Hart Schaffner & Marx Clothes

It's because we want to do the best we can for our own business; we're selfish about it, you see. We know we'll do the best we can for ourselves by doing the best we can for you.

The best we can do for you is to buy what will give you the biggest possible value for your clothes-money. When it comes to that we have the whole market before us; we can buy and sell any clothes we want to; manufacturers welcome our orders. We know what's in the market; we want Hart Schaffner & Marx clothes because they're the best clothes made; best for you to buy; best for us to sell.

They have style that's distinctive, different; they're made always of all-wool fabrics; they're perfectly tailored; they fit accurately. We feel that we're doing a man a favor to sell him such

clothes; we're making a profit for him as well as ourselves. We stand back of them, confidently knowing they'll satisfy, and ready, if they don't, to make good.

That's why we sell Hart Schaffner & Marx clothes, that's why you'll buy them. That's why we call our store the home of Hart Schaffner & Marx clothes

LOCAL NEWS.

Theo. Duerig, John Rosacker and Claus Otte left Monday morning for South Dakota to look up some farm lands.

Voget's for all kinds of field seed.

Mrs. John Coyle and Mrs. Chas. Lundgren of Sioux City were passengers to Tilden last Saturday to attend the funeral of an uncle, a brother of their father, John Coyle is at present at Leavenworth, Wash., and from a recent photograph is as bald as a billiard ball. Mrs. Coyle has been visiting her sister in Sioux City.

The P. E. O's met with Mrs. Davies last Thursday evening.

O. D. Franke and John Agler were in Winside Monday on business.

Ed. Thompson of Wessington Springs, S. D., was in Wayne over Sunday visiting his brother Neal. Ed. says he is prospering in Dakota and everything is on the upward trend.

County Treasurer Beebe is going to have one of the neatest residences in town, north of the court house. It is rapidly nearing completion.

Sixty days ago there was plenty of empty houses, for rent, in Wayne, but today there is not a vacant residence anywhere.

The "Quicker Job" washing machine, have you seen it? Almost runs without power. At Voget's hardware.

Mrs. Tom Bell is sick with small pox and her home quarantined.

The DEMOCRAT printed several hundred extra copies last week and still has a few left for those interested in the Wayne career of President Pile.

W. E. Tucker of Winside was a passenger to Omaha and Lincoln Monday and said he would get hold of the normal school tow-line if there was any room on the rope.

County Treasurer Will Kay of Ponca, was a passenger home from Lincoln Monday. Mr. Kay said the normal school project for Wayne looked promising when he left the capitol.

S. A. Bruner of Geddes, S. D., visited Wayne and Winside friends the past week.

Dan Spears is in Wayne again, selling a kitchen cabinet that beats 'em all a city block.

Mrs. E. Cunningham left Monday for Des Moines, Iowa, to visit her sister.

Mrs. Dan Harrington was a visitor to Sioux City Monday.

Universal ranges are the very best. See them at Voget's hardware.

Mr. and Mrs. Jas. Jeffries were passengers to Norfolk Sunday and from there to Omaha.

Sheniff Mears is going to sell the Holmes building, occupied by Miss Temple's millinery, next month at referees sale.

Jas. McIntosh and R. Philleo left Monday evening on a trip to Phillip, S. D., and other points in that state.

C. E. Beatty of Colfax, was here from Saturday until Tuesday figuring on the sewerage proposition.

Chas. Shultheis and A. J. Ferguson were in Sioux City Tuesday.

Mayor Ley joined the rest of Wayne's forces at Lincoln Tuesday.

A. G. Toelle of Wisner has a heart in him as big as a brick block. He sends the DEMOCRAT \$2; \$1.50 for a year's subscription and 50 cents for us to "go to Herman Mildner's and get good cigar and good drink, before Wayne goes dry."

Peter Keenan writes the DEMOCRAT from Broken Bow to send him the paper to that place.

When it comes to printing the DEMOCRAT has the expert workman who excels them all.

Edgar Howard For It.

Columbus Telegram: There is before the legislature a bill to appropriate \$90,000 for the purchase of the Wayne Normal school property.

Everybody concedes that the state could not duplicate the buildings for twice that sum. The only opposition to the proposed purchase comes from those who are pleading that the legislative appropriations be kept as low as possible. That is not a fair opposition. The first question should be: Does Nebraska need another normal school? If the state does need such a school, then the Wayne proposition should be accepted instantly, because it is certainly an economical step to acquire such a state school at half the price the state must pay to duplicate it.

No legislator who believes in the policy of creating and maintaining normal schools can consistently oppose the proposition to buy the Wayne school at such a bargain price. Of course, those opposed to normal schools should oppose a purchase at any price.

Now, Just Listen!

