Hard on the Land.

Columbus Telegram: An attorney for the Omaha brewery combine makes the argument that people will buy liquor by the wholesale and drink it after eight o'clock, the closing hour under the new daylight saloon law. If that is the case then why should the brewery combine protest against a law which will increase their sales? An Omaha brewery attorney is as hard to please as the farmer in Chris Gruenther's story. The farmer was rich, but he was always dissatisfied. If the weather was wet, he prophesied that crops would be destroyed by floods. If there was a week without rain he insisted the hot winds would destroy everything. One day the farmer came to town and reported a yield of eighty bushels of oats per acre on his farm. That ought to have pleased the farmer, but far from it. He shook his head almost despairingly when he told of the enormous yield of oats. One of his neighbors asked him why he appeared to feel so sad, when indeed he ought to feel good over such excellent crops, and then the pessimistic farmer replied: "Yes, it is a good crop, and it will bring a fine price, but just think how hard it will be on the land to raise such a crop as that."

Same Thing In Wayne, Only 17 Years.

Columbus Telegram: An Omaha paper is making a desperate wait because the department stores have combined and agreed to do no advertising in that paper. Well, that is not much to cry about. Here in Columbus the lumber dealers have such a well-oiled combination that not a one of them has carried an advertisement in The Telegram during the past seven years. And in the face of all that persecution we are still able to say that there are some pretty good fellows in the lumber business in Columbus. They are like most men would be in their place. They have a good graft, and the are milking it while the sunshines. Go to it, boys!

A. B. Clark Gets a Verdict.

After many long months of waiting by the litigants Judge Welch last Saturday handed down a verdict in the Perry vs Clark lawsuit, an action commenced by Edward Perry to prevent A. B. Clark from running the water from tiling the Clark farm—onto the plaintiff's land. The case was taken under advisement by Judge Welch last fall. Mr. Perry informs the DEMOCRAT that he will carry the matter before the supreme court. The verdict was arrived at as the DEMOCRAT understands, from an Illinois decision, that all water must have a natural course and that a party cannot prevent, by law, the flow of such surplus. L. M. Owen says they had just such an experience in Illinois, and the same verdict by the courts, but that the party who was damaged by such overflow, from his neighbor, could collect damages for the damage sustained thereby.

Our Lincoln Letter.

Lincoln, Nebr., April 27.—(Special Correspondence.)—The republican papers still maintain their charge of extravagance against the late legislature, and by comparing totals make it appear that the republican legislature of 1907 was a model of economy as compared with the democratic legislature of 1909. But a careful investigation of the facts will reveal quite the contrary. It is true that the total amount appropriated in 1909 exceeded the amount appropriated in 1907: No one will care to deny the fact, nor is there any necessity for denying it. But the democratic legislature of 1909 had to appropriate a total of \$160,000 to take care of deficiencies created by republican managers of state institutions. And the state institutions during the next two years will cost more to maintain than they cost during the two years under the Sheldon administration. For instance, the legislature of 1907 appropriated for the penitentiary on the basis of 325 convicts. There are 427 convicts in the big prison today. The same ratio of increase is found in all of the other state institutions.

Two years ago Governor Sheldon vetoed building appropriations amounting to about \$400,000, although he admitted that the new buildings were sadly needed. His claim was, however, that the expenditures must be kept inside the revenue. And when he issued the vetoes helpless inmates of the Hastings, Lincoln and Norfolk asylums were sleeping on cots in halls, sleeping in attics and basements, sleeping two in a bed; and the feeble-minded children in the Beatrice institution were forced to sleep in unfinished attics and in damp basements. The 1909 legislature appropriated \$500,000 for new building in which to house these helpless and dependent wards of the state. Yet with the same levy and the increased expenditures for new buildings and for educational purposes the present biennium will end with more money in the treasury than was left under the Sheldon administration.

The total appropriations of the 1909 legislature look bigger than the total appropriations of the 1907 legislature for the simple reason the 1909 legislature had to take care of all that the 1907 legislature left unearned. Adding the \$160,000 deficiency to the total of the 1907 legislature, and subtracting it from the total of the 1909 legislature, and the difference between the two totals is not large enough to excite comment. Take into account the growth of the state institutions and the difference is wiped out. And then give the 1909 legislature credit for \$500,000 of new buildings and \$700,000 more for educational purposes—all without adding a single iota to the tax rate. When you analyze the facts you will discover that the 1909 legislature was one of the most economical in the history of the state.

