Committee Reported Unfavorably

At the special city council meeting held Monday evening the committee appointed to look up the proposition of buying the old Wayne bank building for city purposes, reported unfavorably on the plan, and it was therefore discarded. This is only part of the story, however, it being a good deal like that verdict of a Mississippi coroner's jury that three negroes who had been lynched, committed suicide. Last Saturday or Sunday Dell Strickland went to Madison and engaged the services of Wm. V. Allen to get a temporary injunction against the city buying this property. The application was signed by J. W. Mason and Henry Kellogg, as well as Mr. Strickland, and Monday afternoon Atty. Allen came up from Madison and filed the application before Judge Welch, and the date of hearing on the temporary injunction was set for April 21st. Hence, Aldermen Strahan, Kingsbury and Jones didn't care to have the deal closed up on Monday evening last. The Democrat has found considerable objection to this deal on the part of business men of the town, as one man puts it "it is the biggest piece of damnfoolishness he ever heard of." If the property was bought as an investment it might be all right, but as a city hall or public building there is not much to it.

Local News.

Ex-Gov. Hoch of Kansas and Gov. Folk of Missouri will address the Teachers' association at Norfolk, April 1st. This will be no joke, and a large number aside from schoolmasters will go to hear the famous politicians.

"Nin" Owen and family leave next Sunday for Los Angeles, Cal. for the benefit of Mrs. Owen's health which has been poorly for some time. "Nin" says he does not know what he will do, but will be able to do something, and then again he will be there to see the big fight.

Mr. and Mrs. Curt Benschhof and Mr. and Mrs. Art Auker drove down from Winside Monday in the former's big touring car.

Farm for Sale 3 miles from Wayne, also property 3 blocks east of M. E. church. John Gustafson.

Randolph Enterprise: W. A. Hansen was up from Wayne the first of the week and closed a deal wherein he becomes sole proprietor of the Wayne shop. The Randolph meat market formerly owned by Hanssen Bros., is now owned by G. A. Hanssen and T. M. Kaiser under the firm name of Hanssen & Kaiser.

Leonard Elsinger and Senator Beck were Tuesday passengers to Omaha.

M. T. Munsinger went to Tabor, Io., Tuesday to ship some personal property to his farm north of Wayne.

L. L. Way and John Kay went to Omaha Tuesday and yesterday brought up a 40-horse power Oakland auto that Mr. Kay will use in his auto livery this summer.

The Rural Home Society was delightfully entertained by Mrs. Parry on last Thursday. After an elegant three course dinner had been served the afternoon was spent in work for the hostess and in pleasant conversation. Mrs. Vincent was an invited guest. The next meeting will be with Mrs. W. A. K. Neely, April 21.

Rev. Ringer was in Sioux City Tuesday. John Larson moved into his new residence this week, the best appointed and most elegant home built in Wayne in recent years.

The postoffice at Bloomfield was robbed last Saturday morning about 4:30 o'clock, the safe being blown open and some \$700 being the booty.

Plankinton South Dakotan: Mr. and Mrs. Frank Cooper of Carroll, Neb., arrived Friday evening and have taken possession of their farm south of town known as the Moon farm. They will be warmly welcomed to Aurora county.

Charley Johnson, formerly a member of the Wayne bar, was in town Monday and Tuesday, from Council Bluffs, where he runs a road house.

Editor Closson was a visitor from Carroll Monday.

Hon. J. J. McCarthy of Ponca was in Wayne Tuesday enroute up the branch line.

Dan Maher was down from Carroll on Tuesday.

County Superintendent Mrs. Littell went to Carroll Tuesday to teach school because of the illness of a Carroll teacher.

Flem Cunningham of Bloomfield was a passenger home from Omaha Saturday, having had a carload of hogs to market for which he got \$10.65, or \$1975 for the one car.

Geo. Wadsworth was dangerously ill last week but is now on the road to recovery.

John Grimm, a pioneer of Wayne county, living southeast of town, died last Monday night.

Fred Philleo was in Pender on Tuesday.

Mrs. C. N. Chubb, daughter of Mr. and Mrs. Franz Moses returned to Sioux Falls Tuesday.

