YOU may be as particular about your clothes as you like; about style, about the cut and model, about fit, about quality; you may even think you can't get what's good enough ready-made.

All right; that means you haven't seen our new suits from

Hart Schaffner & Marx and that means, if you're as sensible as we think you are, that you're going to see them before you spend any clothes money.

We tell you this: For style, for tailoring, for models, for all-wool, honest quality of fabrics, no tailor or clothier can match them; and we know it. It's money in your pocket to let us prove it; and you'll get better clothes than usual.

Shall The State Purchase the Wayne Normal College?

The House recently passed a bill appropriating \$90,000 for the purchase of the Wayne Normal college and it is to be highly commended for so doing. There are many who are in the county who have had the pleasure and profit of qualifying themselves through this Normal school under its present management. It was built up from nothing by the late Mr. J. M. Pile, whose character and standing as an educator and business man was second to none in the state, and, having greatly overtaxed himself in the interests of education, it is quite evident that the business strain of managing the institution will be too great for his family. Rather than permit to fall into disuse or improper hands, anticipating the end, Mr. Pile, in his lifetime consented to sell the same to the state for at about half of its actual value.

This is a great state. There are many young men and women just blossoming into young manhood and womanhood who are desirous of obtaining a much better education than can be obtained in their home school districts, and, since the state should afford ample facilities that best investment that the legislature can make this year in the purchase of the Nebraska Normal at Wayne, and cause it to become one of her great institutions. It is located as to be to the greatest benefit in this part of the state, and the many hospitable homes in the city of Wayne and its high standing and character as a normal town, should appeal strongly to the Senate where the bill is now pending.

While this is to be an economical administration, it is false economy to reject such an excellent proposition when it can be obtained at half price and in the interest of education.—Madison Star.

Death of Jas. Tyler.

Jas. Tyler, the old gentleman taken to Rochester a few weeks ago passed away at the home of his daughters in Wayne last Friday evening. It had been the wish of the dying man that he be taken to his old home, the farm cracker took away life, but he became so ill the first of last week that traveling was out of question. A short service was held at the home last Saturday morning and the remains taken to Kearney for burial. Dr. and Mrs. Green and Miss Tyler accompanied the cracker. The funeral being held on Sunday.

Mr. James A. Tyler was born at Franklin, Indiana, May 6th, 1848, and died at Wayne, Nebraska March 24, 1909, aged 60 years, 10 months, 20 days. He was united in marriage to Sarah Swift of Franklin, Indiana, March 8, 1867, and they had six children five of whom are still living, one having died in infancy, those still living are R. E. Tyler of Lexington, Neb.; D. E. Tyler, of Omaha; Mrs. George Rader of Bloomington, Indiana; Miss Margaret Tyler and Mrs. G. J. Green, of Wayne.

No "Uneeda" in Theirs.

Not so many years ago the cracker trust strenuously objected to the law compelling them to mark the net weight of packages of their crackers. They had too good a snap selling a carton made of a very cheap straw board at costing less than 2 cents a pound as crackers at 10 a pound and threatened to withdraw their business from the state if the law was enforced because its enforcement would cause them to go broke. The pure food commission, however, failed to see how a cracker put up for shipment right out of the oven and perfectly dry could "lose weight" later on. The trust in a pout closed their factory in Omaha and left the state, but it has developed in their advertising campaign that they are at a profit in Nebraska and the law complied with too, so the trust has concluded to come back and be good and they have opened up a campaign of advertising for which they pay just about twenty-five per cent of the rate paid by the home advertiser for the space and in addition to the space and the paper getting these cracker crumbs is expected to laud the cracker trust to the skies as everything that is desirable and good. People who are in their right mind will continue to patronize the anti-trust products. Abas the trust anyhow.—Norfolk Press.

Casey is Killed.

Editor Boughton of Walthill was a passenger home from Randolph last Monday and reported the killing of Tom Casey, a young farmer, whose body was found Sunday morning on the Burlington railroad track near Randolph. Casey had been to town and gotten full of booze, and it is presumed that he lay down on the track and the train ran over him Saturday night. He was still alive Sunday morning, but was dead before the parties who found him could arrive at Randolph.

Tom Casey formerly lived near Wayne and he had a son who was notorious here as a booze-fighter. The old man had been to Belden and was walking home on the track, when he lay down and took the rail for a pillow.

Talk Daylight Saloon

At the city council meeting Monday night some interesting topics were discussed. The petition of citizens to repeal the liquor ordinance and make the town dry, was turned down unanimously, it being the opinion of the aldermen that the people should vote on it as called for in the petition, if the council declined to knock it out. Accordingly the question has been placed on the ballots, to repeat or not to repeat. If you vote for no saloons you must make an X in the square to repeal ordinance 121, as "I vote yes—X. A vote for a wet town will be an X after "I vote no." Providing the dry issue does not carry and the saloons are granted license it will be optional with the city council to make it a daylight saloon, from 7 a. m. to 7 p. m. On this question the present board is undecided, but they are apparently all in favor of closing saloons from Saturday night until Monday morning, that is, not to allow saloon keepers nor their bartenders to open up their places for cleaning out nor to even unlock doors for any purpose. It is also apparent that the city dads will refuse to grant more than two saloon licenses next year, and the license will probably be raised from \$1000 to \$2500 per annum.