It is so densely quiet this spring in city politics, one could hear a pin drop, or the bottom fall out of the saloon question. At the caucus held Friday night last the attendance was smaller than in recent years, and there will evidently be no opposition to the ticket named. It was left to John Soules and Charley Martin to lead the opposition to Henry Ley's renomination, and the vote tells its own story; Jas. Britton receiving ten votes (there were a few anti-saloon adherents present) and Mayor Ley 47.

For city clerk Martin Ringer was the unanimous choice. Martin makes a good one and 'tis folly to change.

For members of the school board F. L. Neely D. C. Main were nominated to succeed themselves. The caucus then adjourned to meet at the several wards. In the First the voters waited a half hour for some good man to announce his candidacy, C. A. Chace positively refusing to sacrifice his personal comfort for another term. W. W. Kingsbury was finally nominated. In the Second ward F. L. Neely requested a new candidate put up, therefore there were three nominations, Messrs Lund, Massie and Neely, but Neely got the most votes over his protest and was declared the nominee. In the big Third Alderman Craven made an impassioned speech to be released and the voters took him at his word and put up Albert Jacobs and J. E. Marsteller. There were 24 votes cast and it was a see-saw count, J. E. being 8 to Albert's 5, then the latter taking a lead of 2 at the finish. There was just a tinge of the feeling of '07 and '08 in this contest, probably no one really caring which of these two good men got the glory, but sometimes it's a pleasant feeling to rub it in just a little bit, donchero!

Put a Lien on It.

March 12th, the day after the late President Pile passed away, R. Philleo and Son filed a lien on the buildings on east one-half of block 12, of the college properties. This includes the residence or new dormitory. The amount of the lien is \$426.70, for an account dating from Dec. 26, 1907, to Dec. 31, 1908. Comment by the DEMOCRAT on this unseemly proceeding is unnecessary. Citizens generally will place their own construction upon it without any coaching.

Make a Horse Laugh.

Winside Tribune: A Cedar county farmer had the end of his nose bitten off by a horse. It was either a lack of good taste or a lack of hay that would cause a horse to so forget his manners. Perhaps the farmer's nose had a "rye" color and a "barley" flavor. You can bet on the animal having "horse-sense."

RESOLUTIONS.

Hall of Wayne Lodge A. O. U. W. Wayne, Nebraska, March 18, 1909.

Whereas, It has pleased Almighty God, in his divine providence, to take from our midst Brother R. Armstrong, Therefore be it resolved by Wayne Lodge, No. 103, A. O. U. W. in meeting assembled, that we as a Lodge miss from our midst our beloved brother, and be it further resolved that we deeply sympathize with his family who have lost in this death a beloved father and husband, and we recommend that they look to the giver of all good for comfort and consolation in this their hour of trial.

Smallpox is Bad.

Two months ago the DEMOCRAT called attention to the reckless and ridiculous manner in which the two or three cases of smallpox were being handled. As the result of negligence and stolid indifference of the board of health we have today probably a dozen cases of the disease in town. One party, a Mrs. House, who lives north of the stand-pipe, actually sent some of her children to school while another one was broken-out, in bed, with the disease. The DEMOCRAT is told Dr. Blair was the attending physician, in the early part of this case, but that he didn't know what it was. Strict quarantine rules, well enforced, and an unselfish desire upon the part of our people generally to eradicate the disease is all that is going to save the town from something a great deal worse than we now have got. This plan of always figuring on how trade will fall off or some one will lose a dollar, or special privileges to a special class, will put the finishing touches on what is already a serious state of affairs.

Superintendent Littell Very Ill.

After a slight illness, County Supt. Littell came down town too early and suffered a severe relapse. For the past 48 hours the doctors have had to pack him in ice, it being unknown whether he has typhoid or malaria fever. A consultation was held last evening and his case considered very critical as the DEMOCRAT goes to press.

If you haven't yet selected your spring clothes, it's time you were doing so. We've got a fine display of the famous Hart Schaffner & Marx suits and overcoats ready for you. They're the kind of clothes that pay everybody in the deal. Any day that suits you, suits us.

The paper last evening contained the startling news from the Hamburg that Mr. Roosevelt was "promenading the deck." Starting news at least to some Wayne county republicans, I know, who fully expected to hear that Roosevelt was walking on the water.

After all there isn't much difference between one state legislature and another. Here's the compliment an

an Iowa exchange, pays the bunch of mouth scappers at Des Moines: "The Iowa legislature has passed a few more laws for people to disobey—that's all. Never in the history of the state was there such a cheap lot of dummies gathered together to legislate for what should be one of the greatest and most progressive states in the Union."