Geo. Timson and family left Monday for Tabor, Iowa, to attend the funeral of his father.

John Grier and Magnus Paulson were in Sioux City Tuesday.

Henry Kellogg left Monday afternoon for Smith, S. D., where he will put in several weeks on the farm with

Farmers in places are complaining that the corn that remained in the fields all winter has soured and that the hogs won't eat it. Now, who would expect \$11 hogs to eat bad corn? Guess the hogs are not so cheap as all that.

Lillis is just like that LeMars man, he wants the rest of the world to understand that he is all right.

Perhaps if some of these high-toned females had something besides poodles to fiddle we Cudahy had less scandal among the millionaire blods.

The Madison Post thinks the "injured husband" is always the last person to hear about it. Yes, and some of the uninjured hear about it a long time before it happens.

Some facetious wag of the town wants to know whether it was a city hall or a "hall."

Well, if the new city administration doesn't let the "lights go out" for four years the town will still have money to burn.

A Madison man, says the Post, told us this story which he says was told him by a preacher. "A preacher was crossing the ocean when a storm arose. The waves beat the ship until it seemed they would crush it. The peril was great, and many, believing that only help from above could save them, dropped to their knees. Among them was the preacher. "Oh, Lord," he prayed, "calm the waves, and deliver us safe on shore. I promise you, Oh Lord, if you will save my life, I will give up preaching and go to work and make an honest living."

A dry goods man at Superior, Neb., sent an order to the "Wayne Hose Co.," and the letter was put into Harry Fisher's mail box at Wayne, he being chief of the fire department at this place. The Superior man wanted a lot of hose that he could retail at three pair for a dollar, and the local fire chief sent him back a facetious reply; that he could fill the order for hose but that it might not stretch properly to fit Superior girls' limbs, etc. The letter should probably have gone to an eastern ladies hose manufacturer.

Illinois preacher, resigned after his congregation had egged him. Probably got sore because they were so eggstravagant.

Love letters by telegraph is the latest. The cheap skates who are afraid to go and see 'em can now send quite a bunch of "love" by telegraph. You can send fifty words of it at the same rate heretofore charged for ten words. But you have to do it in the night time, and that is the worst time to "make love."

It was a game of ten come even with the hog and the seven came.

No matter how high pork goes there will always be a lot of people who are "on the hog."

Well, the baseball season is going to bother the Sioux City papers before they get through with the city elections.

We read of the iron age, the wooden age, the rock age and other ages, but we seem to be living in a "less" age. Today we have the horseless carriage, boneless codfish, seedless rapins, wireless telegraphy, fireless coopers, hornless

Fred Pile and J. G. Mines were Monday arrivals from Omaha.

D. Gandy went to Stanton and Chas. Siefken to Pilger Monday.

Misses E. M. Donberger and Anna Sund spent Sunday with Norfolk friends.

Adam Grier was called to Viola, Kans., Monday to attend the funeral of his father. The old gentleman was past 88 years of age at the time of his death.

Fred Eickhoff entertained a big lot of his friends at a three course supper last Sunday evening in honor of the baptism of his baby son.

Randolph Enterprise: M. F. Harrington of O'Neill was in the city Saturday looking up evidence in a damage suit to be brought against John Schram, the Belden saloon-keeper, by Mrs. Thos. Casey. It will be remembered that about a year ago Thos. Casey was run over by the evening passenger on the Burlington just this side of Warham, and died from the results the next morning. It is now alleged that he procured the liquor that was found upon his person while intoxicated at the Belden saloon, and we are informed that an action will be brought to recover damages from the proprietor.

W. R. Gillette, from east of Carroll, was in Wayne Saturday getting advertising matter for his mammoth Spanish jack that he will put into service this season.

Ed. Carroll of Randolph and Lou Kloppling of Osmond were among Saturday visitors to Wayne.

John Good went to Cherokee, Io., on Saturday to meet his grandfather who will make his home here.

J. G. Mines and E. F. Feather were in Norfolk last Friday night.

R. W. Ley went to Crystal Lake Tuesday, taking a brooder full of young fry down to grow up and feed the summer guests.

Mr. and Mrs. Oscar Milligan were in Wakefield Sunday to visit Mrs. Milligan's sister, Mrs. Chas. Long, who is helpless from years of illness with rheumatism.