Another charge industriously circulated is that the Shallenberger administration exhibited an awful hunger for political pie. This charge is founded on the fact that the legislature gave into the hands of the governor some appointments heretofore in the hands of other state officers. But in doing this the legislature only went back to the system in vogue prior to the election of William A. Poynter. The republican legislature, in its greed, took a lot of appointments away from the demo-pop governor. The legislature of 1909 merely gave them back. When Governor Deitrich succeeded Governor Poynter he made a clean sweep of the Poynter appointees. Governor Shallenberger has not done so. There has been no change in the Girls' Industrial School at Geneva; no change at the Home of the Friendless. A score of important clerkships in different departments directly under the governor are still retained by republicans True, a number of these are women, and they are being retained because of efficiency. But the continued charges of "hunger" made by republican organs is endangering the situation of these people.

The state board of printing, formerly made up of the treasurer, secretary of state and auditor, but now made up with the governor in place of the treasurer, refuses to recognize the law which gives the appointment of the secretary to the Governor. The two republican members of the board insist on retaining the republican secretary, who receives \$1,000 a year. The governor will not contest this decision. He will merely replace a \$2,500 republican secretary on another board with a democrat. If the majority of the printing board had not grown "cheesy" the \$2,500 secretary would probably have been retained.

Any farmer in Nebraska who is proud of his farm and would like to see a picture of it in a bulletin issued by the Bureau of Labor and Industrial Statistics, may have his desire gratified by sending a photograph of it to the bureau. Deputy Commissioner Maupin is making a collection of such photographs for use in advertising the "barren wilds of Nebraska."

Governor Shallenberger was the guest of Kansas democrats in Salina last week.

State Treasurer Brian went to Montana last week to negotiate for \$700,000 worth of Montana bonds as an investment for the Nebraska permanent school fund.

City Council Meeting.

Minutes of a regular meeting of the City Council of Wayne held on April 26, 1909. Meeting was called to order by the mayor with the following members present: Mayor Ley, Councilmen, Neely, Strahan, Jones, Chace, Craven and Stringer. Minutes of the last meeting read and approved.

Mrs. Kohl, Mrs. Chace and Mrs. Cunningham, as a committee, requested that the council name a day to be observed as "General Cleaning Day." Motion made and 2nd that the mayor issue a proclamation naming Saturday, May 8th, as cleaning up day and that he order the whistle blown and bells rung on that morning as a reminder of the day. Motion carried.

The following bills were then allowed:

Fritz Kay, labor	\$ 3 75
G. W. Grimm, labor	14 85

Dan Legan, labor	8 00
C. B. Owens, labor	7 00
P. G. James, labor	7 00

The contracts for the out-let and sewer district was made with Contractor Lana, his bond being also approved.

Ordinance 172, licensing hawkers, peddlers, circuses, etc., was passed and ordered published, also ordinance 173, regulating the sale and conduct of saloons and drugstores. These ordinances will be found on another page of the DEMOCRAT.

The matter of fixing the license fee for saloons was argued for consideration. Some aldermen wanted it raised to \$2500, and others considered that with a daylight provision it should remain at the old figure, \$1000. The sentiment of the administration is for only two saloons, and perhaps the only way to cut down the number of applications is to raise the ante.

Proclamation by the Mayor.

Knowing that we have the best and cleanest town in the state; which means that Wayne has the best and most enterprising citizens in any town of its size in the state. Therefore, be it resolved that we all go to work at once and clean up the rubbish in the alleys. And it is the wish that we set aside Saturday, May 8, 1909 for the final wind-up of the cleaning. There will be a committee visit on you on above date. So have your alleys and yards in fine shape. The whistles may blow and the bells ring to remind you that it means time to clean up. HENRY LEY, Mayor.

A Radical Departure.

There never was a time in the history of the world when good stories and articles could command such large prices as they do today. It is an extremely expensive thing to publish a high-class magazine nowadays, filled with the best products of the most famous authors and artists.

Yet together with its many attractive features THE CHICAGO RECORD-HERALD furnishes its readers with its Sunday Magazine section that compares

favorably with the best weeklies and monthlies, and has some merits peculiar to itself. The most famous writers and illustrators contribute to it. Some of the choicest novels of the year are published serially in its columns before they see the light in book form. The best new humorist since Mr. Dooley began writing is a regular contributor to its columns alone. To furnish such a magazine with every copy of a Sunday newspaper is an amazing venture, yet the experiment has proved a complete success and is now firmly established.

Not for Prohibition.