"Yes," said one business man, who has always voted for the license system, "I am going to vote for a dry town this spring." "But why?" asked his interlocutor, "that's why," replied the b. m., pointing to a man of the town who was just passing the door. "I figure that in time the saloons are all going out of this state. That fellow trekking past to the saloon will go to a wet town when Wayne goes dry, and we want to get rid of all such dead-beats, who only have money to pay the saloonkeeper, before the whole state goes on the water wagon."

That is rather a unique reason, by dad, but it doesn't appeal to a man who has lived in prohibition towns, not a bit of it. Wayne will have five dead beat boot leggers to every one saloon hanger. But let 'er go Gallagher! The "business man," who patronizes the saloon and can't go without his grog, is a gone goner, in short order, when he goes up against the deadly back-house bottle or drug-store dope. Let him hike for the water wagon or a ride in the cart to the cemetery. Perhaps "the sooner the quicker."

About the time a fellow gets particular about whom he takes a drink with he comes pretty nearly having to take the water wagon.

Charley Martin started out Monday morning with a threat to tie-up the sewerage proposition, and, by dad, he did it for a few weeks to come.

So writes the Methodist pastor at Allen: The giggling girl ye have ever with you. Lord give us thy grace to endure this affliction." There is hope that the giggling girl will not giggle on forever. Scientists are confident that they will soon discover the giggling bacilli and then legislatures can provide some compulsory means for their extermination.—Winside Tribune.

No need of the legislatures taking a hand. Most of the "giggling girls" get thirteen kids and a gurgling gin worker later on in their foolish careers. And city election only a few days off.

Towns in the vicinity of Sioux City should do a little more trading in that disreputable center of commerce, than perhaps the people of that metropolis would not make such strenuous efforts to protect alleged thieves and bank robbers, who make periodical trips from the burg on the big muddy to dynamite a bank for a billion or so. If the crackmen who operated at Hadar are in Sioux City, as seems probable, the man or set of men in Sioux City who put up barriers to their leaving that city, ought to be sent to the penitentiary. For weeks Pierce county has been making desperate efforts to bring the alleged Hadar suspects to Nebraska for trial, but sharp lawyers have protected the yegg men at every turn of the road and it is unlikely they will ever be gotten into this state for prosecution. Sioux City well deserves all the "mysterious murders" and hold-ups that place is notorious for, only it would be very agreeable to learn that some of her "bad actors" of the legal fraternity were sand-bagged or thrown in the river.

Supplement To THE NEBRASKA DEMOCRAT Wayne, Neb., Mar. 25, 1909

WAYNE COUNTY TEACHER

Britt Tribune: A Hancock county farmer recently imported one of those new breed of Montana hogs. These hogs have no kink in their tails like the ordinary hog, their tails are three-cornered like a file and very large. When a coyote gets after them they spring into the air, alight on their tails and with the rapidity of lightning whirl around, boring themselves into the ground out of the reach of their enemies. This farmer has a mile of fence to build and will utilize the hog to bore the post holes. He stakes the hog out where he wants a post hole and sets the dog on him; the dog bora a hole in a second and when the hole is deep enough the farmer calls it out with a pail of swill. He then stakes it out where he wants the next hole and repeats the operation. A mile of post holes can be dug in a day in this way. These hogs have such long hips that their hams reach clear to their shoulders, and the whole hog cuts up into hams and shoulders, head cheese and pigfeet; they have no tenderloin or side meat.

It is really astounding how staid and sober business men (at home) will allow themselves to be transformed into race track trouts, prize fight patrons and general all around gamblers when they think they are safely away from the prying eyes of their neighbors. Here is what J. C. Maybray, the gentleman swindler of Council Bluffs, recently captured and now in jail for his "operations," says of the sporty business man: "Admitting none of the charges against me as true, I don't mind saying that when business men go into transactions such as I am supposed to have operated, they go into them to make money on a scheme which they know is crooked and into which they would not have gone if the chances were even. Give me a tip top business man, a pillar of society and of the church and I'll show you a man ready to fall to the first chance, to get something for nothing—no matter how. All men are workable where money is involved. The higher up they are the easier seems the game."

LOCAL NEWS.

The death of President Pile of the Wayne Normal college, one day last week, was a distinct loss to the people of this state and especially to the educational forces. Professor Pile was a strong man every way, and his life was full of enthusiastic optimism—enthusiasm plus, as Elbert Hubbard puts it. He went to Wayne some twenty years ago with little or no capital in money, but a world of it in energy and push and native ability. The wide awake business men of that town took an inventory of his resources and decided that they wanted him. They bought eighty acres of land adjoining the town, laid out part of its own lots and reserved the balance for a campus—sold the lots and erected a building that was used for a college and boarding house and put Pile in charge. It was up hill business for a long time, but Pile and the college finally got in sight of the promised land. It was too bad that he had to be called hence when a great success was so close—almost within his grasp.