P. H. Kohl left Sunday for Chicago.

Prof. and Mrs. Bright and Bert Brown were in Winside Saturday night.

Theo. Larsen and Will Hanssen shipped cattle to Omaha Tuesday.

Editor Woodruff was a Tuesday visitor to Sioux City.

Having taken the agency of Fahrney's Medicines, formerly handled by Rudolph Heft, you can get these medicines by calling at my house or phoning 812.

Carroll Baptist Church Notes

Last Sunday was another ideal day. Sunday school and church services were well attended.

Rev. Wolcott returned to his home on Monday. The revival closed Sunday evening with five candidates for the ordinance of baptism which will be administered next Sunday evening. Rev. Wolcott received \$64 for his services. He was well received by both saint and sinner, as so many compliments were paid him for his zeal and forcible yet pleasant way of presenting the gospel.

He endeared himself to the people of our church who gave a hearty vote of thanks to the Sumner church for his services during his three weeks of labor. The church was delighted the way the Methodists dismissed their services and came over and rendered such valuable aid by singing and offering.

What an awful bluff those insurgent congressmen put up on their constituents. Even Uncle Joe damns them for it. But the voters will no doubt believe in showing the country what they could do to Cannon and didn't do to him, is all that is required—in the interests of party solidarity.

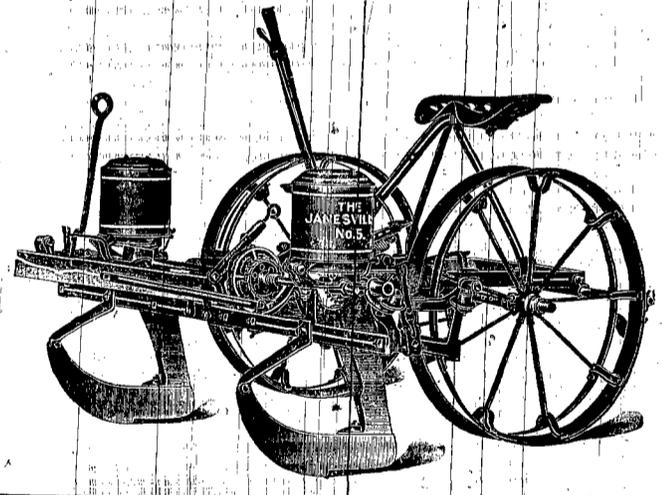

A Special Shipment OF Ladies' Long Coats Received Today!

The Janesville Variable Drop Corn Planter

2, 3 or 4 Kernels to the Hill Edge and Flat Drop Combined

The Variable Drop device means this, by operating a small hand lever within easy reach it is possible to regulate the driving mechanism so as to turn the seed shaft one-sixth, one-fourth or one-third of a revolution, which will give you 2, 3 or 4 kernels to the hill. This last great improvement in Janesville Corn Planters insures great uniformity of crops and economy in seed, because it provides absolute control of the distribution according to the character of the soil. Unlike most of the machines that are now being offered to the trade the Variable Drop device on the Janesville Corn Planter is not an experiment. We are among the very first to develop any thing of this kind and our device has been thoroughly tested and found practicable.

Other valuable improvements are as follows: The quick change from hill to drilling without leaving the seat; both kinds of plates furnished with each machine, edge and flat drop; automatic operating reel in taking up and letting out of the wire; interchangeable runners from shoe to disk; chain or gear drive as desired; complete line of attachments, such as fertilizer, shovel covers and furrow openers. In fact a complete line of Planters in every way.

We Have a Sample in Operation. Come and See It.

It looks as though the democrats had another chance. Of course there is always the fear that the democrats will not make the most of it.

doesn't get too busy with other things, can create a family of 3,000,000,000,000,000,000,000 in six months. If Miss Smallwood really believes that she should stay away from Sunday school picnics.

An exchange says: If all the people who have taken a piece of money from the school book trust were to meet in

hell at the same time there would be a great scramble for the cozy corners.