One of the best short sermons on prohibition that we have read is the following from Rev. Smith of Sioux City, clipped from an Iowa paper: "I am not yet convinced that we are in a position to want a state prohibitory law, desirable as such a law may be if it were possible of enforcement. The enactment of a prohibition law is admission of the fact that the citizens of our state are unable to control themselves and their appetites. I believe we should rather bend our energies toward the education of our young men that they will handle this matter for their best interests without coercion and legal enactment. The best policy for a state or nation to pursue is to build up character and not foster moral cowardice. I well remember conditions in Maine. I have counted upon the streets of Portland from twenty-one to 120 drunks at a time. Conditions were worse than in any wide open city I have ever seen. When the churches and other societies have crystallized a sentiment against the liquor traffic then we will be able to enact a prohibitory law without resultant disregard thereof, but not yet. A law broken and disregarded openly by the people is worse than the evils of intemperance in its ultimate effect on the people as a whole."

Iowa has always had the reputation for doing things in a proper manner, but no more pertinent illustration of this has come to our attention than the following from an exchange: "The entire back of his head was smashed off and the brain was lying on the track! His left arm was cut off completely and his left foot all mangled. The foot was so securely held in the guard rail that the shoe was pulled off and it was picked up after the accident. Wilbur Miller took the body to his undertaking rooms and fixed it up, and to the surprise of everybody, patched him up so that he was quite presentable. It was a work of art from the undertaker's standpoint. Everybody was surprised that he was presentable."

The Windside Tribune complains because so much band talent is going to wait in that burg. Same thing here in Wayne, but it isn't talent that people usually brag about, and the waste wait is the natural place for it to get lost at.

"If I was as big as that man I wouldn't do anything but go around kicking other people where they sit down," remarked Jonas Ecker of the Tribune, last Saturday, as he sized up the champion full-back foot ball player of the United States, Jas. Wilhelmi.

"Well, I know a few that I would kick right away," I replied. Then we interviewed the subject of the discussion, a man who stands 6 foot ten and well proportioned, weighing 300 pounds in this flesh. "Yes, I've tried that," he re-

plied, "but I found that there were others, and I was continually pounded up fore and aft. It was up in the logging camps that I got my experience, among those long-haired Scotch Canadians and Frenchmen. Another proposition I learned was that it wasn't the big man who was the best man, but the nervy, iron-muscled fellow with the strong muscled heart who made the best scrapper."

Editor Ecker was a visitor from Windside Saturday. In speaking of the advertising of saloon applications Mr. Ecker stated that a newspaper is not compelled to publish such notices unless it is first shown that it is the paper of "largest circulation in the county," and that therefore it was no doubt the modesty of the Wayne Herald that forbade its making any such legal showing.

A resident of "Piety Hill" asks the DEMOCRAT to please request the young ladies who promenade about the sacred precincts of that vicinity after dark to not wear white sweaters, that the "dark hand" around their waists worry his eyes and makes him feel bad.

SCOTTS BLUFF COUNTRY

UP THE
FAMOUS NORTH PLATTE VALLEY
OF NEBRASKA

Best Irrigated Lands In the West

Thirty thousand acres fertile land in a splendid climate, watered by one of the biggest irrigation systems in the country. No Nebraska land of equal area will support more families.

Men from the Greeley district of the South Platte country say the advantages of the North Platte are superior--and the prices are one-fourth to one-third. Read again: Think.

Tuesday, May 4th, we begin the sale of the famous Tri-State land at Scotts Bluffs, Neb., said to be the finest single body of irrigated land in the United States, embracing 30,000 acres of which 10,000 acres will be sold immediately.

under the Tri-State canal can never be questioned. It is this fact that is bringing so many of the Greeley, Fort Collins and Fort Morgan farmers to the Scotts Bluff country, who all declare its land and water equal to or superior to anything in Colorado, while the prices are only a fraction of the Colorado prices. This magnificent body of land at Scotts Bluff represents the best there is in irrigated land. The two big canals, the government and the Tri-State, represent a combined cost of nearly \$4,000,000, which is an evidence of the value of the lands.

This land is owned by the Tri-State Land Company, of which E. A. Cudahy is president; and is under the Great Tri-State Canal, one of the largest systems of irrigation in the west, constructed at a cost of \$2,000,000. Six four horse teams, 24 horses, can stand abreast across the bottom of the canal, which for the first few miles is ninety feet wide at the bottom. It is half again as large as the immense government Pathfinder canal. Its headgates, dams, intakes, wasteways and drops are wholly constructed of steel and reinforced concrete. Its every part represents the highest achievement of modern engineering skill and workmanship.

Speaking of the irrigated land, just remember: First--Irrigated land produces the maximum every year. Your Eastern Nebraska and western Iowa land never produces the maximum, because even if you get just enough rain at the right time for one crop it would destroy part of another.