Nebraska had no better educator than he—none who worked harder or more effectively. All Nebraska joins in the sorrow of his immediate family and friends in this sad and irreparable loss.—Ainsworth Journal

Carroll Index: Emmett Clark and family expect to return next Tuesday to their home near Sanders, N. D. He bought two stallions at the Burruss Bros. sale last Friday. He takes them to Dakota with him. A lively runaway occurred at the Fred Schnell home east of town Monday afternoon. A twelve year old son of Mr. Schnell was driving a team to a load of corn. They became frightened and went tearing off. They upset the wagon load of corn and dragged the boy quite a distance. Before stopping the team ran through two wire fence and cut themselves severely. The lad fortunately escaped with some scratches on the face and a black eye.

Society Notes.

The Ladies Aid Society of the Presbyterian church gave a highly enjoyable social at the church parlors last Thursday evening. The new officers for the year elected last week are: President, Mrs. Britton; secretary, Mrs. Williams; vice president, Mrs. Breesler; treasurer, Mrs. John Harrington.

Miss Eva Mellor gave a delightful party to her young friends on Saturday evening. The hours were spent in various games finishing up with dancing. Ice cream, cake and confectionery were served during the evening.

People of this section of the state will learn with much gratification and satisfaction that in the fight for a state normal school Senator Fred Volpp staid with his old neighbors and business associates to the finish. As Fremont is in Fred's senatorial vineyard it would have been no more than we could expect to have him forinist the Wayne bill, but he early in the game promised his strength in our behalf, and being fully acquainted with the desirability of a state normal here and the big bargain the state was getting in the Nebraska Normal properties, he stuck like a soldier and is entitled to

Here is an old maid's essay on "Man." It is old, but will bear repeating: "A boy can sit on a sled six inches square tied to a sleigh moving eight miles an hour, but couldn't sit on a sofa five minutes for a dollar. A man will sit on an inch edge of a board and talk politics for three hours, but put him in a church pew for forty minutes and he gets nervous, twists and turns and goes to sleep. A man will punch his cheeks with flinty tobacco, juice runs down his chin, feels good, but a hair in the butter kills him. He stays out till midnight; we doesn't know where he is; comes home when he pleases, but if a meal is not ready just on time he pouts, frowns and says unpretty things. Evidently man is a strange animal. Get's full, beastly drunk, imagines he's rich, a great man, bets on losing horses, goes broke, quarrels, fights, lands in jail, eyes dressed for Easter, face freckled and morals deprived, yet he is Lord of all creation and monarch of all he surveys. Strange animal, this man."

MAKERS

Young Men==

We do not average the ages of our customers and try to make selections of styles, fabrics and fashions to satisfy old men, young and middle aged men alike. The young man who wants his way has it here, he finds clothes that are distinctively young men's clothes and clothes that are made in a young man's way with enough different fashions to give you a good chance to be exclusive.

"Kuppenheimer" makes these clothes and puts his Label in the pockets. This Label is a guarantee and it lasts to the end of the wear. They are the niftiest, the cleverest and the smartest apparel ever planned for the young man. By this we do not mean freak garments but simply snappy new stylish effects in garments for the well-informed, well-bred, particular young man.

Don't wait until Easter to get your spring suit. We can both have so much more time if you will come now and what's more you'll get several weeks more wear out of them. DON'T put it off until everybody else comes rushing in and its a case of jumping here and jumping there with each clerk waiting on at least three men and each man fretting to get away. COME NOW and we'll talk the matter over quietly, take your time to it, try on lots of coats, and we'll be sure to satisfy you. Then just think how much larger the stock is right now, how much more of a selection you will have.

Remember that Label.

Tyler-Green.

The marriage of Miss Lena E. Tyler to Dr. Gilbert J. Green was quietly celebrated at the home of the bride, Wednesday March 24th at 10:30 a. m., in the presence of a few of the near relatives. Rev. C. F. Sharpe officiating. The wedding which had been planned for a date late in midsummer was consummated at this time in deference to the wishes of the bride's father, Mr. James A. Tyler, who is very seriously ill and expected to live but a brief time. Miss Tyler has been for the past two years one of our most popular and successful teachers, and doctor Green one of our most promising professional men. The young people will be the recipients of heartiest expressions of good will and wishes for their future happiness and welfare from a host of warm friends as well as tender sympathy for the minor chords of sorrow that pervades the music of the wedding bells.

ONE good thing about these Hart Schaffner & Marx clothes is that we both make a profit on them; the man who buys them to wear really gets more out of the transaction than we do. We're satisfied because we know he's going to be. Good thing all around. Suits, overcoats; all styles; ready.

One on the "Buzzard."

