning at the home of the bride's parents, Mr. and Mrs. H. A. Drebert, on South Eighth street in 'The Heights'. Dr. Tidball performed the ceremony. The young people left at 1:30 for Carroll.—Norfolk News

Mike Healy has bought a farm near Sterling where he will make his home. The family will remain at Burk, S. D., until March 1st. Tompy, who was just a "little shaver" when they left Wayne six years ago, is here on a visit. He weighs 186 pounds and is fit to wrest the championship from Johnson.

Geo. Stringer is in Sioux City today. Homer Seace left this morning for his claim in western South Dakota.

Swallowed His False Teeth.
Deputy Oil Inspector Fred Pratt was a passenger to Cherokee, Iowa, this morning to attend the funeral of brother Harry, who died from a most singular cause. Mr. Pratt was a mail clerk on the Central and he went to sleep in his car on a cot, and in some manner got his false teeth down his throat. He was operated on but the operation was unsuccessful and his brother Fred got a wire this morning that he was dying. The DEMOCRAT man put in several days with the brothers in Denver last July and they were first-class fellows.

Wm. Beckenhauer, wife and child were in Wayne this morning on their way to Norfolk. Billy has sold his restaurant at Wausa and is looking for a new location.

President Pile went to Omaha this morning to visit his physician and from there goes to Lincoln to visit the legislature and size up the situation as to a new state normal school. President Pile is quite optimistic over the prospects of making the Wayne normal a state institution, but of course there are other towns after such distinction and then the legislature may, or should, have an economical streak and not locate one anywhere, which horn of the dilemma would be just as satisfactory to the owner of \$200,000 worth of property on College Hill.

Atty. Frank Berry is in Dakota City today.

Mrs. E. A. Forbes of Rineland, Wis., is visiting at the home of her parents Mr. and Mrs. R. J. Armstrong. Mrs. Forbes says it gets down to 40 below at her home, but they do not feel the cold as we do in windy Nebraska, and she enjoys the northern climate, being in much better health than when she lived here. Mr. Armstrong has never been sick before "Bob" takes his sickness as a hard proposition.

Chicago, Jan. 4.—With the finding of human bones in the ashes taken from a furnace in a building on North Dearborn street, together with the discovery of the disappearance of a colored woman employed in the building, the police have begun a search for the most revolting murders in recent years.

Husband Told Friend

The police case has been strengthened by a statement made by Rafferty to a friend, a colored man, who lives in the same building. He told him that he had seen the woman in the furnace and that she was choked, beaten over the head with a brick and then thrown into the furnace by the murderer.

WORK OF RELIEF GOES BRAVELY ON

THE MOST SURPRISING POLITICAL CHANGE OF MODERN TIMES

INDIAN AND EGYPTIAN UNREST

at work in those British dependencies ever since the victory of Japan over Russia, took on a more threatening religious form, with the news of the freshly won "freedom" of their countries.

SERIOUS DISORDERS IN THE UNITED STATES

have marked the year's progress, in Illinois, where transpired a disgraceful and tragic race war; in the tobacco belt of the south, where the feud between grower and buyer has left a bloody trail, and along the Texas border, where fighting has occurred with Mexican "rebels."

AMERICAN STEPS TO THE GOOD

have been markedly made towards financial reform, the conservation of the nation's natural resources and the bettering of the condition of the former class.

CONSTITUTIONALISM HAS STRDED FORWARD

notably the world over. Russia's third duma has "found itself," the Philippines have satisfactorily made a beginning at learning self rule; Iceland has been given autonomy; South Africa has been planning confederation; Ireland has won the first step towards "home rule," and even China is studying hard in preparation for some form of representative government.

BROADER RIGHTS FOR WOMANHOOD

paralizing this last movement—have come in Denmark and Australia, while the "suffrage" agitation in England, humorous though it is in some of its phases, has forced the question so prominently to the fore that another year may be expected to see real gain for them.