The Tri-State Land Co. has practically the first water right out of the North Platte river, and for an immense amount of water. When it is also remembered that the south Platte waters all the Colorado irrigated land at Fort Collins, Greeley, Fort Morgan, Brush, Sterling and Julesburg, and supplies only one-fourth as much water as the North Platte, the sufficiency of water

Fourth--While your Eastern Nebraska land will go up to \$150 per acre, it may then stop, or it may go back to \$50 or 75, like the same land did in Pennsylvania, Ohio and New York. But your irrigated land, increasing its fertility and producing power each succeeding year, will do like the other irrigated land in this country and Europe--go on up to \$200, \$300, \$400 and \$500--per acre, and will not simply "keep you," but will make you rich.

Second--On your eastern land you raise 40 bushels of corn on an average at 40 cents a bushel, at a cost of \$8, leaving you \$32 clear profits. We will take you to many men at Scotts Bluffs who raised 250 to 400 bushels of potatoes per acre and sold them at 40 cents, this year considerably higher than that; 15 to 25 tons of beets at

This land lies so perfectly that a flat price of \$70.00 per acre has been fixed on all uncultivated land and \$80.00 upon cultivated land; hence the first excursionists have the choice of the entire tract. Our second excursion on Tuesday, May 4, will be made especially attractive, and each agent is limited to two buyers. A regular excursion will be run every two weeks.

One price to all--\$70.00 per acre for uncultivated, \$80.00 for cultivated. First come, first served, no favorites.

Irrigated Lands advance steadily to \$300 and \$500 per acre; they never go back. Think once more; act.

TERMS, one-fifth cash, balance in nine annual payments, commencing at the end of the second year, at 6 per cent interest. The profits annually from the crops on this land will more than pay the deferred payments and interest.

Edward Perry was in Norfolk yesterday on legal business.

Ami Lewis was on his way home to Wayne from the soldiers' home at Burkett last Tuesday when he suffered a stroke of paralysis, after leaving Columbus. For a time the passengers on the train thought Mr. Lewis was dead, but he revived somewhat, and was brought to Wayne from Norfolk on the afternoon train, Ted Perry going up to meet him. Mr. Lewis had a stroke about two years ago, and the second one came near taking him off. He is still a very sick man.

Mother's Day to the Men and Boys

The second Sunday in May is coming to be a unique day with men and boys of America for this Sunday is being observed as Mothers' Day.

Many of you are familiar with the ideals and purpose of the day but some may not have heard.

On this day the men and boys of America are asked to pay special tribute to their mother. Many ways of doing this will suggest themselves but the following have been suggested by the originators:

1. Wear a white flower.
2. If she is with you show her a special act of kindness.
3. If away from home write her a letter.

4. If she has been called to a better home honor her by being the man she would have you be and do a kindness to some one's mother.

Ministers are asked to promote the spirit of the day by having "Mother" as the theme of at least one sermon.

We hope that someone will have enterprise enough to see that white carnations are placed on sale Saturday May 8, and every man is urged to enter the spirit of the day and do honor to the greatest power for good on earth.

Many of the current magazines are devoting space to the movement and its observance will be widespread.

A Highly Successful M. D.

"Nothing succeeds like success," and to have success at this strenuous stage of living you must have a lot of the "get there" spirit, enthusiasm for your work, and a crowning desire to do and do better than anyone else has done.

That evidently was the aspiration of Dr. A. Lutgen when he located in Wayne, for he went after the business of making the sick well and curing the defects of nature in the human race, just as though there were no "professional ethics," and it was his duty to do his fellowmen the best "burn" they had ever received in their lives.

The doctor has been in Wayne quite a while now; has performed twenty-five or thirty operations; some of them perhaps of slight importance as general public interest goes, but of a lively interest to the parties more directly concerned. The DEMOCRAT has yet to hear a "whimper" of criticism of Dr. Lutgen's skill as a physician and surgeon, and our readers know that if we had substantial information that he was not a k they would have read about it in these columns. This is not an advertisement; simply a little "flower" handed one whom we believe worthy to wear it. Gesundheit, doctor!

The first rain storm of the season, last night, was a severe one. The rain and hail came down in bucketfuls.

Joe Jones was a visitor from Carroll yesterday.

Ami Lewis is some better today and will no doubt recover from the stroke of paralysis he suffered yesterday enroute to Wayne from the Soldiers Home. His son Jack says the sudden sickness was caused by not getting any sleep Tuesday night, the train leaving the home at 3 a. m., and the attending excitement making the old gentleman very nervous.

When the train they came back on pulled out of Elgin that town was completely burned down with the exception of one building and it was on fire. The loss was several hundred thousand dollars.

The accident is not, however, of sufficient magnitude to keep "Gil" from the track, and he was out on a pair of crutches yesterday and drove a greater part of the day.