The matter of charging batteries of automobiles, etc., at the city plant was discussed. It appears Geo. Griffith had presented Alderman Strahan with a bill for charging his auto battery, and an investigation led to the fact that the city was furnishing the power, and Alderman Strahan wanted to determine that the city got the coin for the electricity. Electrician Moler was present and explained that he had made proper charges against Mr. Griffith for the electricity, but it was decided that hereafter the city, or Electrician Moler, would do this business and the city get what profit there was in it. So, if you have auto batteries to charge, even parties living in adjoining towns, we'll do the work in first-class shape at about \$1.00 per battery.

The council also decided to at once build an electric light line on Second street west to Jake Dornberger's residence, thence north to Jake Roush's residence. The work to be done right away. A considerable number of light patrons are promised on this route, and the streets need lighting.

Bills against the city were ordered paid as follows:
H. S. Hignard, ft. and ex. \$349 87
C. B. Evans & Co., coal. 172 75
Henry Foltz, labor. 5 50
Duncan Electrical Mfg. Co., sup. 70 55

Chas. Pepperman, salary. 50 00
George Griffith, labor. 21 05
Klopp & Bartlett Co., sup. 5 55
Mr. Leindecker, labor. 50
James Nichols, labor. 9 75
Fred Henricks, labor and rent. 4 25
George Bush, hay. 7 30
The following election boards were named: 1st ward, Pat Dixon, judge; Ralph Rundell and C. A. Chace, clerks. 2nd ward, John Mastie, judge; Frank Gaertner and Art Norton, clerks. 3rd ward, P. L. Miller, judge; Gene Root and A. Bressler, clerks.

Died.

Mrs. Hannah Walter, mother of Mrs. Henry Ley, died at the home of her daughter last Sunday, after a few weeks illness. The remains were taken to Shakopee, Minn., for burial. Mr. and Mrs. Ley leaving on the Monday morning train for that place. The funeral was held on Wednesday.

Grandma Walter was born Jan. 19, 1823, in Indiana, and moved to Shakopee, Minn., many years ago where her family was reared. Mr. Walter died in 1898 and since that time Mrs. Walter has spent her winters with a daughter, Mrs. Southworth, at the old home and the summers with her daughter's family in Wayne. Another daughter, Mrs. Boylan, lives at Lakin, Kans., and a son in Delmas, Ill., all of whom were to be at the funeral. Deceased had been greatly troubled with neuralgia for over forty years, but her death was painless, coming from old age and a general wearing out of the faculties.

The Deere No. 9 Leads the Field Why?

Because it leads in accuracy—actual accuracy. We demonstrate it. Because it leads in perfect checking, independent of speed of team. Because it leads in easy operation. Instantly changed from hill to drill. Has spring lift. Automatic reel, perfect foot drop, etc. Because it leads in simplicity and strength of construction. Front frame is tied in eight places. Because it leads in substitution of malleables in place of common castings at all vital points. Because it leads in lightness of draft. No strain on the check wire, hence no side draft. Because it leads in ability to successfully plant not only corn, but practically any kind of seed. Because it leads in number sold each year—and this number is every year increasing.

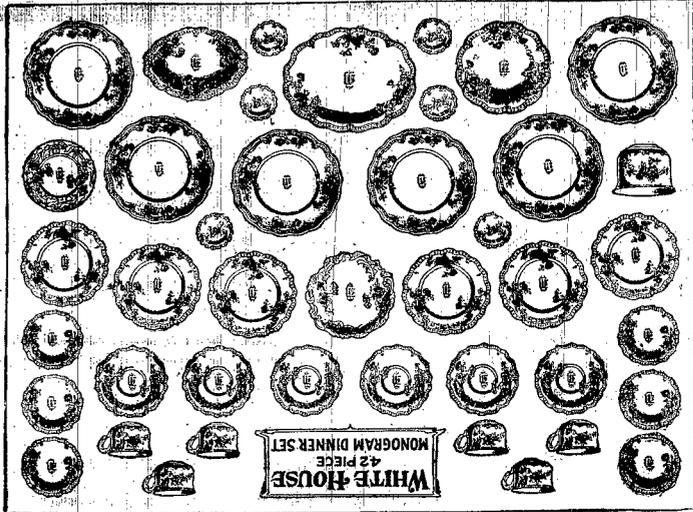

Drop in and get a copy of our booklet, "More Corn— and Better Corn." Contains a lot of boiled down practical seed/corn information.

Senate Passes School Bill 17 to 16
GOV. SHALLENBERGER WILL SIGN THE BILL.