Ballinger says there is coal enough unmined in this country to last 7,000 years. The trouble is that some of us, when we change our location, don't expect to go to the warm climate for which Ballinger is headed.

Have you Taft-Cannon republicans heard from Massachusetts?

Patriotism and love for the dear old flag may be all right to teach the school children, but we notice from long years of observation that the only way you can make the American people take more than a passive interest in their country is to pinch their bellies or their pocket-books. It's the almighty dollars that we love most, by dad; and we don't wake until the thieving politician, whom we have elected to office, is dividing the swag with his employer, the corporation and big interests.

One thing we hope the new city council will do when they get through closing saloons, and cigar stores, restaurants and picture shows on Sundays, is to pass an ordinance prohibiting any town cock, Methodist or Baptist, from crowing before 6:30 a. m. This thing of having an M. E. and Baptist rooster singing their hymns an hour before day light isn't exactly to our liking. Old Standard Oil has found means of stopping lots harder things than that.

"Everybody" says that five times the output of gold now that there was fifteen years ago, is responsible for the high cost of living. Everybody will believe that excepting Taft republicans who lay the cause to the insurgents' fight on old Joe Cannon.

Pinchott slipping away to confer with Teddy looks very promising for "little Willie." Wonder if there is enough hair-brained voters in the states to want Teddy to be it again?

Forty-five killed in a wreck in western Iowa looks nasty. Better stay at home and take chances on pneumonia and appendicitis.

Tom Bell is riding the water wagon again, the real thing. When Tom rides the water wagon we do not have to take beer to wash the dust down.

If the incoming city administration—which has no opposition for election—can do as well for the town in the next three years as the present board has done the past three—well, the new mayor and councilman will have to surprise us. Three years ago, when Mayor Henry Ley took up the reins of city government—which he had only dropped long enough for them to get all tangled up—everything connected with the city was in rotten shape. Debts of all description were piled up against the credit of the town; incompetent city employees had raised hell with the light and water plant; everybody was knocking on the city owning public utilities, etc., and it was not a very pleasant situation for a newly elected mayor and council. Perhaps you never heard about it, but the writer had something to do with getting Mr. Ley and the councilmen of 1907 to agree to "run for the offices." C. M. Craven was leaving one morning for Chicago and in a talk with the Democrat man—C. M. didn't get home until after election—asked us to go to Link Neely and get him to run for alderman in the 2nd ward, and in that way bring pressure to bear upon Henry Ley to accept a nomination for mayor. Instead we went directly to Link Neely and told him that Mr. Craven had stated that he, Craven, would run in the 3rd if Neely would take a shot at it in the 2nd; and that if both would make the race—against the biggest bunch of prohibition ever seen in day light—C. A. Chace could be made to stand for it in the 1st ward, and "between the whole bunch" Mr. Ley would simply have to take it. The scheme worked o. k. until it came to Ley, he hung back until late in the day but finally capitulated. The result is, well known, the anti-saloon league was chased clear off the field, leaving their dirty ammunition behind to pollute the air for several months longer. But this isn't what we started out to write about—to fill space—but to just watch the course of future events and see if the past can be duplicated. There has been considerable criticism of the present city council buying a building for city purposes. As the Democrat understands it the principal object the board had in view was to invest some seven thousand dollars surplus money that is left after putting in a sewer plant, getting the power plant in good shape, putting in about all the street crossings needed, buying a \$400 team and other personal property that the municipality now owns. The city dads are right in spending this money for the town's benefit and undoubtedly will find a way of disbursing it. If we are to have a dry town and an anti-saloon, prohibition council, too much money will be a very bad thing for them to start in on.

Marshal Miner Was Mad.