The Eastern Star ladies and their husbands, the Masons and their wives, were the guests of the O. E. S. on Monday evening at the Masonic hall, a delightful evening being spent. One of the pleasant features, was the floral work put on by Mesdames A. A. Welch, Mines, Neely, Naffziger, Davis, Craven, Marsteller, Kohl, and the Misses Craven and Nangle. The ladies being all gowned in white, with a profusion of lovely cut flowers, made the figures very pretty and impressive; and although they were greatly handicapped in starting, the work was beautifully done, calling forth hearty applause.

Refreshments consisting of sandwiches and coffee, ice cream, strawberries and cake were served at small tables, the orchestra playing during the interval. The evening was finished with table games and vocal selections.

After a short visit at Gregory and Herrick, S. D. the young couple will make their home on a farm seven miles northwest of Wisner where their many friends will wish them a successful marriage career.

Mrs. Conover very pleasantly entertained the Rural House Society on Thursday last week, a goodly number of the members being present. Mrs. Parker Smith and Miss Laura Conover assisted Mrs. Conover in serving a very nice dinner. It being the final meeting of the year, the election of officers was in order. Mrs. Bressler, president; Mrs. Clarence Corbit, vice-president; Mrs. McIntosh, sec. and treas.; and Mrs. Chas. Sellers, press correspondent. At the request of Mrs. Conover the ladies gladly consented to the filling of a card with dimes for her to help in the erection of the new Baptist church. It was also decided to give \$5.00 to the Christian Home of Council Bluffs. The House then adjourned to meet with Mrs. Bartlett in May.

Dr. Lutgen the past week operated on Rasmus Johansen and Miss Muller.

Miss Lucy Jones is in the city visiting her friend, Miss Edna Kass.

In connection with the Fourth Latin American Medical Congress an international hygiene exposition will be held in Rio Janeiro in August, 1909. During 1907 57,679 applications for patents were filed in the United States patent office and 36,620 patents were issued. Over 100,000 applications for patents were filed and over 700 patents were issued on the average, each week of the last year. This represents an excellent record in government fees alone of more than \$1,000,000. It is estimated that these applications were probably more than \$5,000,000.

Jefferson D. Thompson, chairman of the Vanderbilt cup committee, has declared that enthusiastic owners find merits that motor car manufacturers dare not claim. "A young woman," he said, "once showed me proudly a very cheap, very light car, which she had bought. 'Awfully light, isn't it?' said I. 'Yes,' said she. 'Isn't it splendid? Whenever it breaks down we can always push it home.'"

Concerning the prejudice against whistling on Sunday in Scotland this story is told. Two men who had done a week's work on a Sunday morning went to divide the plunder. One of them began to whistle over the division, when his companion said with horror, "Hoot, hoot, I would not have a cent of it if I had known you would whistle on the Sabbath."

Servants in their good nature and love of humor are said to be peculiar travelers of the Irish peasantry. They are hospitable to strangers, their patriotism is vehement, almost quixotic, and they take great interest in politics. They are very fond of their own cities and come from abroad, as the Serbian girl is too independent for domestic service.

A man more absolutely governed by pure reason than Lord Macaulay could not be found, but in his diary he refers to an after-dinner talk about the evening which he had just had, and thinking oneself bound to touch a particular rail or post and to tread in the middle of a paving stone, and he adds: "I certainly have this very strongly."

The largest grapevine in the world is 120 years old and is at San Gabriel, Cal., planted by Franciscan friars. It forms the summer dining place of the San Gabriel hotel.

He has to pay for his business income, for the interest he borrows, for his house rent, his furniture, on six fireplaces and on all the stoves in the house he rents or owns, on his horses, and on servants. On an income of \$2,400 a year he pays \$320.

SHOOTS COFFEE CUP AND PLUNKS BULLET IN HEART

Farmer Tries Marksmanship on Chinaware Before Turning Gun on Himself.

Elkhorn, Neb., April 26.—George Eggers, a prosperous farmer living a mile and one-half north of Elkhorn, shot himself through the heart Wednesday morning about 9:30 o'clock, while in bed. Death was almost instantaneous. Mr. Eggers had been in Omaha Tuesday and returned late at night and was seemingly depressed. Wednesday morning he did not get up at the usual time and about 9:30 his wife took a cup of coffee into his room and placed it on a chair near the bed. As soon as she was gone Eggers drew his revolver, shot the cup into pieces and then sent a bullet through his heart. No reason except his being depressed over the operation of his 160-acre farm can be ascribed. While he was prosperous financially, his business cares seemed to weigh on his mind. He had evidently bought the revolver while in Omaha, as he was not in the habit of carrying one.