About one o'clock Tuesday afternoon a message from the Norfolk News brought the joyful tidings that the senate committee had passed the Wayne state normal bill. Tuesday evening P. H. Kohl phoned up that the vote in the committee of the whole was a tie, 16 to 16, one senator being absent, the lieutenant governor casting the deciding vote in Wayne's favor; that the vote in the senate looked like 16 to 17 against, and for the people up here to be prepared for the worst, although they, Kohl, Britton and Bressler, would not take their clothes off that night. Wednesday at ten a. m. the biggest and best news of all came that the bill had carried, 17 to 16. Dr. Williams, who got home from Lincoln this morning, says Tibbetts of Hastings changed. Senator Tibbetts' name had been called two or three times by the clerk; still hesitating, he was told by a colleague that a "nay" for Wayne meant death to a Tibbetts' pet bill for a school in the western part of the state. Tibbetts wavered and—WAYNE WON.

Late last evening another scare—came from Lincoln. Fremont had a petition 1300 miles long, containing over 5000 signatures, asking the governor to veto the Wayne bill. A mass meeting was at once called in Wayne; E. Cunningham presided, and in 30 minutes some 60 Wayne men were turned loose all over northeast Nebraska. Some took teams and some night freights. The hero of the band was Jim Miller, who took a team and started on a 40 mile night drive to Ponca. A second chapter in the petition business started this forenoon when a message came from Lincoln that the petitions might be too late; to have them wired in. An hour later telegrams from towns all the way from Ponca on the east to Bloomfield, Norfolk and Fullerton on the west, were pouring in to Gov. Shallenberger to sign House Roll No. 139. The only man in the state who declined to do this little favor for Wayne was Editor Kenower of the Wisner Chronicle. Petitions signed by some thousands of Northeast Nebraska people were taken to Lincoln this afternoon by Judge Welch, Chas. Reynolds and D. A. Jones.

While everybody feels certain that Gov. Shallenberger will sign the bill; if he doesn't, ? ? ? ? ?
 The house adjourned today, and the senate is supposed to, but may "stop the clock" and run for 72 hours. The state takes possession of the Wayne normal July 1st—if the governor does not veto the bill.

Our Lincoln Letter.

Lincoln, Neb., March 30.—(Special Correspondence)—Republican newspapers have been unable to point to one single law placed on the statute book by this legislature that any fault can be found with. That is the serious trouble with these fellows. This is evidenced by the fact that the Omaha Bee a few days ago attempted to twit the legislature because they had not passed an anti-injunction measure, when every thinking person knows that this is not of consequence, so far as the state government is concerned. Our republican brethren are pretty hard up for thunder when they resort to inconsequential matters of this kind. The law makers have fulfilled every pledge made to the people and the record will bear the closest investigation.

Governor Shallenberger has vetoed the bill which would have permitted the licensing of a saloon at Fort Crook. There has been a wide difference of opinion as to the merits of this measure, and many of the legislators voted for it because of the fact that the colonel in command of the fort favored it. The governor's action in refusing his sanction to the law is being generally commended.

The passage of the new oil law is one of the best things done by this legislature. This bill was prepared and introduced after consultation with the state oil inspector and his department. Heretofore under the old law Kansas oil has been excluded from this state and this fact has rebounded to the interest of the Standard Oil people. The new law admits this oil and it is conceded now that the measure will save to the people of this state a quarter of a million dollars the first year. Several changes have been made. Under the old system oil was inspected only with reference to its inflammability and without reference to its quality. A good deal of complaint has been heard about this. Kerosene oil has been placed upon the market that stood the flash test, but admittedly of the poorest grade. It will now be one of the oil inspector's office to test oil both as to its quality and inflammability. Considerably credit is due to Inspector Mullen for the consummation of efforts that should have been made into laws years ago.

The Ollis warehouse law bill has passed both branches of the legislature and will be the law. This is a measure of far-reaching importance, and is one of the wisest laws placed upon the statute books. It provides for the establishment of warehouses in the state for the storage of grain. Certificates will be issued by these bonded warehouses and these will at once become negotiable. It is conceded that the price of grain in this state has always been pounded down by manipulators of the market just at the time that the great bulk of it was ready for the market. There is always a class of fellows who have to sell and thus prevent any organized opposition to cutting down the price. This new law will prevent all this. Grain may be stored at very little cost and held until prices adjust themselves, and the man who stores it can realize upon his certificates, thus preventing the necessity of selling at any price that may be offered. Several of the southern states have enacted this principle into law and thereby enabled the cotton raisers to resist the efforts of the cotton manipulators to get the commodity at their own price.

For the first time in the history of the state a law has been passed fixing the salary of the clerk of the supreme court and his assistants. Nobody knows how high the revenues of this office have run, but it is known that they have been enormous, and that this office was one of the juiciest from a financial standpoint in the state. It is generally conceded that the enactment of the new law will increase the revenues of the state at least \$10,000 each year, enough to pay off in six years the accumulated wolf bounty claims. The old method of running this office is a relic of the spoils system of politics, and the legislature is to be commended for its reform in this direction.

Another bill passed by the law makers at Lincoln is one that will receive the endorsement of every right thinking citizen. This is the law that prevents the collection of campaign contributions from office holders. It has been the custom in the past for the committee in charge of the campaign to assess every holder of republican proclivities. Postmasters, revenue officers, court reporters, everybody that drew a salary, was notified to come across with the sum named by the committee or run the risk of having his political head decapitated. Under the wise provision of the new law this will be prevented and heavy penalties exacted from offenders.