OUR FLEET'S PROGRESS

'round the world has been everywhere marked by gain, not to its men and officers only, but in closer and better understanding between this country and South America, the South Pacific islands and (especially) Japan.

THE CONGO HAS CHANGED HANDS

Belgium assuming national ownership. The press of two hemispheres regards this as a distinct gain both for the industrial development in "the richest backyard in the world," and in the moral and social improvement of its millions of blacks.

THE CAUSE OF PEACE

has been advanced both by 37 arbitration treaties closed this year, and by three pacts settling all moot questions in north Europe.

TERRIBLE EARTHQUAKE CALAMITY

are performing prodigies of valor.

Reggio Isolated

The first of the survivors of Reggio to reach Catanzaro were so broken down by the shock of their experiences it was almost impossible for them to give any account of the progress of the disaster. They speak disconnectedly of whole districts swept away in a moment, entire families annihilated, Reggio retreating in a ghastly desolation. Roads and communications through the surrounding country have been utterly destroyed, while the survivors lack food, water and medical supplies.

Several Americans Killed

It is reported several Americans lost their lives in the wreck of a hotel at Messina. Ambassador Griscom is about to set out from Rome on a mission in an endeavor to secure information concerning the missing Americans.

FAMISHED MEN FIGHT AS WOLVES OVER FOOD

Messina, Jan. 2.—A frightful scene occurred here today amid the ruins of the customs house. Bands of famished individuals were groping among the debris in the hope of discovering food. The first of the searchers who were successful were attacked by the others with revolvers and knives and were obliged to defend their findings orally with their lives. The struggle was fierce. Famished men threw themselves upon each other like wolves, and many were slain. The survivors are being starved in the ruins, and to bury the dead.

HOTEL GUESTS AT MESSINA ALL PERISHED; HOST ESCAPED

Paris, Jan. 2.—A dispatch from Rome says 98 guests, including Americans, English and French travelers, were staying at the Hotel Trinacria, Messina, when the city was destroyed. The hotel was completely destroyed, and the Trinacria alone escaped. There were only two survivors of the guests who were quartered in the Hotel de France.

FATE OF AMERICANS IS DIFFICULT TO LEARN

Rome, Jan. 2.—The government is finding difficulty in ascertaining the fate of the many foreigners who were killed in the catastrophe. Inquiries concerning them are coming from all quarters of the globe.

Worthington, Minn., Jan. 2.—Closely following the methods adopted by a desperate woman at Rochester recently, Jan Ramage, Jr., a lad of 20 years, killed himself by some time yesterday afternoon by crawling into an old trunk, closing the lid so as to exclude the air, and then inhaling chloroform.

Glen Falls, N. ENTIRE INFANTRY REGIMENT WAS DROWNED AT PALMI

London, Jan. 2.—Llyods have been unable to learn anything of the condition of the strait of Messina, but infer it is practicable for navigation and not blocked, as reported from Rome. A cable has been received from Messina to the effect that the British cruiser, Surtley is making frequent journeys, carrying injured persons from Messina to Syracuse, which can hardly imply that it is passing around the west end of Sicily. Other reports suggest the strait is navigable for warships.

Ganderbane's Forecast for January.