Mr. Eggers came here seven years ago to the height of a party at the Poppon ranch. He leaves a wife and eight children, most of them grown.

DEAD MISSIONARY LIVED IN NEBRASKA

Omaha, Neb., April 26.—Missionary Howard C. Baskerville, who was killed recently at Tabriz in an engagement between the Moslems and the Turks, was formerly a student of Bellevue college near this city, coming there from Spearfish, S. LEAGUE TO ENFORCE DAYLIGHT SCHEDULE

Lincoln, Neb., April 26.—The daylight saloon law will be enforced in Omaha, South Omaha and all over the state. If the county attorneys, with whom the law rests prosecutions, do not perform their duty, the governor will be asked to either begin proceedings against them or to appoint special attorneys to be furnished by the Anti-Saloon league. This was the decision arrived at in a meeting of the trustees of the Nebraska Anti-Saloon league held here. President Warwick, in a statement given to the press, says that the league will make enforcement of that law its special aim and work for the next two years. Arrangements were made whereby the league will take a hand next fall in the selection of judges and sheriffs to the end that friends of the law man those offices.

NEXT BATTLE GROUND FOR PROHIBITION TO BE IN NEBRASKA

Omaha, Neb., April 26.—Nebraska is to be the next battle ground in the general campaign for prohibition, according to the report of the national president of the Women's Christian Temperance union, who at Miss Anna Gordon, vice president, is in the city conferring with officials of the Prohibition league. Mrs. St. Louis, Neb., said Omaha was chosen the location of the national convention this year, principally on the grounds that conditions in this state were regarded as the most favorable for a prohibition amendment, and that the full force of the union will be centered here in 1910. The holding of the national convention here next October is regarded as the real opening of the campaign.

PAUL REVERE'S HOME IN BOSTON RESTORED

Boston, April 26.—The anniversary of Paul Revere's famous midnight ride was the occasion of the opening of the Revere homestead at Nos. 19 and 21 North Square, which has been restored nearly to its original condition by the Paul Revere Memorial association. It was from the door of this house he went forth on his historic ride on April 19, 1775. The house was bought by Paul Revere in 1770, and was lived in until 1800, throughout the revolutionary period. Through the efforts of the association the house has now been brought back to the little low-studded, two-story dwelling house with a sharply pitched roof covered with hand made shingles. The restoration of the building was modern, had three stories with a store on the ground floor.

MAY PUT HAINS ON STAND.

GOTHAM FLOODED BY COUNTERFEIT COIN

Quarters and Half Dollars Are of White Metal, With Little Silver, and Sound Dead.

New York, April 26.—Dozens of secret service operatives are searching the city for the source of the best counterfeit quarters and half dollars ever foisted off on the public. The coins first appeared about two weeks ago, and were considered classed as they are looked upon as the sporadic output of foreigners and did not receive more than usual attention.

But the number of the counterfeiters increased for the reason that in such a widespread area that the treasury department was obliged to adopt heroic methods to discover where they were coming from. It became evident that they were not the product of a single die or mold, but more probably the output of a plant established on a large scale in or near this city by men who planned carefully for the circulation of a great number of the coins.

The coins are made of an alloy of white metal and silver, but the silver is used so sparingly that the counterfeiters have not even as much "ring" to them as the cheap leaden imitations. They seem like the genuine article to the touch.

Many persons receiving the bogus coins say they got them in change from street car conductors, and the counterfeit in this way is made less liable to detection. For the reason that the counterfeiters have not even as much "ring" to them as the cheap leaden imitations. They seem like the genuine article to the touch.

Bank cashiers and others have received notice of a new counterfeit two dollar silver certificate, connected with August 4, 1886, series of 1889, with the check letter B. The plate number on the bill is indistinct, but is probably 884 or 984, and bears the signature of W. T. Miller, registrar, and John D. Deane, treasurer. The new counterfeit is a poor photo-mechanical production on a fair quality of paper and is poorly colored.

LEFT WITH BABY, FED IT TO HOGS

New Orleans, La., April 26.—Increased because his stepmother had left him at home near Opelousas, La., in charge of his young stepbrothers and sisters for the day, Tom Godfrey, a 12-year-old negro boy, for the youngest of his charge down to the hogs and later with an ax inflicted what probably will prove fatal wounds on the heads of the other children.

Three children were injured. The stepmother reported the triple crime to the parish authorities and Tom was placed in jail at Opelousas. She says she found the baby in the pen with the hogs when she returned home late yesterday. He nuzzled and feet had been eaten off, but it was still alive.