Governor Shallenberger sent a special message to the legislature requesting the passage of a bill with which he accompanied his message providing that public service corporations shall be under the control of the railroad commission and that they shall not be permitted to issue new notes, bonds or stocks without the permission of the commission after an investigation by that body, and only when the new issue is for money needed in improvements. The governor has taken an advanced stand on all questions relating to the control of corporations. In his speech at the Bryan banquet and again in his message to the legislature enclosing the new bill he vigorously demanded the passage of the bill providing for the physical valuation of railroads. He contends that it is the only proper method upon which to base

READ the VERDICT

Of Wayne County People on CHEYENNE COUNTY NEBRASKA

One of the Richest, Best, Cheapest, Farming Counties in the Middle West.

I want to say to all my Wayne county friends that I went out to Cheyenne county last summer with the Kivett Land Co., and was delighted with the country. Soil is about the same as in this part of Nebraska; no alkali, or gumbo; black loam soil and clay sub-soil; fine, healthy climate and just the place for the farmer of moderate means who wants to own his own farm. ADOLPH KIEPER.

This is to certify that I have been out in Cheyenne county and was well pleased with the country in every respect. Soil is good and climate don't think it can be beat anywhere. It looks like the country for a man of moderate means to me, alright. G. SHABRAM.

Cheyenne county, Neb., is just what the Kivett Land Co. told me it was, the place for a man to grow up with the country and make some money from the beginning. Crops are good out there and I see no cause for failure in the years to come. I would advise my friends looking for a new location to visit Cheyenne county first. It looks mighty good to me. D. J. CAVANAUGH.

WAYNE, NEB., MAR. 20, 1908.

Having recently returned from Dalton, Cheyenne county, Nebraska, I will say to anyone who has money to invest in land that they will not regret the time or money spent by investigating the land for sale by the Kivett Land Co. of Bancroft, Neb., and Dalton, Neb. LINK H. JONES.
Carroll, Neb.

I, Robert Shippy, can truthfully say that Cheyenne county, Neb., is as good as O. D. Franks claims it is and would advise any man that wants to invest in land to go look at the country before buying elsewhere. ROBERT SHIPPY.

I can only say that I bought land in Cheyenne county several months ago, that I was pleased with the country and consider a land purchase out there, at this time a mighty good one. The soil is first-class; good water, and I found the people who have lived there a number of years very prosperous. NEAL THOMPSON.

The only way for a land seeker to learn the good qualities of Cheyenne county is for him to go and see it for himself. I have thoroughly investigated the country and don't believe there is anything better anywhere. It has all the merits of Wayne county and a climate that beats this all hollow. Every man who sees it is ready to buy, and land is going up every day. JAMES A. THOMPSON.

In these days when people are going to Dakota, Minnesota, Idaho or elsewhere, it is a good idea to see first what we have in our own state. Cheyenne county, Neb., it is as good as any other locality I have looked over. It has the climate for the hayfever and consumptive. It is also one of the best crop countries in the west. Any man looking for a change should make a trip out there and see for himself. Every proposition will be found just as Mr. Franks put it up to me. DICK CARPENTER.

I expected to find a desert, and I saw an eldorado in Cheyenne county. The country is as represented by the Kivett Land Co., and worth while for any man to go and see it who is looking for a new location. WILLIAM BAKER.

I wish to say to any interested that Cheyenne county looks good to me. I went out there skeptical as to the country, but found it just as represented and what I consider a good place to invest. Soil and climate can't be beat even in Wayne county; and is very reasonable and will, I believe, make a big advance in price in the near future. MRS. W. A. WILLIAMS.

Cheyenne county is just as good as Wayne for farming, and the climate is far ahead of this. They raise good crops out there on one-third of the money you have to invest in a Wayne county farm. I found no alkali nor gumbo, but a rich loam soil, and the air—you Wayneites ought to get a whiff of it, you would use no other. W. A. WILLIAMS.

Having personally examined Cheyenne county, I consider it by far the best new country I ever saw. The land is level with a clay sub-soil and very productive, water fine. O. S. GAMBLE.

To my friends in Wayne county—go out to Cheyenne county and see what a fine farm you can get, with the best of soil, water, climate and good markets. I for one don't believe it can be beat any way you look at it, and I have knocked around long enough to have learned a little something. The Kivett Land Co. certainly gave me a square deal in every respect and I expect to make big money on my investment. JOHN W. BANISTER.

I want to say for Mr. Franks' benefit, who took me out to Cheyenne county, that that country is just what he told me it was in every respect, and that I believe it is the best, money-making place on the map today. JNO. LARSON.