Marshal George Miner got an early call yesterday morning, just as he had nestled into bed from his night on the street to arrest an eloping couple from Bloomfield due in Wayne on the 6:30. The marshal made the catch alright, the boy, H. L. Meyer by name, being apparently about eighteen, and the lady, a Miss Clopp, evidently older and much the larger, being much chagrined when taken up on the hill. Parties at Bloomfield telephoned they would be down after the runaways on the 1:30 train, but no one appearing and no message being received by the marshal he released the young couple and they flew east on the 2:30. Then the wires got hot to Bloomfield, the party at the upper end making some fool excuse for not sponser notifying the local marshal to hang onto the birds. "Then why-in-hell didn't you phoned them?" was a sound we heard from the local booth. Our doughty sleuth also demanded that

Mrs. Emil Weber Dead

Wayne people were shocked yesterday to learn of the sudden death, at Laurel, of Mrs. Emil Weber, who died some time during the night previous. Tuesday evening Mrs. Byron Hois was at the Lathrop home, where Mrs. Weber had been visiting several days, and they had a merry little party. Wednesday morning she was presumed to be sleeping late and no effort was made to arouse her, therefore it was long after death had taken place that the real conditions were known. The remains were brought to Wayne today and arrangements made for the funeral, which will probably not be held until next Monday.

Song Recital by Miss Helen Abbott of Chicago

A number of the musical people of Wayne have arranged for a song recital to be given on Friday evening, April 1st, by Miss Helen Abbott of Chicago. Miss Abbott holds one of the most important choir positions in Chicago and is a singer who has won recognition from the best musicians and critics in the country. It is thought that this recital will be held in one of the churches but the place will be announced definitely later.

Roe & Fortner to Quit

Lambert Roe tells the Democrat that Saturday night, March 26th, their butcher shop will close up business, that they have worked long and hard enough at such arduous toil and will go into other business. The shop will be re-painted and no doubt leased to some other butcher who wants to make a "steak."

Red Pile spent the week end in Omaha. His fraternity, the Phi Delta Theta held a banquet at the Omaha Club Saturday evening.

The campus is being raked, the trees trimmed, etc., so that in a few weeks the Hill will be one of the most beautiful spots in Wayne.

More than thirty students were taking county examinations Friday and Saturday of last week. Several will teach spring terms, but the majority are getting their certificates early so they may contact for schools this fall.

Already, applications are coming in for teachers for next year! This is evidence that school boards are anxious to secure good teachers.

In looking over the roll of prospective graduates, we find there are more than ever before. This is certainly very gratifying.

Prof. and Mrs. Bright spent Saturday and Sunday with relatives in Winside.

The special literary program given on last Saturday evening was quite a unique affair. It was after the manner of a regular teachers' association and was called the N. N. C. Teachers' Association. The papers given, and the discussions were splendid.

A number of the faculty and students will be in attendance a part of the time at the Norfolk Teachers' Association next week. Several members of the faculty are on the program.

Robinson-Larsen

Mr. Ray Robinson and Miss Ida Larsen, were united in marriage on Wednesday March 23, 1910, at St. Paul's Lutheran parsonage by Rev. C. J. Ringer. Both young people are well known and highly esteemed. The young couple will make their home on the Lund farm two miles northeast of Wayne; where the well wishes of their many friends will follow them.

On Saturday evening the Teachers' League was entertained by the Misses Schwerin, Gibbs and Wallace at the spacious home of Mr. and Mrs. F. H. Jones. The affair was made more enjoyable by the celebration of St. Patrick's day, although two days late. The house was decorated in green, the Shamrock being greatly in evidence. Festoons of green adorned the dining room and chandeliers in the various rooms were covered with green. Guests upon their arrival were shown the famous "Blamey Stone," each embracing the opportunity of making its acquaintance. Irish games, including a "Snake Hunt," Irish stories, music and a reading comprised the evening's entertainment. Dainty refreshments were served after which the guests departed, having spent an enjoyable evening.

A Prince of Sweden

The opera house will be the scene of merriment and laughter March 26th when C. S. Primrose will present his clever company of comedians, singers and dancers in the best Scandinavian-American comedy, "A Prince of Sweden." This is a four act comedy which has been drawing crowded houses since the season opened. The comedy and musical elements are unusually strong and the company is said to bring out all the fun that is in the piece, while the roles are in the hands of all clever people and this attraction should do good business as the press and public have nothing but praise for it.

Lesson—VI—Salisbury's "Theory of Teaching," Chapters 24-27

Directions to Teachers

Each district is provided with an herbarium with directions for taking care of specimens. These have in them a number of the fall plants but none of the spring flowers. Each teacher will be expected to have her pupils add five specimens to this herbarium this spring. If there are no mounting sheets, there are plenty at this office which may be secured by calling for them. It is our intention to visit all the schools this spring and these herbariums will be inspected at that time.