She straightaway whipped Tom and when she went for a doctor to attend the baby, Tom seized an ax and attacked his 6-year-old stepbrother, inflicting several deep wounds. His young stepister interferred and he crushed her skull with the ax. The girl is dying and the other two children have little chance for recovery.

Strong and Lasting Flame. Many are the uses to which the vapor stove designed by two Copeys that can be put in apartments or small rooms it is particularly convenient, but there are a hundred and one other uses in which it can be utilized. This stove consists of a stand with a large space for holding the alcohol which supplies the heating power. A glass bar regulates the flame, which is regulated by a curved pipe and rising air, which supplies the fuel as it is needed. A key at one side of the stove regulates the flow of alcohol and another regulates the rate of burning, which is either low or strong. This stove can be used for hours at one filling and is both handy and cheap. There is no risk to trim and no wasted fuel. It is not in the least objectionable, and the supply of alcohol remains for another lighting. On top of the stand are little supports to hold the cooking dishes, saucers or whatever receptacles are used to cook with.

Mr. and Mrs. Mel Norton went to LeMars Saturday morning to attend the funeral of Mr. Norton's mother, Mrs. John Brown. Deceased visited her son in Wayne a few years ago and was one of a party of grand dames who gathered at the home of Mrs. Norton. She was 86 years of age last January. The death of this good woman recalls long forgotten days of the DEMOCRAT man. During the grasshopper days of the 70's in western Iowa, when a quarter section of land was an even snap for a broken-down team of horses—from the street car company in Chicago—the Browns lived about three miles from where the writer wintered—several of them—on corn bread and corn mush. John Brown was a soldier, and his step-sons—three Norton boys—made a houseful. They were accounted well-off in those days, and Mrs. Brown was the best cook and the most generous woman to a squad of hungry boys that ever lived. Sundays a bunch of us boys used to walk "to the Browns," and after a bath in the creek close by, fool about the barns until Mrs. Brown called "dinner" which meant plenty of roast beef, custard pies and cake. Among the fellows who spent many a happy Sunday at her table were Thos. E. Boland, now a well-known lawyer of Council Bluffs; the late P. H. Boland of LeMars, Iowa, who was for years postmaster of his town and before his death a couple of years ago a much talked of candidate for congress; father of a family of boys at his death and worth over a hundred thousand. Jos. Love, the ex-laughing landlord of the Union hotel; and other now prominent citizens of western Iowa. If there is anything a man can feel grateful for, it is the kindness shown him when he was a ragged, hungry boy, and in the death of Mrs. John Brown a number of the boys of years ago will recall her great kindness of heart, and even better appreciate her goodness now than at the time they were the recipients of it.

College Notes

A number of new students enrolled Monday for the remainder of the year. Among the number who have been here before were, Miss Nellie Whaley, Louis Podany and Miss Bess Jay.

Dr. C. H. Taylor of Yankton, S. D., an old time friend of Prof. J. M. Pile, called at the college one day last week.

George Newton, a Bostonian, was a visitor on the hill recently. A certain young lady is very reticent as to his intentions, but we guess—

Miss Ora F. Dugger, who was at the head of the Model school for two years, writes that she has purchased the relinquishment of a well improved Kinkaid homestead and, together with her father and mother, will reside on it.

Robert Elliott, whom Wayne people remember so well, has been elected principal of the Junior Normal at Broken Bow. Robert will be superintendent of the schools there the coming year. This is a great promotion for a well deserving young man.

The faculty are now at work on the commencement program. The largest class in the history of the school will graduate this year, which is most gratifying to the present management. The Commencement exercises will be carried out as planned by Prof. J. M. Pile.

Miss Charlotte M. White spent a day with us this week. Miss White recently fell and broke her left arm but despite this accident, she is the same cheery individual we have always known her to be. She is a rare woman, and one whose friends are legion.

Prof. Bright gave a most interesting talk on Switzerland Saturday at one o'clock. This week Mrs. Pile will give the one o'clock lecture on "Pars." Talks of this nature are most entertaining and instructive. We believe much more so for the fact that these parties have visited these places and their descriptions are more vivid, being given from personal observations.

The Pierce Call, edited by one of the most brazen-faced prevaricators among the postoffice editors of the country, prints an alleged statement that Gov. Shallenberger last fall announced that he would not run for governor unless he had the support of the brewers, and thereat berates the governor because he signed the daylight saloon bill, and repudiated his alleged campaign promises to the brewers. Gov. Shallenberger denied, most positively, that he had promised the brewers anything, more than he was not a prohibitionist and that he believed the Slocum liquor law was a good measure, and the brewers have been unable to bring forward a thread of proof that the governor made any such pledges. Editor Brande is about as cold-blooded a firstclass liar as ever fumbled with a shooting stick, and the wonder is, that people who are well-informed through the medium of the daily press, will allow him to live in an honest, law-abiding community.