To my Wayne county friends I can say that I bought land in Cheyenne county last August, and am well pleased with the country. I have been out there since and I like it even better than upon my first trip. Farmers appear all prosperous and land is going up all the time. Old settlers all doing well; haven't missed crop in ten years. One party who has lived there 22 years told me the average corn crop for ten years had been 30 bushels per acre, and it is not supposed to be a big corn crop country. Wheat runs from 15 to 42 bushels per acre, oats an average of 44 bushels for years past, and as high as 62 bushels per acre. I asked one man if he would take \$15 per acre for his farm, which adjoined land for sale by the Kivett Co. at that price, and he said it was not for sale at any figure. E. A. CHICHESTER.

I, the undersigned have been out to Cheyenne county, Neb., with O. D. Franks and find the country as good if not better than Mr. Franks claims it is. The land lays fine and the climate could not be better and the water is all good, the soil cannot be beat and the price is cheap. The average crop list is 30 bushels of corn, 25 to 40 bushels of wheat, 40 to 60 bushels of oats. Go out and look at the country. Yours truly, W. A. HUNTER.

I want to say to those that are looking up a location or have money to invest and want to put money in land that in my opinion will thrive in value in a very short time, look up Cheyenne county, Nebraska. It is just what Wayne county was twenty-five years ago. Anyone who has or will go and look the country over will certainly be pleased with the country. Sincerely yours, D. A. JONES.

WAYNE, NEBRASKA

With reference to the law asked for by him he says that no reasonable mind can object to the passage of the law, and that no corporation wishing to do business on the square could find fault with its provisions. It has been the custom in the past for public service corporations to issue stocks and bonds largely in excess of the value of their property, thus compelling the payment of exorbitant rates in order to pay interest on these bonds, and at the same time deceiving the investing public. Under the proposed law the public would be protected in the purchase of stocks and bonds because the sanction of the railway commission had been given, and the law making power would know the exact valuation of corporations when they attempted to fix rates.

The governor has signed Mr. Kuhl's bill which provides that the state conventions shall be held the last week in July, so as to have the platforms adopted prior to the holding of the primary. The bill requiring that all campaign contributions must be published before the election has passed both branches of the legislature and is now the law.

As an evidence of the manner in which business is expedited by the men in charge of the records in both branches of the legislature it might be mentioned that on Wednesday Governor Shallenberger's bill prevent-

ing the issuance of stocks and bonds by corporations without the permission of the railway commission was introduced in the house and read the first time. On Thursday it was read the second time, engrossed and passed on Friday. Under the old system this legislature would have probably adjourned before the bill got back from the printer.

The house has passed the bill providing for the appointment of a beer inspector, whose duties will be the inspection of all beer made in the state. The cost of this falls upon the brewers and it is admitted that the law will have the effect of netting to the state treasury about \$150,000 per year.

We're determined to excel--in clothes selling--and we do

We're going to do some great stunts in outfitting this season. Men who buy here may not pay as much as others but they'll be the best dressed men you'll meet. You want individuality in clothes as well as perfect fit. We have 25 different models and hundreds of patterns to select from, and we guarantee satisfaction. You would be surprised to know what a majority of the better dressed men in the U. S. have a Kuppenheimer Label in their inside coat pocket. They have learned to look for it--and demand it. You can have it too--without extra cost.

We say, in all sincerity, you'll have nothing to regret if you let your spring suit be a Kuppenheimer--you'll get so many little things that you won't find in common clothes--all-wool linings and a guarantee that covers everything even to the buttons. They are all sewed with pure silk; the colors are guaranteed absolutely fast--these things all count--all go to make you better dressed. They should have your consideration.

Come now and look, will be glad to show you and you'll find every thing just as we state. You'll find this store a pleasant place to trade.

"REMEMBER THE LABEL."

District Court Callings.

Judge Welch rendered seven decrees of divorce last week, there being eight applications, each case decided by a *quid pro quo* agreement. Those made happy by a return to single blessedness were: Effie E. Hanuse vs. John F. Hanuse, Maud Marshall vs. Ed. J. Marshall, Amanda Wagener vs. Peter Wagener, Mary N. Tilson vs. Jos. N. Tilson, Lizzie Maeker vs. Lewis Maeker, Clara B. Shafer vs. Thos. Shafer, Ella Brown vs. Wallace Brown.

The first jury case was that of R. E. Fish vs. Tom Sundahl. This case was first started in 1905, in justice court, at Wadsworth. Sundahl took a check of venue to Carroll, and the jury at Carroll gave Sundahl a judgment for \$200.00. Fish appealed the case to the district court, and after the evidence was all in Judge Boyd instructed the jury to return a verdict for Fish, the plaintiff. Sundahl appealed the case to the supreme court and secured a reversal last fall, and the case was remanded to the district court for a new trial, and was again tried Monday, the jury returning a verdict for Sundahl, which means a great victory for the latter. The plaintiff sued for a balance due, amounting to about \$130.00 on a promissory note, which note was given for a threshing machine. Sundahl put in a counter-claim for a judgment, which he claimed to be due to him, and discounted to per cent. of the purchase price, which he claimed Fish agreed to allow him, and did not comply with his promise. The district court allowed the note, and the jury returned the verdict for the plaintiff, and the defendant moved for a new trial, which has been granted. The case was conducted by Fish, and E. A. Berry has conducted the defense for Mr. Sundahl since the matter got into court, which is a pretty good win for Mr. Berry as well as the plaintiff.