At any time when a teacher leaves a school district it is necessary for her to make out a term summary. No teacher will be permitted to teach in Wayne county again who fails to do this correctly. Every item is important. The mistake usually made is that of giving totals instead of separate items. For instance, the item "Total Number of Days All Pupils Attended," followed by three blanks, headed Males, Females and Totals, is useless for the state report if only the total is given. Directors are notified not to pay the last month's wages until they have signed this report.

School boards are beginning to secure their teachers for next year. Do not contract until your certificate is earned for next year.

Remember the County Association meeting on the 26th of March. A good program is planned and you cannot afford to miss this the last meeting of the school year. Come prepared to take some question at the Round Table. Perhaps all questions cannot be

disposed of satisfactorily but surely some help can be derived from general discussion of any subject.

Your school board will be asked to give you two days to attend the Norfolk meeting. If you can attend ask them for the time in as tactful a way as possible. Let them know that you want the time because you honestly feel that you will be better fitted to teach their school for it. If you do not feel that way don't ask for the time. On account of the inclemency of the weather very few of the teachers attended the Emerson meeting and for this reason more ought to attend the one at Norfolk.

There will be a corn contest again this fall and it is nearly time for the boy who intends to exhibit to begin his work. He can select his own seed from corn grown on the farm last year, or in any way that to him seems best. plant his acre of corn, take care of it this summer, and be ready to enter class A—best ten-acre exhibit—next fall. Will you, as teachers, kindly call the attention of the boys to this and send the names of as many as are interested to this office that they may receive from time to time the bulletin on seed selection, corn cultivation, etc., that the state department issues. Do not put this matter off as it is almost time to begin work.

Teachers seldom realize the devotion and emulation that young children are apt to bestow upon them. To most children the teacher is the best and wisest person in the world. Her word is taken absolutely without question in all things. If she is not worthy of this what a rude awakening her pupils will have some day. Are YOU meeting this unsought responsibility the very best you can?

School Notes

Two or three of the schools in the county will need teachers for the spring term. Enquire about them.

Miss Frances Grogan will succeed Miss Moler in district No. 32 near Wisner. Miss Moler was married on the ninth of this month to Mr. John Grier, another proof to contradict the eminent principal of New York who in a recent magazine article made the startling statement that men do not invade the school room for wives. Miss Moler has been a good teacher and while she did not remain in our ranks as long as we would wish she gave us good service.

The board in district No. 69 has added a covered drinking jar to their school room equipment. Clyde Orman is director.

The school in district No. 83 has been closed on account of the scarlet fever.

Miss Grace Lutz is obliged to give up her school on account of the illness of her mother. The district will have a month's vacation and begin a spring term of two months duration on the second Monday of April. As yet no teacher has been secured.

News from the Capital

Lincoln, Neb., March 23, 1910. Special correspondence: The announcement of Congressman Hitchcock's candidacy for the United States senate has brought out several candidates for his congressional seat among the democrats of the Second district. Charles O. Lobeck, city comptroller of Omaha; S. Arion Lewis, a real estate dealer; and H. B. Fleharty, an attorney, have shied their castors into the ring. Mr. Lobeck and Mr. Lewis were formerly republicans but united with the silver republicans in 1896, and afterwards affiliated with the democratic party. Mr. Hitchcock's candi-

dacy has been well received throughout the state. W. H. Thompson is already an avowed senatorial candidate, and William B. Price of Lincoln is showing symptoms of a desire to get into the senatorial primaries. There are rumors that George W. Berge may yet announce himself a candidate, and considerable pressure is being brought to bear upon Richard L. Metcalfe to announce himself as a candidate.

The spectacle of Rev. Mr. Ludden, the preacher-political-secretary of the Normal school board threatening to revoke the certificate of a teacher who dared to criticize the action of

the board is merely what might be expected from that source. Professor Cline, against whom the threat was issued, has called the Ludden bluff, and if the preacher-secretary should attempt to make the threat good it is highly probable that Professor Cline will bring action for attempted blackmail. The resignation of President Crabtree has been accepted, but he will continue at the head of the Peru Normal until the end of the school year.