Carroll Will Celebrate.

But it will be on next Monday instead of July 4th. This will be the last day of the Carroll saloon and both the "wets" and the "drys" will observe the occasion with fitting ceremonies. The DEMOCRAT is told that John Mellick and Jud Bailey will act as referees for the "wets," and what they say goes. Marshal Dan Maher will be "chained up" and not allowed to interfere with the unconfinned joy of the "dryites." People of Wayne and Winside are cordially invited to attend either function they care to affiliate with. The "wets" will be watered and the "drys" "salted" and all will go merry as a Dutch wedding.

LOCAL NEWS.

Jimmy McGinty says he has quit railroading and is going on a farm adjoining his uncle, M. T. Healy's place, near Loretta, Neb. His mother and the rest of the children will make their home there.

County Attorney A. R. Davis states that in the matter of the row at Hoskins, between Aug. Deck and Ziemer, he used his best judgment in the prosecution; but that Mr. Deck's desire to have further prosecution instituted would be left to an outside, judicial mind of years of experience in such matters, and that the affair would be again taken into court or dropped as this referee saw fit. The DEMOCRAT has had no desire to embarrass the county attorney in the slightest particular. It perhaps is possible for a newspaper to make it disagreeable for a prosecuting official for the public; one who is also presumed to defend the public as well as bring actions against offenders. It will be observed that this paper's criticism of last week was all hinged upon the little "if" Mr. Deck's story of the fracas is reliable.

Dr. Lutgen, physician and surgeon.

Thos Rawlings was in the city Monday morning on his way home from Magnet.

Miss Charlotte Larison and Frankie Conger left Monday to resume their studies at Grand Island college. The former has entirely recovered from the injuries received by a car window falling on her with the exception that her left eye is weak and a little troublesome.

Mr. and Mrs. Roy Jeffery went to Belden Monday for a visit with Mrs. Jeffery's sister.

"Senator" A. Beck left Monday for Lynch to look up his saloon business there which is run by Ed. Williams.

Get your saws sharpened or your sewing machine supplies at Wm. Broscheit's novelty works, north of the German store.

L. M. Owen, on Monday shipped out 100 head of the smoothest, fattest and evenest bunch of steers he has fed during his years of experience. They were certainly a prime lot and looked good enough to top the market of the universe.

Louis Ziemer was a visitor from Hoskins Monday morning and called to give his version of the fracas he had with Aug. Deck. Mr. Ziemer says the trouble started in the saloon over an account that Deck owed and paid, there being change of 75 cents going to Deck out of a \$5 bill. That after giving Mr. Deck the change the latter denied receiving it. This brought on a volley of abuse from Mr. Deck and an invitation from him to Ziemer for the latter to get out in front of the bar. Young Ziemer said he never paid any attention to such talk from a drunken man, but as Deck was sober he walked around the bar and he noticed Deck had an open knife in his hand. Later in the evening, but in a well lighted street, he met Deck and gave him a "licking" with his naked fists, nothing more. For this he paid a \$5 fine in Hoskins and a \$10 fine in Wayne. He said further that this was the first fight he had got into since a kid and no one else was responsible for his assaulting Deck. Ziemer is a small man of about 25 years, and Deck a large man of probably 55.

Wayne county friends of Mr. and Mrs. Cal Ritchey were very sorry to learn, last Saturday, of the death of their infant daughter, Mildred, at their new home in Gregory, S. D., where the family moved to a few weeks ago. The little one was only seven months old, the physician ascribing her death to catarrh of the bowels. The family with the exception of the eldest boy came to Wayne Sunday morning, the funeral being conducted by Rev. Parker Smith. Mr. Ritchey was in Wayne three weeks ago shipping his goods to Gregory. He tells the DEMOCRAT that the baby took sick during his absence and that everything possible was done to save its life, they having a comfortable house, and a good physician in attendance.

The matter of revenue to run the city to pay for school expenses, for United States revenue, or for any pecuniary benefit whatever, cuts no figure in the argument for or against the saloon system. The man who would take saloon license money—the price of the wife's tears, the children's hunger—for the sake of having saloons, is—well, the description of him wouldn't look well in print as coming from the DEMOCRAT. It is not a question of finance, although if all tax and license were removed there could be no saloons, but a difference of opinion as to the dividing line where the man-made law conflicts with the personal rights of the individual; and whether a law abhorrent to the public and much disabused is not of greater injury to the people at large than the ridiculous and offensive system of high license. The "simple life" as applied to the liquor question would obliterate it entirely.