The next case called for trial was Fred Warnemunde vs. Martin Erickson. The plaintiff claimed that at an auction sale held last October held by the defendant, Martin Erickson, he purchased a three-year-old horse, and claimed that the defendant warranted the animal to be well broke and sound in all respects. The defendant admitted the sale and the warranty, and contended that the horse was all

right, and that if the horse did balk as alleged by the plaintiff that it was the fault of the plaintiff and not the horse. The evidence on the part of the defendant showed that the horse had been worked all spring by himself and family, including a twelve-year-old boy and a couple of girls. The most of the jury were selected Monday evening and on Tuesday morning it developed that the plaintiff, Warnemunde, had asked one of the jurymen, Utecht, to protect him in the case as they were both Germans. The court released Mr. Utecht from the jury and ordered a complaint filed against Warnemunde, which was done and Warnemunde plead guilty and was fined \$25.00 and costs. This is the first conviction had in this county upon the charge of tampering with the jury. The opinion seems to prevail that the defendant ought to have gone to jail for at least two or three months.

The jury brought in a verdict for Warnemunde, making Erickson take the horse back. Ecklund vs. Mildner and others was demurred to by defendant and same sustained by the court. Maps and Hazen vs. Peter Jensen, verdict for plaintiff.

State vs. Brady dismissed. Mrs. Nieland vs. Stodden and others, demurred by defendant, sustained by court. Louise Dornberger vs. Effie Repine, motion to dismiss sustained by the court. This is the auto damage case and it will go to the supreme court. The same program will be followed in the case of Howser vs. Repine.

Ethelyn Moler vs. Carroll continued to June 14th.

Flak vs. Jones and Clark vs. Jones, settled.

Cross-Root

The wedding of Miss Florence Cross and Guy Root was solemnized yesterday at noon at the home of the bride's mother in Wayne. Rev. Parker Smith officiated and after the ceremony Mrs. J. M. Cherry, aunt of the bride, served a grand wedding dinner. After a trip to Omaha the young couple will reside on a farm near Sholes.

The bride is one of our brightest girls and one of Wayne county's school teachers, having been raised and educated in Wayne, in the public schools and the Nebraska Normal. The groom is a fine young man, a son of W. H. Root of Carroll. The family is known throughout the county, being among those who had a part in developing the county to be settled here in 1880. The many friends join in wishing them joy and success in life.

Put her there, Phillip. The Herald last week stated Rev. Osborne was away out west, taking the stump against the saloons. The DEMOCRAT man has been on earth a few years and we honestly believe that Rev. Osborne has done more for the saloon element than any dozen anti-prohibitionists ever laid claim to.

Burlington Gazette. Did you ever notice a group of little girls between the age of fourteen and eighteen chattering away in a corner? The next time you sit near such a group listen and hear if every tenth word is about what "he said." If it is you have found some more of the "he-said" girls, and they are not the nicest little girls in the world. The "he-said" girls are likely to loaf down town after school too late to help their mothers with the afternoon work. They are likely to wear a little better clothes than their fathers can afford, so that the neighbors wonder what their mothers can be thinking about. The "he-said" girls also too often think more of boys than of their books, and frequently fail to get through school. They are in for a time, and have nothing in their heads but hair pins and two-steps. Sometimes nature takes a girl out of the "he-said" family and makes a fine woman of her, but generally she gets to going out to parties and is developed before her time, and either marries and fades away at twenty or hangs on after all the other girls are married off, and takes generation after generation of young boys to raise by hand, and becomes known as "grandma" in the crowd. There is nothing so sweet as a simple, frank, open hearted girl. But the boy struck girl is an abomination. The whole matter rests with the girl's mother. She can bring up one of the "he-said" girls or she can have a daughter to be proud of.

The New York Telephone company has been asked to adopt the title "phonist" as the official designation of a telephone operator. That might be all right with some people, but "Hello, honey" will still be a favorite with some of the Wayne boys.

If you are looking for a sinche bet that Jim Dahlman will be re-elected mayor of Omaha. If you want to lose a piece of money call on the DEMOCRAT, by dad.

I asked a jurymen on the horse case in court why Martin Erickson lost and Fred Warnemunde won, and he said, "when a fellow pays \$162 for a colt he expects to get something for his money." Say, that just shows the merit of the jury system. If you ever bought anything at auction and got swindled take it into court and recover your money.

An Iowa editor will never be punctured so long as he practices as he preaches, as follows: "I have a chance to get an automobile by paying half cash and half in advertising. That looks like a snap, doesn't it. But I think I will continue to enjoy the 'joy riding.'" That means to ride in someone else's auto and let the poor sun-fagun pay for the repairs and the damage suits.

Mrs. Carrie Chapman Catt of North Dakota, U. S. A., is spreading the light of liberty and independence among the "oppressed" women of Austria. Probably many of the women of Austria never knew what trouble was until this old Catt got to clawing around amongst them.