If a man wants a newspaper to read just for amusement he ought to take the Omaha Bee. It's chief mission on earth seems to be to vilify and misrepresent W. J. Bryan, and its excessive zeal in the fulfilment of the mission leads it into many laughable predicaments. The Bee may be so feeble-minded that it cannot realize its own inconsistencies and contradictions, but such is not the case with all of its readers.

Some wise man has said that "liars should have good memories." The Bee cannot remember one day what it said about Bryan on the previous day, and in consequence its falsehoods of today contradict its falsehoods of yesterday.

Last Friday, the Bee headed a column in large type: "Breaking Away From Bryanism, and stated that there were 'numerous indications that the democrats of the legislature are growing to think less and less of Mr. Bryan and the theories he is advocating.'" On the very next day the Bee came out with these headlines: "Bryan Shows He is Boss. House Rejects Carnegie Pensions for Teachers at his Behest. Only Two Bryanites Against It." The Bee has two tunes which it grinds out alternately. One is that Bryanism is practically extinct, and the "Peerless" has no friends or power left; the other is, that Bryan is a czar and a dictator.

Still, the Bee's tactics are characteristic of Bryan's opponents in general. A good sized book could be made up of parallel columns showing their contradictions. In the late campaign the opposition newspapers sought to injure Bryan by saying that he clung tenaciously to all his old theories, refusing to give them up, even after they had been repeatedly repudiated by the voters of the country. At the same time it was charged that he had abandoned every issue that he had ever advocated. Getting votes by such conflicting stories is called "catching 'em a comin'" and a goin'."

Sewerage Balled Up.

The town was full of sewer contractors Monday and in the evening there were about twenty five gentlemen present at the council meeting to see the bids opened and read. A few minutes after eight o'clock Mayor Ley and the city dads held a few moments of a star session and then announced that no bids would be opened for a contract made because of an irregularity in the advertisement for bids. It was only a technical oversight but it gave room for property owners to contest the right of the city to collect for the sewerage put in, an advantage some sorehead would no doubt avail himself of. The advertisement should have contained the sum total of the engineer's estimate, to conform to the statute. The delay will be of three weeks duration, as per new advertisement in this issue of the DEMOCRAT.

ONE AMENDMENT IN JEOPARDY

KILLED; OTHERS SUPPOSED TO HAVE BEEN MURDERED FOR HIS MONEY, WHICH WAS KEPT IN SHACK.

Lincoln, Neb., March 18.—The announcement that the senate was to take action on two proposed constitutional amendments caused the gallery and lobby to be crowded with interested auditors Tuesday afternoon, most of the bills being on the floor for the amendments were senate file No. 316, providing for statewide prohibition of the liquor traffic, and house bill No. 120, which would amend the constitution, which has already passed the house.

The prohibition amendment was indefinitely postponed by a vote of 16 to 15, with the senate file No. 316 placed on the general file, the vote being 18 to 13. It is not considered probable that the sitting committee will ever bring the bill to the floor, so it is certain of death, as being a constitutional amendment, it must have 20 votes to pass the senate. It cannot get more than 19. The two members who did not vote Monday were paired, one being for and the other against the measure.

Hegeman, president of the Metropolitan Life Insurance company, must stand trial on the charge of perjury in connection with alleged misstatements made in the annual report of the Metropolitan Life filed with the state superintendent of insurance January, 1905.

WHITE SUCCEEDS NEGRO

Washington, March 18.—The long contest over the appointment of a collector of customs at Charleston, S. C., which was waged over the selection of Dr. William P. Durand, terminated today by the appointment by President Taft of Edward W. Durand, Jr., for the position. Durand is a white man.

WOMAN KILLS HER BOYS

Waukegan, Mich., March 18.—Mrs. Mat Pikes killed her two boys, aged 6 and 7 years, while they were in bed asleep. She cut their throats with a razor. Her father was at work in the mines. The only reason she gives for the act is that she could not bring them up as law-abiding citizens.

RECLUSE FOUND THROUGH HEAD

SUPPOSED TO HAVE BEEN MURDERED FOR HIS MONEY, WHICH WAS KEPT IN SHACK.

Lincoln, Neb., March 17.—The body of Carl W. Brown, an aged and miserly farmer, was found dead in his hut, four and one-half miles southwest of Valparaiso by the neighbors Saturday afternoon, with all evidence pointing to murder. There were two bullet holes in his forehead, and the skull was crushed as though with a heavy blunt instrument. Apparently the crime was committed two days before, and it is believed was done with intent to rob.

The victim was about 72 years of age, and for years had lived alone on his 80-acre farm in a big, shanty, one-room shanty. He was known to be quite wealthy, being the owner of a quarter section in Seward county, another farm near Millard, and still more land in Wisconsin.