The row between the President and Congress will become the hottest things since David smashed Goliath's cerebrum.
The outraged House will paw the earth.
The Senate will get flip.
The President will rub his fist.
Against its upper lip.
The air will be a mass of fur, and ripping expletives.
And the timid Congressman will run from there to where he lives.
The Congressmen will blister Ted.
And he will soak them back.
The Senate will put in a punch and get a counter smack.
They'll say some ugly things to him, and he will bowl them out.
The dignity of government will dance, ki-yi and shout.
The old Potomac will become a raging sea of foam.
The public servant's family will beg him to come home.
The shindee will divert the world by reason of its heat.
And Loeb will let it run a while, and then send for the fleet.
The air will pulsate with the rush of bitter verbal shot, the sports will bet on whether Ted will take it back or not, the old men will get on the roof and utter their defies. The President will show his teeth and bulletin the lies, a special message now and then will heighten the hub-bub, and a dozen men a day will join the Ananias club.
The smoker will resolve to quit and once for all have done with it. They'll buy their wives some things they need with what they save. Upon the weed, and also and otherwise fulfill their resolutions—Yes-s-s they will.
The men who drink will all renounce their booze and rush to water fountains. They'll cross themselves and hope to die, Exhort the country to go dry, and join with Temperance to kill. The liquor traffic—Yes-s-s they will!
The men who swear will resolve to give up "Hell!" and "Damn!" For "Shoot!"
And oaths like "Fifles!" "Fudge!" and "Dear!" will supersede.
Within the year such things as "What-The-Hotel-Bill?" and "Hell-and-Blazes!" Yes-s-s they will.
After this we shall have Taft weather, with cooler relations at Washington. Cabinet selections will be announced on Tuesdays and Fridays. The rich will go to the winter resorts, and eggs will go to 40 cents. The new sign

of the zodiac will be Aquarius, the water carrier, whose influence will begin on the 20th. This will enable anyone who has kept on the water wagon from the 1st to remain permanently seated. Persons born under Aquarius vote dry. They have had memories, and rise to confidential positions with trusts. They are also very knowing, but they don't know when prosperity will return.—C. H. Reith in Omaha Examiner.

Opportunities For Young Women.

The Philadelphia school for Nurses, 2219 Chestnut Street, Philadelphia, Pa., offers Free Scholarships in Trained Nursing to young women in every State in the Union. The Scholarships cover the full Two Year's Course, with room, board, uniforms, laundering, etc., included, and railroad fare paid to home town or district upon the completion of the Course.

A home study course and a short resident course are also provided, which quickly open the door to opportunity and enable progressive students to render a noble service to humanity and at the same time acquire for themselves a substantial income from the best paid occupation now open to women; besides qualifying every student to deal with emergencies in the home that may mean the saving of a loved one's life.

Far-seeing Philanthropists are adding to the resources of this school, with the view of ultimately extending these benefits to earnest, energetic young women in all country districts and in all the smaller towns and cities.

The Institution is approved and endorsed by leading physicians and educators of the entire country. Some of the leading men of the State are its strong supporters and endorsers, as will be seen by the catalogue which will be sent to any one who writes to the School for it.

What Have You to Trade or Sell.

I have some choice residence property in Wayne; some acre property, adjoining town; good Stanton county farm; and some good Wayne county farms; some good western land; some of Paabaker's mineral water stock, some King Solomon stock; some Kansas oil stock, and several others to offer. Tell me what you have to sell or trade and see if I have anything you want. GRANT S. MEARS. 4-1

It Is Not True.

We have beet sugar factories in Nebraska, and every man, woman and child in the state pays a tax to enable those factories to make money. They tell us the sugar factories are "home industries." That's all right to tell, but it is a lie, just the same. If some Nebraska man wants to learn just how much of a "home industry" one of those sugar factories is, let him go to any one of them and try to buy some sugar. Then he will find that the real home of the factory is in Kansas City. Let him go to the Grand Island factory, and he will be told that the price of sugar in Grand Island is the price at Kansas City and other Missouri river points, with the local freight added. The sugar has never been shipped a mile. No freight has been paid on the sugar, but when some citizen of Nebraska goes to buy the product of that "home industry" at Grand Island he will make quick discovery that he is very far from the home of common honesty and common fairness. There was once a school of Ancients which worshipped every animal and reptile capable of doing injury to man. If those Ancients could come back to earth and settle in Nebraska they would not find it necessary to go out and hunt up a man-injuring animal to worship. Every day and every hour they could be singing hymns of praise to the protective tariff, which goes about the world on a mission of robbery. And the Ancients might be able to kneel in plenty of company at every cross-roads in Nebraska when worshipping the most infamous monster that ever cursed humanity by the aid of a tariff for thievery only.—Columbus Telegram.