Have you tried a "promoter?" It is a new drink in Wayne. The other day one lusher said to another: "Say, you buy the whisky and I'll get the eggs." This was readily agreed to. The man got the eggs, but he said to the merchant: "Say, you furnish the eggs and I'll buy the whisky." "Agreed," said the merchant. The drinks were mixed for three, and two paid the bill. "Where do you come in?" said one of the two to the third. "Oh, I am the promoter," said the smooth individual. "I have the brains and the appetite. You fellows have the money." And that's the game, no matter whether it's a mining deal, an insurance snap or a land agent. The "promoter" is the only fellow who "gets something for nothing."

All honor to the men of Wayne who worked the proposition: it puts the people here at home in glorious condition. The male or female who can't shout unfurl the college banner! He is the big stinker who has got the most contemptuous hammer. Poor, rot, Fremont, who couldn't get a bit of consolation, can go 'way back, sit down and out, and feed on self-damnation. She didn't ken the kind of men, Wayne had in Lincoln working, a dog ne'er knows when 'guns go off, the lead that's never shirkin'. But anyway, we got the grapes, the vines were hercely shaken, bring on the bird! anork the juice! for a bit o' that 'I'm takin'.

The day of the fly, the bothersome fly, is drawing nigh; uncomfortably nigh; the pesky mosquito, with an unsatisfied bill, is coming his long-thirsty carcass to fill; the house-cleaning days we men so despise, the hull frog, too, with his croaking noise, the street-walking girls and the base ball boys; the days of spring fever, the days of Lent, when we don't feel like trying to jay up a cent; the--whoa! Machine's busted.

April fool today, but the biggest damphool in Wayne is the carcass who wrote an anonymous letter to the speaker of the Nebraska legislature, telling him that the fellows up here who wanted the state to take the Wayne Normal college were a bunch of grafters and land sharks. Say, Mister! the skulking coward who wrote that letter has a yellow streak in him so wide and so long that his body is too

despicable to adorn a telegraph pole, with rope trimmings. That Lien looks awfully lean to the leanest of the lean, nowadays.

After the way the Whitla kidnaping affair ended, some men in Wayne concluded to stick to chicken stealing.

"Thelma" was alright as an actor, but her beauty didn't drive any of the Wayne boys loony. An echo from the winter's blizzard. Mrs. E. B. Phillips was anxious for her two brothers to come over from Vermillion and as the trains were not running she wired. "Send Hyde boys by first train." When the telegram was received it read: "Ship hides by first train." The boys came.

A letter from Hugh O'Connell, Kenebec, S. D., calls for the DEMOCRAT and states that they are well and busy sowing wheat, March 26th.

Geo Martin was down from Carroll Tuesday, or rather Randolph, where he had been assisting in caring for the remains of Tom Casey. George says Mrs. Casey was prostrated with

grief and is taking her husband's shocking death terribly to heart. Casey was at Belden Saturday and when picked up near Wareham Sunday morning still had his railroad ticket, from Belden to Randolph in his pocket. He had one foot and limb crushed, and died soon after being found, probably more from exposure than his injuries. Jack Casey, a son, had his leg broken last Tuesday, at his home in Gregory.

W. M. Roberts left yesterday morning for Shelby, Ia., upon receipt of news that a child of Mrs. Roberts' sister was dying. Mrs. Roberts has been in very poor health for some time with heart trouble and unable to accompany him.

Mrs. A. Lutgen left yesterday morning to visit at Sterling, Neb. Margie Kohl entertained at a Somerset party on Tuesday evening, the young people having a splendid time. Eva Mellor, for winning the most games received a nice book and Jamie Britton a fancy inkstand. Pete Lewis received the booby prize, but after he uses that big bar of yellow soap he will be able to "beat 'em all."

Drop Corn Planter

You Can Drop 2, 3 or 4 Kernels in a Hill Without Stopping the Team or Changing Plates

A small hand lever within easy reach of the operator does it. It checks accurately, slow or fast, it is never out of time. Dribbling of the corn cannot occur. Why fool away your time with an old style common planter, when you can get the quick change machine, planting only as many in a hill as it will stand. Get your orders in early for this planter, as we will run short on these when planting time comes.

The electrocution of Mrs. Farmer is one of the most shocking, blood-curdling tales ever seen in print. It may be a "legalized murder," but to the average mind it is worse than any mob-murder the DEMOCRAT ever read of. To frightful ends will civilization and law bring humanity! The DEMOCRAT believes the legal execution or taking of a woman's life is a most damnable outrage against society, and the publication of the particulars of such an affair even worse.

It was all right for Whitt to thank the press and the police, but the principal thing had to be thankful for was the fact that he had the \$10,000 to put up.

Carrie Nation arrived in this country from Europe ten days ago and isn't in jail yet.

"The women are handling the tariff bill without gloves," says the Sioux City Journal. Yes, and they are trying to keep their stockings from getting too high.

Alfalfa clover and Timothy sold at the feed mill.

An Antiseptic Baby and a Prophylactic Pup

Were playing in a garden, when a Bunny gamboled up.