The body was found lying on the bed in the one room which the shanty possessed. It was covered from head to foot with bedclothes, and when those were removed the crushed head was seen lying in a pool of blood. The blood had dried in a few hours, and had coagulated, showing that the death had taken place many hours before the discovery. Brown was dressed and ready for bed, and his shoes were on, showing that it had been a robbery.

SHOOTS AT SWEETHEART

Omaha, Neb., March 17.—Eliadeh Grego, an Italian, living at 1019 74th Street, shot at his sweetheart, Sadie Smith, both of which missed their mark, and then sent a bullet through his head. Grego was a rejected suitor. He had threatened to shoot the inmates of the place where the Smith woman lived, which was next door to his own home.

FILMS TAKE FIRE AND CAUSE STAMPEDE

Wilder, Neb., March 17.—During a moving picture show in the opera house last night, the lights took fire and the electrical transformer was exploded, causing a fire panic. The audience made a rush for the entrance, choking it up, and the fire, which injured none, was thought seriously. The open house was not much damaged.

NEW TARIFF BILL AS REPORTED BY PAYNE

Changes in Revenue Laws Proposed by Revisionists Are Set Forth in a Statement

Washington, D. C., March 22.—Representative Serrin, chairman of the committee on ways and means, today issued the following statement:

"The bill contains a carefully prepared section (section 9) extending the period of drawback on materials and the product of which are manufactured in this country when exported. It is believed that this section carefully guards the revenue and at the same time liberalizes the provision and will stimulate our export trade."

The bill also contains a section which provides for the collection of duties on the following articles:

"On the general average for the last 10 years, interesting the meaning of the language of the tariff laws, and framed the language of the various paragraphs of the tariff laws. It is hoped that it will prevent much litigation and will in the future give the importer a better understanding of the intention of Congress."

COOPERS GUILTY OF MURDER; 20 YEARS

Defendants Show Little Emotion—Jurors Glad Their Troubles Are Over

Nashville, Tenn., March 22.—Guilty of murder in the second degree with 20 years' imprisonment as a penalty, was the verdict of the jury this morning in the case against Colonel Dudson B. Cooper and son, Ruby Cooper, charged with the murder of former United States Senator E. W. Carmack. The jury yesterday acquitted John B. Cooper, defendant.

Immediately the defense moved to set aside the verdict because the verdict was against the law. The court asked the jury to return a verdict of acquittal. The jury refused to do so.

The jury returned its verdict after a trial of 10 days. The trial was held in the grand jury room. The jury was composed of 12 men. The trial was held in the grand jury room.

\$407,000,000 PROFIT ON NOTHING INVESTED

BY JAS. J. HILL, ET AL

Startling Disclosures Regarding Creation and Development of Great Northern.

Washington, March 22.—That James H. Hill, Lord Mount Stephen, Lord Strathcona and a few others associated in the development of the Hill railroad in the northwest have in about 30 years divided among themselves the colossal sum of \$407,000,000 exclusive of dividends, interest or other payments, and that the railroad was built and operated from an original investment of nothing, is the amazing assertion made by Charles Edward Russell in an article entitled "The History of the Railroad Problem" in the April number of Hampton's Magazine.

Incredible as this amount is, the progress of the railroad has been such that only a part of the colossal profits have been paid out. The rest of the profits have been reinvested in the railroad. The railroad has been built and operated from an original investment of nothing. The railroad has been built and operated from an original investment of nothing.

Our Lincoln Letter.

Lincoln, Neb., March 23.—(Special Correspondence)—Governor Shallenberger has signed the anti-discrimination bill introduced by Taylor of Hitchcock, and the provisions of that measure is now the law. This bill strikes at one of the worst evils that has been in vogue in the state. It has been the practice of old line elevator companies and the big creamery concerns to drive to the wall small independent companies by paying a higher price at the places in which these local concerns were located than was being paid at other places and thus compel them to do business at a loss. For instance where farmers have organized elevator companies the old line concerns have attempted to cripple them by paying higher prices for grain than the market would stand, and they made up this loss by paying a lower price at points where there was no competition of this kind. The same system worked by big creamery companies, but under the law which has just gone into effect by virtue of emergency clause the smaller independent companies will be able to obtain a free field without being harassed and then threatened with financial disaster by the organized big companies.

The house has passed a law making more stringent the penalties for selling liquors to minors. The bill provides that minors can not obtain intoxicants upon any pretext, and will prevent children from going into saloons and obtaining beer to be carried home under an order from their parents, and also provides for punishment of the bar-tender or any other person who aids them in receiving it.

A measure of a good deal of importance passed both branches of the legislature this week. It has been the custom of state officials in the past to use the stamps paid for by the state for any and all kinds of business whether official or not. Especially has this been true in campaign times, when campaign thunder was sent out to the voters under postage paid for by the state. The new law provides that hereafter all stamps purchased for official state business shall have printed across them the words "N. E. R." and a severe penalty will attach to any person using them for other than purely state business. The bill is in harmony with the postal laws of the federal government.