A majority of the county assessors met at the state house the first of last week and consulted with the attorney general concerning the interpretation of some sections of the revenue laws. With the exception of three or four assessors all were well satisfied with the law providing for the election of precinct assessors. The tax-shirking corporations are not well satisfied with the law, however. Under the old rule they had no trouble in securing the appointment of precinct assessors who would "do the right thing," but now that the people elect, the aforesaid corporations will have to bear their proper share of the tax burden. The republican assessor of Lancaster county criticised the precinct assessor law very bitterly, but the answer to that may be found in a recent list published by the State Journal, showing how the aforesaid assessor has failed miserably to properly assess a number of men now deceased.

When Warden Smith prepared the supplemental contract providing that the shirts made in Nebraska should not be sold in Nebraska in competition with the shirts made by free labor, State Treasurer Brian, a member of the board, refused to sign it. He gave as his reason for refusing that he "didn't care a continental where they were sold." Mr. Brian is a stand-pat candidate for congress in the third district. Secretary of State Junkin is spending a good share of the state's time building congressional fences for himself in his district—the Fifth. Mr. Junkin is a stand-patter of the first order, and anything bearing the Aldrich-Cannon trade mark will be accepted by him as inspired.

Food Commissioner Mains has made it clear to Creamery managers that any cream tester who has been found guilty of making false tests and reports cannot work at that business. A creamery manager who employed a tester discharged by Mains has found to his sorrow that his license is being held up pending the crooked tester's discharge.

The railroads in Nebraska have issued notice of the issuance of a 2,000 interchangeable-mileage book, good on twenty-five western roads in the state of Nebraska, Kansas, Colorado, Wyoming, Missouri, Oklahoma and Texas. One coupon per mile will be pulled in Kansas and Nebraska, three for two in Missouri and Oklahoma, two for one in Colorado and five for two in Wyoming. The books are punched with the description of the purchaser. This will be a big accommodation to the traveling public, and especially to commercial travelers.

Among the laws passed by the last legislature is House Bill 512 which is an act seeking to regulate, supervise and control the affairs of Fidelity and Surety Companies. In recent years the business of bonding companies has become important. These surety companies are doing a large business in Nebraska, as a matter of fact, nearly all bonds are now given by surety companies. About January 1, 1908, the various surety companies doing business in Nebraska made a general advance in their rates. In some instances, their rates were increased as high as three hundred per cent. There was a general advance in all rates, for example, the bond of the State Auditor was increased from \$49.00 in 1907 for a biennium to \$237.50 in 1909 for a biennium. The legislature passed a law attempting to correct and control this evil. It created a commission consisting of the Governor, the Attorney General and the State Auditor and authorized this body to make an investigation of the rates that were being charged by surety companies, and also make investigation as to the general affairs of the surety companies doing business in Nebraska. This board made an investigation and the information secured in this inves-

Wayne Debaters are Beaten
"We Must Beat Randolph" became what the teacher said thirty years ago was an impossibility, "can't." Randolph had two girls and a boy come to Wayne last Friday and the evening of the same day they put our boys, Jimmy Britton, Herbert Welch and Harry Gidersleeve away to the bad—as the judges decided it. Local parties, who could be relied upon to stand up for our boys, say that Wayne won—at least put up the best end of the contest, etc. However, the judges, from Sioux City, Tekamah and Ponca, scored Randolph as producing the real "Henry Clay" of the evening. Randolph being a dry, sanctimonious town may have had something to do with it, but the Democrat believes that any girl of the present school generation is easily worth a half a dozen modern, pigeon-toed, hair-tufted boys, but then there is opportunity and time for improvement.

School Notes

"It costs a lot to raise a child and he ought to be made worth it."—Francis J. Gobel.

Examinations this week. Our high school boys will cross bats with the Wakefield high school nine on the local diamond Friday afternoon at 3:30.

Anyone wishing to start pupils in the kindergarten this spring may do so, but it will not be any advantage over starting them next fall since they will likely have to remain in this work all next year.