They looked upon the creature with a loathing undisguised.

For he wasn't disinfected, and he wasn't Pasturized.

They said he was a Microbe, and a Hothead of Disease.

They steamed him in a vapor bath of a thousand old degrees.

They froze him in a freezer that was cold as banished hope.

They scrubbed him with permanganate and carbolated soap.

With sulphuretted hydrogen they bathed his wiggly ears.

They clipped his frisky whiskers with a pair of hard-boiled shears.

Those country papers running "Uneda Biscuit" advertisements are certainly in the "uneda money class.

The contract for this ad calls for 1682 inches and the DEMOCRAT, which has probably a larger circulation than most of the county papers, was offered the magnificent sum of \$45 for the work. The paper that will charge local patrons \$168.20 for work that it takes from a great trust at only \$45, or even a little more, must have a good, religious, conscience.

Saturday is blue tag day at Neely & Craven's Hardware.

N. W. Ayer & Son, advertising agents of Philadelphia, are now writing their numerous newspapers in Nebraska (that took advertising contracts at 20 per cent of local rates) to fight the anti-trust legislation in this state.

Even such great reform sheets as the World-Herald felt an easy prey to this "cheapest advertising" agency on the globe.

Let me show you the latest spring fashions and quote your prices before you buy a ready-made suit.

HENRY SCHROER.

Expect if some of our small-pox patients were sent to the hospital the surgeons would operate for appendicitis, would they not?

The "Quicker Job" washing machine, have you seen it? Almost runs without power. At Vogel's hardware.

Edgar Howard in Columbus Telegram: The other day a personal enemy came to me with outstretched hand and these words on his tongue: "I wish you would take my hand, and join me in an effort to quit playing the fool. Life is too short for two men as big as we ought to be to refuse to speak to each other—too short to make it worth while to carry animosities." I took the hand of the keen fellow, but I have been wondering ever since whether I was more subdued by his confession that he had been playing the fool, or more swelled up by the compliment in the other part of his speech. But no matter. I am glad I had the courage to take his hand.

With a dry Wayne and a wet Winside, the latter town will be the busiest place on Wayne county's map.

Eighteen years ago today A. P. Childs, then in business with the present DEMOCRAT scribe, wrote some April fool jokes for publication that look foolish enough nowadays.

The Randolph Times and Enterprise set more type in airing their personal grudge, against each other than any other paper in the state, and all over something that is unintelligible to the general public.

Carroll Index: Otto Black met with a piece of hard luck yesterday. He had a \$300 horse lay down and die. The cause of death was distemper. It is feared that more horses in that neighborhood may come to the same end as the disease has shown itself in several places. The caucus of the citizens party was held Friday evening as per the call issued. The routine business was gone through without a hitch or the slightest friction. The nominees of the caucus for members of the town board are Arthur L. Tucker, for the term of one year; August Miller and John Melick for a term of two years. The resolutions adopted provide for the propositions "For the saloon" and "Against the saloon" shall be placed on the official ballot so that the voters may have an opportunity to express themselves directly on the saloon question. We believe that the results of this caucus will prove conclusively the fact that the system of choosing candidates is better than any other. The final hearing in the suit of Bredemeyer & Tracht against Frank Obst was had at Winside Monday. The result was that Bredemeyer & Tracht secured a judgment for the full amount of their claim \$121.77. This will end this suit unless the defendant appeals, which he must do within ten days.

The Wayne Roller Mills are paying 10 cents above market price for good milling wheat.

O. D. Francis, Howard Whalen and other parties along the line left Tuesday for Cheyenne county.

Herman Vohlcamp now has a dandy electric light plant on his farm, for residence barn and to charge his automobile. A gasoline engine makes the necessary power while being used to run a cream separator and dynamo and small storage battery doing the rest. There isn't anything backward about the modern farm of the 20th century. F. L. Neely says the Inter-National people are putting out quite a number of these farm light plants.

Hitch Up to a DEERE Disc

USING this spring pressure harrow, you get your soil pulverized thoroughly, and in condition to grow the biggest crop you ever raised. The extraordinary flexibility of every hard or uneven spot. It leaves small mounds, and cuts out dead furrows. This excellent harrow meets all demands. Built in all sizes, from four to nine feet width, with 16, 18, or 20-tine discs. Our famous hard-wood bearings, oil-sealed straight oil tubes, with spring plunges to exclude dirt, steel shanks set edge-wise for greater clearance. One piece, heavy, high carbon steel frame. Steel levers and rocks for angling gangs. Double leaf, oil-tempered seat springs. Scrapers of springing type, greatly improved over all others. Stub holes for set-over hitch and convenience in storing. Nothing slighted, but all details fully and practically worked out.

Come in and see us and keep posted. We have but strong features above. Or drop us a post card, and we will promptly send detailed prospectus free. Deere goods are of the highest quality, and satisfy the most exacting. Ask for our latest catalog. The whole subject of gathering, selecting, curing and testing the seed, as well as the best methods of planting, are fully explained in the Deere corn book. The book for the man who wants better corn. Useful and handsome pocket ledger tree.