The fight put up in the senate last week when the bank guarantee bill was up for final disposition will go down as one of the most memorable in the state's history. Every method known to a shrewd and ingenious mind was used by the republican members to defeat the measure, or to delay its passage. Amendments were proposed by them to every section, and roll calls or divisions were continuously demanded, evidently with the hope, if the bill could not be defeated, of so entangling the record that the law might be defeated in the courts on some technicality. The democratic majority stood like a stone wall during the entire onslaught, and under the able leadership of Senators Donohue of O'Neill and Ranson of Omaha met every attack. It has been openly reported around Lincoln that a sum said to be about \$10,000 could have been divided among enough democratic members of the senate to have defeated the bill, but it is said to the everlasting credit and fame of the members not one deserted, but instead the twenty majority members resisted unitedly the attacks of the republican opposition and on every roll call or division lined up together. But in the end, when they saw that their efforts had been futile, a number of the republicans voted for the bill.

Another of the promises made to the people last fall was fulfilled when the senate passed the Fuller bill which provides that the state board of equalization cannot tamper with the total assessments made by the counties. This was one of the most glaring abuses against which the people had to complain, because of the arbitrary manner in which the state board had taken advantage of the law. The new law provides that the board may have the power to equalize assessments made by each county but takes away from this body the right to raise the total amounts levied by the county boards.

The proposed amendment to the constitution providing for the initiative and referendum passed the house by a large majority, and will come up in the senate in a short time. The former bill failed of passage in the senate, every republican in that body except two voting against it. As it requires a three-fifths vote to pass a bill submitting a constitutional amendment these gentlemen may defeat the measure.

Two years ago when the republican reformers in the legislature needed votes to put their measures through they were furnished by the democratic minority, without whose assistance the two-cent passenger rate law and other legislation could not have been enacted. Now when the republicans in this legislature have an opportunity to reciprocate they refuse to do so. They were against the banking bill after promising the people that they endorsed that principle, and they helped defeat the initiative and referendum in the senate, all because they were introduced by democrats and were democratic measures.

A quarter of a million was cut from the usual appropriations in one day by the house. One of these items was the appropriation requested for the state fair amounting to \$150,000. It was the opinion of the legislators that this big show ought to be able to stand upon its own resources. The state has been pretty liberal about this matter

READ the VERDICT

Of Wayne County People on CHEYENNE COUNTY NEBRASKA

One of the Richest, Best, Cheapest, Farming Counties in the Middle West.

I want to say to all my Wayne county friends that I went out to Cheyenne county last summer with the Kivett Land Co., and was delighted with the country. Soil is about the same as in this part of Nebraska; no alkali, or gumbo; black loam soil and clay sub-soil; fine, healthy climate and just the place for the farmer of moderate means who wants to own his own farm. ADOLPH KIEFER.

This is to certify that I have been out in Cheyenne county and was well pleased with the country in every respect. Soil is good and climate don't think it can be beat anywhere. It looks like the country for a man of moderate means to me, alright. G. SHABRAM.

Cheyenne county, Neb., is just what the Kivett Land Co. told me it was, the place for a man to grow up with the country and make some money from the beginning. Crops are good out there and I see no cause for failure in the years to come. I would advise my friends looking for a new location to visit Cheyenne county first. It looks mighty good to me. D. J. CAVANAUGH.

WAYNE, NEB., MAR. 20, 1908.
Having recently returned from Dalton, Cheyenne county, Nebraska, I will say to anyone who have money to invest in land that they will not regret the time or money spent by investigating the land for sale by the Kivett Land Co. of Bancroft, Neb., and Dalton, Neb. LINK H. JONES.
Carroll, Neb.

I, Robert Shippy, can truthfully say that Cheyenne county, Neb., is as good as O. D. Franks claims it is and would advise any man that wants to invest in land to go look at the country before buying elsewhere. ROBERT SHIPPY.

I can only say that I bought land in Cheyenne county several months ago, that I was pleased with the country and consider a land purchase out there at this time a mighty good one. The soil is first-class; good water, and I found the people who have lived there a number of year very prosperous. NEAL THOMPSON.

The only way for a land seeker to learn the good qualities of Cheyenne county is for him to go and see it for himself. I have thoroughly investigated the country and don't believe there is anything better anywhere. It has all the merits of Wayne county and a climate that beats this all hollow. Every man who sees it is ready to buy, and land is going up every day. JAMES A. THOMPSON.

In these days when people are going to Dakota, Minnesota, Idaho or elsewhere, it is a good idea to see first what we have in our own state. Cheyenne county, Neb., it is as good as any other locality I have looked over. It has the climate for the hayfever and consumptive. It is also one of the best crop countries in the west. Any man looking for a change should make a trip out there and see for himself. Every proposition will be found just as Mr. Franks put it up to me. DICK CARPENTER.