Our high school Agriculture class will test free of charge not to exceed a bushel of seed corn for any farmer who will bring in his corn for that purpose, the corn to be carefully and accurately

tested, each ear separately, a definite report to be made and every ear to be returned to the owner. Farmers, give us a trial.

Local News

Mrs. Frank Gaertner returned Tuesday evening from Omaha where she has been taking medical treatment for several weeks.

A report is about town that an Emerson man was robbed in Wayne last Sunday. All there is to it is that an Emerson man and his jug of booze arrived here last Sunday in a box car, the man carrying quite a jag—as well as a jug, and that he claimed to have been robbed of all his money, \$35, when he left Emerson. He probably traded the coin for the "killer."

The Democrat is told that Chas. Steffen has purchased a hardware store at Pilger, F. L. Neely now assisting him in the business. Mr. Steffen was in the hardware business before going on the farm.

Do You Know Do You Want

That thousands of dollars worth of property is annually destroyed by lightning which could be avoided.

That lightning rods properly applied are a sure protection against loss from lightning.

That there is a great difference in lightning rods, and not everything called copper cable is a sufficient conduction for a heavy charge.

Also have steel section rod and write insurance in the Farmers State Mutual.

Your building protected against lightning.

Do you want the best there is obtainable at a price usually charged for a light cable? If you do give me a chance to talk to you and show you the difference. I carry a lot of different samples of all kinds of rods and while I don't claim to have the only kind, that's good, I always am to have the best there is obtainable.

See that 40 strand 1/2 inch cable before you buy.

Real Live Washington Gossip

(By Tavenner)
Washington, March 24, 1910.
(Special) What would you think, Mr. Business Man, of a commercial firm that made a daily practice of spending all the way from \$100,000 to \$1,000,000 more than it took in?

If you were a stockholder of a concern, the books of which each night showed a balance on the wrong side of the ledger, would you not desire to sell your stock? And if the practice of reversing profits should be kept up day after day, week after week, month after month and year after year, you would be most

likely to demand a reorganization of the business methods of the concern, would you not?

On the day this article is penned, Uncle Sam's excess of all disbursements over all receipts amounted to \$133,574.30. So far this fiscal year, which began July 1, 1909, the men in charge of the government have over-spent the receipts by \$45,281,314.87. Since the beginning of the fiscal year 1908 the expenditures of the government have exceeded the receipts by \$190,877,082.24.

Where, inquires the layman, do these amounts represented by the excess of disbursements over receipts come

from? How does it come Uncle Sam doesn't become financially embarrassed?

The government has but one source of revenue, and that is the people. The shortage represented by the difference in disbursements and receipts is taken from what is known as the general fund. At the beginning of the fiscal year 1908 the amount in the general fund was \$272,061,145.47. Today the general fund has dwindled to \$51,088,813.23.

Anticipating that the general fund will need replenishing from time to time (particularly if the Republican machine is to be kept intact,) the party in power has arranged for the issuance of bonds. This is not a solution of the deficit problem. It is merely borrowing to pay the losses resulting from extravagance, instead of stopping the extravagance to prevent going into debt.

Here are a few comparative figures which best tell the story of progress in Republican extravagance:

Year	Annual Appropriation
1890	\$ 340,000,000
1900	600,000,000
1909	1,102,387,508
Per Capita Cost of Running Government	
1890	\$ 6.00
1900	8.00
1909	12.40

Nebraskans interested in the cause of county option and prohibition will be surprised at the recent special election held in Kearney on the subject of saloons or no saloons. Kearney is a state school city, had been dry, and last week voted to go wet again. This kind of knocks the theory that a state university town should or must be prohibition, and it also proves that prohibition is largely a humbug as restricting or prohibiting the sale or consumption of intoxicants. The best posted men on Lincoln as an example of prohibition state that that city will go wet this spring.

Charley Martin Fires Up

The fire bell rung with a vim Monday afternoon all due to Charley Martin's carelessness in not looking after a bonfire he had built at the rear of his home and which communicated to the coal house, paint house and out house on the Mrs. Henry Meyers property, which is occupied by Art Norton. Aside from the destruction of the buildings Mr. Norton lost a lot of fuel, oils and some paint.