I expected to find a desert, and I saw an eldorado in Cheyenne county. The country is as represented by the Kivett Land Co., and worth while for any man to go and see it who is looking for a new location. WILLIAM BAKER.

in the past, but the sentiment seems to prevail every where that this show ought to pay its own way. The grounds and buildings have been furnished, the attendance has been immense and there is no reason why the association should have any outside help.

A bill has been passed providing that hereafter all appeals from the holding of the railroad commission shall be direct to the supreme court instead of to the district court as under the old law. This simplifies the procedure and does away with a lot of unnecessary delay in going through the various courts.

The measures fixing a license to be paid by the various corporations of the state which has passed the senate will add nearly \$300,000 to the revenues of the state and at the same time is so equalized that no hardship is put upon any of the companies that pay the tax.

One hundred of the bankers of the state, most of them owning national banks, appeared before the senate committees on banking a few nights ago and a number of them made arguments against the new guaranty law. They were notified by Chairman Volpp that they were wasting their time in efforts to defeat the measure, but that suggestions as to the amendment of the bill would be cheerfully listened to. Mr. Black, of Hastings, former president of the state associa-

tion of bankers, stated that the bill was probably the best that could be prepared.

Local News

Winside Tribune: Starting with practically nothing, J. M. Pile built up and made the Wayne college what it is today. Ninety-nine out of every hundred, others have failed—perhaps if Mr. Pile had failed he would have been alive today—but in spite of every handicap he fought on and won. There needs be nothing else about him to commend him to and as an example to all men. Perhaps if he had not been a scholar and brilliant man with a host of virtues he would not have succeeded, but that matters not. He made life a success and because he did so, he will be remembered, not for what he might have done as most men are, but for what he did do. No nobler tribute can be given any man.

Ed. McManigall of St. Charles, S. D., was in Wayne the latter part of last week, and reports six inches of snow in that country.

I wish to say to any interested that Cheyenne county looks good to me. I went out there skeptical as to the country, but found it just as represented and what I consider a good place to invest. Soil and climate can't be beat even in Wayne county; land is very reasonable and will, I believe, make a big advance in price in the near future. MRS. W. A. WILLIAMS.

Cheyenne county is just as good as Wayne for farming, and the climate is far ahead of this. They raise good crops out there on one-third of the money you have to invest in a Wayne county farm. I found no alkali nor gumbo, but a rich loam soil, and the air—you Wayneites ought to get a whiff of it, you would use no other. W. A. WILLIAMS.

Having personally examined Cheyenne county, I consider it by far the best new country I ever saw. The land is level with a clay sub-soil and very productive, water fine. O. S. GAMBLE.

To my friends in Wayne county—go out to Cheyenne county and see what a fine farm you can get, with the best of soil, water, climate and good markets. I for one don't believe it can be beat any way you look at it, and I have knocked around enough to have learned a little something. The Kivett Land Co. certainly gave me a square deal in every respect and I expect to make big money on my investment. JOHN W. BANISTER.

I want to say for Mr. Franks' benefit, who took me out to Cheyenne county, that that country is just what he told me it was in every respect, and that I believe it is the best, money-making place on the map today. JNO. LARISON.

To my Wayne county friends I can say that I bought land in Cheyenne county last August, and am well pleased with the country. I have been out there since and I like it even better than upon my first trip. Farmers appear all prosperous and land is going up all the time. Old settlers all doing well; haven't missed crop in ten years. One party who has lived there 22 years told me the average corn crop for ten years had been 30 bushels per acre, and it is not supposed to be a big corn crop country. Wheat runs from 15 to 42 bushels per acre, oats an average of 44 bushels for years past, and as high as 62 bushels per acre. I asked one man if he would take \$15 per acre for his farm, which adjoined land for sale by the Kivett Co. at that price, and he said it was not for sale at any figure. E. A. CHICHESTER.

I, the undersigned have been out to Cheyenne county, Neb., with O. D. Franks and find the country as good if not better than Mr. Franks claims it is. The land lays fine and the climate could not be better and the water is all good, the soil cannot be beat and the price is cheap. The average crop list is 30 bushels of corn, 25 to 40 bushels of wheat, 40 to 60 bushels of oats. Go out and look at the country. Yours truly, W. A. HUNTER.

I want to say to those that are looking up a location or have money to invest and want to put money in land that in my opinion will thrive in value in a very short time, look up Cheyenne county, Nebraska. It is just what Wayne county was twenty-five years ago. Anyone who has or will go and look the country over will certainly be pleased with the country. Sincerely yours, D. A. JONES.
